OVER 55 MN TAX RETURNS FILED FOR AY27

OVER 55 MILLION income tax returns (ITRs) were filed for Assessment Year 2026-27 (April-March) as of early Friday, the last day of filing, the income tax department said in a post on X. Over 4.2 million ITRs were filed on July 30 alone, it said. Last year over 70 million ITRs were filed till September 15, after the due date was extended from July 31. The number of individual registered users topped 140 million as of July 30.

PM-SETU PICKS UP BUT 178 ITIs NOT YET NAMED

NEARLY A YEAR after the Cabinet approved the ₹60,000-crore scheme to upgrade 1,000 government-run Industrial Training Institutes (ITIs), states have identified 822 institutes for upgradation with the remaining 178 yet to be brought under the programme. According to a reply in the Rajya Sabha, states and UTs have so far identified 166 hub ITIs and 656 spoke ITIs, totalling 822 institutions.

TAX RECEIPTS OUTPACE BUDGET ESTIMATES

June quarter fiscal deficit at 18.2% of annual target

● Capex up 24%; overall spending flat in June

SHUBHAM RANA
New Delhi, July 31

THE CENTRAL GOVERNMENT'S fiscal deficit in the first quarter of 2026-27 came in at 18.2% of the full-year target as against 17.9% of the corresponding target in the year-ago period, driven by higher capital expenditure. However, the government put brakes on spending in June, which saw flat year-on-year growth in total expenditure, amid concerns that continued uncertainty over West Asia could strain its finances. Economists project the government's fiscal position to come under pressure going ahead with hostilities reigniting in West Asia in July, after a brief pause in June, and crude oil prices rising sharply. The fiscal deficit could even rise above the Budget target of 4.3% of GDP in FY27, but higher-than-budgeted nominal GDP growth and buffers in the form of the Economic Stabilisation Fund should provide some cushion, some of them feel.

According to Controller General of Accounts (CGA) data, the fiscal deficit was ₹3.1 lakh crore during April-June, up 10% year-on-year (y-o-y).

“The first quarter picture of central government accounts shows that the balances are under control,” said Madan Sabnavis, chief economist,

SUBSIDY BILL UP 37%

■ Q1 growth (% y-o-y)
■ FY27 BE over FY26 RE (% y-o-y)

Bank of Baroda. “This is significant because Q1 was the time when there was major disruption on account of the war where there was additional pressure on the fertiliser subsidy front as well as tax revenue when the excise duty was lowered on fuel products.”

The wider fiscal deficit was driven by higher capital expenditure, which rose 24% year-on-year to ₹3.4 lakh crore in the June quarter. Capital expenditure so far has outpaced budgeted growth of 11.5% for FY27. The April-June quarter capex made up 27.8% of the Budget target, higher than the 24.5% achieved for the respective target a year ago.

The high pace of capex in April-June is expected to “augur favourably for GDP growth in the quarter,” Ica Chief Economist Aditi Nayar said.

Revenue expenditure grew

7.4% in April-June to ₹10.2 lakh crore, despite the Centre's total subsidy bill rising 37% in the quarter. The government's total expenditure was up 11% year-on-year in April-June at ₹13.6 lakh crore.

The Centre's net tax revenue rose 17.8% y-o-y in April-June at ₹6.4 lakh crore, even as gross tax revenue growth was much slower at 3.7%. Net tax revenue growth outpaced gross tax revenue because of lower transfers to states.

Gross tax revenue growth was subdued because of a 22% contraction in excise duty collections in April-June, which reflected the impact of the duty cuts on petrol and diesel.

Goods and Services Tax collections were also slow, mainly because of Integrated GST outflows during the quarter. Customs duty inflows surged 36% in April-June, thanks to the import duty hikes on gold and silver.

Among direct taxes,

■ Wider fiscal deficit driven by capex, up to **₹3.4 lakh cr**

■ Revenue expenditure rose **7.4% to ₹10.2 lakh cr** in April-June

■ Centre's net tax revenue climbed **17.8% to ₹6.4 lakh cr**

‘Below normal’ rainfall in Aug-Sept, predicts IMD

● Deficit narrows to 13% after ‘normal’ July

SANDIP DAS
New Delhi, July 31

AFTER A ‘NORMAL’ rainfall in July, monsoon rains are likely to be ‘below normal’ in August-September, the second half of the southwest monsoon season, the India Meteorological Department (IMD) said on Friday, citing strengthening El Nino conditions.

For the whole of the monsoon season, the department stuck to the May forecast of below-normal rainfall at 90% of the LPA.

Rainfall in the range of 94-90% of LPA is considered “below normal”

In May, the IMD revised its June-September rainfall projection to 90% of the LPA, from 92% in its April forecast. It also added that there is an 84% probability that rainfall during the season will remain in the “deficient to below-normal” range. These forecasts will continue to hold. The IMD, however, stated that parts of Peninsular India, Central India, northern parts of northwest India and East and northeast India are likely to get ‘normal to above-normal’ rainfall in the next two months.

This augurs well for kharif crops. Though sowing was helped by normal rains in July, the critical month which usually accounts for a third of monsoon precipitation, there is still a year-on-year deficit of 4% in total cropped area. Below-normal rains in August-September may impact crop yield in many areas.

The government on Thursday indicated the possibility of a strengthening of the El Nino conditions. The IMD said that a moderate El Nino may continue in August, and it may move towards a strong El Nino in September. However, the Indian Ocean Dipole (IOD) may turn positive in September, which may negate the adverse impact of the El Nino on the monsoon, it added.

The actual rainfall in July, when the country received 32% of the total monsoon rainfall, was

1% above the benchmark or in the normal range. IMD had forecast ‘below normal’ rainfall in July. Due to normal monsoon rains in July, has boosted the sowing of kharif crops - including paddy, pulses, oilseeds, cotton and sugarcane - across the country. Till July 24, kharif crops had been sown in 78.73 million hectare, just 4.7% down from a year ago. The improvement in sowing had eased concerns over a sharp spike in food prices.

“Even though moderate El Nino conditions prevailed over equatorial Pacific, there were 24 days of low pressure system formed in the head Bay of Bengal helps to get good rainfall over East central and west Central India,” Mrutyunjay Mohapatra, director general of meteorology, IMD said.

Iran supplied 89,086 tonne, more than three times the previous month's 29,106 tonne. Kuwait shipped 33,147 tonne, while Oman supplied 31,062 tonne. Imports from Qatar stood at 19,323 tonne after no shipments were recorded in June, while Iraq supplied 14,396 tonne.

No cargoes arrived from Saudi Arabia through July 29, compared with 64,293 tonne in June and 183,898 tonne in April. During the April-June quarter, India imported 3.27 million tonnes of LPG, with the US contributing 1.738 million tonnes, or 53.1%. The UAE supplied 454,021 tonne, while Saudi Arabia accounted for 293,191 tonne. Domestic LPG consumption remained above 2.1 million tonnes in each month of the quarter: 2.192 million tonne in April, 2.130 million tonne in May and 2.188 million tonnes in June.

Three-fourths of LPG imports from US now as Gulf share dips

SAURAV ANAND
New Delhi, July 31

THE UNITED STATES supplied nearly three-fourths of LPG imported by India in July, reflecting a sharp restructuring of the country's supply basket as the share of traditional West Asian suppliers fell, commodity intelligence firm Kpler showed.

Between July 1 and 29, India's LPG imports reached 1.15 million tonne, and US supplies accounted for 73% of the cooking gas shipments.

This signals that India has overachieved its target to scale up LPG imports from the US due to West Asia supply bottlenecks. New Delhi had planned to source up to a quarter of its LPG imports from the US by 2027, as part of an energy sourcing diversification strategy, and to address Washington's demands for reducing the trade deficit with India.

The US's share in India's LPG imports has risen rapidly from 39.6% in April to 55.4% in May, 62.3% in June and 73% through 29th of July. Though the base price of US LPG is lower than the West Asian variant, the landed costs

AI boom shields global trade from war

● Merchandise trade value unexpectedly rose 11% in Q1, says WTO/UNCTAD

FE BUREAU
New Delhi, July 31

A MASSIVE GLOBAL appetite for artificial intelligence (AI) technology has kept world commerce afloat, effectively shielding the global economy from severe trade disruptions triggered by escalating conflict in West Asia, according to joint estimates by the World Trade Organization (WTO) and UN Trade and Development (UNCTAD).

Global merchandise trade volume grew 3.2% year-on-year in the first quarter of 2026, expanding 1.9% over the previous quarter. In value terms,

STABLE IN TOUGH CONDITIONS

■ Global merchandise trade volume rose 3.2% y-o-y in Q1 FY26

■ World merchandise trade value jumped driven by a 40% surge in AI-related goods and electronic components

■ Global trade remained resilient despite an escalation in the conflict in West Asia

world trade surged 11% year-on-year, driven primarily by a 40% explosion in trade of AI-enabling goods and electronic components.

The unexpected resilience in global commerce comes despite a severe flare-up of war in West Asia that began in March, severely disrupting shipping routes through the critical Strait of Hormuz, driving up energy costs, and

dampening growth prospects for net fuel-importing nations.

Investment in AI infrastructure proved to be the single largest engine of global trade growth between January and March.

Demand for computing power sent trade in office and telecom equipment skyrocketing by 44% year-on-year, making it the best-performing sector globally. Ores and minerals

also posted strong gains of 27%, fueled by appetite for industrial metals like copper, while general machinery grew 9%.

Asia emerged as the central hub of this commercial surge, recording a 20% jump in export values and volume increases of 12.9% in exports and 14.6% in imports. Much of Asia's momentum is due to the rapid intra-regional movement of microchips, semiconductors, and electronic hardware required for AI deployment.

The pace of year-on-year growth in the first quarter of 2026 was particularly impressive considering that trade in the first quarter of 2025 was boosted by the frontloading of imports in North America ahead of expected tariff hikes. The effects of the Strait of Hormuz disruption on world merchandise trade is expected to become visible primarily in data from April 2026 onward.

OTHER CABINET DECISIONS

₹5K cr for floating solar scheme

THE CABINET ON Friday approved the ₹5,070-crore Pradhan Mantri Surya Sarovar Yojana to develop 5,000 MW of floating solar projects backed by at least 10,000 MWh of energy storage. Capacity under the programme will be allocated until FY30-31, while central financial assistance can be disbursed through FY32-33.

Hike in Khelo India outlay

THE CABINET ALSO approved an expanded Khelo India Scheme and enhanced the budget for Assistance to the National Sports Federations (ANSFs) with a combined outlay of ₹36,441 crore covering the next five years. — FE BUREAU & PTI

Crude never a problem, we're covered for 45-50 days: IOC chair

SAURAV ANAND
New Delhi, July 31

INDIAN OIL CORPORATION (IOC) has raised \$500 million through a five-year external commercial borrowing under the Reserve Bank of India's concessional dollar-rupee swap window and may seek additional overseas funds before the facility closes in December, as below-market fuel sales increased the company's borrowing requirement.

“We have raised \$500 million under the RBI's concessional swap facility and will examine raising more funds through the window, which is available until December,” IOC Chairman Arvinder Singh Sahney said.

The borrowing was completed last week. The RBI introduced the discounted foreign-exchange swap window for external commercial borrowings by state-run companies to encourage dollar inflows and strengthen India's balance of payments. The facility allows companies to lock in foreign-exchange hedges at below-market rates, reducing the effective cost of overseas loans.

IOC's borrowings increased by about ₹20,000 crore during April-June, as the company continued selling fuels at prices below prevailing market-linked costs. The company's funding requirement has also been elevated by under-recoveries on domestic cooking gas.

The fundraise comes as IOC works to protect crude oil and LPG supplies from disruptions caused by the West Asia conflict. The company has tied up crude supplies for the entire month of August and most of September, providing a supply cover of around 45-50 days.

“Crude has never been a problem. We are covered for the next 45-50 days,” he said.

While disruptions affected supplies from IOC's traditional Middle Eastern sources, the company replaced part of the shortfall with crude from West Africa and South America. It has been purchasing oil from countries including Brazil and Venezuela.

Russian crude currently accounts for around 48% of the total oil processed by IOC's refineries, according to a company official. Indian refiners had

increased Russian purchases after discounted barrels became available following the Russia-Ukraine conflict.

IOC is also prepared to continue importing crude from Saudi Arabia through a longer route around Africa if the regular shipping corridor remains disrupted.

“We are prepared to buy oil from Saudi Arabia via a longer African route,” Sahney said.

The diversification helped IOC maintain refinery operations during the June quarter. The company processed 19.165 million tonnes of crude, its highest-ever throughput for the first quarter.

“We had the highest-ever first-quarter crude throughput of 19.165 million tonne. Also, we had the lowest-ever quarterly fuel and loss of 8.04%, compared to 8.5% previously,” Sahney said. IOC also recorded its highest-ever quarterly petrol sales of 4.5 million tonnes and diesel sales of 10.866 million tonne. Natural gas sales volumes increased by 11%.

“My operational efficiency has benefited us,” Sahney said.

Refinery throughput was higher than the 18.683 million tonnes processed in the corresponding quarter of the previous financial year. The company's overall domestic

petroleum-product sales rose to 25.252 million tonne from 24.973 million tonne.

However, LPG emerged as the most disrupted commodity during the West Asia conflict, forcing IOC to look beyond its established supply markets. The company has begun sourcing the cooking fuel from newer geographies, including Algeria and Azerbaijan.

The sourcing shift is significant because India relies on imports to meet a substantial portion of its LPG demand, while West Asia has traditionally dominated the supply basket. Disruptions in the region can directly affect cooking-gas availability, shipping costs and the under-recoveries borne by state-owned fuel retailers.

IOC's strategy now rests on maintaining a wider supplier base for both crude and LPG, while ensuring refineries continue operating at high utilisation levels. The company's crude inventory, alternate sourcing arrangements and record throughput have so far helped prevent raw-material shortages from affecting petrol and diesel production.

...refiner slips into loss in June quarter

STATE-RUN INDIAN OIL Corporation on Friday posted a consolidated net loss of ₹1,141.09 crore in the June quarter, against a profit of ₹6,808.12 crore a year earlier, as suppressed marketing margins on petroleum products outweighed gains from stronger refining margins. The country's largest fuel retailer, however, reported a 27% rise in revenue from operations to ₹2.82 lakh crore, from ₹2.22 lakh crore in Q1 FY26. Total income increased to ₹2,82,379 crore, while expenditure climbed to ₹2,84,009 crore.

