

In the last twenty five years,
we've helped secure the dreams of over 20 crore Indians.
And in these years,
we've seen the world around those dreams change.
Today, there are more opportunities than ever before,
more choices to be made, more possibilities
to look forward to.

But there's also more uncertainty.
And the world has gotten more complex too.

While life is not simple, we believe
life insurance can be.
Which is why, we've made it more transparent,
more flexible, more accessible for you.
So, no matter what the world holds for you tomorrow,
preparing for it becomes easier today.

MERIT, TRANSPARENCY, OPPORTUNITY

POWERING UP'S YOUTH

Uttar Pradesh is steadily expanding the horizon of employment and opportunities for its youth. Since 2017, over 9.5 lakh young people have secured opportunities in government services. Large-scale recruitment across Police, Education, Health, Energy, Administration and Technical sectors has strengthened the state's workforce and public service delivery. At the heart of this transformation is a recruitment ecosystem built on Merit, Transparency, Technology, Accountability and Timely Selection. From online applications to results, digital processes, technology-enabled monitoring and firm action have enhanced transparency and trust in recruitment.

A NEW IDENTITY FOR GOVERNMENT RECRUITMENT IN UP

Merit | Transparency | Technology | Opportunity

- Since 2017, over 9.5 Lakh Government Jobs - Empowering UP's Youth with New Opportunities
- Across Sectors, Across Aspirations Police, Education, Health, Engineering, Administration & more.
- Technology + Accountability = Trust strengthening confidence in the selection process.
- More Opportunities, More Hope, More Youth Power building a stronger workforce for a New Uttar Pradesh.
- Planned, Timely, Transparent stronger focus on recruitment calendars and deadlines.
- Digital at Every Step online applications, updates, verification & results.
- Technology-Driven Selection smarter monitoring, secure exams and faster processes.
- Merit Gets Its Due - Where Hard Work Meets Fair Opportunity

9.5 Years New Confidence for Youth

Large-scale recruitment undertaken across Police, Education, Health, Energy, Secretariat, Administrative & Technical Departments.

A recruitment ecosystem built around Merit, Transparency, Technology, Accountability & Timely Selection.

1 Lakh Government Jobs in 6 Months: A New Push for Employment, result declaration is underway, with appointment letters to follow soon.

Women & Marginalised Sections: Wider Access to Opportunity

Technology-driven recruitment has expanded access for youth from rural and remote areas.

Greater participation of women through police, education and healthcare recruitment.

Reservation provisions ensured opportunities for SC, OBC and other eligible marginalised sections..

Zero Tolerance for Examination Mafia Fair Recruitment, Firm Action

The 'Uttar Pradesh Public Examination (Prevention of Unfair Means) Bill, 2024' was passed to effectively curb the use of unfair means and paper leaks in public examinations.

Strong action against examination mafias, cheating networks and solver gangs.

Strict legal measures adopted to protect the integrity of competitive examinations.

Technology-backed monitoring strengthens the examination ecosystem.

2.25 Lakh+ Recruits: UP Police Gets Stronger

- 2.25 lakh+ police personnel recruited in Uttar Pradesh.
- Recruiting Constables, Sub-Inspectors & Women Police Personnel
- Strengthening the Police Force with Enhanced Training Capacity
- Expanding Manpower for a Stronger & More Responsive Policing System
- 1.65 Lakh+ Teachers: Strengthening Government Education
- 1.65 lakh+ teachers and assistant teachers appointed.
- Recruitment strengthened human resources across government schools.
- Women and candidates from diverse social backgrounds received greater opportunities.
- Expansion of the education workforce supports improved delivery of public education.

46,000+ Selections Through Subordinate Services

- 46,000+ selections through the Uttar Pradesh Subordinate Services Selection Commission.
- Merit-Based Recruitment Expanding Opportunities

Health Sector: Thousands of New Appointments

- Recruitment undertaken across critical healthcare positions.
- Appointments include Staff Nurses, ANMs, Lab Technicians, Pharmacists, Nursing Officers, Dental Hygienists & Junior Analysts.
- Expansion of medical colleges accompanied by large-scale recruitment in Medical Education.
- Strengthening the healthcare workforce across the state.

48,000+ Appointments Through UPPSC

- Over 48,000 Appointments through UPPSC
- Recruitment across PCS, Medical Officers, Assistant Engineers, Lecturers and other administrative & technical services.
- Strengthening Talent for Better Governance & Public Services

Technology + Transparency = Trust A New-Age Recruitment System

- Online applications simplify access to government recruitment.
- Online answer keys provide greater transparency.
- Candidates can raise objections through online mechanisms.
- Merit lists & recruitment updates made accessible to candidates.
- CCTV surveillance & live monitoring strengthen examination security.
- Biometric verification & face recognition help prevent impersonation.
- QR-code-based admit cards add another layer of examination security.

COUNCIL'S WEDNESDAY MEET TO TAKE UP BROADER PROCESS REFORMS

GST 2.0: Faster refunds, wider ITC, no arrests

● Small businesses, exporters, investors among key gainers

PRASANTA SAHU
New Delhi, October 4

THE SECOND-GENERATION GOODS and Services Tax (GST) reforms, launched a year ago with sweeping rate cuts across a wide range of goods and taxpayers, are now set to enter a broader phase focused on overhauling the tax system's processes and administration. The GST Council, at its 57th meeting on October 7, is expected to consider a package of measures aimed at speeding up and widening access to tax refunds and input-tax credits, simplifying compliance through greater automation and system-driven enforcement, and bringing more small businesses into the organised supply chain.

If approved, the proposals could lower project costs, strengthen export competitiveness and provide a boost to investment. A key element of the comprehensive process reforms will be the progressive decriminalisation of GST offences, alongside a proposed plan to remove arrest provisions from the GST laws altogether. Following the Council's approval, the proposals are likely to be rolled out in phases through 2027. The GST 2.0 reforms were unveiled by the Council in September 2025, following an announcement by Prime Minister Narendra Modi on August 15.

70% IPOs RETURN 55% IN H1

NEARLY 70%, OR 48, of the 70 firms that got listed in the first half of FY27 delivered an average return of 54.5% to investors, according to data sourced from Prime Database, reports Kishor Kadam. In contrast, 22 IPOs traded below their issue prices, declining by an average of 19.1%. ESDS Software Solutions, which was listed on September 4, led the gainers, with its share price surging 233.7%, from its IPO price of ₹429 to ₹1,431.70 as of October 1. Among the IPOs that disappointed investors, Alpine Texworld declined 55.5% from its issue price.

Tata rift: Govt concerned but rules out intervention

● Senior official says no plan to become arbiter of internal corporate dispute

URVI MALVANIA & PRASANTA SAHU
Mumbai/New Delhi, October 4

THE GOVERNMENT IS closely watching the escalating differences within the Tata group and is "perturbed" that disagreements over governance and leadership are increasingly playing out in public, although it has no plans to intervene. "We are watching closely and hope good sense will prevail by dialling down the public display of animosity," a senior government functionary said, adding there are no immediate plans to intervene in the dispute. For the government, the dilemma is evident. It has no desire to become an arbiter of an internal corporate dispute, but the Tata group is no ordinary cor-

HANDS-OFF APPROACH

- Govt hopes public display of animosity would be dialled down
- Centre closely watching developments

- Tata group's strategic investments mean prolonged uncertainty has implications beyond Bombay House
- Group has reportedly assured government that \$14-billion chip, electronics projects remain on track

■ Differences now span Tata Trusts, Tata Sons governance, leadership and holding-company structure

■ Regulatory scrutiny of key Tata trusts adds another layer of uncertainty

porate house. Its investments span aviation, defence, electronics, semiconductor and other sectors closely linked to national economic priorities. Prolonged uncertainty at the apex of the group therefore carries implications beyond Bombay House. New Delhi reportedly

recently sought — and received — assurances from the group that its \$14-billion semiconductor and electronics investments would proceed as planned despite the leadership dispute at Tata Sons.

FE POLL

Inflation may spur 25 bps rate hike

KSHIPRA PETKAR & CHRISTINA TITUS
Mumbai, October 4

THE RESERVE BANK of India's Monetary Policy Committee (MPC) may raise the repo rate by 25 basis points this week as elevated crude oil prices, rising food prices and resilient economic growth increase inflationary risks, 80% of economists polled by **FE**, believe.

A 25-bps hike would take the repo rate to 5.50% from 5.25%. While most economists and research houses surveyed expect a hike, views differ on how far the tightening cycle could extend and whether the RBI will retain its "neutral" stance. Around

»INSIDE« STARTING EARLY, STAYING SHALLOW, WRITES SAMIRAN CHAKRABORTY **PAGE 8**

60% are betting on a neutral stance while others point to other options, including calibrated tightening. "The RBI's Q3 inflation projection of 5.9% is likely to be surpassed, especially amid elevated oil prices, strengthening the case for a rate hike," said Madhavankutty G, chief economist at Canara Bank. He expects a 25-bps hike and a status quo on the neutral stance.

Q-COMM HELPING NICHE BRANDS SCALE UP RAPIDLY, BUT BUILDING OFFLINE DISTRIBUTION PROVING HARDER

Premium grocery's next hurdle: ₹100 cr to ₹500 cr

S SHANTHI
Bengaluru, October 4

PREMIUM GROCERY BRANDS are finding it relatively easy to build businesses of up to ₹100 crore as affluent consumers spend more on differentiated food products and quick commerce gives them rapid access to a national market. But scaling from ₹100 crore to ₹500 crore is proving to be a much bigger challenge, as brands have to move beyond digital channels and build the distribution and supply-chain muscle required for larger-scale expansion.

"Getting to ₹100 crore is still easy, but getting from ₹100 crore to ₹500 crore is hard,"

ECONOMICS OF SCALE

■ For several new-age brands, quick commerce accounts for more than half of their sales

■ Gulab Group obtains **76%** of its revenue from quick commerce

■ For Patang, quick commerce contributes **61%** of its revenue

■ Online commerce lowers the cost and time required to discover and acquire customers

■ To scale up beyond ₹100 cr, firms need distribution beyond digital commerce, including modern trade and general trade

Adarsh Menon, partner, Fire-side Ventures, told **FE**. As brands scale beyond ₹100 crore, they need distribution beyond digital commerce, including mod-

ern trade and general trade, which requires a different operating model, stronger sales execution, supply-chain discipline, product-price-pack

architecture and greater capital intensity, he said.

The rapid expansion of quick commerce has nevertheless changed the way these

brands can build their initial scale. For several new-age brands, the channel accounts for more than half of their sales, giving them access to consumers across cities without having to first build the traditional distribution networks required by FMCG companies.

Gulab Group, which sells more than 60 SKUs across oils, flours, rice, millets and pulses, sells one pack every 14 seconds on quick commerce and expects to grow nearly four-fold in the coming years. Quick commerce contributes 76% of its revenue. Patang, a premium food brand offering 14 single-origin products named after their places of origin, has generated around ₹40 lakh in rev-

enue in its first eight months, with a gross margin of 70%. Quick commerce contributes 61% of its revenue.

"Historically, getting a new food brand into national distribution was extraordinarily difficult. Today, a founder can discover a consumer on Instagram, sell through D2C or marketplaces, get onto quick commerce and potentially reach consumers nationally remarkably quickly," Menon said.

The ability to reach consumers quickly is coinciding with a willingness among younger and affluent households to pay a premium for quality, provenance and ingredients.

GST PROCESS REFORMS

MONDAY, OCTOBER 5, 2026

MORE TRANSACTIONS TO QUALIFY AS EXPORTS, GET ZERO-RATING BENEFIT

Unlocking higher tax credit to lower exporters' cost burden

MUKESH JAGOTA
New Delhi, October 4

THE GST COUNCIL is likely to consider a package of changes aimed at making it easier for exporters to claim refunds, unlock working capital and align the indirect tax rules with the way Indian companies operate in global markets, as it meets on October 7.

The proposed measures could provide some relief to exporters facing heightened uncertainty from trade disruptions, wars and shifting supply chains. Faster recovery of taxes and release of working capital could help exporters manage higher logistics and financing costs and remain competitive amid volatile global trade conditions, an industry official said.

One of the issues the Council may consider is the treatment of supplies made by Indian companies through their own foreign branches. Under the existing framework, transactions involving establishments of the same legal person can face difficulties in meeting the conditions for an export. The proposed change could remove this hurdle and make the location of the customer, rather than the manner in which an exporter has structured its overseas oper-

RELIEF PACKAGE

■ Supplies made by Indian companies through their own foreign branches may be treated as exports

■ Exporters claiming duty drawback may also be covered for refunds

■ Job work carried out in India on goods belonging to foreign customers may qualify as exports

■ Supplies made to foreign buyers delivered to an SEZ may qualify as exports

■ Tax paid on plant and machinery may become eligible for refunds, with the proposed refund spread over five years to ease exporters' working-capital constraints

ations, the key consideration.

The recent US experience with tariff refunds has highlighted the importance of this corporate structure. Under the US system, refunds of certain tariffs are linked to the importer of record—the entity that made the customs entry and paid the duty—giving companies whose own overseas entities served as importers a more direct route to recover the tariff.

Exporters claiming duty drawback may also be covered

for refunds, while the existing cap linked to domestic prices could be removed.

The Council may consider changes in the treatment of job work carried out in India on goods belonging to foreign customers. Such goods are often sent to India for repair, testing, certification, storage or processing. The proposed approach would link the place of supply to location of the foreign customer rather than where the work is physically carried out, poten-

tially allowing such transactions to qualify as exports even when the goods remain in India.

Also on the agenda, sources said, could be supplies made to foreign buyers where the goods are delivered, at the buyer's direction, to a Special Economic Zone for storage or processing. Such transactions may qualify as exports where payment is received in foreign exchange, or in rupees where permitted by the Reserve Bank of India.

The Council may also con-

sider widening the pool of taxes that exporters can recover, particularly by bringing tax paid on plant and machinery into the refund framework. The proposed refund would be spread over five years, helping exporters unlock working capital. The package could also streamline refunds of eligible input taxes, including those relating to services.

Existing rules have capped the export turnover used for refund calculation at the lower of actual export value and 1.5 times the value of similar goods domestically supplied by the same or similarly placed supplier. While this was done to tackle inflated refund claims by overstating receivables, it did not account for foreign market conditions and other inputs that could increase a product's price.

The refund process could also be made more automated. It is proposed that claims would have to be acknowledged within 10 days; the claim is deemed acknowledged if the officer does not act within the prescribed period. Nearly 90% of an eligible refund could be released after a risk check, with the balance paid following verification. Export invoices would also be matched electronically with bank realisations.

Tax certainty set to speed up highway leasing

FE BUREAU
New Delhi, October 4

THE GST COUNCIL is set to consider a set of proposals aimed at providing greater tax certainty to the government's ambitious highway asset monetisation programme, including clarifying the GST treatment of concession payments, maintenance funds and transactions between government-owned entities, sources said.

The proposals intend to remove tax-related ambiguity that could affect the valuation and structuring of long-term highway monetisation deals, particularly under the Toll-Operate-Transfer (TOT) and infrastructure investment trust (InvIT) models.

The key proposal is to clarify that the upfront or periodic concession amount paid by a private operator to the National Highways Authority of India (NHAI) for the right to collect tolls would not attract GST. The rationale is that the toll paid by road users is already exempt from GST and the concession payment essentially represents the consideration for the right to collect that toll revenue.

Wider reach, easier compliance for small online sellers in focus

ANEES HUSSAIN
Bengaluru, October 4

SMALL SELLERS ON e-commerce platforms may be allowed to use the platform's warehouse as their place of business in states where they have no premises of their own, under a GST Council proposal, allowing them to reach customers nationwide with a single verified address.

Currently, a seller supplying goods across states through an e-commerce platform needs a registered place of business in each state supplied. For small sellers, this can mean multiple registrations and compliance requirements. Under the proposed arrangement, a seller would need a genuine presence in only one state, where physical verification and Aadhaar authentication would be completed once. Registration in other states would then follow with the platform's consent, without the involvement of a tax officer. The registration would cover sales through the platform, while a seller conducting business outside the platform would need normal registration for that business.

The proposal is aimed at a large base of small sellers.

EXPANDING PRESENCE

■ Small online sellers may use e-commerce warehouses as registered places of business

■ Goods deliveries could attract a uniform 5% GST without input tax credit

■ Platforms would share verified seller data and take on additional compliance duties

■ One-state verification could enable registrations in other states without tax-officer's intervention

About 1.05 million sellers supply goods through platforms, of whom around 950,000, or 90%, pass on very little input tax credit to their buyers. The proposed facility would allow such sellers to access customers across the country without having to establish their own premises in every state. The platform would, however, take on part of the compliance responsibility. It would name a person answerable for information about these sellers, share their verified data

and report on the portal whenever a seller is removed or their particulars change.

The GST Council had cleared the simplified registration mechanism for small e-commerce suppliers in principle at its 56th meeting in September 2025, with the detailed framework to follow. Tax experts said the proposed mechanism could reduce the compliance burden for small sellers, while retaining safeguards through verification and platform-level reporting. The proposal also envisages

registration in other states after the platform's consent, with no officer involvement at the registration stage.

A separate proposal seeks to bring delivery of goods ordered through a platform to a uniform GST rate of 5% without input tax credit. This would mean that the tax on the delivery remains the same irrespective of how the delivery is routed. The move seeks to bring greater uniformity to the tax treatment of platform-based deliveries, which can currently vary depending on the nature of the delivery arrangement.

Another proposal seeks to settle the question of who pays GST on services booked through an e-commerce platform. The law currently fixes liability on the platform for certain notified services, but platforms operating under different commercial models have interpreted the provision differently. The proposal may make the liability depend on the service itself rather than on how the platform structures its contracts. This would give platforms greater clarity on their GST liability irrespective of their business model.

Group insurance policies may get GST credit boost

NARAYANAN V
Chennai, October 4

IN A SIGNIFICANT move that could widen corporate insurance coverage, the government may consider allowing input tax credit (ITC) on GST paid on group health and life insurance policies taken by employers for their employees. The proposal is among three major decisions concerning the banking, insurance, and financial services sectors likely to be taken up at the upcoming 57th GST Council meeting, according to sources.

Last September, the government exempted individual life and health insurance policies from 18% GST earlier. However, the 18% GST on group insurance policies was retained. While the GST on employer-employee insurance will remain, the current proposal would allow employers to claim credit for the GST paid on such policies, rather than treating it as a cost.

"Tax is charged on that cover, and until now the business could not recover it. That tax is now recoverable as credit," said a person with knowledge of the proposal.

The move has been a long-standing demand of corporates and the insurance industry, as GST paid on employee group health insurance currently falls under blocked credit and becomes a cost for companies.

"It is a long-pending demand of corporates that the chain of input tax credit should not be broken. Companies used to pay tax on health insurance for their employees, which used to sit in their P&L. They will be able to take credit once the proposal is approved," said a top general insurance executive. The move could unlock upwards of ₹5,000 crore for corporates on group health insurance alone, the executive said.

MORE COVERAGE

■ Employers may be allowed to claim ITC on GST paid on group health and life insurance policies

■ The move could unlock over ₹5,000 crore for corporates on group health insurance alone

The employer-employee group health insurance premium in FY26 stood at over ₹68,000 crore in FY26. At the current 18% GST rate, the tax component on the entire premium would be around ₹12,000 crore. However, the actual ITC benefit to corporates would depend on the eligibility and utilisation of the credit. Similarly, the life insurance industry collected around ₹2.75 lakh crore in premiums from group insurance. Group term insurance includes those

group health insurance is not available as input tax credit and falls under blocked credit. In many organisations, that becomes a deterrent to providing group health cover," the executive said.

The move could improve the level of cover offered to employees, as some organisations limit coverage because of the additional tax cost, he said. Lowering the effective cost could encourage more organisations, including MSMEs, to offer group health insurance.

Banks and NBFCs could also benefit from GST changes covering group credit-life insurance policies

provided through employers or other organisations. Banks, NBFCs and microfinance institutions also take group credit-life policies to insure borrowers against outstanding loans.

The benefit could also encourage more companies to provide health insurance to employees, particularly smaller businesses and those with limited taxable profits, said a senior insurance broking executive.

