

UJJIVAN SMALL FINANCE BANK

THE ONLY PLACE FOR 'SMALL' IS IN OUR NAME.

When people hear the word 'small', they sometimes assume it reflects the size of the institution or the ticket size of the loans we offer. It doesn't, and here's why.

Your money grows faster with Ujjivan's attractive interest rates on Savings and Deposits. Our loan offerings start at ₹6,000 to over ₹250 crore**.

We bank in your language, so that nothing's ever lost in translation.

We've got over 800 branches across 26 states and union territories.

Feel free to drop in for coffee and a conversation. Because over 1 crore customers did exactly that. They trusted us and realised their dreams and aspirations.

NOTHING SMALL ABOUT US

BASIS OF ALLOTMENT

INITIAL PUBLIC OFFER OF 17,98,800 EQUITY SHARES OF FACE VALUE ₹ 10/- EACH ("EQUITY SHARES") OF PIND HOSPITALITY LIMITED ("OUR COMPANY" OR THE "ISSUER") FOR CASH AT A PRICE OF ₹ 99 PER EQUITY SHARE (INCLUDING A SECURITIES PREMIUM OF ₹ 89 PER EQUITY SHARE) ("ISSUE PRICE"), AGGREGATING TO ₹ 1780.81 LAKHS (THE "ISSUE"), OUT OF WHICH 91,200 EQUITY SHARES AGGREGATING TO ₹ 90.29 LAKHS ARE RESERVED FOR SUBSCRIPTION BY MARKET MAKER ("MARKET MAKER RESERVATION PORTION"). THE ISSUE LESS THE MARKET MAKER RESERVATION PORTION I.E. ISSUE OF 17,07,600 EQUITY SHARES OF FACE VALUE OF ₹ 10/- EACH AT AN ISSUE PRICE OF ₹ 99 PER EQUITY SHARE AGGREGATING TO ₹ 1690.52 LAKHS IS HEREINAFTER REFERRED TO AS THE "NET ISSUE". THE ISSUE AND THE NET ISSUE WILL CONSTITUTE 29.99 % AND 28.47 % RESPECTIVELY OF THE POST ISSUE PAID-UP EQUITY SHARE CAPITAL OF OUR COMPANY.

Brief description of the business of the Company: Our Company has taken four (4) restaurants on leave and license basis in Pune, Maharashtra ("PHL Restaurants") and one (1) restaurants is taken on leave and license basis by Pind Punjab in Pune, Maharashtra ("PP Restaurants"). PHL Restaurants and PP Restaurants will be collectively referred to as "Restaurants". As on the date of the Prospectus, of the above five (5) restaurants, three (3) Restaurants are being operated by our partnership firm under the brand "Pind Punjab", and our restaurants located at Eleven West (Panchshil) and Viman Nagar are being operated by our Company. We discontinued our restaurant in Baner during the Fiscal 2026, due to non-renewal of lease. Further, as on the date of the Prospectus our Company also operates a food counter in an IT park in Pune.

The Issue is being made in accordance with regulation 229(1) of the SEBI ICDR regulations

ISSUE PRICE: ₹ 99/- PER EQUITY SHARE OF FACE VALUE OF ₹ 10/- EACH

THE ISSUE PRICE IS 9.90 TIMES THE FACE VALUE OF THE EQUITY SHARES

RISKS TO INVESTORS

1. Any adverse development in relation to our relationship with as well as performance of third-party food delivery apps, may adversely affect our business, results of operations and financial condition.
 2. We are exposed to all of the risks associated with leasing real estate, and any adverse developments could materially affect our business, results of operations and financial condition .
 3. We generate all our revenues from the city of Pune, Maharashtra and nearby location. Any event negatively affecting the consumer food services industry in the city of Pune and nearby location could have a material adverse effect on our overall business and results of operations.
 4. We propose to utilise a significant portion of the Net Issue Proceeds, constituting approximately 71.26 % of the total Issue Proceeds towards construction of our Haveli Project in Lonavala, Maharashtra.
 5. Our Company, our Partnership firm and our Promoters are parties to certain tax proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.
 6. If we are unable to continue to build the Pind Punjab brand, our business, reputation and results of operations may be adversely affected.
 7. We may not be able to identify and obtain suitable restaurant locations, which could impact our ability to achieve our growth strategy and meet our development commitments, which could adversely impact on our business, results of operations and financial condition
 8. Our Company had negative cash flows during certain fiscal years in relation to our investing and financing activities. Sustained negative cash flows in the future would adversely affect our results of operations and financial condition.
 9. There are certain discrepancies and non-compliances noticed in some of our financial reporting and/or records relating to the filing of returns and deposit of statutory dues with the taxation and other statutory authorities.
 10. We have had instances of regulatory non-compliances, including certain lapses in relation to regulatory filings, internal controls and internal record keeping under applicable company law.
 The BRLM has handled 3 Main Board Issues till date and 26 SME Issues in the past three Fiscal, out of which 1 Main Board and 5 SME Issues closed below the Issue Price on the listing date.

* As certified by our Statutory Auditor Ratan Chandak & Co. LLP , Chartered Accountants, pursuant to their certificate dated September 30, 2026

BID/ISSUE PERIOD

BID/ISSUE OPENED ON: MONDAY, SEPTEMBER 28, 2026

BID/ISSUE CLOSED ON: WEDNESDAY, SEPTEMBER 30, 2026

The Issue is being made through the Book Building Process, in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended ("SCRR") read with Regulation 253 & 229 (1) of the SEBI ICDR Regulations, as amended, wherein not more than 50% of the Net Issue shall be allocated on a proportionate basis to Qualified Institutional Buyers ("QIBs", the "QIB Portion") Further, not less than 5.00% of the net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5.00% of the QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining QIB Portion for proportionate allocation to QIBs. Further, not less than 15.00% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Investors in the following manner: (a) 1/3rd of the portion available to NIBs shall be reserved for Bidders with an application size of more than 2 lots and upto such lots equivalent to not more than ₹ 10.00 lakhs, (b) 2/3rd of the portion available to NIBs shall be reserved for Bidders with a Bid size of more than ₹ 10.00 lakhs and the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), could be allocated to Bidder in the other sub-category of NIBs and not less than 35.00% of the Net Issue shall be available for allocation to Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. All Bidders are required to participate in the Issue by mandatorily utilizing the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective ASBA Account (as defined hereinafter) in which the corresponding Bid Amounts will be blocked by the Self Certified Syndicate Banks ("SCSBs") or under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. For details, see "Issue Procedure" beginning on page 264 of the Prospectus.

SUBSCRIPTION DETAILS

The Issue received 1,626 applications for 47,65,200 Equity Shares (before technical rejections and after invalid bids Multiple/Duplicate/bids (UPI Mandates) not accepted by investors / blocked, bids rejected under application banked but bid not registered) resulting in 2.65 times subscription (including reserved portion of market maker).

DETAILS OF APPLICATIONS RECEIVED

Summary of Allotment in various categories as per the Issue is as under:

Sr. No.	Category	Valid Equity Shares Received In Each Category	NO. OF EQUITY SHARES Available For Allocation (as Per Prospectus)	Spill Over / Deficit	Equity Shares Allotted	Total Allotment Amount (₹)
1	Qualified Institutional Buyers	18000	18000		18000	1782000
2	Non-Institutional Bidders (More than 2 lots & upto Rs.1,000,000/-)* (Nil-1)	240000	282000	(42000)	240000	23760000
3	Non-Institutional Bidders (More than Rs.1,000,000/-)* (Nil-2)	304800	564000	(259200)	304800	30175200
4	Individual Investors	3566400	844800	300000	1144800	113335200
5	Market Maker	91200	91200	0	91200	9028800
	TOTAL	4220400	1800000	0	1798800 ^	178081200

*The Issue is undersubscribed in the Nil-1 category by 42,000 Equity Shares and in Nil2 category by 2,59,200 Equity Shares. Since the QIB category is subscribed by 1.00 time and no additional shares available, the unsubscribed portion of (3,01,200) Nil-1 & Nil2 has been spilled over to Individual Investor category.

After adding all the spillover shares from the Nil-1 and Nil-2 categories to the Individual Investor category, it was observed that 1,200 shares could not be allotted in accordance with the minimum allotment requirement of two lots for Individual Investors, as prescribed under Regulation 268(2) of the SEBI (ICDR) Regulations.

^ Accordingly, the issue size has been reduced by 1,200 shares, from 18,00,000 shares to 17,98,800 shares.

Final Demand

Summary of the final demand as per BSE as on Bid/Issue closing date at different Bid Prices is as under:

SR. NO.	PRICE	SUM QUANTITY	% TO TOTAL	CUMULATIVE SHARE	CUMULATIVE % OF TOTAL

Trade talks with US have hit a plateau: Sitharaman

FE BUREAU
New Delhi, October 5

INDIA AND THE US may have reached a “plateau” in their trade negotiations where further concessions from either side could be increasingly difficult, Finance Minister Nirmala Sitharaman said on Monday. Sitharaman’s signal of an impasse in the negotiations came days after US Trade Representative Jamieson Greer played down the expectations of an early deal and said it was “not imminent”.

Participating in a discussion at the Munich Leaders Meeting here, the finance minister said, “We’d like to believe that both sides have reached a plateau beyond which giving or taking might be very, very difficult.” But, maybe, if there is room, if there are rooms to operate from, both sides would do it,” she added. The agreement still being “very rigorously negotiated,” she said, adding that the talks remain ongoing and the biggest sticking point is the trade imbalance that Washington wants to reduce. “Now the imbalance is being sought to

Now the (India-US trade) imbalance is being sought to be addressed through other means...tariffs have become weaponised

be addressed through other means...tariffs have become weaponised,” Sitharaman said. What was once an instrument within negotiations is increasingly being used as leverage, raising the pressure on both sides to find room for give and take, she said. The US wants to reduce the trade imbalance with India before considering further progress in trade relations, she said, adding that if that is the way to address the imbalance, both sides should have been talking to China in the same manner. These issues rather

cluding BIPA with at least three more countries,” she said. “If everything goes well with Canada, I hope either by December or sometime early next year, I should do the same with Canada as well,” she added.

Last week, India signed a BIPA with Saudi Arabia offering investors a shorter two-year timeline to exhaust domestic remedies before initiating international arbitration. This is the first such provision among a handful of new-generation bilateral investment treaties signed in the last couple of years. Amid trade negotiations with Washington, New Delhi recently delivered a sharply worded response to the passage of the Sanctioning Russia and Iran Act by the US Congress, making clear that the punitive tariff threat over its Russian oil purchases would not be allowed to impinge on the country’s energy security, and warning that the legislation could have consequences for the wider India-US relationship.

IndiGo's fuel surcharge on all flights goes up from today

NITIN KUMAR
New Delhi, October 5

INDIGO ON MONDAY announced increasing fuel surcharge on domestic flights by up to ₹350 and on international flights by up to ₹1,000 from October 6, as a sustained rise in aviation turbine fuel (ATF) prices pushes airline operating costs higher. The latest revision follows the third consecutive monthly increase in ATF prices and comes ahead of the festive travel season. The revised fuel charges will apply to all new bookings made after 12:01 am on October 6. IndiGo said the latest month-on-month increase in ATF prices has exceeded 14%, taking fuel costs to among their highest levels in the last decade.

For domestic flights, the fuel charge will now range from ₹375 for journeys up to 500 km to ₹1,300 for flights longer than 2,000 km. The charges for journeys of 501-1,000 km, 1,001-1,500 km and 1,501-2,000 km will be ₹600, ₹900 and ₹1,150, respectively.

IPO-bound startups face profitability test

● Public markets demand earnings to back private valuations

ANEEES HUSSAIN
Bengaluru, October 5

SNAPDEAL PARENT ACEVECTOR listed on the stock exchanges on Monday nearly 12% below its IPO price, despite its issue being subscribed almost five times. Valued at about ₹1,741 crore (\$182 million) at the IPO price, a fraction of the \$6.5-billion valuation commanded by Snapdeal in 2016, the debut underscored the growing gap between private-market valuations and public-market expectations. The gap is becoming more visible across the startup IPO pipeline. Of 10 new-age companies that have filed IPO papers with Sebi since September 2024, six are loss-making and four are profitable, according to Prime Database. Four of the

MARKET MOOD

Company	Bottom line	Private valuation before IPO bid	IPO valuation (reported)
Zepto	Loss	\$7 bn	\$3 bn*
PhonePe	Loss	\$12 bn	\$9-10.5 bn**
Razorpay	Loss	\$7.5 bn	\$5-6 bn
Snapdeal	Loss	\$6.5 bn#	\$182 mn
Kuku FM	Profit	\$500 mn	\$1.8 bn
Oyo	Profit	\$3.8 bn	\$7-8 bn
Fibe	Profit	\$648 mn	Above \$1 bn

Source: Company filings, Tracxn *Valuation offered by domestic mutual funds; IPO paused **Reported valuation expectation; IPO put on hold #Snapdeal’s peak valuation in 2016

loss-making companies have seen their valuations marked down from their previous private rounds, while profitable companies are generally seeking higher valuations. The pattern suggests that public investors are becoming less willing to carry forward valuations built during the easy-mo-

ney years without corresponding improvement in earnings. Razorpay illustrates the pressure on loss-making companies. The payments company was valued at \$7.5 billion in December 2021, when it was making a small profit.

Derivative closing auctions may be halted by Oct-end

JAYSHREE P UPADHYAY
Mumbai, October 5

CAS CALL

THE SECURITIES AND Exchange Board of India (Sebi) is likely to stop using closing auctions to calculate derivatives settlement prices for at least a year, two sources with direct knowledge of the matter said, in a partial reversal of new mechanisms it has introduced for setting the closing prices of key stocks and derivative contracts. Sebi in August introduced a new mechanism called the closing auction session, or CAS, for stocks that have futures and options contracts linked to them. Under this system, a short auction at the end of the trading day helps determine the closing price of a stock. The new process, similar to that used in global markets including the US and Hong Kong, has led to sharp swings in derivatives prices on expiry days, prompting the regulator to review it.

In a post on social media platform X over the weekend, Sebi said it had received 20,000 suggestions to tweak the rules in response to a consultation paper issued last month. Sources said that instead, the volume-weighted average price of the last 30 minutes of trading will be used to determine the deriv-

■ Sources say the volume-weighted average price of the last **30 minutes** of trading will be used to set derivative pricing

■ For underlying stocks in the less liquid cash market, a closing auction will still be used to determine the end-of-day price

■ Sebi introduced closing auction session, or CAS, for stocks that have futures and options contracts in August

ative pricing. For underlying stocks in the less liquid cash market, a closing auction will still be used to determine the end-of-day price, said the sources. Sebi is expected to implement the changes by the end of this month.

A Sebi spokesperson did not respond to a request for comment. —REUTERS

Jio Platforms' \$3.8-bn IPO launch likely on Oct 21

REUTERS
Mumbai, October 5

JIO PLATFORMS PLANS to launch its initial public offering (IPO) on October 21, seeking to raise about \$3.8 billion in what is set to be the country’s biggest listing, two sources familiar with the matter said. The shares are expected to list on October 28.

The country’s biggest listing to date is Hyundai Motor India’s \$2.9-billion listing in 2024, while the National Stock Exchange (NSE) of India made its market debut last month after a \$2.3-billion IPO.

Reliance did not respond to a Reuters request for comment. Proceeds from the offering will largely be used to repay debt owed by its telecoms division. Jio Platforms, which counts Meta and Google among its major foreign investors, also runs AI, cloud and enterprise network businesses.

India has seen a rush of companies coming to market, with proceeds raised during April to September this year marking a record for the period. Furthermore, almost 250 companies are in the pipeline to raise a combined ₹4.65 lakh crore (\$48 billion) through IPOs, according to PRIME Database. It includes Danish brewer Carlsberg’s India business and hotel aggregator Oyo’s parent Prism.

TRUSTEE DIFFERENCES MAY MAKE VOTE ON CHANDRA'S DIRECTORSHIP A CLOSE CALL

Tata Sons AGM: The math is far from solved

URVI MALVANIA
Mumbai, October 5

THE ARITHMETIC OF the long-pending Tata Sons annual general meeting (AGM) may be less straightforward than it appears. Differences among the trustees of the Tata Trusts, the holding company’s largest shareholder, and among the Trusts’ nominee directors on the Tata Sons board are becoming more visible by the day.

Tata Sons had scheduled its AGM for August 18 but had to adjourn it for lack of quorum. The Maharashtra charity commissioner’s freeze on the Sir Ratan Tata Trust (SRTT) meant the trust could not meet to decide how to vote. The company now has until December 31 to hold the meeting. The key item on the agenda

AYES AND NAYS

■ Noel Tata and his children, Neville, Leah and Maya, together hold **17 of the 36** seats across seven Tata Trusts

■ But the trusts where the family holds a majority of seats own far smaller stakes in Tata Sons than SDTT and SRTT

■ Venu Srinivasan, who voted for Chandrasekaran’s reappointment at the September 17 board meeting, sits on the SRTT board

■ SRTT deed requires motions to be passed unanimously rather than by majority

is the reappointment of Chairman N Chandrasekaran as a director on the Tata Sons board. He needs it to continue as chairman until his current term ends in February 2027, and to take up the further term the board approved at its Sep-

tember 17 meeting. Beyond the freeze, differences within the trusts’ boards could shape the outcome. In recent weeks, two trustees, Vijay Singh and Venu Srinivasan, have raised concerns about the way the Sir Dorabji

Tata Trust (SDTT) is run, including about Chairman Noel Tata’s functioning. The Trusts’ 66% stake in Tata Sons is spread across seven trusts. Each trust’s vote is decided by its own board and then weighted by its share-

holding. People familiar with the matter said this formula could make it a closely fought contest to decide which way the largest shareholder votes.

Noel Tata and his children, Neville, Leah and Maya, together hold 17 of the 36 seats across the seven trusts. But the trusts where the family holds a majority of seats own far smaller stakes in Tata Sons than SDTT and SRTT. That makes the two larger trusts decisive. SDTT holds 27.98% of Tata Sons and SRTT 23.56%. Once SRTT is allowed to meet and vote, it will occupy a distinct position, because its deed requires motions to be passed unanimously rather than by majority. A single trustee’s objection is therefore enough to block a resolution.

Trusts gets 7 days to reply to Srinivasan, Singh complaints

URVI MALVANIA
Mumbai, October 5

THE CHARITY COMMISSIONER of Maharashtra has asked Tata Trusts to respond within seven days to complaints filed last week by vice-chairmen Venu Srinivasan and Vijay Singh. The commissioner informed the Trusts by email at around 6:30 pm on Monday of the complaints relating to the Sir Dorabji Tata Trust (SDTT) and the issues raised in them, persons with knowledge of the matter said. Tata Trusts did not respond to FE queries till press time. Srinivasan filed his complaint on September 29, and Singh filed one along similar lines the next day. Tata Trusts responded by filing caveats in the names of Chairman Noel

TRUST GAP

■ Srinivasan (left), Singh had questioned SDTT trustee appointments

■ Their complaints flagged tax risk from Tata Trusts’ commercial involvement

■ Srinivasan also alleged curbs on nominee director independence

Tata and his son Neville Tata on behalf of all seven trusts that hold a stake in Tata Sons. The two vice-chairmen have alleged irregularities in the appointment and continuation of trustees at SDTT, questioning Noel Tata’s appointment as perpetual trustee and the circumstances of Neville Tata’s

appointment. They have sought an inquiry into the trust’s composition and governance.

The complaints also ask whether the trusts’ involvement in Tata Sons’ commercial affairs could put their tax-exempt status at risk.

FARM GOODS, MEDICINE SHIPMENTS TO RISE: MODI

Indo-Swiss group to resolve FTA irritants

Concerns over fall in exports to Switzerland in Q1

FE BUREAU

New Delhi, October 5

INDIA AND SWITZERLAND have agreed to set up a special group to address constraints related to trade and investment under the Trade and Economic Partnership Agreement (TEPA) that has been operational for a year now.

