INTERVIEW

MONDAY, SEPTEMBER 28, 2026

● **AJAY SETH**, CHAIRMAN, INSURANCE REGULATORY AND DEVELOPMENT AUTHORITY OF INDIA

‘Each comment with a rationale will be carefully considered’

The proposed insurance distribution reforms aim to simplify the architecture, widen consumer choice and align remuneration with the effort and constraints of each channel, rather than favouring one model over another, said Insurance Regulatory and Development Authority of India (Irdai) Chairman Ajay Seth. In an interview with Prasanta Sahu, Seth also outlined the role of digital and interoperable infrastructure such as Bima Sugam and the proposed Public Insurance Registry (PIR) in shifting insurance towards a more choice-driven, transparent and digitally enabled ecosystem.

The consultation paper on distribution reforms lays greater emphasis on agency channels with higher incentives than on channels such as bancassurance and web aggregators. Will this single-channel focus not affect penetration?

I would not characterise the reform as a single-channel strategy or as focusing on a single channel. The objective is actually to reform the distribution architecture and create greater choice, while aligning remuneration with the nature of the channel and the effort involved.

An individual agent operating in a closed architecture has restrictions on the products that can be offered. Therefore, it is reasonable to allow relatively higher commission limits for such channels. In contrast, entities that can operate in an open architecture and offer products from multiple insurers will have relatively lower commission limits because they have greater choice and flexibility.

At the same time, digital and marketplace models are being strengthened. Bima Sugam and other market infrastructure institutions are intended to provide fully digital, pull-based alternatives, while IDEs can also opt for an open architecture.

So, the objective is not to favour one channel at the expense of another. It is to remove regulatory arbitrage, widen distribution options and ensure that remuneration reflects the constraints, complexity and effort involved in each channel.

Insurers are worried about a full overhaul of their existing distribution networks, requiring more investment in building agency and proprietary channels?

The intent is not to require insurers to dismantle their existing distribution networks and start afresh. What we are trying to do is simplify the regulatory architecture and create more flexibility within it. Today, there are multiple categories of distribution entities with different capital requirements, scopes and obligations, even where they perform similar functions.

We are proposing to bring these into three broad categories: Insurance Distribution Entities (IDEs), Insurance Distribution Persons (IDPs) and Market Infrastructure Institutions (MIIs).

Importantly, insurers will continue to have the ability to engage agents and associates. At the same time, they will have greater flexibility to distribute products of a group insurer in a non-competing segment through their branch network, subject to safeguards. The reforms also reduce entry and capital requirements for distribution entities and allow greater non-insurance business opportunities.

Therefore, the objective is not to force a particular distribution model, but to make the architecture simpler, more competitive and more economically sustainable, while allowing insurers to decide the mix that works for their customers and business.

The industry has broadly argued that a one-size-fits-all approach may not be feasible for everyone. Are you open to a scale-based expenses of management limit or something similar?

There is a thought and rationale behind the consultation paper. I would request that readers read it a couple of times. The focus is on expense coverage and

on taking insurance beyond the areas where it is currently concentrated. The document points out that the insurance business is concentrated in 10 states and, within those states, in about eight to 10 districts.

How do we take insurance to all parts of the country—to smaller cities, smaller towns and rural areas?

One incentive is the reduction in the capital requirement for becoming a broker. Today, the requirement is ₹75 lakh. How many families can afford to put ₹75 lakh into starting a financial services business where earnings come through commissions?

This is proposed to be brought down to ₹10 lakh. The fee has also already been reduced. It used to be ₹1 lakh every three years and has been brought down to a flat ₹10,000. Once the business grows beyond ₹100 crore, the fee will increase.

In smaller towns with populations of less than 50,000 and in rural areas, an incentive of 20% has been proposed. If the commission is 20%, another 4% can be available there. Similarly, for cities with populations of less than 1 million—there are around 74 such cities—a 10% increase is available. So, if the commission limit is 20%, another 2% would be available.

Until now, an insurance broker could not sell anything else. They could not sell pension products, capital market products and so on. We are opening that up as well. Similarly, hospitals can also sell health insurance, but at a lower commission.

Irdai has proposed a 15% expenses of management (EoM) limit for life insurers, 20% for general insurers and 30% for standalone health insurers. Is a standard EoM limit across small, mid-sized and large insurers reasonable?

The objective is not to impose a blunt cost ceiling without considering the economics of the business. The proposed approach is to move

towards greater expense discipline at the company level through a glide path, while allowing insurers sufficient time to adjust.

For life insurance, the proposed EoM level is 15% of premium within two years and 12.5% within five years. For general insurance, including standalone health insurers, the corresponding levels are 25% within two years and 20% within five years. Insurers that are already operating below the benchmark have a separate convergence path.

The underlying principle is that EoM should ultimately reflect an efficient and sustainable cost structure, rather than the size of an insurer. Larger insurers should also be able to benefit from scale economies, while smaller insurers need time to build scale and improve efficiency. We have therefore proposed a medium-term glide path rather than an overnight adjustment, and the framework will be reviewed as the sector transitions.

Having said that, we are open to all kinds of suggestions and feedback, including on the pace of convergence and its impact across different types of entities.

Is there any scope to relax the proposed EoM and commission limits after receiving feedback?

From the regulatory perspective, what we have tried to do is put relevant data in the public domain, not just in raw form, but in an analysed form that is easy to understand and comprehend, with inferences drawn. I would not like to comment on what the outcome will be. These proposals have been made with a certain

thought process and economic rationale. If somebody has a different rationale or perspective, they should put it forward. Each comment will be carefully considered.

There is a view that lower commission rates will force distributors to junk low-value yet crucial policies such as motor insurance and personal accident cover in favour of high-value products. Your views?

That is precisely why we have not proposed a uniform commission rate across products. The central principle is to link commission to the complexity of the product and the effort required to sell and service it.

For products that are mandatory or require very little selling effort, the commission can legitimately be lower. For example, the proposed commission for new-vehicle third-party motor insurance is nil because insurance is mandatory before the vehicle can leave the showroom. But own-damage, personal accident and legal-liability covers have separate and higher proposed limits. Similarly, more complex

products can carry higher commission limits. There are also additional incentives proposed for business sourced from underserved areas, including rural areas and smaller towns. So, the objective is not to make distributors abandon essential products. It is to remove excessive remuneration where there is little selling effort, while ensuring adequate incentives where genuine distribution effort, advice and servicing are involved. This should help move the industry from commission-led selling towards needs-led distribution.

Some foreign insurers have expressed concerns about frequent policy and regulatory changes, including surrender value guidelines, GST changes, Ind AS, and now the proposed commission reforms...

First, one should look at what these three changes are about. If somebody surrenders a policy after one year, they would get only about 73.3 out of 100. Even after five years, the person would get anywhere between 76.1 and 77.4. Someone may change jobs, see their income decline or have other liabilities. If they are unable

to continue the policy, the surrender value becomes important.

Second, on GST, the government has provided a huge benefit. GST on retail policies has been brought down, which means prices have come down. When prices come down, more business can come in. It is not only the consumer who benefits; it can also lead to more business.

Third, India has been moving towards global accounting and regulatory practices. The RBI has done this in phases and has brought banks broadly to the same level. It was therefore time for the insurance sector to move in the same direction.

The proposed levels of commission and expenses of management are broadly of the same order as they were seven or eight years ago. So, when we talk about too many changes, it is important to understand the rationale behind each of them.

The PIR is envisaged as a population-scale, interoperable and non-exclusionary digital public infrastructure for the insurance sector. How will this change the way insurance products are sold

and serviced today?

The biggest change that we envisage will be a gradual shift from a predominantly push-based model of “insurance being sold” to a complementary model where insurance can also be “easily discovered, compared and purchased” by customers. Today, product information, policy records, claims history and service information are fragmented across insurers and distribution channels.

PIR can create a common information layer that allows verified information to flow securely, with appropriate consent and safeguards. This can enable easier product comparison, suitability assessment, portability, onboarding, servicing and claims.

It can also reduce repetitive KYC, documentation and verification, allowing distributors and insurers to spend more time on advice and service rather than information collection. At the same time, this does not mean eliminating intermediaries.

Assisted distribution will remain important, particularly for complex products and customers who need advice. The objective is to give customers more choice, lower friction and better information, while allowing insurers and distributors to compete on product, price and service quality.

Insurers are worried about proprietary data sharing on an interoperable system. Your views?

That concern is understandable, and interoperability should not mean indiscriminate sharing of proprietary or commercially sensitive information. PIR is not intended to become a central repository of every piece of information held by an insurer. The principle is to collect or make available only the information necessary for a defined purpose.

Detailed product files, pricing models, actuarial documentation, product strategy and other commercially sensitive information can remain with the originating institution. Where information is required across insurers, access will be purpose-bound and consent-based wherever required. The architecture also incorporates tokenisation, role-based access, audit trails and privacy safeguards.

For insurers, the objective is actually to reduce the need for multiple bilateral data exchanges by creating common standards and protocols.

So, we are trying to achieve interoperability without compromising commercial confidentiality. Competition should increasingly be based on: product innovation, pricing, underwriting, service quality, and customer experience, rather than simply on ownership of fragmented information.

The final rollout of the Bima Sugam portal has seen inordinate delays. Is there any specific timeline to operationalise the platform? Which leg of the process is holding up the process?

Bima Sugam falls within a broader framework of MIIs for insurance. The objective is to create a fully digital, pull-based alternative through which customers can discover, compare and purchase insurance products.

We expect Bima Sugam to become operational in the next four to six months. At the same time, we are looking at the possibility of more MIIs being promoted by insurers, so that the ecosystem does not depend on a single platform.

I would, therefore, look at the rollout less as one particular

technology deployment and more as the establishment of the complete operating ecosystem: Insurers, products, APIs, customer journeys, regulatory safeguards, payments, servicing and grievance mechanisms all have to work together.

The objective is to ensure that, when the platform goes live, it provides a genuine digital, pull-based purchasing experience, rather than simply becoming another front end layered over existing processes.

Property insurance premium rates are crashing due to steep discounting. How is Irdai planning to address the problem of excess insurance and reinsurance capacity?

The issue here is not simply the quantum of insurance or reinsurance capacity. Capacity is valuable when it supports risk transfer, but it should not result in underwriting that is disconnected from the underlying risk. Sustainable insurance ultimately requires appropriate risk assessment, pricing and underwriting discipline.

The distribution reforms address one part of this equation by bringing greater transparency and discipline to commercial insurance. For property insurance, the proposed commission structure itself recognises the scale of the risk, with commission limits reducing as the sum insured increases. For very large risks, the proposed limits are substantially lower.

There is also a wider need for better risk information.

A more interoperable insurance information architecture can improve visibility on: loss experience, catastrophe exposure, risk accumulation, and emerging risks, which can support better underwriting and reinsurance decisions. So, the approach is not to restrict capacity. It is to improve the quality of risk information, strengthen underwriting discipline, and ensure that competition takes place on the basis of risk, service and efficiency rather than unsustainable price discounting.

“COMMERCIALLY SENSITIVE INFORMATION LIKE DETAILED PRODUCT FILES, PRICING MODELS, ACTUARIAL DOCUMENTATION, ETC., CAN REMAIN WITH THE ORIGINATING INSTITUTION

Another digital public infrastructure, National Health Claims Exchange (NHCE), failed to take off due to push back from hospitals. Do you think the PIR will succeed?

First of all, it would not be right to say that NHCE has failed to take off. NHCE went live in June 2024 and has demonstrated significant adoption on the government side, with 87 million claim API requests through nearly

47,000 hospitals as of last week.

The private health insurance ecosystem, however, is at an early stage, with 864 private hospitals onboarded and 28,609 claim requests processed. The experience does highlight an important lesson: Digital infrastructure succeeds when integration is simple, standards are clear and every participant sees value. NHCE is addressing these issues through greater standardisation, reduced integration costs, structured FHIR-compliant data and 24x7 support. The one-time cost of direct integration has already been reduced from ₹25 lakh to around ₹10 lakh.

PIR is being designed with that understanding. It is not intended to centralise the operations of insurers or replace existing systems. It provides common information standards, protocols and shared services, while allowing different market participants and Market Infrastructure Institutions to build solutions.

We are also proposing a phased implementation, beginning with use cases where the data is relatively mature and the value is clear. Stakeholder participation is critical, particularly because insurers, intermediaries and other participants will have to integrate their systems and processes.

Ultimately, the success of PIR will depend on whether it reduces friction and creates tangible value for policyholders, insurers, distributors and regulators.

That is why adoption, transition support and continuous stakeholder engagement are being treated as integral to the architecture, rather than as an afterthought.

“THE OBJECTIVE IS NOT TO FORCE A PARTICULAR DISTRIBUTION MODEL, BUT TO MAKE THE ARCHITECTURE SIMPLER, MORE COMPETITIVE AND MORE ECONOMICALLY SUSTAINABLE. AT THE SAME TIME, INSURERS WILL GET TO DECIDE THE MIX THAT WORKS FOR THEIR CUSTOMERS AND BUSINESS

“THE FOCUS IS ON EXPENSE COVERAGE AND TAKING INSURANCE BEYOND THE AREAS WHERE IT IS CURRENTLY CONCENTRATED. THE BUSINESS IS CURRENTLY CONCENTRATED IN 10 STATES AND, WITHIN THOSE STATES, IN ABOUT EIGHT TO 10 DISTRICTS

COMPREHENSIVE PROCESS REFORMS TO BE DISCUSSED ON OCT 7

GST Council to simplify processes, cut penalties

SHUBHAM RANA
& PRASANTA SAHU
New Delhi, September 27

OVER A YEAR after the number of goods and services tax (GST) slabs were reduced to two from four and tax rates were cut across the board for a consumption booster, the GST Council is set to take up comprehensive process reforms in its meeting on October 7.

These will cover easing of procedures concerning penalties, refunds, registration, and availing input tax credits, according to official sources. The Council is also expected to prescribe a minimum threshold for show-cause notices, rationalise penalty amounts in cases that do not involve fraud, lower general penalty levels, streamline registration, and take measures to minimise mismatches and reduction of notices, the sources added.

The Council may also decide on treating permanent transfer of title of intellectual property rights as a supply of services, removing the late fee for delayed filing of returns by small taxpayers, and including

ON THE AGENDA

■ Council may waive late fee for delayed return filing by small taxpayers

■ General penalties may be lowered to **₹10,000**

■ Focus on simpler process, ease of doing business

■ Input tax credit-related issues may be taken up

■ Permanent transfer of intellectual property rights (IPR) may be treated as supply of services

Metro Rail systems for e-way bill generation, sources said.

Finance Minister Nirmala Sitharaman earlier this month said the upcoming GST Council meeting will focus "only on process reforms".

At the last Council meeting, held on September 3, 2025, the

four GST slabs of 5%, 12%, 18%, and 28% were merged into a two-tier structure of 5% and 18%, along with a 40% rate for ultra-luxury and sin goods. These changes came into effect on September 22, 2025.

The Council may waive the

late fee for delayed filing of returns by small taxpayers, those with aggregate turnover of less than ₹5 crore in the last financial year, if the said person furnishes the return on or before the last day of the month in which such return is to be furnished.

The Council may also lower the general penalties for all taxpayers to ₹10,000 from ₹25,000, sources said.

According to the sources, the law committee of the Council has recommended issuing a comprehensive circular to provide "clear and consistent" guidance on the information required under the GST registration application.

This will eliminate ambiguity, minimise avoidable processing delays, and facilitate ease of compliance, sources said. This issue is expected to be taken up at the meeting.

The committee has also recommended guidelines be issued to field officers for ensuring uniformity across jurisdictions and expeditious processing of the registration applications, sources said.

YOGI ADITYANATH, CHIEF MINISTER, UTTAR PRADESH

'Investment policy is shifting to high-value mfg, tech sectors'

Uttar Pradesh is shifting its investment policy towards high-value manufacturing, technology and clean-energy sectors, while putting greater emphasis on project execution, industrial land, logistics and power availability, Chief Minister Yogi Adityanath tells Saurav Anand in an exclusive interview. Excerpts:

How is Uttar Pradesh's investment policy changing?

Our investment policy is evolving. The first phase was about creating the basic conditions — law and order, connectivity, power, land, infrastructure and ease of doing business. The next one is about making Uttar Pradesh competitive for industries of the future.

We now have more than 36 sector-specific policies covering manufacturing, electronics

and semiconductors, GCCs, data centres, defence, green energy and emerging technologies. The Startup Policy supports AI, deep-tech, AgriTech and HealthTech, while the Green Hydrogen Policy opens another industrial opportunity in clean energy. We have also introduced a dedicated FDI and Fortune 500 Investment Promotion Policy, with a land-cost rebate of up to 75% and capital subsidy, along with the Uttar Pradesh Semiconductor Policy.

How much of the investment pipeline has moved to imple-

mentation?

Since the Global Investors Summit in February 2023, Uttar Pradesh has received investment proposals worth more than ₹33.5 lakh crore.

Projects worth ₹10.24 lakh crore have been grounded through ground-breaking ceremonies and more than 4,000 projects are in commercial production.

Over the last three years, the state has received FDI of \$1.5 billion. Department for Promotion of Industry and Industrial Trade records FDI against the state where a company's reg-

istered office is located, so some capital invested in factories in Noida, Lucknow and Kanpur can be reflected in another state's numbers. The investment mix has also widened from manufacturing, automobiles, textiles, food processing and pharmaceuticals to semiconductors, electronics, data centres, GCCs, artificial intelligence and renewable energy.

Are recent investments becoming more technology-intensive?

This year, investment engagements at Davos brought commitments of nearly ₹3 lakh crore across clean energy, data centres, AI and advanced manufacturing.

The Singapore-Japan global investment outreach brought another ₹2.50 lakh crore of commitments, particularly in manufacturing and technology.

Smartphone PLI payouts match investments

MUKESH JAGOTA
New Delhi, September 27

COMPANIES PARTICIPATING

IN the government's production linked incentive (PLI) scheme for large-scale electronics manufacturing (LSEM), which largely covered smartphone manufacturing, have received incentives worth nearly as much as their investments, highlighting the scale of the programme's impact on the electronics industry.

Against cumulative investments of ₹20,580 crore, companies under the scheme have received ₹19,090 crore in incentives up to the end of June.

The scheme, among the first PLI programmes notified on April 1, 2020, completed its tenure in March 2026 after a one-year extension granted to offset disruptions caused by the Covid-19 pandemic.

During the scheme's tenure, participating companies recorded ₹11.62 lakh crore in production and sales and generated 167,000 direct and indirect jobs.

The electronics sector has emerged as the largest contributor to output among the 14 PLI schemes.

Companies selected under LSEM accounted for 48% of the combined ₹23.79 lakh crore output generated by beneficiaries across the 14 sectors, despite accounting for only 7.9% of their total investment of ₹2.58 lakh crore.

The sector also accounted for 51% of the total ₹36,754 crore PLI incentives disbursed so far.

The programme has coincided with a sharp expansion in India's smartphone exports. Shipments of smartphones from India rose to \$29.36 billion in 2025-26, from \$5.5 billion in 2021-22, when the scheme was beginning to gain traction.

The LSEM scheme covered mobile phones across categories, including high-value devices with an invoice value of ₹15,000 and above. It also provided support for electronic components, sub-assemblies and assembly, testing, marking and packaging (ATMP) units.

With LSEM now completed, the government has shifted its focus from creating manufacturing scale to deepening domestic value addition and building a wider electronics supply chain through two new initiatives—the Mobile Phone Manufacturing Scheme (MPMS) and the expanded Electronics Component Manufacturing Scheme (ECMS).

The ₹62,500-crore MPMS, announced in July 2026 for FY2026-27 to FY2030-31, seeks to move the mobile-phone industry beyond large-scale assembly towards greater value capture within India. It provides an additional 1.5% incentive for domestic sourcing of key components and sub-assemblies.

THIS IS A PUBLIC ANNOUNCEMENT FOR INFORMATION PURPOSES ONLY. THIS IS NOT A PROSPECTUS ANNOUNCEMENT AND DOES NOT CONSTITUTE AN INVITATION OR OFFER TO ACQUIRE, PURCHASE OR SUBSCRIBE TO SECURITIES. NOT FOR RELEASE, PUBLICATION OR DISTRIBUTION, DIRECTLY OR INDIRECTLY, OUTSIDE INDIA.

THE EQUITY SHARES OF THE COMPANY WILL GET LISTED ON MAIN BOARD PLATFORM OF BSE LIMITED ("BSE") AND NATIONAL STOCK EXCHANGE OF INDIA LIMITED ("NSE, AND TOGETHER WITH BSE, THE "STOCK EXCHANGES") IN COMPLIANCE WITH CHAPTER II OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018, AS AMENDED ("SEBI ICDR REGULATIONS")

ArMee

ARMEE INFOTECH LIMITED

(TO BE LISTED ON THE MAIN BOARD OF BSE AND NSE)

Our Company was originally incorporated as "Blossom Infraspace Private Limited" a private limited company under the Companies Act, 1956 through a certificate of incorporation dated February 8, 2011, issued by the Registrar of Companies, Gujarat at Dadra and Nagar Haveli. On March 1, 2017, our Company was admitted into a partnership, namely, M/s ArMee Infotech (the "Partnership Firm"). Subsequently, through a deed of dissolution dated April 1, 2017, the Partnership Firm was dissolved, and the business of M/s ArMee Infotech was transferred to our Company. Pursuant to a resolution passed by our Board at its meeting held on March 31, 2017 and the special resolution passed by our Shareholders at their meeting held on April 8, 2017, the name of our Company was changed to "ArMee Infotech Private Limited" to resonate with the nature of business, and a fresh certificate of incorporation consequent upon change of name was issued by the Registrar of Companies, Gujarat at Ahmedabad ("RoC") on April 21, 2017. Upon conversion of our Company into a public limited company, pursuant to the approval accorded by our Shareholders at their extra-ordinary general meeting held on February 20, 2024, the name of our Company was changed to "ArMee Infotech Limited" and a fresh certificate of incorporation consequent upon change of name upon conversion to public limited company was issued to our Company by the RoC on April 24, 2024. This corrigendum (Corrigendum) is with reference to the red herring prospectus dated September 16, 2026 (RHP) of the Company. In this regard, please note the following:

- In the "Objects of the Issue" chapter:
 - In table on "Existing working capital" on page 100 of the RHP, in the column "As at March 31, 2025", the "Net working capital requirement" shall read as ₹ 1,22,27.08 lakhs instead of ₹ 1,22,77.08 lakhs and elsewhere in the RHP as well. In the same table the total of "Existing funding pattern" should read as ₹ 1,22,27.08 lakhs instead of ₹ 1,22,77.08 lakhs.
 - On page no 102 of the RHP:
 - A decrease in current liabilities by ₹ 2,101.02 lakhs from ₹ 62,675.65 lakhs in Fiscal 2025 to ₹ 60,574.63 lakhs in Fiscal 2026. This decrease is primarily due to the following factors:
 - A decrease in Trade Payables by ₹ 7,153.05 lakhs, primarily on account of payments made to suppliers during the year and improved vendor settlements.
 - This decrease was partially offset by:
 - An increase in Other Financial and Current Liabilities (including provisions and current tax liabilities, excluding lease liabilities) by ₹ 5,170.01 lakhs, mainly due to an increase in advance received for execution of EPC projects and statutory dues;
 - An increase in Non-current Liabilities comprising Unearned and Deferred Revenue and Provision for Claims and Contingencies by ₹ 62.02 lakhs.
 - Should be read as:

PC Jeweller clears bank dues, becomes debt-free

PC JEWELLER has become debt free having cleared dues of all 14 consortium banks. The company had a total debt of around ₹3,000 crore. In September 2024, PC Jeweller had opted for OTS (one-time settlement) for its outstanding dues with a consortium of banks.

The terms and conditions of approved OTS included cash and equity components payable under the settlement, release of securities and mortgaged properties etc. In a regulatory filing, PC Jeweller informed that the company has “successfully discharged the remaining outstanding debt of the banks and has achieved its financial objective of a debt-free status”.

NEW CHARGES ON HIGH-VALUE DEALS MAY SPUR MORE CARD DISCOUNTS

UPI MDR puts big-ticket retail payments in focus

VIVEAT SUSAN PINTO & ANEES HUSSAIN
Mumbai/Bengaluru, September 27

INDIA'S NEW MERCHANT discount rate (MDR) on high-value UPI transactions is set to raise payment costs for retailers just as the festive shopping season gathers pace, though the impact is likely to vary sharply with the size of the shopping basket.

Large-format retailers selling electronics, apparel, jewellery and sports goods, transactions above ₹2,000 are common, and UPI is increasingly being used for such purchases. Smaller-ticket businesses and online platforms, by contrast, are likely to see a more limited impact because a larger share of their transactions falls below the threshold.

At electronics retailer Vijay Sales, about 15% of total transactions are paid through UPI, according to director Nilesh Gupta. Customers routinely use UPI for purchases ranging from ₹5,000 to ₹20,000, he said.

“Now the cost will go up. It was a zero cost to us so far,” Gupta said. Vijay Sales already absorbs credit-card charges and will take a similar approach with UPI, he added.