"A substantial portion of the business is affected because GST paid by corporates on

The GST Council is also expected to settle a number of issues relating to the taxation of financial services. For banks, transfers of funds between branches of the same entity are proposed to be treated as a notional charge for GST purposes, reflecting the underlying substance of the transaction. Where a bank and an NBFC jointly lend, services provided by the NBFC to the bank will be taxable, with valuation aligned with the principles prescribed by the Reserve Bank of India.

Telecom towers may get ITC

OJASVI GUPTA
New Delhi, October 4

A PROPOSAL BEFORE the GST Council may allow input tax credit on telecom towers, resolving a long-standing tax issue for the sector. The Council may also take up a clarification under which towers need not be declared as places of business, according to sources.

The issue over credit arises from the treatment of telecom towers as immovable property. A tower is bolted to the ground and had therefore been treated as falling within the description of immovable property, on which credit was not available. The proposed change recognises that, in function, a tower is an equipment used to carry the antennae through which telecom services are delivered.

The move could lower the

cost base of digital infrastructure as telecom networks are being expanded. Towers are among the principal fixed assets for telecom operators and infrastructure providers, making the availability of credit significant for network investment. "A clear policy or legislative position in line with this would give the sector much-needed certainty, since tower deployment is among the most capital-intensive spends for opera-

tors and infrastructure providers," Aditya Bhattacharya, partner, King Stubb & Kasiva, Advocates and Attorneys, said.

The second proposal concerns the registration of tower sites. It may be clarified that a telecom tower need not be declared as a place of business. This would spare an operator with hundreds of thousands of sites from declaring each location and amending its registration whenever a site is commissioned or decommissioned. The same would apply to independent companies that own and share tower assets.

The changes are linked in their treatment of telecom infra. While the tower would be recognised as equipment used in the business, the land on which it stands would be treated as a site rather than as business premises.

EV fleets likely to get GST parity with ICE vehicles

NITIN KUMAR
New Delhi, October 4

A PROPOSAL MAY be considered by the GST Council to bring electric vehicle (EV)-based passenger transport and vehicle rental services under the same tax framework that currently applies to conventional internal combustion engine (ICE) vehicles, effectively making the treatment technology-neutral.

Under the proposal, operators providing vehicles with a driver would have the option of paying GST at 5% with restricted input tax credit (ITC), or 18% with full eligible ITC. The 5% and 18% structure is already available for comparable services involving conventional

vehicles, and the proposed change would extend the same treatment to EVs.

The proposal is, therefore, largely aimed at removing a distinction in the GST treatment of electric and conventional vehicles when they are used for passenger transport or rental services. It does not amount to a new 18% GST option for fleet operators, as the higher-rate

route with full eligible ITC is already available for ICE-based services. The distinction is important because GST rate on the vehicle itself is separate from the GST applicable to the service supplied by the fleet operator. EVs attract 5% GST, while the operator providing a passenger transport or rental service can, subject to the applicable framework, be taxed at a different rate.

Under the proposed treatment, an EV fleet operator would therefore have the same choice available to an ICE fleet operator: pay 5% GST with restricted credit or opt for 18% GST and claim full eligible ITC.

The proposal also seeks to provide clarity on the credit available in relation to vehicles and associated expenses. The proposal provides for ITC treatment covering eligible vehicle-related inputs and capital goods, while addressing expenses such as insurance, servicing, repairs and maintenance.

TAX TREATMENT

■ Proposal seeks to extend existing 5%/18% structure to EVs

■ Move does not create a new 18% GST option for fleet operators

GST credit relief for hotels in the works

● Industry insiders hail proposal, but want government to walk the talk

VAISHALI DAR & SUGANDHA MUKHERJEE
New Delhi, October 4

THE UPCOMING GST Council meeting could include tax relaxations for the tourism and hospitality industry. According to sources, there is a proposal to allow input tax credit (ITC) for services bought and sold in the same line of business. So booking a hotel room via an aggregator, tour operator or directly from the hospitality company could cost the consumer the same, without tax being attached at every stage.

The government proposes to allow ITC for booking hotel rooms below ₹7,500 a night. This will also extend to other services provided by a hotel on its premises, such as restaurants, spas, fitness centres and salons.

ROOM FOR REFORMS

■ GST Council may consider allowing income tax credit (ITC) on hotel rooms priced below ₹7,500 a night

■ The proposed ITC could also cover hotel services such as restaurants, spas, fitness centres and salons

■ A streamlined ITC framework could reduce tax cascading and improve pricing flexibility across the tourism value chain

■ Industry wants ITC to be allowed while retaining concessional 5% GST rate on eligible hotel rooms

■ Tax relief may also be proposed for shared helicopter services, particularly in hilly and remote destinations

Industry insiders say such a step would considerably increase cost efficiency across the ecosystem, but they are also sceptical of the fine print, which they fear might not be as attractive as promised.

Over 60% of India's hotel inventory lies in the budget and mid-scale segment, and a streamlined ITC framework can reduce the cascading tax impact and provide greater pricing flexibility, ultimately benefiting consumers. Aashish Gupta, consulting CEO, Federation of Associations in Indian

Tourism & Hospitality (FAITH), said GST, as originally envisaged, was a tax only on value-added services, and tourism is a lengthy value chain with multiple stakeholders across hotels, tour operators, travel agents, tourists transporters and other service providers. "Any GST amendments which unlock set-offs to the tourism industry and release tax credits are always good for both the operator and the customer. The proposed changes are directionally positive for the sector and allowing input tax credit for hotels in the

lower-priced segment would improve the economics of operating and investing in this part of the market."

Hemant Joshi, CEO of Atithi Foundation, a tourism think-tank, added that the larger opportunity is to look at the tourism value chain as a whole. ITC may not automatically mean lower consumer prices, but it can improve the economics of operating and investing in the sector. "India needs a simpler, more predictable GST framework that encourages reinvestment and improves

competitiveness, both for domestic tourism and for attracting international visitors and increasing their length of stay and spending."

Manav Thadani, founder-chairman, Hotelivate, a hospitality consulting firm, would like to see more tangible policy on this front. "When the government announced the earlier proposal, input credit for GST was not made available for hotels under ₹7,500, which had huge negative financial impact for hotel owners. So I would believe it only when it actually happens."

Online travel portal EaseMyTrip's CEO & co-founder Rikant Pittie felt a well-structured ITC framework can strengthen the business environment for the sector, which is projected to reach \$27.96 billion in 2026. "Greater cost efficiency and pricing flexibility can support investment in Tier-2 and Tier-3 destinations and further accelerate domestic tourism, benefiting both businesses and travellers," he said.

US SHIPMENTS MORE THAN TRIPLED TO 3.76 MT IN APRIL-SEPTEMBER

West Asia's share in import of LPG drops to 40% in H1

Saurav Anand
New Delhi, October 4

India's sourcing of cooking gas underwent a sharp shift in the first half of FY27, with LPG imports from West Asia plunging 71% year-on-year to 2.93 million tonnes (MT) during April-September from 10.16 MT a year earlier, while shipments from the US more than tripled to emerge as the largest source, according to Kpler data.

West Asia's share in India's LPG imports consequently fell to 39.6% from 89.1% in the corresponding period last year. The US supplied 3.76 MT, up 232% from 1.13 MT, raising its share to 50.7% from 9.9%.

Overall LPG imports declined 35% to 7.41 MT during April-September from 11.41 MT a year earlier.

The fall in imports coincided with a sharp contraction in domestic LPG consumption. Data from the Petroleum Planning & Analysis Cell (PPAC) showed LPG sales fell 14.93% to 13.797 MT during April-September from 16.218 MT in the year-ago period.

SOURCING SHIFT

In September alone, LPG consumption dropped 9.15% year-on-year to 2.636 MT from 2.902 MT.

Kpler data show the shift away from traditional West Asian suppliers was broad-based during the first six months of FY27. LPG imports from the UAE declined to 1.30 MT from 3.82 MT, while shipments from Qatar fell to about 306,000 tonnes from 2.27 MT. Kuwait supplied around

367,000 tonnes, down from 1.76 MT, while shipments from Saudi Arabia fell to about 293,000 tonnes from 1.84 MT.

September, however, saw some recovery in West Asian cargoes.

Supplies from the region nearly doubled month-on-month to about 909,000 tonnes from 455,000 tonnes in August, led by the UAE. UAE shipments jumped to 548,000 tonnes from 194,000 tonnes.

Even so, West Asian supplies remained around 51% lower than the 1.86 MT received in September 2025. India's overall LPG imports in September stood at 1.39 MT, down 31.6% from 2.03 MT a year earlier.

A similar shift is visible in India's LNG sourcing. Unlike LPG, however, total LNG imports increased 12.2% to 13.71 MT during April-September from 12.23 MT a year earlier.

HDFC Bank advances rise 16% till Sept

FE BUREAU
Mumbai, October 4

HDFC Bank's gross advances grew 16.3% year-on-year to ₹32.20 lakh crore as of September-end, while deposits rose faster, at 18.8%, to ₹33.28 lakh crore, according to provisional business figures released by the bank on Sunday.

The bank's period-end advances under management stood at ₹33.08 lakh crore, up 15.3% year-on-year. Average advances under management during the September quarter grew 14% year-on-year to ₹31.87 lakh crore.

Deposit growth continued to outpace advances during the quarter. Average deposits rose 16.8% year-on-year to ₹31.67 lakh crore from ₹27.11 lakh crore in the corresponding period last year.

Growth was led by time deposits, which increased 22.8% year-on-year to ₹22.76 lakh crore as of September 30. CASA deposits grew at a slower pace of 10.8% to ₹10.52 lakh crore. On an average basis, CASA deposits increased 10.7% to ₹9.71 lakh crore, while time deposits rose 19.7% to ₹21.95 lakh crore.

The bank also disclosed that it mobilised foreign currency deposits equivalent to \$11.5 billion under RBI's FCNR(B) swap facility introduced in June.

GST panel may weigh tax sops for many farm inputs

Sandip Das
New Delhi, October 4

The Council may take several steps to ease agricultural processes, including exemptions for farm inputs and equipment used for farming. The concessional treatment may extend to "every input" the farmer buys, sources said, adding that then measures could result in certainty on the applicable rates for several agri-products.

To ensure uniform GST for bio-stimulants, which aid plant growth, the council is likely to approve a 5% rate for all 146 products registered under the Fertiliser Control Order (FCO), 1985. "Earlier in some places, bio-stimulants were classified under the 5% GST category and in some places under 18%; the council is likely to clarify this by bringing in a single rate for all stimulants," an industry expert told FE. Since 2021, bio-stimulants have been included in the Fertiliser (Control) Order.

The council has advised the department of agriculture that products registered under Schedule VI of FCO are recognised as fertilisers based on prescribed composition, functionality and standards supported by bio-efficacy trials. The bio-stimulants improve nutrient-use efficiency and tolerance to abiotic stress, rather than sup-

FARM TAX RELIEF

Uniform 5% GST likely for all 146 FCO-registered products

GST waiver for seed storage proposed, warehousing of seeds for sowing

Nil GST may be proposed for fresh, chilled, frozen or dried Isabgol seeds.

plying soil nutrients like conventional fertilisers. Bio-stimulants include humic acid, fulvic acid, seaweed-based products, protein hydrolysates and amino acid-based products.

A proposal that may help reduce the cost of seed is a tax waiver for the storage and warehousing of seeds for sowing, sources said. The exemption is currently unavailable because seeds are graded, treated and packed before they reach the farmers. The council may also discuss a separate entry for psyllium seeds, also known as isabgol, at a 'nil' rate, whether the seeds are fresh, chilled, frozen or dried, so that a crop grown largely by smallholder farmers is not taxed differently.

Sources said for instance GST on 'retreaded' tractor tyres has been proposed to be reduced to

5% from 18%, aligning the rate with new tractor tyres, which were brought down to 5% at the 56th council meeting, in September, 2025. The option of 'retreaded' tyre is usually taken by smaller farmers, as buying a new tyre can be costly. The council may consider a uniform rate of 5% for all tyre variants. The council is likely to approve a GST waiver for the 'curing of coffee' supplied to farmers, an activity previously considered outside the general exemption for services relating to cultivators.

"The inputs and services on which cultivation depends — namely seed and its storage, fertiliser in the form of bio-stimulants, the curing of a plantation crop and the tyres on the tractor — now bear the rate structure intends for agriculture," sources said.

Irdai reforms risk 1 million livelihoods: Brokers' body

FE BUREAU
Chennai, October 4

The Insurance Regulatory and Development Authority of India's (Irdai's) proposed distribution reforms could put at least 1 million livelihoods at risk and revive unethical business practices that were addressed by the 2023 expenses regulations, the Insurance Brokers Association of India (IBAI) said. The apex body representing India's 798 licensed insurance brokers raised these concerns in a letter to Prime Minister Narendra Modi and Finance Minister Nirmala Sitharaman.

IBAI said the proposed one-third cut in expense limits for insurers cannot be achieved through efficiency alone and would instead lead to reductions in sales, servicing and claims staff across private and public sector insurers. "Distribution reach shrinks precisely when Insurance for All by 2047 requires more of it, with penetration at 3.7% of GDP against a global average above 7%," it said.

According to Irdai data for FY25, insurance distribution employs more than 8.3 million professionals. The sector also has more than 770 brokers, 660 corporate agents and 22 web aggregators.

Brokers sponsor 1.481 million of India's 2.718 million POSPs and 62% of motor insurance service providers, with most of these professionals being self-employed and operating in Tier-II and III towns, IBAI said. IBAI's letter comes a week after Irdai unveiled sweeping distribution reforms, including hard caps on commissions across products and distribution channels based on the effort involved in selling and servicing policies.

Das: India's resilience led by reforms, not accidental

FE BUREAU
New Delhi, October 4

India's economic resilience is the result of a decade of reforms that strengthened governance, macroeconomic stability and long-term productive capacity, Principal Secretary-2 to the Prime Minister Shaktikanta Das said on Sunday.

"India's resilience is not accidental; it is the outcome of broad and mutually reinforcing reforms," Das said while speaking at the Kautilya Economic Conclave here, citing measures such as flexible inflation targeting, the Goods and Services Tax (GST), digital payments and banking reforms.

These reforms have helped India withstand a difficult global environment marked by wars, fragmentation, energy price volatility and high public debt, he said.

The India Stack, including Jan Dhan accounts, Aadhaar and mobile connectivity, enabled rapid transfers during the pandemic. Direct benefit transfers have generated estimated savings of around ₹5.1 lakh crore.

The second pillar is macroeconomic stability, he said, citing flexible inflation targeting since 2016, fiscal consolidation, GST-led market integration and financial-sector reforms.

The third pillar is investment in productive capacity. Infrastructure and logistics improvements, including Gati Shakti and the National Logistics Policy, have strengthened connectivity, he said.

Production-linked incentives, PM MITRA and Skill India are strengthening industrial capacity, with India emerging as the world's second-largest mobile phone manufacturer and making a significant entry into semiconductor manufacturing, Das said.

India's real GDP grew 7.8% in the first quarter of the current financial year, following average annual growth of 7.9% between FY22 and FY26.

Das said India was within "striking distance" of 8% growth. The first pillar of resilience has been stronger governance and state capacity, he said. Improvements in infrastructure, sanitation, housing, electrification, financial inclusion and digital services have strengthened the relationship between citizens and the state.

IPs may handle bank liquidation: IBBI

Manu Kaushik
New Delhi, October 4

Bank liquidation needs a sharper recovery framework, with insolvency professionals (IPs) brought in to manage the process under the supervision of the Reserve Bank of India (RBI) and Deposit Insurance and Credit Guarantee Corporation (DICGC), according to an Insolvency and Bankruptcy Board of India (IBBI) study.

The study has recommended appointing IBBI-certified IPs to manage the remaining assets of failed banks, while RBI and DICGC could retain oversight.

The proposal would not bring banks fully under the Insolvency and Bankruptcy Code (IBC), the study said.

At present, IPs do not handle failed banks under the IBC, as banks are outside the Code's

corporate insolvency framework.

Instead, bank failures are dealt with under banking laws, with the RBI, DICGC and the relevant registrar playing different roles. Liquidators are appointed under the existing bank liquidation framework.

"One key recommendation is to integrate IPs into the bank liquidation framework.

"This would involve appointing IBBI-certified professionals to administer bank liquidations under the guidance of RBI/DICGC, without bringing banks fully under the IBC," the study said.

The study added that the move could be achieved through "regulatory changes or minor legislative amendments and would inject much-needed expertise and accountability into the system."

India, Canada to begin fifth CEPA round

The chief negotiators of India and Canada will begin the fifth round of negotiations for the proposed Comprehensive Economic Partnership Agreement (CEPA) in Ottawa from October 5, with an aim to conclude the talks by the end of this calendar year, an official said.

The five-day talks may end on October 9. The fourth round of negotiations concluded in New Delhi on September 18.

The negotiations are important as Prime Minister Narendra Modi is expected to visit Canada around December this year, Canadian Prime Minister Mark Carney has said last month.

To give a further impetus to the talks, Canada's Trade Minister Maninder Sidhu will visit New Delhi later this month with a 300 strong business delegation.

AGENCIES

BAJAJ, TVS CAPTURE GROWTH

Hero misses 200-250 cc premium bike upswing

NITIN KUMAR
New Delhi, October 4

THE SHARP SHIFT towards higher-capacity motorcycles is creating a new growth pocket for two-wheeler makers, but Hero MotoCorp, the country's largest two-wheeler manufacturer, is missing out even as rivals Bajaj Auto and TVS Motor are strengthening their positions in the fast-growing 200-250cc segment.

Sales in the 200cc-and-above but up-to-250cc motorcycle category nearly doubled 91.8% year-on-year to 130,739 units during April-August FY27, from 68,166 units in the corresponding period last year, according to data from the Society of Indian Automobile Manufacturers (SIAM). It was the only engine-capacity segment to register such a sharp increase during the period.

The growth has been led by Bajaj and TVS, which together accounted for about 95% of sales in the segment during the five-month period. Bajaj Auto's sales surged 93.7% to 73,223 units from 37,796 units a year earlier, while TVS Motor's volumes rose 91.4% to 51,036 units from 26,670 units. Suzuki Motorcycle India posted a 135.8% increase to

MARKET SHIFT

200-250cc motorcycle segment sales rose to **130,739 units** during April-August of FY27

■ Bajaj Auto sales surged 93.7% to **73,223 units** during the five months

■ TVS Motor volumes increased 91.4% to **51,036 units** during the period

■ Suzuki Motorcycle India sales jumped 135.8% to **4,312 units**

■ On the other hand, Hero Moto-Corp sales declined 18.2% to just **1,318 units**

4,312 units, while Kawasaki more than tripled sales, albeit on a much smaller base.

Hero MotoCorp, however, bucked the trend, with sales in the segment declining 18.2% to 1,318 units from 1,611 units in the year-ago period. The divergence comes at a time when premium motorcycles have become a strategic priority for Hero, as the company is trying to reduce its dependence on commuter motorcycles and expand in higher-margin categories.

Hero has expanded its premium portfolio in recent

years with motorcycles such as the Xtreme, Xpulse and the Karizma and has also built a dedicated Premia retail network for premium products. Yet, it did not introduce a new motorcycle in the 200-250cc category following the GST rate reduction in September last year, leaving it without a fresh product as demand in the segment accelerated.

Its competitors, meanwhile, entered the period with established products. Bajaj has a broad portfolio across the Pulsar and Dominar families, while TVS has the Ronin.

Suzuki also has the Gixxer and V-Strom in the category. The Ronin, in particular, has gained significant traction and accounted for more than 35% of sales in the 200-250cc segment during April-August.

"Bajaj and TVS have built a wider premium motorcycle proposition around performance, styling and features. Hero has products in the segment, but the company needs a stronger product pipeline and sustained volumes rather than relying on upgrades to existing nameplates," said a sector expert.