On a standalone basis, the company recorded a net loss of ₹2,662 crore, against a profit of ₹5,689 crore a year ago. — FE BUREAU

GAIL's Q1 profit spikes to ₹4.6K cr

PRESS TRUST OF INDIA
New Delhi, July 31

STATE-OWNED GAIL (India) on Friday reported nearly doubling of net profit for the June quarter, as a sharp jump in earnings from its gas marketing business more than offset continued losses in the petrochemicals segment.

Consolidated net profit of ₹4,670.99 crore in April-June—the first quarter of current financial year 2026-27—compared with ₹2,382.24 crore in the same period a year back and ₹1,471.46 crore in the preceding January-March quarter, according to a stock exchange filing by the company.

Revenue from operations rose to ₹41,350.18 crore from ₹35,428.81 crore in April-June 2025.

Earnings from natural gas transmission service rose 14% to ₹1,782 crore while those from natural gas marketing jumped to ₹3,481.29 crore in Q1 from ₹1,071.60 crore a year back.

ness soared to ₹772.50 crore in April-June from ₹205.01 crore a year back.

GAIL, alongside other producers, ramped up cooking gas LPG output after the West Asia conflict disrupted supplies coming from West Asia.

Losses in the petrochemical segment dropped to ₹122.53 crore from ₹248.63 crore a year back.

Maruti Q1 profit falls 11% as commodity costs dent margins

AKBAR MERCHANT
Mumbai, July 31

MARUTI SUZUKI INDIA on Friday reported a 10.8% decline in standalone net profit for the June quarter as surging raw material costs squeezed margins despite posting record vehicle sales, robust SUV demand and higher exports.

While revenue rose nearly 36% year-on-year and marginally beat Street estimates, operating profit fell well short of expectations as commodity inflation offset the benefits of higher volumes. The country's largest carmaker posted a standalone net profit of ₹3,352 crore during the period, compared with Bloomberg estimates of ₹3,440 crore. Revenue from operations rose to ₹52,456 crore, slightly ahead of estimates of ₹52,309 crore, while Ebitda came in at ₹4,311 crore against estimates of ₹5,218 crore.

On a year-on-year basis, revenue increased 35.9%, but Ebitda declined 6.7% and net profit fell 10.8%. Ebitda margin contracted sharply to 8.2% from 12% a year earlier, reflecting the impact of higher input costs.

The company attributed the pressure on profitability to rising material costs, which worsened during the quarter amid geopolitical tensions. "Material costs had started to increase in the quarter and were seriously aggravated during the war," Maruti said in a statement,

MIXED BAG

■ Total sales volumes rose 29.3% year-on-year to a record **682,724 units**

■ Domestic small car sales grew 34.1%, while SUV volumes jumped **44.6%**

■ Exports increased 28.6%, while domestic market share improved to **41.2%**

adding that the increase in input costs weighed on earnings despite strong demand.

Operationally, the quarter remained one of Maruti's strongest. Total sales volumes rose 29.3% year-on-year to a record 682,724 units. Domestic small car sales grew 34.1%, while SUV volumes jumped 44.6%, helping the company consolidate its leadership in the passenger vehicle market.

Exports increased 28.6%, while domestic market share improved by 2.3 percentage points to 41.2%. The company said higher production was supported by the commissioning of its second manufacturing plant at Kharkhoda, with dealer inventory remaining at a

healthy 13 days despite the strong sales momentum.

Separately, the board approved an initial investment of ₹561 crore for four compressed biogas (CBG) manufacturing projects as part of Maruti's alternative fuel strategy. The company said the first phase of the projects will help assess the commercial viability of CBG production before any expansion.

Maruti also noted that the financial statements have been restated for comparative purposes following the amalgamation of Suzuki Motor Gujarat with the company, with April 1, 2025 as the appointed date under the approved merger scheme.

● TV NARENDRAN, CEO & MD, TATA STEEL;
KOUSHIK CHATTERJEE, CFO, TATA STEEL

'Value-in-use is more important than volume'

As the economics of captive mining become less compelling and downstream businesses offer greater value, Tata Steel is recalibrating its long-term growth strategy while retaining the flexibility to expand upstream where returns justify the investment. Managing Director and CEO TV Narendran and Chief Financial Officer Koushik Chatterjee in an interaction with Urvi Malvania discussed the company's investment priorities, raw material strategy, and expansion road map. Excerpts:

How will the capex for Neelachal Ispat expansion be funded?

Koushik: Mostly through internal accruals. It will take about four years to build, and the payment cycle continues even after commissioning because of performance guarantees, retention payments, etc. We do not intend to undertake any specific project financing at this stage.

What drove 21% YoY growth in the automotive segment?

Narendran: Growth in Tata Steel's automotive volumes has been driven by new

facilities at Kalinganagar. The cold rolling mill was commissioned in December 2024, followed by annealing and galvanising lines. While the company has long been strong in hot rolled products, cold rolled and galvanised volumes have risen as the new mills received customer approvals. Coldrolled products are already approved, while galvanised products are still undergoing qualification, supporting further growth alongside expanding automotive demand.

How does Tata Steel balance captive mining with buying iron ore, including imports,

amid evolving raw material economics and supply risks??

Narendran: The cost advantage of captive iron ore has declined as higher taxes, levies and auction premiums have eroded the economics. Captive mining is valuable only if it provides either a cost advantage or supply security. Supply security is also less compelling because we already import key raw materials such as coal and limestone and can diversify sourcing across geographies. Iron ore is a liquid global market with ample availability. While Indian ore has high iron content, imported ore can offer better value-in-use through superior quality, improving blast furnace performance despite a higher purchase price.

Koushik: About 80% of the global steel industry is not integrated with iron ore. More important than volume is value-in-use, as buying higher-quality ore can improve blast furnace productivity and reduce

overall costs, making market sourcing a valuable strategic option.

ITC Q1 net profit slips over 16%

VIVEAT SUSAN PINTO
Mumbai, July 31

ITC REPORTED A weaker-than-expected June quarter on Friday, missing Street expectations on all fronts as inflationary pressures, tax hikes on cigarettes and a subdued agri-business weighed on earnings.

The Kolkata-based cigarette-to-consumer goods major posted a 16.2% year-on-year decline in its consolidated net profit attributable to owners to ₹4,394 crore for Q1FY27, below Bloomberg estimates of ₹4,852 crore.

Consolidated revenue from operations (net of excise) fell 11.1% year-on-year to ₹19,114 crore, missing Bloomberg estimates of

BELOW EXPECTATIONS

₹20,834 crore. Consolidated earnings before interest, tax, depreciation, and amortisation (Ebitda) declined 24% to ₹5,181 crore, below Street expectation of ₹5,828 crore. Ebitda margins narrowed 430 basis points to 27.1% in Q1 from 31.4% a year earlier. The company's fast-mov-

ing consumer goods (FMCG) business delivered a robust performance, with revenue rising 12% year-on-year in Q1. Excluding staples, FMCG revenue grew 16%, led by over 20% growth in dairy, snacks, noodles and frozen snacks, alongside mid-teen growth in personal care prod-

ucts and a recovery in notebook sales.

However, the agri business segment was hit by geopolitical developments and a high base effect, ITC said. The maker of Aashirvaad atta saw the brand's performance moderate due to heat waves, LPG shortage, and benign wheat prices during the quarter.

Higher costs of fuel, edible oil, soap noodles, and packaging materials, triggered by the West Asia conflict, was "cushioned by strategic inventory covers and commodity hedges," the company said, adding that it is mitigating cost pressures through focused cost management, revenue optimisation and price-volume rebalancing.

Electric two-wheeler sales surge 77% in July; TVS extends lead

NARAYANAN V
Chennai, July 31

ELECTRIC TWO-WHEELER (E2W) SALES rose for a second straight month by more than 75%, signalling a faster shift towards electrification as higher fuel prices and shifting consumer preferences drive more first-time buyers to electric vehicles.

The industry sold 191,614 electric two-wheelers in July, up 77% year-on-year and marking the strongest monthly growth so far this fiscal, according to the latest Vahan data. The performance follows a record 194,966 units sold in June. The July figures, however, are provisional and reflect registrations recorded until 4 pm on July 31. Final registrations are expected to surpass June's record once the data is updated.

TVS Motor further strengthened its leadership in the segment, with registrations surging 121% year-on-year to 52,035 units, crossing the 50,000-unit milestone for the first time. Its market share expanded to 27% in July from 24% in June.

KN Radhakrishnan, director and CEO, said EV adoption had initially gained traction in urban markets, but is now spreading to semi-urban areas as well supported by the company's dealership network. To meet demand,

RACING AHEAD

the company is ramping up its EV production capacity.

"We had about 40,000 capacity. We are now moving to 50,000 plus. We are also constantly reviewing what are the next set of capacities required," Radhakrishnan said during the first-quarter earnings call.

Its rival Bajaj Auto also reported strong growth, with EV registrations rising more than 110% year-on-year to 43,137 units, taking its market share to 23%. The performance was supported by an expanding retail network, with the Chetak electric scooter now available through more than 530 exclu-

sive stores and over 4,500 customer touchpoints across 850-plus cities. The recently launched sub-₹1 lakh Chetak 2501 Agile and Light variants have also started contributing to volumes and now account for 12% of the five-model Chetak portfolio. Bajaj is expanding its monthly electric two-wheeler production capacity from 50,000 to 60,000 units.

Ather Energy retained its third position, with registrations surging 60% year-on-year to 28,540 units in July, capturing a 15% market share, marginally lower than 16% in June. The July figures and the market

shares are likely to change once the final registration data is published.

Hero MotoCorp's EV registrations nearly doubled year-on-year to 20,913 units, with its Vida brand's market share rising to 11% compared with 10% in the year-ago month.

Despite efforts to address service-related issues, Ola Electric remained in fifth place. Registrations fell 29% year-on-year to 13,085 units, while market share declined to 7% from 17% a year ago. Sequentially, registrations fell from 16,211 units in June, when the company held an 8% market share.

Tata Steel gets nod for trial restart of Dutch mill

URVI MALVANIA
Mumbai, July 31

TATA STEEL HAS secured permission from the Dutch government to restart operations at its Ijmuiden mill on a trial basis for four weeks from August 5, weeks after production was halted following a criminal investigation into alleged harmful emissions.

"We have just got the approval to run it for four weeks starting August 5. Hopefully the data that we generate through that production will help us get the permission to run it beyond that," MD and CEO TV Narendran said at the company's earnings call on Friday.

The Ijmuiden mill, which accounts for around a fifth of Tata Steel Netherlands' output, has remained largely idle since early April after heightened regulatory scrutiny over emissions.

The development comes even as the company said future investments in the Netherlands would depend on greater regulatory certainty, policy support and a social licence to operate.

Responding to FE's queries on the future of its European operations, CFO Koushik Chatterjee said Tata Steel was not evaluating alternative locations within Europe for its decarbonisation plans. However, he said investments require three key enablers — government funding support, policy support and market support — alongside certainty around the local regulatory framework.

IndiGo to end wide-body operations from Oct 25

AKBAR MERCHANT
Mumbai, July 31

INDIA'S LARGEST AIRLINE, IndiGo, on Friday said it will discontinue its wide-body operations from October 25 and conclude its damp lease agreement with Norse Atlantic Airways on October 31, citing a challenging operating environment amid ongoing geopolitical tensions.

The airline said its Mumbai-Amsterdam flights will be operated using the Airbus A321XLR from October 25, while services to and from London Heathrow will be temporarily suspended until the delivery of its Airbus A350-900 aircraft.

Indigo is expected to receive its first Airbus 350-900 around mid-2027, sources told *FE*. Indigo currently has three Airbus A321 XLRs in its fleet with more expected to join this year.

As part of the transition, the airline said it will work closely with affected customers by offering suitable alternatives, including alternate travel arrangements and refunds, wherever applicable, to ensure a smooth transition.

IndiGo had entered into a damp lease agreement with Norse Atlantic Airways in early 2025 for six Boeing 787-9 aircraft to launch limited long-haul operations while preparing for the induction of its Airbus A350 fleet. The arrangement enabled the airline to begin services to destinations in the UK and Europe while building capabilities required for future wide-body operations.

Besides the Boeing 787-9 fleet, IndiGo had also leased two Boeing 777-300ER aircraft from Turkish Airlines for its Mumbai-Istanbul route. However, the service was discontinued a few months ago.

According to the airline, the long-haul programme helped it develop expertise across key areas, including network planning, customer experience, crew operations, maintenance, airport handling, revenue management and international partnerships.

Adani Energy plans another share sale by next fiscal

ADANI ENERGY SOLUTIONS may launch another share sale for institutional investors by early next fiscal year, after securing ₹3,500 crore (about \$367 million) in a similar fundraise this week, two

sources familiar with the matter said on Thursday.

Companies belonging to billionaire Gautam Adani's portfolio-power conglomerate have raised about \$4.75 billion over the last eight months through

QIPs and rights issues to fund expansion and reduce debt.

The group's flagship, Adani Enterprises, raised \$1.58 billion via a QIP earlier this month and \$2.8 billion through a rights issue. Another group company,

Adani Power, plans to raise up to \$1.57 billion through a QIP.

This marks the biggest capital raise from the group since a short seller's allegations roiled its shares in 2023.

FIRM EXPECTS MEMORY PRICES TO RISE MORE IN SEPT QUARTER

Apple posts record June quarter revenue in India

FE BUREAU
New Delhi, July 31

APPLE ON FRIDAY reported a record June quarter in India, with Chief Executive Officer Tim Cook highlighting the country as one of its strongest-performing markets globally, underscoring its growing importance both as a consumer market and manufacturing hub for the iPhone maker.

However, looking ahead, Apple said that rising memory prices are expected to remain a headwind in the coming quarters. Cook said the company expects memory costs to increase further in the September quarter and beyond, although Apple continues to evaluate supply options and pricing measures to mitigate the impact.

India recorded a June-quarter revenue record as Apple posted double-digit growth across every geographic segment, while its Mac business also delivered strong double-digit growth in the country, driven by robust demand from both first-time buyers and existing users upgrading their devices.