That could put the spotlight on how retailers and con-

PAYMENT SHIFT

■ Electronics, jewellery, apparel and other big-ticket retailers face greater exposure, while food delivery and quick-commerce should see a smaller hit

■ UPI accounts for about 15% of transactions at Vijay Sales, with typical purchases ranging from ₹5,000 to ₹20,000

■ Retailers and e-commerce platforms may lean harder on card discounts, cashback and EMI offers to steer high-value purchases away from UPI

■ Elara estimates FY27 MDR costs of ₹127 crore for DMart, ₹29.9 crore for Nykaa and ₹18.2 crore for Eternal, with differing effects on Ebitda

■ Large retailers can negotiate payment rates, while medium and small businesses have less bargaining power and could bear more of the charge

sumers respond during the festive season. Retail executives and analysts expect merchants and e-commerce platforms to push card-linked discounts, cashback offers and EMI financing more aggressively, particularly for smartphones and other electronics.

Such offers could shift some high-value purchases towards cards, allowing consumers to combine payments with financing and promotional benefits. It would also keep those transactions outside the UPI MDR net, retail executives said. The difference in transaction values between UPI and card payments is already pronounced.

Marketplace UPI transactions rose 48% year-on-year to 180.7 million in July 2026, while their value increased 27% to ₹10,224 crore, according to Datum Intelligence. The average transaction value consequently fell 14% to ₹566.

Online card transactions, meanwhile, rose 24.1% to 335 million, while spending increased 7.5% to ₹1.48 lakh crore in the same period. The average card transaction stood at ₹4,413, according to Datum's analysis of RBI data, although that was down from ₹5,253 in January 2025.

“Basket size is going to determine who feels the pain,” said Karan Taurani, executive vice-

president at Elara Capital, pointing to the sharp difference in exposure across retailers and consumer internet firms.

Elara estimates Avenue Supermarts, which operates DMart, will face the largest absolute MDR cost among the companies it tracks, at ₹127 crore in FY27. That would be equivalent to 2.1% of estimated FY27 Ebitda of ₹6,138.5 crore, the brokerage said.

Nykaa is more exposed relative to its earnings because its average order values are closer to the ₹2,000 threshold. Elara estimates its MDR cost at ₹29.9 crore, or 2.6% of FY27 Ebitda. Trent's estimated cost is ₹21.7 crore.

● SRIDHAR MANTHA , CEO, GBS, HAPPIEST MINDS

‘We’ll compete beyond the mid-cap space’

HAPPIEST MINDS EXPECTS its GenAI business services (GBS) unit to grow significantly faster than the company after its merger with ITC Infotech, as the combined entity gains access to new industry verticals and client accounts.

Sridhar Mantha, CEO, GBS, Happiest Minds, tells **Poulomi Chatterjee** that the company is also scaling its AI product specialists, its equivalent of Forward Deployed Engineers (FDE), to 100 by the end of the year. Excerpts:

How do you expect GBS revenue to grow after the ITC Infotech merger?

The GBS unit was created with a focus on GenAI and subsequently moved towards agentic AI. Its revenue reflects AI solutions and the business transformation they deliver, and does not include AI-led productivity gains within the company. The complementary

ity between Happiest Minds and ITC Infotech is clear. ITC Infotech has strong capabilities in areas such as manufacturing and travel, giving us access to new verticals and accounts.

The sharper focus created through GBS over the last three years should translate into more opportunities after the merger. It is still too early to put a number to the growth. But since the unit is small, it is expected to grow much faster than the company. Our target this year was for it to grow upwards of 140% year-on-year.

What proportion of productivity gains are coming from AI and how do you measure them?

It is a fallacy to assume that the productivity of an AI agent is equivalent to that of one employee. We look at a mix of metrics through our systems integration development framework, including the number of use cases being

developed, velocity and agility. We also track metrics such as lines of code generated by AI, although that is not a direct measure of productivity, and token costs. We started with AI-led productivity gains of around 30% and have moved towards 50% with new tools such as Rel(AI)Build.

Does Happiest Minds have roles similar to Forward Deployed Engineers and how are you scaling the team?

We call them AI product specialists. They are our version of the FDE role, but we did not adopt the same title

since it was developed in a different context at Palantir. We made a structural change internally by consolidating talent across testing, engineering, cybersecurity and infrastructure management into a centre of excellence headed directly by our CTO. Hiring people with the required skills externally is difficult, so we handpicked some of our strongest employees. We started the financial year with 35 AI product specialists and plan to take that to 100 by the end of

IT IS A FALLACY TO ASSUME THAT THE PRODUCTIVITY OF AN AI AGENT IS EQUIVALENT TO THAT OF ONE EMPLOYEE

the year. Their utilisation is deliberately low because a significant amount of their time goes into learning, experimentation and developing new tools. Along with Claude, these specialists use a platform we have built internally. Together, these tools have helped raise productivity gains to 60-70%, from 30-40%, making these roles particularly valuable.

What kinds of larger deals will Happiest Minds target after the merger?

Over the last 12-18 months, we have moved towards larger, multi-year deals, with initial closures of \$5 million-plus being the sweet spot. With the scale we will have after the merger, I believe the ticket size can increase to around \$10 million. The boundaries between large-cap and mid-cap IT companies are increasingly blurring. Mid-cap firms are pursuing larger deals, while large IT companies are competing for clients across segments.

Embraer picks Mahindra for IAF transport plane bid

DEFENCE PACT

■ Embraer is pitching its KC-390 Millennium for the Multi-Role Transport Aircraft (MTA) deal

■ The Brazilian aerospace giant has separately partnered with Adani Group for its civilian aircraft business in India

■ The KC-390 faces competition from the US-made C-130J, offered by the Tata-Lockheed Martin partnership

■ Embraer says the KC-390 has recorded 93% fleet availability and 99% mission accomplishment globally

replacing the IAF's ageing transport fleet, with an option to procure an additional 50%.

Embraer is offering the twin-engine KC-390, which is already in service with Brazil, Portugal and other air forces.

He said Embraer was positioning the KC-390 not merely as a replacement for the IAF's ageing AN-32 fleet, but as a platform that could help standardise its medium transport fleet.

Five Indian companies—Mahindra, Tata, Hindustan Aeronautics, Reliance Defence and Adani—have received the request for proposal from the defence ministry for the programme.

The KC-390 is also competing with the American C-130J, which is being offered by the Tata-Lockheed Martin partnership. Asked to compare the two aircraft, Da Costa said: “What a C-130 can do, the KC-390 can do even better. We can carry more; we can fly faster, higher, with unprecedented rates of availability and mission accomplishment.” He said the KC-390 was currently recording 93% availability and 99% mission accomplishment. One customer operating more than four aircraft had achieved 100% cent availability in the previous month.

Cyient DLM targets 25-30% growth in electronics business

OJASVI GUPTA
New Delhi, September 27

CYIENT DLM EXPECTS its electronics design and manufacturing business to grow at a compound annual growth rate (CAGR) of 25-30% over the next three to five years, driven by rising demand for safety-critical electronics and products designed and developed in India. The business spans contract manufacturing as well as the development of products for which the firm owns the underlying intellectual property.

The company has an order book of around \$1 billion for its own-designed electronic products for the seven-year period from FY27 to FY34, Kaushal Jadia, chief technology officer, said in an interaction with *FE*. The order book is about five times the unit's current revenue, with more than 90% of the design-led business remain-

ing export-oriented.

“Over 90% is export. That's been our legacy from an engineering services side, we have been working with the likes of Boeing and Airbus in commercial aviation, similarly in medical and automotive. Previously we were only doing engineering services, but now we are doing the whole bit, whenever there's a custom need,” he said, referring to the share of the company's design business.

RETURNS HAVE COOLED AND LAND IS HARD TO FIND, BUT WELSPUN, TVS AND OTHERS ARE COMMITTING THOUSANDS OF CRORES

Thinner yields, bigger bets: Why big groups are still piling into warehouses

THE NEW BUILDERS-V WAREHOUSING

RAGHAVENDRA KAMATH
Mumbai, September 27

WAREHOUSING MAY NOT be glamorous, but there's money in it. Returns aren't what they were a couple of years ago. Land takes time to assemble, and approvals are almost always delayed. Yet business houses such as the Welspun Group and the TVS Group are ready to place bigger bets on the sector, seeing opportunity across storage, allied services, logistics and leasing.

The reason is scale. India's warehousing market is expected to grow from about ₹2.5 lakh crore today to around ₹4 lakh crore by 2031, a CAGR of 8.5%, according to Mordor Intelligence.

Demand is also changing shape. It is moving beyond traditional consumption, says Ramnath Subramaniam, joint managing director, TVS ILP. Organised retail, e-commerce,

manufacturing and the growing use of third-party logistics are all driving demand for Grade A space.

For TVS ILP, the opportunity goes beyond conventional warehouses to integrated industrial and logistics ecosystems. The group's infrastructure investment trust has raised over ₹1,300 crore, and around 1.1 million sq ft of operating assets have been transferred to the InvIT. “As assets are developed they can be transferred to the InvIT, enabling us to recycle capital for the next project,” Subramaniam told *FE*.

Many formats, one boom

At Welspun One, chief customer officer Neeraj Balani sees the opportunity spread across formats. Grade A distribution centres, free trade warehousing zones (FTWZs), SEZ-led warehousing, urban fulfilment centres, built-to-suit facilities and vertical warehouses are all gaining traction. “We see the opportunity across these evolving formats, depending on the requirements of the occupier and the

DEMAND GETS BROADER

■ Welspun, TVS and newer platforms are stepping up investments despite softer returns and slower land approvals

■ India's warehousing market could grow from about ₹2.5 lakh crore to ₹4 lakh crore by 2031, an 8.5% CAGR, according to Mordor Intelligence

location,” he said.

Welspun One leased over 2.5 million sq ft in FY26, taking its total past 6 million sq ft.

Newer players are scaling up fast too. Logicap Advisors, the industrial and logistics platform backed by Alta Capital, has grown from 2 million sq ft in 2022 to 25 million sq ft in nearly four years. That makes it the country's fastest-growing warehousing and industrial platform and the

third-largest by portfolio size, says Abhay Goyal, chief investment officer, Logicap Advisors.

The war chests

The expansion plans are sizeable. TVS ILP plans to commit about ₹2,500-2,700 crore over the next three years, growing its portfolio from around 12 million sq ft to nearly 20 million sq ft by 2028. The money will go into new assets and into emerging industrial

and logistics markets, mainly in northeastern and central India and Tier 2 and Tier 3 cities, Subramaniam said.

Welspun One is targeting over 10 million sq ft of additional leasing over the next three years, backed by a multi-city development pipeline of more than 13 million sq ft across large-format warehousing, in-city distribution and port-led infrastructure. The expansion will be funded

through equity raised in the group's alternative investment fund, Balani said.

Logicap is lining up ₹1,500-1,900 crore of equity to invest over the next three years. “We remain open to an IPO for Logicap as the platform scales, depending on market conditions,” Goyal said.

NDR InvIT plans to deploy ₹450 crore to acquire nearly 8.2 lakh sq ft of under-construction warehousing across

Chennai, Pune and Hyderabad, along with assets in Cochin, said Naidu Amrutesh Reddy, director, NDR InvIT. It also has about 390.5 acres available for development, which could yield roughly 9.76 million sq ft of warehousing space, with more assets on the table if demand picks up.

The catch

It isn't all smooth going. Land is not always available where developers want it, Goyal notes. Assembling large, well-located parcels takes time, adds Subramaniam. “Differences in the approval processes across states can affect project timelines,” he said.

Returns are also thinning as more investors crowd in. Yields on operational properties have fallen from 8.5-9% a couple of years ago to 6.5-7% now. For development assets, yield on cost has dropped from 11.5-12% to 9-9.5%, as land prices have shot up while rents have risen more slowly.

Developers aren't complaining. Balani sees the squeeze in the context of the

sector's long-term potential. “Land, construction and financing costs may have risen faster than rentals in some markets. But India is becoming a global manufacturing and supply-chain hub and that is creating a structural requirement for logistics infrastructure,” he said. As more companies set up operations, he expects demand for warehouses that store and move raw materials, components and finished goods to keep growing.

The numbers back the optimism, with a caveat. Annual leasing across manufacturing and warehousing is expected to hit 60 million sq ft in 2026, up 9%, and rents are expected to rise 4-6% a year, says Chandranath Dey, operations head (India), business development, industrial consulting & integrated logistics, JLL.

“While this outpaces the APAC average of 2-3%, the low starting base means rents must sustain this pace over the next five years to make developer investments financially viable,” he said.

LIQUIDITY BONANZA GIVES BANKS ROOM TO SLASH LENDING RATES

FCNR bounty may trigger rate war

● Lenders cut CD reliance, park surplus in bonds

KSHIPRA PETKAR & CHRISTINA TITUS
Mumbai, September 27

A \$133-BILLION FCNR(B) liquidity bounty could be setting the stage for a lending rate war among banks, as lenders scramble to deploy the funds by chasing quality borrowers, retiring expensive deposits and cutting their dependence on certificates of deposit (CDs). With credit demand unlikely to immediately absorb the massive inflows, banks are also temporarily parking surplus funds in short-term government securities and high-quality corporate bonds, where relatively attractive yields are offering a profitable holding avenue.

“I do expect banks to start lending a little bit more aggressively. Credit offtake has been reasonably strong as of now. But will excess liquidity have an overhang on interest rates? The answer is yes,” said a senior official at a private sector bank.

“There will definitely be a little bit of a price war. I do see that happening,” the banker added.

Buoyed by the FCNR (B) deposits, the system liquidity hit a record ₹11.16 lakh crore as of September 6. Liquidity has since moderated following the Reserve Bank of India’s bond sales and tax-related outflows, and stood at ₹4.44 lakh

LIQUIDITY SURPLUS

■ The system liquidity hit a record **₹11.16 lakh cr** as of September 6

■ It moderated after RBI’s bond sales and tax-related outflows to stand at **₹4.44 lakh cr** as of September 22

■ The funds would be substantially deployed by the third quarter or early in the fourth quarter

crore as of September 22.

The sheer size of the inflows means banks will take time to deploy the money through loans. State Bank of India Chairman C S Setty recently said it could take at least three to four months for the banking system to absorb the funds.

On the sidelines of the SBI Banking & Economics Conclave, Reserve Bank of India Deputy Governor Rohit Jain said that the credit demand is broad-based, with all sectors and segments growing reasonably well, and the central bank does not see any particular sector requiring caution at present.

“Banks are themselves cautious on credit and underwriting, and the RBI expects healthy credit standards to continue,” the deputy governor said. He added that the asset-liability position will determine how banks use

■ Banks are also using the money to repay liabilities and are unlikely to tap the CD market aggressively over the next few months

the additional liquidity.

Bankers said the abundance of liquidity could intensify competition, particularly for highly rated corporate borrowers. Banks sitting on surplus funds have an incentive to sacrifice some lending spreads rather than leave the money under-deployed, potentially putting pressure on loan pricing across the system.

Even before the full impact shows up in lending rates, the FCNR(B) inflows are changing banks’ funding strategies. A public sector bank official said the funds would be substantially deployed by the third quarter or early in the fourth quarter. Apart from lending, banks are using the money to repay costly liabilities and are unlikely to tap the CD market aggressively over the next few months.

The impact is already visible

yields remain attractive. We are also parking funds with mutual funds,” said a treasury official at a public sector bank.

The yield differential makes corporate bonds particularly attractive. PSU bonds in the two-to-three-year segment are offering yields of over 7.60%. Three-year AAA-rated corporate bonds are trading at around 7.74%, according to Bloomberg, compared with about 6.64% for government securities of similar maturity.

Another treasury head at a private sector bank said lenders with surplus liquidity have a clear preference for high-quality corporate bonds, although internal and regulatory exposure limits restrict how much they can invest.

“Banks must operate within prescribed limits — investment policies cap exposure to each category, so they cannot load up on corporate bonds,” the banker said.

Foreign banks, which have fewer domestic lending avenues than Indian banks, have also stepped up investments in government securities and corporate bonds to deploy the additional liquidity, market participants said.

But the bond purchases are essentially a parking space. As banks progressively shift the FCNR(B) funds from securities into loans over the next few months, the bigger impact could be felt in the credit market — with lenders competing more aggressively on price to put their liquidity to work.

PRIM widens access to wealth management

KUSHAN SHAH
Mumbai, September 27

NEW PICKINGS

■ PRIM allows customised portfolios at minimum ticket size of **₹25 lakh**

■ Waiver of exit load on redemptions

■ Fixed management fee capped at 1% of client’s assets; can levy performance based fees

■ Reduced net worth requirement for portfolio managers and eligibility requirements for principal officers

THE SECURITIES AND Exchange Board of India’s (Sebi’s) new mutual fund-focused portfolio management route could open customised wealth management to a wider pool of affluent investors, while giving advisers and portfolio managers a new avenue to expand their businesses, industry experts said.

The Portfolio Managers Route for Investing in Mutual Fund units (PRIM) allows portfolio managers to build customised portfolios using direct plans of mutual funds, including index funds and exchange-traded funds (ETFs), as well as specialised investment funds (SIFs). With a minimum investment of ₹25 lakh, PRIM is positioned between conventional mutual funds and portfolio management services (PMS), which require a minimum investment of ₹50 lakh.

Experts believe the lower entry threshold could bring professionally managed portfolios within reach of a relatively untapped segment of affluent investors, particularly those with investible assets of ₹25-50 lakh.

A Balasubramanian, MD and CEO of Aditya Birla Sun Life Mutual Fund, said PRIM would give investors who have so far been unable to access customised portfolios another avenue for wealth creation. It could also help registered investment advisers expand

their businesses, he said.

Vaibhav Chugh, CEO of Abakus Mutual Fund, described PRIM as a potential “structural catalyst” for investors. “By enabling fund managers to build customised multi-product portfolios using MFs, ETFs and SIFs, PRIM will help expand the addressable market to emerging HNIs, UHNIs and institutional investors and broaden retail access, ultimately driving the relevance of asset allocation under one umbrella,” he said.

The initial flows into PRIM are expected to come largely from investors in the ₹25-50 lakh bracket who were previously below the threshold for

conventional PMS.

Aditya Agarwal, co-founder of Wealthy.in, expects some existing mutual fund investors to shift their assets into professionally managed portfolios, while affluent investors looking for mutual fund-based wealth management solutions could also enter the segment.

Diversified equity, hybrid and ETF/index strategies are likely to find favour under PRIM, while SIFs could become an important component of such portfolios. Portfolio managers can determine SIF allocations based on investors’ risk profiles as well as valuations, diversification, liquidity and expected returns, Agarwal said.

IPO pipeline swells as 9 more firms file papers with Sebi

PRESS TRUST OF INDIA
New Delhi, September 27

NINE COMPANIES, INCLUDING Trans ACNR Solutions and Maharashtra Oil Extractions have filed preliminary papers with markets regulator Sebi for IPOs, joining a growing list of firms tapping the primary market to raise capital for expansion, debt repayment and other corporate requirements.

Trans ACNR Solutions has filed its preliminary papers

through the confidential pre-filing route, while the other eight firms — Maharashtra Oil Extractions, Jagatjit Agri Engineering, Jai Parvati Forge, Koolking Industries India, Sai Infinium, SG Encon, Mount Everest Breweries and Ultrabrant Integrated Energy — have filed standard public draft documents with Sebi.

The filings were made between September 21 and September 26.

Under the confidential pre-

filing mechanism, companies can submit draft offer documents to Sebi and stock exchanges without immediately making them available in the public domain. The documents are disclosed at a later stage after regulatory review.

Consequently, details of Trans ACNR Solutions’ proposed IPO, including the offer size, structure, financial performance, valuation and timeline for the share sale, are not available at this stage.

In a public notice, the company said it has filed the “pre-filled draft red herring prospectus with Sebi and the stock exchanges” in connection with its proposed IPO of equity shares on the main board of the stock exchanges.

Among the companies that have made their IPO details public, Maharashtra Oil Extractions has proposed a fresh issue of up to ₹370 crore and an offer for sale (OFS) of up to 21.4 million equity shares by promoters.

Baanganga Gold & Diamond files draft papers for listing

B2B JEWELLERY MANUFACTURER Baanganga Gold & Diamond (I) has filed its Draft Red Herring Prospectus (DRHP) with Sebi for its IPO. The offer comprises a fresh issue of equity shares aggregating up to ₹540 crore and an offer for sale of up to

₹180 crore, taking the total offer size to up to ₹720 crore. The offer for sale comprises shares offered by promoter selling shareholders Navratnam Jeetmal Ganna (up to ₹120 crore) and Jinesh Navratnam Ganna (up to ₹60 crore). —FE BUREAU

● Why will a lower MDR apply on capital-market transactions?

CAPITAL-MARKET PAYMENTS differ fundamentally from ordinary merchant purchases. Ticket sizes are substantially higher, while the recipient may earn only a small brokerage or platform fee, and at times no revenue at all. Applying the standard 0.4% UPI merchant discount rate (MDR) would have been disproportionate and could have discouraged digital investing. The 0.02% rate reflects a policy compromise: capital-market intermediaries contribute towards payment infrastructure, cybersecurity, fraud controls and service delivery, but at one-twentieth of the standard rate. The ₹300 cap further protects high-value investments. The stated policy objective is to support UPI’s sustainability while preserving retail participation in formal financial markets. It introduces commercial pricing into investment-account funding, creating a recurring cost for brokers and platforms while testing whether payment-rail sustainability can be achieved without discouraging retail participation or reducing digital convenience.

The implications of a small MDR in capital-market transactions

The new merchant discount rate for capital-market transactions via the Unified Payments Interface (UPI) has been kept at 0.02% against the baseline fee of 0.04% on other merchant transactions. The rate is intentionally modest, but its significance extends beyond the headline number, writes *Ranadurjay Talukdar*

● Which capital-market transactions will attract the 0.02% MDR?

THE CONCESSIONAL RATE covers eligible UPI payments relating to mutual funds, securities, stockbrokers, securities dealers and investment platforms. Public explanations indicate this includes fund transfers for equity and debt investments, one-time mutual-fund purchases and

additions to broker trading balances. The important distinction is between a merchant payment made to a regulated capital-market entity and a person-to-person bank transfer, which remains free. UPI AutoPay mandates, including recurring systematic investment plans

(SIP) payments, are reported to remain outside the new framework. Implementation will depend on correct merchant-category coding, particularly where a platform offers multiple services or routes collections through payment aggregators and sponsor banks.

MDR ON SELECT UPI TRANSACTIONS COMES INTO EFFECT

THE LONG-TERM EFFECT SHOULD BE OPTIMISATION OF FUNDING BEHAVIOUR, NOT A BROAD RETREAT FROM DIGITAL CAPITAL-MARKET PAYMENTS

● Impact on high-value transactions

THE PERCENTAGE APPEARS small, but the cumulative cost can be meaningful for large, high-frequency platforms. A ₹1 lakh transfer would generate MDR of ₹20, and the ₹300 cap would be reached at ₹15 lakh. The concern is that funding a brokerage account is not necessarily a completed investment, and is hence not a completed transaction on which MDR is typically payable. Funds may remain unused, be returned under settlement norms and subsequently be transferred back, creating repeated payment costs without corresponding brokerage income. Discount brokers with low revenue per client and frequent account-funding activity are thus more exposed than asset managers receiving stable investments or recurring mandate-based contributions.

● Will investors avoid UPI route?

UPI IS UNLIKELY to lose its position for immediate, convenient funding since investors do not pay the MDR directly. However, intermediaries now have a reason to reduce avoidable transaction frequency. Platforms may encourage investors to make fewer, consolidated transfers, retain appropriate trading balances or use recurring mandates for systematic investments. Brokers could promote direct bank transfers or other account-to-account rails for very large deposits. Product design may also shift towards seamless “pay and invest” journeys rather than open-ended wallet top-ups. The long-term effect should be optimisation of funding behaviour, not a broad retreat from digital capital-market payments.

● Will it raise the cost of investing?

THE FRAMEWORK TREATS MDR as an intermediary-side payment cost, not a fee charged directly to investors. Banks have been advised to prevent merchants from passing it on, while UPI apps can’t impose hidden fees. Investors should therefore not see a separate UPI charge at checkout. In practice, larger intermediaries are likely to absorb the cost initially because convenience, customer acquisition and competitive pricing are important. However, sustained costs may be recovered indirectly via revised subscription plans, lower promotional benefits or more emphasis on revenue-generating clients. We might see greater adoption of SIPs, as it is free of MDR. Smaller brokers could nudge users to consolidate fund transfers or adopt lower-cost account-funding channels.

● How other countries do it

INDIA’S APPROACH IS unusual because it establishes a nationally differentiated rate for capital-market payments. In the US, brokerage funding via automated clearing house is free for customers, although processing can be slower, while wire transfers may attract bank fees. In the UK, investors face platform, custody and dealing charges on each bank-account funding transaction. Brazil’s Pix is free for individuals, but FIs can determine charges for businesses. At 0.02%, India’s rate is globally competitive, though its application to repeated transfers of uninvested customer money is distinctive.

Insurers can pitch lower premiums as costs go down

IRDAI'S CALL FOR CAP ON COSTS MAY NUDGE THEM TO SHARE GAINS WITH POLICYHOLDERS

SAIKAT NEOGI

THE SAVINGS ACCRUING to insurers after the regulator releases the final guidelines on expense management will offer them an opportunity to rework the pricing of policies. The benefits to policyholders will depend on how the insurers use the savings — grow their margins or pass on higher payouts to policyholders. In the life insurance category, lower distribution costs will allow a larger part of the premium to go into the investment basket, which can benefit policyholders through higher returns and maturity benefits. While premiums for existing policyholders in case of multi-year linked and non-linked plans may not change, new policies may see a reduction in prices. The premium for non-life policies may fall.