● SUBHATHRA SRINIVASARAGHAVAN, VICE PRESIDENT, IBM'S NEW INDIA SYSTEMS DEVELOPMENT LAB

'Indian firms hike AI infra funding by 58%'

As AI adoption paces ahead, enterprises have found that forking out funds for AI infrastructure is just as vital as spending on AI models, Subhathra Srinivasaraghavan, vice president of IBM's new India Systems Development Lab (ISDL) said. In an interaction with Poulomi Chatterjee, she talks about how tech hiring is maturing, IBM's growing reliance on India for innovation, and measurable progress in quantum computing. Excerpts:

What measures should be taken to ensure governance and "alignment" of AI agents?

As AI agents become more autonomous, the question is no longer only how capable they are, but how controllable

and accountable they remain. Governance cannot be added after deployment. It must be built into the architecture from the outset.

Organisations need clear guardrails around what an AI agent can access, what actions it can take, and where human intervention is required. That entails strong identity controls, policy enforcement, monitoring, and auditability.

A recent study from IBM and IndiaAI found that 68% of Indian enterprises view gaps in AI governance as a barrier to scaling the tech-

nology. Ultimately, trusted and sovereign AI depends on maintaining control over data, operations, and decision-making. Organisations must be able to understand why an AI system acted, what it accessed, and what business impact it created.

How has hiring at IBM in India changed?
India Systems Development Lab (ISDL)

is a large development hub for IBM's Infrastructure division and a microcosm of the organisation itself. ISDL brings together expertise across the stack from processor design, firmware, operating systems, virtualisation, storage, cloud, and AI technologies. Teams innovate across the IBM portfolio of Power, IBM Z, Storage, and Cloud, while working closely with IBM Software, Consulting, Research, and Sales.

As AI places new demands on performance, efficiency,

and security, we increasingly need engineers who can work across disciplines and understand the full stack. India is no longer simply where technology is implemented. It is increasingly where technology is designed, engineered, and advanced for global markets.

How is IBM considering its R&D footprint and investment in India?

India is a strategic hub for IBM's infrastructure engineering and AI innovation efforts. A recent example is the Sangam Infrastructure Innovation Center at the new ISDL campus in Bengaluru, which brings together engineers, clients, and ecosystem partners to co-create enterprise AI solutions.

Cement prices firm up in Sept-end after stable Q2

URVI MALVANIA
Mumbai, October 4

CEMENT PRICES, WHICH remained broadly stable during the July-September quarter, began to recover towards the end of September as companies pushed through price hikes across markets, analysts said.

The quarter, however, remained weaker than the preceding quarter on an average basis, with monsoon-related disruption and uneven demand limiting pricing gains. Pan-India average prices were 1-1.5% lower sequentially in Q2FY27, even as the quarter bucked the usual seasonal decline in cement prices.

The pricing trend turned positive in September. Pan-India average retail cement prices rose ₹6-7 per bag month-on-month to around ₹359, reaching a multi-quarter high, analysts said.

The recovery was particularly pronounced in the non-trade segment, where prices increased by ₹15-20 per bag with a more measured movement in trade prices.

Regionally, South India saw the sharpest increase in September, with prices rising around ₹11 per bag on average. Andhra Pradesh saw a ₹15 hike, while Karnataka, Tamil Nadu, Kerala and Telangana recorded ₹10 increases.

North India followed with a ₹10 per bag increase, led by Rajasthan and Punjab, which saw ₹10 hikes each, while Delhi rose ₹5.

MARGIN PRESSURE

■ Pan-India cement prices fell **1-1.5%** sequentially in Q2FY27

■ September prices rose ₹6-7 per bag month-on-month to **₹359**

■ Non-trade cement prices increased **₹15-20** per bag in September

■ South India prices climbed **₹11** per bag

■ Andhra Pradesh cement prices increased **₹15** per bag

Central India saw prices increase by around ₹5 per bag, with Madhya Pradesh recording ₹5-10 increases and Uttar Pradesh seeing hikes of ₹0-10.

In eastern markets, prices also rose around ₹5 per bag, led by West Bengal with a ₹15 increase and Chhattisgarh with a ₹10 hike. Bihar, Jharkhand and Odisha remained unchanged.

West India saw the smallest increase of around ₹4 per bag, with Maharashtra rising ₹5-10 while Gujarat remained flat in September.

Analysts said higher input costs continue to make sustained price increases important for cement producers.

"We estimate industry profitability would decline by ₹250-300/t QoQ in Q2FY27E, primarily due to elevated fuel costs and weak operating leverage," analysts from JM Financial said.

Analysts estimate that diesel prices were up around 9% year-on-year and 5% quarter-on-quarter, while international coal prices rose 39% year-on-year and international petcoke prices 34%.

"With petcoke prices rising sharply by 19% in past one month and limited cushion from lower-priced domestic coal, we expect variable costs to remain inflationary in Q3FY27, keeping near-term margin under pressure," analysts from Elara Capital added.

Cement companies have announced further price hikes of ₹10-20 per bag across most markets in October, with analysts expecting a ₹5-15 increases in the first week of the month.

Analysts said the extent to which these hikes are absorbed and sustained will be key to the sector's margin recovery.

Mid-tier IT firms to widen growth lead over large peers

POULOMI CHATTERJEE
Bengaluru, October 4

MID-TIER IT FIRMS are expected to extend their growth lead over large IT services companies in the second quarter of FY27, as faster conversion of large deals and acquisitions help companies such as Persistent Systems and Coforge offset pricing pressure and AI-led deflation affecting the sector.

Brokerages expect large IT firms to report sequential revenue growth ranging from a decline of 1% to growth of 3% in Q2FY27, while mid-tier companies are likely to deliver significantly stronger growth.

Persistent Systems and Coforge are expected to lead the pack, supported by continued ramp-up of large contracts, while Coforge is also likely to benefit from the acquisition of Encora.

Kotak expects Persistent Systems to report 7% quarter-on-quarter revenue growth in Q2, followed by Coforge at 4.5% and Mphasis at 3.5%. Among the larger companies, HCLTech is expected to report 2% growth, Infosys 1.1% and TCS 0.5%, while Wipro could see a 1% sequential decline.

Motilal Oswal has a more bullish estimate for some mid-

PLAYER DIVIDE

■ Large IT firms expected to post 1-3% sequential revenue growth this fiscal

■ Persistent is seen posting 7% revenue growth sequentially, leading mid-tier peers

■ Coforge is expected to see 4.5% growth, Mphasis could grow 3.5%

tier companies, forecasting 12% sequential growth for Coforge, 5% for Persistent Systems and 3% each for Mphasis and Hexaware Technologies.

The brokerage attributed the stronger outlook for mid-tier companies to an increase in large deal wins and their conversion into revenue.

Persistent Systems, for instance, won a \$650 million mega deal from a major US-based technology client in June. Mphasis is also expected to report its strongest growth

quarter in 12 quarters, supported by robust business from the banking, financial services and insurance segment.

The divergence comes even as the overall demand and environment remains largely unchanged from the previous quarter. Analysts said larger incumbents are facing intense pricing pressure as clients seek substantial discounts, while AI-led productivity gains are reducing the amount of traditional IT work required.

This is making execution, rather than deal wins alone, an increasingly important differentiator. Kotak said deal wins were increasingly helping companies protect their relevance rather than guaranteeing growth, as competitors have become operationally stronger and global peers are growing faster.

"Large-deal conversion into revenues remains a differentiating factor between leaders and laggards," Kotak analysts said.

The difference is also expected to be visible in total contract value (TCV), with HCLTech, Persistent Systems, Coforge and TCS likely to report stronger deal values, while Infosys, ITI Mindtree and Wipro are expected to post softer TCV numbers.

Q2 FMCG growth at 6-qtr high: Bizom

THIS IMPROVED EVEN further to 8.2% in September, narrowing the gap with rural, which stood at 10.3% for the month.

In July and August, rural value growth stood at 10.4% and 11.1% each.

"August was when the festive season began and festive season consumption is what is driving up FMCG growth in urban areas despite price hikes in the September quarter," Parth Sethi, growth officer, CEO's office, Bizom, said.

However, persistent price hikes triggered by inflationary pressures may temper consumption, FMCG analysts have cautioned, going into the key Dussehra-Diwali period.

Sethi says that there has been margin pressure on brands, prompting many to go in for select price hikes.

Companies say they remain cautious about pricing and wary of disrupting demand with sharp price hikes in the festive season.

The cautious outlook has also come as the 2026 southwest monsoon season has ended with a 13% rainfall

RURAL OUTPACES URBAN

FMCG growth: Quarter-wise (value growth) (in %)

■ All-India ■ Urban ■ Rural

deficit, with 15 states and union territories receiving below-normal rains due to strengthening El Nino conditions, according to the India Meteorological Department (IMD).

"Below-normal rains could hurt farm output and incomes, which, in turn, could hurt rural spending," Krishnarao Buddha, consultant and FMCG expert, said.

Among categories, packaged food, chocolates and confectionery, commodities and beverages saw sharp value growth of 15.8%, 11.8%, 10.8% and 10.7% each in the September quarter versus last year.

On the other hand, personal care and home care were weaker at 4.9% and 7.6% each in the quarter under review.

SEBI/HO/DDHS/DDHS-PoD/PI/CIR/2025/0000000137) DATED OCTOBER 15, 2025 ("SEBI MASTER CIRCULAR"), AS AMENDED. THE ISSUE IS NOT UNDERWRITTEN.

OUR PROMOTERS

Our Promoters are: (i) Subhash Chand Aggarwal; (ii) Mahesh C Gupta; (iii) Damodar Krishan Aggarwal; (iv) Sushma Gupta; (v) Himanshu Gupta and (vi) Pranay Aggarwal, Email: smcncd@smcindiaonline.com; Tel: +91-11-30111 000. For further details, see "Our Promoters" on page 206 of the Prospectus.

Credit Rating: "[ICRA] (A Stable)" (pronounced as ICRA A rating with a stable outlook by ICRA Limited)

ISSUE PROGRAMME*

ISSUE OPENS ON: MONDAY, OCTOBER 05, 2026

ISSUE CLOSES ON: FRIDAY, OCTOBER 16, 2026

*(1) This Issue shall remain open for subscription on Working Days from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) during the period indicated above, except that this Issue may close on such earlier date or extended date (subject to a minimum period of two Working Days and a maximum period of ten Working Days from the date of opening of the Issue and subject to not exceeding thirty days from filing the Prospectus with ROC) as may be decided by the Board of Directors of our Company or the Non-Convertible Debentures Committee subject to compliance with Regulation 33A of the SEBI NCS Regulations. In the event of an early closure or extension of this Issue our Company shall ensure that notice of the same is provided to the prospective investors through an advertisement in all the newspapers in which pre-issue advertisement for opening of this Issue has been given on or before such earlier or initial date of Issue closure. Application Forms for the Issue will be accepted only from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) or such extended time as may be permitted by the Stock Exchange, on Working Days during the Issue Period. On the Issue Closing Date, the Application Forms will be accepted only between 10:00 a.m. and 3:00 p.m. (Indian Standard Time) and uploaded until 5:00 p.m. or such extended time as may be permitted by the Stock Exchange. It is clarified that the Applications not uploaded on the Stock Exchange Platform would be rejected. Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. (Indian Standard Time) on one Working Day after the Issue Closing Date. For further details please refer to the chapter titled "Issue Related Information" on page 231 of the Prospectus.

THE FOLLOWING IS THE SUMMARY OF TERMS OF THE NCDs TO BE ISSUED PURSUANT TO THE PROSPECTUS:

Series	I	II	III	IV	V	VI
Nature	Secured	Secured	Secured	Secured	Secured	Secured
Frequency of Interest Payment	Annual	Cumulative	Annual	Cumulative	Monthly	Annual
Minimum Application	₹10,000 (10 NCDs) across all Series					
Face Value/ Issue Price	₹1,000					
In Multiples of thereafter (₹)	₹1,000 (1 NCD after minimum application)					
Tenor (Months)	24	24	36	36	60	60
Coupon (% per annum) for NCD Holders in Category I, II, III, IV	9.50	NA	9.75	NA	9.57	10.00
Coupon Type	Fixed					
Effective Yield (% per annum) for NCD Holders in Category I, II, III, IV	9.50	9.50	9.75	9.75	10.00	10.00
Mode of Interest Payment	Through various available modes					
Redemption Amount (₹ / NCD) on Maturity for NCD Holders in Category I, II, III & IV	₹1,000	₹1,199.03	₹1,000	₹1,321.95	₹1,000	₹1,000
Deemed Date of Allotment	The date on which the Board or a duly authorised committee approves the Allotment of NCDs. All benefits to the NCDs including interest on the NCDs shall be available to the investors from the Deemed Date of Allotment. The actual Allotment of NCDs may take place on a date other than the Deemed Date of Allotment.					
Put and Call Option	NA					

- Notes:**
- (1) With respect to Series where interest is to be paid on an annual basis, relevant interest will be paid on each anniversary of the Deemed Date of Allotment on the face value of the NCDs. The last interest payment under annual Series will be made at the time of redemption of the NCDs.
 - (2) With respect to Series where interest is to be paid on monthly basis, relevant interest will be paid on the first date of every month on the face value of the NCDs. The last interest payment under monthly Series will be made at the time of redemption of the NCDs. For the first interest payment for NCDs under the monthly options, interest from the Deemed Date of Allotment till the last day of the subsequent month will be clubbed and paid on the first day of that subsequent month.
 - (3) Subject to applicable tax deducted at source, if any.

ASBA*

Simple, Safe, Smart way of Application!!!

Mandatory in public issues. No cheque will be accepted.

*Applications supported by blocked amount (ASBA) is a better way of applying to issues by simply blocking the fund in the bank account. For further details, check section on ASBA below.

UPI-Now available in ASBA for Retail Individual Investors ("RII"). Bidders are required to ensure that the bank account used for bidding is linked to their PAN.

UPI is now available in ASBA for Retail Individual Bidders submitting bids up to application value of ₹2,00,000, and other investors up to application value of ₹5,00,000, applying through Designated Intermediaries, SCSBs or through the BSE Direct App/ NSE goBID/ Web interface of stock exchanges or any other permitted methods. For details on the ASBA and UPI process, refer to the details given in the Application Form and also refer to the section "Issue Procedure" on page 266 of the Prospectus. List of banks supporting UPI is also available on the websites of SEBI at www.sebi.gov.in. HDFC Bank Limited has been appointed as Sponsor Bank for the Issue, in accordance with the requirements of the SEBI Operational Circular dated August 10, 2021, as amended on UPI mechanism.

NCDs ALLOTMENT WILL BE MADE IN DEMATERIALIZED FORM ONLY. ALLOTMENT IN CONSULTATION WITH THE LEAD MANAGER AND THE DESIGNATED STOCK EXCHANGE SHALL BE MADE ON THE BASIS OF DATE OF UPLOAD OF EACH APPLICATION INTO THE ELECTRONIC PLATFORM OF THE STOCK EXCHANGES, IN EACH PORTION SUBJECT TO ALLOCATION RATIO, HOWEVER FROM THE DATE OF OVER SUBSCRIPTION AND THEREAFTER, THE ALLOTMENTS WILL BE MADE TO THE APPLICANTS ON PROPORTIONATE BASIS. FOR FURTHER DETAILS REFER SECTION TITLED "ISSUE RELATED INFORMATION" ON PAGE 231 OF THE PROSPECTUS.

Information required under Section 30 of the Companies Act, 2013

CONTENTS OF THE MEMORANDUM OF ASSOCIATION OF THE COMPANY AS REGARDS ITS OBJECTS: For more information on main objects of the Company, see "History and Certain Corporate Matters" on page 179 of the Prospectus and Clause III of the Memorandum of Association of the Company. The Memorandum of Association is a document for inspection in relations to the Issue. For further details see section titled "Material Contract and Documents for Inspection" on page 385 of the Prospectus.

LIABILITY OF MEMBERS: Limited by Shares.

AMOUNT OF SHARE CAPITAL AND CAPITAL STRUCTURE AS AT JUNE 30, 2026: The Authorized Share Capital of the Company is ₹ 95.51,00,000/- divided into 47,75,50,000 Equity Shares of face value of ₹ 2/- each. The issued, subscribed and paid up share capital of the company is ₹ 41,88,00,000/- divided into 20,94,00,000 Equity Shares of face value of ₹ 2/- each. For more information on the share capital of the Company, please refer, "Capital Structure" on page 70 of the Prospectus.

NAMES OF THE SIGNATORIES AT THE TIME OF SIGNING OF MEMORANDUM OF ASSOCIATION OF THE COMPANY AND THE NUMBER OF SHARES SUBSCRIBED FOR BY THEM: Mahesh C Gupta, Subhash Chand Aggarwal, Dinesh Chand Gupta, Om Kishan Gupta, Damodar Krishan Aggarwal, Sushma Gupta, Ashok K. Aggarwal were allotted 100 Equity Shares each aggregating to 700 Equity Shares.

LISTING: The NCDs offered through the Prospectus are proposed to be listed on BSE Limited ("BSE"). Our Company has received an 'in-principle' approval from BSE by way of its letter bearing reference DCS/AA/PI-BOND/13/26-27 dated September 18, 2026. For the purpose of this Issue, BSE shall be the Designated Stock Exchange.

DISCLAIMER CLAUSE OF BSE: It is to be distinctly understood that the permission given by BSE Limited should not in any way be deemed or construed that the Draft Offer Document has been cleared or approved by BSE Limited, nor does it certify the correctness or completeness of any of the contents of the Prospectus. The investors are advised to refer to the Draft Offer Document/ Offer Document for the full text of the Disclaimer Clause of BSE Limited.

DISCLAIMER CLAUSE OF USE OF BSE ELECTRONIC PLATFORM: It is to be distinctly understood that the permission given by BSE to use their network and software of the online system should not in any way be deemed or construed as that the compliance with various statutory requirements approved by BSE; nor does it in manner warrants, certify, or endorse the correctness or completeness of an of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of this Company, or its promoters, its management or any scheme or project of the Company.

DISCLAIMER CLAUSE OF USE OF NSE ELECTRONIC PLATFORM: It is to be distinctly understood that the permission given by NSE to use their infrastructure should not in any way be deemed or construed that the compliance with various statutory and other requirement approved by SMC Global Securities Limited, the Lead Manager, etc. are cleared or approved by NSE; nor does it in any manner warrants, certify, or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of this Issuer, or its promoters, its management or any scheme or project of the Issuer.

CREDIT RATING: The NCDs proposed to be issued pursuant to this Issue have been rated 'ICRA A Stable' (pronounced as ICRA A Stable) by ICRA Limited for an amount of up to ₹ 51,279.00 Lakh by way of its letter September 14, 2026. Ratings issued by ICRA Limited are valid as on the date of the Prospectus and will continue to be valid for the life of the instrument unless withdrawn or reviewed. Instruments with this rating are considered to have an adequate degree of safety regarding timely servicing of financial obligations. Such instruments carry low credit risk. The rating provided by ICRA Limited may be suspended, withdrawn or revised at any time by the assigning rating agency and should be evaluated independently of any other rating. These ratings are not a recommendation to buy, sell or hold securities and investors should take their own decisions. For the rationale, and press release for these ratings, see "Annexure B" on page 762 of the Prospectus.

DISCLAIMER CLAUSE OF ICRA RATINGS LIMITED: All information contained in the Press Release dated September 14, 2026, has been obtained by ICRA from sources believed by ICRA to be accurate and reliable. Although reasonable care has been taken to ensure that the information therein is true, such information is provided 'as is' without any warranty of any kind, and in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. All information contained therein must be construed solely as statements of opinion and not any recommendation for investment. ICRA shall not be liable for any losses incurred by users from any use of the Press Release or its contents. Also, ICRA may provide other permissible services to the Company on an arms-length basis.

GENERAL RISKS: Investment in non-convertible securities is risky and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under "Risk Factors" and "Material Developments" on page 21 and 212 respectively of the Prospectus. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor's decision to purchase such securities. The Prospectus has not been and will not be approved by any regulatory authority in India, including the Securities and Exchange Board of India ("SEBI"), the Reserve Bank of India ("RBI"), Registrar of Companies ("RoC") or any stock exchange in India nor do they guarantee the accuracy or adequacy of the Prospectus.