The India performance came as Apple reported its strongest June quarter globally, with revenue rising 16%

■ Apple reported its strongest June quarter globally, with revenue rising **16% to \$109.4 billion**

■ India emerged as one of its best-performing markets globally, both as a consumer market and manufacturing hub

■ Apple's Mac business delivered strong double-digit growth in India in June quarter

■ Mac revenue rose **29% Y-o-Y** to a June-quarter record of **\$10.4 billion**, led by strong demand for MacBook Neo & MacBook Pro

TIM COOK, CEO, APPLE

We achieved June quarter revenue records in every geographic segment

year-on-year to \$109.4 billion. Component shortages weighed on the company's sales forecast, sending its shares down as much as 9.5% to \$301.83 at the market open on Friday, their biggest intraday drop since April 3, 2025.

"We achieved June quarter revenue records in every geographic segment," Cook said during the company's earnings call, adding that Apple saw June-quarter revenue records in the US, Latin America, Western Europe, India, China mainland, Japan and Southeast Asia. He also said the company recorded revenue records across both developed and emerging markets, with double-digit growth in most

emerging markets.

The comments reinforce India's emergence as one of Apple's fastest-growing markets, supported by rising premium smartphone adoption, expanding retail presence and increased local manufacturing.

Chief Financial Officer Kevan Parekh said Mac revenue rose 29% year-on-year to a June-quarter record of \$10.4 billion, led by strong demand for the MacBook Neo and MacBook Pro. Apple registered strong double-digit Mac growth in markets including India, Latin America and Southeast Asia. Parekh added the latest quarter was Apple's best ever for attracting new Mac customers and existing

users upgrading their devices, with India among the markets contributing to that performance.

Apple's diluted earnings per share rose 29% to \$2.02. The company said iPhone, Mac and Services each posted record June-quarter revenue, helping it achieve double-digit growth across all geographic segments. Gross margin stood at 50.1%, aided by a favourable impact of around two percentage points from tariff refunds, while earnings per share received a \$0.11 boost from the same factor. Apple also said its installed base of active devices reached a new all-time high across all major product categories and regions.

Report on semicon security panel due in a few weeks, says ISM CEO

OJASVI GUPTA
New Delhi, July 31

DEDICATED COMMITTEES EXAMINING the security aspects of semiconductor chips are expected to submit their recommendations within the next few weeks, once the guidelines for the recently announced India Semiconductor Mission (ISM) 2.0 are released, ISM Chief Executive Officer Amitesh Kumar Sinha said on Friday.

The committees are studying ways to localise the manufacturing of critical semiconductor chips used in strategic

and data-sensitive applications.

Speaking at the 2nd India Fabless Semiconductor Design Acceleration Workshop organised by the India Cellular &

Electronics Association (ICEA), Sinha said the disbursement of financial incentives under ISM 1.0 would gather pace only from mid-2027, as most approved projects remain in the infrastructure development stage.

He stated that nearly 65-70% of a semiconductor project's cost is incurred on equipment procurement, which typically takes place only after land acquisition and construction are completed.

As a result, incentive payouts have been relatively modest in the initial phase. Sinha said 15 of the 24

companies approved under the Design Linked Incentive (DLI) scheme have already received funding.

To improve investor facilitation, ISM has launched a dedicated portal that connects investors directly with the mission's team to help resolve policy- and customs-related bottlenecks.

He said the Centre would continue to address industry concerns around business sizing, investment thresholds and capital equipment clarity, adding that the country's pricing agreement in the sector is a key enabling step.

Amazon calls for fraud data sharing in e-comm

ASHUTOSH MISHRA
New Delhi, July 31

AS ORGANISED FRAUD networks increasingly target multiple online marketplaces rather than a single platform, e-commerce companies should explore a common mechanism to share intelligence on bad actors, a senior Amazon executive said, adding that industry-wide collaboration is essential to tackle sophisticated fraud and counterfeiting operations.

"It would be a great idea to find common areas for us to share information," Rohan Oommen, vice president, customer & partner trust at Amazon, told FE. He said organised fraudsters rarely restrict themselves to one marketplace, making it difficult for individual platforms to curb such activities on their own.

Oommen said Amazon had in the past explored industry forums and data-sharing arrangements, including initiatives involving government agencies, but participation from the broader ecosystem remained limited. Any future framework, he said, should

ROHAN OOMMEN, VICE PRESIDENT, CUSTOMER & PARTNER TRUST, AMAZON

It would be a great idea to find common areas for us to share information

enable companies to collectively identify and disrupt repeat offenders without requiring them to share commercially sensitive information.

The comments come as Amazon recently expanded its Counterfeit Crimes Unit (CCU) to India, bringing a specialised investigations team that works

with brands, sellers and law enforcement agencies to identify and dismantle counterfeit networks operating beyond Amazon's own marketplace. Unlike routine enforcement that removes suspicious listings from the platform, the unit pursues civil and criminal action against organised counterfeiters.

"Removing a bad actor from Amazon alone isn't enough because they simply move elsewhere," Oommen said, adding that the objective is to investigate the wider network, gather evidence and work with enforcement agencies to take action against those responsible. Globally, Amazon's CCU has helped take down more than 32,000 bad actors, removed over 15 million counterfeit products from circulation and contributed to nearly 300 jail terms, according to the company. The India unit, launched about two months ago, has already begun filing cases and reporting frauds.

Oommen said several brands had been pushing for the specialised unit to be established in the country.

Cabinet approves ₹84,000 cr....

ANOTHER ₹28,534 CRORE will fund offshore data acquisition, comprising ₹12,000 crore for 2D seismic surveys, ₹12,534 crore for 3D surveys and other techniques, and ₹4,000 crore for reprocessing National Data Repository information and deploying artificial-intelligence tools.

The government has also earmarked ₹10,000 crore for common offshore infrastructure to help commercialise discoveries that may otherwise remain unviable, while ₹2,000 crore will support oil and gas manufacturing and services zones. Monitoring, digital interventions, evaluation, human resources and outreach will receive ₹350 crore.

"Samudra Manthan will boost domestic hydrocarbon production, provide momentum to our thrust towards energy security, and support the nation's vision of becoming energy secure," Petroleum and Natural Gas Minister Hardeep Singh Puri said.

The programme would promote technology adoption, capacity building and global collaboration while reducing India's dependence on imported energy, he added.

Deepwater exploration carries high geological and financial risk because not every well results in a commercial discovery.

A single deepwater exploratory well can cost around \$125-150 million, while the period between the award of a block and commercial production typically ranges from five to 10 years.

Existing Indian oil and gas fields also face a natural production decline of 6-7% annually, making sustained exploration and fresh discoveries necessary even to maintain current output.

Subject to exploration success, the scheme aims to increase annual domestic oil and gas production from around 62 million tonne of oil equivalent to 80 MTOE, and expand India's hydrocarbon resource base from 1.6 billion tonne of oil equivalent to 2.2 billion tonne of oil equivalent.

The government expects the programme to add more than 600 MTOE of hydrocarbon resources. The additional production could reduce crude oil imports by nearly ₹1 lakh crore annually. India imports about 88% of its crude oil and roughly half of its natural gas requirements. Its annual crude import bill is nearly \$144 billion, or around ₹13 lakh crore.

The recent West Asia conflict and resulting supply disruptions have renewed the policy focus on domestic production and energy resilience. Rajnish Gupta, partner, tax and economic policy group at EY India, said the outlay sent an "unambiguous signal" that domestic offshore exploration had become a national priority. India had not made a discovery comparable in scale to Mumbai High, the Krishna-Godavari basin or the Barmer basin in decades, while large parts of its sedimentary basins remained underexplored, he said.

"The availability of seismic data, together with exploratory well logs, can de-risk exploration activities."

"Shared infrastructure for production and evacuation can lower the break-even for blocks that may otherwise be seen as marginal," Gupta said.

Strong geological data or a major discovery could attract private and international capital far beyond the government's expenditure, he added.

BENCHMARK EQUITY INDICES staged a strong rebound this week, recouping the previous week's losses as Brent crude oil prices declined following a pause in the West Asia conflict. The Sensex surged 2,034.87 points, or 2.68%, to close at 78,094.64, its biggest weekly gain in four months (since the week ended April 10). The Nifty advanced 616.15 points, or 2.59%, to settle at 24,383.60. Brent crude fell 7% during the week to \$89.95 a barrel. In the previous week, the Sensex and Nifty had declined 2.68% and 2.33%, respectively. "Unlike last week, the sharp decline in crude oil prices helped ease inflation concerns and lift market sentiment. While the US Federal Reserve's decision to keep interest rates unchanged was largely in line with expectations, its commentary retained a hawkish bias, indicating its willingness to keep policy restrictive if inflation does not move sustainably towards its target," said Vinod Nair, head of research at Geojit Investments. Nair added that the unwinding of the crowded global AI trade strengthened the case for foreign inflows into India's diversified equity

market, while a firmer rupee also supported sentiment. The rally was aided by gains in global markets, robust domestic corporate earnings, sustained foreign institutional investor (FII) buying, lower crude oil prices and the appreciation of the rupee, said Ajit Mishra, senior vice-president – research, Religare Broking. However, investors remain watchful of further earnings announcements and key global macroeconomic developments for fresh directional cues, he added. Investors' wealth increased by ₹10.3 lakh crore during the week.

Rupee at 3-week high

THE RUPEE WAS perched at its highest in three weeks, on course for an over 1% gain in the five sessions through Friday as the boost from a hobbled dollar and softer oil prices was cemented by quick-fire dollar sales from state-run banks. The rupee rose as much as 0.4% on the day to 95.26, its strongest level since July 10, before paring gains slightly. The currency is on course for its best week since March, boosted by persistent intervention from the Reserve Bank of India. The central bank intervened aggressively last Friday and has kept up the support this week, traders said. The RBI's stepped-up intervention has made market participants more cautious about taking on bearish rupee positions and comes against the backdrop of higher-than-expected inflows – about \$40 billion since early June – spurred by a series of policy measures unveiled last month. Brent crude oil futures were down nearly 2% at \$87.5 per barrel. —REUTERS

Irdai mandate: Every policy to be tagged to seller

FE BUREAU
Chennai, July 31

INSURANCE AGENTS, BANK officials or brokers selling insurance policies will have to be more diligent while soliciting customers. The Insurance Regulatory and Development Authority of India (Irdai) has mandated that every policy be linked to the individual responsible for

the sale effective January 2027 to curb mis-selling and ensure customers can identify

the person or entity that sold them the policy. The insurance regulator on Friday notified the Insurance Regulatory and Development Authority of India (Insurance Intermediaries) (Amendment) Regulations, 2026, introducing a series of changes to the regulatory framework governing insurance intermediaries and making corresponding

amendments to investment-related regulations. Under the amended regulations, every proposal form, policy document and certificate of insurance must carry the details of the intermediary or any other authorised salesperson who solicited the policy, along with the mobile number and email address of the branch or office through which the policy was sold.

NSE pays ₹714.74 cr to settle co-location case ahead of IPO

PRESS TRUST OF INDIA
New Delhi, July 31

NATIONAL STOCK EXCHANGE of India (NSE) on Friday said it has paid ₹714.74 crore to Sebi after receiving the regulator's in-principle approval to settle the long-pending colocation and dark fibre cases for ₹1,491.21 crore. The latest payment, together with the ₹776.47 crore already deposited by the NSE, completes the ₹1,491.21-crore settlement amount agreed under the revised settlement terms.

The payment comes a day after the Securities and Exchange Board of India (Sebi) gave its in-principle approval to the revised settlement proposal submitted by the exchange.

In a statement, NSE said, "The deposit of ₹776.47 crore along with the payment of ₹714.74 crore made against the demand notice dated July 30, 2026, will be adjusted against the settlement amount of ₹1,491.21 crore." On Thursday, NSE had informed that Sebi had, in principle, agreed to settle the colocation and dark fibre matters for a cumulative amount of ₹1,491.21 crore and had asked the exchange to pay the balance amount of ₹714.74 crore after adjusting the amount already deposited.

Off-mkt sale of unlisted shares not a public issue: Sebi

MARKETS REGULATOR SEBI on Friday said the off-market sale of unlisted equity shares by an existing shareholder through private negotiations will not be treated as a deemed public issue, provided the number of purchasers does not exceed the statutory limit of 200 persons in a financial year.

Time given till Oct-end to complete digital accessibility audits

Markets regulator Sebi on Friday extended, until October 31, the deadline for regulated entities to complete digital accessibility audits and resolve platform issues. Earlier, the deadline to complete the digital platform accessibility audit was April 30 and the timeline to complete the remediation of those audit findings and achieve full compliance was July 31. —PTI

Q1: VEDANTA ADDS HIGHEST RETAIL SHAREHOLDERS

VEDANTA ADDED THE highest number of retail shareholders during the June quarter, with its retail investor base rising from 2.05 million in March to 2.54 million, Capitaline data show. Wipro, Bajaj Auto, HDFC Bank and Reliance Industries also witnessed a significant increase in retail shareholder numbers. On the other hand, Tata Motors PV, Yes Bank, Suzlon Energy, Adani Green Energy and BHEL recorded a fall in their retail shareholder base. Despite the decline, Tata Motors PV continued to have the highest number of retail shareholders at 6.09 million, followed by Yes Bank (5.76 million) and Vodafone Idea (5.68 million). —Compiled by Kishor Kadam

Industry, services sectors fuel June credit growth

FE BUREAU
Mumbai, July 31

INDUSTRY AND SERVICES emerged as the key drivers of bank credit growth in June, according to the Reserve Bank of India's sectoral deployment of credit data. Non-food bank credit rose 18.3% year-on-year (y-o-y) as of the fortnight ended June 30, sharply higher than the 9.3% growth recorded in the corresponding period last year, the data showed. Credit to industry rose 19.2% from 6.3% a year ago, with lending accelerating across micro and small, medium and large enterprises. Infrastructure, engineering, construction, food processing, textiles, metals, petroleum products and chemicals recorded robust credit offtake, while lending to rubber and plastic products and wood products grew at a slower pace. Bank credit to the services sector grew 21.4%, compared with 8.8% in the year-ago period. Higher lending to non-

banking financial companies (NBFCs), commercial real estate and trade drove the increase. Credit to agriculture and allied activities also strengthened, with growth accelerating to 16.8% from 6.8% a year ago. Retail credit remained resilient, though the composition continued to shift towards secured loans. Personal loans grew 15.8% year-on-year, led by steady double-digit growth in housing and vehicle finance. Growth in bank loans against gold jewellery moderated to 93.8% on year as on June 30 compared to 140.9% a year ago.