“A group will be formed within the Government of India to discuss all issues related to trade constraints or investment constraints,” Secretary (West) in the Ministry of External Affairs Sibi George told reporters at a briefing on the state visit of Swiss President Guy Parmelin to India.

TEPA is a trade agreement between India and the European Free Trade Association (EFTA), operationalised in October 2025. Members of EFTA other than Switzerland are Norway, Iceland and Liechtenstein. Switzerland is the bloc's biggest economy and India's largest trade partner, with the total bilateral trade at \$25 billion.

Despite EFTA being in force, India's exports to the region fell 22.7% to \$461 million in April-June of this financial year, and imports contracted 13% to \$2.93 billion.

During their bilateral meeting, Prime Minister Narendra Modi and the Swiss

SMOOTHENING TIES

■ India, Switzerland to set up special group to address trade, investment constraints

■ India seeks higher Swiss market access for farm products, pharma, textiles, engineering goods

■ Five MoUs, including on migration, young professionals and sustainable infra, signed on Monday

PM Narendra Modi with Swiss President Guy Parmelin in New Delhi on Monday

President discussed the entire spectrum of cooperation under TEPA, and “this would definitely help us to implement all the provisions mentioned in TEPA,” the secretary said.

“We have taken several important decisions to increase market access for Indian exports in Switzerland and further facilitate investment between the two countries. This will help increase exports of Indian agricultural products, pharmaceuticals, textiles, and engineering goods to Switzerland,” Modi said after meeting the Swiss President. “At the same time, we will attract new Swiss investments into key sectors in India, such as biotechnology, life sciences, banking, insurance, food pro-

cessing, and sustainability.”

There are 340 Swiss companies operating in India who have collectively invested \$11 billion. Indian investment in Switzerland stands at \$9 billion, and currently, 150 Indian companies, including the biggest names in the pharma and IT sectors, have a presence there.

Both countries also identified new opportunities for cooperation in military exchanges and defence production and agreed to deepen cooperation in nuclear energy.

The secretary said India has also invited Swiss universities to set up campuses in India. During the visit, five Memoranda of Understanding (MoU) and agreements were signed between the two sides.

RNG MARG PLAQUE UNVEILED IN MUMBAI

Bombay High Court Judge, Justice Somasekar Sundaresan, with Anant Goenka, Executive Director, The Indian Express Group, during the inauguration of the Ramnath Goenka Marg plaque, at Nariman Point in Mumbai on Monday

SANKHADEEP BANERJEE

● RAHUL BAJORIA, HEAD, INDIA & ASEAN ECONOMIC RESEARCH, BOFA GLOBAL RESEARCH

‘India’s growth momentum is broadening’

Strong economic activity in the first quarter of 2026-27 (April-March) likely continued in July-September, with GDP growth seen at 7-7.5%, well above the Reserve Bank of India's 6.4% August projection, according to Rahul Bajoria, head of India and ASEAN economic research at BofA Global Research. High-frequency indicators suggest growth momentum is broadening despite risks. In the second half of FY27, BofA expects growth to remain stronger than the RBI's projections, with non-farm sectors likely to stay resilient, Bajoria told Shubham Rana. Excerpts:

What is your assessment of the new GDP series and what issues remain?

The new GDP methodology is much more aligned with global SNA guidelines. It addresses several criticisms of the previous series, including double deflation, better measurement of services and incorporation of new information sets such as GST data. From a representative-sample perspective, the new series is far more robust. High-

frequency data have also consistently improved over the past 12-18 months, particularly in the last six months, showing a broadening of growth momentum that is reflected in GDP data. Our Q1 growth forecast was 7.5%; the actual figure was 7.8%, broadly in line with our expectations. We were therefore surprised by the debate, but not by the outcome.

What is your assessment of

GDP growth in July-September?

Growth momentum is broadening across sectors. There are headwinds in agriculture, with the early estimate of the Kharif harvest slightly below last year's level, possibly reflecting poor rains. But bank credit and deposit growth, car sales, industrial production, core-sector activity and trade numbers indicate that momentum has either held up or strengthened.

We expect Q2 FY27 GDP growth at 7-7.5%. Whether it is 7.8%, 7.3% or 7.2% is less important; the early indicators point to another very strong quarter.

What is your outlook for the second half of FY27?

WE EXPECT Q2 FY27 GDP GROWTH AT 7-7.5%. WHETHER IT IS 7.8%, 7.3% OR 7.2% IS LESS IMPORTANT

We expect some moderation, but growth should remain somewhat stronger than the RBI's and the government's early forecasts. The moderation will partly reflect weaker agriculture. However, manufacturing, investment and services should remain reasonably resilient. The credit cycle and investment demand have held up over the past six months, and we do not expect that to change materially.

What is your inflation outlook?

We expect inflation to rise, but not faster than the RBI's trajectory. While we are more optimistic than the RBI on growth, our inflation outlook is broadly in line with its projections. Core inflation excluding metals has been rising but remains below 4%; we expect it to move towards 4% over the next six months.

GST REFORMS

Rate changes may be annual affair

PRASANTA SAHU

New Delhi, October 5

WITH THE SECOND-GENERATION reforms set to be completed on October 8 with the rollout of process reforms, the Goods and Services Tax (GST) appears to be moving towards a more institutionalised and predictable regime, much like the direct taxes system, with frequent tinkering of rates giving way to a more structured annual process, sources said.

The first phase of the reforms began with the rate rejig and slab recast in September last year. The Centre and states then spent nearly nine months stitching together the proposed process reforms to make GST 2.0 a more wholesome experience, with lower tax rates and easier compliance.

STABLE REGIME

■ Similar to direct taxes, frequent tinkering of GST rates is likely to give way to a more structured annual process

■ Future revisions likely to take effect from April 1 each year

■ GST Council will continue meeting quarterly, but rates will not be discussed at every meeting

The process reforms will make the system largely automated, covering everything from registration and filing of returns to making corrections, claiming refunds and responding to demands, with minimal intervention by tax officers.

“Going forward, rate changes, if required, are likely to be considered only once a year and take effect from April 1, providing businesses greater

certainty and bringing an end to the practice of revisiting GST rates at every Council meeting,” a senior official said.

The move does not mean the GST Council will meet less frequently. “Council meetings will continue to happen every quarter, but in every meeting, we don't want to deal with rates,” the official said.

With the tax rate and slab rejig having stabilised over the past 12 months, and process

reforms set to be unveiled this week, the next-generation GST is expected to provide greater stability over next five years or more, sources said. That, however, does not mean the GST framework will be frozen for the next five years or so. The Council will remain open to taking up larger issues from time to time, including changes to the tax base if the Centre and states reach a consensus, sources said.

90% GST refunds for pharma firms to be automatic

MANU KAUSHIK

New Delhi, October 5

PHARMA AND LIFE sciences companies may soon find it easier to recover their goods and services tax (GST) refunds, with the GST Council likely mandate that 90% of eligible credit claims to the sector can be released automatically after a risk check.

Currently, pharma companies pay 18% GST on many raw material inputs but collect only 5% GST on finished medicines. This inverted duty structure leaves them with excess tax credit that sometimes gets stuck with the government as a refund claim.

Even though 90% of eligible inverted-duty refund claims can already be released provisionally under a CBIC instruction issued in October 2025, the government now wants to make this arrangement part of the GST rules. This would give companies certainty over getting their refunds and help free up working capital stuck in GST refunds.

Besides, work done in India for foreign clients, including clinical trials, testing and contract manufacturing, is likely to be treated as exports. This would allow companies to claim the tax benefits available to exporters and reduce the GST burden on services provided to overseas clients.

ASLEW OF changes to the tax treatment of services exports is likely to be taken up at the GST Council's upcoming meeting. The proposals are aimed at aligning rules with how Indian companies actually serve overseas customers and easing the recovery of taxes embedded in export costs, sources said.

The proposals could provide relief to information technology and IT-enabled services companies, engineering and consulting firms, testing and certification agencies, research organisations and financial-service providers.

These services form a major chunk of services exports of \$421.3 billion in 2025-26. Services exports as a percentage of total exports have been increasing every year. They now account for 48.8% of total exports, up from 33.8% in 2024-15.

A key proposal before the Council is to remove the requirement that the supplier and recipient of a service should not be establish-

Random transit checks may go

SHUBHAM RANA

New Delhi, October 5

THE GST COUNCIL is likely to make verification of goods in transit process more intelligence-driven, where any decision to stop a vehicle will have to be authorised in advance by a senior officer, according to government sources.

The Council may take up the proposal on October 8, which also states that a vehicle with goods in transit may be stopped only by the state from which the goods originated.

“For a transporter with his papers in order, this would mean the journey is settled once the goods have left the

state of origin,” a government source said. “A consignment crossing five states will now be subject to verification at one point rather than at several. Transit time will become something a business can plan around, and freight costs will fall accordingly.”

While the current GST and e-way bill framework has helped curb tax evasion by creating digital visibility over the movement of goods, businesses have also faced challenges

over time from routine interceptions, prolonged detention of vehicles and overlapping jurisdictional actions,

Verification of goods in transit to may be more intelligence-driven, with vehicle stoppages authorised in advance

experts said. This often resulted in supply chain disruptions and increased logistics costs, they said.

The proposals, if passed, could help reduce unnecessary inspections, improve ease of doing business, and bring greater consistency in application of the law, experts said.

Decriminalisation steps to cut GST litigation, bring certainty: Experts

SHUBHAM RANA

New Delhi, October 5

THE PROPOSAL to remove the arrest provisions under the GST regime is a significant step, tax and legal experts said, adding that, if implemented, it would set a clearer institutional boundary between determination of tax liability and criminal enforcement.

This, along with the proposal to revamp the prosecution provisions, would help reduce litigation and bring greater certainty to businesses, they said.

The current framework empowers authorities to arrest for specified offences such as fake invoicing and

GST arrest powers came under scrutiny after DGGI arrested Fino Payments Bank's then MD & CEO Rishi Gupta in a GST fraud case

fraudulent availment or utilisation of input tax credit.

This power, while serving as a deterrent, particularly

against organised tax fraud, also placed significant coercive power in the hands of the tax administration, said Manoj Mishra, partner and tax controversy management leader, Grant Thornton Bharat.

“We have seen that these powers under have been used to harass taxpayers. Taxpayers have alleged that they have been harassed and have been asked to pay hefty amounts of taxes, in some cases at 3 or 4 am, and the courts have taken such cases seriously,” said Pranshu G, partner at Ashok Pranshu & Co.

Such wide powers to arrest are not present under the Income Tax Act, though there

is clear procedure there for prosecution, Pranshu said. “But in GST, if there are certain offences under Section 132 and the tax evasion was above ₹5 crore, there was power with the commissioner to arrest the person and that was actually used differently,” he added.

A noteworthy example of prosecution under the GST framework is the arrest of then Fino Payments Bank Managing Director and Chief Executive Officer Rishi Gupta in February by the Directorate General of GST Intelligence (DGGI). Gupta was arrested in an investigation related to business partners of the bank, and not GST compliance by the bank itself.

SUMITOMO TO ACQUIRE 49% IN SPV OF HERO ARM

JAPAN'S SUMITOMO CORPORATION will acquire a 49% stake in a special purpose vehicle of domestic RE player Hero Future Energies for an undisclosed amount. The Hero Group company said it will retain the remaining 51% stake in the Special Purpose Vehicle.

PRATT & WHITNEY CONTRACT FOR BHARAT FORGE

BHARAT FORGE ON Monday said it has secured a long-term contract from Pratt & Whitney Canada for the supply of mission-critical aerospace engine components. The components will be manufactured at Bharat Forge's facility in India, the company said.

UltraTech crosses 2GW of captive green capacity

ULTRATECH ON MONDAY said it has become the first Indian company to cross 2 GW of captive green power capacity after commissioning a 116.55-MW wind energy project in Barmer, Rajasthan. The company has also commissioned 10 MW of Waste Heat Recovery System capacity at Sarlanagar Cement Works, its integrated manufacturing unit in Karnataka.

PhysicsWallah sells FinZ loan book to Auxilo

PHYSICSWALLAH'S WHOLLY OWNED subsidiary FinZ Finance has agreed to sell the bulk of its loan book to Auxilo Finserve, an education-focused NBFC, for ₹95.79 crore. The sale all but ends the edtech company's short-lived run as a direct lender to students.

Serentica partners Vardhman to boost decarbonisation

SERENTICA RENEWABLES ON Monday said it will set up a clean energy project for Vardhman Textiles to accelerate its decarbonisation with round-the-clock renewable power. The project will have a installed capacity of 80 MW, comprising 40 MW of wind capacity in Karnataka & 40 MW of solar capacity in Rajasthan.

—FE BUREAU & AGENCIES

INPUT COSTS WEIGH ON MARGINS AHEAD OF DUSSEHRA, DIWALI

FMCG products set to see price hike, grammage cut

VIVEAT SUSAN PINTO & ASHUTOSH MISHRA
Mumbai/New Delhi, October 5

AS DUSSEHRA AND Diwali approach, FMCG companies are treading cautiously on price increases. With input costs rising, companies are using grammage cuts to protect low-price points and are reserving direct hikes for products where there is greater pricing headroom.

Smaller packs across biscuits, snacks, noodles, hair oils, soaps, shampoos, detergents, sugar and tea are seeing grammage reductions of around 2-7%, while larger packs, particularly those of 1kg and above, are seeing more direct price hikes to the tune of about 5-6%, distributors that *FE* spoke to said. Consumers are also opting for “buy one get one” offers across FMCG categories as bargain hunting gains ground, trade sources said.

A recent study by market researcher Worldpanel by Numerator (formerly Kantar) notes that Indian households have tightened their purse strings amid geopolitical and financial uncertainties.

The fourth annual Kharcha study, conducted in April 2026 across approximately 6,000

PROFIT SQUEEZE

■ Small packs across FMCG categories are seeing **2-7%** grammage cuts

■ Larger packs, particularly those of 1kg and above, are seeing more direct price hikes

■ Urban household quarterly spending declined 4% year-on-year, while rural spending rose 15%

■ Buy-one-get-one offers are gaining traction as consumers hunt for value ahead of Dussehra

■ FMCG players are limiting further hikes as repeated increases could push consumers away and hurt consumption

urban and rural households, but released this week found that urban quarterly expenditure declined 4% year-on-year, compared with 14% growth in the previous year. Both affluent urban households, which spend an average of ₹81,759 per quarter and less affluent households, spending ₹49,832, recorded a 4% contraction. In contrast, rural expenditure grew 15%, the study said.

“Consumers are clearly becoming more selective about where their money goes. The data suggests that value, relevance and a strong reason to buy will increasingly matter

as households navigate tighter budgets. Essentials are being protected, while discretionary purchases are facing greater scrutiny,” Manoj Menon, director, Commercial Worldpanel Division, said.

At Dabur India, the pressure is evident across crude-linked categories. Global chief executive Mohit Malhotra said consolidated input-cost inflation was around 8-9%, with international markets facing considerably higher inflation. In India, the company has already taken around a 6% price increase, including grammage reductions.

Malhotra said Dabur is

holding back further increases for now because its prices have reached pre-GST levels. Another significant increase could begin to affect volumes.

The distinction between price points is central to the strategy. At fixed price points such as ₹10, ₹20 or ₹50, moving to the next MRP can create consumer resistance. “Shrink inflation” therefore becomes a way to raise the effective price without immediately crossing a psychologically important price threshold, Malhotra said. Larger SKUs sold through modern trade and e-commerce offer more room for direct price increases, he added.

Godrej Consumer expects strong show in Sept qtr

ASHUTOSH MISHRA
New Delhi, October 5

GODREJ CONSUMER PRODUCTS expects a strong performance in the September quarter despite uneven monsoon conditions and renewed inflation across key commodity-linked inputs, with consolidated revenue growth expected in the high teens, volume growth in the high single digits and Ebitda growth in double digits.

The company, in its quarterly update filing on Monday, said consumption during the quarter was impacted by uneven monsoon conditions, but by an intensifying El Niño, as well as inflationary pressures across several commodity-linked inputs. It said that growth was also supported by a favourable base in the year-ago quarter.

At the standalone level, the company expects revenue growth in the teens and high-single-digit underlying volume growth, despite an estimated 100-150 basis point impact from trade inventory correction. The company said performance was led by

healthy growth across its personal care and home care portfolios.

Globally, its Indonesia business is expected to deliver high-teens revenue growth and high-single-digit volume growth, driven by improved execution, sustained market share momentum and healthy category trends, according to the company.

“The GAUM (Godrej Africa, USA and Middle East) business is expected to report double-digit revenue and volume growth, supported by market development in core categories and portfolio transformation through scaling FMCG categories,” the company said.

...Marico too hints at a surge in profit

ASHUTOSH MISHRA
New Delhi, October 5

CONSUMER GOODS MAJOR Marico expects operating profit to grow in the mid-twenties in the September quarter, while consolidated revenue is likely to register double-digit growth, the company said in its quarterly update on Monday.

Marico said its India business recorded volume growth touching double digits in the second quarter of FY27. Parachute coconut oil posted early-teens volume growth, while value-added hair oils grew in the twenties for the sixth consecutive quarter.

Saffola oils recorded mid-single-digit, price-led growth, although volumes declined as the company focused on maintaining threshold profitability and rationalised supplies of select variants. Foods and premium personal care, including digital-first brands and shampoo, sustained their growth momentum.

“Domestic demand remained resilient during the quarter, even as the operating environment stayed volatile through the period. Looking ahead, we remain optimistic on consumption trends, while closely monitoring the evolving inflationary conditions,” the

EARNINGS OPTIMISM

■ The company sees profit growth in mid-20s and double-digit revenue growth in Q2

■ Volumes set to hit double digits, led by Parachute and value-added hair oils

■ Gross margin seen improving on lower copra prices and better mix

company said in a regulatory filing. Marico's international business grew in the teens in constant-currency terms, led by Vietnam, the Middle East and South Africa. Bangladesh recorded a marginal sequential improvement but continued to face elevated inflation and a high base.

On the input-cost front, crude-linked derivative prices rose further, while copra prices remained around 35% below their peak levels.

IFQM SYMPOSIUM 2026

Chandra calls for a shift from assembly-led growth

FE BUREAU
New Delhi, October 5

TATA SONS CHAIRMAN N Chandrasekaran on Monday called for a shift from assembly-led growth to end-to-end domestic capabilities, with greater focus on quality, research and development, intellectual property and skills, as he outlined the priorities for sustaining economic growth over the long term.

“It is very important to build the assembly-led growth, and that is going to lead to creating a strong SME segment. From there, moving to end-to-end full product, and building a range of capabilities is going to require investments into R&D, creation of intellectual property and being in tune with the market,” Chandrasekaran said at the Indian Foundation for Quality Management (IFQM) Symposium 2026.

He said quality should not be viewed merely as a means of ensuring product standards but as a driver of innovation, productivity and competitive-

N CHANDRASEKARAN,
CHAIRMAN, TATA SONS

Moving to end-to-end full product, and building a range of capabilities is going to require investments into R&D

ness. Citing Toyota, he said the Japanese automaker had used quality as a key driver of innovation and competitive advantage, while Germany had built national competitiveness around engineering, standards, precision and a strong supplier ecosystem.

“In India, we need such a transformation,” he said, adding that sustainable man-

ufacturing also needed to be embedded in the country's manufacturing ambition.

Chandrasekaran said the next phase of manufacturing would require capabilities spanning not only products but also the equipment needed to make them, along with the right skills and vocational training. Such a transition, he said, would help build a stronger SME and supplier ecosystem and create expertise that could eventually help shape global manufacturing standards.

He said the economy remained robust despite a difficult global environment, with strong domestic demand, services exports and an enabling policy environment supporting growth. High-frequency indicators such as auto sales, credit growth, power and cement demand were showing double-digit growth, he said.

However, sustaining growth over a longer period would require greater attention to energy security, advanced and precision manufacturing jobs and human capital.