AVAILABILITY OF APPLICATION FORM: Application Forms can be obtained from: SMC Global Securities Limited, Tel: +91-11-3011 1000, 4075 3333; Lead Manager Corporate Professionals Capital Private Limited, Tel: +91 011 4062 2200; and offices of Consortium Members, Trading Members, Designated Intermediary(ies) and Designated Branches of the SCSBs. Electronic Application Forms will be available on the websites of the SCSBs that permit submission of ASBA Application electronically. Application Forms may be downloaded from the websites of the Stock Exchanges ("BSE" and "NSE"). Lead Manager and Consortium Members. Additionally, UPI Investor making an application in the Issue can also make bid through online (app / web) interface/ platform of the BSE i.e. "BSE Direct" or NSE i.e. "NSE goBID". Further, BSE Direct platform can be accessed at <https://www.bsedirect.com> or can be accessed through mobile app and NSE goBID can be accessed at <https://ipo.nseindia.com>. Further, Application Forms will also be provided to Designated Intermediaries at their request.

AVAILABILITY OF PROSPECTUS: Investors are advised to refer to the Prospectus and the "Risk Factors" on page 21 of the Prospectus, before applying in the Issue. Physical copies of the Prospectus can be obtained from the Company's Registered Office, offices of Lead Manager to the Issue, offices of Consortium Members, Registrar to the Issue, and Designated Branches of the SCSBs. Full copy of the Prospectus is available on the websites of the Issuer at www.smcindiaonline.com, of the Lead Manager at www.corporateprofessionals.com, of BSE at www.bseindia.com, respectively and on the website of SEBI at www.sebi.gov.in.

PUBLIC ISSUE ACCOUNT BANK/ SPONSOR BANK/ REFUND BANK: HDFC Bank Limited

CONSORTIUM MEMBERS: Globe Capital Market Limited and Moneywise Finvest Limited.

Note: Capitalized Terms not defined herein shall have the same meaning assigned to them in the Prospectus.

For further details, please refer Prospectus dated September 28, 2026.

DISCLAIMER: SMC Global Securities Limited ("Company"), subject to market conditions and other considerations, is proposing a public issue of secured, rated, listed, redeemable non-convertible debentures ("NCDs") and has filed a prospectus dated September 28, 2026 ("Prospectus") with the Registrar of Companies, Delhi ("RoC"), BSE Limited ("BSE"), National Stock Exchange of India Limited ("NSE") and Securities and Exchange Board of India ("SEBI"). The Prospectus is available on the website of the Company at: www.smcindiaonline.com, on the website of BSE at www.bseindia.com, on the website of NSE at www.nseindia.com, on the website of the Lead Manager at www.corporateprofessionals.com and on the website of SEBI at www.sebi.gov.in. Investors proposing to participate in the Issue should invest only on the basis of the information contained in the Prospectus. Investors should note that investment in the NCDs involves a high degree of risk and for details in relation to the same, refer to the Prospectus, including the section titled "Risk Factors" and "Material Developments" beginning on pages 21 and 212 respectively of the Prospectus. The Issuer and the Lead Manager accept no responsibility for statements made otherwise than in the Prospectus or in the advertisement or any other material issued by or at the instance of the Company and that anyone placing reliance on any other source of information would be doing so at their own risk.

CRUDE OIL SEEN AS A KEY SWING FACTOR

Street bets on H2 recovery

● Easing tensions in West Asia could improve equities, foreign flows outlook

KUSHAN SHAH
Mumbai, October 4

AFTER A TURBULENT first half marked by the West Asia conflict, volatile crude oil prices and heavy foreign investor selling, market experts expect Indian equities to fare better in the second half of FY27, provided geopolitical tensions ease.

The benchmark indices remained rangebound during April-September. However, there were sharp swings along the way. In the six-month period, the BSE Sensex gained just 0.74%, while the Nifty 50 rose 1.29%, as rising crude prices, pressure on the rupee and elevated global bond yields repeatedly weighed on sentiment. For the second half of FY27, crude oil remains the single biggest variable for the market.

A Balasubramanian, MD & CEO of Aditya Birla Sun Life Mutual Fund, believes markets have already priced in much of the bad news. He expects the West Asia conflict to cool off during the second half, potentially bringing down crude prices and market volatility.

HOPE FOR A BETTER SECOND HALF

■ Sensex gained just **0.74%** in H1 FY27

■ Nifty 50 rose **1.29%** in six months

■ Crude carries \$15-20 geopolitical premium

Agreed Sunil Singhanian, founder of Abakkus Asset Managers. He estimates that crude oil is currently carrying a geopolitical premium of around \$15-20 a barrel.

Pankaj Pandey, head of research at ICICI Securities, also sees crude as the most important variable for equities. "If crude prices remain high, bond yields will stay high, creating pressure on currency and the markets," he said.

Pandey expects tensions in West Asia to ease, reducing the impact of oil on markets over the next six months. Rajkumar Rath, chief investment officer at Yes Securities, however, said equities will have to navigate several other variables, including higher bond yields, the possibility of a Reserve Bank of India rate hike, El Nino and inflation.

FPI flows could turn with oil

Foreign portfolio investor (FPI) flows were another major drag during the first half. After heavy selling in the first quarter, FPIs returned as net buyers in July and August, only to retreat again when the West Asia conflict intensified in September.

Overall, foreign investors pulled out a net ₹1.30 lakh crore from Indian equities during the first half of FY27.

Singhanian said FPI flows are closely linked to inflation, bond yields and currency movements. The strengthening of the US dollar against several emerging-market currencies has contributed to foreign investor selling across these markets, including India. A correction in crude prices could change that equation by easing

pressure on inflation, yields and the rupee, potentially making Indian equities more attractive to overseas investors, he said.

Balasubramanian also expects policy measures to play a role in attracting foreign capital. He believes the government could consider further relaxation in capital-gains taxation for foreign investors in the next Union Budget.

Domestic fundamentals provide cushion

If external pressures ease, experts believe domestic fundamentals could begin to play a bigger role in determining the market's direction.

Balasubramanian expects the festive season to provide support after a difficult few months. Singhanian said much of the pressure on Indian equi-

ties remains external, while domestic economic growth and corporate fundamentals remain supportive.

Pandey, while seeing an RBI rate hike as a possibility amid changing bond-yield dynamics, remains constructive on equities, particularly financial services. Strong credit growth and greater clarity over leadership at some of the private banks could support the sector, he added.

Rathi also expects domestic flows, a robust credit cycle, manufacturing capital expenditure and resilient financial-sector fundamentals to provide a cushion against global volatility.

Banks and NBFCs, automobiles and manufacturing could report strong earnings in the second quarter, while the performance of IT services companies is likely to be shaped by AI-related disruption and deal wins, he said.

The broad message for the second half of FY27 is therefore one of cautious optimism. With much of the pressure on Indian equities originating overseas, an easing of the West Asia conflict and a retreat in crude prices could remove two significant overhangs — inflation and foreign investor outflows. But with geopolitical and monetary risks still difficult to predict, experts expect returns to remain moderate, with market performance dependent on earnings quality and domestic fundamentals.

● AVINASH RAGHAVENDRA, GROUP HEAD – IT & RETAIL OPERATIONS, AXIS BANK

'Bank must guard against concentration risk in tech'

Technology is evolving at a breakneck pace, requiring institutions to continuously adapt to remain competitive and customer-focused, says Avinash Raghavendra, group head – IT & retail operations, Axis Bank. In an interview with Christina Titus, he talks about the shift towards agentic AI, growing cyber threats, geopolitical and concentration risks arising from dependence on critical technology providers. Excerpts:

How are you navigating the rapidly evolving technology landscape?

At Axis Bank, our AI journey began well before generative AI. We have used AI and machine learning for over a decade in areas such as risk management and fraud detection. Early in that journey, we launched Adi, an AI-powered employee assistant, which has since evolved into a widely adopted platform with over 750,000 interactions and more than 35,000 monthly active users. Today, we are building on that foundation with generative AI and agentic systems that can drive intelligent decision-making, automation and productivity at scale.

Where is AI headed next in banking?

AI is rapidly evolving from an information and recommendation engine into an autonomous execution engine. The next phase of banking will be defined by AI's ability not only to assist decision-making but also to orchestrate actions across processes. Our focus is on deploying AI to automate repetitive operational activities, improve service efficiency and reduce turnaround times. We are also exploring agentic AI architectures that can manage end-to-end workflows across products, operations and assurance functions, creating more intelligent, scalable and

THE NEXT PHASE OF BANKING WILL BE DEFINED BY AI'S ABILITY TO ORCHESTRATE ACTIONS ACROSS PROCESSES

customer-centric processes.

How do you see cyber risks evolving, and what has the bank done over the past year?

Cybersecurity is undergoing a fundamental shift. Traditional perimeter-based security models are no longer sufficient in an AI-enabled world. Security must increasingly extend to every endpoint, user and machine interaction.

Over the past year, we have strengthened perimeter controls, enhanced access governance, established AI model-governance frameworks and embedded security controls within AI-assisted software-development pipelines.

Going forward, our focus will be on endpoint-level guardrails and continuous monitoring, recognising that AI tools are becoming widely accessible across the workforce.

We are also evaluating opportunities to reduce

dependence on external frontier models where appropriate, while exploring greater control through internally governed AI capabilities.

What worries you most about the pace of technological change? The pace of technological change is both the greatest opportunity and the greatest challenge. Institutions must continuously adapt to remain competitive, relevant and customer-focused.

A second concern is the growing complexity of emerging risks, particularly geopolitical and concentration risks associated with critical technology providers. As organisations increasingly integrate AI platforms into business processes, dependencies on external ecosystems become more significant.

This underscores the importance of resilience, diversification, business continuity planning and the development of sovereign capabilities that can operate independently under adverse scenarios.

How is AI strengthening cyber defence?

AI has significantly enhanced our ability to process vast amounts of information, identify patterns and respond to threats at speed and scale.

In cyber defence, this translates into faster threat detection, accelerated investigation of incidents and quicker remediation of vulnerabilities. For instance, when a zero-day vulnerability emerges, AI enables security teams to rapidly analyse intelligence, identify potential mitigations and deploy responses far more efficiently than traditional approaches. This has materially improved both our defensive capabilities and operational resilience.

(Read full interview on www.financialexpress.com)

FROM THE FRONT PAGE

Inflation risk may nudge RBI towards 25 bps rate hike

INDRANIL PAN, CHIEF economist at YES Bank, also expects a 25-bps hike, putting the probability of a delay at just 10-15%. However, Pan said the prevailing liquidity surplus raises questions over how effectively a rate hike would transmit through the economy.

Retail inflation rose to 4.8% in August from 4.45% in July and economists expect it to climb further. Elevated crude oil prices and El Nino-related pressures on food prices have added to concerns over the inflation trajectory. At the same time, GDP

expanded 7.8% in the April-June quarter, exceeding the RBI's earlier projection and giving the central bank greater room to respond to inflation risks.

Barclays, Nomura and Goldman Sachs expect the MPC to raise rates by 25 bps each in October and December.

Nomura sees the hikes as a pre-emptive recalibration rather than the start of an aggressive tightening cycle. It expects inflation to rise to 6.3% in the October-December quarter before moderating, with the repo rate peaking at 5.75%. It expects the

neutral stance to be retained.

Barclays also sees the terminal repo rate at 5.75%, but expects the RBI to continue absorbing excess liquidity to improve monetary policy transmission.

Goldman Sachs also expects another 50 bps of tightening in the first half of 2027, taking cumulative hikes in the cycle to 100 bps. It cited stronger growth, broadening inflation pressures and tighter global monetary conditions for bringing forward its rate-hike call. However, not everyone expects

the RBI to move in October.

Madan Sabnavis, chief economist at Bank of Baroda, expects the MPC to keep both the repo rate and stance unchanged. "Raising rates while inflation is still at 4.8% — even though we expect it to cross 6% soon — may be premature, especially just before the busy festival season," Sabnavis said. He also argued that the recent FCNR measures and surplus liquidity could weaken the transmission of a rate hike.

HDFC Bank also expects the repo rate to remain unchanged,

but sees the possibility of the stance shifting towards tightening. It expects the RBI to raise its FY27 GDP growth forecast to 7% from 6.7%, while leaving its inflation projection unchanged.

Pan expects the RBI to raise its growth forecast by 20-30 bps to around 7%, while SBI Research expects a 30-bps upward revision in growth and a 20-bps increase in the FY27 inflation forecast.

The six-member MPC will meet from October 5, with the policy decision due on October 7.

Explainer

● What does the survey say about domestic travel?

FAITH AND PILGRIMAGE is driving domestic travel in India, accounting for 48% of all overnight trips, according to the latest Domestic Tourism Expenditure Survey (DTES) report released by the Ministry of Statistics and Programme Implementation (MoSPI). Health and medical purposes were the second most common reason (30%) for people travelling, with holidaying, leisure and recreation at a distant third at 22.1% in the last one year. When it comes to travelling in the last 30 days, social reasons (meeting friends and relatives, attending family events such as marriages) were the top driver at 89.3%.

Combining visitors both from within the state and from other states, Uttar Pradesh accounted for the highest share in total visitor-trips (15.7%), followed by Tamil Nadu (13.4%) and Rajasthan (8.0%). Peak month of travel was May when schools are typically closed for summer holidays followed by October which coincides with the peak festival season. The findings have implications for all sections of the travel industry — from big tour operators and budget hotels to homestays and even local taxi drivers.

● What was the methodology for the survey?

THIS REPORT PRESENTS the estimates of various characteristics pertaining to domestic tourism at national as well as State/UT levels in 2025-26, based on the results of NSS 80th round survey. A multi-stage stratified sampling design was used, where villages/urban blocks or sub-units

TRAVEL TRENDS

Why pilgrimages are India's best idea for a holiday

Pilgrimages dominate the domestic travel circuit with almost one in two Indians criss-crossing the country visiting a religious spot, says a recent government survey. However, there is considerable headroom to increase both the value & quality of domestic tourism.

Banasree Purkayastha interprets these & other travel trends

days with leading purposes holidaying, leisure and recreation, pilgrimage and religious activities, health & medical and shopping. The reference period for data on overnight trips with leading purposes business, social, education & training and others was last 30 days.

48%

OF OVERNIGHT TRIPS DUE TO PILGRIMAGES

THESE DESTINATIONS ALREADY HAVE STRONG DEMAND; THE OPPORTUNITY IS TO MAKE THE EXPERIENCE BETTER ORGANISED & ENCOURAGE VISITORS TO STAY LONGER AND SPEND MORE

● What were the other key findings?

SUBSCRIBERS WITH LIMITED or Domestic trips tend to be fairly short -- around 80% of visitors stayed for five days or less during their overnight trips. While religious trips accounted for nearly 50% of all travel, these were the cheapest trips. For the urban traveller, health & medical trips cost the most (₹41,649) while pilgrimage and religious trips were the cheapest averaging ₹9,920. Shopping trips were the second most expensive, followed by holidaying, leisure and recreation. Rural India depicted the same trends. Among urban overnight visitors, hotels and guesthouses were the most preferred type of stay, accounting for 36% share in visitor-trips. Most travellers preferred to book tourist services (accommodation, travel, food, etc) directly, with or without the help of the internet, preferring to give tour operators/ guides a bye. Buses were the most common mode of transport among rural households, accounting for 32% of visitor-trips. In urban areas, trains led the way, with a 35% share.

● Domestic travel vs outbound travel

DOMESTIC TOURISTS NUMBERED 4.29 billion in 2025, while Indian tourists' departures to foreign travel spots touched 32.7 million, as per the ministry of tourism's Annual Tourism Snapshot 2025. According to Mehra, what is of concern is that in percentage terms outbound travel has grown faster, particularly among Indians with greater discretionary spending power. "One of the reasons is the perceived value for money offered by some international destinations," he says.

● Industry views on these trends

WHILE THE INDUSTRY can take encouragement from the growth in domestic travel, the data shows that there is considerable headroom to increase both the value and quality of domestic tourism. "Pilgrimage and religious travel will continue to be a very important segment, but there is an opportunity to encourage travellers to combine pilgrimage with leisure and local experiences," says Rajiv Mehra, general secretary, Federation of Associations in Indian Tourism and Hospitality. The first priority should be to improve the existing major pilgrimage destinations, he says. Crowd management, safety and security need attention. There is also a need for more good-quality budget accommodation around pilgrimage centres. Once the basic infrastructure and visitor experience improve, there is an opportunity to link pilgrimage with nearby leisure, cultural and and experiential tourism. That can increase the economic value of each visitor and ensure better earnings for the sector.

GOLD PURCHASES

Rajeev Sharan, Head, Research, Brickwork Ratings

Record gold prices may moderate jewellery volumes, with many buyers opting for lighter pieces or leaning towards coins & digital gold.

Hedge equity risks with multi-asset funds

RETURNS SETTLE INTO A RANGE BETWEEN THOSE OF DEBT & EQUITY OVER A FULL CYCLE

SAIKAT NEOGI

AS THE NIFTY is trading at six-month lows and has touched its 200-week moving average for the first time since Covid, it is safer to consider multi-asset funds. The built-in diversification helps, and putting in money through a systematic investment plan (SIP) adds a second layer of protection by removing entry-timing risk.

In the 12 months to August 2026, multi-asset funds drew about ₹68,500 crore, ahead of small-cap funds at ₹62,300 crore and mid-cap funds at ₹61,000 crore. Part of this is performance chasing, since flows rose in step with the gold rally. Over a two-year period, the average SIP returns of multi-asset funds was 8.5% against 7.6% for mid-cap funds and 4% for large-cap funds.

The real value is behavioural as a multi-asset fund's swings are smaller than a pure equity fund. Investors are more likely to keep the SIP running through a correction. "That continuity matters more than chasing the best-returning category in any single year," says Nirav R Karkera, head of research, Wby Groww.

Asset allocation

The higher returns of multi-asset funds came mainly from asset allocation, not from stock picking. In the last two years, gold and silver deliv-

DIVERSIFICATION MATTERS

ered unusually strong gains, while equity returns were moderate and debt earned steady interest. International allocations —select funds holding 5%-12% in overseas equities and fund units —have helped, too. For Indian investors, a weakening rupee and higher import duties also raised local gold prices beyond the global rally.

Investors must weigh these funds over the long run rather than on recent performance. "A multi-asset fund is designed to steady returns across cycles, not to lead in any single one," says Gurmeet Singh Chawla, managing director, Master

Portfolio Services.

The diversification helps in reducing risks as different asset classes take different trajectories to the same macro environment. "The key is disciplined allocation and rebalancing rather than chasing the best-performing asset," says Prashasta Seth, CEO, Prudent Investment Managers.

Will momentum persist?

Strong gold rallies are usually followed by long periods of flat or falling prices. A weaker rupee and higher import duties are one-time boosts, not repeatable sources of

return. If equity, especially small-caps and mid-caps, takes the lead, the multi-asset fund's gold and debt holdings will hold back returns. Investors should expect multi-asset returns to settle into a range between debt and equity returns over a full cycle. "These funds are best judged on smoother returns across cycles, not on matching their recent performance," says Kush Gupta, director, SKG Investments and Advisory.

Before investing, look at the fund's equity range and how it has moved over time, the size and composition of the commodity allocation and the rebalancing rules.

LOAN METRICS

HOME LOAN

Be sure you can afford the EMIs

Those planning to take a home loan should not assess affordability based on only current interest rates. They must leave room for higher EMIs in the future as these loans are for a longer tenure.

SMART MONEY

PRECIOUS METALS

Buy digital silver via SIPs on JioFinance app

JIO FINANCE PLATFORM and Service has launched a new offering called JioSilver on its JioFinance app that offers 99.9% pure, physical-backed digital silver, with investments starting at just ₹10. Investors can set up recurring silver systematic investment plans (SIP) with the flexibility to opt for

weekly or monthly SIP frequency. Investors can view live silver prices, holdings and transactions through a dedicated JioSilver dashboard on the app.