Bank credit growth eases to 17.7% till mid-July

FE BUREAU
Mumbai, July 31

BANK CREDIT GROWTH moderated in the fortnight ended July 15 after accelerating at the end of June, but continued to outpace deposit growth, keeping the banking system's credit-deposit (CD) ratio elevated. Bank credit stood at ₹217.33 lakh crore as on July 15, registering a 17.67% year-on-year increase, compared with 18.63% growth as on June 30. Deposit growth also eased, with deposits rising 12.69% year-on-year to ₹262.84 lakh crore, against 13.31% growth a fortnight earlier. The banking system's CD ratio remained broadly stable at 82.68% as on July 15, compared with 82.62% at the end of June. The ratio had risen to 83.38% as on June 15 before moderating. Bank investments have increased 6.24% on year to ₹71.35 lakh crore as on July 15. On a fortnightly basis, the investments rose 0.7%.

GST tailwinds continue to drive retail health insurance: Niva CFO

NARAYANAN V
Chennai, July 31

NIVA BUPA, THE country's third-largest standalone health insurer, is witnessing strong growth in its retail health insurance business, driven by the recent GST rate cut on health insurance and the expansion of its distribution network, Vishwanath Mahendra, executive director & chief finance officer, Niva Bupa Health Insurance said. "The 18% (GST rate cut) is a sizable reduction, which is a very positive step... 90% plus (of retail policies) are ₹10 lakh and above sum insured," the CFO said. The momentum in the retail business was reflected in the company's first-quarter performance. Niva Bupa reported a 32% year-on-year increase in gross written premium (GWP) to ₹2,150 crore. Retail health

insurance premiums rose 47% to ₹1,607 crore, helping the insurer increase its retail health insurance market share to 11.1% from 10% in the corresponding quarter last year.

VISHWANATH MAHENDRA, ED & CFO, NIVA BUPA HEALTH INSURANCE

"The 18% (GST rate cut) is a sizable reduction, which is a very positive step... 90% plus (of retail policies) are ₹10 lakh and above sum insured"

Mahendra said the company does not have a specific market share target but aims to outpace industry growth by at least 8%. He attributed the premium growth to Niva Bupa's multi-channel distribution strategy. "We added 1,000 headcount last financial year and will add 1,000 more in this financial year. The focus is on all the channels, be it agency, bancassurance, direct and third party," he said. As of June 30, Niva Bupa had more than 210 branches across India. It distributes health insurance through a network of 250,000 agents, over 600 brokers, and more than 130 bancassurance and other corporate agency partners. Currently, around 32% of the company's business comes through the agency channel, nearly 20% from bancassurance, 27% from retail and group brokers, 7% from corporate agents, and 13% from the direct-to-consumer channel. Mahendra said the company is comfortable with the current distribution channel mix.

Refreshing realism

MFs have done well to say no to a richly valued Zepto IPO; they must be just as vocal on corporate resolutions

IN AN UNUSUAL show of resolve, mutual fund managers appear to have concluded that the valuation sought by Zepto for its initial public offering (IPO) is unworkable. This is after the quick-commerce company tempered its expectations and sought a valuation of about \$3 billion, less than half the \$7 billion it had initially hoped for. The fund managers’ realism is refreshing. It is hard to recall another recent instance in which they have so firmly resisted the blue-sky narratives of promoters. On the contrary, they have often backed richly valued issuances, only to see investors lose money. This time, their reluctance appears to have forced Zepto to hold back its stock-market debut.

Fund managers cannot, of course, be expected to get every call right. Start-up business models are difficult to assess, and the absence of comparable companies often makes their prospects and valuations harder to judge. In Zepto’s case, intense competition from Blinkit, Swiggy Instamart, and others appears to have made investors unwilling to take the plunge without an adequate margin of safety. The caution is understandable. The record of listed start-ups has been mixed: an FE analysis of 38 such companies shows that 14 are trading below their IPO prices, with a few at less than half their issue price. Nor is it only the hypercompetitive quick-commerce market — where several players are jostling for space in the consumer’s cart — that is keeping investors grounded. Stock-market uncertainty and the relatively lacklustre performance of mutual funds through much of 2025 and 2026 have also played a part. This is not a “rising tide lifts all boats” environment in which even sectoral laggards can count on a generous valuation.

One hopes mutual funds will display similar assertiveness while voting on corporate resolutions. To be sure, dissent has increased steadily: the share of mutual fund votes cast against company resolutions rose from 2.5% five years ago to a record 13.1% in the year ended March 2026. This is encouraging, especially since funds now own a significant share of Indian equities. Yet, fund managers need to be far more vocal. A closer look at voting patterns shows that it is not the industry’s big players but newer entrants such as Groww, Angel One, Navi, and Zerodha that have been more proactive, opposing as many as three in every 10 resolutions. Larger fund houses — including SBI MF, ICICI Prudential MF, and Aditya Birla Sun Life MF — appear less discerning, with dissent rates below 4%.

That is disappointing because the six largest players together command about 60% of the industry’s assets under management and should lead by example. Nobody expects fund managers to blindly follow proxy advisory firms, but the divergence in voting patterns is difficult to explain. Indeed, mutual funds were once so passive that the regulator had to require them to vote on all company resolutions. As custodians of retail savings, they must exercise their influence more consistently — not merely when pricing an IPO, but also when holding corporate managements to account. That would make them better stewards of investors’ money and help strengthen corporate governance. This is what institutional maturity is all about: The custodians of the largest and steadiest source of capital in the primary market, using that heft to impose discipline on private-market exuberance instead of underwriting it. A market where the buyer can finally say no is a healthier one.

How apps have belled the modern consumer

MODERN LIFE HAS a way of creating inconveniences out of the conveniences it promises. One manifestation is the proliferation of apps. From controlling air conditioners to making Faustian bargains, everything under the sun now seems to warrant a trip to the Play Store. But since businesses rarely operate with Solomon-like intentions, one wonders why perfectly serviceable websites suddenly began deflecting users towards QR codes and app downloads.

A good place to begin is with what apps claim to offer. They promise user-friendly interfaces — the probability of their actually providing one remains open to debate — and all the functions of a website arranged neatly across a few tabs. What they unquestionably do is occupy our phones’ memory. Within a few years, apps have also become a surprisingly accurate portrait of their owners. A glance at someone’s phone can reveal much about that person. More fascinatingly, the apps know a great deal about the user too. The evidence appears in hyper-personalised notifications that feel like personal attacks, feeds that are endless yet uncannily tailored, and advertisements so well targeted that some users suspect their phones of covertly listening to them.

Charles Hoy Fort, were he alive today, would probably fill his famous notebooks with observations and speculations about this apparent sorcery. For the non-Fortean, however, the explanation is less exotic. Apps collect information through device identifiers, permissions, embedded software trackers and the first-party data generated by every search, tap, backtrack and purchase abandoned in a cart. A popular and beloved confection — cookies — has come to symbolise this wider tracking machinery, though cookies themselves are more commonly associated with websites.

India’s Digital Personal Data Protection Act envisages consent that is free, specific, informed and unambiguous, expressed through a clear affirmative action. Once its principal provisions become operational, companies will also have to limit data collection to the stated purpose and make consent easier to withdraw. Yet most consent is likely to be granted with approximately the attention devoted to the mutual-fund disclaimer at the end of an advertisement. Multiply that inattention by the number of apps on a phone and the advertisement for the precise watch discussed with a colleague over lunch begins to look less like magic.

This also helps explain why most apps are free and why companies will offer everything from 10% coupons to heavily discounted first orders to induce downloads. Swiggy’s in-house brand Noice, barely a year old, recently outperformed established FMCG brands in several categories in a blind taste test conducted by brokerage Bernstein. The brokerage observed that while Noice may not be enough to reverse Instamart’s uncertain fortunes, it could become “a small building block to retain quality-conscious customers in the long run.”

The brand deserves credit. But Swiggy also has access to the preferences and purchasing behaviour of 12.3 million monthly transacting users — an informational advantage that can help it identify gaps, test products and tailor offerings. This brings the central point into focus: an installed app gives a company a more continuous and intimate view of customer behaviour than an occasional website visit. The app is a fixed point in the digital void. Instead of sauntering in and out of the web like a virtual street cat, the user has been domesticated.

Should an app purge, then, be the logical next step? Possibly, but the withdrawal symptoms would be severe. Grocery runs would once again have to be undertaken in person. Food-delivery choices would shrink and might entail the dreaded telephone call to a restaurant, often without a discount. Bill payments would become cumbersome. In the case of UPI and some other services, giving up the app could mean giving up the convenience altogether.

What began as an alternative to the website has evolved into a system of hyper-personalised nudges, inducements and playful jabs from the Zomatos and Swiggys on our phones. Now even the RO app wants in, except that it has the humour of an uncle who has just discovered Gen Z slang. And, morbidly enough, most of us have no desire to check out of this iteration of *Hotel California*.

THE RATIONALISATION OF GST rates was an important milestone in the evolution of India’s indirect tax framework. In a recent article, former Chief Economic Advisor Arvind Subramanian and his co-authors have argued that after the discontinuation of the GST compensation cess, states would face revenue losses under the revised arrangement. But the analysis is half-baked as it offers only one side of the story. In a complete analysis, states emerge as net beneficiaries of the GST reform in September 2025 once the overall fiscal impact is decided.

The authors in the aforesaid article have argued that the compensation cess levied on products such as tobacco, which was earlier transferred entirely to the states, has now been reclassified as an additional excise duty (AED) and subsumed within the basic excise duty (BED). Since BED forms part of the divisible pool and is shared between the Centre and states according to the Finance Commission’s devolution formula, it is argued that states would lose the exclusive benefit they previously enjoyed from the compensation cess.

While this relabelling of compensation cess may indeed result in a perceived revenue loss of around ₹21,000 crore spread across all 28 states, it is relatively modest and will be more than compensated by two factors: the substantial increase in the overall pie due to the rationalisation; and the increase in taxes from 28% to 40%.

First, our estimates indicate that after accounting for both GST collections and states’ share in BED, states are expected to be net gainers to the tune of roughly ₹1.43 lakh crore in FY27 as compared to FY26. This is how it will work. In FY26, the total GST collection was ₹23 lakh crore (including GST compensation cess) while the BED was ~ ₹45,000 crore. States’ share would thus be SGST + 41% of central and integrated GST (CGST and IGST) and also 41% of BED. Thus, states’ total share in GST and excise duty is ~ ₹17.7 lakh crore. Under the new arrangement, when GST compensation cess is removed and AED is levied, states’ share in GST (along with 41% of BED) is projected to be ~ ₹19.1 lakh crore.

Source: SBI Research; P: FY27 GST collection with break-up are SBI projections		NET GAIN (9-4)	143,581

Thus, states’ total gain is ₹1.4 lakh crore.

Second, it is important to note that the loss of ₹21,000 will also be mitigated by the increase in tax on some products from 28% to 40%. Consider an intra-state supply with a taxable value of ₹100. At the old rate of 28%, states used to get ₹19.74 and Centre ₹8.26 (₹14 from SGST and ₹5.74 from the Finance Commission devolution formula at 41%). In the current scenario, the increase from 28% to 40% GST led to ₹28.2 share for the states and ₹11.8 for the Centre (₹20 SGST + ₹8.2 from CGST transfer to states). So the new arrangement has effectively led to an ₹3.54 increase for the Centre and ₹8.46 for the states.

Therefore, the assertion that states are net losers under the revised GST framework is misleading.

It is important to examine the very objective of the GST compensation cess. The

compensation mechanism was never intended to be a permanent source of revenue for states, but rather a transitional arrangement designed to facilitate their shift to the GST regime. Under Section 18 of the Constitution, Parliament was mandated to compensate states for any loss of revenue arising from the implementation of GST. Accordingly, the GST (Compensation to States) Act, 2017, guaranteed states an annual revenue growth of 14% over the base year (2015-16), with any shortfall between the protected revenue and actual GST revenue being compensated through a dedicated compensation cess levied on demerit and luxury goods such as tobacco, pan masala, coal, and motor vehicles. Thus, the compensation cess was conceived as a time-bound transitional support mechanism, rather than a permanent fiscal entitlement. Furthermore, the GST compen-

sation cess officially expired on February 1, ending its transitional purpose of bridging state revenue shortfalls.

According to GST Council data on taxes subsumed under the GST, earlier there was an average of ~8% growth for states’ revenue from such taxes, while there is ~13% growth in SGST in the post-GST period. Interestingly, the growth in states’ share in GST will be around 7% in FY27 when no compensation cess is given, as compared to FY26. Hence, the very purpose of compensation cess has been fulfilled.

Thirdly, it is false that states will also be facing ₹14,000 crore loss in FY27 due to the Health Security se National Security Cess. This cess is levied under the Health Security se National Security Cess Act, 2025, on pan masala and any other goods which may be notified by the Centre. The cess will be levied on the machinery installed or other processes undertaken to manufacture or produce the specified goods and for related matters. However, imposing cess is a central government prerogative under Article 270. There is nothing new in this arrangement. Again, such a loss is meaningless given that the overall pie will expand by ₹1.4 lakh crore.

Cesses existed even pre-Independence and the most important one was the salt cess opposed by Mahatma Gandhi.

Another assumption that needs to be examined is that the GST compensation cess was never a revenue of the Centre because its proceeds ultimately went to the states. The central government levied the cess, which appeared as a Union tax receipt. In the accounting sense, the Centre first collected and recorded it and subsequently transferred it to the GST Compensation Fund within the Public Account of India, which finally went to states as grants.

As expected, after rationalisation the yearly growth of overall GST revenues (including compensation cess) has declined to 5.6% for FY26 from 9.4% in FY25. In Q1 FY27, we expect a rebound in the GST collections and a yearly growth closer to 10%. Clearly, the new GST regime will usher in more revenue for all.

