## SCORECARD MAY TOUCH \$50 BILLION THIS WEEK

# FCNR window may close early as inflows surge

PRASANTA SAHU  
New Delhi, August 9

THE RESERVE BANK of India's (RBI) special window, which offers high tax-free returns on dollar deposits of non-resident Indians, may close well before the scheduled deadline of September 30 as robust inflows have started raising concerns about 'reversal risks', official sources told *FE*.

"Nobody expected this volume of inflows in such a short time," one of the sources said, adding that inflows under the special foreign currency non-resident (bank) {FCNR(B)} window might touch \$50 billion this week. The sources indicated that the government and the RBI may discuss closing the window once inflows reach around \$50 billion.

The scale of the response has shifted the policy debate from whether the scheme

### DOLLAR GAINS

■ RBI-govt may discuss closing the window once inflows reach

**\$50 billion**

■ The concern is that it could lead to higher foreign currency liabilities

■ In 2013, a similar FCNR(B) drive yielded around \$26 billion

■ The Centre and the central bank, however, would retain the option to reopen such schemes

■ The RBI package was designed to make FCNR(B) deposits more attractive by removing interest-rate caps

would work to how soon it should be switched off, they added.

The government and RBI, however, would retain the option to reopen such schemes if external shocks exert fresh pressure on the rupee, the sources said. The concern is that the chances of much

higher inflows if the window is kept open for another 40 days could potentially result in foreign currency liabilities that are difficult to manage as these deposits mature.

According to official data, between June 23, when inflows started trickling in, and August 6, FCNR(B) deposits accounted

for \$42.78 billion of the \$47 billion mobilised through the new swap facility, with another \$1.5 billion coming through external commercial borrowings (ECBs) and \$2.8 billion through overseas foreign-currency borrowings (OFCBs).

# Q-comm's private label share doubles

ANEES HUSSAIN  
Bengaluru, August 9

PRIVATE LABELS ARE gaining ground in the quick-commerce market with their share of sales rising to 12-16% from 6-8% in early 2025, as platforms are looking to improve margins and gain greater control over pricing, availability and customer retention, according to industry estimates.

The shift is being led by staples, where platforms are building their own brands, while newer labels in premium snacks, beverages and fresh produce are expanding the private-label play beyond commodities.

Tata-owned BigBasket remains the benchmark, with its private labels accounting for around 35% of revenue. Its portfolio includes BB Popular and BB

### STAPLE BET

■ BigBasket remains the benchmark, with its private labels around 35% of the revenue share

■ Among quick-commerce platforms, Swiggy's Instamart has emerged as the most aggressive

■ Private labels in staples earn margins of 15-25%, roughly twice those on third-party brands

Royal in staples, BB Home in home care and Fresho in fresh produce. Among quick-commerce platforms, Swiggy's Instamart has emerged as the most aggressive, followed by Zepto and Eternal's Blinkit.

Instamart's Supreme Har-

vest, launched in 2022, now accounts for 22-25% of staples sold on the platform, up from about 18% a year ago, according to e-commerce analytics firm 1digitalstack.ai.

# FDI limit for CCEA nod to treble to ₹15,000 cr

MUKESH JAGOTA  
New Delhi, August 9

IN A MOVE that will further liberalise foreign direct investment (FDI) inflows, the government is considering raising the threshold for large FDI projects requiring the approval of the Cabinet Committee on Economic Affairs (CCEA) from ₹5,000 crore at present to ₹15,000 crore.

Currently, all FDI applications that need government approval and involve investment of less than ₹5,000 crore can be approved by the ministry or department overseeing the sector concerned. For proposals of more than ₹5,000 crore, the competent authority places the application for consideration before the CCEA.

If the new proposal is implemented, ministries and departments will get power to approve investments up to ₹15,000 crore.

"Prevailing economic conditions, inflation, the growing scale of investments over the years, and the objective of promoting ease of doing business necessitate a review of the existing threshold," sources said.

The limit was last revised in March 2016 to ₹5,000 crore

### EASE OF INVESTING

■ If the new proposal is implemented, ministries and departments will get power to approve investments up to **₹15,000 crore**

■ Net FDI inflows, however, declined to less than **\$1 billion** in FY25 from a high of **\$44 billion** in FY21

Economists project net FDI inflows to rise to a four-year high of around **\$15 billion** in FY27

from ₹3,000 crore. Before 2010, all FDI proposals worth more than ₹600 crore went to CCEA for approval. In February 2010, it was raised to ₹1,200 crore, and then by April 2015 to ₹3,000 crore.

This liberalisation in limits was accompanied by abolition of Foreign Investment Promotion Board (FIPB) in May 2017.

This latest proposal follows a series of steps taken by the government to boost foreign investment inflows as the

rupee and current account came under pressure. While overseas debt raising has brought in substantial short-term funds, FDI will deliver long-term investments.

Last week, the government operationalised FDI in e-commerce for exports. It is also considering a proposal to exempt foreign companies from obtaining fresh approvals for downstream investments.

# Purchase of banks' bad loans spikes 50% in Q1

MANJU AB  
Mumbai, August 9

ASSET RECONSTRUCTION COMPANIES (ARCs) acquired bad loans worth ₹26,304 crore from the banks in first quarter of FY27, compared to ₹16,876 crore during the same time last year.

The over 50% y-o-y rise in purchases of non-performing loans, in the normally lean June quarter, indicates a positive signal that more transactions are taking place in the stressed assets space as resolutions are accelerating.

The purchase order during

**CLEAN-UP ACT**  
■ ARCIL was one of the most active players in Q1, having acquired **₹3K-cr** bad loans

the June 2026 quarter included ₹17,942 crore of corporate loans and ₹8,362 crore of retail loans. In the year-ago quarter, ARCs had bought ₹10,250 crore

of corporate loans and ₹6,626 crore of retail assets.

"Despite headline NPA ratio of the banking system coming down from 2.8% in FY24 to 1.8% in FY26, acquisition of NPAs by ARCs continues to grow. This is because sale to ARCs not only comes from headline NPAs, but also from technical and prudential written off account, not appearing in balance sheet of banks, which are almost double the amount of NPAs," said Hari Hara Mishra, CEO, Association of ARCs in India.

# Car firms rev up for festival rush with slew of launches

AKBAR MERCHANT  
Mumbai, August 9

STRONG RETAIL GROWTH is leading automakers to enter the festive season with one of their most aggressive product refresh cycles, with Mahindra & Mahindra, Maruti Suzuki, Hyundai, Tata Motors and others lining up new models and facelifts across SUVs, electric vehicles and premium cars.

Mahindra & Mahindra is expected to be among the most active players. After refreshing the Scorpio N with feature upgrades, the company is likely to update the three-door Thar, which has seen softer demand following the launch of the Thar Roxx. Its BE6 electric SUV is also expected to get a model-year refresh, including additional features and a triple-screen dashboard layout.

Maruti Suzuki, meanwhile, is preparing facelifts of two of its key volume models, the Baleno and Fronx. The Baleno facelift is expected in early September, followed by the updated Fronx. The company is also working on a three-row electric MPV, as it is looking to strengthen its presence in both the SUV and electric vehicle segments.

Hyundai is readying an all-new mid-size SUV to sit between the Venue and Creta, giving it another offering in one of the fastest-growing segments of the market. The model is expected to come with petrol and petrol-CNG powertrains, with a diesel option

### HOT WHEELS

■ Maruti Suzuki is preparing facelifts of two of its key volume models, the Baleno and Fronx

■ M&M will come out with upgraded Scorpio N, the three-door Thar & electric SUV BE6

■ Hyundai is readying an all-new mid-size SUV to sit between the Venue and Creta

also being considered.

Tata Motors is preparing a comprehensive refresh of the Tigor, covering its exterior, interior and features, with a similar update expected for the Tigor EV. The company is also gearing up to launch the Safari EV, which will compete with Mahindra's XEV 9S in the premium electric SUV segment. Toyota is expected to bring a mid-life update to the Innova Hycross in the coming months, while JSW MG Motor India is preparing a new three-row SUV, expected by late August and likely to be called Hector Hawk.

# Beyond Skyroot, funding remains a challenge

S SHANTHI  
Bengaluru, August 9

SKYROOT AEROSPACE'S SUCCESSFUL Vikram-1 launch has boosted confidence in India's private spacetechnology industry but investors and founders say the bigger challenge now is ensuring the milestone translates into funding for a wider pool of startups rather than remaining concentrated among a few market leaders.

The orbital mission, which saw the launch of a privately built rocket for the first time, is

being seen as a validation of the country's private space capabilities after years of technology development and policy reforms. Venture capital investors expect the achievement to improve sentiment towards the sector, although they caution that growth capital continues to be scarce for companies attempting to scale.

"Skyroot has become the poster child. Several more spacetechnology companies will get funded because two young scientists proved it could be done 100% indigenously, at a fraction of global capex, in record

time," Vikas Choudhury, founding partner at Playbook Partners, told *FE*.

The optimism, however, masks a highly uneven funding landscape. According to Tracxn, India's spacetechnology ecosystem has raised about \$871 million across 241 funding rounds till July 2026. Yet more than half the funding raised during 2025 and 2026 went to just five startups: Skyroot Aerospace, Digantara, EtherealX, Bellatrix Aerospace and AgniKul Cosmos.

Continued on Page 11

### MONEY MATTERS

■ India's spacetechnology ecosystem has raised about **\$871 million** across 241 funding rounds till July 2026

■ More than half the funding raised during 2025 and 2026 went to just five startups including Skyroot

■ Of the **334 spacetechnology** startups in India, only **106** have secured institutional funding

■ Experts say the shortage is no longer at the seed stage, where investor interest has improved but at growth stage

## INDIA HAS ATTRACTED THE MEGA PROJECTS; THE BIGGER CHALLENGE IS THE LOCAL SUPPLIER ECOSYSTEM

# The missing manufacturing middle

VIVEAT SUSAN PINTO/  
NANDINI OZA/OJASVI GUPTA/V NARAYANAN  
Mumbai/Ahmedabad/New Delhi/Chennai, August 9

INDIA'S MANUFACTURING AMBITIONS are getting bigger. Semiconductor fabs, battery gigafactories, electronics plants, data centres and renewable-energy projects are drawing billions of dollars in investment. But between these large anchor projects and India's millions of small manufacturers lies a much thinner layer of companies capable of supplying the sophisticated components, machinery, tooling and engineering systems they need.

That is emerging as the

### THE GAP BENEATH THE MEGA-PROJECTS

■ Over 99% of registered enterprises are micro, while medium enterprises account for less than 0.05%

■ Mega projects need a deep domestic supplier base spanning precision components, machinery, cooling systems etc

■ Data centres, semiconductors, EVs and renewable energy are opening new opportunities for established manufacturers

missing middle in India's manufacturing push.

The imbalance is stark. Of the 92.4 million enterprises registered on the government's Udyam and Udyam

Assist platforms as of August 9, 91.9 million were micro enterprises, 541,000 were small and just 41,751 were medium enterprises, according to the Ministry of MSME's real-time

dashboard.

More than 99% of registered enterprises are therefore micro, while medium enterprises account for less than 0.05%—roughly 2,200 micro

■ The bigger prize is not just attracting mega factories, but building competitive domestic companies around them that can supply more of their machinery & components needs

# Companies

## IN THE NEWS

### DGCA RECORDS 889 TECH ISSUES LAST YEAR

AVIATION WATCHDOG DGCA recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data. The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. The minister was responding to queries by Congress member Shyamkumar Daulat Barve. According to Mohol, the Directorate General of Civil Aviation (DGCA) has laid down Civil Aviation Requirements (CARs), safety advisories, directives and other regulatory instructions to ensure safe aircraft operations.

### Dixon Tech-Vivo JV transaction to be done in 2 mths

DIXON TECH EXPECTS to complete the transaction of a new joint venture with Chinese smartphone firm Vivo in two months, and its revenue will start reflecting in its balance sheet from the October-December quarter, a senior company official has said.

### Titan sees positive momentum in July, says MD

THE GROWTH MOMENTUM witnessed in the first quarter of the current fiscal has continued in July, Titan Managing Director Ajoy Chawla said, adding that the company is on course to deliver the improvement targets after a strong start this fiscal year.

### Premiumisation lifts liquor firms' June qtr top line

PREMIUMISATION EMERGED AS the key growth driver for India's alcoholic beverages industry in first quarter of 2026-27, helping major spirit makers expand revenue even as several players saw profit squeezed by elevated input costs.

AGENCIES

## GROUP HOLDINGS TRIGGER LEGAL DEBATE

# 'Public funds' test key to Tata Sons deregistration

URVI MALVANIA  
Mumbai, August 9

THE RESERVE BANK of India's (RBI) criterion covering "indirect access to public funds" has emerged as a key issue in Tata Sons' pending application to surrender its registration as a core investment company (CIC). Legal experts, however, differ on whether equity investments by Tata group companies that have access to public funds would bring the holding company within the scope of the rule.

Tata Sons applied to surrender its CIC registration after repaying all outstanding debt. If the RBI accepts the application, the holding company could avoid the listing requirement applicable to upper-layer NBFCs. If the application is rejected, Tata Sons may have to pursue a listing.

One interpretation is that the public-funds criterion is primarily intended to cover funds that a CIC is obliged to repay, such as bank loans, debentures, inter-corporate deposits and public deposits, where tighter regulation is required to safeguard public money.

Group companies like Tata Steel and Tata Consumer Products Limited (TCPL), which have access to such fund-raising instruments, also hold varying degrees of stake in Tata Sons.

"Tata Sons is not expected to return the equity investment as a fixed income or

## INDIRECT ACCESS

■ Experts say equity investments fall outside RBI's definition of public funds

■ The criterion is intended to cover borrowings and other funds that a CIC is required to repay

■ Owning shares in a company does not make an investor personally liable for that company's debts

■ In Govern says Tata group cross-holdings give Tata Sons indirect access to public funds

floating rate security generally covered under the definition; and accordingly, it may be argued that despite the group companies mentioned above having access to 'public funds', the obligation to undertake compliances to secure repayment of such 'public funds' does not extend by way of an equity investment to Tata Sons," said Kaushik Mukherjee, partner at CMS INDUSLAW.

He also pointed to cross-holdings within the Tata group, arguing that a broader interpretation could create an inconsistency: listed operating companies are not subject to NBFC regulations merely because they raise public funds, but their downstream equity investments could potentially bring Tata Sons within that framework.

Another legal expert said

the distinction between the letter and the intent of the rule would be important. "One needs to separate letter and intent/spirit when interpreting the criteria. The question is whether the 'spirit' of the rule is to capture the ultimate beneficiary of public funds, even if the legal chain of ownership separates it from the actual borrowing," the expert said. Experts also pointed to the principle of the corporate veil in considering the RBI's criteria. "Owning shares in a company does not make an investor personally liable for its debts. Otherwise, every shareholder of a bankrupt listed company would be expected to repay its creditors," one expert said.

Another expert said the criterion could also be examined from a threshold perspective. Tata group companies collec-

tively hold around 13% in Tata Sons, while individual group companies hold no more than about 3%, the expert noted.

There is, however, an opposing view that the indirect-access criterion could weigh against Tata Sons' deregistration application. In Govern, in a report, argued that the RBI's clarification adopts a "look-through" approach, under which funds received through associates and group companies that have access to public funds should also be treated as indirect public funds.

The report contends that listed Tata group companies collectively hold around 13-14% in Tata Sons, creating a structural linkage to public funds that remains even after the holding company's stand-alone deleveraging.

## Hyundai sees exports staging recovery from Q2: MD & CEO

HYUNDAI MOTOR INDIA expects a strong recovery of its exports volumes from the second quarter of the ongoing fiscal year on the back of continued robust demand and a healthy order backlog across key markets, according to its Managing Director and CEO Tarun Gang.

In the first quarter, the firm had witnessed a decline in its exports impacted by the West Asia war and temporary production disruption due to a fire incident at one of its suppliers, Mobis.

The company's exports were down 19.6% at 38,708 units in Q1 FY27 as compared to 48,140 units in the corresponding period last fiscal.

"The US-Iran conflict, which started towards the end of last financial year, continued to impact our West Asia exports during Q1 FY27. Further, export volumes were also affected by the temporary production disruption in June," Garg told analysts.

—PTI

# Why Indian IT sector is bucking the AI sell-off

POULOMI CHATTERJEE  
Bengaluru, August 9

THE RECENT CORRECTION in global AI-linked technology stocks largely spared Indian IT companies, thus signalling a shift in investor sentiment.

Rather than viewing AI solely as a threat to the services sector, markets are beginning to recognise that enterprise AI adoption is likely to be slower and more services-intensive than initially expected. According to analysts, this may have created fresh opportunities for IT firms in consulting, integration and governance.

"The movement clearly demonstrated that while investors are mainly rotating out of crowded AI trades, they may have become too pessimistic about the services sector," Phil Fersht, founder and CEO of HFS Research, told Fe.

Analysts said that the recent rally should not be interpreted as the start of a broad-based revival for the IT services sector. Instead, it should be viewed as a recalibration of expectations after markets overestimated the pace of AI's disruption of traditional outsourcing. Enterprise adoption continues to be held back by data readiness, governance, integration and security challenges, leaving system integrators with a significant role to play.

"The Nifty IT index has seen an upward trend over the past month, recovering from its 52-week low in early July. While a month is too short a duration to call this a structural resurgence, it is definitely a step in the right direction for the sector," Saikat Banerjee, partner and leader of Bain & Company's

## SERVICES REBOUND

■ Indian IT stocks plunged by more than 30% in the first half of 2026 with the broader Nifty IT index facing severe corrections

■ In the past couple of weeks, the Nifty IT index has bounced back by 25% from the bottom

■ Enterprise adoption continues to be held back by data readiness, governance, integration and security challenges

■ Cognizant's latest results reinforced the view that companies demonstrating credible AI execution are likely to be rewarded

AI, insights and solutions practice in India, said.

Investors are also becoming more selective. Cognizant's latest quarterly results reinforced the view that companies demonstrating credible AI execution are likely to be rewarded over those relying on conventional services growth alone.

"The reaction to Cognizant's results is a good example of this, where the market rewarded improving execution and a more credible AI transformation story rather than simply another quarter of conventional services growth," Fersht said. "This is not Wall Street deciding that the old

model is healthy again. It is recognising that selected services firms can use the strengths of the old model to build the next one."

The next phase of AI spending is increasingly shifting from building large language models and infrastructure to integrating AI into enterprise operations, an area where IT services firms already have established client relationships.

Gaurav Parab, IT research analyst at NelsonHall, said leading companies are redesigning delivery models around AI, particularly in software testing, where AI agents are automating test generation, execution and defect analysis while engineers focus on governance and quality assurance. As these operating models mature, firms are expected to improve productivity and protect margins.

The scale of AI investment is also expected to create fresh demand for services. HFS Research estimates hyperscaler AI capital expenditure will reach \$700 billion in 2026, while nearly three-fourths of enterprises are replacing or planning to replace parts of traditional services with AI-led solutions. That is expected to drive spending on data modernisation, integration, governance and security, although it will also increase pressure on providers to pass on AI-led productivity gains through lower pricing and leaner delivery teams.

"The pivot that makes sense for the IT sector is consulting, helping large companies reorient their existing workflows and products to be AI-first," according to Sandeep Khomne, partner at Asterial Technologies.

# Airtel bets big on cloud biz

URVI MALVANIA  
Mumbai, August 9

BHARTI AIRTEL'S CLOUD business had 33 customers at the end of the June quarter after adding 11 new customers during the period, as the telecom operator continued to invest in scaling the business.

The company said the platform has received certifications from MeitY, among others, to strengthen its go-to-market proposition.

"We believe this business needs four things to really succeed - the right talent, capital that we have already invested, the go to market capabilities that we have, and the right solutions for continuing to build out what customers need. We are stepping up significant investments to continue to invest behind this to scale this," executive vice-

GOPAL VITTAL, EXECUTIVE VICE-CHAIRMAN, BHARTI AIRTEL

We believe this business needs four things -- the right talent, capital, the go-to-market capabilities and the right solutions

chairman Gopal Vittal said.

On a recent earnings call, the telco's management said that Airtel Cloud's defining proposition is its sovereign-by-design architecture, with data, infrastructure and control-plane operations hosted, managed and governed entirely in India.

Hosted on Airtel's next-generation data centres and

powered by its network, the platform offers infrastructure-as-a-service (IaaS), platform-as-a-service (PaaS), advanced connectivity and GenAI-based provisioning.

It was engineered to support workloads of up to 1.4 billion transactions per minute for Airtel's own operations before being extended to Indian businesses last year.

● RISHI BAL, CEO, BHARATGEN

# 'We can't build AI by borrowing the engine'

ASHUTOSH MISHRA  
New Delhi, August 9

THE PROTEIN STARTUP ecosystem is entering a more mature phase, with venture capital flowing to fewer but larger companies as investors have shifted focus from category creation to businesses that have demonstrated scale and consumer acceptance.

Data from market intelligence platform Tracxn shows protein-focused startups raised \$47 million across 11 funding rounds in the first half of 2026, nearly matching the \$49 million raised through 24 rounds during all of 2025.

While overall funding has remained broadly unchanged, the sharp drop in deal count suggests investors are concentrating capital behind a handful of companies with proven execution rather than backing a wide range of early-stage ventures.

The median funding round rose to \$1.67 million in H1 2026 from about \$464,000 in 2025, reflecting

## BIGGER BITE

the shift towards larger cheque sizes.

"Investors have now understood that real protein products are R&D businesses, not packaging businesses. Solving science and unit economics together takes patient, concentrated capital. That is why cheques are getting bigger and deals fewer," Prashant Pitti, co-founder of protein brand MILLD, said.

A year after its launch as India's first government-backed sovereign AI initiative, BharatGen has secured more than ₹900 crore in funding from the Ministry of Electronics and Information Technology (MeitY). As the debate around AI sovereignty gains momentum, BharatGen CEO Rishi Bal tells Poulomi Chatterjee why India needs to build foundational AI capabilities from the ground up, the challenges of doing so in a price-sensitive market and what lies ahead for the initiative. Excerpts:

Funding and compute have been major constraints for India in building foundational AI models. How has the progress been?

When we started a couple of years ago, we were among the first startups to get access to GPUs. Gradually, the conversation moved from hundreds of GPUs to thousands. I am similarly

optimistic about our funding trajectory, but we need patience. There is a lot of pressure to get things done yesterday, which can lead to short-term optimisation instead of long-term structural investment.

We need deep investment in research, publications, data and people with experience. There are many building blocks that go into an AI model. If the model is the visible part of the iceberg, everything underneath is what makes it possible.

Why should India build AI models from the ground up when advanced open models such as Kimi-K3 can be replicated through distillation much faster?

It depends on the horizon. If you are looking at

six months or a year, you will optimise differently. But if the goal is to make India genuinely competitive in AI over five years, we have to build structurally. If you don't build the technology from the ground up, you don't fully understand how it works. There is also capability building around data, people and long-term viability.

ity. It is like wanting to build an aircraft but buying the engines from elsewhere. It can be done, but it does not make you competitive in the long run.

There is also an issue of supply security. Today's open models could become tomorrow's closed models. If India wants control over how its AI works and behaves and wants a national capability, it is essential to build its own models.

What kind of demand are you seeing for BharatGen's models?