HEALTH INSURANCE

ICICI Lomard targets Gen Z with health plan

ICICI LOMBARD GENERAL Insurance has introduced VIBE, a Gen Z-first health protection plan built on the IL Take Care (ILTC)

proposition. Bringing together comprehensive hospitalisation cover, everyday healthcare, mental wellbeing, and lifestyle-linked rewards, VIBE is designed to offer a more holistic approach to health protection to young adults in the 18-35 years age group. The online-first product provides inpatient hospitalisation cover, along with an unlimited reset of the sum insured, ensuring continued financial protection in case of multiple hospitalisation needs.

Education

How IIM Bangalore turned GenAI into the exam paper itself

IT ALLOWED STUDENTS TO USE ARTIFICIAL INTELLIGENCE IN EXAMS, WITH A TWIST

VIKRAM CHAUDHARY

AS HIGHER education institutions grapple with the ethics of using Generative AI in classrooms and examination halls — and some even deploy unreliable detection tools to catch students cheating — Indian Institute of Management Bangalore has done something unique. It has allowed students 'controlled' use of AI in exams, with a twist.

During the June-July term this year, 78 MBA students across core Business Analytics and general MBA elective cohorts took their GenAI midterm not by putting pen to paper, but by training and deploying their own chatbots to answer questions on their behalf.

The initiative was spearheaded by Prof Subhabrata Majumdar, who built a custom, password-protected testing platform on Vercel — a cloud platform for web applications — in just two weeks using AI-assisted coding tools. To ensure academic integrity and data privacy, the platform operates as a secure cloud environment. The underlying Large Language Model (LLM) is strictly restricted to assigned course materials, preventing internet access.

According to Prof Majumdar, students were given a month to experiment, build draft versions, and evaluate different iterations of their chatbots before submitting one final bot for grading. The exam questions were identical to what a traditional midterm would test on

GenAI concepts, but supplied through the chatbot they built.

Because the platform was architected as a no-code Retrieval-Augmented Generation workflow, non-technical students were not disadvantaged compared to those with coding backgrounds. Instead, grading evaluated prompt engineering, parameter tuning, and how effectively students operationalised course material.

"Chatbots that scored highly had prompts with detailed instructions tailored towards answering questions realistically, keeping outputs brief, or augmenting low-quality

During June-July, 78 MBA students took GenAI exam by training their own chatbots to answer questions on their behalf

converting their course material into plain text to optimise accuracy. "It trains them for industry-relevant soft skills, such as decision-making under uncertainty," he said.

This approach is a departure from static, memory-based assessments towards practical application. Drawing from eight years of industry leadership prior to acade-

answers with the model's knowledge," said Prof Majumdar.

It tested decision-making under technical constraints. When students discovered the platform struggled with complex PDF format, high-performing cohorts adapted by

SUBHO MAJUMDAR, FACULTY, IIM BANGALORE

Students were given a month to experiment and evaluate different iterations of their chatbots before they submitted one final bot for grading.

mia, Prof Majumdar said that real-world execution hinges on problem-solving rather than rote recall. "Future leaders with hands-on knowledge will be able to quickly relate to technical teams, grasp deployment limitations, and accelerate project timelines. A hands-on, no-code evaluation is far more effective for B-school students than traditional closed-book exams."

Initial student feedback for the format was overwhelmingly positive, yielding evaluation scores between 4.5 and 5 out of 5. Following the success of the midterm, Prof Majumdar plans to open-source the Vercel-based platform and collaborate with faculty colleagues to scale the testing framework across other courses at IIM Bangalore.

India's demographic dividend needs more than degrees

FOR MILLIONS OF young Indians, a university degree represents more than an academic qualification — it is expected to lead to meaningful work, economic security, and dignity. Yet degrees alone cannot guarantee a demographic dividend. What matters is whether education develops capabilities young people can use productively, and whether the economy creates opportunities to do so.

If every difficulty in the college-to-work transition is labelled a 'skills gap', the response may be more training even when suitable jobs are unavailable. Conversely, focusing solely on job creation overlooks the preparation required to enter, perform, and progress in the workplace. India must address both.

Beyond the 'employability' label

The India Employment Report 2024 (ILO and Institute for Human Development) estimated unemployment among young graduates at 29.1% in 2022. It highlights the struggle moving from higher education to work, but high unemployment does not prove graduates lack ability.

While some graduates may lack expected competencies, others possess capabilities but find too few opportunities. Wages, location, working conditions, and professional networks also influence outcomes. Graduates are often expected to have work experience before having any opportunity to acquire it. Labelling youth 'unemployable' obscures this shared responsibility.

Connect learning, work, research

Education, employment, and research form one knowledge ecosystem. Education develops the capacity to investigate, employment allows applying capabilities, and research generates actionable knowledge. R&D expenditure grew from 0.64% of GDP in 2020-21 to 0.84% in

2023-24, with researchers rising from 262 to 354 per million (DST R&D Statistics 2025-26). Yet investment requires institutions capable of translating knowledge into practice.

The foundations begin in school. A project on campus water consumption, for example, could require students to measure usage, identify wastage, calculate costs, and test solutions. Science, mathematics, communication, and teamwork converge around a real problem whose answer is not supplied in advance. Such learning requires teachers trained for inquiry-based pedagogy that values problem-solving.

Higher education should build on this foundation. Programmes should make clearer what graduates can investigate, design, or improve.

From placements to pathways

Two simple changes could give these high ambitions practical shape:

Structured placements: Colleges, universities, and training institutions should partner with employers for paid, supervised work experience featuring defined learning plans, mentors, as well as academic supervisors.

Sustained research partnerships: Universities should collaborate with enterprises and public institutions on jointly defined research questions with reliable funding, while protecting fundamental research.

A billion possibilities become a national dividend only when people have the capability to contribute and the opportunity to do so. That responsibility belongs collectively to India's schools, universities, employers, research institutions, and public policy makers.

Fix the internship

The scheme must prioritise completed courses and jobs over headline opportunity numbers

THE PRIME MINISTER Internship Scheme (PMIS) is approaching its second anniversary with a sobering lesson for employment policy: Creating an opportunity on paper is not the same as creating one that people consider worth taking. Across its first three rounds, companies posted about 400,000 internship opportunities, but only 39% translated into offers and just 20% of those offered internships actually joined. The first two rounds were particularly disappointing. Round 1 saw 60,866 offers produce only 8,760 joiners, of whom 4,698 subsequently dropped out; Round 2 generated 71,192 offers but only 7,300 joiners, with 2,648 dropping out. Round 3 has improved substantially, with 14,620 candidates joining against 25,794 offers, although completion rates are not yet known. The numbers are a useful reality check on the belief that India's employment challenge can be addressed simply by creating more subsidised openings. An opportunity workers do not consider worth taking is hardly an opportunity.

To its credit, the government has responded to some early weaknesses. Monthly financial assistance has been raised to at least ₹9,000, the eligible age band widened to 18-25 years, and final-year undergraduate and postgraduate students included. But the experience points to deeper problems that cannot be fixed merely by increasing vacancies. Candidates make rational calculations about an internship's value. Relocating entails rent, food, and transport costs, besides the opportunity cost of foregoing other employment. Even ₹9,000 may be inadequate for necessary relocation. If the work bears little relation to a candidate's skills or career ambitions, the internship may have limited appeal. Location, pay, and aspiration mismatch have emerged as reasons for candidates leaving after joining. The policy challenge is to make internships worth accepting and completing, rather than simply expanding their supply.

The scheme's fiscal performance underlines the gap between ambition and implementation. Against estimated expenditure of ₹2,000 crore in FY25, actual spending was about 1.5%; in FY26, actual expenditure was 0.9% of the ₹10,831-crore estimate. Such extraordinary underspending suggests assumptions about scale ran far ahead of participation. The wrong response would be to compensate for poor conversion by raising targets or pressing companies to post more vacancies. Instead, PMIS should be redesigned around the problems participants have revealed. Better geographical matching could reduce unnecessary relocation; where relocation is unavoidable, accommodation or additional support deserves consideration. Stipends should better reflect living costs. Companies should be assessed not on positions listed but on the quality of work, mentoring, skills imparted, and completion rates. These are better indicators of whether public support is producing value.

Most importantly, PMIS must change how it defines success. Its public dashboard should track the entire funnel — vacancies, applications, offers, joining rates, dropouts, and completions — across companies, sectors, and locations. It should then follow participants to establish how many secure regular employment and if those jobs use skills acquired during the internship. Such information would identify companies and sectors where internships provide credible pathways into work, allowing public resources to flow towards models that deliver. It would also help policymakers distinguish between temporary participation and durable improvements in employability. India needs stronger bridges between education and employment, and PMIS can provide one. But its first two years suggest scale without relevance achieves little. The government should resist declaring success through ever-larger opportunity numbers. The test is not how many internships companies advertise, but how many youths complete them and move into productive employment.

● THE HUMAN FACTOR

When bosses exit, without leaving

THERE IS SOMETHING wonderfully optimistic about the phrase "succession planning." It suggests an orderly world in which senior people prepare their successors, transfer their wisdom, accept a tasteful memento at a farewell dinner, and then disappear. Despite the wonderful succession planning dossiers that the HR keeps ready, the difficulty begins when succession requires the incumbent actually to go.

It becomes harder when the incumbent has stayed long enough to become larger than the job. Long-serving leaders accumulate something that cannot be transferred through a handover note. Their habits become culture, preferences become policy, and judgements become precedents. Eventually, the organisation cannot distinguish between the institution and the individual running it. This is when succession planning begins to resemble the search for a replacement spouse. The requirement is contradictory: find someone different enough to be a new leader but similar enough to ensure nothing changes.

Many high-profile recent instances show that India Inc has produced several such examples of people who remained the defining figure for their organisations for decades. The problem in such cases is not necessarily that the old boss refuses to leave. He may genuinely want to. The problem is that everybody else has forgotten how to imagine the organisation without him.

So the former boss survives as a kind of corporate poltergeist. "That's not how Mr X would have done it," somebody says, and Mr X, who is possibly playing golf far away, is suddenly back in the conference room. Founders are particularly accomplished at this form of afterlife. So are charismatic CEOs and chairmen who stayed long enough for personal preference to become institutional tradition. They may surrender the corner office, company car, and executive assistant, but somehow retain custody of the organisation's imagination. Their successors inherit not just a job but an invisible colleague.

This colleague is especially formidable because he cannot be contradicted. The new CEO proposes something. Someone remembers that the old CEO tried it in 2007. The new CEO wants to reorganise a division. Someone recalls why Mr X specifically designed it that way. Before long, the successor discovers that his principal task is not running the company but conducting a daily referendum on whether he is sufficiently like the person he replaced. Worse, the predecessor does not even have to intervene. His former colleagues do it for him.

This is why organisations find succession much harder than succession planning. Leadership is supposed to be a job; over time, it becomes an identity — for both leader and institution. Employees who have spent years learning what pleased the boss cannot suddenly unlearn it. Boards prize "continuity", one of those corporate words that sounds unquestionably virtuous until one asks how much continuity is enough. Successors themselves invoke predecessors because borrowed authority is useful while their own is still being established. The safest sentence in many companies remains: "This is how we have always done it."

There is, of course, good reason to preserve institutional memory. A company that treats every incoming CEO as Year Zero will repeatedly rediscover old mistakes at considerable expense. But memory should advise the present, not govern it. The point of succession is not to find a convincing impersonator of the previous leader. It is to allow someone else to lead.

Perhaps every succession plan therefore needs something management textbooks discuss less enthusiastically: an extinction plan. Not for the boss, obviously, but for his authority. Which decisions now belong entirely to the successor? When does consultation stop? Which traditions survive because they remain sensible, and which because nobody wants to be the first to say, "Mr X was wrong"? Boards might usefully spend as much time planning the predecessor's disappearance as the successor's arrival.

The ultimate test of succession, after all, may not be whether the old boss can leave. It is whether everybody else can let him. Every organisation needs a memory but it does not need a ghost.

● GROWTH DRIVER

ITS GROWING MATURITY GIVES US A STRONGER FOUNDATION FOR THE NEXT STAGE OF REFORM

The next-gen GST

NIRMALA SITHARAMAN

Union Minister of Finance and Corporate Affairs

collections for these four months accelerated by nearly 15%. Net collections, after refunds, also grew by 10.4% over the half-year. Taxpayer relief has coexisted with growth in the resources available for development.

The breadth of the expansion matters as much as its scale. Reported taxable supplies grew across all 11 sector groups and all major states. In an economy as diverse as India's, this spread is significant. Growth across sectors and regions creates opportunities for more businesses to participate in expanding markets, and for more communities to benefit from the demand, investment, and employment that follow.

Reported sales to consumers (B2C) also rose by 26.7% in the post-reform comparison. When tax relief is reflected in prices, families have more room to meet other needs or save. Consumer relief and enterprise growth are closely connected: the purchasing power of households sustains demand for the goods and services that businesses provide. The benefits can extend from the household to the retailer, the supplier, and the producer.

For small and medium enterprises, a national market is valuable when it opens a practical route to customers beyond their immediate surroundings. Businesses in Tier-II and Tier-III towns should be able to build those relationships while

continuing to invest and employ people locally. Enterprises expanding into these towns, in turn, can create opportunities for local suppliers and distributors. GST's common framework supports these connections; simpler administration must make them easier to sustain.

Participation in that framework is substantial. GST registrations across central and state jurisdictions stood at approximately 1.71 crore at the end of August, up nearly 15% from a year ago. For the April-July 2026 tax periods, GSTR-3B returns filed by their due dates were 12.6% higher than for the same periods last year. These improvements place a corresponding responsibility on the administration: regular compliance must be supported by reliable service, clear guidance, and timely resolution of difficulties.

The functioning of input tax credit is another important part of this experience. The post-reform figures show that the share of tax liability discharged through credits rose, while accumulated credit declined relative to taxable supplies. This is encouraging for businesses that depend on the effective use of eligible credit. For a smaller firm, working capital determines how readily it can purchase inputs, fulfil an order, and take on the next one.

Refunds are equally relevant. Approximately ₹1.80 lakh crore was refunded

The proposals before the council on October 7 address registration, returns, refunds, disputes, and improved flow of input tax credit, with the aim of reducing the time and cost of compliance

Starting early, staying shallow

SAMIRAN CHAKRABORTY

Managing Director and Chief Economist, India, Citigroup Global Markets

THE MACROECONOMIC LANDSCAPE has shifted considerably since the RBI's August Monetary Policy Committee (MPC) meeting. Both globally and domestically, growth has demonstrated commendable resilience — but that is only half the story. Persistent geopolitical tensions have tilted inflationary risks sharply to the upside, prompting central banks worldwide to recalibrate their actions and guidance. Across developed and emerging markets alike, bond yields are rising, even as policymakers and market participants debate the underlying drivers of this dislocation and how long financial systems can absorb the pressure from elevated rates.

Against this altered backdrop, we expect the RBI MPC to reverse the rate cycle at its October meeting. The question of whether rates will rise has largely been settled — the more nuanced debate now centres on the quantum of the hike, the stance, revised forecasts and forward guidance, liquidity management measures, and any signals around the RBI's currency view. Before examining these finer points, it is worth recapping the case for a rate hike in October.

Even at the August MPC meeting, the RBI's own projections pointed to headline inflation in the 5.5-6.0% range over the following three quarters. With policy rates left unchanged, this implies uncomfortably low real rates and risks the perception of the central bank falling behind the curve — particularly given the direction of travel among global central banks and the trajectory of sovereign yields. Meanwhile, with GDP growth printing at a robust 7.8% year-on-year in Q1FY27, the RBI has little reason to fear a significant

growth sacrifice from a moderate tightening move. If the central bank was holding out for greater confidence in its inflation outlook, developments over the past two months have provided clarity — though not of the reassuring kind. Every material data point signals upside, not downside, risk to the consumer price index (CPI) trajectory.

It is now highly likely that the October MPC will see meaningful upward revisions to both FY27 growth and inflation forecasts. On growth, we see 30-50 basis points (bps) of upside risk to the RBI's FY27 real GDP forecast of 6.7%, given that Q1FY27 alone came in 80 bps above the central bank's own estimate of 7.0%. On inflation, September CPI is tracking around 5.6% year-on-year, implying Q2FY27 inflation at approximately 5.0% — already 30 bps ahead of the RBI's forecast. But the risks extend well beyond the September print. The diffusion index in August CPI climbed to its highest level since the series began in 2015, raising the spectre of generalised inflation likely to weigh on the MPC's deliberations. Global crude oil prices remain near \$100 per barrel, and petrochemical product prices have rebounded to March-April levels, with consequences for input costs and consumer prices alike. Wholesale price index manufacturing inflation, running above 8%, could eventually filter through to still-subdued CPI core goods inflation. A deficient monsoon is pressuring kharif crop prices, and with a

Historically, the RBI tightening phases tend to be shallower and less protracted than those of its global counterparts

strong El Niño expected to persist into early next year, risks to the winter crop are equally concerning. The World Bank's EM Food Price Index has swung from -0.3% year-on-year in February to 11.5% in August — a reversal that cannot be ignored. Taken together, we see approximately 20 bps of upside risk to the RBI's core inflation forecast of 4.3% for FY27, and around 10 bps to the headline forecast of 5.0%. The semi-annual Monetary Policy Report, due alongside the October decision, will provide the RBI's first quarterly inflation estimates for FY28 — a critical input for markets gauging ex-ante real rates and the policy path into 2027 — and may also include a reassessment of the neutral rate.

The current MPC has consistently used the policy stance as a forward guidance tool, signalling the direction and duration of the rate cycle rather than committing to a terminal rate. October may be premature for the committee to declare a definitive endpoint. A neutral stance preserves flexibility and allows the MPC to frame a potential hike as a recalibration rather than the opening salvo of a prolonged tightening cycle. December, with the benefit of additional data, would be a more appropriate moment for a stance reassessment. Even so, the parameters the RBI flags as conditions for future hikes will be closely watched.

On liquidity, our projections suggest the current exceptional durable surplus will organically moderate by Q4FY27. It

during April-September. Returning amounts due to businesses is part of a well-functioning tax system. Greater predictability in this process would help enterprises plan purchases and production with more confidence. The taxpayer's experience of receiving an eligible refund is an important measure of administrative performance.

The states also have a stronger revenue position. Their aggregate SGST receipts, including their share of IGST settlements, grew by about 16% during April-September this year. These resources support investment in infrastructure and public services, which improve the conditions in which families and enterprises pursue their aspirations. The gains can therefore reinforce one another: household relief supports demand, enterprise strengthens economic activity, and public revenues help sustain development.

The experience also points to the work ahead. A growing system must remain attentive to the costs it imposes on smaller participants. Their time and resources are limited. Each improvement in filing, credit, or refunds should allow more of those resources to be devoted to running and expanding a business.

The proposals before the council on October 7 have been developed through sustained work with the states. They address registration, returns, refunds, disputes, and improved flow of input tax credit, with the aim of reducing the time and cost of compliance. Taxpayer experience must continue to guide implementation.

GST's growing maturity gives us a stronger foundation for the next stage of reform. The same commitment to clarity, certainty, and respect for the taxpayer guides our work on direct taxes. A dependable tax system enables enterprises to plan beyond their immediate obligations and invest in opportunities that take time to mature. Giving them that confidence, wherever they operate, helps build the economic strength of a *Viksit Bharat* as envisioned by Prime Minister Modi.

would therefore be prudent to allow overnight rates to adjust gradually toward the repo rate, rather than forcing an immediate convergence through aggressive withdrawal. Short-tenor sell/buy FX swaps and other FX interventions are likely to remain the primary absorption tools, offering maximum flexibility — though their effectiveness will be tempered by the limited depth of these markets. Additional open market operations sales of approximately ₹1.0 trillion are also possible, with an announcement potentially accompanying the policy statement.

If the MPC opts for a front-loaded 50-bps hike — premised on a baseline of 100 bps of cumulative tightening — it would carry hawkish overtones for markets, and would likely need to be accompanied by a stance shift to "calibrated tightening" and more assertive liquidity absorption. While such a package could bolster the RBI's inflation-fighting credibility and support the currency in an era of rising global yields, it may be too aggressive a step so early in the cycle. Historically, the RBI tightening phases tend to be shallower and less protracted than those of its global counterparts, often reversing previous rate cuts without doing so in their entirety.