Make next great digital leap sustainable

Rameesh Kailasam

CEO, Indiatech.org

WHEN A TAP on a glass screen instantly processes a UPI transfer, takes a picture, streams high-definition video, or generates a nuanced query on a generative AI platform, we rarely think about the physical reality of that moment. Yet, behind this seamless magic lies an invisible, energy-dense world of servers, cooling units, and high-speed fiber lines.

India is fast emerging as a digital superpower with a population that has replaced paperwork and cash for digital wallets, government e-portals, app-based daily life, and AI productivity tools. But as our appetite for data moves from merely consuming content to generating intelligence, a critical strategic dilemma emerges: Where does all this data live?

To sustain its digital leap, India cannot rely on cloud servers sitting thousands of miles away in Europe, North America, or Singapore. It needs to build, power, and own its data centres.

With some of the lowest mobile data tariffs in the world, India ranks among the highest global consumers of cellular data per capita. A population armed with cheap 5G and fixed-wireless connections consumes gigabytes as naturally as breathing.

From hyper-local delivery services, mobility, travel, e-commerce, entertainment, news, social media to digital banking, every aspect of daily Indian life relies on a mobile app. Millions of bytes are created every millisecond through transaction histories, user preferences, and real-time location tracking.

The transition from traditional internet browsing to AI is a structural shift. Standard search queries use a fraction of a watt-hour, generating an AI response, im-

age, or deep-learning model that require exponentially higher computing power and high-density GPU clusters.

Processing these massive AI and data workloads abroad creates intolerable latency, risks security, and bleeds capital out of the country. Keeping data localised isn’t just about speed, it is a matter of national economic sovereignty.

Global cloud giants and hyperscalers are investing billions in India following the clear economics of demand and scale and growing importance of India backed by government policies. The combination

of strict data localisation frameworks such as the Digital Personal Data Protection Act and an unmatched market size means that foreign tech platforms must store and process Indian citizens’ data within national borders. India also offers a young, skilled engineering workforce and lower construction and operational costs compared to European or North American tech hubs.

Recognising that data centres are economic powerhouses of the 21st century, Indian states are competing to attract hyperscale investments. Andhra Pradesh has positioned Visakhapatnam as India’s premier eastern digital gateway through its aggressive Data Centre Policy 4.0. By leveraging its coastal advantage to establish open subsea cable landing stations, dedicated green-energy integration, and seawater desalination systems, the state has secured multi-billion-dollar hyperscale AI

Anchoring hyperscale green data centres will unleash a wave of FDI, transform India into a digital infrastructure exporter, and create high-skilled tech jobs across regions

hub commitments from global giants.

Maharashtra is harnessing Mumbai’s financial capital status and primary subsea cable hub to capture a massive share of the national market. Tamil Nadu and Telangana are offering tailored policy incentives, land allocation, single-window clearances, and dedicated power substations to turn Chennai and Hyderabad into mega-compute centres. Uttar Pradesh is launching ambitious data centre policies featuring capital subsidies and power tariff concessions to transform the National Capital Region into a computing hub.

The biggest critique of the data centre boom is its massive environmental footprint. Data centres do consume large amounts of electricity for powering and water for cooling. India is blessed with intense solar radiation and expansive wind corridors. By linking data centre parks directly to utility-scale renewable plants through green energy power purchase agreements and grid banking, such facilities can operate on 100% clean power.

Instead of draining precious inland freshwater tables, coastal data hubs can integrate seawater desalination plants and closed-loop liquid cooling.

Another sustainable approach would involve municipalities developing industrial pipelines to convey treated wastewater from sewage treatment plants directly to data centre clusters. Utilising reclaimed wastewater for cooling reduces dependence on stressed groundwater aq-

uifers and potable municipal water supplies, while enabling data centres to advance water stewardship objectives, comply with zero liquid discharge requirements where applicable, and strengthen their ESG performance.

Advanced liquid cooling systems can capture server-generated waste heat and redirect it to industrial applications or agricultural processing, minimising wasted energy and driving down power usage effectiveness metrics.

To truly support 1.4 billion citizens who have collectively saved billions of tons of paper through digital identity (Aadhaar), electronic tax filings, and paperless ticketing, India urgently needs an expansive underwater network of submarine fiber-optic cables running along the ocean floor.

Expanding landing stations beyond Mumbai and Chennai into cities like Visakhapatnam, Kochi, and Tuticorin creates vital network redundancy, shields from single-point network failures, and ensures ultra-low latency for users in tier-II and -III cities. India’s transition to a fully digital, AI-driven economy is irreversible. By pairing data centre expansion with aggressive renewable energy and sustainable methods, it can achieve a double victory setting a net-zero standard for the world.

Anchoring hyperscale green data centres on domestic soil will unlock a wave of FDI, transform India into a resilient digital infrastructure exporter, and create high-skilled technology jobs across regions. Pioneering a zero-carbon, seawater-cooled compute architecture positions India as a global blueprint for sustainable technology, directly advancing the nation’s 2070 net-zero targets.

LETTERS TO THE EDITOR

Invest in agri-R&D

Apropos of “Bang for agri-R&D buck” (FE, July 31), every rupee spent on farm research gives back nearly ₹14, far more than subsidies ever do. Research has driven one-third of all

productivity gains in agriculture. Yet India spends less than half a per cent of farm output on research, while the government wastes 5% annual growth. Private companies like ITC are showing good results with climate-smart practices that cut costs and

raise yields. But public investment in agri-research fell in the latest budget. If research delivers such strong returns, why cut its funding? Doubling the budget for farm research and extension services is not extra spending. It is the smartest

investment we can make for our farmers, food security, and facing climate change. The government must match its words with real action. —K Chidanand Kumar, Bangalore

CAR REVIEW: KIA SYROS EV

Can the EV rewrite the Syros story?

WITH CLASS-LEADING TECH AND AGGRESSIVE OWNERSHIP PLANS, THIS KOREAN CAR FACES ITS TOUGHEST TEST

VIKRAM CHAUDHARY

NO MATTER HOW good an EV is, it will likely give the buyer some anxiety — range, resale value, warranty, or high upfront price. But with the Syros EV, starting at ₹13.49 lakh for the 42-kWh variant and ₹16.99 lakh for 51.4 kWh, Kia has tackled buyer hesitancy head-on, with:
► Assured buy-back guarantee 80% resale value after three years.
► Battery-as-a-Service (BaaS) starting at ₹7.99 lakh, with battery EMI at ₹3.3 per km.
► Lifetime battery warranty (15 years, unlimited km).

Loaded to the brim

Its tall-boy, boxy silhouette gives it a modern, if somewhat unconventional, stance. It is a design that will likely split opinion, but there is no denying its road presence.
Inside, there is enough space to play football. The high seating position offers a good view, headroom is massive, and ingress/egress is easy, making it friendly for the elderly.
The top-spec HTX+ Extended

Driver's ergonomics are spot-on, with the steering falling naturally to hand. Body roll is controlled despite the upright stance, and cabin NVH levels are low. It also has paddle-shifter-operated regenerative braking

Range variant that I tested is loaded to the brim, with a 30-inch display panel, all five ventilated seats, live AQI air purifier, and rear window sunshades. But this comes at a cost (the HTX+ is priced ₹19.49 lakh).

Driving dynamics

On the highway, the 51.4-kWh variant impresses with its refinement. Delivering 171 PS of power, it propels from 0-100 km/h in just 8.1 seconds, making it the punchiest

small crossover on Indian roads.
Driver's ergonomics are spot-on, with the steering falling naturally to hand. Body roll is controlled despite the upright stance, and cabin NVH levels are low. It also has paddle-shifter-operated regenerative braking with an i-Pedal mode for single-pedal city driving. Its claimed range is 526 km, and my model showed a real-world range of 410 km.

The ICE legacy

The Syros EV is solid, but enters the market carrying significant brand baggage. The sales data for the ICE Syros paints a stark picture: after launching in early 2025, sales plummeted from 24,371 units in H1-2025 (January-June) to a meagre 3,301 units in H1-2026, which is a staggering 86.4% drop.

Verdict

The Kia Syros EV is a quick, well-packaged, and feature-packed electric car paired with aggressive ownership plans. It has all the hardware to succeed, but its ultimate market performance will depend on whether buyers can separate this impressive EV from the slow-selling ICE model it shares a name with.

CAR REVIEW: MERCEDES-AMG E 53 PHEV

Driving India's first AMG plug-in hybrid car

AN EV IN THE CITY; A SPORTS CAR ON THE HIGHWAY

VIKRAM CHAUDHARY

MERCEDES-BENZ INDIA has expanded its portfolio by introducing its first electrified AMG sedan: the E 53. Paving the way for the car-maker's powertrain agnostic strategy, this performance car blends electric efficiency with AMG capability, and is available in Performance and Racing editions — priced at ₹1.45 crore and ₹1.48 crore (ex-showroom), respectively. I tested it on the rainfed roads of Delhi.

Electric quiet and petrol vroom

At the heart of this plug-in hybrid setup is a 3.0-litre in-line six-cylinder turbocharged engine paired with an electric motor. Together, they unleash a massive 430 kW (585 hp) and 750 Nm of torque, which swells to 450 kW (612 hp) with the Race Start feature activated.

It has two distinct characters:
The silent commuter: It can be driven purely in electric mode for over 100 km, allowing you to navigate city traffic without burning a drop of fuel. The battery can be charged in 2-3 hours.

The highway cruiser: On open roads, shift to the petrol engine. The Battery Hold mode allows you to conserve battery during highway stretches, letting you switch back to EV mode when entering quiet residential areas.

A pure driver's machine

Despite carrying the 'E-Class' moniker, this is an out-and-out driver's car. It is a monster on the open road, sprinting from 0-100 km/h in a blistering 3.8 seconds before reaching an electronically limited top speed of 250 km/h (or

280 km/h with the optional AMG Driver's Package).
But it is nowhere near as plush as the traditional limousine. The suspension is tuned for dynamic performance, meaning rear-seat passengers won't find the comfort of the E-Class.

Verdict

The Mercedes-AMG E 53 is a rare car. It offers the option to act as a silent EV for daily city driving, while retaining the raw power of an AMG. For those who want racetrack performance paired with modern hybrid usability, it hits the sweet spot — but mind you, it is almost half a crore more expensive than the E-Class.

A sponsor protection rider adds heft to your student travel insurance

ABSENCE OF YOUR SPONSOR WILL THEN NOT DERAIL YOUR ACADEMIC JOURNEY

SAIKAT NEOGI

AS A YOUNG ADULT, if you are planning to go abroad for higher studies, opt for a sponsor protection rider with your student travel insurance. It helps safeguard your education by providing support in case of the sponsor's — typically a parent — death, or permanent disability due to accidents.
Studying overseas is one of the largest financial commitments for Indian families. The investment is supported through family savings or education loans, making the financial wellbeing of your sponsor critical to your academic journey.
Rakesh Kaul, chief distribution officer, Retail Business, Bajaj General Insurance, says the rider provides financial assistance to students if their sponsor is no longer able to fund their education due to unforeseen circumstances covered under the policy. "It serves as a financial safety net, allowing students to focus on their studies rather than worrying about arranging funds during a difficult time," he says.
A base student travel insurance typically covers medical emergencies, hospitalisation, and some travel-related risks. Some insurers include sponsor protection as an in-built benefit within the student travel insurance policy.
A personal liability rider that pays for the legal liability if you accidentally injure someone or damage property and an emergency family visit add-on that pays for a family mem-

ber's travel if you are hospitalised are other prudent add-ons.

University-sponsored health cover

Most universities abroad, particularly in the United States, require international students to enrol in a university-sponsored health insurance plan that primarily focuses on providing access to medical care during the course of study. These plans cover hospitalisation, emergency treatment, outpatient consultations and emergency medical evacuation or repatriation in accordance with university requirements.
Manas Kapoor, business head, Travel Insurance, Policybazaar.com, says university insurance does not pro-

tect students against several travel-related and financial risks that can arise while living abroad. "An overseas travel insurance policy from India complements the university insurance by providing broader protection before, during, and throughout the student's stay overseas," he says.
A student travel insurance from India can cover medical emergencies outside the university network, emergency medical evacuation and repatriation, trip cancellations or interruptions, loss of passport or checked-in baggage. The broader financial protection ensures that students are safeguarded not only during medical emergencies but also against various unforeseen situations that can impact their studies.

STUDY ABROAD

- Base student travel insurance covers medical emergencies, hospitalisation & some travel-related risks
- Personal liability and emergency family visit add-ons are important riders
- University insurance does not protect against several travel-related and financial risks that can arise while studying abroad
- Financial wellbeing of sponsor — parent or guardian — is essential for a student's academic future

Coverage amount

The amount of insurance cover should be determined by the cost of healthcare in the destination country rather than by the premium alone.
Dev Karvat, founder and CEO, Asego, a global assistance and travel insurance provider, says students should first understand the minimum insurance norms prescribed by their university, especially if they plan to apply for a waiver from the latter's health insurance plan. "Students travelling to the US should look for a policy that offers at least \$500,000 coverage per illness or injury, along with an unlimited overall medical limit as this provides meaningful financial protection against serious illnesses or surgeries," he says.

YOUR QUERIES: INCOME TAX

TDS is 12.5% of property sale proceeds for a non-resident

● My brother lives in Canada. We have a joint property here which will be sold and the proceeds divided between the two of us. Will he have to pay any capital gains tax here?
—Pranod Gupta

The capital gains arising from the sale of the immovable property will be taxable in India since it is situated in India. Depending on your brother's residential status and the tax laws applicable in Canada, the same capital gains may also be taxable in Canada. However, he should be able to claim credit in Canada for the taxes paid in India, as per the provisions of the India-Canada Double Taxation Avoidance Agreement. Further, the purchaser will be required to deduct tax at source before making payment of the sale consideration. In the case of long-term capital gains, TDS is deducted at 12.5%, since your brother is a non-resident. The tax so deducted can be claimed as credit by him while filing his income tax return in India.

● I am a senior citizen and earn income through bank interest and dividends. How much of interest income is tax exempt for senior citizens?
—Ashok Sajwan

A deduction of up to ₹50,000 in a financial year for interest earned on deposits with banks, post offices or co-operative banks can be claimed by senior citizens. This deduction is not available under the new tax regime.

● I am a salaried employee. Will I get any tax exemption on money spent for medical treatment for my senior citizen parents?
—Vimal Pandey

If your parents are senior citizens and are not covered by any health insurance policy, the deduction is available in respect of medical

expenditure actually incurred, subject to a limit of ₹50,000 in a financial year. This deduction is not available under the new tax regime.