Demand has been very encouraging, with interest from enterprises as well as

MOST USE CASES INVOLVE ACCESSING LARGE DATASETS, PROCESSING AND CREATING DOCUMENTS

# Qualcomm bets on car-to-car safety technology in India

OJASVI GUPTA  
New Delhi, August 9

INDIA'S TRANSPORT AND infrastructure network gives Qualcomm an important opening to build vehicle-to-everything (V2X) safety technology directly into new roads, according to a senior company executive, as the chipmaker pushes to diversify beyond its traditional smartphone business.

"The cost of making highways capable of V2X is not very high. One can deploy the same technology in street-light and other road infrastructure, etc. So making it available, especially for new highways that are getting deployed, is very straightforward," Nakul Duggal, Qualcomm's Group General Manager for Automotive, Industrial & Embedded IoT said in an interaction with Fe.

He added the incremental cost is low because streetlights and other roadside infrastructure can carry the same connectivity already being added to new vehicles for over-the-air software updates.

V2X relies on the 5.9 GHz spectrum band, which is under contention on whether it should be kept open to encourage broader participation or be licensed to telecom operators.

Qualcomm said that it has invested in the technology for years, betting that non-line-of-sight safety systems have an edge over cameras or radar alone. The company is pursuing three variants- vehicle-to-vehicle, vehicle-to-infrastructure and vehicle-to-smartphone, with the latter one aimed at alerting drivers to pedestrians and cyclists, mainly near intersections, which Duggal said is a major site of traffic fatalities alongside high-speed blind spots.

Meanwhile, Trai had recently released a consultation paper putting in place a framework before deployment scale with the idea of avoiding fragmented standards and ensuring systems work across vehicles, cities and networks.

Duggal said that the rollout's pace depends on regulatory decisions, including how spectrum for the technology is allocated and whether it is treated as dedicated safety spectrum or shared, unlicensed capacity.

According to analysts, Qualcomm seeks to reduce its reliance on smartphones by expanding into automotive, industrial IoT alongside physical AI. While Duggal pushed back on the idea that Qualcomm's market position is eroding on the handset business, he attributed the recent softness to rising memory costs rather than lost share.

In the year-ago period, corporate SRs stood lower at ₹2,685 crore while retail SRs

## ROAD SAFETY

# Godrej Prop to generate ₹20,000 cr operating cash flow by 2028: Chairman

GODREJ PROPERTIES WILL generate more than ₹20,000 crore of operating cash flow during the current and next fiscal, enabling the company to continue investing in business expansion, its Executive Chairperson Pirojsha Godrej said.

In an interview with PTI, Pirojsha highlighted that the company's operational performance was quite strong in the June quarter with sales bookings rising 22% to ₹8,651 crore.

He noted that consistent sales growth is creating high visibility for both cash flows and earnings. "Actually, this was the sixth consecutive quarter where we had over ₹7,000 crore of sales booking value".

Pirojsha exuded confidence that the company is on track to meet or exceed guidance across all parameters -- sales bookings, launches, collections from customers and land acquisition.

The company is also on track to achieve the guidance of 20% ROE (return on equity) for the next financial year.

"In addition, we think the operating cash flow of the company, while a bit weak in Q1, is actually set to expand very rapidly. Between this quarter and Q4, FY28, so in the next seven quarters essentially, we expect operating cash flow of over ₹20,000 crore, which will create a huge amount of ability to continue to invest for growth, while also allowing us hopefully next year to be free cash flow positive," Pirojsha said.

**भारतीय रिज़र्व बैंक**

# Purchase of banks' bad loans spikes 50% in Q1

IN THE JUNE quarter of FY25, ARCs had bought ₹13,852 crore of stressed assets, data from the Association of ARCs showed.

According to a source, Asset Reconstruction Company (India) [ARCI], was one of the most active players in the market, having acquired around ₹3,000 crore of bad loans during the June quarter. Among the private banks, RBL was seen to have sold a pool of unsecured loans during the quarter.

"Public sector banks have been mainly putting up corporate and MSME loans for sale while the private sector lenders have been displaying retail stressed assets, particularly in the unsecured book of personal loans," said the head of an ARC who did not want to be identified.

With the current series of purchases, the total dues acquired by ARCs stands at ₹1.87 lakh crore as of 30 June 2026, up from ₹1.85 lakh crore in the preceding three months.

During the quarter, ARCs issued ₹5,348 of security receipts (SRs), up from ₹4,389 a year ago. Out of this, ₹3,648 crore came from corporate accounts and ₹1,701 crore was retail assets.

In the year-ago period, corporate SRs stood lower at ₹2,685 crore while retail SRs

were marginally higher at ₹1,703 crore. SRs represent the price paid by ARCs to acquire the assets.

The SR issues outstanding stood at ₹3.61 lakh crore in the June quarter compared to ₹3.56 lakh crore three months earlier.

Out of this, corporate SRs issued stood at ₹2.97 lakh crore (from ₹2.94 lakh crore) while retail was at ₹63,966 crore (from ₹62,265 crore).

Data showed that redemptions, or payoff to the investors holding SRs, increased to ₹11,519 crore from ₹7,723 crore in Q1FY26 and ₹6,310 crore in Q1FY25.

The outstanding SR redemptions were at ₹2.31 lakh crore, down from ₹2.19 lakh crore three months earlier.

# Iran: No direct US talks; 3rd party route on

THE IRANIAN FOREIGN Minister said some intermediary countries were still working to create the groundwork for renewed negotiations but maintained that Tehran would not return to direct talks with the US until Washington ends its violations of the 14-point memorandum of understanding signed between the two sides in June.

"Some intermediary countries are still trying to re-establish the ground for negotiations. In our opinion, there is no possibility of resuming negotiations until the US's violation of the Islamabad Memorandum of Understanding ends and the US makes up for what it has violated," the minister added.

Earlier on Saturday,

Araghchi said that the deal with Oman on a legal mechanism for managing traffic through the Strait of Hormuz is 'very close', but reopening the strategic waterway will be subject to additional conditions, including compensation from the US over the latter's violations of the memorandum.

**NOTICE**  
**SPECIAL WINDOW FOR TRANSFER AND DEMATERIALISATION (DEMAT) OF PHYSICAL SHARES**

Please note that a **Special Window for transfer and dematerialisation (demat) of physical shares** will remain open **up to February 04, 2027** as per SEBI Circular No. HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated January 30, 2026 ("SEBI Circular").

This facility is available to those investors who had **purchased physical shares of Reliance Industrial Infrastructure Limited ("the Company") prior to April 01, 2019**, and:

(a) had not lodged the shares for transfer; or  
(b) had lodged the shares for transfer, but the same were rejected, returned or not attended to due to deficiencies in documentation.

**Applicability of the Special Window**

For clarity regarding the applicability of this window to transfer the deeds executed before April 01, 2019, investors may refer to the matrix below:

| Lodged for transfer before April 01, 2019? | Is the Original Share Certificate available with the investor? | Whether eligible to lodge in the Special Window?        |
|--------------------------------------------|----------------------------------------------------------------|---------------------------------------------------------|
| No, it is fresh lodgement                  | Yes                                                            | Yes (subject to conditions stated in the SEBI Circular) |
| Yes, but was rejected/ returned earlier    | Yes                                                            |                                                         |
| Yes, was lodged                            | No                                                             | No                                                      |
| No, was not lodged                         | No                                                             | No                                                      |

**Kindly note that request(s) which are accompanied by original share certificate(s) along with transfer deed(s) and other supporting documents will only be considered under the Special Window.**

Investors wishing to avail this facility under Special Window may contact the Company's **Share Transfer Agent, KFin Technologies Limited** (Unit: Reliance Industrial Infrastructure Limited), having their address at Selenium Tower-B, Plot No. 31 & 32, Gachibowli, Financial District, Nanakramguda, Hyderabad - 500 032.

PREFERRED DESTINATION FOR SAFETY-FIRST INVESTORS

# More retail investors turn to government securities

● Investors are buying gilts to diversify portfolios

CHRISTINA TITUS  
Mumbai, August 9

THE RESERVE BANK of India's Retail Direct platform has continued to gain momentum with the number of accounts and secondary market trading volumes registering steady growth.

This suggests rising retail investor participation in government securities. Primary market subscriptions to instruments such as treasury bills, floating rate savings bonds, central and state gilts rose 38.2% year-on-year to ₹9,572.75 crore as on July 27. Total secondary market trading volume in these

## GAINING TRACTION

instruments jumped 163% to ₹11,003.75 crore while total holdings of the same instruments increased nearly 70% to ₹4,051.24 crore.

The number of accounts opened on the portal climbed about 31.2% year-on-year to 377,000 as of July 27, up from

287,000 a year earlier.

Mataprasad Pandey, vice-president of Arete Capital, said the platform is becoming the preferred destination for safety-first investors with risk assets underperforming and fixed deposit rates lagging.

Nikhil Aggarwal, founder

and group CEO of Grip Invest, said government securities provide stability and predictability. "The platform is gaining traction as sovereign-backed securities have no credit risk and deliver higher yields," he said. He added that many investors are turning to fixed-income assets to diversify and balance their portfolios. "Although fixed deposit rates fetched high interest rates earlier, subsequent rate cuts have reduced their appeal," Aggarwal said.

The Retail Direct platform was launched in November 2021 to encourage retail participation in gilts, T-bills, floating rate savings bonds, central and state government securities through primary and secondary markets. It also launched a systematic investment plan (SIP) route in August 2025 for treasury bills to participate in the government bond market.

# Banks beef up cybersecurity

CHRISTINA TITUS  
Mumbai, August 9

THE RECENT CYBERATTACK incident at Bank of Baroda has prompted banks to heighten vigilance and put in place preventive measures. They are upgrading systems to combat cyberattacks, system outages, data breaches, third-party vulnerabilities and emerging AI threats.

A senior official at a large public sector bank said the recent incident is a cause for concern. "To avoid such risks, we have disabled Webex storage access, and files can now be accessed only through authorised office systems."

But gaps remain. "While organisations have strengthened threat detection and identity controls, many still struggle to consistently govern sensitive data once it moves across employees, third-party providers, cloud platforms and AI tools," said Vishal Gauri, CEO

## TECH UPGRADE

- Reassessment of threat is mandatory as cybercriminals are innovating faster than banks
- Many entities struggle to consistently govern sensitive data since it moves frequently

of Seclore.

The BoB incident a week back saw nearly 1 TB of customer and corporate data allegedly being leaked on the dark web. The breach originated from an employee's email account, which resulted in unauthorised access. This marked the bank's second cybersecurity incident in three years.

In June, the Reserve Bank of India (RBI) proposed a new framework for the use of AI. The RBI urged banks to put in place proper governance, risk

management, and controls, along with continuous oversight. The regulator also proposed broad principles to manage risks from third-party models.

"More new services are being provided to customers. Therefore, the IT infrastructure is never stable, it constantly undergoes change, and it is bound to be vulnerable. Now, the major concern is Mythos, which has accelerated velocity of cybercrimes," Munjal Kamdar, partner, Deloitte India, said.

The shortage of skilled technology professionals is an issue. "India faces a severe shortage of cybersecurity talent. As Frontier AI security models such as 'Mythos' accelerate vulnerability exploitation, defence must also leverage AI - making a sovereign AI model increasingly important," Kamdar said.

According to data shared in the Rajya Sabha on Friday, CERT-In detected 349,000 incidents involving malicious scanning and probing and vulnerable services in the financial sector during January-June 2026. This figure stood at 570,000 in 2025.

Vivek Iyer, partner and financial services risk leader, Grant Thornton Bharat, said lenders are reassessing potential cyber-threats more frequently now than they used to do earlier. This is important since cybercriminals are innovating faster than banks, he said.

## Northern Arc plans to raise ₹11K cr this fiscal

KSHIPRA PETKAR  
Mumbai, August 9

NORTHERN ARC CAPITAL plans to raise ₹10,000-11,000 crore this financial year, compared with ₹8,000 crore raised last year, as the non-banking financial company looks to grow its lending business, Managing Director and CEO Ashish Mehrotra said.

The company expects its lending business to grow around 25% on a blended basis. The direct lending segment — consumer, MSME and rural — is expected to grow upward of 30% year-on-year. Mehrotra said growth would be measured as the firm does not want to risk underwriting errors by expanding the loan book by 40-50%.

"We have not raised too much via external commercial borrowing because the hedging cost was high. Should hedging costs stabilize that's another good route for us," he said.

According to him, the transmission of monetary policy has happened much faster through the NCD route, than through other borrowing channels. "If you look at the markets, there are two big moving parts — NCDs and AIFs — which are now sort of becoming a very powerful tool."

# Tax relief on dividends to attract more flows into REITs & InvITs

KUSHAN SHAH  
Mumbai, August 9

TAX EXEMPTIONS ON dividends paid by real estate investment trusts (REITs) and infrastructure investment trust (InvITs) in new tax regime will attract more investor interest, say experts.

Karan Shah, head - fixed income and real assets, Neo Wealth, said coming ahead of the inclusion of REITs in the Nifty equity indices in September, the investor base is likely to be expanded. "The benefit will attract incremental passive control in these vehicles, supporting their presence in investor portfolios for long-term wealth creation."

Vaibhav Porwal, co-founder of Dezerv, said the move fixes a structural quirk where investors were paying for a decision on the tax regime by the trust. The restoration of tax neutrality is a foundational block of the pass-through structure, he said. "However, flows would be measured as the yield, interest rate cycle and quality of underlying assets also remain key factors for investors," Porwal said. He added that the entire payout

## BASE EXPANSION

■ Restoration of tax neutrality is seen as a foundational block of pass-through structure

■ Yield, interest rate cycle and quality of underlying assets remain key factors for investors

■ Reform likely to aid retail investors, HNIs, UHNIs, family offices, institutional investors

from these structures is not as tax-free.

Rahul Jain, president and head, Nuvama Wealth Management, said prior to the exemption, advisors had to flag tax liabilities to investors in case SPVs changed their tax regimes. Now that this worry is gone, inflows should grow steadily over time, not in one big jump. He added that while

REITs and InvITs have been around for a few years now, it's only recently that retail and HNI investors have really started to take note of them.

Earlier, the tax exemption on dividends was only provided to trusts which opted for the older tax regime. The recent amendments have also increased the surcharge for special purpose vehicles (SPVs) of these trusts. Shah said the reform is likely to benefit retail investors, HNIs, UHNIs, family offices, institutional investors and corporate treasuries. Porwal expects REIT investors to benefit more than InvIT investors as the former pay higher dividends. "Investors who were paying 36% tax on dividends will benefit more," he said.

REITs and InvITs can now improve their tax structures and utilize accumulated tax credits without adversely impacting unitholders. Shah said while the higher tax rate applicable for some InvIT structures in the new tax regime can marginally reduce distributable cash flows and NAVs, the overall post-tax cash flows for investors are likely to improve.

# Oil, West Asia, inflation data to drive markets: Analysts

CRUDE OIL PRICES, geopolitical tensions in West Asia, and inflation data will dictate stock market direction this week, according to analysts. Foreign investor trading activity and quarterly earnings will also remain key monitorables.

"Domestically, investors will closely monitor the July CPI inflation print, WPI inflation, and the latest foreign exchange reserves data for fresh insights into inflation trends and external sector stability. The Q1 FY27 earnings season will

gather further momentum, with several companies, including HAL, Bharat Forge, Grasim Industries, and Tata

Motors, scheduled to announce their quarterly results," Ajit Mishra, SVP, research, Religare Broking, said.

"This week is likely to be shaped by two dominant themes: Developments in West Asia and the July US inflation report. Attention will remain firmly focused on West Asia where negotiations over the Strait of Hormuz remain fluid," Ponmudi R, CEO, Enrich Money, an online trading and wealth tech firm, said.

## Kotak Bank unveils hybrid home loan

KOTAK MAHINDRA BANK has announced the launch of its hybrid home loan, enabling customers to lock their home loan rate for up to 65 months and plan these important early years with greater visibility. The move is aimed at providing a greater certainty on EMIs.

Buying a home is only the beginning of a customer's financial journey, and in initial days, families often manage interiors, education, savings and everyday expenses, alongside the monthly EMI, Kotak Bank said on Sunday.

—PTI

## ● What does the Bill propose?

LOK SABHA HAS passed the Taxation and Other Laws (Amendment) Bill, 2026 to amend the Payment and Settlement Systems Act, 2007, creating a legal framework for the government to allow charges on payments through Unified Payments Interface (UPI) and other notified electronic payment modes. The existing Section 10A of the Payment and Settlement Systems Act prohibits banks and payment service providers from imposing charges on electronic modes of payment prescribed under Section 269SU of the Income Tax Act. The Bill does not announce any fee or timeline for introducing any charges.

Since January 2020, Merchant Discount Rate (MDR) charges are not applicable for UPI and RuPay debit card payments. MDR, regulated by the Reserve Bank of India, is a fee paid by merchants to banks, card networks, point-of-sale providers for offline transactions, and payment gateways for digital payments. The UPI and Services Steering Committee, headed by National Payments Corporation of India (NPCI), will examine the matter only after Parliament passes the Bill.

## ● How much could a potential levy on UPI transactions be?

THE GOVERNMENT HAS said that as and when MDR charges are introduced, they will apply only to a limited set of merchant transactions, above a certain threshold, at a nominal rate, far lower than debit or credit card MDRs.

A levy of 0.25% to 0.35% as MDR on payments above ₹2,000 to businesses

# Transaction charges for UPI use: what changes, and what doesn't

Last week, Lok Sabha passed a Bill enabling the government to levy a fee on UPI payments. While the government says most transactions would remain free, concerns persist over whether even a merchant-side fee could take some of the shine off India's most popular payment mode, writes *Banasree Purkayastha*

could be a possibility, as per industry estimates. While the ₹2,000 threshold would cover only 5% of UPI transactions, these account for around 65% of the total value processed on the UPI platform.

Earlier this year, a Parliamentary Standing Committee on Finance had suggested protecting individuals and

small merchants from any levy while considering reasonable charges for large commercial establishments and e-commerce platforms. MDR on credit cards can go up to as high as 3% of the transaction value. Debit card transactions of up to ₹20,000 attract a maximum MDR of 0.4% and 0.9% above that threshold.

₹314 L-cr

VALUE OF UPI TRANSACTIONS IN FY 25-26

THE ANNUAL COST OF OPERATING UPI AND RUPAY DEBIT CARD INFRASTRUCTURE IS ESTIMATED TO BE AT LEAST ₹10,000 CRORE

## ● Why is there a rethink on MDR for UPI?

WHILE THE UPI platform is the largest digital payment system by volume in the world, maintaining the infrastructure requires significant investment. Banks, payment firms and NPCI, which maintains the UPI platform, need to spend on technology upgrades, cybersecurity, fraud prevention and transaction processing systems.

Industry estimates suggest the annual cost of operating UPI and RuPay debit card infrastructure to be at least ₹10,000 crore. According to a recent report by the Parliamentary Standing Committee on Finance, the government's incentive scheme — covering low value BHIM-UPI merchant transactions and promoting RuPay debit cards — from 2021-22 to 2024-25 accounted for "only 11% of the cost incurred by the digital payment industry".

That makes the long-term viability of the current business model difficult. Reliance on subsidies alone is not enough for the next wave of growth. A balanced framework is required to ensure that UPI remains resilient against emerging risks as well as inclusive and future-ready.

## ● How big is the UPI universe?

IN FY 2025-26, more than 240 billion UPI transactions totalling ₹314 lakh crore were made. Transaction volumes in July 2026 rose 22% year-on-year to 23.66 billion, while the total value of payments touched an all-time high of ₹29.88 lakh crore, as per data shared

## ● Will consumers end up paying the charges?

IT IS THE merchant who is liable to pay the MDR and not the consumer. Consumers making payments will not face any transaction charges. All person-to-person transactions will also continue to be free of charge, the government has said. There will not be a blanket levy on all merchants or all transactions. PCI has also said that small traders, including kirana stores, would continue to accept UPI payments without paying any MDR.

However, there's a fear that while larger merchants may absorb the fee like they do for credit card MDR, many retailers operating on thin margins could pass on the charges to the consumer or prefer cash payments. The zero-MDR policy is seen as a key factor behind UPI's phenomenal growth. Over the last decade, there has been a strong shift to UPI payments, and even a minimal MDR on a limited set of transactions could change that behaviour. "Any MDR on UPI will kill the one thing in India which is working like clock work, i.e., mobile payments. It's a regressive step — government should reconsider," Ashneer Grover, former founder of BharatPe, posted on X.

# Ignore NAV swings in arbitrage funds due to CAS

TEMPORARY VOLATILITY NOT TO IMPACT LONG-TERM RETURN POTENTIAL

SAIKAT NEOGI

THE MARKET REGULATOR'S closing auction session (CAS) has created temporary price dislocations near market close, increasing mark-to-market volatility in arbitrage funds. For investors, this may mean slightly higher short-term net asset value (NAV) fluctuations, but not necessarily higher underlying risk.

The temporary NAV impact from CAS is unlikely to materially change the long-term return potential of arbitrage funds, as pricing anomalies generally get corrected. The effect should largely even out over multiple arbitrage cycles. Thus, you should not react to the temporary volatility or change allocations based on CAS.

"Arbitrage remains primarily a low-risk, market-neutral strategy, so focus on post-tax returns, spreads and fund consistency," says Aditya Agarwal, chief investment officer, Avisa Wealth Creators.

Fund managers say there is no need for investors to increase the holding period because of CAS. However, those with a short-term horizon may benefit from staying invested long enough to avoid exiting during temporary NAV fluctuations.

## Why arbitrage funds were impacted by CAS

Arbitrage funds are among the strategies most directly affected by

## BET ON STABILITY

Returns from arbitrage funds (%)

Data as on August 7, 2026

Source: Value Research

the new market structure. In these, the fund managers simultaneously buy shares in the cash market and sell the futures contract on the same stock at a slightly higher price. The difference in the cost and selling price is the return that investors get.

In the earlier framework, cash and futures markets were open until 3.30 pm, allowing arbitrage positions to be established or unwound simultaneously. With CAS, cash market trading in F&O stocks concludes at 3:15 pm and shifts to an auction mechanism, while futures continue trading until the market closes.

This creates a temporary period

where futures continue to react to market expectations while the cash market awaits auction-based price discovery. The wider spot-futures spread resulted in higher mark-to-market gains on Day 1 of CAS (August 3, 2026).

"As auction volumes and participation improve, the impact of CAS on day-to-day NAV movements is expected to reduce, while the underlying arbitrage spreads continue to be realised at expiry," a note from Tata Mutual Fund says.

## Stagger investments

Shashank Udupa, founder, Vayu

Capital, says buyers on day one of CAS got units at inflated NAVs and those who redeemed banked the distortion. "Over three to six months this is unlikely to be material. Over a single transaction, it is."

If you are a new investor, stagger your bets in arbitrage funds. It will help reduce timing risk, particularly when NAV volatility is elevated. "If you spread your investment over three or four tranches across a few weeks and ideally avoid the days right around expiry—you end up averaging out both the clean and distorted NAVs," says Sonam Srivastava, founder, Wright Research PMS.

## YOUR MONEY

# Build retirement wealth with triple tax advantage of NPS

OVER THE YEARS, we have come to view the National Pension System (NPS) largely through the lens of the tax deduction it offers at the time of investment. If that deduction appears small—or doesn't seem relevant under the tax regime we have chosen—many conclude that NPS has little to offer.

A retirement product should be judged not only by the tax benefit it offers when you invest, but also by how tax-efficient it remains over the decades that follow.