Weighing these considerations, the principal message from the October MPC is likely to be one of an early, calibrated start to the tightening cycle — precisely to minimise the need for steeper hikes later. We continue to expect 50-75 bps of cumulative rate increases in this cycle, sustained until the MPC has clear visibility of a forward-looking headline CPI converging to its 4% target.

Still betting big on the little master

MORE THAN A DECADE SINCE RETIREMENT, SACHIN TENDULKAR’S ENDORSEMENT SCOREBOARD KEEPS TICKING

CHRISTINA MONIZ

JUST LAST WEEK, Open AI announced a multi-year partnership with cricket veteran Sachin Tendulkar, with the objective of helping Indians understand how best to use AI in their personal and professional lives. The company also rolled out an ad film for ChatGPT featuring the retired cricketer. OpenAI has become one of the estimated 23-plus brands that now have the master blaster as their ambassador, up from 15 in 2022.

Despite retiring over a decade ago (in 2013), Tendulkar has landed endorsement deals for brands such as Apollo Tyres, SML, Tanishq, Luminous Power Technologies, Organic India and more. His endorsement fee has stayed consistent at ₹8 to 10 crore. According to Kroll, his brand value as of 2025 is \$125.9, making him the fourth most valuable celebrity in the country

after Shah Rukh Khan, Ranveer Singh and Virat Kohli, in that order. This is a cricket star that carried the hopes of an entire nation with humility and dignity, notes Santosh N, managing partner, D and P Advisory. That emotional connection exists across generations, from those who watched him play in the 1990s to today’s generation that recognise him as someone their parents admired.

“This gives Tendulkar an unusual versatility, allowing him to represent legacy brands like Apollo Tyres and Tanishq, while also helping new-age brands such as ChatGPT,” Santosh says. He is familiar without being outdated, aspirational without being distant, and respected without appearing manufactured.

The one major quality that Tendulkar offers in spades is trust, say experts. If Kohli brings flamboyance and energy and Kapil Dev represents Indian cricket’s storied history, Tendulkar brings the kind of trust and reassurance that no one else does.

Experts also say his longstanding

LONG INNINGS

- Tendulkar endorses an estimated 20-25 brands, up from 15 in 2022
- His endorsement fee is ₹8-10 crore per year
- Brand value is over \$125 million, making him India’s fourth most valuable celebrity

Source: Kroll, industry

refusal to endorse alcohol or tobacco brands, which are big spenders during sports tournaments, has also given Tendulkar the responsible-role-model halo.

Ajimon Francis, MD India, Brand Finance, says Tendulkar has also remained top of mind with his consistent visibility on social platforms. “He maintains a steady following, and remains visible during the Indian Premier League and many other important cricket events,” says Francis. That carefully-cultivated dad-next-door appeal has worked well for brands across categories.

Moving the needle

Most partnerships featuring Tendulkar seldom move the needle on brand or business metrics, argues Sandeep Goyal, managing director, Rediffusion. “Even for a brand like ChatGPT, it is unclear what impact the association will have on younger target consumers, who might never have watched him play. While Tendulkar may be a highly visible face that consumers trust, it remains to

be seen if the brands he endorses actually acquire the same kind of trust by virtue of their association with him,” says Goyal.

Also, with the little master becoming the face of close to 25 brands, there is a serious risk of overexposure, says Goyal. “Brands will need to outspend each other to gain greater visibility,” he adds. Campaigns that are not backed with differentiated strategies or big spending are likely to turn trust into background noise.

Brand Finance’s Francis notes that since Tendulkar is not the best orator, most brands tend to use just his face or his sport in their ads. He recommends advertisers take a leaf out of Spinnny’s campaigns like “God Promise”, which featured an almost silent Tendulkar performing different tasks, while the brand’s promises played on screen. The campaign worked to build faith in a brand operating in the tricky category of second-hand cars that suffers from trust deficit, ecosystem fragmentation and evaluation complexity.

● INTERVIEW: SERGIO LOPEZ FERRERO, GLOBAL CEO, OMNICOM PRODUCTIONS

‘Production has become the change agent for clients’

Artificial Intelligence has fundamentally reshaped the advertising landscape, touching every phase of a campaign from initial conception to final optimisation. In this interview, Sergio Lopez Ferrero, global CEO, Omnicom Productions, tells Kartikay Kashyap how production houses are working to become strategic partners to brands as AI speeds up the entire ad creation process. Edited excerpts

What do brands need to do to connect with consumers in an AI-tech- and data-driven era?

It is becoming increasingly difficult for brands to connect with consumers. If you see the trend in the last few years, the notion at work has been ‘more is better’. The practice of performance marketing is still very new. It has only been about a decade since brands have leaned into it. And the best part of it is that the outcomes can be calculated and measured. But the challenging part is that brands have been overdoing it a lot which leads to consumers being bombarded with ads and content wherever they go.

We now know that the notion of ‘more is better’ is not the way forward. In fact, as per our internal data in 80% of the cases, showing no ad to a consumer is better than showing a bad ad. The recent trend of personalisation can be the answer to connect with

consumers. People today want personalised experiences when they are shopping, listening to music or watching content. The other thing that brands can focus on is delivering experience — creating event properties where brands can connect with the audiences in an organic way.

How can agencies that have cut their teeth in a broadcast media ecosystem juggle all these in a meaningful way?

Production sits at a very privileged point. It is the common denominator for everybody. We sit at a place where we have all the creative DNA and where all the data can be connected and optimised. That scaled and optimised data needs a specialised space. That’s how we can bring out the wildest ideas that can be scaled, measured and optimised. This is how we can create campaigns for a brand with a single voice optimised for different platforms. So the voice of the brand will remain the same across platforms but content for television ad campaign will be different from the website.

What skills must creators and

producers possess to stay relevant in that scenario?

What artificial intelligence has done is that it has made the logistics of creating something a lot simpler. For instance, if we are shooting for a commercial which involves traveling to a remote location, or which includes explosions, that can be done with AI. It saves time, money and there is no risk of anyone getting hurt. This free ups the producers to add to the creative side of things for the client. Now it is not just about making a TV commercial. We need to think about the creative collaterals, how it will look on other platforms and mediums. So the producer becomes a partner for the client to handle the content experience. On the creative side, I see that individual AI creators are moving much faster than the production industry. Production houses still fall behind on having a point of view around the use of AI in the production process.

Speed used to be the measure of a production shop in a pre-AI era. What is the new currency?

Production used to be a playful industry and continues to be one. But being playful is not enough anymore. The industry has matured from being someone who would make or create things for other people to activating change for clients. So it is a journey of being strategic. The production industry has moved beyond being an executional arm to a more strategic partner.

AFTER HOURS

VIMARSH RAZDAN, CO-FOUNDER & CEO, UNDERNEAT

The Job

Fashion and retail are among the few spaces where art and science come together beautifully. Building a brand is not just about aesthetics or storytelling, it is also about understanding consumer behaviour, operations, psychology, product innovation and scale. That balance is what keeps the work exciting for me.

The Weekdays

A typical workday for me revolves around problem solving, collaboration and

constant learning. One of the things I look forward to the most is talking to my team about new challenges and solving them together.

The Weekend

Weekends for me are about slowing down and reconnecting with the people and activities that energise me outside work. Spending time with family is extremely important to me. I also enjoy playing sports, meeting close friends and reading whenever I get uninterrupted time. For me, weekends are less about doing something extravagant and

more about finding balance.

The Toys

Honestly, I feel like everything is a smartphone now. It has become the one device I cannot really function without because it combines communication, work, entertainment and information all in one place. Whether it is managing work, staying

connected or consuming content, it has replaced multiple gadgets entirely.

The Logos

I genuinely admire the Sabyasachi brand. It has received global appreciation while staying rooted in its heritage.

What inspires me most is how it has managed to build aspiration and international relevance without losing authenticity.

Motobahn

VIKRAM CHAUDHARY

THE SPRAWLING highways of Rajasthan and the narrow lanes of its villages provided a perfect test bed for the newest three-row premium SUV to enter the Indian market. With prices starting at an aggressive ₹27.99 lakh and topping out at ₹40.39 lakh (ex-showroom) for the fully-loaded HTX(A) Black Line AWD 6-seater hybrid trim, the Kia Sorento makes a commanding pitch in the segment.

Design & cabin

Unlike the Toyota Fortuner’s aggressive, butch styling, the Sorento is an SUV for a well-travelled, sophisticated person — someone in a suit and polished shoes who values class over crude.

Step inside, and it feels like a ‘Kia Carnival-Lite’. The cabin makes rivals like the Fortuner and the Jeep Meridian feel Stone Age next to the Sorento’s Science Age design. It even out-gadgets higher-priced European SUVs like the Skoda Kodiaq and Volkswagen Tayron R-Line.

Top-end variants have everything: a dual-pane panoramic sunroof, digital IRVM, remote smart parking assist, a global-debut Kia AI assistant powered by real-time Generative AI, digital key, an expansive Level 2+ ADAS safety suite featuring 30 autonomous functions, a 220 V power outlet, and six Type-C USB ports. First- and second-row space is good, and features like rear-window sunshades and second-row ventilated seats make it a haven if you prefer being chauffeur-driven while taking a meeting on a laptop.

On the road

The 2.2-litre diesel (193 PS/442 Nm) paired with an 8-speed DCT is good on highways, and the 1.6-litre turbo-petrol hybrid (180 PS engine power plus 65 PS electric motor) is quick off the line with excellent roll-

● CAR REVIEW: KIA SORENTO HYBRID AND DIESEL

A science-age SUV in a stone-age segment

HOW IT MAKES THE FORTUNER AND MERIDIAN LOOK DATED

ANNYEONGHASEYO

■ Features like second-row sunshades and ventilated seats make it a haven if you prefer being chauffeur-driven while working on a laptop

■ Buyers looking for a fully-loaded trim are forced to buy AWD (there is no FWD option in top trims), and if you drive mostly in the city, why pay for AWD?

■ Sorento hybrid’s 1.49 kWh battery is much larger than 0.6 kWh in smaller hybrids like Grand Vitara or Hyryder

■ Unlike Toyota Fortuner’s butch styling, the Sorento is for a sophisticated person — someone in a suit and tie, who values class over crude

on acceleration. At speeds above 100 km/h, NVH levels are so good that making out whether it’s diesel or hybrid is difficult.

In dense traffic, however, you can easily make out the difference. The Sorento hybrid has a 1.49 kWh lithium-ion battery, much larger

than the 0.6 kWh in lower-segment hybrids like the Maruti Suzuki Grand Vitara or Toyota Hyryder, and this means the Sorento hybrid can be driven on electric power for a couple of kilometres at a stretch, unlike other hybrids that barely go a few hundred metres. It also means

you can easily get a real-world fuel efficiency of more than 15 km/litre (my test car returned 20 km/litre in dense traffic even with AC on).

At speeds above 100 km/h, ride is planted, and it doesn’t ‘jump’ over sudden road undulations typical of the Fortuner or Meridian.

Where it falls short

Like most 6- and 7-seaters in the segment, getting to the third row is cumbersome, and rear-most seats are for children or shorter adults. But the biggest flaw is that buyers looking for a fully-loaded trim are forced to buy AWD (as there is no FWD option in top trims), and if you drive mostly in the city, why pay for AWD that you won’t use at all?

In addition, while its ride man-

While its ride manners are good, it cannot match European benchmarks like the Kodiaq or Tayron R-Line, as it has body roll during sudden directional changes

Verdict

The Sorento won’t take away buyers from the Fortuner, but will carve out its own niche. Where Hyundai struggled to establish a presence in the premium space over two decades (it failed with Terracan, Sonata, Elantra, Tucson, and Santa

Fe, and even the Ioniq 5 is struggling to sell), Kia’s elevated brand image gives the Sorento an opportunity to secure the runner-up spot in this segment. While the diesel is punchy, my money goes to the hybrid: it is smooth, frugal in the city, feature-packed, and the only one in its class.

● INTERVIEW: CYNTHIA STODDARD, SVP & CIO, INTEL

‘Don’t just layer chatbots onto existing processes’

For large organisations, the AI challenge is shifting from experimentation to execution. The focus is now on what must change as the technology becomes part of everyday work—from skills and processes to governance and decision-making. Intel is navigating this shift as it expands AI across its workforce. Cynthia Stoddard, Intel’s senior vice-president and chief information officer, speaks to Sudhir Chowdhary about the lessons from that transition, the productivity gains the company is tracking, and how AI could reshape the way organisations work. Excerpts:

COMFORT WITH TECHNOLOGY COMES THROUGH USE, NOT INSTRUCTION ALONE

What does it take to build an AI-first culture in everyday work?
It starts with leadership vision—a clear sense of how AI will be used across the organisation and how it serves the needs of different roles and personas. From there, communication is everything. Whether through formal training, internal chat groups, or informal conversations, employees need to understand what AI means for their work specifically. Equally important is giving people the time and space to learn and experiment. Comfort with technology comes through use, not instruction alone.

How is Intel approaching AI upskilling across its workforce?
Through AI@Intel, we’ve built a comprehensive training programme that starts at the foundation—what AI is, how to use it—and then moves into persona-based training tailored to specific roles. The goal is to help people understand not just the tools, but how to apply them meaningfully to their work and how to create their own agents. We’ve also established a network of AI advocates embedded across business units globally. More than 1,000 employees have signed up, helping drive communications and peer learning from the ground up.

Any early signs that the investment is driving real business value?
The measure we care about is not how frequently someone uses a tool—it’s whether the technology is actually changing how work gets done. We’re seeing strong adoption of the Gemini platform, employees building their own agents and widespread use of Copilot across functions. But we track hard business

metrics: RoI, cycle-time improvements, time-to-market gains. Those indicators say AI is moving from experimentation to impact.

Which Gemini use cases have shown the most potential so far?
Day-to-day productivity is where we’re seeing the strongest early traction—employees using AI to learn faster, prepare better, and

operate differently. We’ve taken a staged approach to the rollout, beginning with productivity capabilities before expanding into data and coding tools. Across the development lifecycle, we’re already seeing measurable improvements in productivity and quality.

Building an AI-ready workforce: where is Intel investing?
Our hiring plans haven’t changed, but the nature of roles is beginning to shift. Early analysis suggests that in certain areas, we’ll need more generalists rather than deep specialists. As AI takes on more of the sequential, specialised work within a function, the human role increasingly becomes about integration—connecting insights across a broader workflow, exercising judgement, and managing complexity end to end.

What helps organisations turn AI investment into business value?
Don’t get trapped in proof-of-concepts. Experiment enough to learn, then commit. Build the right architecture, invest in people and training and rethink the business process itself—not just add chatbots to it. The biggest gains come from changing how work gets done. An AI-first organisation comes down to four things: the right architecture, skilled people, redesigned processes and the courage to move.

Meta bets on AI that acts on your behalf

BIJIN JOSE

THE NEXT GENERATION of AI assistants may be less about giving smarter answers and more about taking action—but Meta believes users should remain in control. “You, as the user, should always feel like you’re in control,” said Vishal Shah, VP of AI Products at Meta, while speaking about Muse, Meta’s new AI assistant, and Muse Spark 1.3, the multimodal reasoning model that powers it. Launched a few weeks ago, Muse has already received frequent updates, including a Mac app that can operate a user’s computer. Meta also

plans to make Muse the default AI agent on its smart glasses. “You are talking to your Muse,” Shah said, describing an assistant designed to know its users, understand their goals

and increasingly act on their behalf. Key challenge, however, is autonomy. Meta wants Muse to become more capable without making users feel that control is slipping away. Actions such as purchases or sending messages on a user’s behalf will require explicit approval. Other permissions can become more flexible as Muse learns a user’s preferences. The approach starts conservatively. For instance, Gmail access is initially read-only, with users required to grant permission before Muse can send or write on their behalf. Muse Spark 1.3 has been

developed specifically for what Meta calls personal superintelligence, including managing long-running goals and coordinating multiple tasks. Its coding capabilities are intended to help Muse connect to services that lack built-in integrations. Shah said Meta believes “personal superintelligence should be for everyone”, pointing to Muse’s free tier. The assistant is currently available only in the US and Canada, but Meta sees India as an important market. Expansion, he said, will require both local language support and integration with services people use in each market.

WORLD VIEW

Amazons’ smart glasses face an image problem

DAVE LEE

COMING SOON UP a garden path near you: an Amazon driver wearing smart glasses, constantly taking pictures and sending them back to the company to be analysed by humans and fed into an AI system. The e-commerce giant says customers will welcome the tech because it will make deliveries faster and more reliable. Is it sleepwalking into another invasion-of-privacy furore? In development for more than three years, the device is intended to reduce delivery errors by providing the wearer with hands-free guidance on grabbing the correct package, finding where to take it and then snapping the image sent to customers confirming the delivery. By the end of this year, Amazon’s goal is to have 5,000 drivers wearing the glasses, rising to more than 20,000 by the end of 2027. So far, more than 275,000 deliveries have been completed with the help of the device. Missing from the October announcement, however, was the true extent of the data that the glasses would be gathering: Static images of whatever the wearer sees, potentially several thousand captures in a single driver’s typical shift. The pictures taken would be of a quality “equivalent or lower than the standard proof of delivery photos,” Amazon said.

Smart glasses bring new privacy concerns to doorsteps

“Now that we have these glasses, we have the full view in terms of when the van gets parked to the actual delivery location,” said Viraj Chatterjee, the Amazon executive in charge of the rollout. “We are using this data that gets collected to enhance delivery process. Chatterjee said that the glasses “take static images at a certain frequency” when the delivery boy is on foot. Amazon refused to share how often: When asked if it was “every few seconds at least,” Chatterjee said that was a “good guess.” When asked if it was “several times a second,” he declined to say. The glasses will invariably capture photos of backyards and other parts of private property that Amazon workers might find themselves traversing

when carrying out their job. If a person—say, someone sunbathing—is photographed, Chatterjee said, Amazon’s systems would blur the person before handing the image over for human review. The same method blurs vehicle licence plates, he said. Whether that technology proves consistently reliable won’t necessarily be clear. Customers won’t have a way to see what images have been captured of their property by Amazon or request they be deleted. The company has no plans to inform customers in the rollout about use of smart glasses. And, short of choosing to no longer shop with Amazon, customers won’t be given the choice to opt out. While a humanoid delivery driver is still likely a far-away prospect, Amazon does see automation opportunities for last-mile delivery. —BLOOMBERG

Barclays takes AI deeper into daily work

BARCLAYS IS WIDENING its use of Anthropic’s AI agent Claude in an effort to modernise legacy systems and improve operational efficiency across the bank. The British lender expects 50% of its software developers to be using Claude Code by the end of 2026 before broadening that further next year. Its markets business is already using Anthropic models to help streamline how client inquiries are processed and managed, and the platform handles approximately 120,000 emails each day. “By reducing time spent on routine activities and streamlining decision-making, we can enable colleagues to focus their expertise where it matters most, solving more complex problems, accelerating innovation, and delivering better outcomes,” said Anne Marie Darling, group co-chief operating officer at Barclays. Announcing new targets in February, Barclays said it will make efficiency savings of about £2 billion (\$2.7 billion), including through the use of AI.

—BLOOMBERG

EARNING TRUST

Rob Thomas, chief commercial officer, IBM

The first chapter of AI was about what models could do. The next is about what enterprises can trust agents to do

The shift beyond automation

FINANCIAL INSTITUTIONS HAVE spent years using automation to improve efficiency, speed and scale. AI changes the equation. Its real value lies not in automating more tasks, but in enabling better decisions across risk, fraud prevention, customer engagement and growth. Many organisations have already deployed AI through chatbots, document processing and predictive models. The next challenge is operationalising AI across the enterprise. For banking, financial services and insurance (BFSI) organisations, success will depend on three factors: trust, talent and responsible governance.