● How do I structure a Hindu Undivided Family for tax purpose and will I be able to save tax?
—Rajesh Purohit

A Hindu Undivided Family (HUF) is recognised as a separate taxable person under the Income-tax Act, 2025. Once an HUF is formed, it can obtain a Permanent Account Number, open a separate bank account and hold assets in its own name. Income arising from HUF assets is assessed separately from the income of individual members. An HUF may help in tax planning where it has independent sources of income, such as ancestral property, family business or assets validly transferred to the HUF in accordance with the law. However, do take professional advice before constituting an HUF solely for tax planning purposes.

MICROSOFT ADDS RECORD \$450 BN IN MCAP IN A DAY

MICROSOFT ADDED NEARLY \$450 billion in market value on Thursday, the largest one-day gain on record for a company, after it forecast stronger-than-expected cloud growth and signalled continued cash generation through its new fiscal year. The software giant's shares closed up more than 15%, lifting its market capitalisation to \$3.35 trillion, surpassing chip giant Nvidia's previous record one-day gain of \$441 billion on April 9, 2025.

Amazon soars as solid cloud sales ally AI fears

AMAZON SHARES SURGED nearly 14% on Friday after the tech giant's solid cloud sales growth reinforced investor confidence in its massive AI bets and quashed any concerns about the company trailing its Big Tech rivals in the AI race. The e-commerce and cloud titan posted its strongest cloud growth in over four years, indicating a fresh wave of demand that justifies its 10% increase in planned capital spending for 2026 to \$220 billion.

EU to crack down on AI deepfakes, with new team

● OVER 55 DEAD AS 60,000 MIGRANTS STORM SPANISH ENCLAVE

About 60,000 migrants have crossed into Spain's North African enclave of Ceuta from Morocco in the last 24 hours, Ceuta's president said on Friday, adding that at least 57 migrants died during the crossing. The border crisis boiled over Thursday and continued on Friday with security forces clashing with migrants on the Moroccan side of the border. Spanish Prime Minister Pedro Sánchez condemned the breach of the border on Friday speaking in Ceuta, describing the events as "a violation of Spain's territorial integrity." Live footage of the border showed hundreds of migrants gathered on a hill overlooking Ceuta being dispersed with tear gas by Moroccan forces, while others continued to swim to the Spanish territory. At the same time, large groups of migrants walked back from Ceuta towards Morocco to return home

Hamas agrees to Trump's Gaza disarmament plan

SAMY MAGDY, SAM MEDNICK, JONATHAN J COOPER & MATTHEW LEE
Cairo, July 31

HAMAS REACHED AN agreement to disarm, officials told *The Associated Press* on Friday, a significant move that could help end the war in Gaza — but one that will face many hurdles and could take a long time to achieve, if at all.

The group agreed to a road map as long as Israel also makes concessions, including ending hostilities and withdrawing its troops from the Palestinian territory, according to a Hamas official and a regional official.

Israel has not commented on the deal, which US President Donald Trump announced hours earlier. It comes nine months after a US-brokered ceasefire to end the fighting between Israel and the group was signed.

That 20-point ceasefire plan calls on the militant group to surrender its weapons and destroy its vast network of tunnels. It also envisions Israeli forces withdrawing from Gaza, the arrival of a new technocratic Palestinian government, the deployment of a security

force known as the International Stabilization Force and the rebuilding of the battered Palestinian enclave. But negotiations between Israel and Hamas over the implementation of the next phase of the ceasefire deal had largely deadlocked — and disarmament was a major sticking point.

Disarming would represent a sea change for Hamas, whose founding charter calls for armed resistance against Israel, and which sees its arsenal, including rockets, anti-tank missiles and explosives, as lying at the heart of its identity.

“The agreement will be carried out in carefully structured phases,” Trump said on social media. “As disarmament is completed, Israeli forces will withdraw, and the International Stabilization Force will work with a new Palestinian police force to take responsibility for Gaza being safe for its residents and its neighbours.”

A copy of the agreement obtained and verified by *AP* said that all police weapons will be transferred to the US-backed Palestinian technocratic committee, known as the National Committee for the Administration of Gaza, upon its arrival in the enclave. It's not clear when that would happen since it is contingent on other steps.

A process to decommission and store heavy weapons, military production sites and tunnels will begin after the arrival of the Palestinian committee and the deployment of the ISF.

The process will be linked to an Israeli withdrawal, in phases, from the areas under its control in Gaza, according to the agreement. —*AP*

Anthropic AI hacks 3 firms in test

ANTHROPIC SAID ITS artificial intelligence models hacked into three other organisations during testing, just days after ChatGPT maker OpenAI raised concerns over AI controls after it disclosed its rogue models hacked another company.

Anthropic, the San Francisco-based AI firm behind Claude, posted on its website on Thursday that it discovered the three incidents after reviewing more than 141,000 evaluation runs. It had launched a “large-scale” cybersecurity review which looked for evidence whether its AI models were able to access the internet from within testing environments that should have been sealed off, in response to OpenAI incident, Anthropic said.

Anthropic said the models involved were Claude Opus 4.7, Claude Mythos 5 and an internal research test model. The earliest incidents date to April, the AI firm said.

“Claude compromised the impacted organizations’ infrastructure using basic techniques,” Anthropic said, such as exploiting weak passwords. In all three incidents, the AI models were tasked with a “capture the flag” cybersecurity challenge, which Anthropic said has been one of the ways it assesses a model's cyber capabilities. —*AP*

US mulls \$100K fee for foreign students to work after graduation

PRESS TRUST OF INDIA
Washington, July 31

THE US IS planning to impose a \$1,00,000 fee on visas issued to international students for working in the US after graduation from an American university, *The Wall Street Journal* (WSJ) reported.

The Trump administration move comes after a US court struck down a proposal to levy a \$1,00,000 fee on H-1-B visas.

According to The WSJ, the Department of Homeland Security (DHS) is mulling the high fee on Optional Practical Training (OPT) visas which are an extension of F-1 visas issued to students.

The OPT programme allows foreign graduates to work for one to three years on their student visas in areas directly related to their studies.

Roughly 4,19,000 foreigners were working on OPT in 2024, the latest year for which data are available.

Tech companies, which conduct most of the recruitments from US universities, opposed the \$1,00,000 fee on H-1-B visas.

A DHS spokeswoman said in a statement, “No policies should be considered final until formally announced. At DHS we are always having conversations about how to use all tools in our arsenal to protect the integrity of our legal immigration system.”

In addition to the H-1B and student visas, officials at the State Department are also weighing attaching a \$1,00,000 bond on applicants for green cards outside

FROM THE FRONT PAGE

Priya Nair’s first year as HUL MD

THE PLAYBOOK BEARS the imprint of her career. Having run home care between 2014 and 2020 and beauty & personal care thereafter — before watching global consumer trends up close from Unilever's London headquarters — Nair has pushed HUL hard towards premiumisation and categories in which Indian consumers are trading up.

The strategy has been backed by higher spending. HUL raised advertising and promotion expenditure to ₹1,657 crore in June quarter, the highest in 11 quarters, even as commodity costs remained volatile. It also invested in technology, including Unilever's Fragrance House in India, an AI-enabled Liquids Lab in Mumbai that can reduce formulation-development timelines sixfold, and supply-chain initiatives that have helped HUL secure eight World Economic Forum Lighthouse designations across six manufacturing sites.

Analysts, however, caution against reading too much into one-year of improving numbers.

Sachin Bobade, head of research at Monarch Network Capital, said the improvement in volume growth should be viewed against an unusually weak base. “A favourable base has certainly helped in the last couple of quarters. The real test will be whether HUL can deliver

with post-pandemic demand normalisation and urban stress, making one-year assessments difficult,” the analyst said.

HUL's latest quarter was not without blemishes. Consolidated net profit fell 3% y-o-y to ₹2,673 crore, even as Ebitda margins held steady at 23%, reflecting pressure from input costs and sustained brand investments. Company has indicated that price hikes of 2-5% may continue into Sept. quarter.

For Nair, the larger message is that HUL is rebuilding for sustained growth rather than chasing a single quarter's performance. She pointed to its improving trajectory — from 3% growth in H1FY26 to 10% in the June quarter — and continued gains in turnover-weighted market share as evidence that strategy is working.

“We remain extremely confident in how we will be able to navigate,” she said, despite uncertainties around commodity inflation, geopolitics and impact of El Niño on monsoon.

Whether her first year marks the beginning of a sustained revival or merely reflects a favourable comparison base will become clearer over the next few quarters. For now, she has delivered stronger momentum — and, in true HUL fashion, raised expectations for what comes next.

PM-KISAN extended by 5 years

OFFICIALS SAY THE direct financial assistance also helped reduce farmers' reliance on informal credit sources, enhanced risk-taking capacity and supported agricultural production.

Under the scheme, beneficiary farmers are identified through Aadhaar-based authentication and digitised land records, ensuring transparent and efficient direct benefit transfer to verified beneficiaries.

“The extension of the scheme will enhance farmers' capacity to invest in agriculture, improve productivity, help reduce agricultural risks and strengthen the rural economy,” as per an official statement.

According to an evaluation conducted by the Niti Aayog on the impact of PM Kisan, more than 92% of beneficiaries reported that they utilised the assistance amount for agricultural activities and investment. Around 85% of beneficiaries confirmed an improvement in agricultural income and a reduction in dependence on informal credit.

“Women farmers have received more than ₹1.06 lakh crore under PM-KISAN, and nearly one out of every four beneficiaries is a woman farmer,” the statement said.

State governments play a central role in implementing the scheme by identifying eligible farmer households and developing a comprehensive beneficiary database.

Nod to Zee promoter's stake hike to 24%

PREVIOUS ATTEMPTS BY the firm to get shareholders to back its fundraising plans had been rejected. In July 2025, for instance, a proposal to raise ₹2,237.44 crore received only 60% of votes, which was short of the 75% threshold.

Zee said that the latest fundraising would happen through fully convertible warrants at a price of ₹126 per warrant. Zee will issue up to 249.5 million fully convertible warrants to promoter group entity Sunbrite Mauritius Investments as part of the capital raise. The capital injection will also support sports rights, new content, and digital technology, it added.

Besides the proposal to raise promoter stake, shareholders have approved the resolutions to implement the ‘Truly Yours’ Employee Stock Option Plan (ESOP), Zee added.

“With access to higher growth capital, the company will invest in amplifying its new strategic growth avenues and enhance the capabilities within its existing business segments,” it said.

The funds are proposed to be deployed through FY29, with sports receiving the largest operating allocation. As part of the plan, Zee has earmarked ₹1,000 crore for sports rights, production capabilities and related infrastructure; ₹944 crore for potential acquisitions and ₹450 crore for content,

Bloomberg defers bond index entry

ON JUNE 5, THE government exempted eligible foreign investors from tax on interest income and capital gains arising from investments in government securities. Earlier, foreign investors were subject to a 12.5% long-term capital gains tax on bonds held for more than 12 months and a 20% withholding tax on interest income.

The RBI also expanded the fully accessible route (FAR) by including 15-year, 30-year and 40-year government securities, widening the pool of bonds available to foreign investors. The decision disappointed the bond market, which had widely expected a positive announcement this month. Inclusion in the index was estimated to attract \$20-25 billion of foreign inflows over the next year.

“The market will be disappointed, as many had anticipated inclusion this time. This comes when the market is already under strain from renewed geopolitical uncertainties,” said Shashi Dhar, chief general manager, treasury and global markets, Bank of Baroda. He believes that the positions built in anticipation of the move are likely to be unwound, which could push yields slightly higher. Markets were already

under pressure today, with a sell-off triggered by the delay in index inclusion.

Agreed Anurag Mittal, head of fixed income at UTI Mutual Fund, adding that he expects the 10-year bond yield to rise by 5-7 bps, with some foreign portfolio investor outflows likely in the near term. The benchmark 10-year government bond yield closed at 6.83% on Friday.

Dhar, however, does not expect a sharp rise in yields, saying inflows under the FCNR(B) deposit scheme should provide support. He added that index inclusion could still happen later this year or in 2027.

Bloomberg said it would continue engaging with market participants as part of its governance process and provide updates as the review progresses.

“The rationale needs greater clarity. Earlier, Bloomberg had identified withholding tax as the key concern. From our perspective, most of the prerequisites have now been met, with the removal of withholding tax — the biggest hurdle — already in place,” Mittal added. He said that the index provider may now be looking for greater stability and predictability in the tax regime before proceeding.

CORRIGENDUM: NOTICE TO INVESTORS

This is with reference to the Red Herring Prospectus dated July 24, 2026 ("RHP") filed with the Registrar of Companies, Mumbai ("RoC"), and submitted to BSE Limited ("BSE") and the Securities and Exchange Board of India ("SEBI") in relation to the Offer. All capitalised terms used but not defined herein shall have the meanings ascribed to them in the RHP. Potential Bidders are requested to note the following changes to the RHP:

On pages 219, 220, 252 and 253 of the RHP in the sections titled "Restated Financial Statements" and "Statement of Financial Indebtedness", in the disclosures relating to (i) the Working Capital Requirement with a sanctioned amount of ₹1,400 lakhs; and (ii) the Guaranteed Emergency Limit with a sanctioned amount of ₹ 24.96 lakhs, the terms "Leasehold" and "Proposed Leasehold", wherever appearing in relation to the following properties, shall be read as "Owned":

- Residential Flat No. 704, Seventh Floor, "Gokul Dham III", situated on part of Khasra Nos. 81, 82 and 83, Village Boraj, District Ajmer, admeasuring 1,300 sq. ft.;
- Residential Flat No. 601, Seventh Floor, "Gokul Dham III", situated on part of Khasra Nos. 81, 82 and 83, Village Boraj, District Ajmer, admeasuring 1,200 sq. ft.; and
- Residential Flat No. 504, Fifth Floor, "Gokul Dham III", situated on part of Khasra Nos. 81, 82 and 83, B.K. Kaul Nagar, Village Boraj, District Ajmer, admeasuring 1,300 sq. ft.