Protecting policyholders

The Insurance Regulatory and Development Authority of India (Irdai) has proposed to halve the commission for pure term insurance from an average 51% of the first year premium to 25-30%. However, to improve persistency, it has proposed to double the payout on renewals from an average 4% at present to 7.5-10%. In health insurance, it will drop from 30% to 15-20% in case of a new policy, and 5-10% renewals. For motor insurance, it is proposed to

HIGH COMMISSIONS, POOR OUTCOMES

drop to 5-10% from 24% at present.

Irdai has proposed clawback — reclaiming the commission paid to distributors or agents — in case of mis-selling. It has even made individual sales staff accountable by tagging their identity to policies sold and placing information on mis-selling in the public domain. “Clawback should extend to early lapse, and first-year commission should be spread rather than paid up-front. Distribution will change when distributors are paid for selling well, not

merely for selling,” says Aravind Venugopal, partner, Khaitan & Co.

The regulator aims to tackle compulsory bundling, dark patterns and mis-selling in three ways: prohibit the practices outright, remove the incentives that drive them, and make distributors and insurers accountable for how a policy is sold.

Lenders cannot make a loan conditional on the purchase of insurance as is usually done with home loan. A lender that wants to protect its loan portfolio can take a group

policy and pay the premium itself. “Group insurance is better but lenders insist on individual credit-linked products because of higher commission,” says Shilpa Arora, co-founder, Insurance Samadhan.

The impact of lower distribution costs may impact low-ticket policies such as for two-wheelers. “With caps, brokers will not be able to manage claim support which could lead to poor customer experience,” says Indraneel Chatterjee, chief operating officer, InsuranceDekho.

Tax planning can't stay local for family offices going global

THE GROWING PROMINENCE of family offices is driven by the active involvement and evolving priorities of younger family members. For them, diversification is not just about spreading capital across asset classes. It is about accessing opportunities across borders, sectors and currencies. However, global investing brings a new set of considerations that go well beyond identifying attractive opportunities.

Tax obligations across jurisdictions

One of the first is tax residency. Family members may reside in different jurisdictions while investments are held across multiple countries. An individual's residential status can determine the scope of income taxable and reportable in a particular jurisdiction, while the location from which an investment entity is managed or controlled may give rise to tax obligations in another jurisdiction.

Families with globally diversified portfolios may need to navigate situations where income is taxable in more than one jurisdiction and evaluate the availability of relief under applicable tax treaties and foreign tax credit mechanisms.

Global transparency standards and enhanced exchange of information between tax authorities have changed the compliance landscape. Basis an individual's tax residence, the nature of the interest held and the applicable local rules, overseas bank accounts, financial interests, trusts and other cross-border holdings may give rise to reporting requirements in one or more jurisdictions. For family offices, maintaining accurate records and ensuring consistency in disclosures

SURABHI MARWAH

is no longer merely a compliance obligation; it is an important aspect of governance, risk management and reputation protection.

How you hold the investments matter

As portfolios increasingly span asset classes, jurisdictions and generations, the structuring through which investments are held has

become a strategic decision in itself. Decisions around whether investments should be held directly, through trusts, holding companies or other vehicles can have implications for regulatory compliance, governance, operational flexibility, tax efficiency, exchange control considerations, place of effective management and long-term wealth preservation.

As portfolios become more sophisticated, the structure through which assets are owned can be almost as important as the investments themselves.

Finally, who inherits what and where?

While significant attention is paid to creating wealth, transferring wealth across generations can be equally complex, particularly when assets, beneficiaries and interests span multiple jurisdictions. Family offices are increasingly being called upon to establish governance frameworks, succession plans and ownership structures that can facilitate a smooth transition while preserving family intent and minimising disputes.

QS RANKINGS: BEYOND THE MBA

Why Indian B-schools are failing the specialised master's test

OUR FINEST B-SCHOOLS NOT IN GLOBAL TOP 100 IN FINANCE, MARKETING, OR SCM

VIKRAM CHAUDHARY

WHEN THE LATEST QS Business Master's Rankings were released on September 16, most coverage celebrated the fact that while more Indian business schools featured on the list, the top IIMs slipped a few spots. But beyond these headline numbers lies another story — that Indian B-schools are nowhere to be seen when it comes to specialised master's programmes.

“Indian B-schools continue to treat the traditional two-year MBA — or Master's in Management (MiM) as the QS calls it — as their holy grail, but are getting outclassed in specialised business master's programmes,” a former IIM director told this newspaper.

Looking closely at the data, we found that of the 41 Indian master's degree programme entries featured in the QS rankings across 28 institutions, nearly half (19) belong to the generalist MiM category. Here, India has respectable presence: IIM Bangalore ranks 31st globally, followed by IIM Ahmedabad at 46th, and IIM Calcutta at 57th.

But turn to specialised master's programmes, and the scene flips.

In Master's in Finance, the seven Indian B-schools on the list are all outside the global top 200.

In Supply Chain Management, all three Indian B-schools are outside the global top 100.

QS BUSINESS MASTER'S RANKINGS

Category	Total Indian B-schools	Indian B-schools in global Top 50	Overall performance
Master's in Management (MiM)	19	2 (IIMB at 31, and IIMA at 46)	Top 50 presence
Business Analytics	7	0 (Best: IIMB at 60)	All outside top 50
Master's in Finance	7	0 (Best: IIMK 201+)	All outside top 200
Supply Chain Management	3	0 (Best: IIMU 101+)	All outside top 100
Master's in Marketing	5	0 (Best: Woxsen at 151-200)	All outside top 150

In Business Analytics and Marketing, top Indian institutions fail to break into the global top 50.

The IIM director added that, globally, the B-school landscape has shifted. “European powerhouses

like HEC Paris, ESSEC, and London Business School treat specialised master's degrees as premier talent pipelines. HEC Paris, for instance, holds the number-one spot globally across Finance, Management, and

Marketing,” he said. “These are not general management courses with a few electives added, but are intensive degrees that train students in quantitative finance, predictive analytics, algorithmic trading, and global supply chain risk modelling.”

He said most Indian B-schools, in contrast, treat specialised master's as secondary offerings. The top faculty, corporate relations, and infrastructure remain monopolised by two-year generalist PGPs.

“Indian business education was built for a different era — at a time when corporate India needed general managers to oversee expanding operations,” he said. “Today, global capability centres and top financial firms setting up shop in India don't just need general managers, but also specialists who can build financial models, optimise supply chains using AI, manage cross-border risk.”

This comes at a time when India is lauded as a tech and fintech powerhouse, and yet our B-schools fail to break into the global top 50 in Business Analytics, Finance, or Supply Chain Management.

As global corporate hubs in India mature, the demand for specialised talent will only accelerate. Alongside general MBAs — because India also needs a lot of general managers — Indian B-schools must also start building world-class specialised master's programmes, so that they can remain globally relevant.

Tech veterans head back to IIT Kharagpur

IIT, UPGRAD EXPAND JOINT EXECUTIVE AI PORTFOLIO

VIKRAM CHAUDHARY

INDIA'S AI UPSKILLING wave is taking a top-heavy turn, literally. With experienced technology executives going back to school, IIT Kharagpur and edtech platform upGrad are expanding their joint online executive AI portfolio from four to seven specialised programmes — following a 3x quarter-on-quarter enrolment jump.

The IIT impact

“IIT Kharagpur's scale and legacy give us the freedom to explore new frontiers like AI and medtech, fields that now sit at the crossroads of engineering, science and healthcare,” Suman Chakraborty, the director of IIT Kharagpur told this newspaper. “Our research ecosystem lets us turn deep technical work into real-world solutions, while strong alumni and industry ties carry our impact far beyond campus.”

He added that IIT Kharagpur's partnership with upGrad brings the IIT's academic rigour to working professionals through structured, industry-focused learning. “The strong response from senior professionals tells us that AI upskilling is now a continuous need, and why industry-academia partnerships matter for a fast-changing workforce,” he said.

Its first major online venture

The joint initiative — IIT Kharagpur's first venture into online executive education — has reached professionals across 133 Indian cities and seven international markets, including the US, UK, UAE, and Germany.

Rather than early-career coders, the demographic profiles point to seasoned tech leadership. Over 63% of enrolled learners carry more than a decade of professional experience, with the median experience standing at 12 years. The cohort features vice-presidents, engineer-

ing managers, principal engineers, and tech leads from major tech and financial hubs, including JPMorgan Chase, Bank of America, TCS, Infosys, Deloitte, Accenture, Salesforce, and Qualcomm.

Where is the demand?

“Driven by high demand for hands-on applications, enrolment in specialised certificates for generative AI and applied machine learning doubled quarter-on-quarter,” said Anuj Vishwakarma, the CEO of Higher Education Programmes at upGrad. “The portfolio has since added focused tracks in AI product building, agentic AI, as well as fintech. Technology hubs Bengaluru, Hyderabad, and Pune lead the geographic demand.”

The rapid scaling comes as IIT Kharagpur marks its 75th year, and Chakraborty and Vishwakarma said that the strong response confirms tech leaders are moving swiftly to translate AI from high-level board strategy into operational capability at work.

Withdrawal symptoms

With El Niño's long shadow, it was the driest seasonal rainfall since 2014 and 2015

INDIA IS STARING at the fallout of El Niño-induced deficient seasonal rainfall as the southwest monsoon has begun withdrawing from the country. This process commenced from western Rajasthan and is currently progressing towards northwest and central India. Later it will retreat from the south and east. The complete withdrawal is expected by October 15, days ahead of the normal onset of the northeast monsoon. The cumulative seasonal rainfall so far has been 15% below the long period average. Fourteen states have registered a shortfall of more than 20%. With below-normal rainfall also in September, it is highly probable that the season will have an overall deficiency of 13 to 16% of the long period average, according to Global Weather Climate Analytics. This prospect is somewhat reminiscent of two back-to-back years, 2014 and 2015, which registered El Niño-driven rainfall shortfall of 12 and 14% respectively.

As a deficiency in precipitation of this magnitude entails widespread drought, it is surprising that only Karnataka and Maharashtra have so far declared that they have been hit. Maharashtra initiated formal crop-loss assessments for accessing central disaster funds. But after the chief minister visited some affected areas, 74% of the area of the state was declared as drought-hit. Timely declaration of drought conditions is necessary to ensure immediate welfare measures. As agriculture depends on rain-fed systems, the spectre of drought is ever present due to fluctuations in precipitation although the risk is not uniform across the countryside and varies considerably based on geographies. So even if currently there is no nationwide drought, 25% of all districts show drought-like conditions based on recent rainfall trends. Interestingly, there has also been a pari passu rise in the number of districts that have experienced wet conditions.

The monsoon's dry run and uneven spatial and temporal spread is bound to impact kharif production, although overall sown area is down year-on-year by only 1.3%. The season began on a weak note for kharif sowing with 36.5% below-normal rainfall in June. But cultivation subsequently picked up with good rains in July and early August. Southern peninsular India has shown the largest shortfall of 28%, followed by east and northeast India of 25%. The acreage of the premier kharif crop, paddy, is down by 3.7% but yields might be hit due to water availability concerns during sowing and transplantation in southern states due to rainfall deficiency. Soya bean acreage is a tad lower but a dry spell in Maharashtra has left soya bean fields under severe moisture stress. Farmers are reportedly running tractors over their standing failed crop instead of harvesting it.

All of this underscores the critical need for region-specific strategies to mitigate drought risks due to a shortfall in rains. The government earlier had identified around 111 districts — including 20 in Maharashtra — as the most vulnerable to kharif crop damage due to El Niño-driven rainfall deficiency and drew up contingency plans. Officials are optimistic of addressing these challenges as a lot of improvements have taken place since 2014 and 2015: more irrigation facilities, improved water management, and adoption of advanced technologies, including the growing use of climate-resistant seeds which has become a priority for agri-research and development. Progress in this regard must be stepped up considerably to insulate the vast majority of small and marginal farmers who cultivate rain-fed crops and bear the full brunt of wayward monsoons and El Niño-induced rainfall deficiency.

● THE HUMAN FACTOR

Paid to show up

WHEN I STARTED working, turning up was not considered an achievement. It was the bare minimum, like wearing shoes. Nobody praised you for arriving. They simply noticed, with some coldness, if you didn't. This week I learnt that the bare minimum has been promoted. It now comes with a bonus.

With the festive sales upon us, e-commerce and logistics companies are hiring on a vast scale. Myntra has taken on more than 26,000 seasonal workers. Flipkart says it has created some 250,000 jobs, direct and indirect, for the season. And increasingly, the money on offer is tied not to how brilliantly these workers pack boxes, but to whether they keep coming back to pack them. There are attendance bonuses, retention bonuses, and, my favourite, season-completion bonuses, which reward the heroic act of still being there when the sale ends.

The reason is simple. Last year, between 35-40% of frontline festive workers left before the season ended. Given the work involved, I am only surprised it wasn't more. Lifting, sorting, and delivering from dawn until late, for an hourly wage that rises from about ₹110 to ₹150 at the peak, is not a job anyone does for the love of it. If the platform down the road offers ₹10 more, why not go?

So the companies have done the sensible thing. They have put a price on staying. Flipkart is even paying referral bonuses, so that workers who stay are rewarded for bringing in their friends as well. It is loyalty, sold by the hour.

I find this oddly refreshing. At least it's honest. Nobody is pretending the warehouse is a family, or that sorting parcels is a journey of self-actualisation. The ideal is plain: stay till Diwali, and there's money in it. Now look up the ladder to the glass towers, where something strikingly similar is happening in far fancier clothes.

In the IT industry, office attendance has become the metric of the moment. TCS has reportedly tied variable pay and promotions to office presence under its five-day mandate. Swipe-card data, once used mainly to find out who was stealing the good chairs, has become a performance measure. Somewhere a manager is looking at a spreadsheet of badge-ins and

feeling, for the first time in years, that he truly understands his team.

The warehouse worker and the software engineer, it turns out, are being judged by the same yardstick. Were you there? The difference is the language. In the warehouse, it's called an attendance bonus. In the tech park, it's called "fostering collaboration", "strengthening culture" and "the power of in-person connection". I await the day an HR department announces a Presence-Linked Engagement Incentive, and I would bet my own variable pay that it is already sitting in someone's draft slide deck.

There is something faintly sad about all this. For decades, management gurus told us that the future of work was about outcomes, not hours. Measure what people achieve, they said, not where they sit. Then the pandemic came, we all proved we could work from our kitchens, and the moment it was over, companies rushed back to measuring the one thing easiest to count: bodies in the building.

It's not that showing up doesn't matter. It does. A parcel does not deliver itself, and a junior engineer learns more sitting near a senior one than on a video call. But when you have to pay people simply to stay, the bonus is not really a reward. It's a confession. It says the job itself isn't reason enough.

The smarter question, for warehouses and tech parks alike, is not how much it costs to make people stay. It's why they want to leave. Pay a delivery worker to finish the season, and he will. Pay an engineer to swipe in daily, and she will too. Whether either stays next year is another matter.

● NSE LISTING

POTENTIAL CONFLICT OF INTEREST IN A SELF-LISTING MODEL IS MORE PERCEIVED THAN REAL

Time to take a contrarian call

AFTER ABOUT 10 years of a volatile journey towards it, the National Stock Exchange (NSE) is now a listed company. The associated developments have made headlines for long. However, unlike in the past, self-listing has not figured in recent discourses, as if the issue has been closed forever. After the implementation of the three-pillar model, based on the recommendations of the Mahalingam Committee, the governance structure of exchanges and other market infrastructure institutions (MIIs) has changed substantively.

The Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, have been revamped and amended several times since 2012, most recently on November 22, 2025. However, Chapter VII of the regulations relating to listing remains in the 2012 vintage. Those provisions read as follows:

45. (1) Subject to the provisions of the applicable laws in force, a recognised stock exchange may apply for listing of its securities on any recognised stock exchange, other than itself and its associated stock exchange, if:— (a) it is compliant with the provisions of these regulations particularly those relating to ownership and governance; (b) it has completed three years of continuous trading operations immediately preceding the date of application of listing; and (c) it has obtained approval of the Board:

Provided the Board may specify such conditions as it may deem fit in the interest of the securities market including those in relation to transfer of shares held by any person.

(2) A recognised stock exchange shall not list any securities of its associates.

It is clear that the regulations do not allow self-listing of an exchange and listing of any of its associates on its platform. Further, it places a number of conditions on listing an exchange, even when it goes for cross-listing, three of which are explicitly stated in the regulations. Sebi can impose other additional conditions in the interest of the securities markets.

CKG NAIR

Former Member, Securities Appellate Tribunal, and former Director, National Institute of Securities Markets

Interestingly, it was a commodity exchange, Multi-Commodity Exchange of India (MCX) that first went public, much before the stock exchanges, in India in March 2012. The issue of self-listing was not applicable here, since a commodity exchange cannot list any company on its platform. MCX listed its shares on BSE Ltd. NSE "adopted" its securities for trading on its main platform under the "permitted to trade category". BSE Limited listed in February 2017. It had to cross-list, on the NSE. Similarly, following the regulations that associates also cannot be listed on related exchanges, the Central Depository Services (India) Ltd, a BSE associate, was listed on the NSE in June 2017. The National Securities Depositories Ltd, an NSE associate, was listed on BSE in August 2025.

Should listing be that rigid? An exchange is arguably the most regulated legal entity under any law in India. Listing is considered a transparency enhancing, positive mechanism. Even the RBI has stipulated that the top-layer NBFCs have to be listed on this ground. The stipulation is being hotly debated in respect of Tata Sons, brewing a perfect storm on corporate governance.

Market regulators are not comfortable with self-listing because stock exchanges hold a dual identity as for-profit commercial entities and front-line market regulators. This, for regulators, creates a paradox where a self-listed exchange has to regulate itself, resulting in potential conflict of interest. While cross-listing is the prefer-

red alternative, it introduces other issues like submitting proprietary corporate and operational data to a direct rival, giving competitors deep insight and advantages. Despite concerns on self-listing, many major global stock exchanges operate as publicly traded corporations, frequently listing their shares directly on their own platforms or through parent group structures. For instance, Nasdaq Inc and Singapore Exchange Limited are both listed exclusively on their own respective platforms. The Hong Kong Exchanges and Clearing is traded directly on its main board. Other prominent marketplaces are operated by listed parent firms, such as the London Stock Exchange Group (LSEG) trading on the LSE, the Japan Exchange Group overseeing the Tokyo Stock

Exchange, and the Australian Securities Exchange and TMX Group (owner of the Toronto Stock Exchange) managing their national markets. In order to enhance governance standards of stock exchanges (and other MIIs), Sebi amended the regulations in March 2023, following the recommendations of the Mahalingam Committee Report in November 2022. This mandated a three-pillar/vertical model for MIIs. The regulations in respect of exchanges and clearing corporations are as follows (in parallel, amendments to the depositories regulations were issued under the Depositories Act).

28. (1) Every recognised stock exchange and recognised clearing corporation shall

identify its functions and segregate them into the following verticals:

(a) Critical operations; (b) regulatory, compliance, risk management, and investor grievances; and (c) other functions including business development.

Under this model, two verticals — on critical operations and regulatory, compliance, risk management and investor grievances — are to be headed by an executive director each who would report to the board of directors of the company as well as to Sebi. All the exchanges and other MIIs have implemented this model by mid-2026. Given this rather rigid functional separation and associated mandate and accountability of officials, governance framework of an exchange is much more robust and systemised now.

Even otherwise, exchanges are the most closely regulated entities. A regulatory action on it violating the Listing Obligations and Disclosure Regulations (LODR) would be the death knell for an exchange. Fearing a delisting order from Sebi could be perhaps the best weapon for behaviour modification on exchange governance. Exchanges that regulate 2,500/5,000 listed entities under their wings can't afford to make any LODR violations themselves.

A hybrid, self-plus-cross-listing framework offers critical, strategic advantages to the exchanges. It optimises market microstructure by expanding the liquidity pool, allowing the entity to leverage its active domestic retail trading base to attract institutional order flow from international or competing bourses. It mitigates systemic competitive disadvantages regarding fee and data asymmetry, which encouraged regulators in many other jurisdictions to allow self-listing.

A hyper-cautious approach by Sebi on listing of exchanges reflects a trust deficit, that too when exchanges are given powers to regulate thousands of entities. It also reflects low self-confidence of the regulator, despite its overwhelming powers over exchanges. It is an irony. It is time to revisit the issue and allow self-listing, along with cross-listing as a hedge as it exists now.

Can farmers ride the solar wave?

ASHOK GULATI SUBHODEEP BASU

Respectively Distinguished Professor and Research Fellow at ICRIER

INDIA'S SOLARISING JOURNEY is a commendable one. Just before the Narendra Modi government was sworn in 12 years ago, the country had just 2.82 Gw of installed solar capacity. By last month, this had risen to 168.04 Gw, making India the third-largest player in solar, after China and the US. Much of this (74%) is utility-scale, led by big companies like Adani Green Energy, ReNew, NTPC, JSW Energy, and Greenko Energy. Tata Power Solar is more into engineering, procurement, and construction. Roof-top solar accounts for roughly 20%, and the remaining (about 6%) is off-grid and hybrid projects.

The utility-scale solar model enabled rapid, cost-efficient deployment. These are ground-mounted solar parks, largely on degraded or wastelands given by the government. The biggest is Khavda Solar Park (30 Gw) coming up in Rann of Kutch.

Roof-top solar has picked up some momentum under the PM Surya Ghar Muft Bijli Yojana, which aims to bring rooftop solar to one crore households. A household installing a 3-kilowatt (kW) system gets ₹78,000 in central subsidy. States like Uttar Pradesh add another ₹30,000, taking total support to ₹1.08 lakh, against the estimated cost of ₹1.8 lakh. This amounts to a 60% subsidy. The Delhi government has gone even further and is ready to install free rooftop solar.

Where the Modi government has not yet succeeded is the Pradhan Mantri Kisan Urja Suraksha evam Utthan Mahabhiyan (PM-Kusum) scheme. The government had earlier envisioned it largely for solar

pumps. But component A of PM-Kusum does specify that farmers can have up to 2 Mw power plants on their land. But there was no subsidy. It is now time to rethink the PM-Kusum component A and provide capital subsidy. Further, ground-mounted solar projects on agricultural land need to be banned, as they directly conflict with food security. India cannot afford that. The solution is agri-photovoltaics (agri-PV) — solar panels fixed at a height of about 1.1 feet, with due spacing that allows land to be fully cultivated beneath the panels. This is a dual use of land for producing food as well as energy. By giving a fillip to component A of PM-Kusum, the government can achieve three objectives simultaneously. First, it can augment farmers' income eight-10 times. Second, it can reduce the government's power subsidy bill.

Finally, it can produce clean energy that can help rural areas industrialise. To realise this, capital must be made accessible to farmers or farmer-producer companies at rates that are applicable under priority sector lending, besides fixing the feed-in tariff at half the cost of supplying power to rural areas under the current set-up.

PM Surya Ghar, in comparison, has an outlay of ₹75,021 crore. The World Bank has also approved an \$820 million loan, with concessional finance and a grant, to support PM Surya Ghar and mobilise private financing. PM-Kusum has no equiv-

alent financing window. It is high time the World Bank also thought in terms of solar cooperatives on the lines of milk cooperatives under Operation Flood, and came forward to unleash a revolution in rural areas where solar becomes the "third crop" for farmers.

An ICRIER initiative establishes proof of this concept. A 600-kW PM-Kusum-A plant in Rajasthan, financed by a ₹1.4-crore loan from SBI, ₹60 lakh from farmer contributions, and ₹35 lakh from Kotak Mahindra's CSR funds, showed that farmer's income rose from about ₹40,000 per acre from wheat and bajra to nearly ₹4 lakh through energy sales and shade-tolerant horticulture. That is a ten-fold income potential.

Agri-PV addresses another major distortion in India's power sector. Agriculture consumes nearly 260,000 gigawatt hours of electricity annually while paying tariffs far below the cost of supply. The CAG's recent report puts the average cost of supply at about ₹8.5/kWh against realisation of around ₹1/kWh from agricultural consumers, a subsidy of roughly ₹7.5/kWh. With the annual tariff subsidy bill at about ₹2.35 lakh crore, agriculture may account for nearly 85% of the burden, and higher rural supply costs could push this above 90%. This adds to discom financial stress.

A differentiated feed-in tariff of ₹4.5/kWh, almost half of the cost of sup-

ply of power, can improve project viability and accelerate adoption. For discoms and state governments, this needs no additional expenditure, only smarter use of existing subsidies.

The demand for energy is going to go up exponentially as AI data centres start springing up. They are power and water guzzlers. They will also have to invest in battery storage or pumped hydro storage without depending on the lithium-ion supply chain. Agri-PV projects should therefore be planned with storage and local grid requirements in mind.

India has seen the power of catalytic finance before. Operation Flood, the foundation of the White Revolution, was supported by a World Bank loan. It helped build a self-sustaining network of village dairy cooperatives and benefitted millions of milk producers. A similar opportunity exists for solar cooperatives. It can go even further and make all *gaushalas* solar power plants based on the agri-PV concept and process dung into organic manure to be sold with subsidised urea.

India has shown it can scale solar. The next challenge is to ensure the benefits reach the farm gate. The question is no longer whether India can harvest the sun. It is whether India's farmers can own a meaningful share of that harvest. Once farmers' incomes increase, as ICRIER's pilot in Rajasthan has shown, it can spur a manufacturing revolution through augmented demand.