EVs not the only way to curb pollution: Venu Srinivasan

NITIN KUMAR
New Delhi, October 5

ELECTRIC VEHICLES (EVs) are not the only solution to vehicular pollution and policymakers should remain technology-agnostic to give consumers greater choice, TVS Motor chairman emeritus Venu Srinivasan said on Monday.

His comments come amid a growing policy push towards electrification, particularly in the two- and three-wheeler segments. The Delhi government earlier this year announced a new electric vehicle policy under which all new two-wheelers registered in the national capital will have to be electric from April 2028. The policy also envisages an end to the registration of new CNG auto-rickshaws from 2027.

Speaking on the sidelines of the IFQM Symposium 2026, Srinivasan said different technologies should be assessed on their overall environmental impact rather than treating EVs as the sole route to cutting emissions. “I always believe we have to be agnostic (in technology) and look at the net effect on the country in terms of pollution, quality and environment. So EV is not the only solution,” he said.

Srinivasan said EV adoption should be allowed to grow in line with consumer demand, particularly as electric mobility is already gaining ground in the two- and three-wheeler segments.

The Delhi government, however, has said two- and

Govt should cut red tape in drug trials: Mazumdar-Shaw

THE GOVERNMENT SHOULD set up dedicated research hospitals to speed up early-stage drug trials and consider a reimbursement programme for life-saving medicines to encourage investment in new treatments, Biocon Executive Chairman Kiran Mazumdar-Shaw said at the IFQM conference on Monday.

Mazumdar-Shaw said pharmaceutical companies often conduct first-in-human trials outside India because the domestic regulatory process can be lengthy and cumbersome.

“Companies have tended to do their first-in-human trials outside India because India is tedious and long drawn out,” she said.

—FE BUREAU

L&T CMD bats for longer tenures for heads of PSUs

LARSEN & TOUBRO CHAIRMAN and Managing Director S N Subrahmanyan on Monday said that heads of public sector enterprises should be given longer tenures of around five years, arguing that the frequent leadership changes hurt the conception, plan-

ning and execution of large projects.

India has fantastic people with high pedigree and strong implementation capabilities in the government system, but short tenures of one or two years prevent them from taking a long-term view.

—PTI

three-wheelers account for 42% of vehicular PM2.5 pollution in the capital. It has also planned a significant expansion of charging infrastructure to facilitate their transition to electric mobility.

Srinivasan also backed ethanol blending as a means of

reducing India's dependence on imported fuel, arguing that the impact on vehicle performance has been limited.

“The degradation in performance is very marginal. I think that should not deter us. After all, whole of Brazil runs on ethanol,” he said.

Instamart's ₹5-crore credit scheme for Noice partners

FE BUREAU
Bengaluru, October 5

SWIGGY'S INSTAMART HAS launched a financing programme offering food entrepreneurs, who make products for its private label Noice, up to ₹5 crore each in formal credit as it plans to double the number of makers it works with and take the brand's range past 500 products, the company said on Monday.

The credit is being extended through Swiggy Financial Services, operated by Swiggy Neocap, in partnership with the Small Industries Development Bank of India (SIDBI), Axis Bank and InCred Finance. The programme has disbursed ₹2 crore in under a month and aims to support over 100 entrepreneurs by the end of 2026. The money is meant for product develop-

ment, capacity expansion and quality upgrades. Noice will prioritise manufacturers that meet the FSSC 22000 food safety standard.

It currently has 75 food entrepreneurs onboard, whose products range from fresh bread, paneer and batters to regional snacks, sweets and beverages. It will add powdered spices, staples, cereals and dairy alternatives. Swiggy

Group CEO Sriharsha Majety and Instamart CEO Nandita Sinha said. The company did not give a timeline for the expansion.

“Noice is core to this ambition, giving India's food entrepreneurs the platform, standards and capital to scale,” Sinha said. The brand now features in one in every 10 Instamart baskets, according to the company. Its customers order 1.5 times more often than the platform average, and their retention is 10 percentage points higher. Since its launch in 2025, Noice has reached over 9 million customers, with products across more than 46 categories.

Noice has scaled rapidly since its launch in mid-2025, when it started with 200 products from 40 manufacturers. By January, it had over 350 products from 60 regional makers, *FE* had reported.

Non-metros drive Amazon Prime expansion

ASHUTOSH MISHRA
New Delhi, October 5

AMAZON PRIME MEMBERSHIP is on track to double from its 2023 level by the end of 2026, with around 70% of new members coming from Tier-2 and Tier-3 cities, underscoring the growing appeal of the subscription programme beyond India's metros and premium consumer base.

“Prime is fairly democratic at this point and has become a Bharat phenomenon,” Akshay Sahi, vice-president, Prime and Customer Fulfilment Experience, India and Emerging Countries, Amazon, told *FE*.

The profile of Prime members has broadened significantly, with customers joining from across regions, income groups and shopping preferences, Sahi said.

Prime members also shop more frequently and across a

DEMAND SPREADS

■ Prime doubles: Membership is on track to double from 2023 levels by end-2026

■ About **70%** of new Prime members are coming from Tier-2 and Tier-3 cities

■ Prime is increasingly spanning regions, income groups and shopping references

wider range of categories. They shop around five times more frequently than non-Prime members and across 15-20 categories, compared with two to five categories for non-members, he said.

Prime members also shop more frequently and across a

■ Prime users shop roughly five times more often than non-members

■ Members typically shop across **15-20** categories, versus two to five for non-members

■ Amazon is adding 20 fulfilment centres, and 150 delivery stations across 120 cities

wider range of categories - around five times more frequently than non-Prime members and across 15-20

To cater to rising festive demand, Amazon has undertaken its largest operations network expansion to date, adding 20 fulfilment centres,

six sortation centres and 150 last-mile delivery stations across 120 cities. The expansion includes first-time facilities in Raipur, Ranchi and Varanasi.

The network expansion is aimed at positioning inventory closer to demand centres

and enabling faster deliveries while maintaining sustainable economics, Sahi said.

The company is also seeing an increase in shopping frequency among Prime members using Amazon Now, its quick-commerce service. Such customers shop around three times more frequently than they did before using the service, Sahi said.

Amazon Now has crossed ₹100 crore in annualised gross sales, according to the company, and its availability is being expanded beyond the 120 cities it currently serves.

For the upcoming Great Indian Festival, Amazon will offer Prime members an additional 5% discount through coupons and cashback across products. The expansion of Prime comes alongside a broader shift in Amazon's seller base. The marketplace now has around 2 million sellers, with about 300,000 joining in the past year.

PLAN TO CUT COSTS BY A FIFTH & HALVE DEVELOPMENT TIMES

Honda rewires its India plan with Tata Tech deal

ADITI SHAH & MAKI SHIRAKI
Mumbai/Tokyo, October 5

HONDA MOTOR AIMS to cut costs by as much as a fifth and halve development times under its new partnership in India with Tata Technologies, according to two people familiar with the matter, as pressure from rivals forces the Japanese automaker to rethink its go-it-alone approach.

Reeling from electric vehicle (EV)-related losses that it expects to reach more than \$12 billion, Honda is pivoting to gasoline-electric hybrids and slashing expenses. Last month, *Reuters* reported that it is seeking to cut more than \$9 billion in costs over the next four years and has told suppliers to drastically reduce prices.

In May, engineering firm Tata Technologies said it was selected to develop vehicles for a Japanese automaker. It declined to name the partner, but the two people and another person familiar with the matter said it was Honda.

Under the outsourcing agreement, Tata Technologies will develop cars for the Indian market, while Honda expects to see up to 20% in cost reductions and halve its development times

SHARPER FOCUS

■ Reeling from EV-related losses that it expects to breach

\$12 bn,

Honda is pivoting to gasoline-electric hybrids and slashing expenses

■ Last month, a report said it is seeking to cut more than

\$9 bn

in costs over next four years

■ In May, engineering firm Tata Technologies said it was selected to develop vehicles for a Japanese automaker

■ Honda said that it has not been able to offer a sufficient product line-up in India that allows customers "value for money" products

from around five years at present, two people said.

Honda decided to bring in Tata Technologies after the automaker's Japanese and Indian managers failed to agree on which suppliers to use for upcoming vehicles in India, two of the people said.

All three sources declined to be identified because the information has not been made public. The cost-cutting and development targets in India, as well as the internal deadlock over supplier strategy, are being reported for the first time.

In a statement, Honda said it has not been able to offer a suffi-

cient product line-up in India that allows customers "value for money." To that end, it was "redefining" its offerings in India and planned to introduce vehicles that strike a balance between quality and price, it said.

It denied there were disagreements between the Japanese and Indian teams over supplier selection.

In a separate statement, Honda India said product development involved close collaboration between different teams, adding that it was inaccurate to characterise collaborative discussions as disagreements.

Tata Technologies did not

respond to a request for comment.

Japanese managers wanted to retain established suppliers to ensure quality and consistency, while Honda's team in India pushed for greater use of local suppliers to lower costs and speed up development in the world's third-largest car market, two of the people said.

Reuters could not determine how long the deadlock lasted but the disagreement was enough to delay work on some products, the two people said. The partnership had been under discussion for about two years before being finalised, one of them added.

Buyers not averse to paying premium for plug-in hybrids: Mercedes India CEO

NITIN KUMAR
New Delhi, October 5

LUXURY CAR BUYERS in the country are willing to pay a premium for plug-in hybrid electric vehicles (PHEVs) as they seek the benefits of electric driving without the charging dependence and anxiety associated with pure electric vehicles, according to Santosh Iyer, MD & CEO, Mercedes-Benz India.

"Customers don't want to wait for charging. They don't want to have the anxiety," Iyer said, adding that buyers in the top-end segment are willing to pay more for a PHEV as it combines an electric powertrain

SANTOSH IYER,
MD & CEO, MERCEDES-BENZ INDIA

This customer is also ready to pay a premium because these cars are more expensive as they have an electrified powertrain along with a combustion engine powertrain

with a combustion engine.

His comments came as Mercedes-Benz India on Monday launched the Mercedes-Maybach S 580e 4MATIC at

₹3.35 crore, marking the company's latest expansion of its PHEV portfolio in India. The luxury limousine is powered by a 3.0-litre petrol PHEV pow-

ertrain with a combined output of 585 hp and 750 Nm, and is equipped with a 22-kWh usable battery. The company will initially offer only 30 units.

The S 580e can travel up to around 100 km on electric power, according to Mercedes-Benz, allowing owners to use electric power for daily commuting while retaining the petrol engine for longer journeys.

"This customer is also ready to pay a premium because these cars are more expensive as they have an electrified powertrain along with a combustion engine powertrain," Iyer said.

FROM THE FRONT PAGE

IndiGo raises fuel surcharge

THIS REPRESENTS a sizeable increase from the charges introduced in April. The surcharge for flights up to 500 km has risen from ₹275 to ₹375, while the charge for flights above 2,000 km has increased from ₹950 to ₹1,300 — an increase of about 36% in both cases.

The increase is also significantly higher than the flat ₹425 domestic fuel charge IndiGo had introduced in March when fuel prices initially surged amid geopolitical tensions in West Asia.

On international routes, the latest fuel charge ranges from ₹1,000 for SAARC flights up to 500 km to ₹10,000 for Europe. Countries in Southeast Asia, Gulf Cooperation Council (GCC) and West Asia, and North and East Asia will attract a ₹5,500 charge. Flights to Africa will attract ₹6,000, up from ₹5,000. SAARC flights beyond 500 km will carry a ₹3,000 charge.

The latest move follows a sharp rise in domestic ATF prices. On October 1, ATF prices for domestic airlines were increased by ₹16 per litre to ₹137 from ₹121.28 in September, an around 13% increase. This was the third straight monthly hike, following increases in August and September.

Overall, domestic ATF prices in Delhi have risen 24.5% since July, from ₹110 per litre to ₹137 per litre in October, after three consecutive monthly increases. Fuel is one of the largest cost components for airlines, meaning sustained increases can force carriers to either absorb the additional cost, raise fares or rationalise capacity.

IndiGo, however, said it has kept the latest increase measured, noting that fully offsetting the rise in fuel costs would require a significantly larger increase in fuel charges.

The move could add to airfare pressure during the upcoming festive period, when demand for domestic and international travel typically strengthens.

flyadeal expands network with Mumbai-Riyadh flight

AKBAR MERCHANT
Mumbai, October 5

SAUDI LOW-COST CARRIER flyadeal has expanded its India network with a new Mumbai-Riyadh service, adding more than 7,400 monthly seats and offering connections to several destinations across Saudi Arabia.

"India is one of the world's largest and fastest-growing aviation markets and a strategic priority for flyadeal as we continue to expand our international network," Sanjiv Kapoor, acting chief executive officer, flyadeal, and executive vice president, strategy of its parent company Saudia Group, said.

"We just started flying into India this year because we didn't have the aircraft capable of making the range from our Saudi origins due to various reasons, but now we do," he added.

He hinted that the airlines plans to add more destinations in due course of time.

"We've started gradually in India in this environment, and

SPREADING WINGS

■ The airline currently operates 47 Airbus A320 aircraft and will receive 240-seat A321neos from the middle of next year

■ It will receive 420-seat A330neos by the end of next year

SANJIV KAPOOR, ACTING CEO, FLYADEAL

We just started flying into India this year because we didn't have the aircraft capable of making the range from our Saudi origins due to various reasons, but now we do

we will ramp up our frequencies and capacity and add more destinations, particularly as the situation normalises," Kapoor said.

The bilateral agreement allows operations between Saudi Arabia and eight points in India. "We hope to be in almost all of them as things normalise," he said. Flyadeal is looking at tier-1, tier-2 and unserved markets where there is demand for low fares to and from Saudi Arabia.

On operations from Navi Mumbai International Airport (NMIA), Kapoor said it was too early to commit to plans, with the airline having only recently started Mumbai operations. "If there is demand for low-fare services, we will certainly evaluate it, but it's still too early."

flyadeal also sees an opportunity for low-cost long-haul operations in the region, driven by high volumes of religious traffic, workers and price-sensitive travellers.

Home sales growth marginal in 2026 so far

TOP RESIDENTIAL MARKETS saw marginal growth in first nine months of the calendar year, with the exception of the National Capital Region (NCR), which recorded an 11% decline in sales, according to Knight Frank India. Mumbai, the largest residential market by volume, led with sales of 72,804 units during 9M CY2026 registering a 1% y-o-y growth, followed by Bengaluru with 43,140 units (up 5%). The NCR

stood out as the only market to record a decline in residential sales during the first nine months of 2026, with 35,574 homes sold, down 11% year-on-year.

RBI COMMITTEE BEGINS POLICY DELIBERATIONS

 THE RESERVE BANK OF India's (RBI) monetary policy committee began its three-day meeting on Monday and is likely to raise rates by 25 basis points, aligning with the central banks' hawkish stance amid escalating conflict in West Asia that poses risks for domestic inflation. "Insights, assessments, and the way forward set to unfold soon," the RBI said in a social media post while announcing that the monetary policy statement will be announced on October 7 at 10 a.m. The last repo rate hike was in February 2023, when the RBI raised the rate by 0.25% to 6.50 per cent. It kept the rate unchanged through 2023-24 before beginning its rate-cut cycle in 2025. **REUTERS**

AceVector shares tumble 18.5% in trading debut

 SHARES OF SOFTBANK-BACKED digital commerce ecosystem AceVector on Monday ended with a discount of 18.5% from the issue price of ₹32. The shares of the Snapdeal parent made its debut at ₹28.30, a decline of 11.56% on the BSE. During the day, the stock tanked 26.87% to ₹23.40. It closed at ₹26.10, registering a drop of 18.44%. The company's market valuation stood at ₹1,420.33 crore.

Strong debut for Orient Cables; shares up 48%

 ORIENT CABLES (INDIA) shares closed with a premium of 48.27% against the issue price of ₹272 on Monday. The stock started trading at ₹448.10, rising 64.74% against the issue price on the BSE. Intraday, it surged 71% to ₹465.30. The scrip closed at ₹403.30, up 48.27%. On the NSE, the stock was listed at ₹450, a premium of 65.44%. It settled at ₹405, registering a jump of 48.89%. The market valuation stood at ₹4,589.54 crore. The IPO of Orient Cables India received 92.27 times subscription on the last day of bidding on Tuesday.

FCNR(B) scheme buys time, but durable capital key: Economists

CHRISTINA TITUS
Mumbai, October 5

THE RESERVE BANK of India's FCNR (B) push has helped turn what could have been a sizeable hole in India's balance of payments (BoP) into a comfortable surplus. But the \$133-billion lifeline has come at a cost — excess rupee liquidity, hedging and sterilisation expenses, and a repayment bill that will begin over the next three to five years.

The success of the scheme can be gauged from the fact that it was closed a month ahead of the September 30 deadline. The window came at a time when India was grappling with a BoP deficit, weak capital inflows and pressure on the rupee.

Economists now expect India to end FY27 with a BoP surplus of \$65-90 billion — a complete reversal from a probable deficit.

"The FCNR(B) scheme was necessary, as it helped avert a potential \$60-billion BoP deficit. Without it, the rupee could have depreciated much more sharply, triggering further outflows from foreign portfolio investors (FPIs)," said Gaura Sengupta, chief economist at IDFC FIRST Bank.

With inflows substantially exceeding initial expectations, Sengupta now expects a BoP surplus of around \$90 billion in FY27. The inflows

BENEFITS OUTWEIGH COSTS

■ The FCNR(B) window has done what it was designed to do

■ Challenge is to use the breathing space to attract durable capital

■ Inflows resulted in huge liquidity surplus, forcing RBI to deploy methods to absorb it

■ Sizeable forex outflows to happen when banks repay depositors

■ For now, FCNR(B) window has done what it was designed to do — buy India time

■ India likely to end FY27 with a BoP surplus of **\$65-90 bn**

strengthened India's external position and gave the RBI's foreign exchange reserves a significant boost. But the flip side was a flood of rupee liquidity into the banking system. System liquidity surged to a record ₹11.16 lakh crore on September 6, forcing the RBI to step up absorption through variable rate reverse repos (VRRRs), open market operations (OMOs) and forex swaps.

Liquidity has since moderated following RBI bond sales and tax-related outflows, falling to ₹4.87 lakh crore by September 30.

The scheme also carries a cost for the central bank. This includes the concession embedded in the forex hedge offered to banks, the cost of absorbing the rupee liquidity created by inflows and the

currency risk carried on the RBI's balance sheet.

Sengupta estimates the RBI's net annual cost at around \$1.6 billion, including the swap cost and liquidity absorption through instruments such as VRRRs. Part of this cost can be offset because the foreign currency received can be invested in assets such as US Treasuries, generating interest income.

"Considering the benefits, the costs of the scheme were relatively immaterial. Having said that, it complicated liquidity management. But we would have been far worse off without it," Sengupta said.

The eventual cost will depend on how much liquidity the RBI has to absorb, which instruments it uses and the returns it earns on foreign assets acquired against these

inflows. A negative carry could emerge if the cost of sterilising domestic liquidity exceeds returns earned on foreign assets. The bigger concern, however, may lie a few years down the road.

Unlike equity or other forms of permanent capital, FCNR(B) deposits are borrowed money. As deposits mature over the next three to five years, banks will have to repay depositors, potentially creating sizeable foreign currency outflows.

"We need to watch particularly how the capital account evolves going ahead; the recent volatility in capital flows is a concern. After two months of inflows, September saw significant outflows again," said Indranil Pan, chief economist at Yes Bank.

Anitha Rangan, chief econ-

omist at RBL Bank, said since these are essentially borrowed funds, those will have to be repaid in three to five years. India must use this period to strengthen more resilient sources of capital.

Pan estimates that nearly \$80 billion, including principal and interest, could eventually flow out as these deposits mature. The risk could become more pronounced if global uncertainty persists and capital flows remain under pressure.

There is another concern: The special window may have effectively frontloaded some non-resident Indian deposits that would otherwise have arrived over the next few years, potentially making subsequent inflows weaker.