On page 190 of the RHP, in the section titled "Our Promoters and Promoter Group", in the table titled "Brief Profile of our Promoters", under the column "Other Ventures", the details relating to Mr. Jawed Akhtar and Mr. Sunil Lakshman Vatsa shall be read to include "Nucleus Engineering Corp." and "Vatsa Electric", respectively.

On page 36 of the RHP under Risk Factor 17, the paragraph commencing with the words "Further, certain clerical and typographical inaccuracies..." shall be replaced with the following:

"Further, certain clerical and typographical inaccuracies have been identified in the e-forms and attachments filed by our Company with the RoC, including incorrect references to meetings and incorrect categorisation of directors in Forms AOC-4 and MGT-7, incomplete reporting of certain share transfer details in Form MGT-7, and an arithmetical discrepancy appearing in the attachments filed with Forms PAS-3 and MGT-14.

Our Company has been informed that certain inaccuracies identified in Forms AOC-4 and MGT-7 cannot be rectified through revision or resubmission of the relevant forms. In this regard, our Company has obtained a certificate dated February 19, 2026 from a Practicing Company Secretary recording the inaccuracies relating to references to meetings and the categorisation of directors in Forms AOC-4 and MGT-7. While the underlying corporate actions to which the aforesaid filings relate were duly undertaken and, where applicable, approved and recorded by our Company, the aforesaid inaccuracies and incomplete reporting may be subject to scrutiny by the RoC or other regulatory authorities."

Except as stated above, the remaining contents of Risk Factor 17 shall remain unchanged.

Except as stated in this Corrigendum, the contents of the RHP shall remain unchanged. This Corrigendum shall be read in conjunction with the RHP, the Bid cum Application Form and the Abridged Prospectus. The RHP shall stand amended to the extent stated herein, and the above changes shall be reflected in the Prospectus.

In compliance with the above circulars, the Notice of the 19th AGM along with the Annual Report for the Financial Year 2025-26 has been sent electronically on July 31, 2026, to all those shareholders whose email IDs are registered with the Company/ Depository Participants/ Registrar and Share Transfer Agents (RTA) of the Company, as on Friday, July 24, 2026. The Notice of the AGM and the Annual Report for the Financial Year 2025-26 are also available on the website of the Company at www.quesscorp.com, the website of the Stock Exchanges, i.e., BSE and NSE, at www.bseindia.com and www.nseindia.com, respectively, and on the website of the Central Depository Services (India) Limited (CDSL) at www.evotingindia.com.

Any person who acquires shares of the Company and becomes a Member of the Company after sending the Notice and holding shares as of the cut-off date may obtain the login ID and password by sending a request to helpdesk.evoting@cdslindia.com. However, if he/she is already registered with the CDSL for remote e-voting, then he/she can use his/her existing user ID and password for casting the vote.

A letter providing a web-link, including the exact path of the Company's website and a QR code for accessing the Notice of the AGM and Annual Report for the Financial Year 2025-26, was also dispatched to those shareholders on July 31, 2026, who have not registered their email IDs.

Pursuant to Section 108 of the Companies Act, 2013, read with Rule 20 of the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015, the Company is pleased to provide the facility to Members to exercise their right to vote by electronic means on the resolutions proposed to be passed at the 19th AGM. The Members holding shares either in physical form or dematerialised form shall cast their vote electronically through the electronic voting system (remote e-voting) of CDSL at www.evotingindia.com. Only those Members whose names are recorded in the Register of Members or in the Register of Beneficial Owners maintained by the Depositories as on the cut-off date, i.e. Tuesday, August 18, 2026, shall be entitled to avail the facility of remote e-voting.

All the Members are informed that:

- The cut-off date for determining the eligibility to vote by remote e-voting or by e-voting system at the AGM shall be Tuesday, August 18, 2026.
- The remote e-voting shall commence on Friday, August 21, 2026 at 09.00 A.M. (IST) and end on Monday, August 24, 2026 at 05.00 P.M. (IST) (both days inclusive).
- The remote e-voting will not be permitted beyond the aforesaid date and time, and the e-voting module will be disabled upon the expiry of the aforesaid timeframe. Once the vote on the resolution is cast by a Member, he/she shall not be allowed to change it subsequently.
- The Members who have not cast their vote by remote e-voting shall be eligible to cast their vote through remote e-voting during the AGM. Members who have voted through remote e-voting shall be eligible to attend the AGM; however, they shall not be eligible to vote at the meeting.
- The instructions for remote e-voting and e-voting during the AGM for the Members holding shares in dematerialised form, physical form and shareholders who have not registered their email addresses have been provided in the Notice of the AGM along with the instructions for attending the AGM through VC/OAVM.
- The Board of Directors has appointed Mr. V. Sreedharan (FCS 2347; CP 833) and, in his absence Mr. Pradeep B Kulkarni (FCS 7260; CP 7835), Practicing Company Secretaries and Partners of M/s. V. Sreedharan & Associates, Company Secretaries to scrutinize the remote e-voting process in a fair and transparent manner.

The results of remote e-voting shall be declared within the stipulated timeframe from the conclusion of the meeting and the same, along with the Scrutinizer's Report, will be made available on the website of the Company at www.quesscorp.com, Stock Exchanges where the equity shares of the Company are listed i.e., BSE and NSE at www.bseindia.com and www.nseindia.com, respectively, and also on the website of CDSL at www.evotingindia.com.

In case of any queries or issues regarding attending the AGM & remote e-voting from the CDSL e-voting System, the Shareholders are requested to refer to the Frequently Asked Questions ("FAQs") and e-voting manual available on the CDSL website or may write an email to helpdesk.evoting@cdslindia.com or contact at toll-free no. 1800 21 09911.

The Shareholders may note that the Board of Directors at its meeting held on May 04, 2026, had recommended a final dividend of Rs. 3/- per equity share for the Financial Year ended March 31, 2026. The record date for the purpose of determining the entitlement of the shareholders for the final dividend is Friday, August 07, 2026. The final dividend, once approved by the shareholders at the ensuing 19th AGM, will be paid on or after the 6th (sixth) day of the AGM, within the statutory timelines, through various electronic modes.

Notes :
1 The above is an extract of the detailed format of Quarterly financial results filed with the stock Exchanges under Regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results and Explanatory Notes are available on the Stock Exchange websites at www.nseindia.com and www.bseindia.com and on the Company's website at www.kirloskarpumps.com.
2 The figures for the Quarter ended 31st March 2026 are the balancing figures between the audited figures in respect of the full financial year and the published year to date figures upto the end of third quarter of the respective financial year, which was subjected to Limited Review.
3 The Government of India has consolidated multiple existing labour legislations into a unified framework comprising of four Labour Codes, collectively referred to as the 'New Labour Codes' and notified with effect from 21st November 2025. Based on the analysis of the information available so far and actuarial valuation, the Company has recognised an incremental impact of Rs. 262 Mn. for the Quarter ended 31st March 2026 and Rs. 414 Mn. for the year ended 31st March 2026 as past service cost on post-employment defined benefits for its employees. Considering that this impact is driven by a regulatory change and is non-recurring in nature, it is classified under exceptional items in these financial results. The Company continues to monitor the developments relating to the implementation of the New Labour Codes and would review the estimates as further clarifications and Rules are notified.
4 The above results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on 31st July 2026.

Notice is hereby given that the 89th Annual General Meeting ("AGM") of the members of "Godfrey Phillips India Limited" ("the Company") will be held on Monday, 24th August 2026 at 2:30 P.M. (IST), through Video Conferencing ("VC")/Other Audio-Visual Means ("OAVM") to transact the businesses as set out in the Notice convening the 89th AGM. In compliance with all the applicable provisions of the Companies Act, 2013 and Rules made thereunder read with circulars issued by the Ministry of Corporate Affairs (MCA) dated 8th April 2020, 13th April 2020, 5th May 2020 along with subsequent circulars issued in this regard and the latest dated 22nd September 2025 (collectively referred to as "MCA Circulars"), Companies are allowed to hold AGM through VC/OAVM without the physical presence of the Members at a common venue. Hence, the 89th AGM of the Company is being held through VC/OAVM to transact the businesses as set forth in the Notice of the 89th AGM dated 27th July 2026. Members participating through VC/OAVM shall be counted for reckoning the quorum under Section 103 of the Companies Act, 2013. The proceedings of the 89th AGM shall be deemed to be conducted at the Registered Office of the Company.

In compliance with the above circulars, electronic copies of the Notice of the 89th AGM and the Annual Report for the Financial Year ended 31st March 2026 have been sent on 31st July 2026 to all the shareholders whose email addresses are registered with the Company/ Depository Participant(s) / MUFUG Intime India Private Limited, the Registrar & Transfer Agent (RTA). Further, pursuant to SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a physical letter has also been sent to the Members whose email IDs are not registered with the Company/RTA/Depository, containing relevant details like the weblink of the website from where the Annual Report and 89th AGM Notice can be accessed. A Member requiring the hard copy of the Annual Report may send email on isc@godfreyphillips.co.in

The notice of the 89th AGM along with the Annual Report for the Financial Year 2025-26 is available on the website of the Company at <https://www.godfreyphillips.co.in>, on the website of the Stock Exchanges i.e. BSE Limited at <https://www.bseindia.com> and National Stock Exchange of India Limited at <https://www.nseindia.com/> respectively and can also be downloaded from the website of the RTA at <https://instavote.linkintime.co.in>

In compliance with the provisions of Section 108 of the Companies Act, 2013 read with the Companies (Management and Administration) Rules, 2014 (as amended from time to time) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is pleased to provide its members the facility to exercise their right to vote by electronic means and businesses may be transacted at 89th AGM through Remote e-Voting facility provided by MUFUG Intime India Private Limited.

The Remote e-Voting period will commence on Thursday, 20th August 2026 (9:00 A.M IST) and ends on Sunday, 23rd August 2026 (5:00 P.M IST). The Remote e-Voting shall be disabled after completion of the voting period and no remote e-Voting will be allowed thereafter. The manner of voting remotely for members holding Shares in dematerialized mode, physical mode and for Shareholders who have not registered their email address is provided in the Notice of 89th AGM.

Members who have cast their vote by Remote e-Voting prior to the 89th AGM may attend the 89th AGM through VC/OAVM but shall not be entitled to cast their vote again. Members who have not cast their vote through Remote e-Voting and present in the 89th AGM through VC/OAVM, shall be eligible to cast their vote through e-Voting at the 89th AGM.

The voting rights of the members shall be in proportion to their shares in the paid-up Equity Share Capital of the Company as on the cut-off date of Monday, 17th August 2026. Members holding shares either in physical form or in dematerialized form, on the said cut-off date are eligible to avail the facility of Remote e-Voting or e-Voting at the 89th AGM. Any person who acquires Shares of the Company after dispatch of 89th AGM Notice and hold such Shares as of the cut-off date i.e. 17th August 2026, may obtain the Login ID and Password by sending a request at enotices@in.mpmis.mufug.com. However, if the member is already registered with the RTA or Remote e-Voting, then he/she can use his/her existing User ID and Password for casting the Vote.

Member who have not registered their email addresses are requested to register the same with their Depository Participants (DP), if Shares are held in dematerialized form and with the RTA, if the Shares are held in Physical form by submitting their details on https://web.in.mpmis.mufug.com/EmailReg/Email_Register.html

Members facing any technical issue in Login may contact Mr. Rajiv Ranjan - Sr. Assistant Vice President at the designated email ID: rajiv.ranjan@in.mpmis.mufug.com or contact at: 022-49186000.

Members may note that the Board of Directors at their Meeting held on 15th May 2026 has recommended a Final Dividend of Rs. 33/- per Equity Share of Rs. 2/- each for the Financial Year 2025-2026, which is subject to the approval by the members in the 89th AGM. The final dividend will be paid within a period of 30 days from the date of approval on the 89th AGM to those members whose names appear in the Register of members as on the Record date of Tuesday, 11th August 2026. Members may note that as per Income Tax Act 2025, ("the Act"), dividend paid or distributed by a Company is taxable in the hands of the Shareholders. The Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the payment of Dividend. Members are requested to update their residential status, PAN and Category as per the Income Tax Act with their Depository Participants in case Shares are held in Dematerialized form or with the Company's RTA, if the Shares are held in Physical form.

Heat threat for millions of jobs in India: World Bank

FE BUREAU
New Delhi, July 31

EXTREME HEAT IS set to cost Indian cities jobs and growth over the coming decades as outdoor work becomes unsafe, the World Bank said a report. Not just India, high temperatures will also hurt jobs and growth in South Asia, with the region's economy projected to contract by nearly 7% by 2050, the report said.

According to the 'A Livable Future: Protecting Jobs and Growth from Extreme Heat in South Asia's' report, New Delhi may lose 266,000 full-time jobs by 2030 due to working hours being rendered unsafe by extreme heat. The number of jobs lost in New Delhi could increase to 418,000 by 2050 and 629,000 by 2080.

Mumbai could lose over 200,000 jobs by 2030 and 255,000 by 2050, while Kolkata could lose 360,000 jobs by 2030, which may rise to

THE HEAT IS ON

■ New Delhi may lose **266,000** full-time jobs by 2030 due to working hours being rendered unsafe by extreme heat

■ Mumbai could lose over **200,000** jobs by 2030 and **255,000** by 2050

■ India already lost an estimated **\$194 billion** in potential income and **247 billion** labour hours to extreme heat in 2024

■ New Delhi's IGI is among a small number of major airports globally projected to face temperatures near or above **50°C** by 2030

833,000 by 2080. Chennai, Ahmedabad, Surat, and Varanasi are all projected to lose over 100,000 full-time jobs by 2080 because of extreme heat, the World Bank said.

India already lost an estimated \$194 billion in potential income and 247 billion labour hours to extreme heat in 2024, the report said.

Patna is projected to see 6.3% of annual working hours rendered unsafe by 2080, a sharp jump from 2.4% in

2030. For Jaipur, this figure is projected to rise to 2.9% by 2080 from 1.5% in 2030.

New Delhi's Indira Gandhi International Airport is among a small number of major airports globally projected to face temperatures near or above 50°C for multiple days per year by 2030. At such temperatures, reduced air density compromises both lift and engine thrust, forcing airlines to reduce passenger loads, carry less cargo, or burn additional

fuel to achieve safe take-off, the report said.