US-China dialogue preferable to rupture

Apropos of "Red-carpet reset" (FE, September 26), rolling out ceremonial welcomes unseen since 1962, while producing only a short two-month trade truce, suggests

optics have outpaced actual substance in this Sino-American reset. A rogue AI agent breaching Australia's healthcare data during the very summit meant to discuss AI safeguards is a telling irony, exposing how far governance lags behind capability even as leaders exchange

handshakes. Genuine strategic stability requires enforceable commitments on rare earth exports andentanyl trafficking, not merely extended deadlines that postpone confrontation rather than resolve it. Still, dialogue between the world's two largest economies remains

preferable to open rupture, since a fragmented global trade order would hurt smaller nations far more than either superpower involved in this uneasy, photographed truce.

Lip-Bu Tan, CEO, Intel

We need to use AI responsibly, but we should not lose sight of how much good it can do

INTERVIEW: DAISY CHITTILAPILLY, PRESIDENT, CISCO INDIA & SOUTH ASIA

‘The foundation will define what comes next’

Daisy Chittilapilly, president, Cisco India & South Asia, says enterprises are entering a new phase of AI adoption, where infrastructure, networking and security are becoming critical to moving beyond pilots. As AI agents take on more autonomous tasks, networks face rising traffic and new security risks. Chittilapilly, in an interview with Sudhir Chowdhary, discusses India's readiness for AI deployment, the sectors leading adoption and what businesses need to build to scale AI securely. Excerpts:

How is AI reshaping networks, and what's the opportunity?

As enterprises move from chatbots to agentic AI, agents reason, act and loop continuously at machine speed. A recent Cisco report found that an agentic AI task generates 450% more traffic than equivalent human work, with around 70% of it inference. In India, two-thirds of networking

leaders plan major GenAI deployments next year. This demands a new network architecture, with networking, security and observability working together.

What will it take for India to become a global AI hub?

India has the ingredients—world-class talent, a strong startup ecosystem, digital public infrastructure and government backing. The next step is bringing them together to build AI at scale. That means investing in AI-ready infrastructure, resilient networks, data centres and cybersecurity, while enabling responsible innovation and building an AI-ready workforce.

Which sectors are moving fastest to AI?

BFSI and government are ahead, with applications spanning Bhashini, healthcare diagnostics, fraud protection and risk management. Customer service is also seeing rapid adoption, with human

and AI agents increasingly working together. Manufacturing is next, as connected factories enable predictive maintenance and AI-led quality inspection. The common thread is clear: organisations are moving beyond

AI experimentation and investing where it delivers measurable productivity and business value.

Where is Cisco's biggest opportunity?

Companies need an integrated foundation—networking, compute, security, storage, data and AI operations working as one—and that's where Cisco is uniquely positioned.

Our differentiation starts with connectivity: we're the only networking provider across the connectivity spectrum, not just inside the data centre but data centre-to-data centre and data centre-to-enterprise. The bigger piece is security, embedded at every layer of the AI stack, from our own silicon to application software—a full-stack position, extended now through Secure AI Factory with Nvidia. That's the differentiated value we bring—not a point solution, but the integrated architecture that AI workloads can count on.

IN INDIA, TWO-THIRDS OF NETWORKING LEADERS PLAN MAJOR GENAI DEPLOYMENTS NEXT YEAR

What are the biggest infrastructure hurdles to scaling AI?

It's a three-layered problem. First is infrastructure—power, compute and networking—which become bottlenecks as pilots move to production. India is expected to need 8GW of data centre capacity by 2030, with around \$70 billion in infrastructure investment by 2026. Then comes data: fragmented, inconsistent data can undermine AI outputs. The third layer is security and trust.

Only 32% of organisations in India are integrating AI into security frameworks, while 45% feel equipped to secure their agents, according to Cisco's AI Readiness Index. AI readiness requires all three to work together.

When phones start making calls for us

KARAN MAHADIK

THE SMARTPHONE IS gradually evolving from an app-centric device into one that can understand a user's intent and act on it. Google's latest experiment with Gemini takes that shift a step further by allowing the AI assistant to make real-world phone calls on a user's behalf.

With its newly launched 'Call for Me' feature, users can direct Gemini to call a store to check if a product is in stock, call a restaurant to make a reservation or call a doctor's office to schedule an appointment. Gemini uses the user's own phone number to

make the call, with the call dialled directly from the phone.

Once the person or bot on the other end answers, Gemini introduces itself. It can navigate automated phone menus and wait on hold, while users can monitor the conversation through a live transcript and take over the call at any time. With the user's approval, Gemini can also share personal information during the call.

However, Google is taking a cautious approach. The feature is still experimental and has been rolled out only to Pixel 11 owners with a Gemini subscription in the US. The com-

pany says the small-scale rollout is necessary because "real-world conversations are nuanced" and it needs time to get the feature right.

Google has experimented with AI-assisted calling for several years.

At its I/O developer conference, it once demonstrated Google Assistant calling a salon to make a reservation, with the natural-sounding conversation drawing attention.

Last year, Gemini's 'Ask for Me' feature allowed the assistant to call businesses to inquire about pricing and services. The difference now is that AI agents are moving from assisting with calls to handling the conversation and completing tasks themselves. Meta's Muse and Instinct are also exploring similar capabilities, pointing to a broader shift in how smartphones could work in the future.

WORLD VIEW

Meta's next big bet could become its iPod moment

DAVE LEE

MARK ZUCKERBERG IS on to something. Hot on the heels of Meta Platforms' hugely well-received launch of its Muse personal AI agent, he has announced the next phase: a "Tamagotchi-like" pendant for interacting with cuddly assistant on the go. It's slated to be out for Christmas.

A virtual Muse character appears at the centre of the screen, and users can customise its appearance, outfits, voice and other attributes. The device can be worn with a wrist strap, carried in a pocket or attached to a bag or key-chain with a lanyard. Two users with Muse Charms can also allow their devices to interact with each other when they're placed nearby.

How cute! For a man who in the past has been mocked for coming across as a robotic, out-of-touch nerd, Zuckerberg has struck a tone with the Muse assistant that has set his company's effort apart from his competitors.

Today, by refining the technology and adding some consumer-friendly touches, Muse is to AI agents what the iPod was to MP3 players: A stylish and innovative recasting of an existing technology so it struck a chord with everyday people. The rewards for reaching the non-nerds could be enormous.

The energetic arrival of the iPod marked the rebirth of Apple as a company. Muse—whether it's accessed

Mark Zuckerberg is reshaping Meta's consumer technology strategy

through smartphone, glasses or the Charm—has the potential to do something similar for Meta. But there are challenges. OpenAI engineers are scrambling to come up with their answer.

There's also what we might consider Meta's "trust ceiling"—the upper limit of users prepared to give Meta the kind of access that any useful AI agent needs. Meta is asking customers to trust it more than ever before. Some will just say no. A Gallup poll conducted in June suggests consumer trust in big tech companies is low and sliding.

Muse can't do the dishes yet. But its usefulness for routine tasks is growing by the day—each one of them

presenting lucrative opportunities for Meta to make serious money.

Meta is well positioned to run something like that playbook again, albeit in a more crowded market. "Over time we will profit by taking a small fee from transactions" made through Muse, Zuckerberg explained in his pitch to developers.

For the first time in Meta's 22-year history, the company has a new business model in its sights—AI subscriptions, hardware sales, cuts of AI transactions—that could eclipse the current one. Today, advertising accounts for 98% of Meta's revenue. I wonder how that might look in two years if Muse does indeed cement itself as the first breakthrough consumer AI agent.

Dating apps look beyond the swipe

A FORMER TINDER executive launched a new dating app that invites the community to vote on strangers' compatibility, putting a twist on courtship at a time when singles have grown exhausted with swiping. Rivet relies on a pool of volunteer "matchers" who rate whether two given people might be compatible. The idea is to prioritise quality connections over quantity, giving daters just a few pre-vetted options at a time, founder and CEO Taru Kapoor said.

Dating-app companies have been making major changes to their products in a bid to lure back singles who reported burnout. Bumble has also added an AI-powered matchmaking tool as an alternative to swiping.

New York-based Rivet, which raised \$10.5 million in seed funding and has been testing in select markets, is available on iOS and Android. The platform is built on the premise that aggregating wisdom from the community can help cancel out individual biases for better results.

Innovation needs guardrails

A FEW WEEKS ago, the CEOs of leading AI companies, Sam Altman and Dario Amodei, highlighted the dangers arising from rapid AI development and called for a pause. Their views received support from Elon Musk, triggering a worldwide debate. The subject has also acquired a political dimension, with the US and China making their positions clear on governance, safeguards and the pace of innovation.

Despite concerns about bias in AI models and data privacy, AI has largely evolved as a tool to help answer questions and support human decision-making. Agentic AI, however, is changing that equation. These systems can not only answer questions but also delegate work to other agents and pursue tasks independently. The incident involving OpenAI and Hugging Face highlighted how cybersecurity controls could be breached and actions independently triggered in a third-party system.

These developments raise fundamental questions about the safeguards built around AI systems and highlight the potential vulnerability of human-engineered cybersecurity capabilities. For governments, financial institutions, telecom companies, defence organisations, energy firms and other large enterprises, the risks associated with cyber breaches are becoming increasingly significant.

The collaboration between humans and AI has so far helped improve the technology and enhance human capabilities. But this relationship is now evolving. AI is increasingly being used not only to assist researchers but also to

UMA GANESH

conduct research, make decisions and take actions.

Against this backdrop, despite calls from some key AI leaders to slow down development, financial incentives continue to encourage companies to accelerate their efforts. What they appear to be calling for is coordinated pacing rather than individual companies slowing down in isolation. Such coordination could give companies more time to build safety measures without giving up commercial opportunities.

India is not competing with the large global players in advancing frontier AI technology, although safety is as important here. The main priority is about harnessing the technology to support economic growth.

The focus should remain on the application layer and on enabling wider adoption. The benefits will come from productivity gains and from scaling services and solutions for underserved communities across health-care, education, SMEs, agriculture and financial services.

The rapid pace of development also creates an opportunity for Indian software companies. They can offer specialist cybersecurity and safety-assurance services to both AI developers and enterprises adopting these technologies. A growth strategy built around AI, backed by strong safety measures and effective governance, can help the country capture the technology's economic and social benefits while ensuring that adoption remains responsible.

Beyond road recording

CP-H27B DASHCAM HELPS KEEP WATCH REMOTELY

SUDHIR CHOWDHARY

AS CITY ROADS get busier, dashcams are becoming a useful accessory for car owners. A recording can help settle disputes after an accident, while newer models can also track a vehicle and let owners check on it remotely. The CP Plus CarKam CP-H27B combines these features with front-and-rear cameras and 4G connectivity.

The dashcam has two 2MP Full HD cameras, one facing the road and the other covering the rear. Both record simultaneously, giving users a wider view of what happens around the car. This can be useful in crowded traffic, where incidents can occur from either direction.

Its biggest difference from a basic dashcam is connectivity. A 4G SIM can be inserted into the device, allowing the owner to access the camera remotely through the ezyLiv+ app. The app provides a live view, vehicle location and alerts. This is useful when the car is being driven by a family

member or driver, or parked away from home.

The built-in GPS records the vehicle's route, speed and travel history. Geofencing can alert the owner if the vehicle moves outside a defined area. Two-way audio also allows the user to speak to someone inside the car through the app. For added security, the dashcam offers motion detection and parking monitoring. Its G-sensor detects sudden impacts and automatically saves the relevant recording. HDR helps the cameras handle difficult lighting conditions, including night driving.

Storage is straightforward, with support for microSD cards of up to 1TB. The camera also uses a storage-efficient format, helping keep video files smaller. The CP-H27B is aimed at car owners who want more than basic road recording. With dual cameras, remote access and vehicle tracking, it works as a connected security system for the car.

A smartphone with a little extra

THE INFINIX HOT 70 Pro 5G combines everyday practicality with a few features that help it stand apart from the crowd. Its standout feature is the Active Matrix Cube, a small rear display that shows calls, charging status and timers, and even supports simple games. It is useful occasionally, but mainly gives the phone some character.

The 6.76-inch Full HD+ LCD display has a 144Hz refresh rate and 910 nits brightness, making scrolling smooth and outdoor viewing reasonably comfortable. The Dimensity 7100 5G chipset handles everyday tasks and casual

gaming without trouble. The 50MP Sony IMX882 main camera takes good daylight photos, while 2x lossless zoom is useful for portraits. The 6,000mAh battery easily lasts a day, with 45W charging adding convenience.

Running Android 16-based XOS 16, this Infinix handset gets three Android updates, five years of security updates and IP68 protection. Overall, it is an easy-to-live-with phone that adds a few useful touches to the usual smartphone experience.

Sales network goes digital

BISCUIT AND CONFECTIONERY maker Priyagold has partnered with Salesforce to digitise its sales and distribution operations. The move will connect its field sales teams and distributors on a single platform, helping the company improve visibility and streamline day-to-day operations. The platform will cover 2,000 field staff and 3,500 distributors, bringing sales activity and distributor operations together in one system.

Ahmedabad maps a smarter future

GENESYS INTERNATIONAL HAS won a ₹283-crore World Bank-funded contract to develop a 3D digital twin and GIS platform for Ahmedabad, covering about 625 sq km. The project will map around 25 lakh properties, along with roads, land parcels, water,

sewerage and stormwater networks, creating a unified spatial database for urban planning and civic services.

Property buying gets conversational

GUPSHUP'S NEW REAL estate AI solution helps property developers manage customer interactions across WhatsApp and voice, from property discovery and lead qualification to sales and post-sales service. Customers can check availability, compare properties, ask questions, share requirements and request callbacks or appointments.

PM EXPECTED TO VISIT CANADA IN DECEMBER

India, Canada to elevate ties: EAM

YOSHITA SINGH
United Nations, September 27

INDIA AND CANADA are preparing to take their relationship “to a higher level”, External Affairs Minister S Jaishankar said after holding a “productive discussion” with his Canadian counterpart Anita Anand on the sidelines of the United Nations General Assembly (UNGA).

“Always a pleasure to meet FM @AnitaAnandMP of Canada...A productive discussion as we prepare to take the relationship to a higher level,” Jaishankar said in a post on X Saturday, shared with a short video clip of the two having a conversation.

Earlier this week, Canadian Prime Minister Mark Carney said at the UN that Prime Minister Narendra Modi is expected to visit Canada around December this year, noting that Ottawa is making “good progress” in its trade negotiations with India.

“We are making good progress in our trade negotiations with India. It is an exceptionally important relationship on many many levels, people-to-people levels, security levels, and also trade and economic,” Carney had said at a press conference Tuesday on the sidelines of the UNGA. India and Canada had committed

External Affairs Minister S Jaishankar meets Canada's Foreign Affairs Minister Anita Anand on the sidelines of the 81st United Nations General Assembly, in New York on Sunday

ted at the G20 last year to “look to conclude negotiations by the G20 this year,” said Carney while responding to questions on when Modi would visit Canada and how close Ottawa was to concluding a free trade agreement with India, aimed at more than doubling bilateral trade to 70

billion Canadian dollars annually by 2030. US President Donald Trump will host the G20 Summit on December 14-15 at the Trump National Doral Miami resort in Doral, Florida. India-Canada relations deteriorated during the tenure of former prime minister Justin Trudeau.

Bank unions to go on 3-day strike from today

BANKING SERVICES, INCLUDING cheque clearance, cash withdrawals and deposits, are likely to be disrupted for three days beginning Monday as bank unions go on nationwide strike to press for a five-day working week and other pending demands. The impact is expected to be felt primarily at public sector banks, old generation private sector banks and regional rural banks, though digital banking and other online services are likely to remain available.

Besides, branches of new generation private sector lenders like ICICI Banks, HDFC Bank, and Axis Bank will remain open during those three days.

The three-day strike follows one-day nationwide strike observed on September 11.

Most public sector banks and other institutions have issued an advisory to its customers about the strike and impending inconvenience to their customers. In its advisory to customers, SBI said while the bank will make every effort to provide essential banking services at branches/offices, certain services may be affected during the strike period, which may inconvenience valued customers.

“Customers are therefore requested to complete their essential banking transactions well in advance of the proposed strike dates to avoid any inconvenience.”

A great personality, committed to nation-building

NARENDRA MODI

THERE IS A beautiful saying, वृक्ष कबहुँ नहीं फल खाये, नदी न संचे नीर।

परमार्थ के कारने, साधुन धरा शरीर
It means the tree does not consume its own fruit, nor does the river retain its waters. Both exist for the benefit of others. Our saints and seers have long taught us that a life devoted to the welfare of those around us acquires a meaning far greater than individual achievement.

If there is one person in whom this spirit was constantly reflected, it was Ashok Singhal. Starting September 27, we mark his birth centenary to celebrate an outstanding personality who brought together spiritual pursuit, cultural awakening and decades of dedicated organisational work.

I consider it a privilege that I had innumerable opportunities to interact with Ashok Singhal and receive his affection. One of the earliest instances dates back to 1981, when I was a young karyakarta going about the organisational duties given to me. I received a handwritten letter from him.

Naturally, it was a noteworthy moment for me. He talked about an important upcoming programme and gave a few tasks to be done.

Over several decades, I saw him work day and night. He would undertake long and often difficult travels to the remotest of areas. He was particularly passionate about travelling across tribal areas of Gujarat. His mind was constantly running, thinking about what more one can do for those on the margins of society. Whenever any part of the nation was affected by a natural disaster, he was either among the first to reach there himself or among those guiding karyarkartas to help those affected. My own experience with him in the aftermath of the 2001 Kutch earthquake was unforgettable.

This spirit of compassion and care for others is something that came to Ashok Singhal very early in his life. He hailed from a very illustrious and prosperous family. His father, Mahavir, was a distinguished administrator. One of his brothers, BP Singhal went on to become a police officer and later a Member of Parliament. Another brother, VP Singhal, was the chief secretary of Tripura when the state was just formed. Other family members succeeded in the world of commerce and agriculture.

But from a young age, Ashok Singhal was attracted to something else altogether...the revival of Bharat and bringing glory to Maa Bharti's children. Growing up in Prayagraj, he would sit for hours on the banks of the Sangam. The river naturally interested him, but so did the people who came, such as saints, seers and devotees. It nurtured an understanding of India's cultural ethos and strengthened his intention to do something for society. This desire to live for others drew him to the RSS. He embraced every responsibility that came his way with enthusiasm, discipline and a sense of duty.

Ashok Singhal nurtured institutions and movements through persistence and hard work. He was blessed with a formidable voice and an oratory that could hold an entire gathering in its spell. Equally noteworthy was his care for fellow karyarkartas. Anyone who came into contact with him could not help but marvel at his remarkable simplicity. He shared a deep bond with the Sant Samaj and commanded immense respect among saints and seers across the country. They valued his counsel and listened to him with great regard.

My mind goes back to two instances which brought out the legendary persona of Ashok Singhal. The first was in 1993, when the Vishwa Hindu

Parishad organised a convention in the US to mark 100 years since Swami Vivekananda's Chicago address. The vision to host such a conference overseas, the planning and the bringing together of diverse stakeholders revealed the organisational genius of Ashok Ji.

The second instance is from the year 2000. The World Hindu Conference was organised in Port of Spain in Trinidad and Tobago. I could see how his presence ignited so much enthusiasm among other delegates. After my address, his words of appreciation were a very moving experience for me. I saw yet again how his encouragement filled every Karyakarta with so much energy.

No mention of Ashok Singhal is complete without recalling his pivotal role in the Ram Janmabhoomi Movement. Who can forget his address at the Boat Club Rally in 1991. Or the defining image of an injured and bleeding Ashok Singhal at the peak of the movement.

Today, if there is a grand Ram Mandir in Ayodhya, it is because of stalwarts like him who selflessly immersed themselves in the effort to make it possible. He would have been the happiest person on seeing the Ram Mandir take shape in Ayodhya.

He was blessed with remarkable clarity of thought and one area where it was clearly seen was his belief that our society needs to be harmonious, that the message of brotherhood has to be reaffirmed. He worked towards strengthening social unity and equality. He firmly believed that there could be no distinction of any kind in society and that every individual deserved

equal dignity and respect. It was his thought that the first brick of the Ram Mandir in Ayodhya would be laid by Kameshwar Choupal, a grass-roots VHP Karyakarta from Bihar who hailed from the marginalised sections of society. At a Dharm Sansad in Kashi, he decided that the Dom Raja would be honoured and went on to work with him as part of various community efforts.

Beyond nation-building, Ashok Singhal had two areas that were very close to his heart: education (especially Vedic education) and music. As the MP from Varanasi, I feel very proud that the city I represent, the eternal Kashi, has played its part in Ashok Singhal's life. He was educated at BHU and was also known to be a good student. He was closely associated with the Ekal Vidyalaya initiative, which worked to extend basic education to remote villages, especially among tribal communities. He was a voracious reader as well as a good listener and he always told younger Karyarkartas to read as much as possible.

Those who knew him closely knew how well he sang! I recall meetings in Nagpur, where he would sing the Ekal Geet, leaving everyone mesmerised and setting the tone for the meeting.

A video of him surprising everyone and singing “हे मातृभूमि मेरी, हे पितृभूमि मेरी” during his 90th birthday celebrations in 2015 went viral.

On his birth centenary, let us ensure that more youngsters know about his greatness. And let us renew our pledge to realise his dreams for our nation and our people.

Monsoon deficit, uneven rainfall set to take heavy toll on kharif crops

SANDIP DAS
New Delhi, September 27

WITH THE SOUTHWEST monsoon season (June-September) set to end with precipitation below 90% of the benchmark long-period average (LPA), and rainfall distribution remaining highly uneven across regions, yields of several crops, particularly paddy, pulses and oilseeds, are likely to be affected, according to experts and agriculture trade sources across the country.

This comes despite the total area sown under kharif crops being only marginally lower than last year's level. Last year, the kharif production hit a record level of 176 million

YIELDS AT RISK

■ Monsoon deficit, uneven rainfall could hit yields of paddy, pulses and oilseeds

■ Rainfall was 11.9% below LPA as of Sunday

■ Tur, soybean, maize, paddy under pressure

MAHARASHTRA WORST HIT
265 of 358 taluks (74%) declared drought-affected

tonne, thanks to two successive years of above-normal monsoon rains. Concerns are mounting over the growth and yield prospects of tur, soybean, maize and paddy as these crops enter

the flowering stage. In Maharashtra and Karnataka, major producers of tur and soybean, rainfall deficits of 18% and 30%, respectively, coupled with significant intra-regional varia-

tions, have prompted the state governments to declare drought in several taluks to provide support to farmers. Sugarcane yields are also likely to be affected in these states..

“The stage is set for a rapid withdrawal of the monsoon from India, leaving behind a country-wide rainfall deficit of around 12% (against the benchmark).

“The monsoon remained under a heavy influence of El Niño and counteractive factors such as a positive phase of the Indian Ocean Dipole just didn't materialise,” said Akshay Deoras, senior research scientist, Department of Meteorology, University of Reading, UK.

India adds 5x more module capacity than cells in H1 2026

SAURAV ANAND
New Delhi, September 27

INDIA ADDED 40.9 GW more solar module manufacturing capacity than solar cell capacity in the first half of 2026, highlighting a widening imbalance in the domestic manufacturing chain even as the country rapidly expands its solar production base.

During January-June, 50.6 GW of solar module manufacturing capacity was added, compared with 9.7 GW of cell capacity, according to Mercom India's State of Solar PV Manufacturing in India 1H 2026 report.

By the end of June, India's cumulative solar module manufacturing capacity had climbed to 261.7 GW, while solar cell manufacturing capacity stood at just 36.6 GW. The sharp difference between module and cell capacity has emerged as a key pressure point for the industry, with domestic cell availability failing to keep pace with the rapid expansion in module manufacturing.

India's imports of solar cells and modules consequently increased 18% in the first half of 2026 from the corresponding period of 2025. Solar cells accounted for as much as 81% of total imports, while modules made up the remaining 19%.

Manufacturing capacity also remained concentrated

among a relatively small group of companies, with the top 10 manufacturers accounting for 60% of India's total module manufacturing capacity. Gujarat continued to dominate India's solar manufacturing landscape. The state accounted for nearly 45% of the country's module manufacturing capacity as of June, while Rajasthan and Tamil Nadu ranked second and third. Together, the two states accounted for nearly 19% of module capacity, according to the report.

In capacity terms, Rajasthan had 26.1 GW of module manufacturing capacity, followed by Tamil Nadu at 23.4 GW. Gujarat also remained the largest base for solar cell manufacturing, accounting for about 37% of the country's annual production capacity. Tamil Nadu and Telangana were the other leading states, with cell manufacturing capacities of 4.3 GW and 4.2 GW, respectively.

RBI presses Tata Sons...

THE SHAPOORJI PALLONJI Group, the largest minority shareholder with an 18.37% stake in Tata Sons, has taken a different position, viewing a listing as a route to unlock value from its holding and raise funds against its stake.

Tata Sons had applied to the RBI in March 2024 to surrender its registration after repaying its outstanding debt. The move was aimed at exiting the NBFC framework and avoiding the mandatory listing requirement applicable to Upper Layer NBFCs.

The RBI, however, rejected the application and directed Tata Sons to comply fully with regulations applicable to NBFC-UL entities. Tata Sons has been classified as an Upper Layer NBFC since September 2022. Under the RBI's revised scale-based regulatory framework, an NBFC with assets of ₹1 lakh crore or more qualifies for Upper Layer classification. Tata Sons had total assets of ₹2.01 lakh crore as of March 31, 2026.