Rangan emphasised that India needs to attract more stable foreign capital to ensure that FCNR(B) repayments are absorbed smoothly. Recent trade agreements with various countries could help, though their impact on investment flows will take time to materialise.

For now, the FCNR(B) window has done what it was designed to do — buy India time, shore up its external buffers and ease pressure on the rupee. The challenge is to use that breathing space to attract more durable capital before the borrowed dollars start heading back.

FINANCIALS GAIN ON Q2 UPDATES

Shares rise as oil, Fed fears ease

REUTERS
October 5

THE EQUITY BENCHMARKS advanced on Monday after their longest weekly losing streak in 25 years, supported by a pullback in oil prices and easing concerns over aggressive US monetary tightening. The Nifty 50 rose 0.60% to 22,555.75, while the Sensex gained 0.66% to 72,382.47.

The market sentiment improved after softer-than-expected US jobs data reduced expectations of a Federal Reserve rate hike later this month, offering relief to emerging-market assets, while a drop in crude prices also helped.

"Indian markets stand at a crossroads, with domestic liquidity competing with a challenging global macro backdrop," said Kruti Shah, quant analyst at Equirus Securities.

Mean reversion is already underway across large- and mid-caps, with crude prices, global yields and liquidity remaining key variables for the market, Shah said.

Thirteen of the 16 major sectors rose while the broader small-caps and mid-caps added about 0.5% and 0.7%, respectively.

Financials led the rise after positive quarterly business updates.

Banks and financials gained 0.5% and 0.4%,

TURNING AROUND

while state-owned lenders added 1%.

Bajaj Finance rose 2.3% after posting an 11% year-on-year growth in new loans in the September quarter.

Punjab National Bank gained 2.5% after the state-run lender posted global advances growth of 14.8% in the September quarter.

Bank of Baroda rose 0.9% after reporting 18% growth in quarterly advances.

Mahindra & Mahindra Finance added 2% after the non-bank lender said its overall disbursement jumped 22% in Q2.

Sebi chief stresses investor awareness

KUSHAN SHAH
Mumbai, October 5

SECURITIES AND EXCHANGE Board of India (Sebi) Chairman Tuhin Kanta Pandey on Monday cautioned investors against investment frauds and asked them to use regulated products, channels and entities, instead of anonymous tips, finfluencer recommendations and exaggerated claims on returns.

Speaking at the nationwide launch of Sebi's investor aware-

ness campaign titled 'Project Jagrook' in Chandigarh, Pandey also highlighted a gap between awareness and actual participation in the securities markets.

Pandey told investors to only invest in products they understand, diversify portfolios and to not mistake fixed returns as risk-free. He emphasised the importance of starting investment at an early age and staying invested to reap the benefits of compounding. Indian securities market is more democratic and accessible than ever. But access alone is not enough. Investors must also be informed, he said.

Explaining the investor awareness campaign, Pandey said "Project Jagrook" will use sustained communication using multiple channels like television, print, radio, cinema, digital platforms and social media for sustained communication with investors till March 2027.

Rupee falls 10 paise to 96.35

THE RUPEE DEPRECIATED 10 paise to close at 96.35 against the US dollar on Monday, as elevated oil prices and persistent foreign fund outflows kept the currency range-bound near the critical 96 level against the US dollar.

Forex traders said a boost in risk-on sentiment supported the rupee, though they are now turning their attention towards foreign capital flows and the Reserve Bank of India's upcoming monetary policy decision for further cues.

"Improving risk-on sentiment provided an additional cushion for the local currency, though all eyes will now be on the RBI's monetary policy decision and foreign capital flows. Looking ahead, spot USD/INR is expected to consolidate between 95.95 and 96.50 in the near term, with a bias toward further gains," said Dilip Parmar, Research Analyst, HDFC Securities.

Meanwhile, the dollar index, which gauges the strength of the greenback against six currencies, was trading at 102.18, higher by 0.25%. **PTI**

MFIs, SFBs step up microfinance lending as asset quality improves

NARAYANAN V
Chennai, October 5

TOP MICROFINANCE ENTITIES and small finance banks (SFBs) have reported strong growth in microfinance loans during the second quarter, as lenders stepped up disbursements amid a decline in delinquencies, improving asset quality and lower credit costs.

CreditAccess Grameen, the country's largest microfinance NBFC, reported a 20% year-on-year (y-o-y) growth in assets to ₹30,946 crore during Q2FY27. The lender added 270,000 new borrowers, with disbursements rising 19% to ₹6,355 crore. Asset quality also improved to pre-crisis levels, with its portfolio at risk (PAR) for 90-plus days at 1.1%, the lowest in 10 quarters.

Gross advances of Equitas small finance bank climbed 30% y-o-y to ₹50,694 crore, driven by its microfinance book. The microfinance and micro loans portfolio rose 86.65% to ₹6,331 crore, while the non-microfinance and

REGULATORY PUSH YIELDS RESULTS

micro loan portfolio expanded 24.16% to ₹44,363 crore during Q2.

Ujjivan SFB reported a 32.1% y-o-y growth in its gross loan book to ₹45,699 crore. Microfinance group loans expanded 19.5% to ₹15,658 crore, faster than individual loans, which grew 16.8% to ₹6,381 crore.

NBFC-MFIs and SFBs are

stepping up microfinance loan disbursements as the sector is gradually emerging from the default crisis, triggered by borrower overleveraging over the past two years.

ICRA last week upgraded its outlook for the microfinance sector to stable from negative, citing a decline in delinquencies, improving asset quality, lower credit costs

and a pick-up in disbursements.

The agency said multiple guardrails introduced by the two self-regulatory organisations had helped curb borrower overleveraging, while disbursements and AUM growth were recovering. Credit costs are projected to decline from a peak of 7.1% in FY25 to 2.4-2.8% in FY27. The industry, however, is going slow on drought-hit Karnataka and Maharashtra to avoid any build-up of fresh stress.

"While microfinance loans are not for agri-culture/crop cultivation, considering the linkages to other related livelihoods, MFIs are keeping a close watch on the situation," Alok Misra, CEO and director, Micro Finance Industry Network (MFIN), said.

CreditAccess Grameen also cautioned about a mild increase in the PAR accretion rate due to excess rainfall and heavy flooding in August and September across Bihar, Uttar Pradesh, Chhattisgarh and Madhya Pradesh.

Jane Street denies mkt manipulation before SAT

BLOOMBERG
October 5

JANE STREET GROUP LLC denied charges of manipulation as it mounted its defence against the Securities and Exchange Board of India (Sebi), telling the Securities Appellate Tribunal (SAT) that stocks in a banking index fell or rose irrespective of its trading activity.

The Wall Street firm sought redacted counterparty information included in Sebi's trade logs that formed part of the regulator's July interim order.

Sebi has accused Jane Street of influencing prices of stocks on the Nifty Bank index.

Denying the charges of abuse, Darius Khambata, a lawyer representing the firm, told the tribunal that the index stocks rose when Jane Street sold shares. The next hearing is scheduled for Tuesday.

Markets may remain volatile amid elevated crude prices, rising bond yields and FII outflows, but India's economy remains on a strong footing, believes Radhika Gupta, MD & CEO, Edelweiss Mutual Fund. She tells Kushan Shah that strong earnings growth in mid- and small-cap companies justifies their higher valuations multiples and should keep investors interested in these segments. Excerpts:

How do you see the current market?

The index has been flat for the last two years, but that is part of the equity-investing journey. It feels particularly difficult because it follows strong post-Covid returns, while markets such as the US, South Korea and Taiwan have performed well. India's macros, however, remain in good shape. Inflation is rea-

sonable, corporate profitability is improving, domestic markets remain resilient despite heavy FII selling, and valuations have moderated.

Global geopolitical uncertainty remains difficult to predict. Crude continues to be India's Achilles' heel, underscoring the need to diversify energy sources. India is also seen as an anti-AI trade, though it could benefit from the rollout of AI infrastructure. With US Treasury yields around 5.2%, significant capital flows to other markets may take time. Our internals have improved, but the externals will play out gradually.

How do you view the disproportionate investor interest in riskier segments such as mid- and small-caps?

I think we need to change our notions of large-, mid- and

small-caps. We tend to think of mid- and small-caps as riskier segments, but the large-cap universe is dominated by sectors such as IT, banking and energy.

If you look at some of the major themes in the economy and companies with more disruptive business models, many of them sit in the mid- and small-cap universe. That is also where much of the growth is, which explains why investors are flocking to these segments. If you look at the PEG, or price/earnings-to-growth ratio, the growth also justifies the higher valuation multiples.

Could strong inflows once

again inflate valuations, as they did two years ago?

Given the price/earnings-to-growth multiples, I think we still have some way to go. There will always be periods of froth and periods of opportunity. Part of the growth story is also structural, given the increasing share of mid- and small-caps in the overall market capitalisation.

Do you see prospects for large-caps improving in the near term?

Large-caps will always be an important part of investors' portfolios. If you look at index returns, they have delivered good returns over the long term. But there are also two- or three-year periods when the index does very little, so what we are seeing currently is normal. Even within large-caps, the real drag has come from the top 50 companies, while the next 50 have done well. There are also

LARGE-CAPS HAVE BEEN AN IMPORTANT PART OF INVESTORS' PORTFOLIOS AND HAVE DELIVERED GOOD RETURNS OVER THE LONG TERM

some positive signs within the large-cap universe. Banking is looking good as credit growth returns. IT valuations have become supportive, but earnings growth needs to turn around. There is nothing fundamentally wrong with these companies; growth momentum simply needs to return. For now, we are in a wait-and-watch mode on the sector.

SIFs have completed a year and seen strong growth. What is your outlook?

I have been pleasantly surprised by the growth of SIFs. It has surpassed my expectations, given the limited investor experience with the product and the relatively small number of distributors with the required certification.

As both these parameters improve, I would not be surprised if the industry scales up very rapidly over the coming years. The catalyst has been

the ability of SIFs to create solutions that meet investor needs and deliver extraordinarily well despite the underperformance of the indices. If they continue to do that, SIFs can maintain the pace of growth we saw in the first year.

Does the SIF product basket need to expand?

The regulator was sensible in allowing seven scheme options across asset classes rather than 20. Measures such as not allowing leverage or short exposure in commodities have also ensured that investor needs can be met while keeping risks calibrated.

I hope the regulator gradually opens up SIFs further. They do not need as many categories as mutual funds. Many SIF schemes are still relatively small in terms of assets under management and will need time to build scale.

AI @ WORK

SMART GUARDRAILS

MACHINES CAN ACT WHILE HUMANS STAY IN CHARGE

THE NEXT PHASE of enterprise AI will not be defined only by systems that answer questions. It will be shaped by agents that can plan tasks, call software tools, retrieve information, make recommendations and, in some cases, take action without waiting for a person at each step. That promise comes with a difficult management question: How much autonomy is enough?

An agent that can reconcile invoices, route support tickets or prepare a management report may save time with less risk. The same agent should not be allowed to approve a large payment, change a production system, make a hiring decision or send an external commitment without human oversight.

The answer is not a blanket ban. It is a clear division between actions that are routine and reversible, and actions that affect money, safety, legal rights, reputation or access to essential services.

Low-risk autonomy can help enterprises manage the growing volume of digital work. Agents can monitor systems, identify anomalies, draft responses, compare documents, prepare meeting briefs, schedule routine activity and move information between approved applications. These tasks still require supervision, but they do not all need a human approval click before every action.

Higher-risk decisions require a different standard. Any action that transfers funds, changes a customer's eligibility, alters a medical or industrial process, commits the organisation to a contract, publishes sensitive information or affects employment should remain subject to human review. In such cases, the agent can gather evidence, explain options and recommend a course of action, but the final decision should belong to an accountable person.

The distinction belongs in the infrastructure. Agents need their own identities, permissions and action limits. Access should follow least privilege, with an agent able to use only the data and systems required for its task. High-risk actions should trigger approval workflows, while every prompt, tool call, decision and outcome should be logged for review.

Enterprises should also build for failure. An agent may misunderstand an instruction, rely on outdated data, follow a malicious prompt or repeat an error at scale. Sandboxed environments, rate limits, spending caps, rollback procedures and

independent monitoring can contain the damage. An override matters only if it is visible, tested and available before an irreversible action.

The practical challenge is that autonomy will vary by context. A finance team may permit an agent to draft a payment batch but not release it. A hospital may allow an agent to organise records but not alter a treatment plan. A factory may use an agent to detect equipment risk but require an engineer to approve a shutdown. The same model can therefore be low-risk in one workflow and unacceptable in another.

Infrastructure providers will help make these controls usable. Private cloud, workload isolation, identity management, observability, backup and recovery are not separate from agentic AI. They determine whether an organisation can see what its agents are doing, restrict them when necessary and restore operations when something goes wrong. Providers such as NxtGen can contribute at this operating layer, but customers must define the policies and remain accountable for decisions.

The agentic enterprise should therefore be judged by the quality of its boundaries, not by how little human involvement it claims to need. Autonomy is valuable when it removes repetitive work and keeps people focused on judgment. It becomes dangerous when responsibility is delegated without authority, evidence or recourse.

The right model is not human versus machine. It is a graduated system in which agents act freely within clear limits, pause when risk rises and hand over decisions that require context, empathy or accountability. The enterprises that get this balance right will gain speed without giving up control.

For NxtGen, the future of the agentic enterprise lies in creating the infrastructure and guardrails that allow AI to act with confidence while keeping consequential decisions with accountable people. The principle is simple: Let AI act. Let humans lead.

AI Product Manager, NxtGen

THE AGENTIC AI ENTERPRISE

THE RIGHT RULES BUILD TRUST

AS COMPANIES GIVE THE TECHNOLOGY MORE AUTHORITY, CLEAR BOUNDARIES WILL DETERMINE HOW FAR AUTONOMOUS SYSTEMS CAN SAFELY GO

ON DECEMBER 17, 1903, the Wright brothers completed the first successful powered, controlled, sustained flight of a heavier-

than-air aircraft near Kitty Hawk, North Carolina. However, commercial aviation took decades to scale because technical capability had to be matched by viable economics, infrastructure, and safeguards to earn public trust. The United States' Air Commerce Act of 1926 authorised a federal framework for pilot licensing, aircraft certification, airways, navigation aids, and accident investigation to improve safety and support commercial growth.

Aviation's framework was set by statute, not individual operators. Enterprises now face an equivalent choice: define their own permission architecture or inherit one shaped by others' timelines and risk appetites.

For enterprises deploying AI, the corresponding question is when, and under what safeguards, an agent should be authorised to act. Despite AI licences, productivity pilots, and centres of excellence, outputs still move through pre-AI approval chains. HFS Research and Genpact found that only 22% of organisations are comfortable granting agents broad autonomy due to challenges such as explainability, regulatory exposure, reputational risk, and unclear accountability.

Most of these are about organisational readiness: clear authority, accountable ownership, and evidence that autonomy can scale safely.

India already has relevant governance precedents. The Reserve Bank of India's directions on IT governance place responsibility for governance and oversight with boards and senior management. Its directions on IT outsourcing separately require oversight of third-party arrangements and make clear that outsourcing does not diminish a regulated entity's obligations. The Digital Personal Data Protection Act

imposes additional obligations on entities designated as significant data fiduciaries. Together, these frameworks illustrate a broader principle: delegated execution does not mean delegated accountability.

Closing the authority gap requires a permission architecture, not a binary switch. The familiar human-in-the-loop, human-on-the-loop, and human-out-of-the-loop distinction becomes useful when each tier is tied to consequences, reversibility, and explicit decision rights.

Tier 1: Human-in-the-loop. This tier should govern high-consequence, low-frequency decisions that are difficult to reverse, such as regulatory filings, large pricing exceptions, employment actions, and commitments with significant legal exposure. The agent may analyse and recommend, but it cannot execute.

VIJAY VIJAYASANKAR
Global Agentic AI Officer, Genpact

ILLUSTRATION : SUNEESH K

THE FUTURE MAY BE AI-POWERED. IT SHOULD STILL BE HUMAN-LED.

AI can process.
AI can predict.
AI can act.
But humans give it purpose.

At NxtGen, we believe enterprise AI should do more than automate decisions.

It should amplify human intent - with the autonomy to act and the accountability to act responsibly.

WHERE THEY CAN TAKE THE LEAD

Towards a flawless GST

Process reforms are hugely welcome, but part of the problem is still structural

FINANCE MINISTER NIRMALA Sitharaman has rightly argued that a dependable tax system allows enterprises to look beyond immediate obligations and invest in opportunities that take time to mature. The point assumes added significance as India seeks to sustain an investment cycle amid an uncertain external environment, where tariffs are being weaponised. Yet the investment recovery remains tentative. Private-sector participation must broaden beyond large listed companies and high-tech ventures to the larger universe of unlisted and informal enterprises. Consumer confidence, too, remains subdued. The Reserve Bank of India’s survey showed growing pessimism over near-term job prospects in both rural and urban areas. Against this backdrop, the next phase of goods and services tax (GST) reforms assumes importance. GST 2.0, launched a year ago with rate rationalisation, now needs to be consolidated through process reforms that simplify compliance, speed up refunds, and improve the flow of input tax credits.

The GST Council is expected to consider proposals aimed at reducing tax-man-taxpayer interface and tax cascading. Lower project costs, stronger export competitiveness, and bringing more small units into the GST value chain—and thereby the wider national market—could be gains. Equally welcome is the shift in enforcement from criminal prosecution towards proportionate civil penalties, with arrest provisions proposed to be removed as invoice matching and better data systems strengthen fraud detection. There are signs of improvement. Following last year’s rate restructuring, businesses have discharged a greater share of their tax liability through input tax credits, while accumulated credit has declined relative to taxable supplies. Aggregate SGST receipts of state governments, including their share of IGST settlements, rose 16% during April-September, faster than the 11.6% growth in gross GST revenues. These gains are encouraging, but should not obscure the larger task. Nor should any consumption boost from lower tax costs be overstated. Consumer demand depends not only on prices but also on household incomes, income expectations, and indebtedness, which remain less supportive.

Process reforms will have limited impact unless GST’s structural shortcomings are addressed. While revenues have continued to grow despite last year’s tax cuts, the revenue potential originally envisaged for this destination-based consumption tax remains largely unrealised. Nor is the expected productivity-enhancing impact on businesses clearly visible. At the heart of the problem are the residual flaws of a multi-tiered, dual-jurisdiction GST. India’s system remains more complex than those in several countries where lower and, in some cases, single rates have delivered comparable or greater revenue buoyancy. Despite GST 2.0 creating a largely two-rate structure, India effectively retains multiple rates, including the 40% slab for demerit goods and services, exemptions, and limited input tax credit under the 5% rate.

One estimate suggests a 12% GST on the consumption base without exemptions could generate revenue equivalent to 8.4% of GDP, against around 6% currently, while improving economic efficiency. A single rate may not be feasible for a country of India’s size and income disparities, but further simplification should remain the goal. Broadening the base by bringing excluded segments into the GST net is equally important. A single tax registration number for every business or business group, as in the UAE, could be explored as the GST Network matures. Extending e-invoicing to business-to-consumer and export transactions could reduce compliance friction. Deeper structural reform, rather than process tweaks alone, is essential if GST is to lower business costs, raise productivity, and provide the certainty needed for sustained investment and growth.

From experimentation to economics: AI’s next phase

THE FIRST PHASE of enterprise AI was about experimentation. The next will be about economics. Almost every large enterprise is testing AI in some form, making the number of pilots or use cases increasingly irrelevant. The more important question is: Where is AI already moving revenue, costs, working capital, or return on capital?

On this measure, four sectors appear ahead of the curve—BFSI, digital-native retail and consumer businesses, telecom, and manufacturing. Their advantage comes from a combination of large usable data sets, digitally mature workflows, high-transaction volumes, and outcomes that can be measured financially.

BFSI is arguably the most mature AI adopter today. Banks, insurers, and fintechs have used machine learning for years across fraud detection and credit scoring. AI is now moving deeper into underwriting, collections, compliance, customer servicing, cross-selling, wealth management, and software development.