Financial institutions sit on vast amounts of data spread across products, channels and systems. Bringing those assets together is important when organisations seek a more complete view of customers, risks and opportunities. AI can uncover patterns and insights at a scale, but only when underlying data is connected, accessible and governed. Without trusted data, organisations cannot build trusted AI. As institutions scale AI initiatives, investments in data governance and quality will be a key source of competitive advantage, helping transform data into actionable insights. Technology alone will not create intelligent enterprises. Organisations need teams that combine business expertise, analytics, engineering and risk management capabilities. India’s global capability centre (GCC) ecosystem reflects this shift, with over 250,000 AI professionals. As AI reshapes traditional roles, continuous learning and workforce development are essential. The most successful organisations will equip existing teams with the skills to work alongside AI, apply it responsibly and identify new opportunities for innovation and growth. This combination of domain expertise and AI fluency will

DEBASIS PANDA

differentiate industry leaders. Trust has always been fundamental to financial services. As AI becomes embedded in customer journeys and business decisions, responsible use and governance become strategic differentiators. Strong oversight, transparency and accountability help institutions scale AI responsibly while maintaining regulatory compliance. Governance plays a key role in ensuring AI outcomes are fair and aligned with customer interests. In a highly regulated industry, the ability to demonstrate how decisions are made can be as important as the decisions themselves. Responsible innovation is what enables organisations to move forward with confidence. AI-first GCCs are where these three capabilities come together. Traditionally established to drive efficiency, GCCs are evolving into enterprise intelligence hubs that combine trusted data, specialised talent and governance expertise under one operating model. Recent research highlights a broader shift in how GCCs create value. What started as a model focused on execution is now a source of enterprise leadership in AI, with GCCs taking greater ownership of strategy, governance and value creation as organisations move beyond experimentation and focus on measurable impact. For BFSI leaders, becoming AI-driven is not about deploying more tools. It is about strengthening the capabilities that allow AI to create value at scale. AI-ready talent accelerates innovation. Responsible governance enables adoption with confidence. Institutions that get these fundamentals right will be best positioned to compete in an intelligence-led industry.

GADGETS

The Pro gets more practical

APPLE’S TOP-END PHONE PACKS POWER, SMARTS & CONTROL

SUDHIR CHOWDHARY

THE iPhone 18 Pro Max is not a radical redesign. Its appeal lies in how Apple has brought together a larger display, more powerful hardware, a more capable camera system and smarter software to make the phone useful for work as well as entertainment. The question is what “Pro” means now. Is it simply about having the best hardware Apple offers, or does it actually make professional tasks easier? The 6.9-inch Super Retina XDR display is a good place to start. The large OLED panel, with ProMotion upto 120Hz, makes scrolling, reading documents, viewing photographs and editing video comfortable. The smaller Dynamic Island takes up less space and can display upto three Live Activities at once, such as a timer, music playback and navigation. The trade-off is size. This is a large phone, and one-handed operation can be difficult. But for people who spend considerable time reading, viewing or editing content on their phone, the larger display makes sense. The camera system is where the Pro credentials become more apparent. The 48MP Fusion main camera gets a physical variable aperture, ranging from f/1.48 to f/4.0, and is accompanied by 48MP ultra-wide and 48MP telephoto cameras. There are also controls for shutter speed, focus and exposure. Most users can simply point and shoot, letting the iPhone handle the settings automatically. Those who want more control can adjust light, focus and background blur. This makes the camera more versatile without making it unnecessarily complicated. Video capabilities also push the phone closer to a content-creation tool. For professionals shooting interviews, events or social media content, capturing and editing video on the same device can simplify the workflow. The A20 Pro chip, built on a 2-nanometre process and supported by a larger vapour chamber cooling system, is designed to sustain performance during demanding tasks. This matters when editing video, processing photographs, playing demanding games or working with large files. Apple Intelligence adds another layer. The upgraded Siri is designed to understand requests in greater context, draw on personal information to find relevant content across messages, emails and photos and use onscreen awareness to take actions related to what is displayed. Battery life is another practical strength. Apple rates the phone for upto 45 hours of video playback, while 45W wired charging can take it to 50% in around 15 minutes. For people travelling or working away from a desk, fast charging can be particularly useful. Overall, the iPhone 18 Pro Max brings several professional capabilities into a familiar smartphone format. Its cameras can be used simply or creatively, the hardware can handle demanding workloads, and the large display makes working with content easier. In other words, the Pro label now covers more than photography and performance. It increasingly describes a phone designed to capture, process, edit and act on information, while remaining a straightforward smartphone for everyday use.

ESTIMATED PRICE: ₹2,04,900 (512GB)

TECH BYTES

IBM deepens its research push

IBM IS EXPANDING its research ties with IIT Bombay and the Indian Institute of Science (IISc), with a focus on agentic AI, sovereign AI, quantum computing and next-generation computing systems. The IIT Bombay tie-up covers

Indic language models, multimodal AI, AI infrastructure and knowledge retrieval. With IISc, IBM is focusing on agentic systems, AI applications and quantum-HPC workflows.

Coforge expands Europe footprint

COFORGE IS EXPANDING its engineering centre in Krakow, Poland, which has grown into an AI engineering and near-shore delivery hub since opening in 2025. The hub has more than 375 engineers and is expected to exceed 660 by 2027. Coforge has also added 20,000 sq ft of workspace to

support rising demand for AI engineering, cloud and modernisation services from European clients.

JetSynthesys, MIXI eye gaming market

JETSYNTHEYS AND JAPAN’S MIXI are exploring opportunities in India’s gaming and digital entertainment market. Their focus includes game development and publishing, marketing and user acquisition and esports. The tie-up combines MIXI’s experience in gaming with JetSynthesys’ understanding of local digital market.

US PRESIDENT DONALD Trump said he had named Director of National Intelligence **Jay Clayton** the administration's AI czar, tasking him with coordinating the federal government's efforts to maintain US leadership in the technology.

SOFTBANK CHIEF CAUTIOUS OVER AI SAFETY

SOFTBANK GROUP CHIEF Masayoshi Son — one of AI's fervent believers — said that even he's worried about safety risks as machines quickly gain more abilities. An exponential surge in AI capabilities makes it imperative for countries to build trust so that they can harness the tech together, Son said. —AGENCIES

MOVE IN LINE WITH THEIR EXISTING ROADMAP

OPEC+ to keep output targets steady in Nov

SALMA EL WARDANY & GRANT SMITH October 4

MAJOR OPEC+ NATIONS agreed to keep oil production quotas unchanged next month, as conflict in West Asia continues to shutter swaths of the group's output.

A sub-group of seven countries led by Saudi Arabia and Russia will keep targets steady in November, the coalition said in a statement following a monthly video conference on Sunday. It's in line with their existing production roadmap.

The plans come as oil futures creep back up to the \$100-a-barrel mark and diesel hits records at the pump amid ongoing conflict in West Asia, spurring Group of Seven nations to release emergency stocks.

The Organization of the Petroleum Exporting Countries (OPEC) and its allies had already signaled that they would pause production quota hikes through the end of this year, after agreeing a series of modest increases in the six

PRODUCTION DECISION

■ The plans come as oil futures creep back up to the \$100-a-barrel mark and diesel hits records at the pump

■ OPEC+ had signaled that they would pause production quota hikes through the end of this year

■ It will convene online again on November 1

months through August.

Those increases, largely symbolic because of the impact the Iran war has had on Persian Gulf output, theoretically unwound cutbacks made in 2023 and may give the group's Gulf members greater scope to boost output when the conflict abates.

The Iran war has blunted the impact of any decisions the group has made because production in leading OPEC members such as Saudi Arabia, Iraq and Kuwait remains signifi-

cantly below levels pumped before the conflict.

The seven-nation sub-group will convene online again on November 1, according to Sunday's statement. It will likely finalise plans for December at that gathering.

Another OPEC+ body, the Joint Ministerial Monitoring Committee, also met online on Sunday and reiterated its "concern regarding attacks on energy infrastructure" and their impact on global stability.

—BLOOMBERG

Yemen begins major military operations against Houthis

REUTERS Aden, October 4

THE LEADER OF Yemen's Saudi-backed government announced the beginning of a major military operation against the Iran-backed Houthis on Sunday, aimed at seizing the territory under their control.

Regional and western officials had told *Saudi Arabia* earlier this week that Saudi Arabia and its Yemeni allies were planning to launch an assault on the Houthis, with the Saudis leading aerial combat and Yemeni forces fighting on the ground.

"Today, I announce the start of military operations to retake the remaining territory of the republic and extend the authority of the state and its institutions across the entire national territory," Yemeni President Rashad al-Alimi said.

The Houthis, meanwhile, said they had launched ballistic missiles and drones at Saudi Aramco sites in Riyadh and the Khurais area of Saudi Arabia, claiming the attacks caused major fires, in response to what they said were 50 Saudi-led air and missile strikes on Yemen in the past 12 hours.

● LULA GREETES SUPPORTERS ON POLL DAY

Brazilian President Luiz Inacio Lula da Silva, who is running for re-election, greets supporters after voting in general elections in Sao Bernardo do Campo on Sunday

Russia vows to step up strikes after its warning on Ukraine

REUTERS Moscow, October 4

RUSSIA HIT ON Sunday the Northern bridge over the Dniro river in Kyiv, targeting a route used to transport troops and military cargo, the Russian Defence Ministry said.

It promised to intensify strikes on Ukraine after Ukrainian President Volodymyr Zelenskyy told

Reuters that Kyiv would step up attacks on Russian oil refineries.

The ministry also said it hit two dry cargo vessels carrying military equipment to the port of Odesa in the northwestern Black Sea.

In an earlier statement, the ministry said that Russian forces had struck a dry cargo vessel east of Odesa overnight, as well as a Nova

Poshta logistics centre in Chornomorsk and a data centre in Odesa.

The ministry said air defence forces had intercepted and destroyed 559 Ukrainian drones on Saturday and Sunday over multiple Russian regions and above the Azov and Black seas.

Reuters could not independently verify the claims made by either side of the conflict.

FROM THE FRONT PAGE

GST 2.0: Faster refunds, wider ITC, no arrests

THE MULTI-RATE, complex structure of the principal indirect tax was replaced by a relatively simpler two-rate structure of 5% and 18%, with an additional special rate of 40% for demerit and sin goods.

"Having touched the rates and seen their stabilisation over the last 12 months, we hope that, with the system and processes now being simplified and reformed, the entire next-generation GST will see stability over the next five years or more," a senior government official said. The idea is to embrace a trust-based system similar to the one put in place for direct taxes, the official added.

According to the agenda for the upcoming meeting, the Council may allow refunds of taxes paid on a wider range of services, as well as on plant and machinery, in addition to the tax credit currently available for raw materials. Recovery of tax on equipment will be allowed over five years, matching the asset's useful life. The move will allow businesses to claim more credits with fewer conditions and is expected to bolster working capital and cut upfront project costs.

The Council is also expected to introduce an optional scheme for small businesses with annual turnover up to ₹5 crore that sell exclusively to GST-unregistered consumers. Such businesses would be allowed to file a single GST return annually and pay GST every quarter. This would go beyond the existing provision allowing quarterly returns with monthly tax payments. Since their customers cannot claim input-tax credit (ITC), there is less need for frequent return filing.

Under the proposed

changes, refund claims will increasingly rely on government-held data rather than manually submitted documents, with acknowledgements issued within 10 days. If no action is taken within that period, the claim will be deemed to have been acknowledged, sources said. Eligible exporters and taxpayers affected by inverted duty structures could receive 90% of eligible refunds based on risk assessment, improving cash flows. Balances lying in the electronic cash ledger could also be refunded automatically. Show-cause notices will be restricted to cases where the tax demand exceeds ₹10,000.

Exporters claiming duty drawback will also be allowed to claim refunds, and the cap linked to domestic prices will be removed. Interest on delayed refunds will accrue from the date on which the refund is withheld. The ₹1,000 minimum refund threshold will be calculated across all tax heads combined, including Central

GST and State GST, allowing businesses to recover smaller amounts that were previously written off.

According to the proposals, ITC rules will also be widened to benefit businesses across sectors. Genuine buyers will retain ITC even if a supplier further up the chain defaults, unless they were party to fraud. ITC eligibility will be expanded to health and life insurance, vehicles with up to 13 seats, telecom towers, pipelines, samples and expired goods. Credit will also be allowed on services taxed at 5%, including hotel accommodation costing up to ₹7,500, restaurants and fitness services.

Several anomalies will also be addressed. Overseas branches, for instance, will no longer block export status, allowing Indian service exporters to quote prices without embedded domestic tax.

Eligible businesses can currently obtain GST registration within three working days without officer intervention. This route already accounts for 61%

of registrations. For applicants who do not qualify for the fast-track route, the system will automatically populate information already available with the government and indicate upfront what additional documents or information need to be submitted. Under Rule 14A, taxpayers opting for the fast-track route and not intending to claim more than ₹2.5 lakh of input-tax credit a month can obtain registration automatically within three working days, without manual approval.

Procedural suspensions could also be lifted automatically once compliance is completed within a month, while cancelled registrations could be restored automatically after rectifying the underlying compliance lapse. This would reduce waiting times and the need for professional follow-up.

On return filing, invoice-level matching and corrections through sales statements will keep seller filings and buyers' input-tax credits aligned, potentially reducing routine mismatches significantly. More than 95,000 notices are currently generated every year over differences in returns, the sources pointed out.

GST enforcement is also shifting from criminal prosecution towards proportionate civil penalties, with arrest provisions proposed to be removed as invoice matching and data systems improve fraud detection. Prosecution would remain for only serious cases, with the threshold raised from ₹1 crore to ₹5 crore. Nine offences would be dropped, 24 softened and 11 retained, while minimum sentences and some penalties would be reduced. The proposals for de-criminalisation and

shift to mere civil consequences for violations and offences will require amendments to the GST Acts, which may be carried out over the next few weeks for their rollout in early 2027.

"The objective is to simplify the process, reduce the burden, and decriminalise wherever possible. The larger principle is to make compliance simpler and fairer," another official said.

GST rates, meanwhile, will remain unchanged, preserving the two-rate structure introduced last year and providing businesses with greater certainty over pricing, investment and compliance. The focus will instead be on clarifications, exemptions and classification issues across goods and services, including electric vehicles, research, warehousing, co-lending and bullion.

Outside the GST Council framework, the Centre is working on a centralised system for assessment, adjudication and related proceedings, with the longer-term goal of creating a faceless system for taxpayers registered with it. Of roughly 6.5-6.6 million registrations, around 6-6.2 million have a single central registration, while 0.3-0.35 million have multiple registrations across locations. Of these, around 80,000 have registrations spanning multiple states.

The 0.3-0.35 million taxpayers with multiple registrations will also be brought under the centralised system, although the government is still working out how to allocate cases across jurisdictions without creating concentration or operational challenges. "In terms of experience, process reforms would be far more impactful," the second official said.

Tata rift: Govt concerned but rules out intervention

THE PROJECTS ARE central to the government's attempt to build a domestic manufacturing base in industries dominated by China, Taiwan and South Korea.

This is also not the first time the government has taken note of tensions at the group. In October last year, top Tata leaders reportedly met Home Minister Amit Shah at his residence amid serious differences within Tata Trusts, which owns about 66% of Tata Sons. The government's message then was that the differences should be resolved quickly and stability restored.

Instead, the fault lines have widened. What began largely as differences within Tata Trusts has developed into a broader tussle involving the Trusts and Tata Sons over governance, the future structure of the holding company and its leadership.

The latest flashpoint is the Tata Sons board meeting where the board reappointed N Chandrasekaran as Tata Sons chairman despite objections from Tata Trusts Chairman Noel Tata who has now sought the video footage and minutes of the September 17 meeting at which the reappointment was approved, seeking clarity over the proceedings and the basis on which

the resolution was passed.

Competing legal opinions have since been cited over the interpretation of 'Tata Sons' Articles of Association and the voting rights of Trust-nominated directors.

At the same time, differences have sharpened within Tata Trusts itself. A proposal to restructure Tata Sons by merging two subsidiaries with the holding company — aimed at helping Tata Sons remain unlisted while addressing regulatory requirements — has been questioned by trustees Venu Srinivasan and Vijay Singh. They have raised concerns over the process by which the proposal was communicated to Tata Sons and whether other

trustees had been adequately consulted.

Regulatory complications are adding to the uncertainty. The Sir Ratan Tata Trust remains under directions from Maharashtra's charity commissioner restraining it from holding board meetings, a situation that contributed to the unprecedented adjournment of the Tata Sons annual general meeting on August 18.

Scrutiny could now extend to the Sir Dorabji Tata Trust, the single largest shareholder in Tata Sons. Srinivasan and Singh have approached the charity authority seeking an investigation into Noel Tata's actions and alleged governance irregularities at the trust.

Premium grocery's next hurdle: ₹100 cr to ₹500 cr

PREMIUM OILS CAN cost ₹800-1,500 a litre, against ₹150-250 for regular variants, while premium wheat flour can cost ₹160-260 a kg compared with ₹55-75 for conventional products.

"HNIs (high net-worth individuals) and connoisseurs have always looked for exceptional products, but we are also seeing younger consumers becoming much more conscious about what they bring into their homes. That is where we saw an opportunity for our brand Coração Do Vale," said Richa Khandelwal, founder and managing director, Leads Brand Connect. The brand's Portuguese extra virgin olive oil is priced at ₹4,995 for 500 ml.

"Families are simply more conscious now. They read labels, they question ingredients, and they look well beyond price," Pallavi Sinha, managing director, Adya Organics, said. Its premium range includes A2 Gir Cow Ghee priced at ₹2,819 a kg and date palm jaggery at ₹998 a kg.

The digital route is also lowering the cost and time required to discover and acquire customers. "As commerce becomes increasingly discovery-led and personalised, smaller premium food brands can compete effectively despite having far lower mar-

keting budgets than traditional FMCG companies," according to Anand Ramanathan, partner and consumer industry leader, Deloitte South Asia.

But rapid customer acquisition does not automatically translate into profitability. Manufacturing, spoilage, logistics, marketplace commissions, quick-commerce margins and promotional spending can put pressure on operating margins, even where gross margins are attractive. Unlike established FMCG companies, most new-age food brands have not achieved the scale needed to absorb these costs efficiently.

Quality and consumer trust can become another constraint as volumes rise. "Many premium food brands build their differentiation around sourcing standards, ingredient quality, freshness, authenticity or specialised formulations, but as volumes increase, maintaining those standards across procurement, processing, packaging and distribution becomes significantly more complex," Ramanathan said.

For these brands, the next phase of growth will therefore depend on whether quick-commerce-led traction can be converted into repeat consumption and broader distribution.

Local investors step up their game ...

AS OF MAY 2026, they held a combined gross asset value (GAV) of about ₹3.13 lakh crore in Grade-A commercial and retail assets — almost double the level at the beginning of FY25 — indicating a strong acquisition-led expansion strategy, experts said.

Beyond stable rental yields and capital appreciation, India's cost-efficient talent pool is driving robust tenant demand, particularly from global capability centres (GCCs) and multinational companies, said Rohit Rath, principal, real estate business, ICICI Prudential AMC.

Commercial real estate offers investors a hybrid opportunity, combining the equity-like upside of capital appreciation with fixed-income-like rental distributions, Rath said.

"The slowdown from some global investors has opened up attractive acquisition opportunities, potentially allowing players like us to step in and secure assets at more favourable valuations and terms," he said.

ICICI Prudential AMC has assets under management of

₹5,000 crore in commercial properties and has closed eight deals over the past 18 months, he said.

Foreign capital inflows into Indian real estate have fallen to nearly a third of their FY21 peak, as higher global interest rates, tighter financial conditions and geopolitical uncertainty have reduced the appeal of Indian property to overseas investors.

Inflows fell to ₹2,208 crore in FY26 from ₹6,043 crore in FY21, according to Anarock Capital. They declined 29% from ₹3,098 crore in FY25.

According to Venture Intelligence data, Blackstone made four investments in commercial properties year to date in 2026, while Singapore-based GIC and Canadian investor Brookfield, both traditionally active in the segment, made none.

Vivek Rath, national director of research at Knight Frank India, said domestic investors have cushioned the moderation in global capital inflows.

"Investments by domestic investors have increased in recent quarters and will con-

Foreign capital inflows into Indian real estate have fallen to nearly a third of their FY21 peak

tinue to grow as interest rates go up," he said. As money becomes more expensive in the US, he added, it is less likely to flow into riskier opportunities in developing economies.