Long-term investing doesn't end with the first contribution. Over the years, you will review your portfolio, rebalance your asset allocation and eventually withdraw your savings. Taxation influences each of these decisions, so it should be evaluated across the entire investment journey—not just at the point of entry.

That's where the real differentiator of NPS lies—what I call its triple tax advantage.

The first advantage comes at the time of contribution through the available tax deductions. The third comes at exit through the tax treatment of withdrawals under the prevailing framework. The second advantage, however, is the one that receives far less attention.

## Portfolio rebalancing

A retirement portfolio is never meant to remain static. As you move through different stages of life, your asset allocation should evolve with your financial goals and risk appetite. Rebalancing between equity and debt is therefore an essential part of long-term investing.

In market-linked investments, rebalancing often comes at a cost. Selling appreciated mutual

AMIT H L

funds or stocks can trigger capital gains tax, prompting many investors to postpone decisions they know are financially prudent.

Many investors therefore choose to defer rebalancing, not because it is financially inappropriate, but because they want to avoid the immediate tax impact. Over time, portfolios drift away from their intended allocation, either exposing

investors to more risk than they intended or causing them to miss opportunities to improve long-term returns.

## Rethinking how we evaluate NPS

NPS removes this friction. Permitted portfolio rebalancing within the NPS ecosystem does not attract capital gains tax. As a result, investment decisions can be driven by financial objectives rather than tax consequences.

That, in my view, is the real triple tax advantage of NPS—not merely that it offers a tax deduction, but that it remains tax-efficient while you invest, while you manage your portfolio and when you eventually retire.

A tax deduction may influence whether you start investing, but it shouldn't dictate how you manage a portfolio over the next two or three decades.

That is what makes the triple tax advantage of NPS so compelling. Its tax efficiency extends beyond the initial contribution, allowing investment decisions to be guided by financial goals, changing risk appetite and asset allocation rather than the tax consequences of portfolio adjustments.

The writer is founder & CEO, Floatr Wealth

## SMART MONEY

### MUTUAL FUND

## Kotak MF launches bank index fund

KOTAK MAHINDRA ASSET Management Company has launched Kotak Nifty Bank Index Fund, an open-ended scheme that seeks to replicate and track the Nifty Bank Index. The fund offers investors an opportunity to participate in India's banking sector through a passive

investment strategy linked to the Nifty Bank Index which captures the capital market performance of India's largest and most liquid banking companies. Subscription to the new fund offer will close on August 17, 2026.

### DEPOSITS

## PhonePe-Shivalik SFB launch RD

PHONEPE IN PARTNERSHIP with Shivalik Small Finance Bank has introduced a daily recurring deposit. It enables

users to build a disciplined savings habit with investments starting at just ₹100 per day. Users can stop the mandate anytime with no penalties on missing investments during a consecutive 15-day grace period. It enables investors to open fixed deposits (FDs) directly within the PhonePe app, designed to act as a stable, low-risk savings option. Users can now compare and instantly book high-yield FDs through a 100% digital, paperless journey.

# Education

# Beyond PM Modi's speech: The non-engineering evolution of IITs

FROM ISOLATED ENGINEERING HUBS TO COLLABORATIVE NATIONAL NETWORKS

VIKRAM CHAUDHARY

ON SATURDAY, Prime Minister Narendra Modi addressed the 57th convocation of IIT Delhi, but the real story is the metamorphosis of the Indian Institutes of Technology (IITs), which are no longer assembly lines for engineers/technocrats, but are evolving into holistic centres of higher education.

## Diverse degrees

This evolution was apparent at the convocation, where 3,036 students received degrees, but what stood out were IIT Delhi's first-ever batches of non-traditional courses, including 20 graduates of the Bachelor of Design; 21 graduates of the MA in Culture, Society, Thought; new cohorts in MSc in Biological Sciences; and executive MBAs.

Prof Rangan Banerjee, the director of IIT Delhi, had previously told this newspaper that the institute is embedding human-centred design, social sciences, and advanced life sciences, alongside core engineering disciplines, and is breaking down rigid disciplinary silos. Such an interdisciplinary approach equips students to tackle complex modern challenges—such as ethical AI, public policy, and biotechnology—where technological proficiency alone is no longer sufficient.

## Rise of IIT B-schools

IIT Delhi is not the only one in this transformation. Older premier

## BEYOND TECH

IITs are focusing on life and social sciences, human-centred design, and are breaking down rigid disciplinary silos

Premier IIT business schools now outrank legacy IIMs in national education ratings such as the NIRF

IITs are replicating models like MIT's by integrating arts, sciences, and public policy

IIT Delhi's partnership with 18 NITs has led to fast-track, GATE-free pathways for higher education research

IITs like Bombay, Kharagpur, and Madras have steadily expanded into humanities, public policy, biological sciences, and medical research.

Nowhere is this evolution clearer than in management education.

For years, the Indian Institutes of Management (IIMs) held a near-monopoly on business education. Today, B-schools housed within IITs—such as IIT Delhi's Department of Management Studies, IIT Bombay's

Shailesh J Mehta School of Management, IIT Madras's Department of Management Studies, and IIT Kharagpur's Vinod Gupta School of Management—are regularly outranking elite B-schools in rankings.

In 2021, then IIT Delhi director Prof V Ramgopal Rao famously said that after the trinity of IIM Ahmedabad, Bangalore, and Calcutta, IIT Delhi's DMS stands next. The 2022 National Institutional Ranking

Framework (NIRF) data validated his claim, placing DMS IIT Delhi at the fourth rank, outperforming IIM Lucknow, IIM Kozhikode, and XLRI.

## Mirroring global schools

This diversification mirrors the trajectory of global tech institutes. Massachusetts Institute of Technology (MIT) operates the renowned Sloan School of Management and humanities centres like the MIT School of Humanities, Arts, and Social Sciences. Similarly, Stanford University and Imperial College London have long established world-class business schools, medical faculties, and policy institutes.

## From NITs to IITs

Beyond broadening the scope of its own degrees, IIT Delhi has also partnered with 18 National Institutes of Technology (NITs), and has introduced an Early Admission Scheme that allows top-performing NIT undergraduates to bypass the GATE examination to gain admission into MITech, MS (Research), and PhD. Backed by credit transfers for final-year Special Exchange Students and the ALIGN (Academic Linkages for Innovation and National Growth) framework, which funds joint faculty seed grants, predoctoral fellowships, and shared infrastructure, the initiative breaks down institutional silos. By shifting from isolated engineering hubs to collaborative networks, the IIT ecosystem is entering a new era.

# What are Mehta Schools at top IITs?

THESE ARE EXAMPLES OF DIASPORA PHILANTHROPY

VIKRAM CHAUDHARY

LOOKING CLOSELY at the non-traditional schools getting launched across top IITs, one name stands out: the Mehta Schools.

Funded by the US-based Mehta Family Foundation (MFF), led by founder Rahul Mehta, these specialised centres represent a shift in how Indian technical education is expanding. Historically, IITs created standard academic departments like Computer Science or Mechanical Engineering. Today, diaspora philanthropy is funding standalone 'schools' designed around emerging global challenges.

The latest outcome of this model is at IIT Indore, which recently launched India's first-ever undergraduate degree dedicated to sustainability—four-year B'Tech in Environmental Economics and Sustainable Engineering. Housed under the newly established Mehta Family School of Sustainability (MFSOS), the programme marks MFF's seventh major academic project across the IIT ecosystem.

Unlike conventional IIT programmes that relegate sustainability to postgraduate studies or electives, MFSOS was created to address a critical void at the undergraduate level, said Prof Pritee Sharma, professor & head of MFSOS, in an exclusive interaction with this newspaper. She added that driven by impending corporate ESG mandates and a 13% surge in green jobs between 2024 and 2025, the school aims to bridge industry demand with specialised talent. "MFSOS is fully integrated into the IIT system, admitting its inaugural cohort of 30 students via JEE Advanced," she said. "The curriculum has been developed over a year with inputs from global universities like Stanford, Columbia, Rice, and Purdue, alongside top Indian economic institutions, balancing environmental economics and law with energy systems and climate studies."

This model extends beyond Indore; Houston-based MFF has partnered with premier campuses to establish cutting-edge hubs in high-impact domains. These include:

**Data science & AI:** Dedicated schools at IIT Roorkee, IIT Guwahati, and IIT Palakkad.

**Healthcare & medicine:** The Jyoti & Bhupat Mehta School of Health Sciences and Technology at IIT Guwahati and Mehta Family Centre for Engineering in Medicine at IIT Kanpur.

**Biosciences:** The Mehta Family School of Biosciences and Biomedical Engg at IIT Indore. Rather than operating in academic isolation, these schools bridge global networks—bringing advisors from top international universities to consult on curricula, faculty exchanges, and joint research.

Going forward, as IITs transition from pure engineering colleges into comprehensive research universities, named philanthropic endowments provide the critical capital, infrastructure, and global access required to build future-ready institutions.

# The resilience premium

India must build buffers without turning resilience into a cover for protectionism

**F**OR MUCH OF the past three decades, businesses and governments organised themselves around efficiency. Supply chains grew longer, inventories leaner, and production more concentrated wherever costs were lowest. Capital was allocated on the assumption that trade routes would remain open, energy supplies secure, and geopolitical disruptions episodic. That assumption has been tested repeatedly. The pandemic, the Russia-Ukraine war, disruptions in the Red Sea, tariff conflicts, and the latest hostilities in West Asia have shown that shocks are no longer exceptional events to be ridden out. They are becoming part of the operating environment. Resilience, therefore, can no longer be treated merely as insurance against unlikely events; it must be recognised as an economic asset.

India has experienced these vulnerabilities particularly sharply. More than 40% of its crude oil imports pass through the Strait of Hormuz, leaving the economy exposed to disruption at one of the world's most sensitive choke-points. The latest tensions have pushed up crude prices and shipping and insurance costs, while putting pressure on the rupee. The consequences extend from imported inflation and a wider current account deficit to difficult fiscal choices. Elsewhere, restrictions involving technology, semiconductors, and critical minerals have revealed a different class of dependence. As economist Saumitra Bhaduri argued in these pages, the next chokehold may be technological rather than geographical. The cheapest supplier is not necessarily the cheapest if production stops when that supplier becomes unavailable.

That does not mean India should pursue self-sufficiency indiscriminately. Resilience must not become a convenient justification for protectionism. Attempting to manufacture everything domestically, regardless of comparative advantage, would raise costs, weaken competitiveness, and ultimately hurt exports. Nor does every company need multiple factories and warehouses merely to prepare for the worst. The objective should be diversification, not autarky. India needs multiple sources of energy, critical minerals, and strategic components; companies need alternative suppliers and logistics routes; and banks need diversified funding sources. Strategic reserves could also extend beyond crude oil to liquefied natural gas, fertilisers, critical minerals, and other essential inputs. Some redundancy that appears expensive in normal times can prove remarkably cheap during a crisis.

There is an opportunity in this shift. As global companies redesign supply chains around resilience rather than cost alone, India can position itself as an alternative manufacturing and services base. But it will capture this “resilience premium” only if it is itself seen as dependable. That requires reliable power, ports, and logistics, competitive tariffs, predictable taxation and regulation, and greater policy stability. Production-linked incentives can help create capacity, but subsidies cannot indefinitely compensate for weaknesses in the business environment. Resilience must extend to technology as well as critical public infrastructure should not rely exclusively on a single foreign technology provider or supply chain. The traditional trade-off between efficiency and resilience, therefore, needs recalibration. Eliminating every buffer may maximise returns in normal times but impose far larger costs when conditions change. Excessive redundancy, on the other hand, can destroy competitiveness and encourage rent-seeking. The task for policymakers and corporate boards is to identify critical vulnerabilities and insure selectively against them. India cannot predict whether the next disruption will come through oil, trade, technology, climate, or geopolitics. It can, however, make itself better able to absorb the shock. In an increasingly disorderly world, resilience is no longer merely the price paid for safety. Properly designed, it can become a source of competitive advantage.

## THE HUMAN FACTOR

# When the boss is an app

**ASK A DELIVERY** rider in any Indian city who his manager is, and you may get a puzzled look. There is no manager. There is an app. It tells him where to go, how quickly to get there, what he will earn and — through a rating he barely understands — whether he will get work tomorrow. When his pay rate drops overnight, there is no one to ask why. When his orders mysteriously dry up, there is no cabin door to knock on. The forearm of the 21st century does not carry a stopwatch. It runs silently on a phone, and it does not take questions.

This deserves attention because the law has finally caught up with the gig economy — but only halfway. In May, six years after Parliament passed the Code on Social Security, the central rules were notified, requiring platforms to contribute to a social security fund for gig workers.

This is genuine progress. Yet consider what the law regulates and what it leaves untouched. It regulates money: aggregators must contribute between 1% and 2% of annual turnover towards insurance and other benefits. But it says little about the algorithm — the actual manager — that assigns orders, determines per-delivery rates, distributes incentives, and quietly decides who thrives and who is starved of work. We have regulated the salary slip and ignored the boss.

Every management theory of the past hundred years rests on one assumption: the manager is a person. A person can be trained, persuaded, appealed to, or, in extremis, shamed. Entire HR departments exist because human bosses are imperfect and employees need recourse. The gig economy has quietly invented something new: management without a manager. And with it, grievance without a listener. What does it do to a person's dignity when there is no one — literally no one — to whom he can say, “That's not fair”?

The costs are not abstract. A recent survey of platform workers across Indian cities found that nearly a quarter worked more than 70 hours a week, 62% had experienced near-miss road accidents, and 27% had actually met with one. The speed targets are set by code; the risk is absorbed by flesh. Following nationwide protests by delivery workers late last year and government intervention, quick-commerce companies dropped or softened their 10-minute delivery claims. The algorithm, it turns out, responds to collective bargaining — but only when workers organise against a boss they cannot see.

There is a subtler injury too. Research into platform work suggests its design can reproduce or amplify existing gender and caste disadvantages — discrimination without an identifiable discriminator, and prejudice with no one clearly accountable. Even the new welfare rules contain a flaw that reveals how imperfectly the system understands this workforce. Eligibility requires 90 days of engagement with one platform, or 120 days across several. That assumes a degree of continuity in a sector defined by churn. It is like asking a daily-wage worker to prove stable employment before protecting him against precarity.

Other jurisdictions are beginning to confront the real issue. The European Union's (EU) platform-work rules provide for a rebuttable presumption of employment and require greater transparency and human oversight of algorithmic decisions. India, so far, has regulated the gig worker; the EU has begun regulating the algorithm.

Why should the salaried reader care? Because the delivery rider is the canary. Algorithmic management is already creeping into formal workplaces through warehouse productivity trackers, call-centre monitoring software, and AI-generated performance scores. The question the gig worker faces today is one many of us may confront tomorrow: when your manager is a piece of code, who hears your appeal?

India's gig workforce is projected to reach 23.5 million by the end of this decade. That is millions of people managed by software no regulator has examined and few workers understand. The human factor, in this economy, is the one thing the system was never designed to see.

**O**N ITS FIRST day, the committee that would decide where India's new deep-tech fund put its money was handed a hard brief. There is very little deep tech in this country, its members were told. Here is two thousand crore. Go and find it.

So they did. They went to the ventures they knew — the ones they had watched, mentored, argued with, and in some cases carried through the years when no one else would write a cheque. They backed the companies whose science had already been proven. And last week, *The Indian Express* published a so-called investigative report that they had done something troubling: 62% of the first round had gone to firms in which panel members held an interest.

I read the story with sadness, not anger — and let me own my position at once. I serve in this government, so weigh what follows with whatever discount you think that deserves; the argument does not need my office to stand. The sadness, in any case, is not about a single report, a single journalist, or a single newspaper. It is about a habit of mind that keeps us scoring self-goals while the world races ahead.

Let me be clear about one thing first. The question of conflict of interest is a fair one. Public money deserves scrutiny, and it is good that this is being discussed openly. Gopal Srinivasan of the panel said exactly that when the newspaper reached him. No one who has thought seriously about public funds would wish it otherwise. Accountability is not the price of speed; it is the condition of trust. That is not in dispute.

What is in dispute is the frame. And the frame rests on a fact the investigation never grasped: how the one lakh crore is actually spent.

The money does not go out in a single round through one committee. It is expected to be disbursed over five years through several fund managers, of whom only two have been appointed so far. More are to come, including from the private sector. The Technology Development Board's

## FLAWED FRAME

LINKING DEEP-TECH GOVT FUNDING WITH PANEL MEMBERS IGNORES GUARDRAILS AND OUTCOMES

# The questions we did not ask

**V ANANTHA NAGESWARAN**  
The author is the 18th Chief Economic Advisor to the Government of India

first cohort is a sliver of the whole, and it was appraised on a first-come, first-served basis. The companies that applied earliest were the ones that heard about the fund earliest — and the ones that heard earliest were, unsurprisingly, close to the ecosystem. That is why the first batch looks the way it does.

The Board has already said that in the second cohort, one of 13 firms has a panel link. Not 62%. One in 13. The number the headline was built on was always going to fall, because it was an artefact of sequence, not a pattern of favour.

Now to the harder charge, and the fairer one: a small circle of experts clearing one another's ventures, recusing one at a time, does not pass the smell test. The image has force. It deserves an answer, not a brush-off.

Here is the answer. If you want to find validated deep-tech ventures quickly, you ask the handful of Indians who actually know the field. Anyone in India who knows this field has touched these companies — mentored them, funded a founder, sat on a board. That is not a conflict to be scrubbed away. It is the reason they were chosen. The money is the tip of the iceberg of what this group has given to Indian deep tech.

So the design does not pretend to eliminate the overlap. It manages it. Firms that a member founded, owns, or runs cannot even apply, however good they are. A stake of more than 10% automatically disqualifies a firm. Members must disclose not only their own interests but their interests in a rival — a standard stricter than most

private boards keep. Selection needs a super-majority, not a bare majority, so two or three doubts sink a proposal.

The government's exposure is capped at half the project cost. And the whole thing passes a second time through a board of secretaries. Recusals are declared in advance and recorded. This is not the absence of guardrails. There are more of them than most of our institutions bother with.

Which brings me to the test that matters, and that the story never applied. The proof of a fund is in its outcomes. Were undeserving ventures funded? Were deserving ones turned away? That is the audit worth doing. Judge the decision on what was knowable then, not on what hindsight reveals now. We rightly tell our bureaucracy to pursue outcomes rather than hide behind process. It

is a strange day when the press asks it to do the opposite — to prize spotless process over the thing the process is for. Here is the bitter part: we who count the “conflict of interest” today are the same who will, a decade from now, write a harsh critique lampooning the government for letting India fall behind in the very technologies this fund was built to seed.

The likely effect of a “62%” headline is not cleaner governance. It is a chill. The founders who were, for the first time, animated by the sense that the system had faith in them will read it and grow wary. The technologists of global standing who might have joined the next committee will think twice about lending their names to a body that is treated as a cartel for doing

**A democracy has to learn the difference between holding power to account and reaching reflexively for suspicion**

# Are yesterday's rules today's problem?

RISHI RAJ

rishi.raj@expressindia.com

**THE YEAR 2006** marked a turning point for the aviation sector in more ways than one. It was the year IndiGo took to the skies, promising affordable air travel with a no-frills model that would eventually redefine the industry. It was also the year Delhi and Mumbai airports were privatised under the Operation, Management, and Development Agreement (OMDA), which contained an important safeguard. Airport operators were barred from owning more than a 10% stake in an airline, lest they use their control over airport infrastructure to favour their own carrier.

Twenty years later, the government is considering relaxing that very clause. At one level, the proposal appears controversial. IndiGo promoter Rahul Bhatia has warned that allowing airport operators to own airlines would create a massive conflict of interest and eventually hurt consumers. Akasa Air CEO Vinay Dube, on the other hand, has said that the country needs more competition and more investors, while expressing confidence that adequate safeguards can be built into the system. The immediate debate is, therefore, about whether airport operators such as the Adani Group or GMR Airports should be allowed to own airlines.

But the larger story lies elsewhere. It is in how dramatically the aviation sector has changed since 2006 and how regulation is now struggling to catch up with that change. When the OMDA was drafted, there were no shortage of airlines. Jet Airways dominated the market. Air India and Indian Airlines were present. Kingfisher Airlines was preparing for take-off. Air

Deccan had made low-cost flying fashionable. SpiceJet and GoAir were expanding. Paramount Airways and Sahara Airlines were in the market. Competition was plentiful. The government's concern was understandable. It wanted to ensure that a company controlling an airport did not also control an airline, thereby creating the possibility of discrimination in slot allocation, airport charges, or terminal access.

The market, however, evolved very differently from what the government or regulators had imagined.

Over the next two decades, aviation became a graveyard of once-prominent brands. Jet Airways collapsed. Kingfisher disappeared. Air Deccan vanished through mergers. Go First shut down. Vistara and AirAsia India were folded into Air India. What survived was not a monopoly born of regulatory protection but a market where relentless competition rewarded the most efficient players and punished the rest.

Today, IndiGo alone carries about two-thirds of domestic passengers, while the Air India group has emerged as the second dominant player. Together they account for almost 90% of domestic capacity. Ironically, the government is now considering relaxing a rule framed to prevent excessive concentration because it believes the bigger problem is the lack of enough competitors.

This is where the aviation debate begins to resemble another sector that has

undergone a similar transformation.

In the early years of telecom liberalisation, most circles had 10 or more operators. The government and the regulator worried about spectrum concentration and market dominance. Then economics intervened. Fierce price wars, high capital expenditure, and mounting debt triggered consolidation. Today, there are three private telecom operators. Yet the policy conversation is no longer about creating 10 operators again. It is about ensuring that the three remaining players remain financially healthy enough to keep investing in networks while competing vigorously.

Aviation presents a similar dilemma, although the government's response is different. Instead of accepting consolidation as the natural outcome of market forces, it is exploring ways to encourage new entrants by widening the pool of potential promoters. Relaxing cross-holding restrictions for airport operators is one such idea. Whether it succeeds is another matter. Running an airport and running an airline are very different businesses. Aircraft shortages, waiver-thin margins, and volatile fuel prices have defeated far more experienced airline promoters than infrastructure companies.

Yet dismissing the proposal simply because it overturns a 20-year-old safeguard would also be missing the point.

The real question is whether a regulation framed for one market remains appro-

its job. A watchdog is meant to prevent harm. Here it risks producing the very harm it exists to guard against — demoralising the builders and thinning the ranks of those willing to build the machinery.

None of this asks the press to fall silent. It asks the opposite. There was a genuinely important story here, and the paper is well placed to tell it. Where does follow-on capital come from once these ventures outgrow their first loan? How do we build funds large enough to carry them? Should we monetise idle public assets to seed a sovereign fund for exactly this? Those questions decide whether India's deep-tech ambition survives its infancy. They are harder to write than a conflict-of-interest headline. They are also worth incomparably more.

There was an easy path here and a hard one. The easy path was a tidy number, a whiff of impropriety, a takedown that writes itself. The hard path was slower — to sit with the committee, understand how it works, weigh the trade-off it was asked to make, and only then decide whether the deviation, if any, was gross, reasonable, or none at all. Too often, we take the easy path and call it diligence.

This is the price of a democracy. Authoritarian systems are spared these noises; they are also spared the correction that noise can bring. But a democracy has to learn the difference between holding power to account and reaching reflexively for suspicion. Get that wrong often enough, and the result is not vigilance. It is paralysis dressed as virtue.