The attraction lies in the measurable ROI. Lower fraud losses, higher collection efficiency, faster underwriting, better cross-sell, and lower servicing costs all flow relatively directly into earnings. BFSI thus shows that the most valuable AI model may simply be the one most deeply embedded into a high-frequency economic workflow.

Retail and e-commerce potentially have the strongest linkage between AI and incremental revenue. AI can influence almost every transaction: Discovery, search, recommendations, pricing, promotions, inventory placement, fulfilment, fraud, and customer service. A large value-focussed Indian e-commerce platform has put AI at the centre of its operating architecture, processing billions of signals to understand customer intent and context. This matters because small improvements become powerful at scale. A modest increase in conversion or basket size multiplied across millions of transactions can materially alter revenue and profitability.

But the bigger opportunity may extend beyond P&L. AI-led demand forecasting at a large consumer company has improved forecasting accuracy and reduced finished-goods inventory. AI therefore has the potential to simultaneously improve growth and capital efficiency—higher conversion at the front end and better inventory turns at the back.

Telecom represents the cost-productivity side of the AI opportunity. Operators have millions of customers, vast networks, and large service organisations. AI can address customer service, churn, network optimisation, predictive maintenance, sales, marketing, and software development. A large Indian telecom operator’s GenAI assistant handles millions of customer interactions monthly, with a high proportion resolved end-to-end. At this scale, even a 10–20% productivity improvement can become material to EBITDA.

Manufacturing could ultimately become an even larger value pool. Here, AI moves from augmenting knowledge workers to optimising physical assets. Computer vision, predictive maintenance, supply-chain forecasting, digital twins, robotics, and physical AI can directly affect uptime, yields, energy consumption, inventory, and throughput. The financial translation is powerful: Lower inventory improves working capital; reduced downtime raises asset utilisation; better yields reduce waste; and higher throughput improves return on capital employed (ROCE).

This leads to a broader conclusion. The sectors generating the highest AI returns today are not necessarily those deploying the most advanced models—they are those embedding AI into the largest measurable economic workflows.

The question for investors should move beyond “Who is adopting AI?” That is the real transition underway—from AI experimentation to AI economics. Ultimately, the companies that convert AI spending into measurable improvements in revenue, margins, working capital, and ROCE will be the ones that create durable shareholder value.

POWER POINT

STRONG BRANDS MAY BECOME MORE VALUABLE AS DIGITAL SHELVES BECOME MORE CROWDED

Who owns the consumer now?

FOR YEARS, THE most seductive promise of direct-to-consumer commerce was contained in its name. Brands would finally own the relationship with the consumer.

They would no longer depend entirely on distributors and retailers to know who bought their products, how frequently they returned, and what else they wanted. The internet would remove intermediaries, lower distribution costs, and give consumer companies something they had rarely possessed: first-party customer data. Something rather different has happened. A consumer may discover a skincare brand through Instagram, hear about it from an influencer, compare it on Google, buy it on Blinkit, and pay with a card or wallet. Soon, she may simply ask an AI assistant which moisturiser she should buy. The company that actually developed and manufactured the product can end up knowing less about that consumer than almost everyone standing between them.

This matters because distribution is no longer the only rent brands pay. Increasingly, they must pay for visibility at the point of distribution as well.

Consider what happens when a consumer opens a quick-commerce app and searches for shampoo. A brand that has spent decades building awareness cannot assume it will appear first. A competitor can buy sponsored placement against that search. The incumbent may therefore have to advertise on the platform merely to remain prominent before a consumer it has already spent money acquiring elsewhere.

The supermarket shelf has, in effect, become an auction.

The global precedent is Amazon. What began as an online retailer and marketplace has become one of the world’s largest advertising businesses because it possesses something exceptionally valuable: knowledge of what consumers are considering when they are closest to making a purchase. Amazon generated more than \$68 billion from advertising services in 2025, with fourth-quarter advertising revenue alone reaching \$21.3 billion, up 23% year-on-year.

Walmart is travelling down the same road. Its advertising operation, Walmart Connect, grew 44% year-on-year in a recent quarter. Retail advertising is attractive partly because its economics can be dramatically better than selling groceries: analysts cited by *Reuters* estimate gross margins of 40–70% for retail media networks against roughly 3–4% for traditional grocery retail.

The lesson for India is important because quick commerce is compressing this

evolution into a remarkably short period. Amazon itself has now committed \$3 billion to expand its Indian quick-commerce operations through 2030. Its Amazon Now business has already crossed \$1 billion in annualised gross sales, while the wider Indian quick-commerce market is projected to grow sharply over the rest of the decade.

Blinkit, Zepto, and Swiggy Instamart have meanwhile created digital shelves where discovery, advertising, transaction, and fulfilment can occur within minutes. For consumer companies, the attraction is obvious. A new food or beauty brand can reach consumers across a city without building a conventional distribution network. The platform provides the warehouse, digital storefront, payments infrastructure, and last-mile delivery. It can create demand that the brand could not economically reach by itself.

But there is a price for that convenience. The platform knows what consumers searched for but did not buy; which competing products they examined; which discount converted them; what else was in their basket; when they reorder; and which substitute they choose when their preferred product is unavailable. The manufacturer may receive an order. The platform receives a behavioural map.

Large Indian consumer companies clearly recognise how important this channel has become. Hindustan Unilever says succeeding in quick commerce requires real-time inventory management because purchase decisions can be made in seconds and visibility is critical. It has established a dedicated quick-commerce organisation and says its service levels on the channel improved by 1,400 basis points during FY26. That is a striking development. One of India’s most formidable distribution machines is reorganising itself around somebody else’s digital shelf.

This does not mean brands are becoming powerless. Quite the opposite: strong

SHYAMAL MAJUMDAR

shyamal.majumdar@expressindia.com

brands may become more valuable as digital shelves become more crowded. A consumer who explicitly searches for Surf Excel, Dove, or Maggi gives the platform less power than one who searches generically for detergent, shampoo, or noodles. The first consumer arrives with a brand preference; the second can more easily be influenced by ranking, advertising, discounts, or recommendation algorithms.

The strategic objective for consumer companies therefore changes. It is no longer sufficient to maximise digital sales. They must distinguish between sales generated by brand preference and sales purchased through digital visibility.

That distinction should interest investors too. Two companies can each

report ₹100 crore of online revenue while possessing radically different businesses. One may have customers actively searching for its brand and returning organically. The other may repeatedly buy sponsored listings, influencer traffic, and discounts to generate each transaction. Revenue looks identical; the underlying brand equity does not.

Nike offers a useful warning from another category. Its aggressive push towards direct-to-consumer sales weakened relationships with retailers including Foot Locker and

Macy’s. As sales momentum suffered and newer rivals gained ground, Nike began repairing those wholesale relationships. Owning distribution can be attractive, but consumers do not necessarily shop where brands would prefer them to.

This is why the fashionable distinction between D2C and traditional consumer companies is becoming less useful. Successful brands increasingly need to be everywhere: their own websites, marketplaces, quick commerce, modern retail, and traditional stores. HUL itself describes its strategy as omnichannel. The important question is not whether a company sells directly but how much economic control it retains over demand.

Artificial intelligence could push this

If a brand repeatedly pays intermediaries to put itself back in front of someone who has bought it several times, its apparent customer base may be less proprietary than management assumes

Screening lemons from peaches

AMOL AGRAWAL

The author teaches at the National Institute of Securities Markets

Twenty-five years after a trio won the Nobel Prize, their contribution remains critical as information asymmetry becomes a major cause of today’s economic problems

writing on health economics, commented that “the information possessed by the physician as to the consequences and possibilities of treatment is necessarily very much greater than that of the patient”. This kind of information asymmetry leads to the problem of moral hazard where an entity provides misleading information about one’s health leading to lower insurance premium. The moral hazard not just leads to an inadequate provision of medical insurance — as the insurer cannot differentiate between healthy and unhealthy — but also increases the medical services that are availed as the insurer pays the bill.

In 1970, Akerlof added to the discussions by introducing the quality of goods in a highly cited article titled *The Market for “Lemons”*: *Quality Uncertainty and the Market Mechanism*. Akerlof said that in most markets both high-quality and low-quality goods are sold together, creating an information asymmetry between the buyer and the seller. Akerlof explains this asymmetry in the used car market which has both good cars (“peaches”) and bad cars (“lemons”). The seller knows more about the car than the buyer. Buyers do not know the quality of vehicles and prefer to buy at the lowest price. But at the lowest price, only lemons will sell as peaches will opt out of the market. The information asymmetry leads to the second problem

called adverse selection where the entity (usually the seller) has more information than the buyer, leading to products of inferior quality in the market.

In the article, Akerlof also cites examples from other markets. He adds to Arrow’s research, saying medical insurance too would lead to adverse selection if all the healthy people stopped paying insurance premium and exited the market. This would lead to the insurer company having unhealthier patients and higher claims. There is a difference in adverse selection between car and medical markets. While the higher premiums in insurance will drive away healthier patients, the lower prices in used cars will drive away healthier peaches. The other example is from credit markets, where the lender does not have information

about the borrower. This leads to higher interest rates, which in turn attract lower credit-worthy borrowers. In fact, Akerlof referenced the Indian economic history to explain the information asymmetry in credit markets, citing examples from our credit markets. In 1966–67, he was working at the Indian Statistical Institute on a project related to the Bhakra Nangal Dam; he revised the peaches-and-lemons research drawing insights from India’s economic history.

A key insight from his research is that the prevalence of lemons leads to ineffi-

cient markets and poor policies. This results in the development of market institutions and mechanisms such as guarantees, building of brands, chain stores, franchising, and different types of contracts.

Stiglitz (1973) provided an alternative and said that insurers can get their clients to reveal information about themselves via “screening”. For information asymmetry in credit markets, Stiglitz opined that lenders should ration loans instead of increasing interest rates. Landowners and tenants establish share-cropping contracts to deal with information problems.

Spence’s (1973) solution to addressing information asymmetry was “signalling”, where individuals send some observable action to convince the opposite party of their credibility. In a job market, employees can signal their quality to the prospective employers by highlighting education qualifications. Likewise, firms pay dividends to signal their favourable prospects despite dividends attracting taxes.

The contribution of the trio was not limited to information economics but also applied to many economic fields such as game theory, financial markets, and development economics.

To sum up, the 2001 Nobel in Economics is a major landmark in the history of the Prize. The rise of digital technology and social media have added several layers of complexity as there is too much noise around available information. Signalling and screening the lemons from the peaches remains as important and timeless as ever.

IN THE NEWS

NIGERIA MILITARY JET WITH 32 ON BOARD CRASHES

A MILITARY AIRCRAFT crashed Monday in southern Nigeria with 25 passengers and seven crew members on board, triggering a frantic search and rescue operation, authorities said. There was no immediate word on casualties. The aircraft was on a routine mission to Nigeria's economic hub of Lagos when it crashed in the riverside town of Igbokoda in Ondo state, Nigeria's Aviation Minister Festus Keyamo said in a statement. It was not immediately clear to what extent the aircraft was damaged.

EURO FALLS TO 17-MONTH LOW AGAINST DOLLAR

THE EURO FELL to its weakest level since May 2025, as France's fiscal crisis and the prospect of fresh political upheaval in the region rattled European markets. Common currency dropped 0.8% to \$1.1161. Investors remain on edge over parts of the European government bond market.

Huawei agrees on patent deal with Qualcomm

CHINA'S HUAWEI TECHNOLOGIES have agreed a broad multi-year patent licence deal with Qualcomm covering AI, 5G, computing and networking technologies. The deal includes Qualcomm's purchase of certain Huawei US patents related to computing, AI & networking.

SUSPECT HAD EARLIER PLANNED TO HIJACK AND CRASH FLIGHT

Flydubai co-pilot joined airline with attack plan

PILOT TURNS PLOTTER

■ Co-pilot allegedly planned to crash FZ1073 into Ben-Gurion

■ He had earlier planned a Tel Aviv flight hijack

■ He aborted the earlier attack

■ Reason for aborting remains unclear

■ Co-pilot allegedly attacked captain with crash axe

■ Suspect identified by sources as Omani national Hamam al-Hammami

■ Indian pilot Machchhar survived and was hailed a hero

■ Netanyahu says suspect underwent radical Islamist indoctrination

■ The accused pilot was detained in Saudi Arabia, then transferred to UAE

ALEXANDER CORNWELL & MAAYAN LUBELL
Jerusalem, October 5

THE FLYDUBAI CO-PILOT who stabbed his captain in a suspected attempt to crash the plane has told UAE interrogators he planned the attack before he was hired by the Dubai state-owned airline, according to two Israeli officials. A third source briefed on the UAE probe said the co-pilot, an Omani national, had planned to crash last Wednesday's flight into Ben-Gurion airport near Tel Aviv. He had also operated a flight to Tel Aviv earlier this year and

intended to hijack and crash the plane then, but opted not to, the source added.

It was not immediately clear why the co-pilot changed his mind on that previous flight, although the co-pilot is thought to have known someone onboard, the source said. All of the sources spoke on condition of anonymity to discuss the investigation. UAE and Israeli authorities did not respond to a request for comment.

The co-pilot of flydubai flight FZ1073, which had been bound for Israel from Dubai, attacked the pilot with an emergency crash axe, the UAE prose-

cutor general has said, calling the incident a "terrorist attack".

Two sources have said the co-pilot is an Omani national named Hamam al-Hammami. Israeli officials have not named the co-pilot but have said he is from Oman. UAE authorities and flydubai have not publicly disclosed the co-pilot's identity.

Reuters has not been able to independently reach al-Hammami, who is in UAE custody, for comment. The UAE has not announced any formal charges against him and it is not known if he has appointed legal counsel. Oman has not commented on the incident. —REUTERS

British Airways flight declares emergency

A BRITISH AIRWAYS flight from London to Chicago made a U-turn over Ireland and is returning to Heathrow after a sudden descent and emergency declaration mid-flight. Flight BA295, operated by a 30-year-old Boeing 777-200ER, departed Heathrow Terminal 5 at 11:50 am local time.

About an hour into the flight, while cruising at 37,000 feet, the aircraft encountered an operational issue over Irish airspace and rapidly descended to 9,000 feet. The crew then squawked 7700, the international emergency code.

The aircraft stabilised at 9,000 feet and continued toward Heathrow, according to flight-tracking data and AIRLIVE. —ANI

Schneider expands into AI with \$23-bn acquisition

LIANA BAKER
October 5

SCHNEIDER ELECTRIC SE agreed to buy industrial software firm PTC for about \$22.6 billion, stepping up its effort to tap into the artificial-intelligence boom with its biggest acquisition to date.

The French conglomerate, which makes a suite of electrical products, will acquire Boston-based PTC in an all-cash deal, it said on Monday. The transaction will add engineering software for industries including automotive, aerospace and medical technology to Schneider's offering.

The deal adds to a buying spree among industrial companies expanding in areas boom-

ing due to AI demand and related data-center infrastructure. ABB in July forged a deal with UK industrial components company Rotork, valued at \$5.5 billion, to boost its electrification and automation products. Also in July, Schneider agreed to buy Cognite for \$3.1 billion to expand its industrial data and AI

software operations. Schneider CEO Olivier Blum said the PTC deal will create "the industry's most complete software and AI powerhouse," while PTC CEO Neil Barua said his firm will "gain substantial scale and resources to accelerate innovation" and expand its geographic footprint. —BLOOMBERG

America heads to midterm polls amid cooling job market

REUTERS
Washington, October 5

US PRESIDENT DONALD Trump and his Republican Party will carry a 4.2% unemployment rate into the congressional elections in early November, a low number by historical standards and in line with what most economists would regard as full employment. In other words, a hallmark of a solid US job market.

Yet many US voters don't see it that way, with polls giving poor marks to Trump and Republicans on the handling of the economy.

For starters, this job market is not like the boom after the Covid-19 pandemic, and the leverage workers once had to job-hop for higher pay has disappeared. Inflation is offsetting wage gains, and tougher immigration rules and deportations mean the size of the workforce — the foundation of economic growth — has stagnated. The economy is still

adding jobs, but at a much slower pace.

Here is a look at some of the latest US labour-market dynamics following Friday's release of the Labour Department's September employment report: Low unemployment, labour force challenges, few layoffs, but sluggish hiring, mixed results for manufacturing employment and inflation.

Bolsonaro pushes Lula to brink of defeat

FLÁVIO BOLSONARO SURGED to a surprise lead over Luiz Inácio Lula da Silva in the first round of Brazil's presidential election, making him the overwhelming favorite to win the runoff and take Latin America's biggest economy sharply to the right.

Markets soared after Bolsonaro took 47% of the vote to the leftist Lula's roughly 45.2% in Sunday's election. Bolsonaro allies also dominated downballot races across Brazil, adding to the conservative sweep.

Lula and Bolsonaro will face off on Oct. 25, but closing the

gap is likely to prove difficult for the veteran president running what is likely his last race, given that most support for

eliminated candidates is expected to fall behind the challenger.

The Brazilian real gained as much as 4.7% against the dollar in Sao Paulo on Monday, while swap rates plunged as much as 90 basis points. The US-listed iShares MSCI Brazil ETF rallied as much as 15% in pre-market trading in New York. Investors have largely backed the eldest son of former President Jair Bolsonaro, seeing him as more likely to pursue policies to address Brazil's deteriorating fiscal situation.

Spanish PM Sanchez gambles on snap poll

SPANISH PM PEDRO SANCHEZ called an early election for November 29, seeking to strengthen his mandate after a fragmented parliament rejected the government's key housing decrees last week amid widespread protests.

The snap vote is a high-stakes gamble for Sanchez, whose Socialist Party trails in opinion polls. An electoral defeat could end one of Europe's last few left-leaning governments as the far right is making gains across the region. —BLOOMBERG

Explainer

● What is the new three-complaint spam rule?

UNTIL NOW, ACTION against a sender of spam calls or text messages needed five or more unique complaints within 10 days. The amendment to the Telecom Commercial Communications Customer Preference Regulations, 2018, (TCCPCR), adds a faster route, under which action will be triggered when three or more unique complaints arrive within 10 days and the sender's calling number is also flagged by the telecom operator's AI/ML system as likely to be sending unsolicited commercial communication. The Telecom Regulatory Authority of India (Trai) describes this as corroborating consumer complaint data with the operators' own detection data. The aim is early identification of spammers and faster enforcement, since a handful of complaints backed by an AI flag is treated as strong enough evidence. Earlier, an AI flag mainly used to warn the customer who received the call. Now it counts as evidence. Combined with consumer complaints, it lets regulators move against a number their own systems already distrust, instead of waiting for enough people to complain first.

● How will AI detection be used against spammers?

MAJOR OPERATORS ALREADY use AI/ML systems to detect suspected spam and alert customers. Trai's February 27, 2026, direction asked them to share such intelligence between operators and investigate suspected senders. If five or more numbers linked to one sender are

flagged within 10 days, the access provider must begin further investigation and graded action. That can include KYC re-verification, physical verification, barring outgoing services, and disconnection of telecom resources for repeated violations and misuse. Graded action means

responses escalate step by step, with disconnection tied to repeated violations. To protect genuine communication, the regulated commercial series — 140xx, 1600xx and 1601xx — will not be flagged as suspected spam, so commercial and government messages are not missed.