The company's three-year deadline for listing as an Upper Layer NBFC expired in September 2025 without the holding company going public. Tata Sons nevertheless continued to pursue deregistration, with its application remaining under examination until the RBI's September 11 decision.

Startups rethink cloud use as AI...

Other startups are focusing on eliminating inefficiencies within their existing cloud infrastructure. Quick-commerce logistics firm Zippee has reduced cloud spend per shipment by 30-35% over the past year by right-sizing overprovisioned instances, moving batch workloads to spot capacity and tightening data-retention policies.

The company also identified idle development environments, old snapshots, unnecessary inter-service data transfers and rising observability costs as areas where cloud expenditure can build up without directly contributing to business growth. “Workload-level ownership, right-sizing and storage discipline” helped bring down costs, said Mohit Singh, head of Product, Zippee.

As cloud bills rise, a growing number of startups are turning to specialised providers for optimisation. Firms such as Zepto, Lenskart and MobiKwik have used third-party vendors to manage cloud costs. MobiKwik, for instance, has saved 12% on its overall AWS costs over the past year with the help

of a third-party provider, according to sources.

Cloud optimisation firms including CloudKeeper and Utho Cloud are seeing growing demand from startups and enterprises. CloudKeeper said its customers have achieved an average reduction of around 20% in cloud costs, while Utho Cloud said its clients typically see reductions of around 60%, with some cases reporting savings of 75-80%.

The financial impact can be significant for startups. Utho Cloud founder and CEO Manoj Dhanda said cloud spending can rise from 8-10% of operating expenditure at an early stage to 18%, 25% or even 35% as companies scale without adequate FinOps discipline. For AI-first and GPU-heavy companies, the share can be higher.

With cloud expenditure increasingly competing with product development, hiring and customer acquisition for scarce capital, startups are now being forced to treat infrastructure efficiency as a core financial discipline rather than a back-end technology exercise.

Advertisers tearing up...

THE BIGGEST MISTAKE, he says, is treating Gen Z as a single personality type that can be reached through slang, memes and fast edits. That quickly turns performative. Being digitally fluent doesn't mean every interaction must look like a reel or a meme.

“Brands also risk confusing engagement with effectiveness by chasing views and likes without understanding whether those interactions move people towards consideration or purchase,” Subramaniam says. Communication, he adds, should be conversational, culturally aware and specific, and the product must live up to the promise.

The D2C effect

D2C and digital-first brands have led the rewrite. India's D2C market grew from under \$5 billion in 2020 to \$12-15 billion in 2025, as per industry estimates, and several brands are racing past the ₹100-crore mark.

Nearly 80% of Gen Z consumers have bought from brands they discovered on social media, according to The Knowledge Company.

Traditional FMCG companies are responding in three ways. Some are handing their digital business to D2C specialists: Colgate-Palmolive India has brought in Bombay Shaving Company to run Palmolive's D2C and e-commerce business. Some are buying D2C brands outright (Marico picked up major stakes in 4700BC and Cosmix).

Others are borrowing their playbook of social and retail media, personalisation, creator recommendations and content integrations.

At Emami, the strategy is less about swapping one medium for another and more about building relevance across the consumer journey, says a company spokesperson. “We are therefore placing greater emphasis on digital and social ecosystems, creator-led conversations and content, while continuing to leverage mass media where it remains important for reach and scale.”

#UndoWithZandu is one step in that direction. Emami is also reworking its Gen Z conversations for BoroPlus From Maa and Kesh King Scalp First.

Advertisers say Gen Z doesn't reward polish. It rewards authenticity, even when imperfect, whether in branded content or a get-ready-with-me reel. Brands that balance cultural relevance with real utility stand the best chance of earning lasting loyalty.

“Gen Z isn't necessarily hard to reach, but they're harder to interrupt,” says Vaidika Parashar, director, internal and external communications & branding, Zepto.

Having grown up with infinite choice in what they watch, engage with and buy, they make relevance matter more than mere visibility. “That means showing up where culture and conversations are happening — across social, creators, CTV, retail media, AI-led optimisation and first-party data. However, many businesses still manage these areas separately. The consumer, on the other hand, experiences one brand,” says Manish Deshmukh, media manager, BCWeb Wise.

The winners, he says, will be brands whose touchpoints work as one, from discovery to purchase to advocacy.

RISK TO INVESTORS:

Summary description of key risk factor based on materiality:

- Our Company is highly dependent on a single supplier for a significant portion of its purchases, and any disruption in this relationship could adversely affect our business, results of operations and financial condition.
- Our revenue from operations has varied in recent periods, and we may be unable to sustain or manage our growth, which could adversely affect our business and results of operations.
- We do not have any long-term agreements with any of our customers. If our customers choose not to source their requirements from us, it would lead to financial instability and operational uncertainty and our business and financial conditions may be adversely affected.
- Our inability to collect receivables from our customers, or any default in payment by them, could adversely affect our profitability, cash flows, and financial condition.
- Any delays or cost escalations in the proposed purchase of plant and machinery for our subsidiary could affect the implementation schedule and deployment of the Net Proceeds.
- We have contingent liabilities that have not been provided for in our Company's financials which if materialized, could adversely affect our financial condition.
- Certain procedural lapses occurred in relation to past allotments of equity shares by the Company, including receipt of a portion of consideration in cash and discrepancies in regulatory filings. Any regulatory action in relation to such matters may adversely affect the Company.
- There are certain discrepancies and non-compliances noticed in some of our corporate records relating to forms filed with the Registrar of Companies, taxation authorities and other public authorities. Any penalty or action taken by any regulatory authorities in future for non- compliance with provisions of all applicable law could impact on the financial position of the Company to that extent.
- We generate our major portion of revenue from our operations in certain geographical regions. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.
- Our Promoter does not have prior experience in the HVAC and Industrial Refrigeration industry, which may adversely affect our business.

For further details, see "Risk Factor" on page 27 of the Prospectus.

Iran pushes diplomacy as Trump rejects peace plan

TREVOR HUNNICUTT,

Washington/United
Nations/Dubai, September 27

IRAN INSISTED ON Sunday that only diplomacy can solve its conflict with the United States and Israel after US President Donald Trump said he rejected an Iranian proposal to reopen the Strait of Hormuz and end fighting.

"Our conditions are clear, and any move towards reopening the Strait of Hormuz is contingent on these conditions being met," Iranian Foreign Minister Abbas Araqchi posted on social media. "Only a negotiated solution can get them out of this deadlock."

Iran announced a peace proposal last week at the UN General Assembly in New York, saying it had been transmitted to the Americans via Qatari mediators. Trump said on Saturday he rejected the plan and argued that desperation was driving the Iranians' push for an agreement on the key waterway.

"They want to make a deal to open the Hormuz Strait immediately because they're losing so badly," Trump told reporters at the White House.

Despite Trump's public statements, mediators facilitating Tehran's talks with Washington have not officially relayed a US rejection of the plan, Araqchi said.

"We are waiting for the mediators to convey the definitive views to us,

...Army voices readiness for potential renewed US attack

IRAN'S ARMED FORCES are prepared for any renewed US attacks, state media quoted army spokesperson Mohammad Akraminia saying on Sunday, after US President Donald Trump said he rejected an Iranian proposal to reopen the Strait of Hormuz and end fighting.

Akraminia said Iran's armed forces were fully prepared for confrontation and warned that

the US would suffer greater damage if it launched another attack on his country.

Separately, Iranian Army Commander-in-Chief Amir Hatami said the war was at a critical and decisive stage, adding that Tehran would not accept a situation in which it was unable to trade while foreign powers used the region's strategic waterways. —REUTERS

and we will make a decision based on them," Araqchi posted.

The US has imposed an economic blockade on Iran to put pressure on Tehran to stop Iranian attacks on ves-

sels in the Strait of Hormuz, which have drastically reduced shipping through the area even as Trump repeatedly asserts that the US controls the waterway. —REUTERS

CORE MEASURE EXPECTED TO QUICKEN IN AUG

US payrolls set to grow by 90K; unemployment 4.1%

VINCE GOLLE & CRAIG STIRLING
September 27

US HIRING PROBABLY remained solid for a second month in September as economic momentum builds, even in the face of mounting cost pressures.

Economists estimate the jobs report due Friday from the Bureau of Labor Statistics will show non-farm payrolls rose about 90,000 after climbing in the prior month by the most since March. The unemployment rate is seen remaining at a one-year low of 4.1%.

The catalyst for recent stronger hiring has, unsurprisingly, been the economy itself. Demand metrics highlight an extended and feverish pace of capital spending as well as improved consumer spending.

That backdrop has allowed the Fed-

eral Reserve to turn its policy focus squarely towards inflation.

A separate report on Wednesday is forecast to show a 0.5% increase in August inflation adjusted personal spending, which would be the biggest advance in just over a year.

That release will also include the Fed's preferred inflation gauges. Both the personal consumption expenditures price index and the core measure — which excludes energy and food — are projected to quicken in August from a month earlier.

Investors will look to the report to reassess bets on whether the Fed will follow up this month's interest-rate hike with another at their October meeting. Currently, odds favor a quarter percentage point increase next month. —BLOMBERG

CEO: Armani open to multiple investors for 15% stake sale

REUTERS
Milan, September 27

ITALIAN LUXURY GROUP Armani is open to involving multiple investors in the sale of a 15% stake earmarked in founder Giorgio Armani's will, CEO Giuseppe Marsocci said on Sunday. "It is not written in stone that it has to be one investor," Marsocci told reporters on the sidelines of a Giorgio Armani fashion show when asked whether the stake could be split among three investors. He added that no decision had been made.

Armani, who died at 91 last September, stipulated in his will that an initial sale of 15% of the company should take place between 12 and 18 months after his death, followed by the disposal of a larger stake or a market listing.

THE BIG IDEA

REDCLIFFE LABS

Making diagnosis accessible

THE FOUNDERS SAW A GAP BETWEEN THE ROLE OF TESTING IN HEALTHCARE AND THE WAY IT WAS DELIVERED

S SHANTHI

FOR REDCLIFFE LABS founders Aditya Kandoi and Dheeraj Jain, the idea began with experiences within their own families. Jain had lost his sister-in-law at a young age, while Kandoi lost his closest aunt to cancer as a child. Years later, when Jain asked Kandoi, “Why isn’t anyone doing anything about it?”, the question brought together experiences that both had carried for years. Looking more closely at healthcare, they found a larger problem. Diagnostics accounted for only 3-5% of healthcare spending, but influenced nearly 70-80% of medical decisions. Preventive care was an even smaller part of the equation, accounting for less than 0.3% of healthcare spending. That became the starting point for Redcliffe Labs in 2021. The question was straightforward: if diagnostics influence so many healthcare decisions, why

should access to quality testing remain difficult, expensive and largely reactive? The answer they pursued was to build a diagnostics platform that could take testing beyond the metros and make it more accessible. The company today operates more than 80 laboratories, has over 1,000 home collection experts and 2,000 collection centres, and covers more than 4,000 pin codes. It processes over 100,000 tests a day. But the business was built on experience that Kandoi had accumulated well before Redcliffe. Kandoi grew up in a Marwari family where entrepreneurship was part of the culture. His father had built a successful CA practice, but around 1998, when Kandoi was 10, the business went through a series of setbacks. As a child, he helped with documents and balance sheets and accompanied his father to tax hearings. “I saw early on that behind every balance sheet were real people, real risks, and real

THE COMPANY TODAY OPERATES MORE THAN 80 LABORATORIES, HAS OVER 1,000 HOME COLLECTION EXPERTS AND 2,000 COLLECTION CENTRES, AND COVERS MORE THAN 4,000 PIN CODES

consequences,” he recalls. He initially planned to become a CA but eventually studied engineering at IIT (BHU), Varanasi, followed by an MBA in finance and strategy from MDI Gurgaon. He then worked with Deloitte, JP Morgan, American Express and Barclays, experiences that gave him exposure to finance, strategy and technology. In 2015, he left the corporate world for healthcare entrepreneurship. His first two ventures failed. One was an online medicine-delivery business, while the other connected patients with hospitals for fertility, cancer and transplant care. The failures shaped his approach to the next venture. “If the unit economics don’t work, scaling only makes the bleeding worse,” he says. The second venture taught him that healthcare businesses also depend heavily on trust and the patient experience. Jain brought a different but complementary experience. He had started Redcliffe Lifesciences in 2018 as a specialised diagnostics business focused on genomics, oncology, reproductive health and rare diseases. By 2020, Kandoi, his wife Preeti and Jain had begun shaping what would

become Redcliffe Labs. “Redcliffe Labs’ journey actually started with Dheeraj,” Kandoi says. The timing also mattered. Redcliffe was being built as the country was emerging from Covid, when consumer behaviour around diagnostics had changed sharply, particularly around home collection. The founders had already invested in building that capability. They started in Noida with one laboratory and a team of around 20 people. By June 2021, the team had grown to around 100. The first institutional funding came in March 2021, with about \$2 million from Alkemi Venture Partners, Y Combinator and LetsVenture, followed by a \$10 million Series A. The company has since raised \$110 million. In FY26, it reported revenue of ₹500 crore, having grown at more than 40% CAGR over three years. It says it has served more than 10 million consumers in five years. For Kandoi, the funding and growth were less about building a chain of laboratories and more about creating a system that could scale access. “The ambition was always much larger: to build a national diagnostics platform that could take quality testing beyond the metros,” he says. That meant building the infrastructure around the laboratory rather than treating the laboratory as the business itself. Home collection, a wider collection-centre network, technology and geographic expansion became part of the model. Five years on, the original question has translated into a substantially larger operation. Redcliffe’s bet was that diagnostics could move from being a largely reactive part of healthcare to a more accessible and scalable service. The test for the company now is whether that model can continue to expand while maintaining the quality, economics and trust on which the idea was built.

Ancy Sojan celebrates after winning silver medal in the women's long jump final event at the ongoing 20th Asian Games, in Nagoya, on Sunday

India win 2 silver, 3 bronze in athletics, gold wait continues

● Total medal tally reaches 37 after seven-medal haul

PHILEM DIPAK SINGH
Nagoya, September 27

LONG JUMPER ANCY SOJAN and high jumper Sarvesh Kushare raised hopes of India's first athletics gold in the ongoing Asian Games before settling for a silver each to lead the country's five-medal haul on a productive Sunday. Decathlete Tjaswin Shankar, 3000m steeplechaser Parul Chaudhary and 200m runner Harita Bhadra clinched a bronze each to take India's total athletics medal count to 13 (6 silver, 7 bronze) at the Mizuho Park Athletic Stadium that was lashed by incessant drizzle for the second day running. The 75-member strong Indian athletics team is still searching for a gold with two days left in the competition. The 25-year-old Ancy was on the verge of winning her maiden Asian Games gold with her fifth round effort of 6.53m but China's Huang Yingying produced a late 6.55m effort in the final jump of the competition to snatch the gold. “Yeah, actually little bit heartbreak for the 2cm I missed.

Sarvesh Kushare in action during the men's high jump final

Till the very last moment I was in gold position. But fate is different. Today is not my day,” a disappointed Ancy, who holds the national record of 6.88m, said later. “But I am happy for one thing. This is my second Asian Games and I am a medalist in both. This is not the end for me. I will come back stronger.” Another Indian in the fray, Shaile Singh, was in the bronze medal position with her fifth round jump of 6.42m but she was pushed to fourth after the Chinese gold winner's final attempt. It was a protracted contest in the men's high jump between Kushare and eventual gold winner Chao-hsuan Fu of Chinese Taipei. The Indian was in the gold medal position till the bar was raised to 2.22m. Kushare needed just one jump to clear the bar till the 2.22m while Fu could clear the same height in his second attempt. But the scenario changed when the bar was raised to 2.25m. Kushare, who holds the national record of 2.31m, needed a second jump to clear the height while the Chinese Taipei athlete did it in his first try. —PTI

BALANCE SHEET AS ON 31ST MARCH 2026, PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED 31ST MARCH 2026

INDEPENDENT AUDITOR'S REPORT

To the Members of Equitas Small Finance Bank Limited
Report on the Audit of the Financial Statements

OPINION : We have audited the accompanying financial statements of Equitas Small Finance Bank Limited (the "Bank"), which comprise the Balance Sheet as at March 31, 2026, the Profit and Loss Account and the Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by Section 29 of the Banking Regulation Act, 1949 as well as the Companies Act, 2013, as amended (the "Act") in the manner so required for Banking Companies and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Accounting Standards prescribed under section 133 of the Act, read with rules made thereunder, of the state of affairs of the Bank as at March 31, 2026, and its profit and its cash flows for the year ended on that date.

BASIS FOR OPINION : We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Bank in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

KEY AUDIT MATTERS : Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No.	Key Audit Matters	How our Audit Addresses our Key Audit Matters
---------	-------------------	---

Identification of non-performing advances and provisioning for advances

1.	Advances form a material portion of the Bank's assets and the quality of the Bank's loan portfolio is measured in terms of the proportion of non-performing assets (NPAs) to the total loans and advances. Identification, classification and provisioning of NPAs are governed by the prudential norms on income Recognition and Asset Classification ("IRAC") issued by the Reserve Bank of India ("RBI") which include rule-based and judgemental factors. Management is also required to make estimates of stress, recoverability issues, and security erosion in respect of specific borrowers or groups of borrowers, on account of specific factors that may affect such borrowers/groups. In view of the significance of this area to the overall audit of financial statements, it has been considered as a key audit matter.	We considered the Bank's accounting policies for NPA identification, and provisioning and have assessed the compliance with the IRAC norms prescribed by the RBI. We tested the operating effectiveness of the controls (including application and IT dependent controls) for borrower wise classification of loans in the respective asset classes viz., standard, sub-standard, doubtful and loss with reference to their days-past-due (DPD) status. We considered the special mention accounts ("SMA") reports submitted by the Bank to the RBI's central repository of information on large credits (CRILC) and made inquiries of personnel in the Bank's credit and risk departments regarding indicators of stress, perceived risk and mitigating steps taken and/or the occurrence of specific event(s) of default or other factors affecting the loan portfolio/particular loan product category, that may affect NPA identification and/or provisioning. Selected the borrowers based on quantitative and qualitative risk factors for their assessment of appropriate classification as NPA including computation of overdue ageing to assess its correct classification and provision amount as per extant IRAC norms and Bank policy. We performed analytical procedures which considered both financial and non-financial parameters, in relation to identification of NPAs and provisioning there against.
----	--	---

Information Technology (IT): Systems and Controls impacting Financial Reporting

2.	The IT environment of the Bank is complex and involves a large number of independent and interdependent IT systems used in the operations of the Bank for processing and recording a large volume of transactions at numerous locations. As a result, there is a high degree of reliance and dependency on such IT systems for the financial reporting process of the Bank. The IT infrastructure is critical for smooth functioning of the Bank's business operations as well as for timely and accurate financial accounting and reporting. IT general controls include user access management and change management across applications, networks, database, and operating systems. Due to the pervasive nature and complexity of the IT environment as well as its significance in relation to accurate and timely financial reporting we have identified this area as a key audit matter.	As part of our Audit, we have carried out testing of the IT general controls, application controls and IT dependent manual controls of the financially significant applications. We have gained an understanding of IT controls framework through Walkthrough of processes. We have referred to the reports of Information Systems Audit. We have also tested the design and operating effectiveness of the Bank's IT general controls in the nature of controls over logical access, change management, and other aspects of IT controls over the key information systems that are critical to financial reporting. These included testing that requests for access to systems were reviewed and authorized. Where deficiencies were identified, we tested compensating controls or performed alternate procedures sufficient to confirm that the control objectives are satisfied.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITORS' REPORT THEREON

The Bank's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements and our auditor's report thereon. The Bank's annual report is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the financial statements does not cover the other information and Pillar 3 disclosure under Basel III Capital Regulations, including Leverage Ratio, Liquidity Coverage Ratio and Net Stable Funding Ratio under Capital Adequacy and Liquidity Standards issued by Reserve Bank of India ("RBI") and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the Bank's annual report, if we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance and take appropriate actions as applicable under the relevant laws and regulations.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Bank's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Bank in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act read with the Companies (Accounting Standards Rules, 2021), as amended, in so far as they apply to the Bank and provisions of Section 29 of the Banking Regulation Act, 1949, and circulars, guidelines and directions issued by Reserve Bank of India ("RBI") from time to time.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management and Board of Directors either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Bank's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(f) of the Act, we are also responsible for expressing our opinion on whether the Bank has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

• Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. The Balance Sheet and the Profit and Loss Account have been drawn up in accordance with the provisions of Section 29 of the Banking Regulation Act, 1949 and section 133 of the Act read the Companies (Accounting Standards Rules, 2021), as amended.

(e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act;

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Bank with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in 'Annexure-A' to this report;

(g) In our opinion, the provisions of section 197 of the Act are not applicable to the bank by virtue of Section 35B(2A) of the Banking Regulation Act 1949; and

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

i. The Bank has disclosed the impact of pending litigations as at March 31, 2026 on its financial position in its financial statements - Refer to Schedule 12 to the financial statements;

ii. The Bank did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Bank;

iv. a) The Management of the Bank has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Bank to or in any other persons / entities, including foreign entities ('Intermediaries'), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Bank ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The Management of the Bank has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Bank from any persons / entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the bank shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on the audit procedures which we have considered reasonable and appropriate in the circumstances and according to the information and explanations provided to us by the management in this regard, nothing has come to our notice that has caused us to believe that the representations made by the management under sub- clause (a) and (b) above contain any material misstatement.

v. The final dividend proposed in the previous year, declared and paid by the Bank during the year is in accordance with Section 123 of the Act, as applicable.

vi. a) Based on our examination which included test checks, the bank has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

b) Audit trail has been preserved by the Company as per the statutory requirements for record retention in accordance with the requirements of Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014.

Annexure-A to the Independent Auditor's Report of even date on the Financial Statements of Equitas Small Finance Bank Limited

Report on the Internal Financial Controls Over Financial Reporting with reference to the Financial Statements under Clause (f) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

OPINION: We have audited the internal financial controls over financial reporting with reference to Financial Statements of Equitas Small Finance Bank Limited (the "Bank") as of March 31, 2026 in conjunction with our audit of the financial statements of the Bank for the year ended on that date.

In our opinion, the Bank has, in all material respects, an adequate internal financial controls with reference to financial statements and such controls were operating effectively as at March 31, 2026, based on the internal control with reference to Financial Statements criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("the ICAI").

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THE FINANCIAL STATEMENTS

The Bank's Board of directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting with reference to the financial statement criteria established by the Bank considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY : Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls over financial reporting with reference to Financial Statements included obtaining an understanding of internal financial controls over financial reporting with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO FINANCIAL STATEMENTS

A Bank's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Bank's internal financial control over financial reporting with reference to Financial Statements includes those policies and procedures that

1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the bank;

2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the bank are being made only in accordance with authorizations of management and directors of the bank; and

3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the bank's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

SCHEDULE 17 – SIGNIFICANT ACCOUNTING POLICIES FORMING PART OF THE FINANCIAL STATEMENTS

CORPORATE INFORMATION

1. Background: Equitas Small Finance Bank Limited (CIN: L65191TN1993PLC025280) ("ESFBL" or the "Bank"), is engaged in retail banking business with focus on micro-finance, commercial vehicle finance, home finance, loan against-property, corporate finance and providing financing solutions for individuals and micro and small enterprises (MSEs) that are underserved by formal financing channels while providing a comprehensive banking and digital platform for all. The shares of the Bank are listed on National stock exchange (NSE) and BSE Ltd. The Bank is primarily governed by the Banking Regulation Act, 1949 and the Companies Act, 2013.

2. Basis of preparation: The Financial Statements have been prepared and presented under the historical cost convention and on accrual basis of accounting in accordance with provisions of accounting standards as specified under section 133 of the Companies Act 2013, read with the Companies (Accounting Standards Rules, 2021) in so far as they apply to the Bank, and other accounting principles generally accepted in India ("Indian GAAP") as applicable to banking companies and the applicable requirements of the Banking Regulation Act, 1949 and circulars, guidelines and directions issued by Reserve Bank of India from time to time. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous financial year.

Use of estimates: The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses for the reporting period. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results could differ due to these estimates. Any revision in the accounting estimates is recognised prospectively.

3. Significant accounting policies

3.1. INVESTMENTS

Classification: In accordance with the RBI guidelines on investment classification and valuation, investments are classified on the date of purchase into three categories (hereinafter called :categories-) as below:

- Held to Maturity ("HTM")
- Available for Sale ("AFS")
- Fair Value through Profit and Loss ("FVTPL"), Held for Trading ("HFT") is a separate investment sub category within FVTPL.

Under each of these categories, investments are further classified under six groups (hereinafter called "groups") – Government Securities, Other Approved Securities, Shares, Debentures and Bonds, Investments in Subsidiaries/Joint Ventures and

In respect of stressed assets sold by the Bank under an asset securitisation, where the investment by the Bank in security receipts (SRs) backed by the assets sold by it is more than 10 percent of such SRs then the valuation shall be lower of the following:

i. Value arrived by reckoning the Net Asset Value (NAV) declared by the ARC based on the recovery ratings received for such instruments.

ii. Face value of the SRs reduced by the notional provisioning rate applicable if the loans had continued on the books of the transferor.