I keep returning to a plain fear. The world is about to change in ways we can scarcely picture. We, in India, have a choice. The political class, the bureaucracy, the watchdogs, and the media, all of us, in turn, can spend the decade pulling the rug from under one another's feet and keep India exactly where it is while everyone else moves. Or we understand the strategic imperatives, re-examine our trade-offs, our red lines, and our ways of working. The choice is ours to make and the consequences ours to bear.

Views are personal

Telecom and aviation have both consolidated over two decades. Yet while one has accepted fewer players, the other is trying to create more

**The objective of regulation remains the same but the instruments may need periodic recalibration**

## LETTERS TO THE EDITOR

### CAS is welcome

“CAS(h) in on it” (*FE*, August 8) rightly points out that the initial volatility in the Closing Auction Session (CAS) should not be mistaken for a structural flaw in the mechanism. A transparent auction-based closing price is a welcome reform, particularly for passive

funds, index-linked investments, and institutional investors. However, its success will depend on adequate liquidity and wider participation. The early sharp movements during CAS underline the need to strengthen the securities lending and borrowing mechanism, enabling genuine short-selling and arbitrage to play a greater

role in price discovery. Equally vital is ensuring that brokers provide investors with real-time indicative equilibrium prices and order-imbalance information. Technology, transparency, and investor awareness must accompany the regulatory change. Sebi and the exchanges should allow CAS time to mature rather than consider a

rollback after just a few sessions. With deeper liquidity, stronger arbitrage, and better information, CAS can ultimately make India's market closing prices more efficient and less vulnerable to last-minute distortions. —Sanjay Chopra, Mohali

Aiming for a bigger bite

WITH MINIMAL ADVERTISING, THE NAMKEEN & SWEET MANUFACTURER BECAME A SNACKING STAPLE ON THE BACK OF TASTE & PACKAGING INNOVATION

FOREVER BRANDS

CHRISTINA MONIZ

THINK BHUJIA AND the first name to pop into your mind will likely be Haldiram's. The brand, whose claim to fame is its unique Bikaneri bhujia, has come a long way from its humble origins in a Rajasthani sweet shop in 1937. The company today is the largest manufacturer of Indian snacks and sweets, crossing ₹14,000 crore in revenue in FY25.

Industry estimates indicate it holds at least 20% of India's ₹50,000 crore packaged snacks market. Observers, however, note that Haldiram's, as we know it today, didn't exist as a national brand until around three decades ago. It was only in the early 1990s that it made its way into national retail shelves with nitrogen-flushed laminated packs, designed to extend product freshness from months.

Ambi Parameswaran, brand strategist & founder, BrandBuilding.com, says this was the brand's breakthrough moment. aldiram's was the first domestic snack-maker to replicate the packaging and success of chips' brands like Uncle Chippis. It understood the power of laminated ₹10 packaging," recounts Parameswaran.

In the late 1990s, amid family disputes, the company was split into regional factions in Nagpur, Delhi, Kolkata and Bikaner. Regardless of where customers purchased their snacks, the taste and price remained consistent, winning strong consumer loyalty. Haldiram's has brought in major institutional and private equity investors following the merger of its Delhi and Nagpur factions into Haldiram Snacks

FROM LOCAL TO GLOBAL

Launched in 1937 in a tiny confectionery shop in Bikaner, Rajasthan

Its nitrogen-flushed packs made their way into stores in the early 1990s, making it a national brand

In 2010, it became a ₹1,000 crore brand

It crossed ₹12,000 crore in revenue in FY24

Launched its formal restaurant in Delhi in 1995; has over 150 outlets locally

Launched its first outlet in London's Leicester Square in June 2026

Food Pvt Ltd in 2025. The company also operates in the dining space with over 150 outlets in the country. It launched its first restaurant in London this year.

Rutu Mody Kamdar, founder, Jigsaw Brand Consultants, says Haldiram's has succeeded in industrialising India's halwai without industrialising the taste. "It gave families a branded version of what they already trusted, which is much harder than launching something new," she points out.

What is also significant is that the brand has barely invested in advertising, spending no more than 2% of its revenue, as per industry sources.

Kamdar says Haldiram's communication is its distribution depth. "A brand that occupies every kirana counter, railway platform and airport shelf is speaking continuously, whether or not it buys airtime. Add to that a ₹10

pack and a purchase cycle measured in days, and the product itself does the persuading several times a week," she says.

While the namkeen maker enjoyed the first-mover advantage in this category, it faces competition from PepsiCo's Kurkure as well as other local players like Balaji Wafers, Garden and Bikano. However, Kruthika Ravindran, director, key accounts, TheSmall-BigIdea, believes that its competition comes not from other brands but evolving consumer preferences towards healthier options, premium products and instant availability. "Consumers are not replacing one brand with another, but are looking for more choice," Ravindran says, noting that Haldiram's is best positioned to respond to this evolving consumer need by introducing relevant products, strengthening its digital presence and creating new consumption opportunities.

Sticking to the promise

AS FSSAI STEPS UP SCRUTINY OF PRODUCT & HEALTH CLAIMS, BRANDS ARE UNDER GROWING PRESSURE TO ENSURE THAT WHAT THEY PROMISE CONSUMERS CAN STAND UP TO REGULATORY & SCIENTIFIC SCRUTINY

KARTIKAY KASHYAP

THE REGULATORY LANDSCAPE for India's food and beverage industry is changing. As the Food Safety and Standards Authority of India (FSSAI) steps up scrutiny of product descriptions, health claims and packaging, brands are finding themselves under greater pressure to ensure that what they promise consumers is clear, transparent and backed by evidence.

The latest case involving Dabur India offers a glimpse into this changing environment. FSSAI had directed the company to halt sales of certain products carrying "100 per cent" claims, including honey, apple cider vinegar, coconut milk, sesame oil and ghee, on the grounds that such descriptions could be ambiguous and potentially misleading to consumers. Dabur challenged the order, and the Delhi High Court has since stayed it. The matter is therefore before the court and the regulatory action has not been finally adjudicated.

The episode, however, has brought renewed attention to a larger question for the industry: how much substantiation should brands have for the promises they make on packs and in advertising?

"It is good to see that FSSAI is taking its role seriously now—earlier it was seen by many as a toothless tiger," says N. Chandramouli, CEO, TRA Research.

While FSSAI's enforcement architecture has existed for several years, the intensity of scrutiny in the food category has risen, says Manisha Kapoor, CEO & secretary general, ASCI. The Advertising Standards Council of India's Annual Complaints Report for 2025-26 found food and beverages among the top five violative categories. Of the 376 cases reviewed in the category, 88% required modification, the report said.

"The action is the visible endpoint where the rising intensity in claims and a 'speed-to-market' culture might have made regulatory action more public," Kapoor says.

Saurabh Arora, managing director, Auriga Research, says regulatory action is also becoming more visible to consumers. "Regulatory actions are no longer confined to notices or court proceedings; they are increasingly becoming part of public discourse. FSSAI is actively publishing enforcement actions on its social media platforms, and instances of non-compliance are now subject to far greater public visibility," he says.

That visibility matters because food and beverage brands are increasingly selling not just products, but attributes—natural, healthy, premium, pure, functional or better-for-you. As consumers become more discerning, the language used to communicate these attributes can become as important as the product itself.

The growth of the premium and health-

CRACKING THE WHIP

■ F&B is among the top violative categories. Of the 376 cases reviewed in FY26, 88% required modification, an ASCI report states

■ Alcohol companies like United Spirits, Inbrew Beverages, & Mohan Rocky Springwater were asked to stop sales of certain variants of Whiskey & Rum for adding flavours

■ FSSAI has flagged eight brands this year for misleading claims on packs

■ In July, FSSAI asked brands like Sting, Red Bull & Hell Energy, to remove the word "energy" from packaging

focused food market has added to this pressure. The 'healthy' and 'premium' segment of the food market, which has grown rapidly, particularly since the Covid-19 pandemic, was valued at \$25.8 billion in 2025 and is projected to reach \$59.8 billion by 2034.

At the same time, social media has made it easier for consumers, regulators and competitors to scrutinise and amplify claims.

"Legacy brands are not necessarily making more mistakes today; they're simply operating in an environment where every claim is examined more closely than ever before," says Yasin Hamidani, director, Media Care Brand Solutions. What might have gone unnoticed a decade ago can now be amplified almost instantly through digital media, consumer activism and stricter regulatory oversight, he adds.

FSSAI's recent interventions underline the broader shift. In June, the regulator issued notices to eight food companies over product names, branding and health claims that it believed could potentially mislead consumers. More recently, it asked beverage brands including PepsiCo India's Sting, Red Bull and Hell Energy, among others, to remove the word "energy" from packaging following regulatory changes that did away with the 'energy drink' classification. The regulator has

also taken action involving select variants manufactured by alcohol companies including United Spirits, Inbrew Beverages and Mohan Rocky Springwater.

Taken together, these developments suggest that the question for brands is no longer simply whether a claim can attract attention, but whether it can withstand scrutiny.

For marketers, that could mean a greater emphasis on substantiation before a product reaches the shelf. Claims may need to be assessed not just from a creative or competitive standpoint, but also from the perspective of what an average consumer is likely to understand from the wording.

"Trust is becoming a brand's most valuable asset, and credibility will increasingly outweigh exaggerated positioning," Hamidani says.

For consumers, meanwhile, greater regulatory scrutiny could have a positive consequence: more clarity about what a product actually promises. Transparent labelling is particularly important in categories where consumers may make purchasing decisions based on perceived health, nutritional or functional benefits.

The challenge for brands is to retain persuasive communication without allowing marketing language to outrun what can be demonstrated. A claim that is technically defensible but likely to confuse consumers can still create reputational questions; conversely, a clear and well-substantiated claim can strengthen consumer confidence.

Ultimately, the cost of losing that confidence can be much greater than the cost of getting the claim right at the outset.

"It's far easier to comply with the law and the regulations than make changes later. Once customers lose faith, it is very difficult for a brand to regain that trust," says Naresh Gupta, CSO and managing partner, Bang In The Middle.

For the food and beverage industry, therefore, the emerging lesson may be less about avoiding claims altogether and more about making promises that brands can consistently and transparently keep.

Motobahn

Why EVs are leaving hybrid cars in the dust

WIDER CHOICES, TAX ADVANTAGES HELP EVs DOUBLE HYBRID SALES IN JAN-JUNE 2026

VIKRAM CHAUDHARY

WHILE ALMOST every year electric vehicles (EVs) and hybrid cars have been selling neck and neck, the first half of this calendar year was an anomaly, when EV sales almost doubled hybrid car sales.

During January-June 2026, hybrid car sales remained flat at 57,885 units (just 0.1% growth), but the top 10 EVs alone dispatched 116,682 units, outperforming total hybrid sales by more than double—overall EV sales were well above 120,000 units, as there are more than 25 models, as compared to just eight hybrid car models in India.

Why EVs are pulling ahead

EVs are surging because carmakers are launching dedicated electric platforms, and a lot of them under ₹20 lakh. The MG Windsor retained the crown with 19,080 units, while the Mahindra XEV 9S (18,074 units) and Tata's lineup (Nexon, Punch, Harrier, and Curvv EVs) provided buyers with ample choices. Maruti Suzuki also made a strong entrance with its eVitara (8,572 units).

Toyota's Innova Hycross (27,812 units) and Urban Cruiser Hyryder (18,577 units) accounted for about 80% of hybrid sales, and seven out of the eight hybrids are under the Toyota-Suzuki alliance (the eighth model is Honda's City e:HEV). High taxation (43% GST on hybrids versus 5% on EVs) has restricted OEM entry, leaving hybrids as a niche.

Can hybrids strike back?

The EV lead may not last long. The hybrid ecosystem is gearing up for a major product offensive. MG, Kia, Hyundai, and BYD are gearing up to introduce new hybrid models

in the coming months. MG and BYD have displayed their wares, and Kia will launch the Sorento hybrid on September 4. In addition, Maruti Suzuki's localised series-hybrid tech—expected to debut on mass-mar-

ket models like the Fronx—could change the game for hybrids by significantly lowering the entry price.

With more hybrids and even EVs coming, the green car customer is the eventual winner.

EV REVIVAL

Can BaaS, buyback revive Creta Electric?

A GOOD EV COULDN'T SELL BECAUSE OF HIGH PRICE

VIKRAM CHAUDHARY

THE HYUNDAI Creta Electric, launched in January 2025, was arguably the most complete EV introduced last year. Combining refinement, solid brand value, and Hyundai's signature tech stack, it had all the ingredients of a blockbuster. But the sales figures tell a different story.

According to FY26 sales data sourced from the industry, the Creta Electric languished at 12th position among EVs—unusual for the iconic 'Creta' nameplate, which has dominated the Indian SUV landscape since 2015.

Having tested the Creta Electric across Delhi-Gurgaon roads and even on the high-speed Delhi-Mumbai Expressway, we know that its engineering excellence is undeniable. In city traffic, it easily stretches to a real-world range of 400 km (an impressive efficiency of up to 8 km/kWh). On highways, where high-speed drag drains batteries faster, it still covers 350 km with an efficiency of up to 7 km/kWh.

The product was never the problem; price was—the Creta Electric was priced starting at ₹17.99 lakh, going up to ₹23.5 lakh (ex-showroom), and was costlier compared even to bigger EVs such as Mahindra's BE 6 that started at ₹18.9 lakh for the 59-kWh variant.

Making EV ownership easier

A year and a half after its launch, Hyundai has recognised the entry price barrier, and has introduced Battery-as-a-Service (BaaS) with the Creta Electric—lowering the entry price to ₹10.99 lakh with a battery usage fee at ₹3.9 per km, for the 42-kWh variant—alongside a 60% assured buyback programme up to three years.

By directly tackling initial price resistance and resale anxiety, Hyundai is attempting to infuse new life into the SUV. Whether these

ownership schemes can reignite interest and pull the Creta Electric up from 12th spot to its rightful place at the top remains to be seen. But one thing is clear: great engineering alone is no longer enough in India's price-sensitive EV market without accessible buying options.

● INTERVIEW: CHRIS PERRY, PRESIDENT, BROADRIDGE

# ‘Data quality, not just AI, will shape finance’s future’

US-BASED FINTECH firm Broadridge Financial Solutions is transforming its India operations from a traditional global capability centre into a hub for product, technology and AI innovation. With nearly one-third of its global workforce based in Bengaluru and Hyderabad, India is playing a growing role in the company’s global strategy. **Chris Perry**, president of Broadridge Financial Solutions, speaks to **Sudhir Chowdhary** about AI’s impact on financial services, the importance of trust in digital financial infrastructure, and India’s expanding strategic role. Excerpts:

## What makes Broadridge India central to your strategy?

Broadridge India has never been just an offshore captive. It is a true think tank that has helped build products, drive innovation and lead transformation across the company. What has changed is the pace of transformation. With over 30 years in India, we have deep domain expertise that enables us to respond to market shifts faster than the competition. In many cases, our India teams are not just executing global priorities but helping shape them. Broadridge India is fully aligned with the company’s global objectives and represents nearly one-third of our global workforce, making it integral to our long-term strategy.

## How is AI reshaping the role of your India teams?

AI is fundamentally changing how companies leverage talent. Historically, India was seen as a lower-cost destination, but AI shifts the focus from cost arbitrage to expertise and innovation. At Broadridge, India has long been valued for its deep domain expertise, and AI is amplifying that advantage. We see AI boosting productivity, accelerating product development and helping us scale while delivering greater value to clients. Engineering teams are evolving into human-and-agent collaborative squads, enabling faster execution, greater capacity and improved customer outcomes.

## What is your strategy for maintaining trust and compliance?

Trust is at the core of our business which is why our guiding principle is to be “Trusted and Transformative.” As clients embrace AI and tokenisation, they need confidence in data governance and counterparties. AI is only as good as the data behind it, so we combine proprietary, cleansed and anonymised data with deep industry expertise to deliver trusted outcomes. Solutions like Bond GPT are built on transparency and strong data foundations to support reliable, responsible AI adoption.

## What separates a high-impact GCC from an execution centre?

The difference lies in solving industry problems, not simply building

EXPANDING CAPITAL MARKETS AND DIGITAL FINANCIAL SERVICES ARE CREATING NEW OPPORTUNITIES

products. Broadridge has consistently applied technology to real market challenges. Our early investment in distributed ledger technology for repo markets is a good example. It has made us the global leader in tokenised repos, with hundreds of billions of dollars in daily trade and expected to reach \$1 trillion in daily settlements by year-end. The aim is not to chase labels such as “innovation hub,” but to build capabilities aligned with the parent company’s strategy, products and clients.

## How do you see Broadridge’s India business evolving?

India is increasingly important to Broadridge as a growth market and innovation hub. Expanding capital markets and digital financial services are creating new opportunities, and we are investing in local capabilities to serve India and neighbouring markets.

Our focus is to be trusted and transformative by strengthening security, governance and compliance while embedding AI across our products. As markets move to real-time settlement, our India teams will help build the next generation of financial infrastructure.

# AI agents create new cybersecurity risks

KARAN MAHADIK

FOR LAKHS OF Indians, an unsolicited WhatsApp message from an unknown number has become part of everyday life, whether it is an advertisement or a promotional offer. Researchers now warn that the next wave of spam could be driven not by conventional bots but by AI agents built into web browsers.

Cybersecurity firm Zenity has shown that OpenAI’s Atlas browser, which came with a built-in AI agent, could be manipulated into sending unsolicited WhatsApp messages to a user’s contacts. The attack did not

exploit any flaw in WhatsApp, nor did it compromise the platform’s end-to-end encryption. Instead, it targeted the AI agent controlling the browser.

Zenity said it found more than 20 security issues across AI-powered browsers and browser extensions from OpenAI, Google, Anthropic, Microsoft and Perplexity. According to the researchers, compromised AI agents could access local files, interact with password managers or perform unauthorised actions such as shopping on behalf of users.

The findings add to growing concerns over AI browser agents, which are designed to browse websites,

complete tasks and take actions autonomously. Unlike traditional browsers, these agents can be manipulated through malicious instructions hidden inside webpages, allowing attackers to misuse the agent rather than exploit the browser itself.

“They have nerfed the security control of browsers—we are now back to seeing the kinds of attacks that you saw on browsers 20 years ago,” said Michael Bargury, co-founder and CTO of Zenity.

OpenAI has said that Atlas will be retired soon, with its browsing capabilities moving to the ChatGPT app. As browser agents become more capable, researchers argue they will need hard security boundaries that prevent them from accessing sensitive data or carrying out high-risk actions.

## WORLD VIEW

# Google’s AI problem runs deeper than leadership

PARMY OLSON

GOOGLE’S PARENT COMPANY Alphabet has shocked Silicon Valley with news of a management shake-up. Its AI boss Demis Hassabis will become the company’s chief scientist, while veteran engineer Jeff Dean is leaving to launch a startup with several other researchers from the firm. Dean had largely stepped back from operations, so the bigger news is Hassabis, who led the company’s all-important AI strategy—the work that Google spent more than \$90 billion on in 2025 before doubling its outlay this year to about \$190 billion.

Hassabis never seemed to have his heart in winning the corporate AI race for Google. The company and its vast resources were more of a means to achieving a bigger dream he often talked about: building super-intelligent machines that could solve intractable scientific problems. When Google hit an AI nadir in 2024 with embarrassing fumbles over its image-generation tool, Hassabis demanded more control and got it. Alphabet CEO Sundar Pichai merged its AI operations in California with those in London under him.

Later that year Hassabis won the Nobel Prize in chemistry for his work on protein structure prediction. He also transformed DeepMind from an independent scientific lab into a product factory focused entirely on

Sundar Pichai and Demis Hassabis at an AI crossroads

improving its AI model, Gemini.

In recent interviews, he sounded more animated about AI’s potential to speed up scientific discovery than by Gemini’s consumer or enterprise applications. He was quite enthused about biology and drug discovery through his startup Isomorphic Labs.

What happened next remains unclear. People close to DeepMind suspect a fallout between the top brass and that the chess master was outmaneuvered by Koray Kavukcuoglu, Hassabis’ former No. 2 joined DeepMind a few years before it sold out to Google. Today he looks to be on a path to potentially succeeding Pichai as Alphabet’s CEO.

Google’s broader AI challenge

has proven it can invent breakthrough models. Now it must keep pace with OpenAI and Anthropic in shipping products. While Hassabis can devote more time to his scientific quests, Kavukcuoglu must help Google get its mojo back in AI development.

As the exodus of talent has continued this year, it became clear that Hassabis wasn’t fixing the problem or Google’s chronic inertia. Kavukcuoglu might. But that will depend on how the company’s leaders steer the ship now that control of AI strategy is shifting back to California. Pichai has overseen some of the biggest scientific breakthroughs in modern computing. Now he needs an organisational revolution that proves Google can turn them into products.

—BLOOMBERG

## Top Chinese AI model evades testing

CHINESE FIRM MOONSHOT’S latest AI model broke out of a cyber-testing environment, researchers said, in the latest incident that raises concerns about how well AI firms control their technology. Moonshot’s Kimi K3 was able to find its way out of a sandbox from the UK government’s AI Security Institute, according to Frontier Security, a US-based cybersecurity research outfit. Though the Chinese model did not try to breach other companies’ websites, the test shows it lacks cyber controls.

“Kimi’s model, does not have these guardrails in place,” said Yaron Singer, founder and CEO of Frontier Security. “Basically that makes this a very good hacking model.” Moonshot joins US firms Anthropic, OpenAI and Meta Platforms, which have recently reported breaches that saw their models escape testing environments, alarming researchers and government leaders who’ve called for more rigorous safety screening and secure testing environments.

## RESEARCH AT SCALE

Greg Brockman, president & co-founder, OpenAI

Putting frontier AI in the hands of academic researchers means more breakthroughs against humanity’s toughest problems

# The data risk nobody owns

BOARDS LOVE VISIBLE risk. They debate cyber threats, AI regulation, cloud concentration, geopolitical shocks, supply-chain exposure and quarterly cash discipline. They review dashboards on security, compliance and financial controls. Yet one of the biggest liabilities inside most enterprises sits outside the spotlight: unstructured data that nobody owns, audits or can confidently account for.

This is dark data—contracts in forgotten shared drives, historical invoices in disconnected archives, HR records buried in old mailboxes and documents retained long after their purpose has ended. Executives still treat this as an IT hygiene issue. Dark data is a governance failure with legal, operational and strategic consequences. The challenge is not that enterprises have too much data, but that they have too much data they cannot identify.

That should worry every CEO. Regulators do not care whether personal data sits in a governed system or a forgotten file share. Legal discovery does not become cheaper because records are poorly archived. Customers are unlikely to be more forgiving because a breach exposed old content rather than active systems. And AI cannot deliver reliable outcomes if it is built on poorly governed information.

This is the blind spot in many enterprise data strategies. Companies are racing to apply AI to contracts, emails, supplier documents, knowledge repositories and customer records. They want intelligence at the top of the stack.

That is not transformation. It is acceleration without control. As AI systems retrieve and act on

SRIVIDYA KANNAN

poorly classified information, the cost of dark data extends beyond legal exposure to decision quality and operational resilience.

Dark data is a growing business risk. Boards can no longer treat it as an IT issue. They need to know where sensitive data resides, what no longer has business value and who is accountable if regulators, customers or investigators demand access.

In many organisations, no one has the full answer. IT assumes legal ownership retention. Legal assumes business units own content. Business teams assume IT has archived everything properly. Meanwhile, file shares, email archives and backups continue to grow.