"Extreme heat is costing South Asia nearly the equivalent of 31 million full-time jobs every year and is on track to reduce the region's economy by nearly 7% by 2050," the report said. "As South Asia prepares to add 280 million working-age people by 2050, rising temperatures are one of the greatest threats to jobs, productivity, and long-term economic growth in the region."

NZ FTA opens new avenues for trade

PRASANTA SAHU
Auckland, July 31

MORE THAN A tariff-cutting pact, the India-New Zealand Free Trade Agreement (FTA) is being viewed as a catalyst for investment, innovation and deeper business partnerships, with industry leaders urging companies to move quickly to capture emerging opportunities.

The India-New Zealand FTA is expected to be operational by the end of 2026.

ANZ New Zealand CEO Antonia Watson told FE that the agreement provides certainty for trade and capital flows while unlocking opportunities in premium exports, education, tourism and financial services. India New

ANZ New Zealand CEO Antonia Watson & India New Zealand Business Council CEO Sunil Kaushal

Zealand Business Council CEO Sunil Kaushal called on Indian businesses to leverage New Zealand as a gateway to the Pacific and use the partnership to access wider global markets.

"New Zealand and India already have strong connections," Watson said, noting that

around 12% of Auckland's population is Indian while about 20% of ANZ's global workforce is based in India. "The FTA formalises these relationships and provides greater certainty around tariffs and areas of cooperation."

Watson said India's market of 1.4 billion people presents

significant opportunities for New Zealand's premium exports. "We're never going to feed 1.4 billion people, but some of our premium products can have a real market there. It's a very exciting development," she said.

Founded as a trade bank, ANZ has deep expertise in supporting trade and capital flows across the Asia-Pacific. "We help connect Indian and New Zealand businesses through trade finance, transaction banking and institutional banking services," Watson said, adding that the bank has already assigned dedicated staff to strengthen links between its India and New Zealand teams.

Solar's share tops 10% in power output

SAURAV ANAND
New Delhi, July 31

SOLAR POWER SUPPLIED more than one in every 10 units of electricity generated in India during the April-June quarter for the first time, as output rose 37% year-on-year (y-o-y) to 57 billion units (BU), according to the Centre for Research on Energy and Clean Air's (CREA) quarterly energy snapshot.

India's electricity generation increased 9% to a record 524 BU in the first quarter of FY27, with solar accounting for 10.9% of the generation mix. Coal continued to dominate with a share of about 69-70%. Solar generation has more than doubled from 28 BU in the first quarter of FY24 and touched a daily record of 696 million units on May 11.

Solar contributed 36% of the y-o-y increase in electricity

generation, up sharply from 11% in the corresponding quarter last year, and accounted for 84% of the growth in renewable energy output. Renewables together contributed 43% of the incremental generation, while the share of coal and lignite declined to 68% from 71% a year earlier.

The growth came as

national peak electricity demand climbed to a record 271 GW on May 21, 12% higher than a year earlier. Peak demand occurred during solar generation hours on 61 of the quarter's 91 days, with solar supplying more than one-fifth of generation during the system peak.

Among states, Maharashtra recorded the highest peak

demand at 30 GW, followed by Uttar Pradesh at 27 GW and Gujarat at 25 GW.

Battery energy storage also began contributing to night demand, supplying up to 4.1 GW, or 1.1-1.8% of national demand, during peak hours. India has about 7.5 GWh of operational battery storage capacity, with another 3 GWh expected to be commissioned by December. Storage tenders totalling nearly 272 GWh have already been issued.

However, grid constraints continued to force renewable generation cuts. Around 473 MU of solar and 112 MU of wind power were directly curtailed, while another 1,286 MU of solar and 211 MU of wind were backed down under the Tertiary Reserve Ancillary Service mechanism. Gujarat recorded the highest curtailment.

Case against Meta India head over posts on PM

THE HYDERABAD POLICE has registered a case against the head of Meta India, Arun Srivastava, over multiple videos posted on the company's Facebook platform that depicted Prime Minister Narendra Modi in an 'abusive manner', a senior police officer said on Friday.

The videos spread as Modi contended with the biggest wave of youth-led protests India has seen in more than a decade, a movement over leaked papers in national examinations that has led to the resignation of his education minister.

Police are preparing to send a notice to Meta Platforms regarding the case, said V Aravind Babu, deputy commissioner of police for cyber crimes in Hyderabad. Meta did not immediately respond to a Reuters request for comment on Friday.

Realty projects get four-month extension amid W Asia conflict

PRESS TRUST OF INDIA
New Delhi, July 31

THE UNION HOUSING and Urban Affairs Ministry on Friday issued an advisory asking all state Real Estate Regulatory Authorities (RERAs) to grant a four-month extension in the registration and completion timelines of eligible real estate projects affected by disruptions arising from the ongoing conflict in West Asia.

The ministry, in an advisory issued to all regulatory authorities, said the prevailing situation in West Asia has adversely affected global supply chains, resulting in a shortage of construction materials, thereby impacting the timely construction of the real estate projects. It said the ministry had received several representations from stakeholders in the real estate sector seeking relief in view of the disruptions

SUPPLY DELAYS

■ The West Asia conflict has affected supply chains, resulting in shortage of building materials

■ Housing ministry has advised authorities to issue suitable orders for completion timelines

■ The relief would apply to projects whose original, revised completion date falls on or after Feb 28, 2026

affecting timely completion of projects.

Referring to an Office Memorandum issued by the Department of Expenditure under the Ministry of Finance on April 29, the advisory noted that the ongoing West Asia situation has been treated as "war" for invocation of the Force Majeure clause.

Section 6 of the Real Estate (Regulation and Development) Act, 2016 provides for exten-

sion of registration of a real estate project on account of Force Majeure, which, inter alia, includes "war" affecting the regular development of a real estate project. Further, under Section 7(3) of RERA, the Authority may, instead of revoking the registration, permit it to remain in force subject to such terms and conditions as it considers appropriate in the interest of the allottees, it said.

Notes:

- The financial results have been prepared in accordance with Indian Accounting Standards (Ind-AS) as prescribed under Section 133 of the Companies Act, 2013, as amended ("the Act") read with relevant rules issued thereunder and other accounting principles generally accepted in India. The standalone and consolidated financial results of LT Foods Limited ("the Company" or "the Holding Company"), will be available on the website of BSE (www.bseindia.com) or/and NSE (www.nseindia.com) and on the Company's website (www.ltfoods.com).
- The Company, its subsidiaries, its associates and its joint ventures (the "Group") are primarily engaged in the business of manufacturing, trading and marketing of rice which is a single primary reportable segment as per Indian Accounting Standard "Operating Segment" (IND AS 108), which is in line with review of operating result by chief operating decision maker.
- The Group has an insurance claim recoverable of ₹13,410.53 lakhs (non-current asset) relating to loss of raw materials due to fire at the premises of Daawat Foods Limited ("the Subsidiary Company") in financial year 2014-15. The Group had recognized the insurance claim recoverable (asset) amounting to ₹17,810.88 lakhs in financial year 2014-15, based on the management's assessment of the loss amount and the positive outcome in the reports of the surveyors, then appointed by the Insurance Company, and subsequently the Group had written off claim amounting to ₹4,400.35 lakhs in financial year 2015-16 pursuant to repudiation of the claim by the Insurance Company in the reports of the surveyors in February 2016 and report of the surveyors which were received subsequent to the reports submitted by the surveyors initially appointed by the Insurance Company. The Subsidiary Company filed a commercial suit with Hon'ble District Court of Raipur, Bhopal ("District Court"). The District Court passed a decree in favour of the Subsidiary Company in December 2023, allowing the claim to the extent of ₹16,120.27 lakhs along with interest of 6% p.a. with effect from date of fire incident amounting to ₹10,383.23 lakhs. The Insurance Company filed an appeal before the Hon'ble High Court of Madhya Pradesh ("High Court") on two grounds: (i) Challenging the decree on merits and (ii) Seeking stay on execution order of the District Court. While the appeal on merits has been admitted and remains pending before the High Court, the stay applications were rejected successively by both the High Court and the Hon'ble Supreme Court ("Supreme Court"). The Hon'ble Supreme Court's vide its order dated January 10, 2025, clarified that the entire decretal amount needs to be deposited by the Insurance Company within two months and the underlying bank guarantee charges shall be borne equally by the Insurance Company and the Subsidiary Company. The Insurance Company as per the order of the Hon'ble Supreme Court deposited the amount of ₹26,503.50 lakhs (₹16,120.27 lakhs claim amount and ₹10,383.23 lakhs interest) on March 04, 2025, which was released by the District Court to the Subsidiary Company on April 08, 2025 against a 100% bank guarantee which is valid till final disposal of the First Appeal pending before the High Court. Further, the amount so received has been recorded as a liability, considering that the matter is sub judice. In April 2026, basis directions from the bank, the Subsidiary Company renewed the bank guarantee for ₹26,503.50 lakhs, being the original amount released pursuant to the District Court decree, but excluding interest accrued thereon since the collection of the amount. Based on management's assessment, supported by external legal opinion and favourable orders from the Courts, the Group considers the carrying value of ₹13,410.53 lakhs (March 31, 2026: ₹13,410.53 lakhs) as recoverable and appropriate as at June 30, 2026, in light of the applicable accounting guidance. However, considering the matter is sub-judice before the High Court and subject to further legal proceedings, the Group has not recognised the differential excess amount awarded over and above the carrying value of the claim and the recoverability of such differential amount will be established once the verdict is passed by the higher courts leaving no further course of appeal.
- The financial results have been reviewed by the Audit Committee and approved by the Board of Directors at their meeting held on July 30, 2026.
- The figures of last quarter are the balancing figures between audited figures in respect of the full financial year ended March 31, 2026 and the unaudited published year to date figures upto December 31, 2025, being the date of the end of the third quarter of the financial year which were subjected to limited review.
- During the previous year, Ecopure Specialities Limited ("Ecopure"), a subsidiary of the Company which is engaged in the business of manufacturing and selling organic soybean products, has been served with a preliminary determination of countervailing duty ("CVD") by the U.S. Department of Commerce ("US-DOC") under its Administrative Review on organic soybean meal exports from India for the period January 1, 2023 to December 31, 2023. US-DOC, in its preliminary determination, based on an 'Adverse Facts Available' methodology, has imposed a CVD rate of 340.27% on the exports amounting to INR 50 crores (approx.) made by Ecopure during the said period. The US-DOC, vide its final order dated February 23, 2026, reduced the CVD rate applicable to Ecopure's exports of organic soybean meal to the United States from 340.27% to 75.48%. Nature Bio Foods Inc., being the importer on record in the United States, shall be liable for payment of the applicable duty (if any) upon final disposal of the matter.
- In response to the above results, Ecopure had filed a summons with the United States Court of International Trade ("U.S. CIT") on March 27, 2026, followed by an appeal on April 27, 2026. On May 11, 2026, the U.S. CIT issued an injunction enjoining the liquidation of the Company's entries until the final outcome of the proceedings. Based on the legal opinion and management assessment of the facts of the case, the management believes that it has a strong legal position and, accordingly, does not expect a material impact on these financial results.
- During the current quarter, a new wholly owned subsidiary has been incorporated by the Company under the name LT Foods Australia PTY Limited in Australia, vide Australian Company No. 699353805 dated June 23, 2026.
- The consolidated financial results include the results of the Holding Company, twenty two subsidiaries, two joint ventures and five associates.

ARACE FOR top investment talent is pushing country's billionaire-owned family offices to increasingly offer profit-sharing arrangements, highlighting the fierce competition for money managers in one of the world's fastest-growing wealth markets. Billionaire family offices, including those belonging to tech founder Azim Premji and consumer tycoon Harsh Mariwala, are already paying a share of investment profits - known as carried interest - while multiple newer family offices are considering doing so, according to people familiar with the matter. Premji's firm declined to comment and Mariwala's Sharp Ventures confirmed. Most family offices did not offer carried interest to their

investment teams until recently and even among the largest, the structure is fairly new. Globally, less than one-third of family offices provide a long-term incentive plan for their staff. Among those that do, US family offices are the most likely to offer carried interest and co-investment options, according to a 2025 survey by KPMG and Agreus Group. The rise in ultra-rich sharing profits with those who manage their money in India shows how the country has become an increasingly competitive market for family office talent.

360 ONE**NOTICE TO THE EQUITY SHAREHOLDERS OF THE COMPANY
TRANSFER OF EQUITY SHARES OF THE COMPANY TO INVESTOR EDUCATION AND PROTECTION FUND (IEPF)**

This Notice is given pursuant to the provisions of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("the IEPF Rules") notified by the Ministry of Corporate Affairs as amended from time to time.

The IEPF Rules, amongst others, contains provisions for transfer of shares in respect of which dividend remains unclaimed by shareholders for seven consecutive years or more, to the Investor Education and Protection Fund ("IEPF").

The first interim dividend declared for the financial year 2019-2020, which remains unclaimed for a period of consecutive seven years, will be transferred to IEPF on or before December 26, 2026. The corresponding shares on which dividend(s) were unclaimed for seven consecutive years will also be transferred as per the procedures set out in the aforesaid Rules.

In compliance with the aforesaid Rules, individual notices are being sent to all the concerned shareholders whose shares are liable to be transferred to IEPF as per the aforesaid Rules. The details of such shareholders are made available on the Company's website at www.360.one.

In this connection, please note the following:

In case you hold shares in physical form: Duplicate share certificate(s) will be issued and transferred to IEPF. The Original share certificate(s) registered in your name(s) and held by you, will stand automatically cancelled.

In case you hold shares in demat form: Your demat account will be debited for the shares liable for transfer to the IEPF.

In the event valid claim is not received on or before November 26, 2026, the company will proceed to transfer such unclaimed dividend and corresponding shares in favour of IEPF authority without any further notice. Please note that no claim shall lie against the Company in respect of the unclaimed dividend amount and shares transferred to IEPF pursuant to the said rules. It may be noted that the shareholders concerned can claim the shares and dividend(s) from IEPF authority by making an application in the prescribed Form IEPF-5 online.

For queries on the above matter, shareholders are requested to contact the Company's Registrar and Share Transfer Agents, Mr. Jibu John- Assistant Vice President, at MUFG Intime India Private Limited (formerly known as Link Intime India Private Limited) Unit- 360 ONE WAM LIMITED C-101, Embassy 247, L.B.S.