Investments in SRs issued by ARCs are valued periodically by reckoning the Net Asset Value (NAV) declared by the ARC based on the recovery ratings received for such instruments. However, in respect of the stressed loans transferred to ARC, the investments are carried on an ongoing basis, until its transfer or realization, at lower of the redemption value of SRs arrived based on the NAV as above, and the NBV of the transferred stressed loan at the time of transfer.

Investment in Pass Through Certificates which is done to meet the Minimum Retention Ratio (MRR) are valued at cost.

Non-performing investments are identified and depreciation / provision is made thereon based on the RBI guidelines. Interest on non-performing investments is not recognised in the Profit and Loss Account until received.

The amount outstanding in Repurchase (Repo) including Marginal Standing Facility (MSF) are accounted as borrowings and amount outstanding in Reverse Repurchase (Reverse Repo) are accounted as Lending. The accrued income and expenditure till the balance sheet date is recognised in Profit and Loss account.

Transfer between categories:

Post approval of the Board of Directors and Department of Supervision (DoS)- RBI, the Bank may shift investments to/from HTM / AFS / FVTPL as a special case. The reclassification is applied prospectively from reclassification date.

The accounting treatment for reclassifications between categories is specified in below table.

Sl. No.	From	To	Accounting Treatment
A	HTM	AFS	The fair value measured at the reclassification date is the revised carrying value. Any gain or loss arising from a difference between revised carrying value and the previous carrying value is recognised in AFS-Reserve.
B		FVT PL	The fair value measured at the reclassification date is the revised carrying value. Any gain or loss arising from a difference between the revised carrying value and previous carrying value of the investments is recognised in the Profit and Loss Account under item (III); 'Profit on revaluation of investments' under Schedule 14; 'Other Income'.
C	AFS	HTM	The investments are reclassified at its fair value at the reclassification date. However, the cumulative gain/loss previously recognised in the AFS-Reserve is withdrawn therefrom and adjusted against the fair value of the investments at the reclassification date to arrive at the revised carrying value. Thus, the revised carrying value is the same as if the Bank had classified the investment in HTM ab initio.
D		FVT PL	The investments is to be measured at fair value. The cumulative gain or loss previously recognised in AFS-Reserve is withdrawn therefrom and recognised in the Profit and Loss Account, under item (III); 'Profit on revaluation of investments' under Schedule 14; 'Other Income'.
E	FVT	HTM	The carrying amount representing the fair value at the reclassification date remains unchanged
F	PL	AFS	

Disposal of investments:

Profit/Loss on sale of investments under AFS and FVTPL categories are recognised in the Profit and Loss Account.

Upon sale or maturity of a debt instrument in AFS category, the accumulated gain/loss for that security in the AFS-Reserve is transferred from the AFS-Reserve and recognized in the Profit and Loss Account under item 'Profit on sale of investments'.

In the case of equity instruments designated under AFS at the time of initial recognition, any gain or loss on sale of such investments is not be transferred from AFS-Reserve to the Profit and Loss Account. Instead, such gain or loss is being transferred from AFS-Reserve to the Capital Reserve.

Any sales from HTM are done as per Board approved policy. In any financial year, the carrying value of investments sold out of HTM will not exceed five per cent of the opening carrying value of the HTM portfolio. Any sale beyond this threshold will be made with the prior approval from DoS, RBI.

Sale of securities in the situations given below are excluded from the regulatory limit of five percent:

i. Sale to the RBI under liquidity management operations of RBI such as the Open Market Operations (OMO) and Government Securities Acquisition Programme (GSAP).

ii. Repurchase of Government Securities by Government of India from Banks under buyback or switch operations.

iii. Repurchase of State Development Loans by respective state governments under buyback or switch operations.

iv. Repurchase, buyback or exercise of call option of non-SLR securities by the issuer.

v. Sale of non-SLR securities following a downgrade in credit ratings or default by the counterparty.

vi. Sale of securities as part of a resolution plan under the Prudential Framework for Resolution of Stressed Assets for a borrower facing financial distress.

vii. Additional sale of securities explicitly permitted by the Reserve Bank of India.

Any profit or loss on the sale of investments in HTM is recognised in the Profit and Loss Account under 'Other Income'. The profit on sale of investments in HTM is appropriated below the line from the Profit and Loss Account to the 'Capital Reserve Account'. The amount so appropriated is net of taxes and the amount required to be transferred to Statutory Reserve.

In accordance with extant RBI guidelines, an amount not less than the net profit on sale of investments during the year or net profit for the year less mandatory appropriations is created as Investment Fluctuation Reserve (IFR) until the Bank achieve a reserve balance of 2% of the FVTPL-HTM and AFS portfolio.

3.2. ADVANCES

Classification: Advances are classified as Performing Assets (Standard) and Non-performing Assets (NPAs) in accordance with the RBI guidelines on Income Recognition and Asset Classification (IRAC). Further, NPAs are classified into sub-standard, doubtful and loss assets based on the criteria stipulated by RBI.

The Advances are stated net of specific provisions made towards NPAs, unrealised interest on NPAs, bills rediscounted, amounts received in advance from customers, if any etc. Interest on NPAs is transferred to an interest suspense account and not recognised in the Profit and Loss Account until received.

The Bank transfers advances through inter-bank participation with and without risk, which are accounted for in accordance with the RBI guidelines, as follows. In the case of participation with risk, the aggregate amount of participation transferred out of the Bank is reduced from advances; and participations transferred in to the Bank are classified under advances. In the case of participation without risk, the aggregate amount of participation issued by the Bank is classified under borrowings; and where the Bank is participating in, the aggregate amount of participation is shown as due from Banks under advances.

Provisioning: In accordance with RBI guidelines, the Bank has provided general provision on standard assets at levels stipulated by RBI from time to time. In addition, the Bank has a policy for making provisions for standard assets at rates higher than the regulatory minimum, based on evaluation of risk and stress in various sectors.

Provision for Unhedged Foreign Currency Exposure (UFCE) of borrower entities is made in accordance with the guidelines issued by RBI, which requires the Bank to ascertain the amount of UFCE, estimate the extent of likely loss and estimate the riskiness of unhedged position of those entities. The Provision is included under Schedule 5 – Other Liabilities in the Balance Sheet.

Provision for non-performing advances comprising Sub-standard, Doubtful and Loss Assets is made at a minimum in accordance with the RBI guidelines. In addition, specific loan loss provisions in respect of non-performing assets are made based on management's assessment and estimates of the degree of impairment of advances, based on past experience, evaluation of security and other related factors; the nature of product and delinquency levels. Loan loss provisions in respect of non-performing advances are charged to the Profit and Loss Account and included under Provisions and Contingencies. Advances are disclosed, net of provisions in the Balance Sheet.

Provisions made in excess of the Bank's policy for specific loan loss provisions for non-performing assets and regulatory general provisions are categorised as Floating Provision. Creation of Floating Provision is considered by the Bank up to a level approved by the Board of Directors. In accordance with the RBI guidelines, Floating Provisions are utilised up to a level approved by the Board with prior permission of RBI, only for contingencies under extraordinary circumstances for making specific provisions for impaired accounts.

The Bank considers restructured account, if any, as one where the Bank, for economic or legal reasons relating to the borrower's financial difficulty, grants to the borrower concessions that the Bank would not otherwise consider. Restructuring would normally involve modification of terms of the advance / securities, which would generally include, amongst others, alteration of repayment period / repayable amount / the amount of instalments / rate of interest (due to reasons other than competitive reasons). Restructured accounts are classified as such by the Bank only upon approval and implementation of the restructuring package. In respect of loans and advances accounts subjected to restructuring, the accounts are classified as NPA and the account is upgraded to standard only after the specified period i.e. a period of one year after the date when first payment of interest or of principal, whichever is later, falls due, subject to satisfactory performance of the account during the period, in accordance with the extant RBI guidelines in this regard.

Non-performing advances are written-off in accordance with the Bank's policies.

Recoveries from bad debts written-off are recognised in the Profit and Loss Account and included under 'Other Income'.

Recording and Presentation: Provisions created against individual accounts as per RBI guidelines are not netted in the individual account. For presentation in the financial statements, provision created is netted against gross amount of advance. Provision held against an individual account is adjusted against account balance at individual level only at the time of write-off/ settlement of the account.

Provision made against standard assets in accordance with RBI guidelines as above is disclosed separately under Other Liabilities and not netted off against Advances.

Financial Assets sold to Reconstruction Company: In accordance with RBI guidelines on sale of non-performing advances, if the sale is at a price below the net book value (i.e., book value less provisions held), the shortfall is charged to the Profit and Loss Account and if the sale is for a value higher than the net book value, the excess provision is credited to the Profit and Loss Account in the year the amounts are received. Further, such reversal shall be limited to the extent to which cash received exceeds the net book value of the loan at the time of transfer as per RBI guidelines.

3.3. SECURITISATION TRANSACTIONS AND DIRECT ASSIGNMENTS AND TRANSFER OF ASSETS

The Bank transfers its loan receivables both through Direct Assignment route as well as transfers to Special Purpose Vehicles (SPV).

The securitization transactions are without recourse to the Bank. The transferred loans and such securitized receivables are de-recognized as and when these are sold (true sale criteria being fully met) and the consideration has been received by the Bank.

Any profit, loss or premium realised at the time of the sale are accounted for in the accounting period during which the sale is completed in line with RBI Master Direction - Reserve Bank of India (Small Finance Banks – Securitisation Transactions) Directions, 2025 dated November 28, 2025.

The unrealised gains, associated with expected future margin income is recognised in profit and loss account on receipt of cash, after absorbing losses, if any.

As per the RBI Master Direction - Reserve Bank of India (Small Finance Banks – Transfer and Distribution of Credit Risk) Directions, 2025 dated November 28, 2025, any loss or realised gain from sale of loan assets through direct assignment is accounted through profit and loss account on completion of transaction.

Direct Assignment portfolio bought by the Bank are classified as advances. These are carried at acquisition cost unless it is more than the face value, in which case the premium is amortised over the tenor of the loans on a straight line method or effective interest rate method.

3.4. FIXED ASSETS (PROPERTY, PLANT AND EQUIPMENT (PPE) AND DEPRECIATION)

Property, Plant and Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use and initial estimate of decommissioning, restoring and similar liabilities, if any.

Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of the plant and equipment are required to be replaced at intervals, the Bank depreciates them separately based on its specific useful lives. Assets under development as at balance sheet date are shown as Capital Work in Progress. Advance paid towards such development are shown as capital advance.

Depreciation on PPE has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as per the table below, based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support etc.

Asset	Estimated useful life as assessed by the Bank	Estimated useful life specified under Schedule II of Companies Act 2013
Office Equipment	3 Years	5 Years
Furniture and Fixtures	3 Years	10 years
Vehicles	4 Years	8 Years
Automated Teller Machines (ATMs)	7 Years	15 Years
Modems, Routers, switches, servers, network & related IT equipment	5 Years	6 Years
Electrical Fittings	5 Years	10 Years

- Leasehold improvements are depreciated over the primary lease period or over the remaining useful life of the asset, whichever is lower.
- 'Point of Sale' terminals are fully depreciated in the year of purchase

The useful life of an asset class is periodically assessed taking into account various criteria such as changes in technology, changes in business environment, utility and efficacy of an asset class to meet with intended user needs etc. Whenever there is a revision in the estimated useful life of an asset, the unamortised depreciable amount is charged over the revised remaining useful life of the said asset. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the Balance Sheet date and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Profit and Loss Account when the asset is derecognized.

PPE held for sale is valued at lower of their carrying amount and net realizable value. Any write-down is recognized in the Profit and Loss Account.

3.5. INTANGIBLE ASSETS AND AMORTISATION

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets are amortized on a straight line basis over the estimated useful economic life. The Bank uses a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. Software with perpetual license and system development expenditure, if any, is amortised over an estimated economic useful life of 5 years or license period, whichever is lower. Intangible assets under development as at balance sheet date are shown as Capital Work in Progress.

The amortization period and the amortization method are reviewed at least at the Balance Sheet date. If the expected useful life of the asset significantly differs from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Profit and Loss Account when the asset is derecognized.

3.6. IMPAIRMENT OF ASSETS

The carrying values of assets / cash/generating units at the Balance Sheet date are reviewed for impairment, if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Profit and Loss Account.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Profit and Loss Account, to the extent the amount was previously charged to the Profit and Loss Account.

3.7. TRANSACTIONS INVOLVING FOREIGN EXCHANGE

Initial recognition: Transactions in foreign currencies entered into by the Bank are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the Balance Sheet date : Foreign currency monetary items, if any, of the Bank, outstanding at the balance sheet date are restated at the rates prevailing at the year-end as notified by Foreign Exchange Dealers Association of India ('FEDAI'). Non-monetary items of the Bank are carried at historical cost.

Contingent liabilities on account of foreign exchange contracts, currency future contracts, guarantees, letters of credit, acceptances and endorsements are reported at closing rates of exchange notified by FEDAI as at the Balance Sheet date.

Treatment of Exchange differences: Exchange differences arising on settlement/ restatement of foreign currency monetary assets and liabilities of the Bank are recognised as income or expense in the Profit and Loss Account.

Foreign exchange derivative contracts : Derivative transactions comprise foreign exchange contracts, forward rate agreements, swaps and option contracts. The Bank undertakes derivative transactions for market making/trading and hedging transactions on balance sheet assets and liabilities. All market making/trading transactions are marked to market on daily basis and the resultant unrealized gains/losses are recognized in the profit and loss account.

Outstanding forward exchange contracts (including funding swaps which are not revalued) are revalued daily basis on Present Value basis by discounting the forward value till present date.

Premium/discount on Bank book transactions is recognised as interest income/expense and is amortised on a pro-rata basis over the underlying swap period.

Derivatives are classified as assets when the fair value is positive (positive marked to market) or as liabilities when the fair value is negative (negative marked to market).

Notional amounts of derivative transactions comprising of swaps, futures and options are disclosed as off-Balance Sheet exposures.

Pursuant to RBI guidelines, any overdue receivables representing positive mark-to-market value under derivative contracts which remain unpaid for a period of 90 days or more from the specified due date for payment is a Non-Performing Asset. The mark-to-market unrealised gains on all derivative contracts already taken in the profit and loss account with the same counterparties are reversed and held in Suspended Account - Crystallised Receivable.

3.8. REVENUE RECOGNITION

Interest Income on loans, advances and investments (including deposits with Banks and other institutions) are recognised on accrual basis. Income on Non-performing Assets is recognized upon realisation as per RBI norms.

Fee and Commission income are recognised as income when due, except in cases where the Bank is uncertain of its ultimate collection.

Bank Guarantee commission and commission on letter of credit, and locker rent are recognised on a straight- line basis over the period of contract. Interest Income on deposits / investments is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Income on discounted instruments is recognised over the tenor of the instruments on a straight line basis.

Dividend income, if any, is accounted for, when the right to receive the same is established.

Amounts recovered against debts written off in earlier years and provisions no longer considered necessary in the context of the current status of the borrower are recognized in the Profit and Loss Account.

3.9. EMPLOYEE BENEFITS

Employee benefits include provident fund, National Pension Scheme, gratuity and compensated absences.

Defined contribution plan:

Provident Fund (PF) : The Bank's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made when the services are rendered by the employees.

National Pension Scheme (NPS) : In respect of employees who opt for contribution to the NPS, the Bank contributes certain percentage of the basic salary of employees to the aforesaid scheme, a defined contribution plan, which is managed and administered by pension fund management companies.

The Bank has no liability other than its contribution, and recognises such contributions as an expense in the year incurred.

Defined Benefits Plan : For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the Profit and Loss Account in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested while otherwise, it is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Long term Employee benefits : The Bank accrues the liability for compensated absences based on the actuarial valuation as at the Balance Sheet date conducted by an independent actuary which includes assumptions about demographics, early retirement, salary increases, interest rates and leave utilisation. The net present value of the Banks' obligation is determined using the Projected Unit Credit Method as at the Balance Sheet date. Actuarial gains / losses are recognised in the Profit and Loss Account in the year in which they arise.

Other Employee benefits : The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service.

These benefits include performance incentive.

Employee Stock Compensation Cost : Employee stock compensation cost for stock options is recognised as per the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India and Guidelines issued by the Reserve Bank of India on Compensation of Whole-Time Directors /Chief Executive Officers / Material Risk Takers and Control Function Staff (WTD/CEO/MRTs).

The Bank follows intrinsic value method to account for its stock based employee compensation plans for all options granted till the accounting period ending March 31, 2021.

For all options granted after March 31, 2021, the Bank follows the fair value method and recognizes the fair value of such options computed using the Black-Scholes model, as compensation expense over the vesting period, as per RBI Guidelines dated August 30, 2021. The compensation cost is amortised on a straight-line basis over the vesting period of the option with a corresponding credit to Share Based Reserve. On exercise of the stock options, corresponding balance in the Share Based Reserve is transferred to Share Premium. In respect of the options which expire unexercised, the balance standing to the credit of Share Based Reserve is transferred to the Balance in Surplus in profit and loss account.

3.10. LEASES

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Profit and Loss Account on a straight-line basis over the lease term.

3.11. ACCOUNTING OF PRIORITY SECTOR LENDING CERTIFICATE (PSLC)

The Bank enters into transactions for the sale or purchase of Priority Sector Lending Certificates (PSLCs). In the case of a sale transaction, the Bank sells the fulfillment of priority sector obligation and in the case of a purchase transaction the Bank buys the fulfillment of priority sector obligation through the RBI trading platform. There is no transfer of risks or loan assets. The fee received for the sale of PSLCs is recorded as Other Income and the fee paid for purchase of the PSLCs is recorded as Other Expenditure in Profit and Loss Account. These are amortised over the period of the Certificate.

3.12. TAXES ON INCOME

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable Income tax laws.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Bank has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realizability.

At each reporting date, the Bank re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

3.13. EARNINGS PER SHARE

Basic earnings per share is computed by dividing the profit after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

3.14. PROPOSED DIVIDEND

Dividend proposed/ declared after the balance sheet date is accounted in the books of the Bank in the year in which the dividend is approved by the shareholders. Proposed dividend or dividend declared after the balance sheet date are disclosed in the notes to accounts. However, the Bank reckons proposed dividend in determining the capital fund in computing the capital adequacy ratio.

3.15. SEGMENT REPORTING

The disclosure relating to segment information is in accordance with AS-17, Segment Reporting and guidelines issued by RBI.

In accordance with guidelines issued by RBI, the Bank has adopted segment reporting as under:

Treasury includes all investment portfolios, Profit/Loss on sale of investments, Profit/Loss on foreign exchange transaction, equities, income and expenses from derivatives and money market operations. The expenses of this segment consist of interest expenses on funds borrowed from external sources as well as internal sources and depreciation/amortisation of premium on HTM category investments.

Corporate / Wholesale Banking includes all advances to trusts, partnership firms, companies and statutory bodies, which are not included under 'Retail Banking'.

Retail Banking includes lending to and deposits, from retail customers and identified earnings and expenses of the segment.

Other Banking Operations includes all other operations not covered under Treasury, Corporate / Wholesale Banking and Retail Banking.

Unallocated includes Capital and reserves and other un-allocable assets, liabilities, income and expenditure.

Geographic segment: Bank operations are predominantly confined within one geographical segment (India) & accordingly, this is considered as the only secondary segment.

3.16. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognized when the Bank has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Bank or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Bank does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

3.17. CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprises of Cash in Hand and Balances with RBI and Balances with Banks and Money at Call and Short Notice. The same item are considered as cash and cash equivalents in preparation of Cash Flow Statement.

3.18. SHORT SALE TRANSACTIONS

In respect of the short sale transactions in Central Government dated securities, the short position is covered by outright purchase of an equivalent amount of the same security within a maximum period of three months including the day of trade. The short position is reflected as the amount received on sale in a separate account and is classified under 'Other Liabilities'. The short position is marked to market and loss, if any, is charged to the Profit and Loss account, while gain, if any, is not recognised. Profit or loss on settlement of the short position is recognised in the Profit and Loss account.

3.19. REWARD POINTS

The Bank runs a loyalty program, which seeks to recognize and reward customers based on their relationship with the Bank. Under the program, eligible customers are granted loyalty points redeemable in future, subject to certain conditions. The Bank estimates the probable redemption of such loyalty/reward points using an actuarial method at the Balance Sheet date by employing an independent actuary. Provision for the said reward points is then made based on the actuarial valuation report as furnished by the said independent actuary.

3.20. SHARE ISSUE EXPENSES

Share issue expenses are adjusted from Share Premium Account in terms of Section 52 of the Companies Act, 2013.

3.21. CORPORATE SOCIAL RESPONSIBILITY

Expenditure towards corporate social responsibility, in accordance with Companies Act, 2013, is recognised in the Profit and Loss Account.

SCHEDULE 18 - NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

1b) Draw down from Reserves:
The Bank has not drawn down any amount from its opening reserves during the year ended March 31, 2026 and March 31, 2025.

1c) Appropriations to reserve:
(i) Statutory reserve : As mandated by the Banking Regulation Act, 1949, all banking companies incorporated in India shall create a reserve fund, out of the balance of profit of each year as disclosed in the profit and loss account and before any dividend is declared and transfer a sum equivalent to not less than twenty five per cent of such profit. The Bank has transferred ₹ 25.77 Crore (Previous year ₹ 36.76 Crore) to Statutory Reserve for the year.

(ii) Capital Reserve : During the year, the Bank had appropriated ₹ 37.30 Crore (Previous Year ₹ 12.31 Crore), net of taxes and transfer to statutory reserve, to the Capital Reserve, being the gain on sale of HTM Investments in accordance with RBI guidelines. As per paragraph 53 of Reserve Bank of India (Small Finance Banks – Classification, Valuation, and Operation of Investment Portfolio) Directions, 2025 dated November 28, 2025, the Bank transferred an amount of ₹ 0.17 Crore (Previous year ₹ Nil) from AFS - Reserve to Capital Reserve.

(iii) Special reserve : As per the provisions under Section 36(1)(viii) of Income Tax Act, 1961, the specified entity is allowed the deduction in respect of any special reserve created and maintained by it, i.e. an amount not exceeding twenty per cent of the profits derived from eligible business computed under the head :Profits and gains of business or profession: (before making any deduction under this clause). This would be applicable till the aggregate of the amounts carried to such reserve account from time to time exceeds twice the amount of the paid up share capital (excluding the amounts capitalized from reserves) of the entity. During the year, the Bank has transferred an amount of ₹ 6.88 Crore (Previous year ₹ 7.24 Crore) to Special Reserve. There is no drawdown from this reserve during FY 2025-26 and FY 2024-25.

(iv) Investment Reserve and Revenue Reserve : During the current year, the Bank has not transferred any amount to Revenue Reserves.

During the previous year ended March 31, 2025, the Bank has implemented the revised RBI norms for the classification, valuation and operation of investment portfolio, which became applicable from April 01, 2024. In accordance with the revised RBI norms and the Bank's Board approved policy, the Bank has classified its investment portfolio as on April 01, 2024 under the categories of held to maturity (HTM), available for sale (AFS) and fair value through profit and loss (FVTPL) with held for trading (HFT) as a sub- category of FVTPL, and from that date, measures and values the investment portfolio under the revised framework.

Consequently, the Bank has accounted net transition valuation gain of ₹ 2.66 Crore (net of tax) in Revenue Reserve, resulting into net positive impact on network of the Bank on transition. The Bank has also transferred balance in Investment Reserve amounting to ₹ 4.08 Crore on the date of the transition to Revenue Reserve in compliance with these directions.

(v) Investment Fluctuation Reserve : During the FY 2025-26, the bank has apportioned ₹ Nil (Previous year : ₹ 20.00 Crore) to Investment Fluctuation Reserve, based on the value of investments in FVTPL (including HFT) and AFS category, to protect against future increase in yield, in accordance with RBI guidelines.

(vi) Declaration of Dividends : Board of Directors has not recommended any dividend for Financial Year 2025-26 & Financial Year 2024-25.

Qualitative disclosure around LCR : The Liquidity Coverage Ratio (LCR) is a global minimum standard for bank liquidity. It aims to ensure that bank has a adequate stock of unencumbered high-quality liquid assets (HQLA) that can be converted into cash immediately to meet its liquidity needs for a 30 calendar day time horizon under stress scenario. The LCR is calculated by dividing the amount of high quality liquid unencumbered assets (HQLA) by the estimated net outflows over 30 calendar day period. The net cash outflows are calculated by applying RBI prescribed outflow factors to the various categories of liabilities (deposits, unsecured and secured wholesale borrowings), as well as to undrawn commitments and derivatives-related exposures, after netting for cash inflows from assets maturing within 30 days. Liquidity management of the Bank is undertaken by the Treasury department under the supervision of the Asset Liability Management Committee (ALCO) in accordance with the Board approved policies and ALCO approved funding plans. The mandated regulatory threshold, with appropriate cushion to ensure maintenance of adequate liquidity buffers is as per the board approved ALM policy of the Bank. Risk Management Department computes the LCR and monitors the same as per the Operating guidelines for small finance banks. The Bank has been submitting LCR reports to RBI since December 2016. Currently the Liquidity Coverage Ratio is significantly higher than minimum regulatory threshold. As part of its liquidity management strategy, the Bank invests in Level I assets thus ensuring comfortable level of HQLA at all times to address any kind of liquidity stress. The Bank follows the criteria laid down by the RBI for the calculation of High Quality Liquid Assets (HQLA), gross outflows and inflows within the next 30-days period. HQLA predominantly comprises of Government securities viz. Treasury Bills, Central and State Government securities. The Bank is primarily funded through long term borrowings viz. Refinances & Customer Deposits. The Risk Management Department measures and monitors the liquidity profile of the Bank with reference to the Board approved limits on a static as well as on a dynamic basis supplemented by monitoring of key liquidity parameters. The Bank assesses the impact on short term liquidity covering business projections under normal as well as varying market conditions. The LCR reports along with projections are placed before the Bank's ALCO for periodic review and guidance of the committee.

g) **Unhedged foreign currency exposure** : The Bank monitors the Unhedged Foreign Currency Exposure (UFCE) of its borrowers in accordance with the Reserve Bank of India's Credit Risk Management guidelines on UFCE, as applicable to Small Finance Banks and as amended from time to time.