Policies alone are not governance. A retention policy is meaningless if an organisation cannot locate the data it is meant to govern. An AI strategy is equally weak if the enterprise has no visibility into information it expects AI to analyse. Every CXO team should commission a dark data audit to identify repositories, assess sensitive information, decide what should be retained or deleted and eliminate unnecessary risk.

This is not glamorous work, but it is foundational. Organisations that act now will reduce legal risk, strengthen cyber resilience and build a stronger foundation for AI. Those that delay will pay through higher costs, greater compliance exposure and weaker business outcomes.

The winners will not be those that deploy the most AI, but those that first govern the data they already have.

The writer is founder & CEO of Avaali Solutions

## GADGETS

# A tale of two foldables

SAMSUNG’S LATEST FOLDABLES PUSH PREMIUM FURTHER

SUDHIR CHOWDHARY

THE FOLDABLE SMARTPHONE market has entered a more mature phase, and Samsung’s latest devices reflect that. Alongside the Galaxy Z Fold8, the company has introduced the Fold8 Ultra—the first ‘Ultra’ model in its foldable portfolio. Rather than reinventing the foldable, Samsung is giving buyers a clearer choice between two premium devices built on the same foundation.

After spending time with both, what stands out is not how different they are, but how similar they feel. Reviewed here in the 12GB RAM and 256GB storage variant, both are powered by Qualcomm’s Snapdragon 8 Elite Gen 5 for Galaxy processor, run the same refined One UI software and feel equally responsive in everyday use. The Ultra isn’t a different phone; it’s the Fold8 with a little more of everything.

The refinements are immediately noticeable. Both phones are slimmer than before, the hinge feels reassuringly solid and the crease is far less noticeable in daily use. Neither device feels experimental anymore. Closed, they’re premium smartphones; open them up and they become capable productivity devices.

This is where the two begin to part ways. The Fold8 is easier to carry, more comfortable in one

hand and slips into a pocket without much fuss. The Fold8 Ultra, meanwhile, makes the most of its larger footprint. Its 8-inch Dynamic AMOLED 2X inner display, compared to the Fold8’s 7.6-inch panel, gives you extra room for presentations, spreadsheets and long documents. The cover displays follow the same pattern: 5.5 inches on the Fold8 and 6.5 inches on the Ultra, with both supporting a 120Hz adaptive refresh rate. Samsung’s displays remain among the best on any smartphone.

Performance is effortless. The Snapdragon 8 Elite Gen 5 for Galaxy, paired with 12GB RAM, handles multitasking, gaming and productivity with ease, while keeping heat well under control even during extended sessions.

The biggest distinction lies in the cameras. The Fold8 gets a 50MP main sensor and a 50MP ultra-wide camera, delivering consistently sharp and reliable images for everyday shooting. The Fold8 Ultra adds

a 200MP primary sensor and a 10MP telephoto camera, making it the better choice for zoom, low-light photography and aggressive cropping. In daylight the gap is modest, but in more demanding conditions the Ultra earns its name.

Battery capacity is similarly close: 4,800mAh on the Fold8 and 5,000mAh on the Ultra. Despite the difference, both comfortably lasted a full working day during testing, with wired, wireless and reverse wireless charging available on both.

Samsung’s biggest strength remains its software. Split-screen multitasking, floating windows, drag-and-drop between apps and Galaxy AI features make the larger display genuinely useful rather than gimmicky.

Ultimately, the choice comes down to priorities. The Fold8 Ultra expands Samsung’s foldable lineup with a larger display and a more capable camera system, while the Fold8 delivers nearly the same experience in a more compact and easier-to-carry package.

## TECH BYTES

## Infosys wins Crocs’ IT deal

INFOSYS HAS SIGNED a 10-year pact with US-based footwear maker Crocs to modernise the company’s global IT and business systems as part of its digital transformation programme. The engagement will see Infosys deploy its AI-first platforms to simplify operations, standardise processes and improve real-time decision-making across Crocs’ global retail operations. The partnership will also focus on enhancing operational efficiency and customer experience across its global business.

## Adobe’s creative boost for ChatGPT

ADOBE HAS LAUNCHED a plugin for ChatGPT that allows users to create and edit images, videos, designs and documents without leaving the chatbot. Available globally on ChatGPT’s web and mobile apps, the plugin brings toge-

ther Adobe tools such as Photoshop, Premiere, Acrobat and Firefly through a single interface.

## LTM sharpens software security

LTM HAS ADDED Chainguard to its BlueVerse RightLogic cybersecurity platform to help firms strengthen software supply chain security. The move combines LTM’s AI-powered cyber risk assessment with Chainguard’s secure open-source software to improve visibility and support AI-driven software development.

BENGALURU

# Israel rejects Trump's 15-point Gaza plan

STEVEN SCHEER & NIDAL AL-MUGHRABI  
Jerusalem/Cairo, August 9

**ISRAELI PRIME MINISTER** Benjamin Netanyahu restated his rejection of Donald Trump's latest Gaza plan in televised remarks to his right-wing government on Sunday, even as Israel's military has effectively halted attacks in the territory under pressure from the US President.

Netanyahu is in campaign mode as he seeks re-election at a vote due on October 27 but is caught between far-right ministers angered by concessions in Gaza and his key military backer, Trump, who wants progress towards ending the conflict there with a new 15-point peace plan.

Israel has scaled back attacks in Gaza since Monday, when Nikolay Mladenov, the Gaza envoy for Trump's Board of Peace that oversees the Gaza ceasefire, met with Netanyahu. A source

Benjamin Netanyahu has rejected Donald Trump's Board of Peace 15-point plan for Gaza, and will not withdraw until Hamas fully disarms

FILE PHOTO

familiar with Israel's position said it had agreed that the military would only act against what it perceives as immediate threats in Gaza and no longer carry out targeted assassinations as it had been doing on a near-daily basis.

## Israel, Hamas disagree

Trump announced last month that there had been a breakthrough in his plan to end

the war, to which both Israel and Hamas agreed, with Israeli forces withdrawing as Hamas disarms and an International Stabilization Force working with a new Palestinian police force to secure the enclave.

But complications have swiftly emerged. Israel has said that Israeli troops in Gaza would not move before Hamas disarms. —REUTERS

## FROM THE FRONT PAGE

### FCNR window may close...

THE RBI'S JUNE 5 package was designed to make FCNR(B) deposits more attractive by removing interest-rate caps on fresh FCNR(B) and NRE deposits until September 30 and offered banks a special three-to-five-year swap facility under which the central bank bears the full hedging cost. The facility also covers eligible inflows from ECB and OFCB.

Banks subsequently raised FCNR(B) deposit rates sharply, making the deposits more competitive for overseas investors despite high dollar rates overseas. As a result, dollar inflows surged despite oil-price volatility and geopolitical risks in West Asia.

India's foreign exchange reserves increased by \$10.51 billion to \$692.87 billion in the week ended July 31, marking the highest weekly gain since January 30, driven by a rise in foreign currency assets and gold reserves.

But the very success of the scheme is now reviving memories of 2013, when a similar FCNR(B) drive yielded around \$26 billion to shore up the rupee during a period of intense market stress. The eventual maturity of those deposits created another foreign-exchange management challenge. The RBI handled the situation through planned forward purchases and other market operations, cushioning the impact of the outflows on the rupee and forex reserves.

The RBI's current swap window applies to FCNR (B) deposits of tenures 3 years and 5 years booked or renewed between June 8 and September 30, 2026. The scheme doesn't allow premature withdrawal of deposits in the first year.

### Car firms rev up for festive rush...

THE MODEL IS expected to be offered with plug-in hybrid and electric powertrain options.

The competition will extend beyond the mass market. Skoda Auto India is set to launch the facelifted Slavia with styling, mechanical and infotainment upgrades, while Volkswagen is expected to follow with a refreshed Virtus. Kia will launch the three-row Sorento on September 4, with petrol-hybrid and diesel options.

Premium carmakers are also timing new products around the festive period. BMW will launch the petrol-powered X1 Long Wheelbase on August 21, while facelifted versions of the 7 Series and i7 are expected during the season. Volvo Cars is set to introduce its flagship EX90 electric SUV and is evaluating an electric sedan.

## Beyond Skyroot...

THE IMBALANCE IS more visible at the company level. Of the 334 space tech startups in India, only 106 have secured institutional funding, while just 25 have progressed beyond the Series A stage. Most of the funded companies are yet to turn profitable as they continue investing in research, testing and manufacturing infrastructure.

Industry executives say the shortage is no longer at the seed stage, where investor interest has improved, but at the growth stage, where firms require significantly larger investments to commercialise technologies and expand production. "Capital allocation for space-tech companies is concentrated in the seed stage. An equally difficult challenge begins once a company moves beyond prototyping and enters the scaling phase," Choudhury said, adding that startups need growth capital to build infrastructure, develop market traction and compete globally.

Experts say Skyroot's success

alone is unlikely to broaden the ecosystem unless investors begin backing companies across the space value chain.

While launch companies have attracted the bulk of investor attention because of their strategic importance, satellite manufacturers, earth observation firms, communications companies and downstream applications will also require sustained capital if India

is to build a globally competitive space industry.

"Reaching orbit is only the entry ticket. The firms that scaled globally built commercially viable businesses alongside their technology platforms," Choudhury said.

With India's space economy projected to expand from about \$8 billion to \$44 billion by 2033, investors believe Skyroot's success has removed a key technology risk for the sector. Whether that results in a broader funding pipeline, however, will depend on investors backing the ecosystem beyond a handful of proven firms.

**With the space economy projected to expand to \$44 billion by 2033, investors believe Skyroot's success has removed a key technology risk for the sector**

# The missing manufacturing middle

THERMAX CLOSED FY26 with a consolidated order book of ₹13,604 crore, up 27% year-on-year, while full-year order bookings rose 34.2% to ₹13,871 crore. Data centres accounted for about 2% of its order book at FY26-end but are becoming a growing opportunity.

"AI is reshaping industries while creating unprecedented demand for power, cooling and infrastructure. Thermax can participate across this value chain through power and heat recovery systems, absorption cooling, water treatment solutions and digital optimisation," said MD & CEO Ashish Bhandari.

Polycab is seeing a similar shift. Its annual report estimates cables can account for 8-10% of data-centre capex, compared with about 3% in conventional infrastructure. EV charging, renewable energy and semiconductor manufacturing are also identified as "sunrise sectors". Its Project Spring entails ₹6,000-8,000 crore of capex over five years to expand capacity.

Elecon Engineering, meanwhile, is benefiting from

demand for industrial gears used in machinery across new-age infrastructure. Its management has stressed "profitability over volume" as it moves towards higher-value engineered products.

At TD Power Systems, data centres and AI-led power demand are emerging as major growth catalysts, with generators and rotating electrical equipment needed to provide reliable power amid grid constraints. The company is expanding capacity and its product range to capture the opportunity. CG Power and Industrial Solutions is also positioned in this infrastructure layer. Chairman Vellayan Subbiah has described its transformers, switchgear and rail systems as "foundational" to India's infrastructure and energy transition.

Schaeffler India offers evidence of what deeper localisation can look like. CFO Hardevi Vazirani said localisation is close to 80%, while the company continues to invest in capacity. "We have capacities, but we need to use them in the right area and use them to our

strengths," she said. These companies represent one end of the emerging opportunity: established manufacturers with the balance sheets, technology and engineering capabilities to move into new supply chains. The harder challenge is creating many more such companies.

That becomes particularly visible in electronics and semiconductors, where gaps in the domestic supply chain remain significant. Brandworks founder Ishwar Kumhar said the next generation of technology must be "designed, engineered, and built in India". While the firm is expanding local manufacturing, critical inputs such as chips and sensors remain largely imported.

"Government schemes like PLI have played a meaningful

role in encouraging companies like ours to invest further in local manufacturing and localisation," Kumhar said, adding that the company is continuing to assess how to expand component-level manufacturing.

GX Group is targeting another gap through photonics. CEO Paritosh Prajapati said its partnership with SMART Photonics represents a shift from importing optical technology to exporting innovation. The company plans to invest ₹500 crore initially and eventually ₹3,000 crore in the ecosystem.

"Certain highly specialised inputs such as compound semiconductor wafers and specialty optical materials will continue to be sourced globally in the near term," Prajapati said.

For the millions of smaller

businesses below this layer, however, graduating into sophisticated suppliers requires capital, technology, skills, certification and the ability to deliver consistently at scale.

Finance remains one of the biggest constraints. Gujarat MSME expert Divyesh Ladva said cash flow is the biggest bottleneck. "You need proper infrastructure to earn revenue," he said, adding that several MSMEs struggle to meet banks' requirements despite financing schemes.

Experts say closing that gap could determine how much India ultimately gains from the manufacturing investment boom. Attracting an assembly plant or mega factory is only the first step. The larger prize comes when the machinery, components and engineering systems it needs are increasingly supplied by competitive companies operating around it—and when today's micro and small businesses are able to graduate into that supplier network.

The next phase of Atmanirbhar Bharat, therefore, is less about replacing every import than about building competitive depth. India has begun attracting the mega-projects. The harder task now is to build the industrial middle beneath them.

## FDI limit for CCEA nod to treble...

IN MAY, THE Department for Promotion of Industry and Internal Trade (DPIIT) revised the Standard Operating Procedure (SOP) for Processing FDI proposals. This was done to streamline and digitise the approval framework for FDI proposals requiring government nod.

The SOP replaces the earlier 2017 framework and introduced expanded compliance, disclosure and monitoring requirements. It extends the disposal timeline to 12 weeks from 10 weeks. It, however, puts a fixed timeframe even for security clearance from the Ministry of Home Affairs (MHA) and approvals from the Ministry of External Affairs (MEA) and Reserve Bank of India (RBI).

Under the new procedure for FDI clearance, all consulted ministries and departments, including RBI, MHA and MEA, shall provide their comments within the prescribed timeline. If comments are not received within

the prescribed time, it shall be presumed that they have no comments to offer. In 2025-26, India received gross FDI of \$94.53 billion. Net FDI inflows, however, declined to less than \$1 billion in FY25 from a high of \$44 billion in FY21. Net inflows improved to \$6.9 billion in FY26. Economists project net FDI inflows to rise to a four-year high of around \$15 billion in FY27.

According to Invest India leadership, the country is on track to attract an average of \$100 billion in annual FDI over the next seven years if present trends sustain.

## Q-comm's private label...

ITS SHARE OF urad dal has risen to 28.7% from 15.1%, while it accounts for 51% of maida and 58% of rice flour sold on the platform. Zepto's Daily Good accounts for 12-14% of staples sales, with a strong presence in dals, specialty staples and dry fruits. It accounts for 40% of urad dal, 71% of munakka, 83% of peanuts and 65% of raisins sold on the platform, the data showed. It has also expanded into edible oils, accounting for 16% of soyabean oil and 5% of sunflower oil sales.

Blinkit's Whole Farm, with an 8-10% share, has taken a more selective approach. It is focused largely on coarse grains and niche staples where consumers are less likely to have a strong brand preference. It accounts for 95% of barley, 67% of chawli and 62% each of white matar and munakka sold on Blinkit, but has a limited presence in larger dal and dry-fruit categories.

"The restraint is deliberate. Blinkit would rather stock the widest possible range than

lean too hard on its own label. They want to give as many options to the customer. Swiggy has been the most aggressive, with Zepto also going after a wider range," Satish Meena, advisor at Datum Intelligence, said.

The economics are driving the push. Private labels in staples earn margins of 15-25%, roughly twice those on third-party brands, Meena said. Platforms are also using lower prices to build scale. Supreme Harvest's chana dal is priced nearly 30% below the category average, while Daily Good's mustard oil is almost 37% cheaper and Whole Farm's ragi about 29% cheaper, according to 1digitalstack.ai.

The strategy is now moving into higher-value packaged foods. Instamart's premium label Noice has increased its share in beverages to around 7.2% from 5.8% in December and in snacks to 5.5% from 4.4%. Swiggy said Noice spans more than 46 categories and 380 stock keeping units (SKUs), and now features in one

in every 10 baskets.

Fresh produce offers an even bigger prize, with private-label margins of 35-45%, three to four times those earned on third-party sellers, Meena said. Instamart is piloting its Nectr fruits-and-vegetables label across five dark stores in Bengaluru.

Swiggy said the pilot increased fruit-and-vegetable spending by 10%, repurchase rates by 12 percentage points and platform retention by 7 percentage points.

Zepto has also piloted Harvest Store in premium neighbourhoods of Mumbai and Bengaluru. Beyond margins, owned brands give platforms greater control over inventory and availability, an important advantage in a business where stock-outs can quickly push customers to a rival app.

"In q-comm, predicting demand is critical. Owned brands will have a clear edge here in ensuring wider availability, and reducing wastage by avoiding over indexing," Meena said.

**HOLMARC**  
OPTO-MECHATRONICS LTD

**NOTICE OF 34<sup>TH</sup> ANNUAL GENERAL MEETING**

Notice is hereby given that the **34<sup>th</sup> Annual General Meeting (AGM)** of the Members of **HOLMARC OPTO-MECHATRONICS LIMITED** (the "Company") will be held on **Tuesday, 01<sup>st</sup> day of September, 2026, at 3.30 P.M.** at Conference Hall, First Floor, the Kerala State Small Industries Association (KSSIA), HMT Industrial Estate, Kalamassery, Kanayanoor Taluk, Ernakulam, Kerala - 683503 to transact the businesses as set out in the Notice of AGM dated 05/08/2026. Dispatch of the Notice of the Annual General Meeting (AGM) along with the Annual Report for the financial year 2025-26 has been completed on 08/08/2026. A copy of notice is available on Company website at [www.holmarc.com](http://www.holmarc.com), website of National Stock Exchange at [www.nseindia.com](http://www.nseindia.com) and on the website of CDSL at [www.evotingindia.com](http://www.evotingindia.com).

Pursuant to Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014, the Company provides for e-voting (remote voting) facility to its shareholders to exercise votes on all the resolutions set forth in the Notice of AGM. The Company has engaged CDSL for providing the said facility. The details of remote voting are given below:

- Members of the Company as on cut-off date which is 25<sup>th</sup> August 2026 may cast their votes remotely, using an electronic voting system on the dates mentioned herein below ("remote e-voting") through the e-Voting platform provided by CDSL. The e-Voting shall commence on August 29<sup>th</sup>, 2026 at 09.00 AM (IST) and shall end on August 31<sup>st</sup>, 2026 at 05.00 PM (IST). The remote e-voting module shall be disabled by CDSL thereafter.
- Those members who have acquired shares after dispatch of notice and holds shares as on cut-off date are required to obtain their login details by sending a request to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or by contacting Company's RTA, Cameo Corporate Services Limited, "Subramanian Building", #1, Club House Road, Chennai - 600002, India (email- [cameo@cameoindia.com](mailto:cameo@cameoindia.com), Tel: 044-40020710 / 044-2846 0390)
- The facility for voting by ballot or polling paper shall be made available at the meeting and Members of the Company as of cut-off date, attending the meeting who has not already cast their vote by remote e-voting shall be able to exercise their right at the meeting. The Members who have cast their vote by remote e-voting prior to the meeting may also attend the meeting but shall not be entitled to cast their vote again.

If you have any queries or issues regarding e-Voting from the CDSL e-Voting System, you can write an email to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or contact at toll free no. 1800 21 09911

All grievances connected with the facility for voting by electronic means may be addressed to Mr. Rakesh Dalvi, AVP, (CDSL) Central Depository Services (India) Limited, A Wing, 25<sup>th</sup> Floor, Marathon Futurex, Mafatlal Mill Compounds, N M Joshi Marg, Lower Parel (East), Mumbai - 400013 or you may send an email to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or call at toll free no. 1800 21 09911. Members may also write to [cs@holmarc.com](mailto:cs@holmarc.com).

DETAILED PUBLIC ANNOUNCEMENT FOR THE ATTENTION OF EQUITY SHAREHOLDERS OF AVADH RAIL INFRA LIMITED

Corporate Identity No: U25199TN1980PLC008354; Registered Office: P.A.5, Industrial Complex, Maraimalai Nagar, Kanchipuram, Chengalpattu, Chennai - 603 209, Tamil Nadu, India; Corporate Office: 702, Felix Square, Near Lulu Mall, Sushant Golf City, Lucknow - 226 030, Uttar Pradesh, India; Mob. No.: +91-93075 23001; Email ID: compliance@avadhrail.com; Website: www.avadhrail.com; Company Secretary & Compliance Officer: Mr. Dheerendra Verma

This detailed public announcement ("Detailed Public Announcement" or "DPA") is being issued by Intelligent Money Managers Private Limited ("Manager" or "Manager to the Delisting Offer") for and on behalf of the members of the promoter and promoter group of Avadh Rail Infra Limited ("ARIL", "Company"), (as defined under the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("Promoter Group")) viz., Mr. Abhishek Saraff ("Acquirer"), to the public shareholders (i.e. shareholders other than the Promoter and the Promoter Group) as defined under Regulation 2(1)(i) of the Delisting Regulations (as defined below) and hereinafter referred to as "Public Shareholders", expressing his intention to: (a) acquire all the Equity Shares (as defined below) that are held by Public Shareholders, individually; and (b) consequently voluntarily delist the Equity Shares from The Calcutta Stock Exchange Limited ("CSE"), the stock exchange where the shares of the Company are listed (the "Stock Exchange"), by making a delisting offer, in accordance with the Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021, as amended ("Delisting Regulations") and in accordance with the terms and conditions set out below and/or in the Letter of Offer (as defined below) (hereinafter referred to as the "Delisting Proposal/ Delisting Offer").

1. The Acquirer is the member of the Promoter group of the Company. As on the date of this DPA, the members of the Promoter and Promoter Group collectively hold 5,29,815 Equity Shares representing 99.11% of the total paid-up equity share capital of the Company.

2. The Acquirer is making this DPA to acquire up to 4,765 Equity Shares ("Offer Shares") representing 0.89% of the paid-up equity share capital of the Company that are held by the Public Shareholders of the Company pursuant to the Delisting Regulations. If the Delisting Offer is successful in accordance with the terms set out in paragraph 13 read with paragraph 14 of this DPA, the Acquirer will make an application to delist the Equity Shares from the Stock Exchange pursuant to and in accordance with the Delisting Regulations and on the terms set out in this Detailed Public Announcement, the Letter of Offer and any other Delisting Offer documents. Consequently, the Equity Shares shall be voluntarily delisted from the Stock Exchange.

3. The Company has received a letter dated November 01, 2025 from the Acquirer informing about the floor price of Rs.4,660/- per Equity Share ("Floor Price") determined in accordance with Regulation 19A of the Delisting Regulations, along with the valuation report dated October 31, 2025 issued by Mr. Suman Kumar Verma, an IBI Registered valuer bearing Registration No. IBBIRV/05/2019/12376.

4. Pursuant to Initial Public Announcement dated September 01, 2025 ("IPA"), the Acquirer expressed his intention to acquire the Offer Shares and consequently voluntarily delist the Equity Shares from the Stock Exchange by making a Delisting Offer in accordance with the Delisting Regulations. The receipt of the IPA was initiated by the Company to the Stock Exchange on September 01, 2025.

5. Upon receipt of the IPA, the Company appointed CS Smrita Sharma, Proprietor of M/s. Smrita Sharma & Associates, a Peer Reviewed Practising Company Secretary in terms of Regulation 10(2) of the Delisting Regulations, to carry out due diligence in accordance with Regulation 10(3) of the Delisting Regulations and the same was notified to Stock Exchange on September 04, 2025.