UNWANTED CALLS

How Trai's spam-flag rule has changed

The telecom regulator is clamping down on spammers by reducing the complaint threshold for spam calls when a number is flagged by AI. This is alongside regulating automated calls, restricting call-blocking apps, and giving consumers a formal appeal. *Ojasvi Gupta* explains how the new rules will work

3 complaints

NEW THRESHOLD FOR A CALL TO BE TAGGED AS SPAM

THE AIM IS EARLY IDENTIFICATION OF SPAMMERS & FASTER ENFORCEMENT, SINCE A HANDFUL OF COMPLAINTS BACKED BY AN AI FLAG IS TREATED AS STRONG ENOUGH EVIDENCE

22.99 billion

CALLS FLAGGED BY OPERATORS' AI SYSTEMS AS SPAM IN Q1FY27

● How automated calls are being regulated now

APPLICATION-TO-PERSON (A2P) calls are voice calls started by software or an automated platform without a person dialing, including autodialing, robocalls and pre-recorded or artificial voice. Their ability to automate and scale bulk calling creates potential for spam misuse. Under the amendment, every entity using A2P calls will have to declare this in advance to its telecom provider, along with the numbers it will use. A2P calls made without that declaration will be treated as unsolicited commercial communication. As a deterrent, a termination charge of up to ₹0.05 per minute will be levied by the terminating operator on the originating operator. The charge sits between operators, not on the person receiving the call. A2P calls made from regulated commercial numbering series, and calls authorised by Trai, are exempt from this charge. Legitimate businesses using automated calling will therefore need to register their use and numbers first, or risk their calls being classified as spam.

● How will consumers benefit?

CONSUMERS GAIN A formal appeal. If unhappy with how a spam complaint has been resolved, one can appeal within 15 days to the Appellate Authority. The appeal can be made through the same routes used to complain, which is the Trai DND app, operator's app or portal, or a call or SMS to 1909. Two other changes matter. Commercial communications based on one's inquiry to a business are allowed only for seven days from the inquiry, and the sender should keep a

● New duties for apps, senders & telemarketers

CALL-MANAGEMENT APPS such as spam-blocking dialers face two new limits. They cannot blanket-block, filter or spam-tag calls from the designated 140xx, 1600xx and 1601xx series, to avoid mislabeling genuine calls, though individual users can block them on their devices. An app may not let users report unsolicited commercial communication as "spam" or "junk" unless it sends that report to the operators. Senders and telemarketers face stiffer accountability. If headers or content templates are misused, the originating operator must suspend them within six hours of becoming aware. The sender should then take remedial steps and file a complaint with law enforcement. Where a telemarketer is responsible, all its telecom resources will be disconnected for one year, along with blacklisting. Trai may also prescribe essential conditions for operator agreements with senders, and classify senders into categories with differentiated enforcement measures for violations.

PUBLIC NOTICE
INVITATION TO BID FOR AIF FUND UNITS
Pursuant to SEBI Circular no. SEBI/HO/AFD/POD-I/P/CIR/2024/026 April 26, 2024

Expert Global Consultants Private Limited, under the capacity of Merchant Banker on behalf of Samman Asset Management Limited, Mumbai will be accepting bids for the UNITS of the following scheme of Bharat Real Estate Trust (erstwhile Indiabulls AIF), SEBI AIF Registration Number IN/AIF2/14-15/0133:

Dual Advantage Commercial Asset Fund (erstwhile Indiabulls Dual Advantage Commercial Asset Fund)
19th Floor, Tower-1, One International Center, Senapati Bapat Marg, Prabhadevi West, Mumbai - 400 013, Maharashtra

The said Scheme is currently holding unliquidated investments under its portfolio, which are valued by the two IBI registered valuers as on June 30, 2026 as follows,

Details of Valuer	Value of underlying securities held in the portfolio as on June 30, 2026 (In Rupees Crore)
EQV Valuers Limited, Registered Valuer Entity (IBBI Registration No. IBBI/RV-E/06/2025/219)	INR 236.65
Subodh Kumar Sharma, Registered Valuer (IBBI Registration No. IBBI/RV/05/2019/11705)	INR 253.29

On the basis of lower of the two valuations, the Net Asset Value of the units of the Scheme on a consolidated basis is computed as INR 7.73,712.54 per unit

The current market bid is invited from the interested investors at the reserve price of **INR 6,57,655.66** per unit for a minimum of 25% of the value of unliquidated investments of the Scheme, which is **INR 59.16 Crore**.

The books of accounts and the investment particulars are available for physical inspection at the office of the Merchant Banker at **Expert Global Consultants Private Limited, Office No. 503-504, 5th Floor, R.G Trade Tower, NSP, Delhi 110085**.

For Further Information, contact at email: harish.gupta@expertglobal.in or Mr. Harish Gupta at +91-9910675690. Please mark the envelope clearly as "Sealed Bid" and deliver it to the address provided above. The Bid Offer must arrive by 04:00 PM on October 31, 2026. Expert Global Consultants Private Limited retains the absolute right to accept or reject any or all submissions.

OPENING OF SPECIAL WINDOW FOR SUBMISSION OF TRANSFER REQUEST OF PHYSICAL SHARES

Notice is hereby given that in terms of SEBI Circular No. HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated 30th January, 2026, another special window has been opened for a period of One year i.e. from 5th February, 2026 to 4th February, 2027, for lodgement of transfer and dematerialization requests of physical shares, which were sold/purchase prior to 1st April, 2019 and rejected, returned, or not attended to due to deficiencies in document/process/or otherwise.

Kindly refer to the matrix below with regards to the applicability of lodgement:

Execution Date of Transfer Deed	Lodged for transfer before April 01, 2019?	Original Security Certificate Available?	Eligible to lodge in the current window?
Before April 01, 2019	No (it is fresh lodgement)	Yes	✓
Before April 01, 2019	Yes (it was rejected/ returned earlier)	Yes	✓
Before April 01, 2019	Yes	No	X
Before April 01, 2019	No	No	X

Kindly note that the request(s) which are accompanied by original certificate(s) along with transfer deeds and relevant supporting documents will be considered under this special window. The securities so transferred shall be mandatorily credited to the transferee only in demat mode and shall be under lock-in for a period of one year from the date of registration of transfer. Such securities shall not be transferred/lien-marked/pledged during the said lock-in period.

For any query on the above matter, shareholders are requested to contact the Company's Registrar and Share Transfer Agent viz. M/s. Beetal Financial & Computer Services Private Limited at Beetal House, 3rd Floor, 99 Madangir, Behind Local Shopping Centre, New Delhi -110062 and e-mail at beetal@beetalfinancial.com on or before 4th February, 2027.

Reminder Notice of Another Special Window for Re-lodgement of Transfer Requests of Physical Shares

With reference to our earlier newspaper advertisements published on February 05, 2026, April 02, 2026, June 03, 2026 and August 13, 2026 reminder notice is hereby given to inform that in order to facilitate ease of investing for investors and to secure their rights in the securities purchased by them and get rightful access to their securities, SEBI vide its circular No. HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated January 30, 2026 has opened another special window only for transfer and dematerialisation ("demat") of physical securities which were sold/purchased prior to April 01, 2019 for a period of one year from **February 05, 2026 to February 04, 2027**. The special window shall also be available for such transfer requests which were submitted earlier and were rejected/returned/not attended to due to deficiency in the documents/process/or otherwise.

During this period, the securities so transferred shall be mandatorily credited to the transferee only in demat mode and shall be under lock-in for a period of one year from the date of registration of transfer. Such securities shall not be transferred/lien-marked/pledged during the said lock-in period. Due process shall be followed for such transfer-cum-demat requests. The Company and the RTA have formed focused teams to attend such requests.

Company Officials: You may contact RTA for attending these requests by sending email at Investor.helpdesk@in.mnps.mufg.com or Ms. Pragati Rai at Secretarial@bfutilities.com. The same will also be made available on the Company's website www.bfutilities.com. This is for your information.

THE ISSUE SHALL CONSTITUTE 26.14% OF THE POST-ISSUE PAID UP EQUITY SHARE CAPITAL OF OUR COMPANY.

ANCHOR INVESTOR ISSUE PRICE: ₹130 PER EQUITY SHARE OF FACE VALUE OF ₹5 EACH
ISSUE PRICE: ₹130 PER EQUITY SHARE OF FACE VALUE OF ₹5 EACH
THE ISSUE PRICE IS 26.00 TIMES OF THE FACE VALUE

RISK TO INVESTORS

(For details refer to section titled "Risk Factors" on page 23 of the Prospectus)

1. **Competitive bidding process risk:** Majority of our projects have been awarded through competitive bidding process, which is heavily dependent on tenders from Government entities. Failure to qualify for, complete or win new contracts could negatively impact our business, potentially affecting our financial condition, operational results, growth prospects, and cash flow stability. The following table sets forth revenue from our customers and such revenue as percentage of revenue from operations for the Fiscals indicated:

(amount in ₹ million)

Type of Customer	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue from Operations (in ₹ million)	As a % of Revenue from Operations	Revenue from Operations (in ₹ million)	As a % of Revenue from Operations	Revenue from Operations (in ₹ million)	As a % of Revenue from Operations
Government ⁽¹⁾	4,023.43	89.41	3,556.33	91.34	2,218.68	81.84
Enterprise ⁽²⁾	476.56	10.59	337.14	8.66	492.20	18.16
Total	4,499.99	100.00	3,893.47	100.00	2,710.88	100.00

- Note:
1. Government agencies, public sector entities, including central, state, and local government departments and institutions that procure products or services for administrative, infrastructure, or public service purposes.
2. Businesses and enterprises not included in Government.

The following table sets forth the contribution from our customers to our Order Book for the Fiscals indicated:

Type of Customer	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Order Book (in ₹ million)	As a % of the Order Book value	Order Book (in ₹ million)	As a % of the Order Book value	Order Book (in ₹ million)	As a % of the Order Book value
Government ⁽¹⁾	10,205.01	86.28	11,416.72	93.88	13,778.09	93.29
Enterprise ⁽²⁾	1,623.23	13.72	743.84	6.12	991.47	6.71
Total	11,828.24	100.00	12,160.55	100.00	14,769.56	100.00

- Note:
1. Government agencies, public sector entities, including central, state, and local government departments and institutions that procure products or services for administrative, infrastructure, or public service purposes.
2. Businesses and enterprises not included in Government.

The following table sets forth the number of bids awarded to our Company, the number of bids participated in, bid to win ratio and the aggregate value of such bids for the Fiscals indicated:

Type of	Fiscal 2026	Fiscal 2025	Fiscal 2024
Number of bids awarded (A)	6	8	7
Value of Bids awarded (in ₹ million)	3,263.22	881.52	9,686.57
Number of Bids participated (B)	43	40	44
Bid to Win ratio (in %) (A/B)*	13.95	20.00	15.91

*Bid to Win ratio has been calculated by dividing the total number of bids awarded by the total number of bids participated during the particular year.

2. **Customer concentration risk:** A significant portion of our revenue from operations is attributable to our top ten customers and our business and profitability is dependent on our ability to win projects from such customers. Loss of one or more of our customers or reduction in their demand for our offerings could adversely affect our business, results of operations and financial conditions.

The following table sets forth the value of our revenue from operations attributable to our top three, top five and top ten customers, respectively, in absolute terms and as a percentage of our total revenue from operations as of the Fiscals indicated:

Contribution from top Customer	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue from Operations (in ₹ million)	As a % of Revenue from Operations	Revenue from Operations (in ₹ million)	As a % of Revenue from Operations	Revenue from Operations (in ₹ million)	As a % of Revenue from Operations
Top 3	2,607.04	57.93	2,781.84	71.45	1,615.23	59.58
Top 5	3,399.73	75.55	3,284.59	84.36	2,247.72	82.91
Top 10*	4,021.24	89.36	3,608.88	92.68	2,291.40	84.54

*Our top ten customers include RailTel Corporation of India Limited, Telecommunications Consultants India Limited and SEEPZ SEZ Authority. Names of balance customers have not been provided either because relevant consents for disclosure of their names were not available or in order to preserve confidentiality.

3. **Industry segment concentration risk:** The majority of our Order Book and revenue from operations are from the projects undertaken for the electronic governance sector. Any reduction in the activity and expenditure levels in this sector may adversely affect our business and prospects, and may reduce the number of projects we undertake and impede our growth. Further, any significant social, political, or economic changes in this sector could adversely affect our business, results of operations, financial condition, and cash flows.

The table below sets forth our Order Book outstanding from each of the business verticals we cater to for the Fiscals indicated:

(amount in ₹ million unless otherwise stated)

Business Vertical	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Order Book	% of Order Book	Order Book	% of Order Book	Order Book	% of Order Book
Electronic governance	6,908.10	58.40	7,765.64	63.86	9,648.64	65.33
Telecommunications and broadband	4,495.89	38.01	3,736.85	30.73	4,249.83	28.77
Healthcare	424.24	3.59	658.06	5.41	871.09	5.90
Total	11,828.24	100.00	12,160.55	100.00	14,769.56	100.00

The table below sets forth our revenue contribution and such revenue as percentage of revenue from operations from each of the business verticals we cater to for the Fiscals indicated:

(amount in ₹ million unless otherwise stated)

Industry Segments*	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (in ₹ million)	As a % of Revenue from Operations	Amount (in ₹ million)	As a % of Revenue from Operations	Amount (in ₹ million)	As a % of Revenue from Operations
Electronic governance	3,077.55	68.39	2,386.36	61.29	1,359.08	50.13
Telecommunications and broadband	1,091.93	24.27	910.33	23.38	949.23	35.02
Healthcare	330.51	7.34	596.77	15.33	402.57	14.85
Total	4,499.99	100.00%	3,893.47	100.00%	2,710.88	100.00%

*Revenue from products and services are provided on a bundled basis as per the relevant orders/projects.

4. **Sub-contractor risk:** We rely on third parties, including contractors and sub-contractors, to complete specific projects or specific portions of our projects. We would be liable for any delay or default by such sub-contractor. Further, sub-contracting of maintenance activities requires prior approval from the authorities and failure to obtain such approvals would result in a breach of the terms of the project contracts.

The table below provides a bifurcation of revenue earned by our Company from projects executed through third-party subcontractors and projects executed directly by our Company, for the Fiscals indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (in ₹ million)	As a % of Revenue from Operations	Amount (in ₹ million)	As a % of Revenue from Operations	Amount (in ₹ million)	As a % of Revenue from Operations
Projects executed through third-party subcontractors	2,656.10	59.00%	2,576.65	66.18%	1,562.53	57.64%
Projects executed directly by our Company	1,843.89	41.00%	1,316.82	33.82%	1,148.35	42.36%
Total	4,499.99	100.00%	3,893.47	100.00%	2,710.88	100.00%

(Please scan this QR Code to view the Prospectus)

The table below sets forth the bifurcation of subcontractor costs as a percentage of total expenses for the Fiscals indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	(in ₹ million)	% of total expenses (in ₹ million)	(in ₹ million)	% of total expenses (in ₹ million)	(in ₹ million)	% of total expenses (in ₹ million)
Sub-contracting and technical fees	3,216.68	78.92	2,865.20	80.87	1,839.48	75.42

5. **Trade receivables and contract assets risk:** Trade receivables and contract assets form a substantial part of our Current Assets and Net Worth. Failure to manage the same could have an adverse effect on our profitability, cash flow and liquidity.

For Fiscals 2026, 2025, and 2024, our current portion of trade receivables and contract assets, on an aggregate basis, constituted approximately the following percentages of our total assets, as set forth in the table below:

(amount in ₹ million)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Gross Amount	% of total Assets	Gross Amount	% of total Assets	Gross Amount	% of total Assets
Current portion of Trade Receivables	2,347.52	38.22	1,968.69	39.64	2,027.89	47.27
Contract Asset*	1,538.01	25.04	964.32	19.42	469.72	10.95
Total	3,885.53	63.27	2,933.01	59.06	2,497.61	58.22

* Contract asset where the entity has the conditional right to receive consideration from the contract.

6. **Business collaboration and consortium partner risk:** Our growth, in part, depends on our ability to maintain successful relationship with our business collaboration and consortium partners and any breakdown of such relationships could adversely affect our business, financial condition, results of operations and cash flows.

7. **Regulatory non-compliance risk:** There have been instances of non-compliances and delay in filings with respect to regulatory filings under the Companies Act, 2013 and under the Foreign Exchange Management Act, 1999 ("FEMA") by our Company in the past. Further, we may be subject to regulatory actions and penalties for any such past or future non-compliance or delays under the relevant laws, which can be substantially high once adjudicated, having an impact on our business, financial condition and our reputation may be adversely affected. We have also filed compounding applications which have been compounded. There can be no assurance that we will not experience similar or other instances of non-compliance in the future.

8. **Litigation risk:** Our business and operations may be impacted by litigations to which we are not first and direct parties to. For instance, W.P. No. 16346 of 2022 was filed before the Hon'ble High Court of Andhra Pradesh challenging, inter alia, the constitutional validity of Section 5A of the Andhra Pradesh Cinemas (Regulation) Act, 1955 and Rules 17A and 17B of the Andhra Pradesh Cinemas (Regulation) Rules, 1970 and seeking to set aside a tender for computerized ticketing and allied activities, in which our Company was impleaded as the successful bidder. Further, WP(C) No. 19992 of 2023 was filed before the Hon'ble High Court of Kerala challenging the tendering process and contractual arrangements for a state-wide automated traffic enforcement project valued at ₹1,512.27 million. The petition was dismissed by judgment dated August 27, 2025.

9. **Cybersecurity and data security risk:** Any online security breach or cyberattack resulting in unauthorized access to our network, systems, or data may adversely impact our business operations, financial results, and reputation.

10. **Order Book risk:** Our Order Book may not be indicative of our future operating performance or financial results, as projects in our Order Book are subject to cancellations, modifications, delays, premature terminations and other uncertainties beyond our control.

Below mentioned table provides details of our Order Book in hand for the Fiscals indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (in ₹ million)	As a % of Order Book	Amount (in ₹ million)	As a % of Order Book	Amount (in ₹ million)	As a % of Order Book
Value of Government orders	10,205.01	86.28	11,416.72	93.88	13,778.09	93.29
Value of Enterprise orders	1,623.23	13.72	743.84	6.12	991.47	6.71
Total Value of Order Book*	11,828.24	100.00	12,160.55	100.00	14,769.56	100.00

*Order Book comprises total value of projects in hand, awarded projects, letters of award, and work orders that are yet to be fully executed.

11. **Negative cash flows risk:** We have experienced negative net cash flow from investing and financing activities in the past years and may continue to do so in future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations. The same is summarized as under:

(amount in ₹ million)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net cash flow from/ (used in) Operating Activities	(121.01)	179.66	341.61
Net cash flow from/ (used in) Investing Activities	(314.74)	(272.96)	(152.22)
Net cash flow from/ (used in) Financing Activities	337.09	2.89	20.67
Net increase / (decrease) in cash and cash equivalents	(98.66)	(90.39)	210.06

12. **Supplier concentration risk:** We rely on our suppliers for various critical aspects of our information technology infrastructure. If any of our top 10 suppliers ceased supplying products/services to us and we were unable to find a supplier to replace it, it could have an adverse effect on our business, financial condition, results of operations, and cash flows. The table below set forth the cost of supplies from our top three suppliers, top five suppliers and top 10 suppliers in absolute terms and as percentage of our total expenses for the Fiscals indicated:

(amount in ₹ million)

Contribution from top Supplier*	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Cost of supplies (in ₹ million)	As a % of total expenses*	Cost of supplies (in ₹ million)	As a % of total expenses*	Cost of supplies (in ₹ million)	As a % of total expenses*
Top 3 suppliers	1,253.10	36.25	2,034.58	66.84	1,050.39	51.98
Top 5 suppliers	1,589.17	45.97	2,215.13	73.77	1,366.41	67.62
Top 10 suppliers	2,075.09	60.03	2,393.28	78.63	1,604.61	79.41

*Total expense excludes Employee benefits expense, Finance costs and Depreciation and Amortization expense.

*Our top ten suppliers include Starnext Innovations Private Limited, Bonton Softwares Private Limited, Meta16labs Healthcare and Analytics Private Limited and KRAN Consulting Private Limited. Further, names of certain suppliers have not been separately disclosed to preserve confidentiality.

13. The Price/Earnings ratio based on diluted EPS for Fiscal 2026 for our Company at the upper end of the Price band is 13.73 times as compared to the average industry peer group PE ratio of 15.78 times.