In line with regulatory requirements, the Bank has established a robust framework for the identification, measurement, and ongoing monitoring of UFCE as an integral part of its overall credit risk management process. The Bank obtains periodic information on foreign currency exposures from borrowers, after excluding fully hedged exposures and natural hedges, wherever applicable. The risks arising from UFCE are factored into the internal credit rating framework and the credit appraisal and approval process.

The Bank assesses the potential loss arising from UFCE by applying exchange rate volatility factors, based on historical data, to the unhedged foreign currency exposure. The borrower's capacity to absorb such losses is evaluated by comparing the estimated potential loss with earnings before interest and depreciation (EBID). Based on this assessment, exposures are classified into prescribed risk buckets, which determine the applicable incremental provisioning and capital requirements, in line with RBI guidelines, as detailed below:

Potential Loss / EBID (per cent)	Incremental Provisioning Requirement (basis points)	Incremental Capital Requirement
Upto 15 percent	-	-
More than 15 percent and upto 30 percent	20bps	-
More than 30 percent and upto 50 percent	40bps	-
More than 50 percent and upto 75 percent	60bps	-

13 DISCLOSURE ON REMUNERATION

a) Qualitative disclosures

(a) Information relating to the composition and mandate of the Nomination and Remuneration Committee.

The Nomination and Remuneration Committee is chaired by an Independent Director and comprises of four (4) other Independent Directors. The functions of the committee include: recommendation of appointment of Directors to the board, evaluation of performance of the Directors, approval of the policy for remuneration payable to Directors, employees, including senior management and key management personnel, framing guidelines for the Employee Stock Option Scheme (ESOP Scheme) and deciding on the grant of stock options to the employees and Whole-Time Director/s of the Bank.

(b) Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy:

Remuneration Policy of the Bank covers remuneration payable for directors and employees of the Bank and all aspects of the compensation structure such as fixed pay, perquisites, bonus, guaranteed pay, severance package, stock, pension plan and gratuity.

The Bank believes in a sound compensation practice that ensures effective governance of compensation, alignment of compensation with prudent risk taking and effective supervisory oversight and stakeholder engagement. This policy is framed in accordance with the guidelines laid down by Reserve Bank of India (RBI) vide their Circular Reference no DOR. Appt. BC. No. 23/29.67.001/ 2019-20 dated November 4, 2019 and replaced with RBI Master Directions RBI/DoR/2025-26/204 DoR.SOG(SPE).REC.No.123/13-04-001/2025-26 dated November 28, 2025 and as amended thereafter. The remuneration payable to Managing Director (:MD:)/Chief Executive Officer (:CEO:) and Executive Director (ED) shall be based on the scope and responsibility that goes with such positions, shall be comparable to the compensation of similar profiles in similar organizations and would be performance linked. From time to time, the NRC may fix a maximum ceiling on the fixed/variable component of compensation, subject to the approval of Reserve Bank of India and shareholders.

The Non-Executive Directors (:NED:) including Independent Directors of the Bank shall be paid remuneration as a percentage of the net profits of the Bank for the financial year as may be fixed by the Board from time to time, calculated as per the provisions of the Companies Act, 2013 and subject to the limits fixed by the Reserve Bank of India, from time to time.

Further, within the above ceiling, the remuneration payable to the Chairman of the Board upto two times the amount payable to other Non-Executive Directors and Independent Directors and further subject to approval of RBI and the remuneration payable to the Chairman of the Audit Committee upto 1.5 times the amount payable to other Non-Executive Directors and Independent Directors.

NEDs are to be paid sitting fee for each meeting of the Board/ Committees of the Board attended by them, as may be approved by the Board pursuant to provisions of Section 197 of the Companies Act, 2013 read with Section 35B (1) of the Banking Regulation Act 1949. NEDs including Independent Directors shall be reimbursed any out of pocket expenses incurred by them while performing duties for the Bank.

For the other categories of staff, the compensation is structured taking into account all relevant factors such as the level of the position, roles and responsibilities and the prevailing compensation structure in the industry for the similar role.

(c) Description of the ways in which current and future risks are taken into account in the remuneration processes.

The Board of Directors through the Nomination and Remuneration Committee ("NRC") is responsible for formulating and making the necessary amendments to the Remuneration Policy for the Directors, Key Managerial Persons ("KMP") and Senior Executives of the Bank from time to time. The NRC considers different aspects like risk-return alignment, cost to income ratio and the like in framing the remuneration policy and practice.

Performance parameters specified for the MD/ CEO also includes risk and control considerations such as Asset quality, implementation of guidelines on Compliance Risk Assessment, reviewing and enhancing controls of the operating risk processes of the Bank.

The variable remuneration payable to MD/CEO & other Material Risk Takers are subject to malus and clawback clauses to address issues such as losses in subsequent years due to acts in a given performance year, gross negligence, serious lapses in credit underwriting process, serious violations in AML / KYC, frauds and misconducts.

Further, the KRA's for Senior Executives of the Bank are clearly defined with adequate weightage given to Risk, Compliance, Credit & Asset Quality to ensure risks are assessed and mitigated. KRA's of Executives working in control functions like Risk & Compliance are defined independent of business results and no weightage is given for achievement of business parameters/ targets to ensure independent evaluation.

(d) Description of ways in which Bank seeks to link performance during a performance measurement period with levels of remuneration

The Bank follows Annual Performance Review (12 months period) to link performance. Remuneration is fixed based on the grade and merit rating for all the employees. Individual performances are assessed in line with business or deliveries of the Key Result Areas (KRA), top priorities of business, budgets, risk alignment etc. The Performance Appraisal system assigns a rating based on the achievement or otherwise of the KRAs. The change in remuneration is largely dependent on the rating assigned.

(e) A discussion of the bank's policy on deferral and vesting of variable remuneration and a discussion of the Bank's policy and criteria for adjusting deferred remuneration before vesting and after vesting.

The Bank has ensured the remuneration for Material Risk Takers in line with the RBI circular dated November 04, 2019 and repalced with RBI Master Directions RBI/DoR/2025-26/204 DoR.SOG(SPE).REC.No.123/13-04-001/2025-26 dated November 28, 2025 and as amended thereafter. Accordingly, the variable pay of identified MRTs is determined between 100% to 300% of fixed pay. This variable pay is further divided into cash and ESOPs. Both the cash and ESOPs of the said MRTs is to be deferred over a period of three year in line with the risk taken and as per relevant RBI approval received from time to time. Each such MRT has performance measures aligned to risk measures and the vesting of variable pay is also pro-rated till the end of the deferral period.

(f) Description of the different forms of variable remuneration (i.e. cash, shares, ESOPs and other forms) that the Bank utilizes and the rationale for using these different forms.

Employees of the Bank are eligible for variable pay in terms of both cash and ESOPs. At field level the variable pay is linked to defined performance targets. Other roles may be given variable pay based on their performance ratings. The variable pay amount varies depending on both the role of the individual as well as his/her performance levels. For Senior Executives of the Bank due consideration is also given to the overall performance of the Bank & respective Division / Function apart from individual performance ratings.

Employees above defined grade are eligible for Employee Stock Options issued by the Bank as determined by the Nomination and Remuneration Committee of the Bank. These options are granted annually based on performance ratings and role of the individual. Junior employees in cases of consistent exemplary performance are also granted options being part of High Achievers Club.

In very select instances, employees are offered options over a four year period, with a quarter of the options vesting every year. The vesting of the options are dependent on continuity and performance of the said individual.

A variable component may also be made available for specific employees as agreed and included as a part of their respective compensation structure. Variable pay for MRTs have been explained in (e) earlier.

As on the reporting date, the Bank does not have any form of variable remuneration other than as stated above. Thus, the various types of Variable Pay is aligned over both Short and Long term periods.

This Offer is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations. The Offer is being made through the Book Building Process and is in compliance with Regulation 6(1) of the SEBI ICDR Regulations wherein in terms of Regulation 32(1) of the SEBI ICDR Regulations, not more than 50% of the Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs", and such portion, the "QIB Portion") provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations ("Anchor Investor Portion"). 40% of such Anchor Investor Portion shall be reserved in the following manner (i) 33.33% of the Anchor Investor Portion shall be reserved for domestic Mutual Funds; and (ii) 6.67% of the Anchor Investor Portion shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. Any under-subscription in the Life Insurance Companies and Pension Funds category specified in (ii) above may be allocated to domestic Mutual Funds, in accordance with SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the remaining QIB Portion ("Net QIB Portion"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors) including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the QIB Portion, the balance Equity Shares available for allocation in the Mutual Funds Portion will be added to the remaining QIB Portion for proportionate allocation to all QIBs. Further, not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders out of which (a) one-third of such portion shall be reserved for applicants with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders and not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders ("RIBs") in accordance with the SEBI ICDR Regulations ("Retail Portion"), subject to valid Bids being received from them at or above the Offer Price. Further all potential Bidders (except Anchor Investors) are required to mandatorily participate in the Offer through the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective bank accounts (including UPI ID for UPI Bidders using UPI Mechanism) (as defined hereinafter) in which the Bid amount will be blocked by the SCSBs or the Sponsor Banks, as applicable, to participate in the Offer. Anchor Investors are not permitted to participate in the Anchor Investor Portion of the Offer through the ASBA process. For details, see "Offer Procedure" on page 594 of the DRHP.

This public announcement is made in compliance with the provisions of Regulation 26(2) of the SEBI ICDR Regulations to inform the public that our Company is proposing to undertake, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations, an initial public offer of its Equity Shares pursuant to the Offer and has filed the DRHP dated September 24, 2026 along with the draft abridged prospectus dated September 24, 2026 with Securities and Exchange Board of India ("SEBI") and the Stock Exchanges on September 25, 2026.

Pursuant to Regulation 26(1) of the SEBI ICDR Regulations, the DRHP filed with SEBI shall be made available to the public for comments, if any, for a period of at least 21 days, from the date of publication of this public announcement by hosting it along with the Draft Abridged Prospectus dated September 24, 2026 on the website of SEBI at www.sebi.gov.in, on the websites of the Stock Exchanges i.e., BSE at www.bseindia.com, NSE at www.nseindia.com where the Equity Shares are proposed to be listed, the websites of the BRLMs, i.e. Fedex Securities Private Limited at www.fedsec.in and Neomile Capital Advisors Private Limited at www.neomilecapital.com and the website of our Company at www.bandhanglobal.com. Our Company hereby invites the public to give their comments on the DRHP filed with SEBI and the Stock Exchanges, with respect to disclosures made in the DRHP. The members of public are requested to send a copy of their comments to SEBI, to the Company Secretary and Compliance Officer of our Company and/or the BRLMs at their respective addresses mentioned herein below. All comments must be received by SEBI and/or our Company and/or the BRLMs and/or the Company Secretary and Compliance Officer of our Company at their respective addresses mentioned herein below in relation to the Offer on or before 5:00 p.m. on the 21st day from the aforesaid date of publication of this public announcement in accordance with Regulation 26(2) of SEBI ICDR Regulations.

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares offered in the Offer have not been recommended or approved by the SEBI, nor does the SEBI guarantee the accuracy or adequacy of the contents of the DRHP. Specific attention of the investors is invited to "Risk Factors" on page 28 of the DRHP.

Any decision to invest in the Equity Shares described in the DRHP may only be made after the Red Herring Prospectus has been filed with the RoC and must be made solely on the basis of such Red Herring Prospectus, as there may be material changes in the Red Herring Prospectus from the DRHP.

The Equity Shares, when offered through the Red Herring Prospectus, are proposed to be listed on the main board of the Stock Exchanges.

For details of the main objects of our Company as contained in its memorandum of association, see "History and Certain Corporate Matters" on page 354 of the DRHP.

The liability of the members of our Company is limited. For details of the share capital, capital structure of our Company and the names of the signatories to the memorandum of association and the number of shares subscribed by them see "Capital Structure" on page 124 of the DRHP.

Important Notes:

1. This sale notice shall be read with the ASPM containing details of the asset, declarations, affidavits, and undertakings for eligibility under Section 29A of the IBC, and the 'General and Technical Terms and Conditions of the E-Auction Sale', available on BAAANKNET at <https://ibbi.banknet.com/terms-conditions> against the above Asset and Auction ID, or on the website of the Corporate Debtor at www.jetairways.com.
2. Prospective bidders shall submit the requisite eligibility documents and the EMD solely and strictly through the E-Auction Platform within the stipulated timelines, in accordance with Clause 4 (Eligibility Documents) of the respective ASPMs, and not to the Liquidator.
3. For any queries regarding the E-Auction Platform and submission of documents and EMD, prospective bidders are requested to contact BAAANKNET at +91 8291220220 and support.baaanknet@sbainstance.com.
4. For any queries regarding the e-auction, please contact the authorised representative of the Liquidator, Mr. Darshi Mashru (+91 9594955294), at jetliquidation@in.ey.com and liquidation.jet@gmail.com, with the subject line "Jet Airways (India) Limited Asset Sale - Pali Land". Please note that no documents in relation to eligibility or bids are to be submitted to the Liquidator, his representatives, or his advisors.
5. It is clarified that this notice does not create any binding obligation on the part of the undersigned or Jet Airways (India) Limited (in Liquidation) to effectuate the sale. Any decision taken by the undersigned in consultation with CoC shall be final and binding on all the prospective bidders.
6. It is clarified that the details of the asset set out herein and in the ASPM are provided strictly for general reference purposes only. The Indemnified Parties (as defined in the respective ASPMs) expressly disclaim and shall have no liability or responsibility whatsoever for any deficiency/inaccuracy/discrepancy/misstatement/omission/variation/shortfall, or error of any kind in the description or condition of the assets, whether or not such discrepancy is discovered before, during, or after the completion of the e-auctions. The sale of the assets is conducted strictly on an 'as is where is', 'as is what is', 'as is how is', and 'without recourse' basis, and without any representation, warranty, or indemnity.
7. Payment of the Final Sale Consideration is subject to the timelines, interest provisions, and forfeiture conditions set out in Clauses 15 (Payment of Final Sale Consideration) and 16 (Completion of Sale) of the ASPM.
8. The Liquidator, in accordance with the advice of the Committee of Creditors of the Corporate Debtor, reserves the right to cancel or abort the e-auction process at any stage without assigning any reason whatsoever, save and except as otherwise provided under applicable law.

INITIAL PUBLIC OFFER OF EQUITY SHARES ON SME PLATFORM OF BSE LIMITED (BSE) IN COMPLIANCE WITH CHAPTER IX OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018
BRIEF DESCRIPTION OF BUSINESS

Our Company is engaged in providing technology-enabled learning and skill development solutions for K-12 students in the areas of Robotics, Artificial Intelligence ("AI"), Coding, Electronics and STEM (Science, Technology, Engineering and Mathematics). We primarily provide these solutions to schools and educational institutions through educational laboratory setup projects, subscription-based learning programmes and other educational services. Our offerings are supported by our proprietary digital platforms, educational kits, curriculum, teacher training and technical support, enabling educational institutions to deliver application-based and experiential learning. Through our integrated approach, we combine laboratory infrastructure, practical learning resources and digital learning tools to support hands-on learning and help students develop scientific aptitude, logical reasoning and technical skills. Our business model is built on a two-tier revenue architecture. Educational Laboratory Setup Projects establish our initial engagement with an institution through the design, supply and installation of technology-enabled learning infrastructure, while our Subscription Services and Other Educational Services are designed to convert this initial engagement into a sustained, recurring relationship. For further details, please refer to "Our Business" on page 120.

RISKS TO INVESTORS

Summary description of key risk factors based on materiality

- Our business is working capital intensive. If we are unable to generate sufficient cash flows to allow us to make required payments, there may be an adverse effect on our results of operations.
- Our business is dependent on schools, institutions and our channel partners for student enrolments. Any inability to maintain or expand such relationships with schools and institutions may adversely affect our business and results of operations.
- A significant portion of our revenue from operations is derived from certain geographic regions, particularly Maharashtra, and any adverse developments affecting such regions may adversely affect our business, results of operations and financial condition.
- Changes in education policies, government regulations or regulatory requirements applicable to the education sector may adversely affect our business, operations, financial condition and results of operations.
- We do not have binding agreements with our customers. If they decide to source their requirements elsewhere, our business and operational results could be negatively impacted.
- We depend on a limited number of customers for a significant portion of our revenue from operations. Any loss of, or reduction in business from, these customers could adversely affect our business, financial condition, cash flows and results of operations.
- We depend on a limited number of suppliers for equipment, electronic components and other materials required for our business operations. Any interruption in the availability or timely supply of such materials may adversely affect our business, operations and results of operations.
- Delays in receipt of payments from our customers may adversely affect our liquidity, working capital requirements, cash flows and results of operations.
- We may be unable to sufficiently obtain, maintain, protect, or enforce our intellectual property and other proprietary rights.
- The Company does not own the properties from which it operates. In the event the Company is unable to renew its existing lease arrangements or if such renewals are executed on terms that are not favourable, it may result in disruption to operations or require relocation of its premises. Any such disruption or relocation may lead to additional costs and may have an impact on the Company's business, results of operations, cash flows and financial condition.

PUBLIC ANNOUNCEMENT

ANMOL INDUSTRIES LIMITED

Our Company was originally incorporated as 'Bansal Biscuits Private Limited', a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation dated November 19, 2009, issued by Deputy Registrar of Companies, West Bengal. Considering that the Company was engaged in the manufacturing activities of bakery products in the brand name of 'Anmol', subsequently, the name of our Company was changed to 'Anmol Industries Private Limited' pursuant to the Board resolution dated May 3, 2016 and a special resolution passed by our Shareholders at the EGM held on May 13, 2016, further to which a fresh certificate of incorporation dated May 23, 2016, was issued by the Registrar of Companies, Kolkata at West Bengal ("RoC"). Pursuant to a scheme of arrangement approved by the National Company Law Tribunal, Kolkata Bench through its order dated March 3, 2017, Anmol Biscuits Limited ("ABL"), our erstwhile holding company and Anmol Bakers Private Limited ("ABPL"), (a subsidiary of ABL), were merged into our Company and the Corporate Management & Treasury Division ("CMT Division") of our Company was transferred to Anant Udyog Private Limited ("AUPL"). For further details of the Scheme of Arrangement 2017 see "History and Certain Corporate Matters - Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamations or any revaluation of assets, in the last 10 years" on page 239 of the Draft Red Herring Prospectus. Thereafter, our Company was converted to a public limited company, pursuant to a resolution passed by our Board on March 23, 2017, and a resolution passed by our Shareholders at the EGM, held on March 25, 2017, which resulted in the name change to 'Anmol Industries Limited'. The RoC issued a fresh certificate of incorporation dated March 30, 2017. Subsequently, pursuant to a scheme of arrangement approved by the National Company Law Tribunal, Kolkata Bench through its order passed on November 7, 2025, Anmol Projects Private Limited, Monarch Shelter Private Limited, and our Company were merged. For further details in relation to change in name and Registered Office of our Company, see "History and Certain Corporate Matters" beginning on page 235 of the Draft Red Herring Prospectus dated September 25, 2026 (the "DRHP").

This Offer is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations. The Offer is being made through the Book Building Process and is in compliance with Regulation 6(1) of the SEBI ICDR Regulations wherein in terms of Regulation 32(1) of the SEBI ICDR Regulations, not more than 50% of the Net Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs"), and such portion, the "QIB Portion" provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations ("Anchor Investor Portion"), of which 40% of such Anchor Investor Portion shall be reserved for allocation in the following manner (i) 33.33% shall be reserved for allocation to domestic Mutual Funds; and (ii) 6.67% shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies and Pension Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in (ii) above, the allocation may be made to domestic Mutual Funds, at or above the Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors) including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Bidders ("Non-Institutional Portion") wherein (a) one-third of such portion shall be reserved for applicants with application size of more than ₹20.20 million and up to ₹1.00 million; and (b) two-third of such portion shall be reserved for applicants with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders, subject to valid Bids being received from them at or above the Offer Price and not less than 35% of the Net Offer shall be available for allocation to Retail Individual Bidders ("RIBs") in accordance with the SEBI ICDR Regulations ("Retail Portion"), subject to valid Bids being received from them at or above the Offer Price. Further, Equity Shares will be allocated on a proportionate basis to Eligible Employees applying under the Employee Reservation Portion, subject to valid Bids received from them at or above the Offer Price (net of Employee Discount, if any). Further all potential Bidders (except Anchor Investors) are required to mandatorily participate in the Offer through the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective bank accounts (including UPI ID for UPI Bidders using UPI Mechanism) in which case the Bid amount will be blocked by the Self-Certified Syndicate Banks ("SCSBs") or the Sponsor Banks, under the UPI mechanism as applicable, to participate in the Offer. Anchor Investors are not permitted to participate in the Anchor Investor Portion of the Offer through the ASBA process. For details, see "Offer Procedure" on page 468 of the DRHP.

This public announcement is made in compliance with the provisions of Regulation 26(2) of the SEBI ICDR Regulations to inform the public that our Company is proposing to undertake, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations to undertake an initial public offering of its Equity Shares pursuant to the Offer and has filed the DRHP and Draft Abridged Prospectus dated September 25, 2026 with Securities and Exchange Board of India ("SEBI") and the Stock Exchanges.

Pursuant to Regulation 26(1) of the SEBI ICDR Regulations, the DRHP and the Draft Abridged Prospectus filed with SEBI and Stock Exchanges shall be made available to the public for comments, if any, for period of at least 21 days, from the date of publication of this public announcement by hosting it on the website of SEBI at www.sebi.gov.in, on the websites of the Stock Exchanges i.e., BSE at www.bseindia.com, NSE at www.nseindia.com, respectively where the Equity Shares are proposed to be listed, the websites of the BRLMs, i.e., Intensive Fiscal Services Private Limited at www.intensivefiscal.com, ICICI Securities Limited at www.icicisecurities.com, IIFL Capital Services Limited (formerly known as IIFL Securities Limited) at www.iiflcapital.com, respectively and on the website of our Company at www.anmolindustries.com. Our Company hereby invites the public to give their comments on the DRHP filed with SEBI and the Stock Exchanges with respect to disclosures made in the DRHP. The members of public are requested to send a copy of the comments to SEBI, to the Company Secretary and Compliance Officer of our Company and/or the BRLMs at their respective addresses mentioned herein below. All comments must be received by SEBI and/or our Company and/or the BRLMs and/or the Company Secretary and Compliance Officer of our Company at their respective addresses mentioned herein below in relation to the Offer on or before 5:00 p.m. on the 21st day from the aforesaid date of publication of this public announcement in accordance with Regulation 26(2) of SEBI ICDR Regulations.

Investments in equity and equity-related securities involve a degree of risk and bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares have not been recommended or approved by SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of the DRHP. Specific attention of the investors is invited to "Risk Factors" on page 20 of the DRHP.

Any decision to invest in the Equity Shares described in the DRHP may only be made after the Red Herring Prospectus ("RHP") has been filed with the RoC and must be made solely on the basis of such RHP as there may be material changes in the RHP from the DRHP.

The Equity Shares, when offered through the RHP, are proposed to be listed on the Stock Exchanges.

For details of the main objects of the Company as contained in its memorandum of association, see "History and Certain Corporate Matters" on page 235 of the DRHP.

The liability of the members of the Company is limited. For details of the share capital, capital structure of the Company and the names of the signatories to the memorandum of association and the number of shares subscribed by them see "Capital Structure" on page 86 of the DRHP.

In case of any revision in the Price Band, the Bid/Offer Period shall be extended for at least three additional Working Days after such revision in the Price Band, subject to the Bid/ Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company in consultation with the BRLM, for reasons to be recorded in writing, may extend the Bid/Offer Period for a minimum of one Working Day, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band, and the revised Bid/Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a public notice and also by indicating the change on the website of the BRLM and at the terminals of the Syndicate Members and by intimation to the Designated Intermediaries and Sponsor Banks, as applicable.