6. On September 16, 2025 the Company intimated the Stock Exchange that a meeting of the Board is scheduled to be held on September 19, 2025 in order to: (i) take on record and review the due diligence report of the Peer Reviewed Practising Company Secretary, in terms of Regulation 10(3) of the Delisting Regulations ("Due Diligence Report"), (ii) to approve/reject the proposal of voluntary delisting of the equity shares of the Company made by the Acquirer, and (iii) any other matters incidental thereto or required in terms of the Delisting Regulations, including seeking shareholders' approval, as may be required.

7. The Board, in their meeting on September 19, 2025, inter-alia, took the following decisions:

a) The Due Diligence Report and Share Capital audit report, as tabled before them were taken on record,

b) Based on the information available with Company and after taking on record the Due Diligence Report, the Board in accordance with Regulation 10(4) of the SEBI Delisting Regulations, certified that:

i. The Company is in compliance with the applicable provisions of securities laws;

ii. The Acquirer and its related entities, are in compliance with the applicable provisions of securities law Regulations in terms of the Report including compliance with Regulation 4(5) of the Delisting Regulations; and

iii. The Delisting Proposal, in their opinion, is in the interest of the Public Shareholders of the Target Company.

c) The Delisting Proposal was approved by the Board in accordance with Regulation 10 of the SEBI Delisting Regulations.

d) The Board granted its approval to the Company to seek shareholders' approval by way of special resolution through postal ballot and e-voting in accordance with Regulation 11 of the Delisting Regulation and other applicable laws, and thereby approved the draft of the postal ballot notice and the explanatory statement thereto. The Company was authorized to dispatch the said postal ballot notice and the explanatory statement to the shareholders of the Company in accordance with the provisions of the Companies Act, 2013, the Companies (Management and Administration) Rules, 2014, the SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, as amended, Delisting Regulations and any other applicable laws;

e) Ms. Smrita Sharma, Practicing Company Secretary, Proprietor of M/s. Smrita Sharma & Associates, Membership Number: A17757, CP-6077 was appointed as the scrutinizer in terms of the Companies Act, 2013, read with the Companies (Management and Administration) Rules, 2014, to conduct the process of the postal ballot in a fair and transparent manner.

The outcome of the meeting of the Board was disclosed by the Company on the same day, i.e., September 19, 2025 to the Stock Exchange.

8. The dispatch of the notice of postal ballot dated September 19, 2025 for seeking the approval of the shareholders, through postal ballot and e-voting for the Delisting Offer, as required under the Delisting Regulations and the Companies Act, 2013 and the rules made thereunder, was completed on September 26, 2025.

9. The shareholders of the Company approved the Delisting Offer by way of a special resolution in accordance with Regulation 11(4) of the Delisting Regulations on October 28, 2025. The results of the postal ballot were announced on October 28, 2025 and the same were intimated to the Stock Exchange on October 29, 2025. As part of the said resolution, the votes cast by the Public Shareholders in favour of the Delisting Offer are 1,210 votes which is more than two times the number of votes cast by the Public Shareholders against it (i.e., Nil votes).

10. CSE has issued its in-principle approval to the Delisting Offer subject to compliance with the Delisting Regulations, pursuant to the letter reference No. CSE/LD/INP/18168/2026 dated August 07, 2026 received on August 07, 2026 in accordance with Regulation 12 of the Delisting Regulations.

11. This DPA is being issued in the following newspapers as required under Regulation 15(1) of the Delisting Regulations:

| Newspaper         | Language      | Editions        |
|-------------------|---------------|-----------------|
| Financial Express | English Daily | All Editions    |
| Jansatta          | Hindi Daily   | All Editions    |
| Arthiki Lipi      | Bengali       | Kolkata Edition |

12. Any changes, modifications or amendments to this Detailed Public Announcement, if any will be notified by way of issuing corrigendum in all the aforesaid newspapers.

13. The Delisting Offer is subject to the acceptance of the Discovered Price, determined in accordance with the SEBI Delisting Regulations, by the Acquirer. The Acquirer shall be bound to accept the equity shares tendered or offered in the Delisting Offer, if the discovered price determined through the reverse book building process is equal to the Floor Price or the indicative price, if any, offered by the Acquirer. The Acquirer may also, at its sole and absolute discretion, propose: (a) a price higher than the Discovered Price for the purposes of the Delisting Offer, or (b) a price which is lower than the Discovered Price but not less than the book value of the Company as certified by the Manager to the offer (as defined below) in terms of Regulation 22(5) of the SEBI Delisting Regulations ("Counter Offer Price"). The "Exit Price" shall be: (i) the Discovered Price, if accepted by the Acquirer; or (ii) a price higher than the Discovered Price, if offered by the Acquirer at its discretion; or (iii) the Counter Offer Price offered by the Acquirer at its absolute discretion and if accepted by Public Shareholders, results in the shareholding of the members of the promoter/promoter group of the Company reaching 90% of the total equity share capital of the Company, excluding the Equity Shares which are held by the following:

a. custodian(s) holding shares against which depository receipts have been issued overseas;

b. trust set up for implementing an Employee Benefit scheme under the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;

c. inactive shareholders such as vanishing companies, struck off companies, shares transferred to Investor Education and Protection Fund account and shares held in terms of sub-regulation (4) of regulation 39 read with Schedule VI of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015.

However, as the Acquirer along with other Members of the Promoter/ Promoter Group already holds more than 90% of the total equity share capital of the Company, any price accepted by the Acquirer in compliance with the SEBI Delisting Regulations shall be Exit Price.

14. The Acquirer reserves the right to withdraw the Delisting Offer in certain cases as set out in paragraph 14 of this DPA.

15. As per Regulation 28 of the SEBI Delisting Regulations, the Board is required to constitute a committee of independent directors to provide its written reasoned recommendation on the Delisting Offer and such recommendations shall be published at least 2 (two) working days before the commencement of the Bid Period in the same newspapers where the DPA is published.

2. NECESSITY AND OBJECTIVE OF THE DELISTING OFFER

2.1 In terms of Regulation 8(3)(a) of the Delisting Regulations, the rationale/ reasons for the Delisting Proposal are as follows:

a. the proposed delisting would enable the members of the Promoter Group to obtain full ownership of the Company, which in turn will provide enhanced operational flexibility. As the Company will no longer remain listed in India, there will be reduction in dedicated management time to comply with the requirements associated with continued listing of equity shares, which can be refocused on its business;

b. the delisting proposal will enhance the Company's operational, financial and strategic flexibility including but not limited to corporate restructurings, acquisitions, exploring new financing structures, including financial support from the Promoter Group;

c. the proposed delisting will result in reduction of the ongoing substantial compliance costs which includes the costs associated with listing of equity shares such as annual listing fee and fees payable to share transfer agents, expenses towards shareholders' servicing and such other expenses required to be incurred as per the applicable securities laws;

d. The shares of the Company are infrequently traded on the stock exchange. The delisting proposal is in the interest of the Public Shareholders as it will provide them an opportunity to exit from the Company at a price determined in accordance with the Delisting Regulations.

3. BACKGROUND OF THE ACQUIRER

3.1 Abhishek Saraff, aged 55 years, is presently residing at 401, Crown Block, Eldeco Green Apartments, Gomtinagar, Lucknow - 226 010, Uttar Pradesh, India. The key financial ratios, mentioned herein above, have been computed as under:

Net worth / Equity Share Capital + Other Equity (Reserves and Surplus) - Revaluation reserve

Basic Earnings Per Share / Weighted Number of Equity Shares outstanding

Diluted Earnings Per Share / Weighted Number of Equity Shares outstanding, adjusted with dilutive potential ordinary shares

Book Value per share / Net worth of Equity Shares outstanding at the end of the period/year

Return on Net Worth (%) / Net Profit/ (Loss) after Tax / Net worth

| Total                                  |                | 5,29,815             | 99.11          |

6. STOCK EXCHANGE FROM WHICH THE EQUITY SHARES ARE SOUGHT TO BE DELISTED

6.1 The Equity Shares of the Company are currently listed on CSE only. The Equity Shares have not been traded on the CSE since several years.

6.2 The reference date for as per Regulation 19A(2) of SEBI (Delisting of Equity Shares) Regulations, 2021 for computing the floor price was September 01, 2025 i.e., the date of initial public announcement made by the acquirer ("Reference Date") and the Equity Shares of the Company are infrequently traded in terms of Regulation 2(1)(i) of the SEBI Takeover Regulations.

6.3 The Acquirer is seeking to delist the Equity Shares of the Company from the CSE and CSE pursuant to letter reference No. CSE/LD/INP/18168/2026 dated August 07, 2026 has granted "in-principle" approval to the Delisting Offer.

6.4 No application for listing shall be made in respect of any Equity Shares which have been delisted pursuant to this Delisting Offer for a period of 3 (three) years from the date of delisting.

6.5 Any application for listing made in future by the Company after the aforementioned period in respect of delisted Equity Shares shall be deemed to be an application for fresh listing of such Equity Shares and shall be subject to the then prevailing laws relating to listing of equity shares of unlisted companies.

6.6 The Acquirer proposes to acquire the Offer Shares pursuant to a reverse book-building process through an acquisition window facility, i.e., separate acquisition window in form of web based bidding platform provided by BSE, in accordance with the stock exchange mechanism (the "Acquisition Window Facility" or "Offer to Buy (OTB)"), conducted in accordance with the terms of the Delisting Regulations and the SEBI Circulars.

7. LIKELY POST SUCCESSFUL DELISTING OFFER SHAREHOLDING PATTERN OF THE COMPANY

7.1 The most likely post-delisting shareholding assuming that all Equity Shares outstanding with the Public Shareholders are acquired pursuant to a successful completion of the Delisting Offer in terms of the Delisting Regulations shall be as follows:

| Particulars                 | No. of Equity Shares | % of Fully Paid up Share Capital of the Company |
|-----------------------------|----------------------|-------------------------------------------------|
| Promoter and Promoter Group | 5,34,580             | 100.00                                          |
| Public                      | Nil                  | Nil                                             |

Notes:

(1) High and low price for the period are based on intra-day prices and average price is based on average of closing price.

(2) In case where the same price falls on two or more days, the day with the highest traded shares is considered.

12. DETERMINATION OF THE FLOOR PRICE

12.1 The Acquirer proposes to acquire the Equity Shares of the Company from the Public Shareholders pursuant to the reverse book building process established in terms of Schedule II of the Delisting Regulations.

12.2 The Equity Shares of the Company are currently listed in The Calcutta Stock Exchange Limited. The scrip code of the Company on CSE is 023080.

12.3 The annualized trading turnover during the twelve calendar months preceding the calendar month of the Reference Date based on the trading volume of the Equity Shares on Stock Exchange during the period from September 01, 2024 to August 31, 2025, (12 (twelve) calendar months preceding the month of the Reference Date) is as under:

| Stock Exchange | Total Traded Volumes | Total (weighted average) number of Equity Shares outstanding during the period | Annualized trading turnover (as a percentage of the total number of shares outstanding) (%) |
|----------------|----------------------|--------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| CSE            | Nil (No Trading)     | 5,34,580                                                                       | Nil (No Trading)                                                                            |

12.4 As on the Reference Date, as

16.5 A letter inviting the Public Shareholders (along with necessary forms and detailed instructions) to tender their Equity Shares by way of submission of **"Bids"** (the **"Letter of Offer"**) will be dispatched as indicated in paragraph 21 of this DPA.

**17. PROCEDURE FOR TENDERING AND SETTLEMENT**

17.1 During the Bid Period, the Bids shall be placed through the Acquisition Window Facility or OTB by the Public Shareholders through their respective Seller Member during normal trading hours of the secondary market. The Seller Members can enter orders for Equity Shares which are held in dematerialized form as well as physical form.

17.2 The Letter of Offer (along with necessary forms and instructions) inviting the Public Shareholders to tender their Equity Shares to the Acquirer will be dispatched to the Public Shareholders by the Acquirer whose names appear on the register of members of the Company and to the owner of the Equity Shares whose names appear as beneficiaries on the records of the respective depositories at the close of business hours on the Specified Date (as indicated in paragraph 21 of this DPA). For further details on the schedule of activities, please refer to paragraph 21 of this DPA.

17.3 In the event of an accidental omission to dispatch the Letter of Offer or non-receipt of the Letter of Offer by any Public Shareholder, such Public Shareholders may obtain a copy of the Letter of Offer by writing to the Registrar to the Offer at their address given in paragraph 9 of this DPA, clearly marking the envelope **"Avadh Rail Infra Limited - Delisting Offer"**. Alternatively, the Public Shareholders may obtain copies of the Letter of Offer from the websites of the BSE i.e., [www.bseindia.com](http://www.bseindia.com), or, from the website of the company, at [www.avadhrail.com](http://www.avadhrail.com) or the Manager to the Offer at [www.intelligentgroup.org.in/](http://www.intelligentgroup.org.in/).

17.4 The Delisting Offer is open to all Public Shareholders of the Company holding Equity Shares of the Company in dematerialized form or physical form.

17.5 During the Bid Period, Bids will be placed through the Acquisition Window Facility by the Public Shareholders through their respective stock brokers who are registered with BSE during normal trading hours of the secondary market. The Seller Members can enter orders for Equity Shares in dematerialized form as well as physical form.

17.6 The Company will not accept any Equity Shares offered for delisting offer which are under any restraint order of a court for transfer/sale of such shares.

17.7 Procedure to be followed by Public Shareholders holding Offer Shares in dematerialized form

a) Public Shareholders who desire to tender their Offer Shares in the electronic form under the Delisting Offer would have to do so through their respective Seller Member by indicating the details of the Offer Shares they intend to tender under the Delisting Offer. The Public Shareholders should not send Bids to the Company/ Acquirer/ Manager to the Delisting Offer/ the Registrar to the Delisting Offer.

b) The Seller Member would be required to place an order/bid on behalf of the Public Shareholders who wish to tender Equity Shares in the Delisting Offer using the Acquisition Window Facility of the Stock Exchange.

c) The Seller Member would be required to tender the number of Equity Shares by using the settlement number and the procedure prescribed by the Clearing Corporation and a lien shall be marked against the Equity Shares of the Public Shareholder and the same shall be validated at the time of order entry. The details of settlement number shall be informed in the issue opening circular/ notice that will be issued by BSE/ Clearing Corporation before the Bid Opening Date.

d) In case, the Public Shareholders' demat Account is held with one depository and clearing member pool and Clearing Corporation accounts held with other depository, Equity Shares shall be blocked in the Public Shareholders demat account at source depository during the Bid Period. Inter Depository Tender Offer ("IDT") instructions shall be initiated by the Public Shareholders at source depository to clearing member/ Clearing Corporation account at target depository. Source Depository shall block the Public Shareholder's Equity Shares (i.e., transfer from free balance to blocked balance) and sends IDT message to target depository for confirming creation of lien. Details of Equity Shares blocked in the Public Shareholders demat account shall be provided by the target depository to the Clearing Corporation.

e) For custodian participant orders for Equity Shares in dematerialized form, early pay-in is mandatory prior to confirmation of the relevant order by the custodian. The custodian shall either confirm or reject the orders not later than the closing of trading hours on the last day of the Bid Period. Thereafter, all unconfirmed orders shall be deemed to be rejected. For all confirmed custodian participant orders, any modification to an order shall be deemed to revoke the custodian confirmation relating to such order and the revised order shall be sent to the custodian again for confirmation.

f) Upon placing the Bid, a Seller Member shall provide a Transaction Registration Slip ("TRS") generated by the exchange bidding system to the Public Shareholder. The TRS will contain the details of the order submitted such as Bid ID No., DP ID, Client ID, No. of Equity Shares tendered and price at which the Bid was placed.

g) The Clearing Corporation will hold in trust the Offer Shares until the Acquirers complete their obligations under the Delisting Offer in accordance with the Delisting Regulations.

h) The Public Shareholders shall also provide all relevant documents, which are necessary to ensure transferability of the Equity Shares in respect of the Bid Form to be sent. Such documents may include (but not be limited to):

(i) Duly attested power of attorney, if any person other than the Public Shareholder has assigned the Bid Form;

(ii) Duly attested death certificate and succession certificate/legal heirship certificate, in case any Public Shareholder has expired; and

(iii) In case of companies, the necessary certified corporate authorizations (including board and/or general meeting resolutions).

**(iv) IN CASE OF DEMAT EQUITY SHARES, SUBMISSION OF TENDER FORM AND TRS IS NOT REQUIRED.** After the lien is marked successfully in the depository system on the demat Equity Shares and a valid bid in the exchange bidding system, the Public Shareholders holding Equity Shares in dematerialised form have successfully tendered the Equity Shares in the Delisting Offer.

(v) The Public Shareholders will have to ensure that they keep the DP account active and unblocked to receive credit in case of return of Equity Shares due to rejection. Further, Public Shareholders will have to ensure that they keep the saving account attached with the DP account active and updated to receive credit remittance due to acceptance of Offer Shares tendered by them.

i) In case of non-receipt of the Letter of Offer/ Bid Form, Public Shareholders holding Equity Shares in dematerialized form can make an application in writing on plain paper, signed by the respective Public Shareholder, stating name and address, client ID number, DP name/ ID, beneficiary account number and number of Equity Shares tendered for the Delisting Offer. Public Shareholders will be required to approach their respective Seller Member and have to ensure that their bid is entered by their Seller Member in the electronic platform to be made available by BSE, before the Bid Closing Date.

**17.8 Procedure to be followed by Public Shareholders holding Offer Shares in physical form**

a) All the Public Shareholders holding the Equity Shares in physical form shall note that in accordance with the SEBI circular no. SEBI/HO/CFD/CMD1/CIR/P/2020/144 dated July 31, 2020, all the Public Shareholders holding Equity Shares in the physical form are allowed to tender their Equity Shares in the Delisting Offer provided that such tendering shall be as per the provisions of the SEBI Delisting Regulations and terms provided in the Detailed Public Announcement/ Letter of Offer.

b) The Public Shareholders who hold Offer Shares in physical form and intend to participate in the Delisting Offer will be required to approach their respective Seller Member along with the complete set of documents for verification procedures to be carried out including as below:

i. original share certificate(s);

ii. valid share transfer form(s) (i.e. SH-4) duly filled and signed by the transferors (i.e. by all registered shareholders in the same order and as per the specimen signatures registered with the Company) and duly witnessed at the appropriate place authorizing the transfer. Attestation, where required, (thumb impressions, signature difference, etc.) should be done by a magistrate/ bank manager under their official seal as per form ISR-2 which is available at the website of RTA, at [www.purvashare.com](http://www.purvashare.com);

iii. self-attested permanent account number ("PAN") card copy (in case of joint holders, PAN card copy of all transferors);

iv. Bid Form duly signed (by all Public Shareholders in cases where Offer Shares are held in joint names) in the same order in which they hold the Offer Shares;

v. As per SEBI circular dated 03/11/2021 reference no. SEBI/HO/MIRSD/MIRSD, RTAMB/P/CIR/2021/655 "Common and Simplified Norms for processing investor service request by RTAs and norms for furnishing PAN, KYC details and Nomination," it shall be mandatory for all holders of physical securities in listed company to furnish the following documents/ details to the RTA: a) PAN and other KYC details by submitting form ISR 1; b) Nomination (for all eligible folios) through Form SH - 13 as provided in the Rules 19(1) of Companies (Shares capital and debentures) Rules, 2014 or Declaration to Opt-out, as per Form ISR-3, available at the website of RTA, at [www.purvashare.com](http://www.purvashare.com);

vi. any other relevant documents such as power of attorney, corporate authorization (including board resolution/ specimen signature), notarized copy of death certificate and succession certificate or probated will, if the original shareholder has deceased, etc., as applicable. In addition, if the address of the Public Shareholder has undergone a change from the address registered in the register of members of the Company, the Public Shareholder would be required to submit a self-attested copy of proof of address consisting of any one of the following documents: valid aadhar card, voter identity card or passport.

vii. Declaration by joint holders consenting to tender Offer Shares in the Delisting Offer, if applicable, and

viii. FATCA and CRS forms for individual/ Non individual shareholders.

c) Based on the documents mentioned in paragraph (b) above, the concerned Seller Member shall place the bid on behalf of the Public Shareholder holding Equity Shares in physical form who wishes to tender Equity Shares in the Delisting Offer using the Acquisition Window Facility of the Stock Exchange. Upon placing the Bid, the Seller Member will provide a TRS generated by the Exchange Bidding System to the Public Shareholder. The TRS will contain the details of order submitted like Folio No., Certificate No., Distinctive No., No. of the Equity Shares tendered, price at which the bid was placed, etc. Upon placing the Bid, the Seller Member shall provide a TRS generated by the exchange bidding system to the Public Shareholder. The TRS will contain the details of the order submitted such as folio no., certificate no., distinctive no., no. of Offer Shares tendered and the price at which the Bid was placed.

d) The Seller Member/ Public Shareholder should ensure the documents (as mentioned in this paragraph 17.8 (b) of this DPA) above are delivered along with TRS either by registered post or courier or by hand delivery to the Registrar to the Offer (at the address mentioned in paragraph 9 of this DPA) before the last date of Bid Closing date. The envelope should be marked as **"Avadh Rail Infra Limited - Delisting Offer"**.

e) Public Shareholders holding Offer Shares in physical form should note that the Offer Shares will not be accepted unless the complete set of documents is submitted. Acceptance of the Offer Shares by the Acquirers shall be subject to verification of documents. The Registrar to the Offer will verify such Bids based on the documents submitted on a daily basis and until such time as the Stock Exchanges shall display such Bids as 'unconfirmed physical bids'. Once, the Registrar to the Offer confirms the Bids it will be treated as 'confirmed bids'. Bids of Public Shareholders whose original share certificate(s) and other documents (as mentioned in this paragraph 17.8 (b) of this DPA) along with TRS are not received by the Registrar to the Offer before the last date of Bid Closing date shall be rejected.

f) In case of non-receipt of the Letter of Offer/ Bid Form, Public Shareholders holding Offer Shares in physical form can make an application in writing on plain paper, signed by the respective Public Shareholder, stating name and address, folio no., share certificate no., no. of Offer Shares tendered for the Delisting Offer and the distinctive nos. thereof, enclosing the original share certificate(s) and other documents (as mentioned in this paragraph 17.8 (b) of this DPA). Public Shareholders will be required to approach their respective Seller Member and have to ensure that their Bid is entered by their Seller Member in the electronic platform to be made available by BSE, before the Bid Closing Date.

g) The Registrar to the Offer will hold in trust the share certificate(s) and other documents (as mentioned in this paragraph 17.8 (b) of this DPA) until the Acquirer complete their obligations under the Delisting Offer in accordance with the Delisting Regulations.

h) All documents as mentioned above, shall be enclosed with the valid Tender Form, failing which the Equity Shares tendered will be liable for rejection. The Equity Shares shall be liable for rejection on the following grounds amongst others: (i) there is a name mismatch in the Folio of the Public Shareholder; or (ii) there exists any restraint order of a court/any other competent authority for transfer/ disposal/ sale or where loss of share certificates has been notified to the Company or where the title to the Equity Shares is under dispute or otherwise not clear or where any other restraint subsists; or (iii) The documents mentioned in the Tender Form for Public Shareholders holding Equity Shares in physical form are not received by the Registrar on or before the close of business hours of Monday, August 24, 2026 (by 5 p.m.); or (iv) if the share certificates of any other company are enclosed with the Tender Form instead of the share certificates of the Company; or (v) if the transmission of Equity Shares is not completed, and the Equity Shares are not in the name of the shareholder who has placed the bid; or (vi) if the Public Shareholders place a bid but the Registrar does not receive the physical Equity Share certificate; or (vii) In the event the signature in the Tender Form and Form SH-4 do not match with the specimen signature recorded with Company or Registrar.