14. Weighted Average Return on Net Worth for last three Fiscals is 35.39%.

15. Weighted average cost of all Equity Shares transacted by the Promoters and members of the Promoter Group in the three years, 18 months and one year preceding the date of the Prospectus

Period	Weighted average cost of acquisition per Equity Share* (in ₹)	Cap Price is 'x' times the weighted average cost of acquisition	Range of acquisition price per Equity Share: lowest price – highest price* (in ₹)
Last three years preceding the date of the Prospectus.	33.38	4.04	0.00 – 105.00
Last 18 months preceding the date of the Prospectus	66.22	2.09	0.00 – 105.00
Last one year preceding the date of the Prospectus.	55.36	4.07	0.00 – 105.00

*As certified by M/s PDMS and Co. LLP, Chartered Accountants pursuant to their certificate dated October 01, 2026.

16. **BRLM Track Record:** Choice Capital Advisors Private Limited, BRLM associated with the Issue has handled 11 public issues in past three years out of which 1 issue closed below the issue price on listing date.

BID/ ISSUE PERIOD

ANCHOR INVESTOR BIDDING DATE OPENED AND CLOSED ON: FRIDAY, SEPTEMBER 25, 2026
BID/ ISSUE OPENED ON: MONDAY, SEPTEMBER 28, 2026 | BID/ ISSUE CLOSED ON: WEDNESDAY, SEPTEMBER 30, 2026

...continued from previous page.

The Issue is being made through the Book Building Process, in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended ("SCRR") read with Regulation 31 of the SEBI ICDR Regulations and in compliance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than 50% of the Issue shall be allocated on a proportionate basis to Qualified Institutional Buyers ("QIBs" and such portion, the "QIB Portion"), provided that our Company may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with the SEBI ICDR Regulations (the "Anchor Investor Portion"), of which 40% shall be reserved in the following manner (i) 33.33% of the Anchor Investor Portion shall be reserved for domestic Mutual Funds; and (ii) 6.67% of the Anchor Investor Portion shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price. Any under-subscription in the Life Insurance Companies and Pension Funds category specified in (ii) above may be allocated to domestic Mutual Funds, in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the remaining QIB Portion ("Net QIB Portion"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, subject to valid Bids being received at or above the Issue Price, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds. Further, not less than 15% of the Issue shall be available for allocation to Non-Institutional Bidders and not less than 35% of the Issue shall be available for allocation to Retail Individual Bidders ("Retail Portion") in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. One-third of the Non-Institutional Portion shall be available for allocation to Non-Institutional Bidders with a Bid size of more than ₹0.20 million and up to ₹1.00 million and two-thirds of the Non-Institutional Portion shall be available for allocation to Non-Institutional Bidders with a Bid size of more than ₹1.00 million provided that under-subscription in either of these two sub-categories of the Non-Institutional Portion may be allocated to Non-Institutional Bidders in the other sub-category of Non-Institutional Portion in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. All potential Bidders (except Anchor Investors) are mandatorily required to participate in the Issue through the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective ASBA accounts and UPI ID in case of UPI Bidders, as applicable, pursuant to which their corresponding Bid Amount will be blocked by the Self Certified Syndicate Banks ("SCSBs") or by the Sponsor Banks under the UPI Mechanism, as the case may be, to the extent of the respective Bid Amounts. Anchor Investors are not permitted to participate in the Issue through the ASBA process. For details, see "Issue Procedure" on page 473 of the Prospectus.

The bidding for Anchor Investor opened and closed on Friday, September 25, 2026. The Company received 9 applications from 9 Anchor Investors for 6,923,230 Equity Shares. The Anchor Investor Issue Price was finalized at ₹130 per Equity Share. A total of 5,040,000 Equity Shares were allocated under the Anchor Investor Portion aggregating to ₹655,200,000/-.

The Issue received 3,112,708 applications for 1,481,483,475 Equity Shares resulting in 88.18 times subscription as disclosed in the Prospectus. The details of the applications received in the Issue from Retail Individual Bidders, Non-Institutional Bidders, QIBs and Anchor Investors are as under (before technical rejections):

Sl. No.	Category	No. of Applications Received*	No. of Equity Shares Applied	No. of Equity Shares Reserved As Per Prospectus	No. of Times Subscribed	Amount (₹)
A	Retail Individual Bidders	2,918,534	375,520,195	5,880,000	63.86	48,810,046,505.00
B	Non-Institutional Bidders - More than ₹2 Lakhs and Up to ₹10 Lakhs	116,702	192,414,895	840,000	229.07	25,003,969,760.00
C	Non-Institutional Bidders - More than ₹10 Lakhs	77,394	600,655,120	1,680,000	357.53	78,084,984,935.00
D	Qualified Institutional Bidders (excluding Anchors Investors)	69	305,970,035	3,360,000	91.06	39,776,104,550.00
E	Anchor Investors	9	6,923,230	5,040,000	1.37	900,019,900.00
	Total	3,112,708	1,481,483,475	16,800,000	88.18	192,575,125,650.00

* This excludes 5,002 applications for 668,955 Equity Shares aggregating to Rs. 86,995,430/- from Retail Individual which were not in bid book but which were banked.

Final Demand

WILL PUT ON HOLD UNILATERAL DECISIONS: TOP COURT

Did not approve Form 6 modification, SC tells EC

ANANTHAKRISHNAN G
New Delhi, October 5

THE SUPREME COURT on Monday issued notice to the Centre and the Election Commission of India (ECI) on a petition accusing Chief Election Commissioner Gyanesh Kumar of acting in violation of the law that governs his terms of office by functioning in a unilateral manner and seeking his removal.

The notice issued by a three-judge bench, presided by Chief Justice of India Surya Kant, was also directed at the CEC, Election Commissioners Sukhbir Singh Sandhu and Vivek Joshi, Deputy Election Commissioner Maneesh Garg and ECI Director General (Information Technology) Seema Khanna.

The petition, filed by Patna resident Rakesh Kumar Singh, is based on the findings of an investigation by *The Indian Express* published on September 23 that Sandhu and Joshi had objected on record 14 times in 10 months to steps taken by the Commission under the CEC — from keeping them in the dark to adding new voters and deleting names.

The plea urged the bench, also comprising Justices Joy-malya Bagchi and V Mohana, to seek the “complete original and primary records” relating to the matter from the Election Commission. It also prayed that the ongoing exercise be declared illegal.

The CJJ assured that the court would examine the records and ensure that any decision taken without unanimity will have to go. Justice Bagchi said that after examining the records, if the court finds that some decisions were taken neither by unanimity nor by majority, “we will injunct those decisions”.

The bench, however, refused to pass any interim order to suspend CEC Kumar or direct that the poll body should take decisions unanimously till it finally decided the matter.

Appearing for the petitioner, Senior Advocate Vikas Singh said some interim directions are necessary. “I am wanting an interim order today to suspend the CEC immediately...Today there are elections happening...or divest him of the authority to act as CEC”, he said.

Justice Bagchi, however, asked “who will conduct the election” in such a scenario. Singh responded that the two Election Commissioners can, and added that in the interim,

Security personnel detain an NSUI supporter during a protest demanding the resignation of Chief Election Commissioner Gyanesh Kumar, in New Delhi on Monday

‘Will like to see who has modified what’

ANANTHAKRISHNAN G
New Delhi, October 5

THE SUPREME COURT said on Monday that it had not approved any “modified” version of Form 6, which is used to enroll new voters, and will examine Election Commission of India (ECI) records to know whether any change had been made and, if so, by whom.

The apex court was responding to a petition, which argued that a “modified” Form 6 was used for the Special Intensive Revision (SIR) of electoral rolls. The matter is being heard by a three-judge bench headed by Chief

Justice of India Surya Kant, and also comprising Justices Joy-malya Bagchi and V Mohana.

The court’s observation comes after the ECI issued a statement on September 26 that the Form 6 would revert to the original version as per Registration of Electors Rules, 1960.

“The declaration attached to Form 6 for SIR has been upheld by the Hon’ble Supreme Court. For non-SIR period, the Forms applicable as per Rules (the Registration of Electors Rules 1960) will be used,” the ECI had said in its statement.

The ECI was responding to the findings of an inves-

tigation by *The Indian Express* published on September 23 that two Election Commissioners in the three-member ECI objected on record 14 times in 10 months to steps taken by the Commission under Chief Election Commissioner Gyanesh Kumar.

The Indian Express had first reported in July that the online Form 6 on the ECI’s ECINet portal has started asking applicants whether they, or their parents or grandparents, were on the electoral roll of the last SIR — and that the form could not be submitted without an answer.

the court should also restore the position of the ECI as it had made the CJJ a member of the selection committee for CEC.

“We are dealing with a very grave situation today. A grave situation which can undermine the very basis of our democracy. Today, our democracy is vibrant and known all over the world because of the way we are able to conduct the elections. This election... has been conducted for 76 years, with the ECI having a certain amount of respect,” Singh said.

The Senior Advocate argued

that while there have been earlier occasions where one or two decisions of the ECI may be questioned, “today we are having a situation where the very CEC as a constitutional body is acting in a manner which is completely contrary to the statute under which he is appointed”.

Pressing for interim relief, Singh said: “...today Your Lordships will pass some orders. Otherwise this country will burn today...The elections were conducted with the ECI having some respect. But today we are having a situation where the

CEC is acting in a manner which is completely contrary to the statutory framework. Your Lordships have to take some interim measures here. Because otherwise the very credibility of the electoral process is so undermined that every citizen of this country is feeling unsafe.”

When the court expressed its disinclination to issue any order to suspend the CEC, Singh sought a direction that the ECI will decide things unanimously till the court hears the matter next.

Trump corrects himself after referring to Brazil’s prez election as India’s

PRESS TRUST OF INDIA
Washington, October 5

PRESIDENT DONALD TRUMP on Monday corrected an earlier post on social media in which he referred to Brazil’s presidential election as India’s to claim that the electoral process in the US was “corrupt”.

In a glaring factual error, Trump, in a post on Truth Social on Sunday, claimed that “125 million people voted in Brazil’s Presidential elections and the results came out shortly after the vote closed”.

Trump then used the faster counting example to target Democratic-run cities and states such as Detroit, Philadelphia and California. “In Detroit, Philadelphia, California, and numerous other US cities and states, the results, with much smaller numbers, will often take weeks to rig, I mean, calculate,” Trump said.

“Voting in America is CORRUPT,” Trump said, referring to the weeks taken for the counting of votes in elections in US cities and states.

Later, he corrected himself to say that “25 million people voted today in the first round of Brazil’s Presidential Election. The results came out shortly after the vote closed,

GLARING ERROR

■ Trump said that “125 million people voted in India’s Prez polls and the results came out shortly after the vote closed”

■ Later, he said that “25 million people voted today in the first round of Brazil’s presidential election

on the SAME DAY!”

Brazil, not India, went to the polls on Sunday for the first round of its presidential election. The South American country recorded 125.27 million valid votes, according to its electoral authority, while results started coming in from 5 pm, when voting closed, and were updated as ballots were counted.

Brazil, alphabetically the first part of the acronym BRICS, attended a summit of the grouping in New Delhi last month and the two nations met each other in a FIFA international friendly football match in Kolkata on Saturday — though neither fact could reliably be cited to

explain the mix-up by the US President who handed over the sport’s biggest prize in New Jersey in July.

India’s citizens do not directly vote for their President, who is elected by an electoral college formed by members of Parliament and state assemblies.

The incumbent Droupadi Murmu assumed office in 2022.

Brazil’s election on Sunday featured incumbent Luiz Inacio Lula da Silva and Flavio Bolsonaro, the son of former president Jair Bolsonaro.

With neither candidate securing a majority, the two will face each other in a runoff on October 25.

India's infra test shifts to investability, says Deloitte

PRESS TRUST OF INDIA
New Delhi, October 5

INDIA’S INFRASTRUCTURE CHALLENGE has shifted from raising capital to making projects investable, global accounting firm Deloitte said on Monday.

In its report titled ‘Future of Infrastructure Survey 2026’, Deloitte said 38% of Indian respondents cite lack of private-sector participation as a challenge, while 42% point to complex policies, regulations and processes to receive approvals.

It further noted that India’s hybrid annuity model (HAM), with 40% public-sector construction support, demonstrates how targeted public support and risk-sharing can help attract private capital.

Deloitte said the survey also underscores India’s strong focus on digital transformation.

According to the report, 71% of Indian respondents agree that the public sector needs to modernise infrastructure and integrate digital engineering technologies to meet evolving needs, compared with 36% across APAC.

Additionally, Deloitte said 83% believe that public and critical infrastructure requires stronger protection from cyberattacks, compared with 63% across APAC.

Nobel medicine prize goes to 3 scientists for brain activity research breakthroughs

JOHAN AHLANDER, MARIE MANNES & BHANVI SATIJA
Stockholm, October 5

AMERICAN KARL DEISSEROTH and Germans Peter Hegemann and Georg Nagel won the 2026 Nobel Prize in Physiology or Medicine on Monday for developing optogenetics, a technique that uses light to control individual nerve cells in the brain.

The Nobel Assembly of Sweden’s Karolinska Institute said Deisseroth, 54, Hegemann, 71, and Nagel, 73, had been selected for their “discoveries

Karl Deisseroth, Peter Hegemann and Georg Nagel were picked for their “discoveries concerning light-gated ion channels and optogenetics

concerning light-gated ion channels and optogenetics.”

“This method (optogenetics) makes it possible to switch on, or off, the activity of individual nerve cells in a living brain,” said Thomas Perlmann, Secretary-General of the Nobel Assembly at Karolinska Institutet.

“This method is now being used in laboratories around the world to reveal the brain’s

mysteries,” he said.

Anna Wedell, a professor in genetics and a member of the Nobel Committee for Physiology or Medicine, said a new era in neuroscience had opened but it was only the beginning.

“For the first time we can actually start to understand how the brain processes information and how different neurons interact across

the brain,” she said.

The trio will share a prize sum of 12 million Swedish crowns (\$1.2 million). Announcements will follow in the coming days on this year’s Nobel physics, chemistry, literature, peace and economics prizes, with the winner or winners of the 2026 Nobel Peace Prize to be announced on Friday.

The breakthrough began in the early 1990s when Hegemann investigated how the alga *Chlamydomonas* reacts to light in half a millisecond.

He hypothesised that a single protein both captured light and acted as an ion channel.

Nagel tested this hypothesis by injecting *Chlamydomonas* genes into frog eggs, discovering channel-rhodopsin-2, a light-sensitive ion channel.

CORRIGENDUM: NOTICE TO INVESTORS

The corrigendum is with reference to the Red Herring Prospectus (“RHP”) dated September 21, 2026 filed by EverestIMS Technologies Limited (“Company”) with Registrar of Companies, Bangalore (“RoC”), Securities and Exchange Board of India (“SEBI”) and BSE Limited (“BSE”) in connection with its proposed Initial Public Offer.

Investors are hereby informed that the following inadvertent errors/omissions have been noticed in the RHP and are hereby corrected as detailed below:

- In the chapter titled “Risk Factors” beginning on page 23 of the RHP, under Risk Factor No. 26, the words “audit/limited” shall be deleted and the “consolidated financial” shall be read as “restated consolidated financial”.
- In the chapter titled “Capital Structure” beginning on page no. 70 of the RHP under the point no. 17, the number of shareholders as on the date of filing of RHP shall be read as “sixty-nine” instead of “sixty-eight”.
- In the chapter titled “Other Regulatory and Statutory Disclosures” beginning on page no. 298 of the RHP, i) under head “Details of Public/ Rights Issues by Listed Group Companies, Subsidiaries and Associate Companies in the Last Three Years”, “our Company do not have any group company” shall be read as “our Company do not have any listed group company”; ii) Under head “Investor Grievances and Redressal System”, the statement “Our Company will constitute Stakeholders Relationship Committee” shall be read as “Our Company has constituted a Stakeholders Relationship Committee”; and iii) Under head “Expert Opinion” the date of the written consent from CGSS & Associates LLP shall be read as “September 16, 2026” instead of “July 15, 2026”.
- In the chapter titled “Offer Procedure”, on page no. 362 of the RHP, under the head “Basis for Allotment”, i) under the point no. 1, “the aggregate demand in this category is less than or equal to 1200” shall be read as “the aggregate demand in this category is less than or equal to 18,97,600”; and ii) the point no. 5 shall be read as “Basis of Allotment for QIBs (other than Anchor Investors) and NIIIs in case of oversubscribed offer” instead of “Basis of Allotment in case of oversubscribed issue”.
- In the chapter titled “Restated Consolidated Financial Information” beginning on page no. 234, under “Independent Auditor’s Examination Report on Restated Consolidated Financial Statements”, i) in the point no. 6, “Audit for the financial year ended on March 31, 2026 was audited by us vide our report dated July 15, 2026. Audit for the financial year ended on March 31, 2025 and March 31, 2024 was audited by S H & Co., Chartered Accountants vide report dt. August 07, 2025 and August 16, 2024.” shall be read as “Audit for the financial year ended on March 31, 2026 and March 31, 2025 was audited by us vide our report dated July 15, 2026 and August 07, 2025 respectively. Audit for the financial year ended on March 31, 2024 was audited by S H & Co., Chartered Accountants vide report dt. August 16, 2024.”; ii) in the point no. 7, “We have audited the Standalone Financial Statements of the subsidiary company for the financial year ended March 31, 2026, March 31, 2025 and March 31, 2024 whose share of total assets, total revenues, net cash inflows/(outflows) included in the restated consolidated financial statements for the relevant years is tabulated below which are audited and have been furnished to us by the management and our opinion on the restated consolidated financial statements in so far as it related to amounts and disclosures included in respect of subsidiary is based solely on such audited standalone financial statements:” shall be read as “We did not audit the Standalone Financial Statements of the subsidiary company for the financial year ended March 31, 2026, March 31, 2025 and March 31, 2024 whose share of total assets, total revenues, net cash inflows/(outflows) included in the Restated Consolidated Financial Statements for the relevant years is tabulated below which have been audited by the other auditor and have been furnished to us by the Management along with unaudited standalone IGAAP converged financial statements which have been prepared by making IGAAP adjustments to the audited standalone financial statements of the subsidiary as mentioned above prepared in accordance with the International Financial Reporting Standards (IFRSs) on which proforma IGAAP adjustments as followed by the Company has been applied and certified by the management for the purposes of consolidation. Audit of Infracon Corp, subsidiary company, for the financial year ended March 31, 2026, March 31, 2025 and March 31, 2024 was conducted by SH & Co., Chartered Accountants. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary is based solely on such audited standalone financial statements and unaudited IGAAP converged financial statements:”; and iii) new point no. 12 stating “We, CGSS & Associates LLP, Chartered Accountants, have been subjected to the peer review process of the Institute of Chartered Accountants of India (“ICAI”) and hold a valid peer review certificate issued by the “Peer Review Board” of the ICAI which is valid till July 31, 2028.” shall be inserted.
- In chapter titled “Material Contracts and Documents for Inspection” beginning on page no. 406 of the RHP under head “Material Documents in Relation to the Offer” in the point no. 7, the duplicate reference to “2026” appearing after the date “July 15, 2026” shall be omitted.
- In the chapter titled “Basis for Offer Price” beginning on page no. 115, under point no. 9 in the table, the “RoCE” for the Peer Company for the Financial Year ended March 31, 2026, March 31, 2025 and March 31, 2024 shall be read as “22.45%,” “24.47%” and “23.18%” respectively instead of “25.32%,” “28.13%” and “26.67%” respectively.
- In the chapter titled “Objects of the Offer”, i) under the head “2. Funding of Working Capital Requirement” on page no. 108 of the RHP and under the head “Funds Deployed and Sources of funds deployed” on page no. 113 of the RHP the duplicate reference to “2026” appearing after the date “September 16, 2026” shall be omitted; and ii) under head “Offer Related Expenses” on page 111 of the RHP in the table the duplicate reference to “Printing and distribution of issue stationary” shall be omitted.
- In the chapter titled “Definitions and Abbreviations” on page no. 6 of the RHP, under the definition of “Basis of Allotment” the “page no.” shall be read as “330” instead of “213”.