The Offer is being made in terms of Rule 19(2)(b) of the SCRR, as amended, read with Regulation 31 of the SEBI ICDR Regulations. The Offer is being made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations, wherein in terms of Regulation 32(1) of the SEBI ICDR Regulations not more than 50.00% of the Net Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs") (the "QIB Category"), provided that our Company, in consultation with the BRLM, may allocate up to 60.00% of the QIB Category to Anchor Investors on a discretionary basis (the "Anchor Investor Portion"), of which 40.00% shall be reserved in the following manner: (i) 33.33% shall be reserved for domestic Mutual Funds, and (ii) 6.67% shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds and Life Insurance Companies and Pension Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion reserved for Life Insurance Companies and Pension Funds, the balance Equity Shares shall be available for allocation to domestic Mutual Funds. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Category (the "Net QIB Category"). Further, 5.00% of the Net QIB Category shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Category shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5.00% of the Net QIB Category, the balance Equity Shares available for allocation in the Mutual Fund Portion (defined hereinafter) will be added to the remaining QIB Category for proportionate allocation to QIBs. Further, not less than 15.00% of the Net Offer shall be available for allocation to Non-Institutional Investors ("NII") ("Non-Institutional Category"), of which one-third of the Non-Institutional Category shall be available for allocation to Bidders with a Bid size of more than ₹200,000 and up to ₹1,000,000 and two-thirds of the Non-Institutional Category shall be available for allocation to Bidders with a Bid size of more than ₹1,000,000 and under-subscription in either of these two sub-categories of the Non-Institutional Category may be allocated to Bidders in the other sub-category of the Non-Institutional Category in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. Further, not less than 35.00% of the Net Offer shall be available for allocation to Retail Individual Investors ("RIIs") ("Retail Category"), in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer Price. Further, Equity Shares will be allocated on a proportionate basis to Eligible Employees applying under the Employee Reservation Portion, subject to valid Bids received from them at or above the Offer Price. All Bidders (except Anchor Investors) shall mandatorily participate in this Offer only through the Application Supported by Blocked Amount ("ASBA") process and shall provide details of their respective bank account (including UPI ID in case of UPI Bidders (defined hereinafter)) in which the Bid Amount will be blocked by the Self Certified Syndicate Banks ("SCSBs") or the Sponsor Banks, as the case may be. Anchor Investors are not permitted to participate in the Offer through the ASBA process. For details, see "Offer Procedure" on page 504.

This public announcement is being made in compliance with the provisions of Regulation 26(2) of the SEBI ICDR Regulations to inform the public that our Company is proposing, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations, to undertake an initial public offering of its Equity Shares pursuant to the Offer and has filed the DRHP along with draft abridged prospectus dated September 25, 2026 with the SEBI and the Stock Exchanges on September 25, 2026. Pursuant to Regulation 26(1) of the SEBI ICDR Regulations, the DRHP filed with SEBI and the Stock Exchanges has been made available to the public for comments, if any, for a period of at least 21 days from the date of publication of this public announcement and hosting it along with the Draft Abridged Prospectus on the website of the Company at https://jinfratech.com/, website of the SEBI at www.sebi.gov.in, websites of the Stock Exchanges, viz BSE and NSE at www.bseindia.com and www.nseindia.com, respectively, and the website of the BRLM, i.e. Systematix Corporate Services Limited at www.systematixgroup.in. Our Company hereby invites the public to give comments on the DRHP filed with SEBI and the Stock Exchanges with respect to disclosures made in the DRHP. The public is requested to send a copy of their comments to SEBI, the Company Secretary and Compliance Officer of our Company and/or the BRLM in relation to the Offer at their respective addresses mentioned below in relation to the Offer. Our Company hereby invites the members of the public to give comments on the DRHP filed with SEBI and the Stock Exchanges with respect to disclosures made in the DRHP. The public is requested to send a copy of the comments sent to SEBI, to the Company Secretary and Compliance Officer of our Company and the BRLM at their respective addresses mentioned herein. All comments must be received by SEBI, the Company and/or the BRLM and/or the Company Secretary and Compliance Officer of our Company in relation to the Offer on or before 5:00 p.m. on the 21st day from the aforesaid date of publication of this public announcement in accordance with Regulation 26(2) of the SEBI ICDR Regulations.

Investments in equity and equity-related securities involves a degree of risk and bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have not been recommended or approved by SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of the DRHP. Specific attention of the bidders is invited to "Risk Factors" on page 25 of the DRHP.

Any decision to invest in the Equity Shares described in the DRHP may only be made after the RHP has been filed with the RoC and must be made solely on the basis of such RHP as there may be material changes in the RHP from the DRHP. The Equity Shares, when offered, through the RHP, are proposed to be listed on the Stock Exchanges.

The liability of the members of our Company is limited by shares. For details of the main objects of our Company as contained in its Memorandum of Association, see "History and Certain Corporate Matters" on page 297 of the DRHP.

For details of the share capital and capital structure of our Company and the names of the signatories to the Memorandum of Association and the number of shares of our Company subscribed by them, see "Capital Structure" on page 104 of the DRHP.

IF THE PRE-IPO PLACEMENT IS COMPLETED, THE AMOUNT RAISED PURSUANT TO THE PRE-IPO PLACEMENT WILL BE REDUCED FROM THE FRESH ISSUE, SUBJECT TO COMPLIANCE WITH RULE 19(2) (B) OF THE SCRR, AS AMENDED. THE PRE-IPO PLACEMENT, IF UNDERTAKEN, SHALL NOT EXCEED 20% OF THE SIZE OF THE FRESH ISSUE. PRIOR TO THE COMPLETION OF THE ISSUE, OUR COMPANY SHALL APPROPRIATELY INTIMATE THE SUBSCRIBERS TO THE PRE-IPO PLACEMENT, PRIOR TO ALLOTMENT PURSUANT TO THE PRE-IPO PLACEMENT, THAT THERE IS NO GUARANTEE THAT OUR COMPANY MAY PROCEED WITH THE ISSUE, OR THE ISSUE MAY BE SUCCESSFUL AND WILL RESULT INTO LISTING OF THE EQUITY SHARES ON THE STOCK EXCHANGES. FURTHER, RELEVANT DISCLOSURES IN RELATION TO SUCH INTIMATION TO THE SUBSCRIBERS TO THE PRE-IPO PLACEMENT (IF UNDERTAKEN) SHALL BE APPROPRIATELY MADE IN THE RELEVANT SECTIONS OF THE RED HERRING PROSPECTUS AND PROSPECTUS. OUR COMPANY SHALL REPORT ANY PRE-IPO PLACEMENT TO THE STOCK EXCHANGES, WITHIN 24 HOURS OF SUCH PRE-IPO PLACEMENT (IN PART OR IN ENTIRETY).

THE FACE VALUE OF EQUITY SHARES IS ₹10 EACH AND THE ISSUE PRICE IS [•] TIMES THE FACE VALUE OF THE EQUITY SHARES. THE PRICE BAND AND THE MINIMUM BID LOT WILL BE DECIDED BY OUR COMPANY, IN CONSULTATION WITH THE BRLM, AND WILL BE ADVERTISED IN ALL EDITIONS OF [•] (A WIDELY CIRCULATED ENGLISH NATIONAL DAILY NEWSPAPER) AND ALL EDITIONS OF [•], A HINDI NATIONAL NEWSPAPER AND ALL EDITIONS OF [•] (A WIDELY CIRCULATED TELUGU DAILY NEWSPAPER, TELUGU BEING THE REGIONAL LANGUAGE OF ANDHRA PRADESH, WHERE OUR REGISTERED OFFICE IS LOCATED) AT LEAST TWO WORKING DAYS PRIOR TO THE BID/ ISSUE OPENING DATE AND SHALL BE MADE AVAILABLE TO THE STOCK EXCHANGES FOR UPLOADING ON THEIR RESPECTIVE WEBSITES IN ACCORDANCE WITH THE SEBI ICDR REGULATIONS.

In case of any revision in the Price Band, the Bid/ Issue period will be extended by at least three additional working days after such revision in the price band, subject to the Bid/ Issue period not exceeding 10 working days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company may, in consultation with the BRLM, for reasons to be recorded in writing, extend the Bid/ Issue period for a minimum of 1 working day, subject to the Bid/ Issue period not exceeding 10 working days. Any revision in the Price Band and the revised Bid/ Issue period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the website of the BRLM and at the terminals of the syndicate member(s) and by intimation to the Self-Certified Syndicate Banks ("SCSBs"), other Designated Intermediaries and the Sponsor Bank(s), as applicable.

The Issue is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations. The Issue is being made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Net Issue shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs" and such portion the "QIB Portion"), provided that our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors and the basis of such allocation will be on a discretionary basis by our Company, in consultation with the BRLM, in accordance with the SEBI ICDR Regulations (the "Anchor Investor Portion"), of which, 40% shall be reserved in the following manner, (i) 33.33% shall be available for allocation to domestic Mutual Funds, and (ii) 6.67% shall be available for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies and Pension Funds at or above the Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. In the event of under-subscription in (ii) above, the allocation may be made to domestic Mutual Funds. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (other than Anchor Investor Portion) ("Net QIB Portion"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, subject to valid Bids being received at or above the Issue Price, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Net Issue shall be available for allocation to Non-Institutional Investors ("Non- Institutional Portion") of which (a) one-third of the Non-Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹2,00,000 and up to ₹10,00,000 and (b) two-thirds of the Non- Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹10,00,000 and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. Further, not less than 35% of the Issue shall be available for allocation to Retail Individual Investors ("Retail Portion" or "RII"), in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. All Bidders (except Anchor Investors) shall mandatorily participate in this Issue only through the Application Supported by Blocked Amount ("ASBA") process and shall provide details of their respective bank account (including UPI ID (defined hereinafter) in case of UPI Bidders (defined hereinafter)) in which the Bid Amount will be blocked by the SCSBs or the Sponsor Bank(s), as the case may be. Anchor Investors are not permitted to participate in the Anchor Investor Portion through the ASBA process. For details, see "Issue Procedure" beginning on page 387.

This public announcement is being made in compliance with the provisions of Regulation 26(2) of the SEBI ICDR Regulations to inform the public that our Company is proposing, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations, to undertake an initial public offering of its Equity Shares pursuant to the Issue and has filed the DRHP along with the Draft Abridged Prospectus dated September 25, 2026 with the SEBI and the Stock Exchanges. OUR COMPANY, IN CONSULTATION WITH THE BRLMS, MAY CONSIDER A FURTHER ISSUE OF SPECIFIED SECURITIES FOR CASH CONSIDERATION, AS MAY BE PERMITTED UNDER APPLICABLE LAW, AGGREGATING UP TO ₹1,850.00 MILLION, PRIOR TO FILING OF THE RED HERRING PROSPECTUS WITH THE ROC ("PRE-IPO PLACEMENT"). THE PRE-IPO PLACEMENT, IF UNDERTAKEN, WILL BE AT A PRICE TO BE DECIDED BY OUR COMPANY, IN CONSULTATION WITH THE BRLMS. IF THE PRE-IPO PLACEMENT IS COMPLETED, THE AMOUNT RAISED PURSUANT TO THE PRE-IPO PLACEMENT WILL BE REDUCED FROM THE FRESH ISSUE, SUBJECT TO COMPLIANCE WITH RULE 19(2)(B) OF THE SCRR. THE PRE-IPO PLACEMENT, IF UNDERTAKEN, SHALL NOT EXCEED 20% OF THE SIZE OF THE FRESH ISSUE. PRIOR TO THE COMPLETION OF THE OFFER, OUR COMPANY SHALL APPROPRIATELY INTIMATE THE SUBSCRIBERS TO THE PRE-IPO PLACEMENT, PRIOR TO ALLOTMENT PURSUANT TO THE PRE-IPO PLACEMENT, THAT THERE IS NO GUARANTEE THAT OUR COMPANY MAY PROCEED WITH THE OFFER, OR THE OFFER MAY BE SUCCESSFUL AND WILL RESULT INTO LISTING OF THE EQUITY SHARES ON THE STOCK EXCHANGES. OUR COMPANY SHALL REPORT ANY PRE-IPO PLACEMENT TO THE STOCK EXCHANGES, WITHIN 24 HOURS OF SUCH PRE-IPO PLACEMENT (IN PART OR IN ENTIRETY), FURTHER, RELEVANT DISCLOSURES IN RELATION TO SUCH INTIMATION TO THE SUBSCRIBERS TO THE PRE-IPO PLACEMENT (IF UNDERTAKEN) SHALL BE APPROPRIATELY MADE IN THE RELEVANT SECTIONS OF THE RHP AND PROSPECTUS.

In case of a revision in the Price Band, the Bid/Offer Period will be extended for at least three additional Working Days after such revision of the Price Band subject to the Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company may, in consultation with the BRLMs, for reasons to be recorded in writing, extend the Bid/Offer Period for a minimum of one Working Day, subject to the Bid/Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the websites of the BRLMs and at the terminals of the other members of the Syndicate and by intimation to the Designated Intermediaries and the Sponsor Banks, as applicable.

The Offer is being made in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended, (the "SCRR") read with Regulation 31 of the SEBI ICDR Regulations. The Offer is being made through the Book Building Process, in compliance with Regulation 6(1) of the SEBI ICDR Regulations, wherein in terms of Regulation 32(1) of the SEBI ICDR Regulations, not more than 50% of the Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs") (the "QIB Category"), provided that our Company in consultation with the BRLMs, may allocate up to 60% of the QIB Category to Anchor Investors, on a discretionary basis in accordance with the SEBI ICDR Regulations (the "Anchor Investor Portion") of which 40% of the Anchor Investors Portion shall be available for allocation as follows: (i) 33.33% on the Anchor Investor Portion shall be reserved for domestic Mutual Funds; and (ii) 6.67% shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies, and Pension Funds at or above the Anchor Investor Allocation Price; (the "Anchor Investor Allocation Price"). In the event of under-subscription in (i) above, the allocation may be made to domestic Mutual Funds, at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance equity shares of face value of ₹5 each shall be added to the remaining QIB Category ("Net QIB Category"). Further, 5% of the Net QIB Category shall be available for allocation on a proportionate basis to Mutual Funds only and the remainder of the Net QIB Category shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the QIB Category, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining QIB Category for proportionate allocation to QIBs. Further, not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders ("NIBs") (the "Non-Institutional Category") of which one-third of the Non-Institutional Category shall be available for allocation to Bidders with a Bid size of more than ₹200,000 and up to ₹1,000,000 and two-thirds of the Non-Institutional Category shall be available for allocation to Bidders with a Bid size of more than ₹1,000,000 provided that under-subscription in either of these two sub-categories of the Non-Institutional Category may be allocated to Bidders in the other sub-category of the Non-Institutional Category in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. Further, not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders ("RIBs") (the "Retail Category"), in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer Price. All Bidders (other than Anchor Investors) shall mandatorily participate in the Offer through the Application Supported by Block Amount ("ASBA") process, and shall provide details of their respective bank account, including UPI ID (defined hereinafter) for UPI Investors (defined hereinafter) in which the Bid Amount will be blocked by the SCSBs or the Sponsor Banks, as the case may be. Anchor Investors are not permitted to participate in the Offer through the ASBA process. For details, specific attention is invited to "Offer Procedure" beginning on page 450 of the UDRHP - I.

This public announcement is being made in compliance with the provisions of Regulation 59C(9) and 59C(10) of the SEBI ICDR Regulations to inform the public that our Company is proposing to undertake, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations, an initial public offer of its Equity Shares pursuant to the Offer and has filed the UDRHP - I and Draft Abridged Prospectus each dated September 24, 2026 with Securities and Exchange Board of India ("SEBI") and the Stock Exchanges under Chapter IIA of the SEBI ICDR Regulations on September 24, 2026.

Pursuant to Regulation 59C(9) and 59C(10) of the SEBI ICDR Regulations, the UDRHP - I filed with SEBI shall be made available to the public for comments, if any, for a period of at least 21 days, from the date of publication of this public announcement by hosting it on the website of SEBI at www.sebi.gov.in, on the websites of the Stock Exchanges i.e., BSE at www.bseindia.com and NSE at www.nseindia.com where the Equity Shares are proposed to be listed, the website of the BRLMs, i.e., IIFL Capital Services Limited (formerly known as IIFL Securities Limited) at www.iiflcapital.com and Axis Capital Limited at www.axiscapital.co.in and the website of our Company at www.anjallilabtech.com. Our Company hereby invites the public to give their comments on the UDRHP - I filed with SEBI and the Stock Exchanges, with respect to disclosures made in the UDRHP - I. The members of public are requested to send a copy of their comments to SEBI, to the Company Secretary and Compliance Officer of our Company and/or the BRLMs at their respective addresses mentioned herein below. All comments must be received by SEBI and/or our Company and/or the BRLMs and/or the Company Secretary and Compliance Officer of our Company at their respective addresses mentioned herein below in relation to the Offer on or before 5:00 p.m. on the 21st day from the aforesaid date of publication of this public announcement in accordance with Regulation 59C(9) and 59C(10) of the SEBI ICDR Regulations.

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer including the risks involved. The equity shares of face value of ₹5 each offered in the Offer have not been recommended or approved by the SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of the UDRHP - I. Specific attention of the investors is invited to "Risk Factors" beginning on page 23 of the UDRHP - I.

Any decision to invest in the Equity Shares described in the UDRHP - I may only be made after the Red Herring Prospectus has been filed with the RoC and must be made solely on the basis of such Red Herring Prospectus, as there may be material changes in the Red Herring Prospectus from the UDRHP - I.

The Equity Shares, when offered through the Red Herring Prospectus, are proposed to be listed on the main board of the Stock Exchanges.

For details of the main objects of our Company as contained in its memorandum of association, see "History and Certain Corporate Matters" on page 261 of the UDRHP - I.

The liability of the members of our Company is limited. For details of the share capital, capital structure of our Company and the names of the signatories to the memorandum of association and the number of shares subscribed by them see "Capital Structure" on page 102 of the UDRHP - I.

OUR COMPANY, IN CONSULTATION WITH THE BRLMS, MAY CONSIDER A PRE-IPO PLACEMENT OF SPECIFIED SECURITIES, AS MAY BE PERMITTED UNDER THE APPLICABLE LAW, PRIOR TO FILING OF THE RED HERRING PROSPECTUS WITH THE ROC. THE PRE-IPO PLACEMENT, IF UNDERTAKEN, WILL BE AT A PRICE TO BE DECIDED BY OUR COMPANY, IN CONSULTATION WITH THE BRLMS. IF THE PRE-IPO PLACEMENT IS COMPLETED, THE AMOUNT RAISED PURSUANT TO THE PRE-IPO PLACEMENT WILL BE REDUCED FROM THE FRESH ISSUE, SUBJECT TO COMPLIANCE WITH RULE 19(2)(B) OF THE SCRR. THE PRE-IPO PLACEMENT, IF UNDERTAKEN, SHALL NOT EXCEED 20.00% OF THE SIZE OF THE FRESH ISSUE. THE UTILISATION OF THE PROCEEDS RAISED PURSUANT TO THE PRE-IPO PLACEMENT WILL BE DONE TOWARDS THE OBJECTS IN COMPLIANCE WITH APPLICABLE LAW. PRIOR TO THE COMPLETION OF THE ISSUE, OUR COMPANY "SHALL APPROPRIATELY" INTIMATE THE SUBSCRIBERS TO THE PRE-IPO PLACEMENT, PRIOR TO ALLOTMENT PURSUANT TO THE PRE-IPO PLACEMENT, THAT THERE IS NO GUARANTEE THAT OUR COMPANY MAY PROCEED WITH THE ISSUE OR THAT THE ISSUE MAY BE SUCCESSFUL AND WILL RESULT IN THE LISTING OF THE EQUITY SHARES ON THE STOCK EXCHANGES. OUR COMPANY SHALL REPORT ANY PRE-IPO PLACEMENT TO THE STOCK EXCHANGES WITHIN 24 HOURS OF SUCH PRE-IPO PLACEMENT (IN PART OR IN ENTIRETY). FURTHER, RELEVANT DISCLOSURES IN RELATION TO SUCH INTIMATION TO THE SUBSCRIBERS TO THE PRE-IPO PLACEMENT (IF UNDERTAKEN) SHALL BE APPROPRIATELY MADE IN THE RELEVANT SECTIONS OF THE RED HERRING PROSPECTUS AND THE PROSPECTUS.

THE FACE VALUE OF THE EQUITY SHARE IS ₹10 EACH. THE ISSUE PRICE IS [•] TIMES THE FACE VALUE OF THE EQUITY SHARES. THE PRICE BAND AND THE MINIMUM BID LOT SIZE WILL BE DECIDED BY OUR COMPANY, IN CONSULTATION WITH THE BOOK RUNNING LEAD MANAGERS, AND WILL BE ADVERTISED IN ALL EDITIONS OF [•] (A WIDELY CIRCULATED ENGLISH NATIONAL DAILY NEWSPAPER) AND ALL EDITIONS OF [•] (A WIDELY CIRCULATED HINDI NATIONAL DAILY NEWSPAPER, HINDI ALSO BEING THE REGIONAL LANGUAGE OF MADHYA PRADESH, WHERE OUR REGISTERED AND CORPORATE OFFICE IS LOCATED), AT LEAST TWO WORKING DAYS PRIOR TO THE BID/ISSUE OPENING DATE AND SHALL BE MADE AVAILABLE TO THE STOCK EXCHANGES FOR UPLOADING ON THEIR RESPECTIVE WEBSITES IN ACCORDANCE WITH THE "SEBI ICDR" REGULATIONS.

In case of any revision in the Price Band, the Bid/Issue Period shall be extended for at least three additional Working Days after such revision of the Price Band, subject to the total Bid/Issue Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company, in consultation with the BRLMs, for reasons to be recorded in writing, may extend the Bid/Issue Period for a minimum of one Working Day, subject to the Bid/Issue Period not exceeding 10 Working Days. Any revision in the Price Band, and the revised Bid/Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a press release and also by indicating the change on the respective websites of the BRLMs and at the terminals of the Members of the Syndicate and by intimation to the Designated Intermediaries and the Sponsor Bank(s), as applicable.

This is an Issue in terms of Rule 19(2)(b) of the SCRR, read with Regulation 31 of the SEBI ICDR Regulations. The Issue is being made through the Book Building Process in terms of Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than 50% of the Issue shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs" and such portion, the "QIB Portion"), provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with SEBI ICDR Regulations ("Anchor Investor Portion"). 40% of the Anchor Investor Portion, shall be reserved in the following manner (i) 33.33% shall be reserved for domestic Mutual Funds; and (ii) 6.67% shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price. Any under-subscription in the reserved category specified in clause (ii) above, may be allocated to domestic Mutual Funds, in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the remaining QIB Portion ("Net QIB Portion"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Issue shall be available for allocation to Non-Institutional Bidders ("Non-Institutional Portion") (of which one third of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million and two-thirds of the Non-Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹ 1.00 million) and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion, subject to valid Bids being received at or above the Issue Price and not less than 35% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations ("Retail Portion"), subject to valid Bids being received from them at or above the Issue Price. All potential Bidders (except Anchor Investors) are mandatorily required to participate in the Issue through the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective ASBA Accounts (defined hereinafter) and UPI ID (defined hereinafter) in case of UPI Bidders using the UPI Mechanism (defined hereinafter), as applicable, pursuant to which their corresponding Bid Amount will be blocked by the Self Certified Syndicate Banks ("SCSBs") or by the Sponsor Bank under the UPI Mechanism, as the case may be, to the extent of the respective Bid Amounts. Anchor Investors are not permitted to participate in the Issue through the ASBA Process. For further details, see section titled "Issue Procedure" on page 467 of the DRHP.

This public announcement is being made in compliance with Regulation 26(2) of the SEBI ICDR Regulations to inform the public that our Company is proposing, subject to applicable statutory and regulatory requirements, receipt of requisite approvals, market conditions and other considerations, to undertake initial public offering of its Equity Shares pursuant to the Issue and has filed the DRHP dated September 24, 2026 along with the Draft Abridged Prospectus dated September 24, 2026 with the Securities Exchange Board of India ("SEBI") and the Stock Exchanges on September 25, 2026. Pursuant to Regulation 26(1) of the SEBI ICDR Regulations, the DRHP filed with SEBI shall be made available to the public for comments, if any, for a period of at least 21 days, from the date of publication of this public announcement in accordance with Regulation 26(2) of the SEBI ICDR Regulations by hosting DRHP dated September 24, 2026 along with Draft Abridged Prospectus dated September 24, 2026 on the websites of SEBI at www.sebi.gov.in, the Stock Exchanges i.e., BSE at www.bseindia.com, NSE at www.nseindia.com, website of the Company at www.mounteverestbreweries.com and the websites of the Book Running Lead Managers to the Issue i.e. Beeline Capital Advisors Private Limited at www.beelinemb.com and Ashika Capital Limited at www.ashikagroup.com ("BRLMs"). Our Company hereby invites the members of the public to give comments on the DRHP filed with SEBI and the Stock Exchanges with respect to disclosures made in the DRHP. The public is requested to send a copy of the comments to SEBI, to the Company Secretary and Compliance Officer of our Company and the BRLMs at their respective addresses mentioned herein. All comments must be received by SEBI, and/or the BRLMs and/or the Company Secretary and Compliance Officer of our Company in relation to the Issue on or before 5:00 p.m. on the 21st day from the date of publication of this public announcement in accordance with Regulation 26(2) of the SEBI ICDR Regulations.

Investments in equity and equity-related securities involves a degree of risk and bidders should not invest any funds in the Issue unless they can afford to take the risk of losing their entire investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Issue. For taking an investment decision, bidders must rely on their own examination of our Company and the Issue, including the risks involved. The Equity Shares in the Issue have not been recommended or approved by SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of the DRHP. Specific attention of the bidders is invited to "Risk Factors" on page 24 of the DRHP.

Any decision to invest in the Equity Shares described in the DRHP may only be made after the RHP has been filed with the RoC and must be made solely on the basis of such RHP as there may be material changes in the RHP from the DRHP. The Equity Shares, when offered, through the RHP, are proposed to be listed on the Stock Exchanges.

The liability of the members of our Company is limited by shares. For details of the main objects of our Company as contained in its Memorandum of Association, see "History and Certain Corporate Matters" on page 275 of the DRHP.