17.9 If the Public Shareholders do not have any stock broker registered with BSE, then that Public Shareholders can approach any stock broker registered with BSE and can make a bid by using quick unique client code ("**UCC**") facility through that stock broker registered with BSE after submitting the information/documents as may be required by the stock broker to be in compliance with the applicable SEBI regulations and the requirements of BSE. In case the Public Shareholder is not able to bid using quick UCC facility through any other stock broker registered with BSE, then the Public Shareholder may approach Buyer Broker viz. BNK Securities Private Limited, to bid by using quick UCC facility, after submitting the information/ documents as may be required by the Buyer Broker to be in compliance with the applicable SEBI regulations and the requirements of BSE.

17.10 Public Shareholders, who have tendered their Offer Shares by submitting Bids pursuant to the terms of the Detailed Public Announcement and the Letter of Offer, may withdraw or revise their Bids upwards not later than 1 (one) day before the Bid Closing Date. Downward revision of Bids shall not be permitted. Any such request for revision or withdrawal of the Bids should be made by the Public Shareholder through their respective Seller Member, through whom the original Bid was placed, not later than 1 (one) day before the Bid Closing Date. Any such request for revision or withdrawal of Bids received after normal trading hours of the secondary market 1 (one) day before the Bid Closing Date will not be accepted. Any such request for withdrawal or upward revision should not be made to the Company/ Acquirer /Registrar to the Delisting Offer/ Manager to the Delisting Offer.

17.11 The cumulative quantity tendered shall be made available on BSE's website - [www.bseindia.com](http://www.bseindia.com) throughout the trading session and will be updated at specific intervals during the Bid Period.

17.12 The Offer Shares to be acquired under the Delisting Offer will be acquired free from all liens, charges, and encumbrances and together with all rights attached thereto. Offer Shares that are subject to any lien, charge or encumbrances are liable to be rejected.

17.13 Public Shareholders holding Offer Shares under multiple folios are eligible to participate in the Delisting Offer.

17.14 In terms of Regulation 22(4) of the Delisting Regulations, the Acquirers are entitled (but not obligated) to make a counter offer at the Counter Offer Price, at its sole and absolute discretion. The Acquirer shall ensure compliance with the provisions and the timelines provided in Schedule IV of the SEBI Delisting Regulations ("**Counter Offer**"). The counter offer is required to be announced by issuing a public announcement of counter offer ("**Counter Offer PA**") within 2 working days of the Bid Closing Date. The Counter Offer PA will contain inter alia details of the Counter Offer Price, the book value per Equity Share, the revised schedule of activities and the procedure for participation and settlement in the counter offer. In this regard, Public Shareholders are requested to note that, if a counter offer is made:

a. All Offer Shares tendered by Public Shareholders during the Bid Period and not withdrawn as per paragraph 17.14(b) below, along with Offer Shares which are additionally tendered by them during the counter offer, will be considered as having been tendered in the Counter Offer at the Counter Offer Price.

b. Public Shareholders who have tendered Offer Shares during the Bid Period and thereafter wish to withdraw from participating in the Counter Offer (in part or full) have the right to do so after the issuance of the Counter Offer PA in accordance with the SEBI Delisting Regulations. Any such request for withdrawal should be made by the Public Shareholder through their respective Seller Member through whom the original bid was placed. Any such request for withdrawal received after normal trading hours of the secondary market on the last day of the timelines prescribed in the SEBI Delisting Regulations will not be accepted.

c. Offer Shares which have not been tendered by Public Shareholder during the Bid Period can be tendered in the Counter Offer in accordance with the procedure for tendering that will be set out in the Counter Offer PA.

**18. METHOD OF SETTLEMENT**

Upon finalization of the basis of acceptance as per the Delisting Regulations:

18.1 The settlement of trades shall be carried out in the manner similar to settlement of trades in the secondary market.

18.2 For consideration towards the Equity Shares accepted under the Delisting Offer, the money of the Escrow Account shall be used to pay the consideration to the Buyer Broker on or before the pay-in date for settlement. The Buyer Broker will transfer the funds to the Clearing Corporation and subsequently Clearing Corporation will make direct funds payout to respective Public Shareholder's bank account linked to its demat account. If Public Shareholder's bank account details are not available or if the funds transfer instruction are rejected by RBI/ Bank, due to any reason, then such funds will be transferred to the concerned Seller Member's settlement bank account for onward transfer to the respective client. For the Offer Shares acquired in physical form, the Clearing Corporation will release the funds to the Seller Member as per the secondary market mechanism for onward transfer to Public Shareholders.

18.3 In case of certain client types viz. non-resident Indians, non-resident clients etc. (where there are specific RBI and other regulatory requirements pertaining to funds pay-out) who do not opt to settle through custodians, the funds pay-out will be given to their respective Seller Member's settlement accounts for releasing the same to their respective Public Shareholder's account onward. For this purpose, the client type details will be collected from the depositories whereas funds pay-out pertaining to the bids settled through custodians will be transferred to the settlement bank account of the custodian, each in accordance with the applicable mechanism prescribed by BSE and the Clearing Corporation from time to time.

18.4 The Offer Shares acquired in dematerialised form would either be transferred directly to the account of either of the Acquirer provided it is indicated by the Buyer Broker or it will be transferred by the Buyer Broker to the account of either of the Acquirer on receipt of the Offer Shares pursuant to the clearing and settlement mechanism of BSE. Offer Shares acquired in physical form will be transferred directly to the Acquirer by the Registrar to the Offer.

18.5 Details in respect of Public Shareholder's Bid accepted at or below Exit Price will be provided to the Clearing Corporation by the Target Company or the Registrar to the Delisting Offer. On receipt of the same, Clearing Corporation will release the lien on unaccepted Equity Shares in the demat account of the Public Shareholder. On settlement date, lien Equity Shares mentioned in the accepted Bid will be transferred to the Clearing Corporation.

18.6 In the case of Inter Depository, Clearing Corporation will cancel the unaccepted Equity Shares in target depository. Source Depository will not be able to release the lien without a release of IDT message from target depository. Further, release of IDT message shall be sent by target depository either based on cancellation request received from Clearing Corporation or automatically generated after matching with Bid accepted detail as received from the Target Company or the Registrar to the Delisting Offer. Post receiving the IDT message from target depository, source depository will cancel/ release lien on unaccepted Equity Shares in the demat account of the Public Shareholder. Post completion of Bid Period and receiving the requisite details viz., demat account details and accepted bid quantity, source depository shall debit the securities as per the communication/message received from target depository to the extent of accepted bid Equity Shares from Public Shareholder's demat account and credit it to Clearing Corporation settlement account in target depository on settlement date.

18.7 The Seller Member would issue a contract note and pay the consideration to the respective Public Shareholder whose Offer Shares are accepted under the Delisting Offer. The Buyer Broker would also issue a contract note to the Acquirer for the Offer Shares accepted under the Delisting Offer.

18.8 Public Shareholders who intend to participate in the Delisting Offer should consult their respective Seller Member for payment of any cost, charges and expenses (including brokerage) that may be levied by the Seller Member upon the Public Shareholders for tendering their Offer Shares in the Delisting Offer (secondary market transaction).

18.9 If the consideration payable in terms of Regulation 24(1) of the SEBI Delisting Regulations is not paid to all the Public Shareholders, within the time specified thereunder, the Acquirer shall be liable to pay interest at the rate of ten per cent per annum to all the Public Shareholders, whose bids shares have been accepted in the Delisting Offer, as per Regulation 24(2) of the SEBI Delisting Regulations. However, in case the delay was not attributable to any act or omission of the Acquirer or was caused due to circumstances beyond the control of Acquirer, SEBI may grant waiver from the payment of such interest.

**19. PERIOD FOR WHICH THE DELISTING OFFER SHALL BE VALID**

19.1 The Public Shareholders may submit their Bids to the Seller Member during the Bid Period. Additionally, once the Equity Shares have been delisted from the Stock Exchange, the Public Shareholders whose Offer Shares have not been acquired by the Acquirer (the "**Residual Public Shareholders**") may offer their Offer Shares for sale to the Acquirer at the Exit Price for a period of 1 (one) year following the date of the delisting of the Equity Shares from CSE ("**Exit Window**"). A separate offer letter in this regard will be sent to these Residual Shareholders explaining the procedure for tendering their Offer Shares. Such Residual Shareholders may tender their Offer Shares by submitting the required documents to the Registrar to the Offer during the Exit Window.

19.2 The Acquirer shall ensure that the rights of the Residual Shareholders are protected and shall be responsible for compliance with Regulation 27 of the SEBI Delisting Regulations and the Stock Exchange shall monitor the compliance of the same.

**20. DETAILS OF THE ESCROW ACCOUNT**

20.1 The consideration payable under the Delisting Regulations, the Floor Price of Rs. 4,660/- (Rupees Four Thousand Six Hundred Sixty only) per Equity Share of the Company multiplied by the number of Offer Shares, i.e., 4,765 (Four Thousand Seven Hundred Sixty-Five), is Rs.2,22,04,900/- (Rupees Two Crores Twenty Two Lakhs Four Thousand Nine Hundred only) ("**Escrow Account**").

20.2 In accordance with Regulations 14(1) and 14(5) of the Delisting Regulations, the Acquirer, HDFC Bank Limited, a banker to an issue registered with SEBI ("**Escrow Bank**") and the Manager to the Delisting Offer have entered into an escrow agreement dated November 01, 2025 pursuant to which the Acquirer has opened an escrow account in the name of **"AVADH RAIL DELISTING ESCROW A/C"** with the Escrow Bank at their Asaf Ali Road Branch, New Delhi - 110 002 ("**Escrow Account**") and have deposited in the Escrow Account cash of Rs. 55,52,000/- (Rupees Fifty Five Lakhs Fifty Two Thousand only) on November 06, 2025 being an amount more than 25% of the estimated consideration payable in respect of the Delisting Offer to the Shareholders and Rs. 1,66,53,000/- (Rupees One Crore Sixty Six Lakhs Fifty Three Thousand only) on July 24, 2026 in accordance with the SEBI Delisting Regulations. The aggregate amount deposited in the Escrow Account is Rs. 2,22,05,000/- (Rupees Two Crores Twenty-Two Lakhs Five Thousand only) which represents more than 100% of the Escrow Amount.

20.3 The Manager to the Offer has been solely authorized by the Acquirer to operate and realize the value of Escrow Account in accordance with the SEBI Delisting Regulations.

20.4 On determination of the Exit Price and making of the Public Announcement under regulation 17(4) of the Delisting Regulations, the Acquirer shall ensure compliance with Regulation 14(4) of the Delisting Regulations.

20.5 In the event that the Acquirer accept the Discovered Price or offer a price higher than the Discovered Price or offer the Counter Offer Price, the Acquirer shall increase the amount lying to the credit of the Escrow Account to the extent necessary to pay Public Shareholders whose Equity Shares are validly accepted, the consideration at the Exit Price, which shall be used for payment to the Public Shareholders who have validly tendered Offer Shares in the Delisting Offer.

20.6 Further, the Escrow Bank has opened a special account ("**Special Account**") in the name of **"AVADH RAIL DELISTING SPECIAL ESCROW A/C"** on the instructions of the Acquirer and the Manager to the Delisting Offer, which shall be used for payment to the Public Shareholders who have validly tendered Offer Shares in the Delisting Offer. The Manager to the Delisting Offer shall instruct the Escrow Bank to transfer the total consideration amount to the Special Account.

However, all Public Shareholders, are eligible to participate in the Delisting Offer by submitting their Bid in Acquisition Window Facility to stock broker registered on BSE on or before Bid Closing Date. Changes to the proposed timeline, if any, will be notified to Public Shareholders by way of a public announcement in the same newspapers where the DPA is published.*

*\*Subject to the acceptance of Discovered Price or offer a price higher than the Discovered Price by the Acquirer.*

*\*\*Such activity may be completed on or before the last date*

Notes: (1) All dates are subject to change and depend on obtaining the requisite statutory and regulatory approvals, as may be applicable. Changes to the proposed timetable, if any, will be notified to Public Shareholders by way of corrigendum/ addendum in all the newspapers in which the DPA has appeared; and (2) Last date of payment is subject to the acceptance of the Discovered Price by the Acquirer.

**22. STATUTORY APPROVALS**

22.1 The Public Shareholders of the Company have accorded their consent by way of special resolution passed through evoting on Tuesday, October 28, 2025, i.e., the date on which the results of the postal ballot & E-voting were announced and the same were intimated to the Stock Exchange October 29, 2025.

22.2 CSE has given its in-principle approval for delisting of the Equity Shares pursuant to their letter reference no. CSE/LD/INP/18168/2026 dated August 07, 2026.

22.3 To the best of the Acquirer knowledge, as on the date of the Detailed Public Announcement, there are no other statutory or regulatory approvals required to acquire the Offer Shares and implement the Delisting Offer, other than as indicated above. If any statutory or regulatory approvals become applicable, the acquisition of Offer Shares by the Acquirer and the Delisting Offer will be subject to receipt of such statutory or regulatory approvals.

22.4 If the Public Shareholders who are not persons resident in India (including non-resident Indians, overseas body corporates and foreign portfolio investors) had required any approvals (including from the RBI or any other regulatory body) in respect of the Equity Shares held by them, they will be required to submit such previous approvals, that they would have obtained for holding the Equity Shares, to tender the Equity Shares held by them in this Delisting Offer, along with the other documents required to be tendered to accept this Offer. In the event such approvals are not submitted, the Acquirer reserves the right to reject such Equity Shares tendered in the Delisting Offer.

22.5 It shall be the responsibility of the Public Shareholders tendering Offer Shares in the Delisting Offer to obtain all requisite approvals (including corporate, statutory or regulatory approvals), if any, prior to tendering the Offer Shares held by them in the Delisting Offer, and the Acquirer shall take no responsibility for the same. The Public Shareholders should attach a copy of any such approval to the Bid Form, wherever applicable. In the event such approvals are not submitted, the Acquirer reserves the right to reject such Equity Shares tendered in the Offer.

22.6 The Acquirer reserves the right not to proceed with or withdraw the Delisting Offer in the event the conditions mentioned in paragraph 14 of this DPA are not fulfilled or if the approvals indicated above are not obtained or conditions which the Acquirer considers in his sole discretion to be onerous, are imposed in respect of such approvals.

22.7 In the event that receipt of the statutory or regulatory approvals are delayed, changes to the proposed timetable, if any, will be notified to the Public Shareholders of the Company by way of a corrigendum to this DPA in the same newspapers in which this DPA is made.

**23. NOTES ON TAXATION**

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian Company are generally taxable in India. Any gain (in excess of Rs. 1,25,000/- realized on the sale of listed equity shares on Stock Exchange held for more than 12 months will be subject to capital gains tax in India @ 12.5%, (on or after July 23, 2024) if securities transaction tax ("STT") has been paid on the shares. STT will be levied on and collected by domestic Stock Exchange on which the equity shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less which is sold will be subject to Short Term Capital Gain Tax @ 20% (on or after July 23, 2024) provided the transaction is chargeable to STT.

**THE ABOVE NOTE ON TAXATION SETS OUT THE PROVISIONS OF LAW IN A SUMMARY MANNER ONLY AND IS NOT A COMPLETE ANALYSIS OR LISTING OF ALL POTENTIAL TAX CONSEQUENCES OF THE DISPOSAL OF EQUITY SHARES. THIS NOTE IS NEITHER BINDING ON ANY REGULATORS NOR CAN THERE BE ANY ASSURANCE THAT THEY WILL NOT TAKE A POSITION CONTRARY TO THE COMMENTS MENTIONED HEREIN.**

**SHAREHOLDERS ARE ADVISED TO CONSULT THEIR TAX ADVISORS FOR TAX TREATMENT ARISING OUT OF THE PROPOSED DELISTING OFFER AND APPROPRIATE COURSE OF ACTION THAT THEY SHOULD TAKE. THE ACQUIRERS DOES NOT ACCEPT NOR HOLDS ANY RESPONSIBILITY FOR ANY TAX LIABILITY ARISING TO ANY PUBLIC SHAREHOLDER AS A REASON OF THIS DELISTING.**

**24. CERTIFICATION BY BOARD OF DIRECTORS OF THE COMPANY**

24.1 The board of directors of the Company has certified that:

a) The Company has not raised any funds by issuance of securities during the last 5 (five) years immediately preceding the date of the Detailed Public Announcement;

b) all material information which is required to be disclosed under the provisions of the continuous listing requirements under the relevant Equity Listing Agreement entered into between the Company and the Stock Exchange or the provisions of the Listing Regulations, as applicable from time to time have been disclosed to the Stock Exchange, as applicable;

c) The Company is in compliance with applicable provisions of securities law;

d) the Acquirer or its related entities have not carried out any transaction during the aforesaid period to facilitate the success of the Delisting Offer which is not in compliance with the provisions of sub-regulation (5) of regulation 4 of SEBI Delisting Regulations; and

e) The Delisting Offer is in the interest of the shareholders of the Company.

**NOTICE**

**INFORMATION REGARDING 34<sup>th</sup> ANNUAL GENERAL MEETING**

Notice is hereby given that the 34<sup>th</sup> Annual General Meeting ("AGM") of the Company will be held through Video Conferencing / Other Audio-Visual Means ("VC / OAVM"), the schedule of which will be communicated in due course to transact the businesses as set forth in the Notice of the AGM of the Company.

Ministry of Corporate Affairs ("MCA") vide its General Circular No. 20/2020 dated May 5, 2020 and subsequent circulars issued in this regard, the latest being 03/2025 dated September 22, 2025 ("MCA Circulars") and the Securities and Exchange Board of India ("SEBI") vide its various circulars and regulations, permitted the holding of AGM through VC / OAVM, without the physical presence of the Members at a common venue. The AGM of the Company will be held through VC / OAVM in compliance with the MCA Circulars and the relevant provisions of the Companies Act, 2013 ("Act") and the Rules made thereunder and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

In compliance with the above Circulars, the Notice of the AGM and Annual Report for Financial Year 2025-26 ("Annual Report") shall be sent in due course only in electronic mode to those Members whose e-mail addresses are registered with the Company / Registrar to an Issue and Share Transfer Agents ("RTA") or the Depository Participant(s). The physical copies of the Notice of AGM and Annual Report will be dispatched to those shareholders who request for the same. The Notice of the AGM and Annual Report will also be made available on the website of the Company i.e. <https://www.paragmilkfoods.com> and the websites of the stock exchanges i.e. <https://www.bseindia.com> and <https://www.nseindia.com>. Members can attend and participate in the AGM through VC/OAVM facility only. The instructions for joining the AGM shall be contained in the Notice of the AGM.

Manner of registering/ updating email addresses:

In order to receive the Notice and Annual Report, Members are requested to register / update their email addresses, with the Depositories through the concerned Depository Participants in respect of shares held in electronic mode. All the shareholding of the Members of the Company as on date is in dematerialized form, hence, the requirement of complying with the procedure with regards to physical shareholders is not applicable to the Company.

Manner of casting vote through e-voting:

The Company shall provide remote e-voting facility to all its Members to cast their votes on the businesses as set forth in the Notice of the AGM. Additionally, the Company shall also be providing the facility of voting through e-voting system during the AGM. Detailed procedure of casting the votes through e-voting will be provided in the Notice of the AGM. If your email address is already registered with the Company / Depository, the login credentials for casting the votes through e-voting will be sent on your registered email address. Members are requested to update their email addresses with their Depository Participants.

**(POST DISPATCH) NOTICE OF 5TH ANNUAL GENERAL MEETING,  
BOOK CLOSURE AND REMOTE E-VOTING INFORMATION**

NOTICE is hereby given that the 5<sup>th</sup> Annual General Meeting (AGM) of the Company will be held on **Monday, 31<sup>st</sup> August, 2026 at 11:30 (IST)** through Video Conferencing (VC) or Other Audio Visual Means (OAVM) in compliance with the Companies Act, 2013 and Rules made thereunder, Securities and Exchange Board of India ("SEBI") (Listing Obligations and Disclosure Requirements) Regulations, 2015. The Ministry of Corporate Affairs ("MCA") has, vide its General Circular dated September 22, 2025 read together with circulars dated April 8, 2020, April 13, 2020, May 5, 2020, January 13, 2021, December 8, 2021, December 14, 2021, May 5, 2022, December 28, 2022, September 25, 2023 and September 19, 2024, 22nd September, 2025 (collectively referred to as "MCA Circulars"), permitted convening the Annual General Meeting ("AGM" / "Meeting") through Video Conferencing ("VC") or Other Audio Visual Means ("OAVM"), without physical presence of the members at a common venue. In accordance with the MCA Circulars and applicable provisions of the Companies Act, 2013 ("Act") read with Rules made thereunder and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the AGM of the Company is being held through VC / OAVM. issued by SEBI (collectively referred to as "the Circulars"), to transact the business set out in the Notice of the AGM. Members can be able to attend the AGM through VC/OAVM.

In compliance with the Circulars, the Notice of the AGM and Annual Report 2025-26 containing the standalone financial statements for the financial year ended 31<sup>st</sup> March, 2026, along with Board's Report, Auditor's Report and other documents of the Company have been sent only through e-mail to the shareholders whose e-mail address are registered with Company/Depositories. The Company has sent Notice of AGM and Annual Report only through e-mail to the shareholders on 08<sup>th</sup> August, 2026. Members are hereby informed that the Notice of the AGM and Annual Report 2025-26 are available on the Company's website at [www.blal.in](http://www.blal.in) and on the website of the Stock Exchanges, i.e. BSE Limited and National Stock Exchange of India Limited at [www.bseindia.com](http://www.bseindia.com) and [www.nseindia.com](http://www.nseindia.com) respectively and will also be available on the website of Central Depository Services (India) Limited (CDSL).

Pursuant to Section 91 of the Companies Act, 2013 read with Companies (Management and Administration) Rules, 2014, the **Register of Members and Share Transfer Books of the Company shall remain closed from 21<sup>st</sup> August, 2026 to 31<sup>st</sup> August, 2026 (both days inclusive)** for the purpose of AGM.

Pursuant to provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014, Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard on General Meetings issued by the Institute of Company Secretary of India, the Company is pleased to provide to its members facility to exercise their right to vote by electronic means. The facility of casting votes members using an electronic voting system other than venue of the AGM ("remote e-voting") will be provided by Central Depository Services (India) Limited (CDSL).

The business as set forth in the Notice of the AGM will be transacted through voting by electronic means. The communication relating to remote e-voting and Notice convening the AGM has been e-mailed to the members whose e-Mail ID is registered with the Company or Depositories.

The remote e-voting will begin on Friday, 28<sup>th</sup> August 2026 (09:00 AM) and ends on Sunday, 30<sup>th</sup> August 2026 (05:00 PM). The remote e-voting shall not be allowed beyond the said date and time. A shareholder whose name appears in the Register Members/Beneficial owner as on the cut-off date i.e., **Monday, 24<sup>th</sup> August, 2026**, shall only be entitled to avail the facility of remote e-voting as well as e-voting at the AGM. Any person who become member of the Company after sending the Notice of the AGM and holding Share(s) as on the cut-off date i.e., **Monday, 24<sup>th</sup> August, 2026**, such person shall follow the same instruction for remote e-voting, e-voting and joining the virtual AGM as mentioned in the Notice. The members who have cast their vote by remote e-voting shall not be entitled to cast their vote again at the AGM.