The RHP shall be read in conjunction with this Corrigendum. The information in this Corrigendum supersedes the information in the RHP to the extent inconsistent with the information in the RHP. Relevant changes will be reflected in the Prospectus, as and when filed with the RoC, SEBI and the BSE Limited. All capitalized terms used herein and not specifically defined shall have the meaning as ascribed to them in RHP.

BASIS OF ALLOTMENT

INITIAL PUBLIC OFFERING OF 53,99,200 EQUITY SHARES OF FACE VALUE OF ₹ 10 EACH ("EQUITY SHARES") OF OUR COMPANY FOR CASH AT A PRICE OF ₹ 167 PER EQUITY SHARE (INCLUDING A SHARE PREMIUM OF ₹ 157 PER EQUITY SHARE) ("ISSUE PRICE") AGGREGATING UP TO ₹ 9,016.66 LAKHS (THE "ISSUE").

ANCHOR INVESTOR ISSUE PRICE: ₹ 167 PER EQUITY SHARE OF FACE VALUE OF ₹ 10 EACH
ISSUE PRICE: ₹ 167 PER EQUITY SHARE OF FACE VALUE OF ₹10 EACH
THE ISSUE PRICE IS 16.7 TIMES THE FACE VALUE OF THE EQUITY SHARES.

RISK TO INVESTORS

For details, please refer to Section titled "Risk Factors" on page 17 of the Prospectus

- 1. Segment and Geographical Concentration Risk:** Our broking segment contributes 64.78%, 68.90%, and 71.60% of our revenue for the Fiscals 2026, 2025 and 2024, respectively of which a significant portion is derived from a few geographical regions in which Gujarat contributes 93.74%, 93.30% and 93.53%, respectively. Our income from broking and related services in the Fiscals 2026, 2025 and 2024, are set out below:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue (in ₹ lakhs)	% of revenue from operations	Revenue (in ₹ lakhs)	% of revenue from operations	Revenue (in ₹ lakhs)	% of revenue from operations
Broking Segment	4,630.20	64.78	6,491.13	68.85	5,570.20	71.57
Other	2,517.47	35.22	2,936.26	31.15	2,212.16	28.43
Total	7,147.67	100.00	9,427.39	100.00	7,782.36	100.00

The contribution of our western Indian operations as a percentage of our total revenue from operations of our Company for Fiscals 2026, 2025 and 2024, expressed in both absolute terms and as a percentage is as below:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue (in ₹ lakhs)	% of revenue from operations	Revenue (in ₹ lakhs)	% of revenue from operations	Revenue (in ₹ lakhs)	% of revenue from operations
Gujarat	4,340.21	93.74	6,056.24	93.30	5,210.13	93.53
Maharashtra	167.24	3.61	283.44	4.37	234.30	4.21
Others	122.75	2.65	151.45	2.33	125.77	2.26
Total	4,630.20	100.00	6,491.13	100.00	5,570.20	100.00

- 2. Regulatory compliance risk:** We have a diversified range of operations and our business activities are subject to extensive supervision and regulation by the Government and various statutory and regulatory authorities, in particular, SEBI, MCX, AMFI, APMI, NSDL and the Stock Exchanges, and any non-compliance or adverse changes in the regulatory framework may adversely affect our business and financial condition. During the past three financial years, we have received certain regulatory observations and inspection findings, including from SEBI and NSE. Pursuant to SEBI inspection relating to upstreaming and downstreaming of client funds, we received an adjudication order dated February 11, 2026 imposing a penalty of ₹ 4,00,000. Further, NSE imposed penalties of ₹ 37,500 and ₹ 1,000 pursuant to inspection observations dated January 22, 2025 and July 08, 2026, respectively. Any future regulatory action, penalties, suspension or cancellation of registrations may materially and adversely affect our business, reputation, results of operations and financial condition.
- 3. Dependence on Authorised Persons:** We rely heavily on our network of Authorised Persons associated with us. Loss of a significant number of Authorised Persons, or failure to expand our network of Authorised Persons may have an adverse impact on our business, results of operations and financial conditions. Further, we could be liable for the lapses of our Authorised Persons. Set out in the table below are our aggregate revenues from our Broking business, the aggregate revenues generated through Authorised Persons and brokerage sharing expense paid to Authorised Persons in the Fiscal 2026, Fiscal 2025 and Fiscal 2024, in accordance with our Restated Consolidated Financial Information:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue (in ₹ lakhs)	% of revenue from operations	Revenue (in ₹ lakhs)	% of revenue from operations	Revenue (in ₹ lakhs)	% of revenue from operations
Aggregate revenue from Broking Segment	4,630.20	64.78	6,491.13	68.85	5,570.20	71.57
Revenue generated from Authorised Persons	3,853.09	53.91	5,104.39	54.14	4,541.55	58.36
Brokerage sharing expense	2,599.32	36.37	3,463.18	36.74	3,078.94	39.56

- 4. Risk relating to licenses, registrations and approvals:** Our business is subject to various statutory and regulatory requirements, including obtaining and maintaining requisite licenses, approvals and registrations. Any failure or delay in obtaining, renewing or maintaining such approvals may result in penalties, suspension or cancellation of registrations. We have received regulatory observations from SEBI regarding non-compliance with Investment Adviser regulations and subsequently decided not to renew and surrender its Investment Adviser registration. Any similar regulatory action in future may adversely affect our business, operations and financial condition.
- 5. Dependence on stock exchanges and regulatory compliance:** Our Broking Segment relies on the Indian exchanges, including NSE, NSEIX, BSE, MCX and MSEI, and the clearing corporations to execute and settle all our clients' transactions. Our clients trading systems are connected to the exchanges and all orders placed by our clients are routed and executed through the exchanges. To use the services of the exchanges, we are required to be registered as their members. Failure to comply with such regulations could lead to fines, penalties, suspension of our registrations, and in extreme circumstances, termination of our registration. If our registration with the exchanges is terminated, we will be unable to provide brokerage services, which will have a material adverse effect on our business, financial condition and results of operations.
- 6. Client acquisition and retention risk:** Our continued success and growth will be dependent on our ability to retain and grow our client base and network of Authorised Person and relationship managers. Failure to retain and augment our client base could have a material adverse effect on our business, financial condition and growth prospects.

The table below sets out the breakup of active clients between our own branches and through Authorised persons for the periods indicated

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Branches and Head Office			
Total number of Active Clients	10,559	10,341	9,363
Revenue from Broking Segment (₹ in lakhs)	777.11	1,386.74	1,028.65
ARPC (in ₹)	7,359.69	13,410.11	10,986.25
Authorised Persons			
Total number of Active Clients	27,630	27,473	26,172
Revenue from Broking Segment (₹ in lakhs)	3,853.09	5,104.39	4,541.55
ARPC (in ₹)	13,945.31	18,579.67	17,352.72

Our ability to retain and expand our client base depends on providing consistent, customized and competitive services through our team. Any failure to meet client expectations or resolve investor grievances could materially adversely affect our business, financial condition and growth prospects.

- 7. Working capital risk:** Our business operations require significant working capital, and any failure to arrange adequate working capital may adversely affect our business and financial condition. Our net working capital increased from ₹ 3,962.58 lakhs as at March 31, 2024 to ₹ 6,340.93 lakhs as at March 31, 2026. We meet our working capital requirements through internal accruals and working capital facilities from banks and other lenders. We also intend to utilise a portion of the Net Proceeds towards working capital requirements. We cannot assure you that we will continue to generate sufficient internal accruals and, or, be able to raise adequate working capital from lenders to address our future needs. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial condition.

- 8. Risk relating to Intellectual Property Rights:** We have applied for registrations of certain intellectual property rights and any failure to enforce our rights could have an adverse effect on our business prospects. Further, we may not have adequate mechanisms in place to protect our confidential information. In addition, we may become subject to claims by third parties if we use slogans, names, designs, software or other such subjects in breach of any intellectual property rights registered by such third party. While there have been no such instances in the past, any legal proceedings pursuant to such claims, or settlements thereunder, may divert management attention and require us to pay financial compensation to such third parties, as well as compel us to change our marketing strategies or brand names of our products and services, which could adversely affect our business, prospects, results of operation and financial condition.

- 9. Negative operating cash flows:** The following table sets forth certain information relating to our cash flows on a consolidated basis for the periods indicated.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net cash flow from/(used in) operating activities	(1,970.37)	(3,186.22)	11,019.42
Net cash used in investing activities	(994.23)	(1,123.27)	(152.17)
Net cash generated from / (used in) financing activities	882.62	(186.35)	(697.95)
Net increase/(decrease) in cash and cash equivalents	(2,081.98)	(4,495.84)	10,169.30
Cash and cash equivalents at the beginning of the period/year	8,511.14	13,006.98	2,837.68
Cash and cash equivalents at the end of the period/year	6,429.16	8,511.14	13,006.98

We may experience negative cash flows from operating activities in the future due to working capital requirements arising from growth in our business, MTF book, client debit balances and changes in trade payables. Sustained or significant negative cash flows could adversely affect our liquidity, business, financial performance, results of operations and ability to implement our growth plans.

- 10. Risk relating to interest rate:** Interest rates are highly sensitive and fluctuate based on many factors which are beyond our control, including the monetary policies of the RBI, de-regulation of the financial services sector in India, domestic as well as international economic and political conditions, inflation and other factors.

Our finance costs in the Fiscals 2026, 2025 and 2024, are set out below.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Finance costs (₹ lakhs)	235.49	246.08	90.98
Finance costs as a % of revenue from operations	3.29	2.61	1.17

Further, we charge interest at a fixed rate in our MTF business, which generated revenues of ₹ 222.58 lakhs in Fiscal 2026. Any volatility resulting in an increase in interest rates may adversely affect our business due to, amongst others, reducing profitability margin on our financing products. If we are unable to effectively manage our interest rate risks, it could have an adverse effect on our business prospects, financial condition and results of operations.

- 11. The weighted average return on net worth for last three fiscal years on consolidated basis is 10.30 %**
12. The Price to earnings ratio based on Basic and Diluted EPS for Fiscal 2026 for our company at the upper end of the price band is 19.93 times respectively. The average industry peer group Price to earnings ratio is 18.35
13. The details of Revenue from operations, Price/Earnings, Earnings per share, Return on Net Worth, Net Asset Value Per Equity Share for our Company and Listed industry peer are as follows:

Name of the company	Face Value (₹)	Current Market Price (₹)	Basic EPS (₹)	Diluted EPS (₹)	P/E Ratio (Basic EPS)	P/E Ratio (Diluted EPS)	RoNW (%)	NAV per Equity Share (₹)	Revenue from operations (₹ in Lakhs)
Shah Investor's Home Limited	10.00	167	8.38	8.38	19.93	19.93	7.35%	114.07	7147.67
Peer Group									
SMC Global Securities Limited	2.00	79.28	4.87	4.87	16.28	16.28	7.82%	62.27	1,87,692.27
Share India Securities Limited	2.00	172.71	14.79	14.76	11.68	11.70	12.28%	120.41	1,47,025.58
Arihant Capital Markets Limited	1.00	77.74	2.87	2.87	27.09	27.09	7.13%	40.23	20,583.99

Notes:

- 1.** Basic EPS and Diluted EPS refer to the Basic EPS and Diluted EPS sourced from the financial statements of the respective company.
2. P/E Ratio has been computed based on the closing market price of equity shares on NSE on August 31, 2026 divided by the Basic/Diluted EPS provided.
3. Return on Net Worth for equity shareholders (%) (RONW) = Profit for the year attributable to the equity shareholders of our Company divided by total net worth.
4. Net Worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.
5. For listed peers, NAV is computed as equity attributable to owners (total equity) divided by the number of equity shares outstanding at the end of the year.

14. Average cost of acquisition of Equity Shares of our Promoters

The average cost of acquisition per Equity Share of the Equity Shares held by our Promoters, as at the date of the Prospectus, is set forth below:

Particulars	Number of Equity Shares	Average cost of acquisition per Equity Share ⁵ (₹)
Promoters:		
Upendra Trikamlal Shah	65,51,300	4.11
Purnima Upendra Shah	40,10,200	2.39
Tanmay Upendra Shah	26,51,800	0.65
Trupti Utpal Shah	9,00,100	2.51

Note: In cases of transfers where the cost of acquisition cannot be ascertained or traced with reasonable certainty, the cost has been deemed to be Nil for the purposes of this determination. For further information, please see the note to "Capital Structure – Details of shareholding of our Promoters, members of the Promoter Group, Directors, Key Managerial Personnel and Senior Managerial Personnel in our Company – Shareholding of our Promoters and member of our Promoter Group" on page 261 of the Prospectus.

⁵As certified by the Independent Chartered Accountant, Dhruvil A. Shah & Co., Chartered Accountants (FRN: 145163W) by way of their certificate dated September 22, 2026

Continued on next page...

...Continued from previous page.

15. Weighted average cost of acquisition of all shares transacted in the three years, 18 months and one year preceding the date of the Prospectus:

Particulars	Weighted average cost of acquisition per Equity Share (in ₹)	Cap Price is 'x' times the weighted average cost of acquisition	Range of acquisition price per Equity Share: lowest price – highest price (in ₹)
Last three years preceding the date of the Prospectus	Nil	NA	Nil
Last 18 months preceding the date of the Prospectus	NA	NA	NA
Last one year preceding the date of the Prospectus	NA	NA	NA

**Inter-promoter share transfers were affected at nil consideration, resulting in changes to individual promoter holdings. Notwithstanding these changes, the aggregate weighted-average cost of the transfers remains nil.

As certified by the Independent Chartered Accountant, Dhrumil A. Shah & Co., Chartered Accountants (FRN: 145163W) by way of their certificate dated September 22, 2026

BID/ ISSUE PERIOD

ANCHOR INVESTOR BIDDING DATE: Friday, September 25, 2026

BID/ ISSUE OPENS ON: Monday, September 28, 2026

BID/ ISSUE CLOSES ON: Wednesday, September 30, 2026

This was an Issue in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957 SRCC, as amended, read with Regulation 32(1) of the SEBI ICDR Regulations. The Issue was made through the Book Building Process in terms of Regulation 6 (1) of the SEBI ICDR Regulations, wherein not more than 50% of the Issue were available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs and such portion, the "QIB Portion"), provided that our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations ("Anchor Investor Portion"), of which 40% of the Anchor Investor Portion were reserved as follows: (i) 33.33% were reserved for domestic Mutual Funds; and (ii) 6.67% were reserved for life insurance companies registered with the Insurance Regulatory and Development Authority of India under the provisions of the Insurance Act, 1938 and pension funds registered with the pension fund regulatory and development authority under the provisions of the Pension Fund Regulatory and Development Authority Act, 2013, subject to valid Bids being received from domestic mutual funds, life insurance companies and pension funds at or above the Anchor Investor Allocation Price. Any undersubscription in the reserved category for life insurance companies and pension funds may be allocated to the domestic Mutual Funds. In the event of undersubscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares were added to the remaining QIB Portion (other than Anchor Investor Portion) ("Net QIB Portion"). Further, 5% of the Net QIB Portion were available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion were available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Issue were available for allocation to Non-Institutional Bidders ("Non-Institutional Portion") (of which one third of the Non-Institutional Portion were reserved for Bidders with an application size between ₹ 2.00 lakhs up to ₹ 10.00 lakhs and two-thirds of the Non-Institutional Portion were reserved for Bidders with an application size exceeding ₹ 10.00 lakhs) and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other subcategory of Non-Institutional Portion, subject to valid Bids being received at or above the Issue Price and not less than 35% of the Issue were available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. All potential Bidders (except Anchor Investors) are mandatorily required to participate in the Issue through the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective ASBA accounts and UPI ID in case of UPI Bidders using the UPI Mechanism, as applicable, pursuant to which their corresponding Bid Amount will be blocked by the Self Certified Syndicate Banks ("SCSBs") or by the Sponsor Bank under the UPI Mechanism, as the case may be, to the extent of the respective Bid Amounts. Anchor Investors are not permitted to participate in the Issue through the ASBA Process. For further details, see "Issue Procedure" on page 639 of the Prospectus.

The bidding for Anchor Investor opened and closed on Friday, September 25, 2026. The Company received 04 Anchor Investor Application Forms from 04 Anchor Investors for 23,95,300 Equity Shares. Such 04 Anchor Investors through 04 Anchor Investor Application Forms were allocated 16,19,760 Equity Shares at a price of ₹ 167 per Equity Share under the Anchor Investor Portion, aggregating to ₹ 27,04,99,920.

The Issue received 4,20,310 applications for 14,66,54,070 Equity Shares (prior to rejections) resulting in 27.16 times subscription. The details of the applications received in the Issue from various categories are as under (before rejections):

SR NO	CATEGORY	NO. OF APPLICATIONS RECEIVED	NO. OF EQUITY SHARES APPLIED	NO. OF EQUITY SHARES RESERVED AS PER PROSPECTUS	NO OF TIMES SUBSCRIPTION	AMOUNT

TERMS AND CONDITIONS OF THE E-AUCTION

- E-Auction is being held on "as is where is" and "whatever there is Basis" and will be conducted "On Line". The interested bidders are required to register themselves with the portal and obtain login ID and Password well in advance, which is mandatory for e-bidding. The auction will be conducted through the Bank's approved service provider M/s Foreclosure India (Contact No. 040-2376405 and 8142000735 Mob. No: 814200064, Back End Office: 8142000066/63/62, their web portal <https://bankauctons.in>. Prospective bidders may avail online training on e-auction online from their registered mobile number only.
- E-auction tender document containing online e-auction bid form, Declaration, General Terms and Conditions of online auction sale are available in <https://bankauctons.in>. Online E-auction participation is mandatory in the auction process by making application in prescribed format which is available along-with the offer/tender document on the website.
- Notice is hereby given to the public in general, the borrowers & guarantors in particular by the Authorized Officer that the under mentioned property is equitably mortgaged to DCB Bank limited and DCB Bank has taken possession under the provisions of Securitisation and Reconstruction of Financial Assets & Enforcement of Security Interest Act, 2002 and the subjected property will be sold in E auction for recovery of the amount as mentioned herein.
- To the best of knowledge and information of the Authorized Officer, there is no other encumbrance on the property other than the one mentioned above. However, the intending bidders should make their own independent inquiries regarding the encumbrance, title of the properties put on auction and claims/ rights/ dues/ affecting the property, prior to submitting their bid. The e-Auction advertisement does not constitute and will be deemed to constitute any commitment or any representation of the bank. The property is being sold with all the existing and future encumbrances whether known or unknown to the Bank. The authorized Officer/ Secured creditor shall not be responsible in any way for any third party claims/rights/dues.
- The EMD is refundable without any interest if the bid is not successful. The undersigned reserve the rights to accept or reject any or all the offers or adjourn / postpone the sale without assigning any reason thereof. If the offer is accepted, the purchaser will have to deposit 25% (less EMD Amount) of the sale price immediately on the auction day and if the purchaser fails to deposit the same, the amount deposited towards earnest money shall be forfeited and the property shall forthwith be sold again. The balance amount of purchase price shall be payable on or before the 15th day of confirmation of sale and in default of payment within the stipulated period, the deposit towards earnest money will be forfeited and property will be re-sold. Any other statutory dues/ taxes/ stamp duty/ registration fee/ transfer fee have to be borne by the buyer separately.
- The sale shall be subject to rules/ conditions prescribed under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002. Bidders are advised to check detailed terms and conditions of auction sale before submitting their bids refer to the link <https://www.dcb.bank.in/cms/showpage/page/customer-corner>.
- The Borrower / Co-borrower / Guarantor / Mortgagee may treat this as 15 days sale notice. The Borrower(s) are hereby given a last & final opportunity to discharge their liability in full as stated above within 15 days (as per the new amendment) from the date of this Sale notice and reclaim the Secured immovable assets failing which, the Secured asset shall be sold as per the terms and conditions mentioned above. This is without prejudice to any other rights available to the Bank under the subject Act or any other law.