In addition, the facility of voting through e-voting system shall also be made available during the AGM for members of the company participating in the AGM through VC/OAVM and who have not cast their vote by remote e-voting.

Members are requested to carefully read all the Notes set out in the Notice of the AGM and in particular instructions for remote e-voting at the AGM and joining the virtual AGM.

If you have any queries or issues regarding attending AGM and e-voting from CDSL e-voting system, you can write an e-mail [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or contact at toll free no. 1800 21 09911.

All grievances connected with the facility for voting by electronic means may be addressed to Mr. Rakesh Dalvi, Sr. Manager, Central Depository Services (India) Limited (CDSL), A Wing, 25<sup>th</sup> Floor, Marathon Futrex, Mafatlal Mill Compounds, N M Joshi Marg, Lower Parel (East), Mumbai-400013 or send an e-mail to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or call at toll free no. 1800 21 09911.

ADDITIONALLY, IF THE INDIVIDUAL INVESTORS CATEGORY IS ENTITLED TO MORE THAN FIFTY PER CENT ON PROPORTIONATE BASIS, THE INDIVIDUAL APPLICANTS SHALL BE ALLOCATED THAT HIGHER PERCENTAGE. FOR FURTHER DETAILS PLEASE REFER THE SECTION TITLED "**ISSUE STRUCTURE**" BEGINNING ON PAGE 298 OF THIS DRAFT PROSPECTUS.

This public announcement is being made in compliance with the Regulation 247 of SEBI (ICDR) Regulations, 2018 as amended on March 21, 2026 and applicability of corporate governance provisions under SEBI (LODR) Regulations, 2015 on SME companies to inform the public that our Company is proposing, subject to applicable statutory and regulatory requirements, receipt requisite approvals, market conditions and other considerations, to undertake initial public issue of its Equity Shares pursuant to the Issue and Draft Prospectus dated **August 07, 2026** which has been filed with the SME Platform of BSE Limited ("BSE SME").

Pursuant to SEBI (ICDR) (Amendment) Regulations, 2018 as amended on March 21, 2026 and applicability of corporate governance provisions under SEBI (LODR) Regulations, 2015 on SME companies, for fulfilling all additional eligibility criteria, the Draft Prospectus filed with SME Platform of BSE Limited ("BSE SME") shall be made available to the public for comments, if any, for a period of at least 21 days, from the date of such filing by hosting it on the website of BSE at <https://www.bsesme.com/> and the website of the Company at: <https://logixbuilt.com/> and at the website of Lead Manager i.e. Comfort Securities Limited at <https://www.comfortsecurities.co.in/>. Our Company hereby by invites the members of the public to give their comments on the Draft Prospectus filed with SME Platform of BSE Limited ("BSE SME") with respect to disclosures made Draft Prospectus. The members of the public are requested to send a copy of their comments to Stock Exchange, to Company Secretary and Compliance Officer of our Company and / or the Lead Manager at their respective addresses mentioned below. All comments must be received by BSE, and / or our Company and / or Company Secretary and Compliance Officer of our Company and / or the Lead Manager in relation to the issue on or before 5.00 PM. on the 21st day from the aforesaid date issuing the Draft Prospectus with BSE SME.

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this issue. For taking an investment decision, investors must rely on their own examination of our Company and the Issue including the risks involved. The Equity Shares offered in the Issue have neither been recommended nor approved by Securities and Exchange Board of India nor does Securities and Exchange Board of India guarantee the accuracy or adequacy of the Draft Prospectus. Specific attention of the investors is invited to the section titled "**Risk Factors**" beginning on page 23 of the Draft Prospectus.

Any decision to invest in the equity shares described in the Draft Prospectus may only be taken after a Prospectus has been filed with the ROC, Ahmedabad and must be made solely on the basis of such Prospectus as there may be material changes in the Prospectus from the Draft Prospectus. The equity shares, when offered through the Prospectus, are proposed to be listed on SME Platform of BSE Limited ("BSE SME").

For details of the share capital, capital structure of our Company, the names of the signatories to the Memorandum of Association and number of shares subscribed by them of our Company, see "**Capital Structure**" beginning on page 67 of the Draft Prospectus. The liability of the members of our Company is limited. For details of the main objects of our Company as contained in our Memorandum of Association, see "**Our History and Certain Other Corporate Matters**" beginning on page 173 of the Draft Prospectus.

| LEAD MANAGER TO THE ISSUE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | REGISTRAR TO THE ISSUE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | COMPANY SECRETARY AND COMPLIANCE OFFICER                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Company Secretary and Compliance Officer

Date: August 07, 2026

Place: Surat

Disclaimer: LOGIX BUILT SOLUTIONS LIMITED is proposing, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations, to make an initial public offer of its Equity Shares and has filed the Draft Prospectus on August 07, 2026, with SME Platform of BSE Limited ("BSE SME"). The Draft Prospectus is available on the website of BSE SME <https://www.bseindia.com/> and is available on the websites of the Lead Manager at <https://www.comfortsecurities.co.in/> and also on the website of the Company: <https://logixbuilt.com/>. Any potential investors should note that investment in equity shares involves a high degree of risk. For details, please refer to the Draft Prospectus, see section titled "**Risk Factors**" beginning on page 23 of the Draft Prospectus.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws in the United States and may not be offered or sold within the United States except pursuant to an exemption from or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. The Equity Shares are being issued and sold outside the United States in 'offshore transactions' in reliance on Regulations under the Securities Act and the applicable laws of each jurisdiction where such issues and sales are made. There will be no public offering in the United State.

**NOTICE OF 46<sup>th</sup> ANNUAL GENERAL MEETING AND REMOTE E-VOTING INFORMATION**

NOTICE is hereby given that the 46<sup>th</sup> Annual General Meeting ("AGM") of the Members of the Company is scheduled to be held on Tuesday, 1<sup>st</sup> September, 2026 at 11.00 a.m. through Video Conferencing ("VC")/Other Audio Visual Means ("OAVM"), in compliance with all the applicable provisions of the Companies Act, 2013 and the Rules made thereunder and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations), read with various circulars issued by the Ministry of Corporate Affairs (MCA) (the latest circular being circular dated 22<sup>nd</sup> September, 2025) ("MCA circulars") and applicable circulars issued by SEBI (hereinafter referred to as "SEBI circulars"), to transact the business as set out in the Notice convening 46<sup>th</sup> AGM.

In compliance with the said MCA circulars and SEBI Circulars, the dissemination of the Notice of 46<sup>th</sup> AGM and Annual Report for Financial Year 2025-26 in electronic mode to those members whose email IDs are registered with Depository Participants (DP) or the Company/ Kfintech Technologies Limited, Registrar and Transfer Agent of the Company ("Kfint"), has been completed on 9<sup>th</sup> August, 2026. Additionally, in accordance with Regulation 36(1)(b) of the Listing Regulations, the Company is also sending a letter to shareholders, whose e-mail IDs are not registered with Company/RTA/DP, providing the weblink of the Company's website from where the Annual Report for Financial Year 2025-26 can be accessed. These documents are also available on the website of the Company at [www.dfpci.com](http://www.dfpci.com), website of the stock exchanges, i.e., BSE Limited at [www.bseindia.com](http://www.bseindia.com) and National Stock Exchange of India Limited at [www.nseindia.com](http://www.nseindia.com) and on the website of Kfint at <https://evoting.kfintech.com>.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management & Administration) Rules, 2014 and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Members have been provided with the facility to cast their votes on all resolutions set forth in the Notice of the 46<sup>th</sup> AGM using electronic voting system (remote e-voting). The Company has engaged the services of Kfint for providing facility for remote e-voting, participation in the AGM through VC/OAVM and e-voting during the AGM. The details pertaining to e-voting are as under:

- The remote e-voting will commence on **Saturday, 29<sup>th</sup> August, 2026 at 9.00 a.m. and will end on Monday, 31<sup>st</sup> August, 2026 at 5.00 p.m.** The e-voting module shall be disabled by Kfint for voting after the time. The Company is providing the e-voting facility to all the members holding shares in physical or dematerialized form as of the **cut-off date i.e. Tuesday, 25<sup>th</sup> August, 2026.**
- Any person who acquires Shares of the Company and become a Member of the Company after the dispatch of the 46<sup>th</sup> AGM Notice and holds shares as on the cut-off date i.e. Tuesday, 25<sup>th</sup> August, 2026 may obtain the login ID and password in the manner as provided in the Notice of the AGM.
- Information and instructions including details of user id and password relating to e-voting have been sent to the Members through email. The process and manner of remote e-voting and e-voting during the AGM by the members holding shares in dematerialized mode, physical mode and for members who have not registered their email addresses is provided in the **Notice of the 46<sup>th</sup> AGM.**

Members present during the meeting through VC/OAVM and who have not cast their votes on the resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through e-voting system during the AGM. Members will be able to attend the AGM through VC/OAVM or view the live webcast of AGM by logging on the website of Kfint at <https://emeetings.kfintech.com/> using their login credentials. The instructions for attending the AGM through VC/OAVM are provided in the Notice of 46<sup>th</sup> AGM.

Members who have cast their votes by remote e-voting prior to the AGM may also attend/ participate in the AGM through VC/OAVM facility, but shall not be allowed to cast their votes again at the AGM.

A person whose name is recorded in the register of members or in the register of beneficial owners maintained by the depositories as on the cut-off date only shall be entitled to avail of the facility of remote e-voting as well as e-voting during the AGM.

The results of e-voting will be placed by the Company on its website: [www.dfpci.com](http://www.dfpci.com) within two working days of the AGM and also communicated to the stock exchanges, where the shares of the Company are listed.

The resolutions proposed will be deemed to have been passed on the date of the Annual General Meeting subject to receipt of the requisite number of votes in favour of the resolutions.

Mr. Ashish Garg (Membership No. FCS 5181, CP No. 4423) Designated Partner of GDR & Partners LLP, Company Secretaries has been appointed as the Scrutinizer to scrutinize the remote e-voting process and voting at the e-AGM in a fair and transparent manner.

In case of any queries/grievances, related to e-voting, the Members may contact the following persons or may refer the Frequently Asked Questions (FAQs) for members and e-voting User Manual available at the 'download' section of <https://evoting.kfintech.com> or contact as below:

- Members holding securities in physical form and non-individual Members may contact Kfint at the toll-free No 1800 309 4001 or contact Mr. S. V. Raju, Dy. Vice President, Kfint by writing to [inward.ris@kfintech.com](mailto:inward.ris@kfintech.com) and [evoting@kfintech.com](mailto:evoting@kfintech.com);

**Notice of the 35<sup>th</sup> Annual General Meeting (AGM) & E-Voting Information**

1. Notice is hereby given that the 35<sup>th</sup> Annual General Meeting (AGM) of the shareholders of the Company will be held on **Friday, 04<sup>th</sup> September, 2026 at 11:30 A.M (IST)** through Video Conference ("VC") or Other Audio Visual Means ("OAVM") to transact Ordinary and Special Business as set out in the Notice dated **Thursday, 06<sup>th</sup> August, 2026**

2. In compliance with the provisions of the Companies Act, 2013 (the Act) and the Rules made thereunder and the Securities and Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") read with Ministry of Corporate Affairs ("MCA") General Circular No. 3/2025 dated September 22, 2025 and the Circulars issued from time to time by Securities and Exchange Board of India (SEBI) (hereinafter collectively referred to as "the Circulars"), and all other applicable laws.

3. In compliance with the above circulars, electronic copies of the Notice of the AGM and Annual Report for the Financial Year 2025-26 will be sent to all the shareholders whose email IDs are registered with the Company/Depository Participant(s)/RTA. Shareholders holding shares in dematerialised mode are requested to register/update their email ID and mobile numbers with their relevant depositories through their depository participants or by emailing [lykot@hitechtoolroomlimited.com](mailto:lykot@hitechtoolroomlimited.com) ; shareholders holding shares in physical mode are requested to furnish details to the Company's Registrar and Share Transfer Agent ("RTA"), **Cameo Corporate Services Limited**, at [murali@cameoindia.com](mailto:murali@cameoindia.com). Notice of the 35<sup>th</sup> AGM and Annual Report 2025-26 will also be made available on the Company's website at [www.lykot.com](http://www.lykot.com) and on stock exchange websites at [www.bseindia.com](http://www.bseindia.com).

4. A letter providing the web link for accessing the Annual Report for the Financial Year 2025-26 will be sent to those shareholders who have not registered their email address with the Company/Depositories. The web link where complete details of the Annual Report, including the AGM Notice, will be available is [www.lykot.com](http://www.lykot.com).

5. Shareholders whose names are recorded in the Register of Members or the Register of Beneficial Owners maintained by the Depositories as on the Cut-Off Date, **Friday, 28<sup>th</sup> August, 2026** only shall be entitled to avail the facility of remote e-voting as well as voting at the AGM. The Company has availed e-voting services from Central Depository Services Limited (CDSL) and the remote e-voting period will commence on **Tuesday, 01<sup>st</sup> September, 2026 at 9.00 A.M (IST)** and will end on **Thursday, 03<sup>rd</sup> September, 2026 at 5.00 PM (IST)**.

6. Pursuant to the Listing Regulations and Section 91 of the Companies Act, 2013 and the Applicable Rules made thereunder the Register of Members and Share Transfer Books of the Company will remain close from **Saturday, 29<sup>th</sup> August 2026 to Friday, 04<sup>th</sup> September 2026** (both days inclusive).

7. The Company has appointed M/s. Lakshmi Subramanian & Associates, Practicing Company Secretaries, Chennai as the Scrutinizer for giving their report on the e-voting process for the 35<sup>th</sup> AGM.

8. Those shareholders holding shares in physical form, whose e-mail addresses are not registered with the Company, may register their e-mail address by sending scanned copy of a signed request letter mentioning name, folio number, complete address, email address to be registered, scanned copy of the share certificate (front and back), self-attested scanned copy of PAN/Aadhaar, supporting the registered address of the shareholder by e-mail to [murali@cameoindia.com](mailto:murali@cameoindia.com). Shareholders holding shares in demat form can update their email address by sending mail to [lykot@hitechtoolroomlimited.com](mailto:lykot@hitechtoolroomlimited.com) and are requested to update their email ID registered with the RTA/Depository Participant to receive timely communication.

9. The detailed instructions for joining the AGM through Audio Visual means and casting the vote through e-voting facility are provided in the Notice of the AGM. In case of any queries, shareholders may refer the instructions or refer the FAQs and user manual on the e-voting website of CDSL to get clarifications on the e-voting process.

**NOTICE OF 39<sup>th</sup> ANNUAL GENERAL MEETING AND REMOTE E-VOTING INFORMATION**

Notice is hereby given that the Thirty-Ninth(39<sup>th</sup>) Annual General Meeting ("AGM") of the Members of the Company is scheduled to be held on Tuesday, September 01, 2026 at 04:00 PM (IST) through Video Conferencing ("VC") / Other Audio-Visual Means ("OAVM") to transact the businesses as set forth in the Notice convening the Meeting ("Notice").

In accordance with General Circular No. 03/2025 dated September 22, 2025, read with previous circulars issued by the Ministry of Corporate Affairs ("MCA") and applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), companies are permitted to conduct AGM through VC/OAVM without the physical presence of Members at a common venue. Accordingly, the AGM of the Company will be conducted through VC/OAVM.

In compliance with the aforesaid Circulars, the Company has electronically dispatched the Notice along with the Annual Report for FY 2025-26 to all Members whose e-mail IDs are registered with the Company/Depository Participants ("DPs")/ Satellite Corporate Services Private Limited, Registrar & Share Transfer Agent ("RTA"). The electronic dispatch of the Notice and Annual Report was completed on Saturday, August 08, 2026 and the same are also available on the website of the Company at <https://oasissecurities.in/>, website of BSE Limited at [www.bseindia.com](http://www.bseindia.com) and on the website of National Securities Depository Limited ("NSDL") at [www.evoting.nsdl.com](http://www.evoting.nsdl.com).

In accordance with Regulation 36(1)(b) of the Listing Regulations, a letter providing the web-link for accessing the Annual Report for the Financial Year 2025-26 has been sent to all those Members whose e-mail IDs are not registered.

## Instructions for remote E-voting and E-voting during the AGM:

- Pursuant to section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 and Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 the Company is pleased to provide the facility to the members to exercise their right to vote by electronic means on resolutions proposed to be passed at the AGM. Members holding shares either in physical form or dematerialized form as on **Tuesday, August 25, 2026 (cut-off date)**, can cast their vote electronically through electronic voting system (remote e-voting) of NSDL at [www.evoting.nsdl.com](http://www.evoting.nsdl.com). A person whose name is recorded in the Register of Members or in the Register of Beneficial Owners maintained by the Depositories as on cut-off date shall be entitled to avail the facility of remote e-voting at the AGM.
- The remote E-voting period will commence on **Saturday, August 29, 2026 at 09:00 AM (IST)** and will end on **Monday, August 31, 2026 at 05:00 PM (IST)**. Thereafter the E-voting module shall be disabled by NSDL. Once the vote on a resolution is casted by members, the members cannot modify it subsequently.
- Members who have acquired shares after the sending of the Notice of the AGM and statements thereto through electronic means and before the cut-off date i.e. **Tuesday, August 25, 2026 (cut-off date)**, may obtain the USER ID and Password by sending a request at [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in). However, if a person is already registered with NSDL for remote e-voting then they may use their existing USER ID and Password and cast their vote. Members attending the AGM who have not cast their vote by remote e-voting shall be eligible to cast their vote through e-voting during the AGM. Members who have voted through remote e-voting shall be eligible to attend the AGM, however they shall not be eligible to vote at the meeting.
- The detailed procedure of electronic voting is mentioned in the Notice of the AGM and is also available on the website of NSDL viz. [www.evoting.nsdl.com](http://www.evoting.nsdl.com). In case of queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and e-voting user manual for shareholders available at the download section of [www.evoting.nsdl.com](http://www.evoting.nsdl.com) or call on **022 - 48867000** or send a request to Pallavi Mhatre, Senior Manager at [evoting@nsdl.com](mailto:evoting@nsdl.com).
- Any query or grievance connected with the AGM, other than E-Voting, may be addressed to the Company Secretary at [sodhanioasis@gmail.com](mailto:sodhanioasis@gmail.com) or at the corporate office address or members may contact Satellite Corporate Services Private Limited at [service@satellitecorporate.com](mailto:service@satellitecorporate.com).

The above information is being issued for the information and benefit of all the members of the Company and in compliance with the MCA and SEBI Circulars as amended from time to time.

NOTICE TO SHAREHOLDERS

SPECIAL WNDOW FOR RE-LODGMET OF TRANSFER REQUESTS OF EQUITY SHARES HELD IN PHYSICAL MODE-FOURTH REMINDER

Skipper Limited (the Company) hereby informs its shareholders that the Securities and Exchange Board of India vide its Circular No. HO/38/13/11(2)2026-MIRSD-POD/1/3750/2026 dated January 30, 2026, had announced re-opening of special window for re-lodgement of transfer requests of equity shares held in physical mode.

To facilitate ease of investing and safeguard the rights of investors in respect of the securities purchased by them, this special window has been opened solely for the re-lodgement of physical transfer deeds that were originally executed prior to April 1, 2019.

This special window will remain open until February 4, 2027, providing shareholders with one year to re-lodge their physical transfer requests.

For better understanding of the aforesaid circular, please refer to the matrix given below :

| Execution Date of Transfer Deed | Lodged for transfer before April 1, 2019? | Original Share Certificate available? | Eligible to lodge in the current window? |
|---------------------------------|-------------------------------------------|---------------------------------------|------------------------------------------|

**HDFC BANK**  
We understand your world

Registered Office: HDFC Bank House,  
Senapati Bapat Marg, Lower Panel (West),  
Mumbai - 400 013 and having one of its office as  
Retail Portfolio Management at HDFC Bank Ltd, 1st Floor, I-Think Techno Campus,  
Kanjurmarg (East), Mumbai - 400042.

**SALE INTIMATION AND NOTICE FOR SALE OF SECURITIES PLEDGED TO HDFC BANK LTD.**

The below mentioned Borrowers of HDFC Bank Ltd. (the "Bank") are hereby notified regarding the sale of securities pledged to the Bank, for availing credit facilities in the nature of Loans/Overdraft Against Securities.

Due to persistent default by the Borrowers in making repayment of the outstanding dues as per agreed loans / facilities terms, the below loan / facilities accounts are in delinquent status or classified as NPA (Non-Performing Asset). The Bank has issued multiple notices / loan recall notice to these Borrowers, including the final sale notice on the below-mentioned date whereby, Bank had invoked the pledge and provided 7 days' time to the Borrower to repay the entire outstanding dues in the below accounts, failing which, Bank would be at liberty to sell the pledged securities without issuing further notice in this regard. The Borrowers have neglected and failed to make due repayments, therefore, Bank in exercise of its rights under the loan agreement as a pledgee has decided to sell / dispose off the Securities on or after **17<sup>th</sup> August 2026** for recovering the dues owed by the Borrowers to the Bank. The Borrowers are hereby notified to treat this as a notice of sale in compliance of section 176 of the Indian Contract Act, 1872. The Borrowers are, also, notified that, if at any time, the value of the pledged securities falls further due to volatility in the stock market to create further deficiency in the margin requirement then Bank shall at its discretion sell the pledged security within one (1) calendar day, without any further notice in this regard. The Borrower(s) shall remain liable to the Bank for repayment of any remaining outstanding amount, post adjustment of the proceeds from sale of pledged securities.

**SALE INTIMATION AND NOTICE FOR SALE OF SECURITIES PLEDGED TO HDFC BANK LTD.**

The below mentioned Borrowers of HDFC Bank Ltd. (the "Bank") are hereby notified regarding the sale of securities pledged to the Bank, for availing credit facilities in the nature of Loans/Overdraft Against Securities.

Due to persistent default by the Borrowers in making repayment of the outstanding dues as per agreed loans / facilities terms, the below loan / facilities accounts are in delinquent status or classified as NPA (Non-Performing Asset). The Bank has issued multiple notices / loan recall notice to these Borrowers, including the final sale notice on the below-mentioned date whereby, Bank had invoked the pledge and provided 7 days' time to the Borrower to repay the entire outstanding dues in the below accounts, failing which, Bank would be at liberty to sell the pledged securities without issuing further notice in this regard. The Borrowers have neglected and failed to make due repayments, therefore, Bank in exercise of its rights under the loan agreement as a pledgee has decided to sell / dispose off the Securities on or after **17<sup>th</sup> August 2026** for recovering the dues owed by the Borrowers to the Bank. The Borrowers are hereby notified to treat this as a notice of sale in compliance of section 176 of the Indian Contract Act, 1872. The Borrowers are, also, notified that, if at any time, the value of the pledged securities falls further due to volatility in the stock market to create further deficiency in the margin requirement then Bank shall at its discretion sell the pledged security within one (1) calendar day, without any further notice in this regard. The Borrower(s) shall remain liable to the Bank for repayment of any remaining outstanding amount, post adjustment of the proceeds from sale of pledged securities.