He, however, sounded a note of caution. "For a short period, they [domestic investors] have filled the gap. But if they have to do this meaningfully in the long run, they need access to abundant sources of capital at cheaper rates," he said.

Deepak Aswani, CIO and head of real assets at 360 ONE Asset, said global investors have not lost interest in India but have become more selective. Higher US bond yields have narrowed the premium for investing in the country, while a weaker rupee has made hedging costlier, he said.

"That has opened the door for domestic capital, both as

buyers and as partners, because global sponsors increasingly want a strong Indian co-investor," Aswani said.

In 360 ONE Asset's view, high-quality office assets and large portfolios offer a favourable risk-reward proposition. 360 ONE Asset oversees \$1 billion across its real assets platform. Over the past two years, it has invested across Chennai, Bengaluru and Pune and in the pre-IPO rounds of office REITs, Aswani said.

Chanakya Chakravarti, a senior corporate adviser, said domestic investors increasingly view real estate as a formalised asset class as secondary markets deepen and the number of quality investors and developers grows. Demand for and supply of Grade-A properties have both increased, enhancing the segment's attractiveness, he said.

Yields of 6.5-7%, coupled with rental escalations, offer an attractive return profile, Chakravarti said.

An investment of \$150 million to \$300 million is now conceivable for a domestic investor

THIS IS A PUBLIC ANNOUNCEMENT FOR INFORMATION PURPOSES ONLY. THIS IS NOT A PROSPECTUS ANNOUNCEMENT AND DOES NOT CONSTITUTE AN INVITATION OR OFFER TO ACQUIRE, PURCHASE OR SUBSCRIBE TO SECURITIES.

Risk to Investors

For details, refer to section titled "Risk Factors" on page 18 of the Prospectus.

- Geographic concentration risk:** As of March 31, 2026, 66.65% of our real estate development projects were located in Mumbai. Save in respect of the two Upcoming Projects near Alibaug, there are no Ongoing Projects or Upcoming Projects planned outside of Mumbai as of the date of the Prospectus. Consequently, we face risks stemming from economic, regulatory and other changes, including natural disasters in these areas affecting the performance of the real estate market in Mumbai, which might adversely impact our business, results of operations, cash flows and financial condition.
- Project execution and cost overrun risk:** As of March 31, 2026, we had 28 Ongoing Projects and 33 Upcoming Projects which consists of 86.33% of our total Developable Area. Failure to complete these projects or future projects within their expected timelines, or at all, and any cost overruns could adversely affect our business, reputation, financial condition and results of operations. Set out in the table below are details of the total Developable Area of our Ongoing Projects and Upcoming Projects as of March 31, 2026, March 31, 2025, and March 31, 2024.

Particulars	As of March 31, 2026		As of March 31, 2025		As of March 31, 2024	
	Developable Area ⁽¹⁾ (in million square feet)	% of total Developable Area ⁽⁴⁾	Developable Area ⁽¹⁾ (in million square feet)	% of total Developable Area ⁽⁴⁾	Developable Area ⁽¹⁾ (in million square feet)	% of total Developable Area ⁽⁴⁾
Ongoing Projects ⁽²⁾	19.88	22.50	17.59	30.37	19.83	34.52
Upcoming Projects ⁽³⁾	56.41	63.83	28.33	48.91	28.92	50.35
Total	76.29	86.33	45.92	79.28	48.75	84.87

- Notes:
- Developable Area is estimated in the case of Upcoming Projects.
 - Ongoing Projects are projects in respect of which (i) all title or development rights, or other interest in the land is held either directly or indirectly by the Company and / or Subsidiaries; (ii) the requisite approvals for commencement of development have been obtained; and (iii) sale and/or development work is ongoing/started as at the end of the relevant financial period.
 - Upcoming Projects are residential and/or commercial projects where (i) the land (or rights thereto) has been acquired; (ii) the business plan of the project is being finalized; and (iii) the design development and preconstruction activities and the process for seeking necessary approvals for the development of the project or part thereof has been initiated, but for which construction and/or sales have not yet commenced as at the end of the relevant financial period.
 - Total Developable Area includes Completed Projects, Ongoing Projects and Upcoming Projects.

- Unsold inventory risk:** As of March 31, 2026, we had an aggregate of 7,072 unsold units consisting of a total unsold Developable Area of 7.55 million square feet across our Completed Projects and Ongoing Projects. If we are unable to sell our existing or future inventory within our expected timelines or at all, our business, financial condition and results of operations may be adversely affected.
- Related party transactions risk:** Our Company and Runwal Residency Private Limited have in the past entered into certain related party transactions which have been identified by the respective statutory auditors for the respective period in which such related party transactions have been undertaken, to be prejudicial to the interest of the respective entity, and may continue to enter into such related party transactions that may involve conflicts of interest, which, may adversely affect our business, results of operations, cash flows and financial condition.
- Utilization of a portion of Net Proceeds for repayment of borrowings of Material Subsidiaries:** We propose to either repay or pre-pay, in full or part, all or a portion of certain outstanding borrowings availed by our wholly owned Material Subsidiaries namely, Runwal Residency Private Limited and Evie Real Estate Private Limited, from the Net Proceeds.
However, as of the date of the Prospectus, Evie Real Estate Private Limited has not obtained any credit rating letters for their borrowings and has also incurred losses in Fiscal 2025. The non-availability of a credit rating poses risks to the ability of this entity to secure financing as lenders are unable to assess its creditworthiness and this may limit its ability to raise debt financing. If Evie Real Estate Private Limited is unable to raise adequate capital in a timely manner and on acceptable terms, or at all, its business, results of operations, cash flows and financial condition could be adversely affected.
- Land acquisition and title risk:** Any uncertainty in land acquisition and title could adversely affect our business and growth prospects, as our ability to identify, acquire and secure clear title to land is critical for our growth, development of projects and overall business. Any inaccuracies, defects or irregularities in the land title could complicate land acquisition, impede title transfers, expose us to legal disputes and adversely affect land valuation. Except for the lands admeasuring 178 acres at Village Mithagar, Taluka Murud, District Raigad, as of the date of the Prospectus, we or our Subsidiaries are the owners of certain land parcels upon which some of our Completed Projects, Ongoing Projects and Upcoming Projects are located and have development rights with respect to the remaining projects. Further, unresolved title issues, legal disputes, failure to acquire key parcels of land, failure to meet payment or contractual obligations and regulatory restrictions can adversely impact our ability to market and develop our projects, which in turn may adversely affect our business, financial condition and growth prospects.
- Subsidiaries related risk:** Our Subsidiaries, Runwal Real Estates Private Limited, Evie Holdings Private Limited, Wheelabrator Realty Private Limited, Runwal Milestone Developers Private Limited, Runwal Highrise Private Limited, Runwal Commercial Plaza Private Limited, Evie Infrapark Private Limited, Horizon Projects Private Limited (formerly Evie Realty Private Limited), Susneh Developers Private Limited, Evie Real Estate Private Limited, Evie Construction Private Limited, Evie Developers Private Limited, Susneh Infrapark Private Limited, Susneh Homes Private Limited, Susneh Real Estate Private Limited and Garden City Malls Private Limited have incurred losses in certain of Fiscals 2026, 2025 and 2024. The losses our Subsidiaries incurred were primarily due to the manner in which we recognize revenue under Ind AS 115, pursuant to which the revenue with respect to contracts for sale of the units is recognized only when the control over such units is passed on to our customers, which is based on the fulfilment of performance obligations set out in the contracts with our customers. In addition, our Subsidiaries, Runwal Real Estates Private Limited, Evie Holdings Private Limited, Wheelabrator Realty Private Limited, Runwal Highrise Private Limited, Runwal Commercial Plaza Private Limited, Evie Infrapark Private Limited, Horizon Projects Private Limited (formerly Evie Realty Private Limited), Evie Developers Private Limited, Susneh Homes Private Limited, Susneh Real Estate Private Limited and Runwal Milestone Developers Private Limited have had negative net worth in certain of Fiscals 2026, 2025 and 2024. Any similar losses or negative Net Worth in the future may adversely affect our business, financial condition, cash flows and results of operations
- Financial risk:** We had negative cash flows of ₹(560.43) million in Fiscal 2025 and may continue to have negative cash

flows in the future. The negative cash flows from operating activities experienced in Fiscals 2026, 2025 and 2024 were primarily due to working capital changes such as increases in inventories, other current assets and payment of income tax, notwithstanding restated profits before tax during these periods. In Fiscals 2026 and 2025, we experienced negative cash flows from investing activities primarily due to the purchase of property, plant and equipment and intangible assets, investments in inter-corporate deposits, fixed deposits and investment in subsidiaries Any such negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.

- Residential segment concentration risk:** As of March 31, 2026, 84.39% of our total Developable Area and 93.93% of our total sales across our Completed Projects, Ongoing Projects and Upcoming Projects are attributable to residential projects. Our significant reliance on residential development necessitates a deep understanding of our customers' needs and preferences to deliver projects that align with their expectations. Failure to consistently anticipate and respond to these needs could adversely impact our business, financial condition and results of operations.
- Audit Qualification and Statutory Compliance Risk:** Our Statutory Auditors and the auditors for our Subsidiaries and Joint Venture have included certain remarks in their audit reports and examination reports. There can be no assurance that our audit reports for any future periods or financial years will not contain qualifications, matters of emphasis or other observations, including any observations that may have an effect on our financial statements and which could adversely affect our financial condition and results of operations.
- The Price/Earnings ratio based on diluted EPS for FY 2026 is 17.32 and 18.22 times of the lower and upper end of the Price Band respectively.
- The average cost of acquisition per Equity Share for shares held by our Promoter as at the date of the Prospectus is:

Name of the Promoter	Number of Equity Shares held	Weighted Average cost of acquisition per Equity Share of face value of ₹2 each (in ₹)*
Subodh Subhash Runwal	106,281,849	Nil*

*Shareholding acquired by way of gift and subsequent bonus issuances and split of Equity Shares. For further details please see section titled 'Build-up of Promoter's shareholding in our Company' on page 90 of the Prospectus.

*As certified by our Statutory Auditor, Singhi & Co., Chartered Accountants, by way of their certificate dated September 29, 2026.

- Weighted Average Return on Net Worth for FY 2026, 2025 and 2024 is 22.73%.
- Weighted average cost of acquisition of Equity Shares transacted in one year, 18 months and three years preceding the date of the Prospectus:**

Period	Weighted average cost of acquisition per Equity Share (in ₹)*	Cap Price is 'x' times the weighted average cost of acquisition*	Range of acquisition price per Equity Share: lowest price – highest price (in ₹)*
Last one year preceding the date of the Prospectus	342.49	0.89	342.49 – 342.49
Last 18 months preceding the date of the Prospectus	342.49	0.89	342.49 – 342.49
Last three years preceding the date of the Prospectus	86.54	3.52	0.00 – 342.49

*As certified by our Statutory Auditor, Singhi & Co., Chartered Accountants, by way of their certificate dated September 29, 2026.

- Weighted Average Cost of Acquisition, Floor Price and Cap Price**

Type of transactions	WACA (₹ per Equity Share)	Floor Price (₹290)*	Cap Price (₹305)*
Weighted average cost of acquisition (WACA) of Primary Issuances in the last 3 years	N.A.	N.A.	N.A.
Weighted average cost of acquisition (WACA) of Secondary Transactions in the last 3 years	N.A.	N.A.	N.A.

Since there were no Primary Issuance or Secondary Transactions of equity shares of our Company during the 18 months preceding the date of filing of the Prospectus, where either issuance or acquisition/ sale is equal to or more than five per cent of the fully diluted paid-up share capital of our Company (calculated based on the pre-issue capital before such transaction/s and excluding employee stock options granted but not vested) the following are the details based on the last five primary and secondary transactions (secondary transactions where Promoter(s), members of the Promoter Group or Shareholders having the right to nominate Director(s) to the Board of our Company, are a party to the transaction), during the three years preceding the date of the Prospectus, irrespective of the size of transactions:

Based on the primary issuances undertaken during the last three immediately preceding years	342.49	0.85	0.89
Based on the secondary transactions undertaken during the last three immediately preceding years	Nil	N.A.	N.A.

*As certified by our Statutory Auditor, Singhi & Co., Chartered Accountants, by way of their certificate dated September 29, 2026.

- The two BRLMs associated with the Issue have handled 67 public issues in the past three years out of which 19 issues closed below the issue price on listing date:**

Name of the BRLMs	Total Public Issues	Issues closed below the IPO price on listing date
ICICI Securities Limited*	46	14
Jefferies India Private Limited*	12	2
Common issues handled by the BRLMs	9	3
Total	67	19

*Issues handled where there were no common BRLMs.

BID/ISSUE PERIOD

ANCHOR INVESTOR BIDDING DATE OPENED AND CLOSED ON THURSDAY, SEPTEMBER 24, 2026
BID/ISSUE OPENED ON FRIDAY, SEPTEMBER 25, 2026 | BID/ISSUE CLOSED ON TUESDAY, SEPTEMBER 29, 2026

Continued on next page...

...continued from previous page.

The Issue was made in terms of Rule 19(2)(b) of the SCRR, read with Regulation 31 of the SEBI ICDR Regulations. The Issue was made through the Book Building Process and was in compliance with Regulation 6(1) of the SEBI ICDR Regulations, wherein in terms of Regulation 32(1) of the SEBI ICDR Regulations, not more than 50% of the Net Issue was made available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs", and such portion, the "QIB Portion", provided that our Company in consultation with the BRLMs allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with the SEBI ICDR Regulations, of which 40% was reserved in the following manner (i) 33.33% of the Anchor Investor Portion was reserved for domestic Mutual Funds; and (ii) 6.67% of the Anchor Investor Portion was reserved for Life Insurance Companies and Pension Funds, subject to valid Bids been received from domestic Mutual Funds, Life Insurance Companies and Pension Funds, as applicable, at or above the Anchor Investor Allocation Price. Any under-subscription in the Life Insurance Companies and Pension Funds category specified in (ii) above was allocated to domestic Mutual Funds, in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares were added to the QIB Portion (other than the Anchor Investor Portion) (the "Net QIB Portion"). Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis only to Mutual Funds and the remainder of the net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors) including Mutual Funds, subject to valid Bids been received at or above the Issue Price. Further, not less than 15% of the Net Issue was made available for allocation to Non-Institutional Bidders out of which (a) one-third of such portion was reserved for applicants with application size of more than ₹0.2 million and up to ₹1.00 million; and (b) two-third of such portion was reserved for applicants with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of such sub-categories was made available for allocation to applicants in the other sub-category of Non-Institutional Bidders, subject to valid Bids been received at or above the Issue Price and not less than 35% of the Net Issue was made available for allocation to Retail Individual Bidders ("RIBs") in accordance with the SEBI ICDR Regulations, subject to valid Bids been received from them at or above the Issue Price. All potential Bidders (except Anchor Investors) were required to mandatorily utilise the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective bank accounts (including UPI ID for UPI Bidders using UPI Mechanism) in which the Bid Amount was blocked by the SCSBs or the Sponsor Bank(s), as the case may be, to the extent of their respective Bid Amounts. Anchor Investors were not permitted to participate in the Issue through the ASBA process. For details, specific attention is invited to "Issue Procedure" on page 537 of the Prospectus.

The bidding for Anchor Investor opened and closed on Thursday, September 24, 2026. The Company received 10 applications from 9 Anchor Investors for 5,047,637 Equity Shares. The Anchor Investor Issue Price was finalized at ₹305 per Equity Share. A total of 4,883,605 Equity Shares were allocated under the Anchor Investor Portion aggregating to ₹1,489,499,525.00/-.

The Issue received 114,798 applications for 35,479,675 Equity Shares resulting in 2.1635 times subscription as disclosed in the Prospectus. The details of the applications received in the Issue from Retail Individual Bidders, Non-Institutional Bidders, QIBs, Employee and Anchor are as under (before rejections):

Sr. No.	Category	No. of Applications received	No. of Equity Shares applied	No. of Equity Shares Reserved as per Prospectus	No. of times Subscribed	Amount (₹)
A	Retail Individual Investors	108,572	6,837,166	5,697,541	1,2000	2,085,033,594.00
B	Non-Institutional Investors -More than 2 Lakhs Upto 10 Lakhs	3,728	2,679,761	813,935	3,2924	817,257,525.00

	TOTAL	35,334,880	100.00		

The Basis of Allotment was finalized in consultation with the Designated Stock Exchange, being NSE on September 30, 2026.

A. Allotment to Retail Individual Bidders (After Rejections) (including ASBA Applications)

The Basis of Allotment to the Retail Individual Bidders, who have bid at cut-off or at the Issue Price of ₹305 per Equity Share, was finalized in consultation with NSE. This category has been subscribed to the extent of 1.1558 times. The total number of Equity Shares Allotted in Retail Individual Bidders category is 5,708,955 Equity Shares to 104,497 successful applicants. The category-wise details of the Basis of Allotment are as under:

Sr. No	Category	No. of Applications Received	% of Total	Total No. of Equity Shares applied	% to Total	No. of Equity Shares Allotted per Bidder	Ratio	Total No. of Equity Shares allotted
1	49	96,330	92.18	4,720,170	71.54	49	1:1	4,720,170
2	98	3,798	3.63	372,204	5.64	68	1:1	258,264

OFFER PRICE: ₹139 PER EQUITY SHARE OF FACE VALUE OF ₹10 EACH
THE OFFER PRICE IS 13.9 TIMES OF THE FACE VALUE OF THE EQUITY SHARES

RISKS TO INVESTORS:

For details refer to section titled "Risk Factors" on page 24 of the Prospectus

1. **Customer concentration risk:** Our business is predominantly conducted on a business-to-business basis with three (3) major types of customers, namely (i) distributors, (ii) dealers and (iii) institutional customers. These dealers and distributors in turn sell our products to builders and contractors. In addition, we also sell directly to institutional customers via our sales and marketing team. Our institutional customers are corporates and other institutions operating in a wide range of industries, including roadways, engineering services, thermal plants and real estate.
- The table below sets forth our revenue from our largest customer, top 3 customers, and top 10 customers with their contribution to our revenue from operations for the Fiscals indicated.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in lakhs	% contribution to revenue from operations	₹ in lakhs	% contribution to revenue from operations	₹ in lakhs	% contribution to revenue from operations
Largest Customer	17,916.64	10.67%	21,237.78	14.09%	19,826.42	17.55%
Top 3 Customers	36,650.34	21.83%	48,648.98	32.27%	36,598.01	32.39%
Top 10 Customers	84,989.93	50.62%	86,173.28	57.16%	65,441.46	57.92%

We rely and expect that we will continue to be reliant on our top 10 customers for a substantial portion of our revenue. The loss of any of our top 10 customers (in particular our largest customer) for any reason including due to loss of, or failure to renew existing arrangements; limitation to meet any change in quality specification, change in technology; regulatory changes, disputes with a customer; adverse changes in the financial condition of our customers, such as possible bankruptcy or liquidation or other financial hardship or a reduction in the demand for our products by any of our top customers could have a material adverse effect on our business, results of operations and financial condition.

2. **Dependency on dealers and distributors:** Other than our sales to direct institutional customers, our products are distributed through our dealers and distribution network. For the Fiscal 2026, eight (8) of our top 10 customers are our dealers or distributors. Accordingly, our business relies substantially on our distributors and dealers. Our ability to expand and grow our brand's reach significantly depends on the reach and effective management of our distributors and dealers network. We cannot assure you that we will be able to successfully identify or appoint new distributors or dealers or effectively manage our existing distribution network. A termination of our distribution arrangements or if our dealers/distributors do not effectively sell or market our products, our business, results of operations and financial condition may be adversely affected.
3. **Risk related to raw materials:** Our business and profitability are substantially dependent on the availability of materials and we are dependent on third party suppliers for meeting our material requirements which are on purchase order basis. In addition to intermediate products, such as Sponge Iron and MS Billets manufactured by us, we procure our main materials, i.e., scrap, iron ore, coal, silico manganese and dolomite from third party suppliers for production of our steel products. The table below sets forth the materials purchased for Fiscals indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	₹ in lakhs	As a % of total expenses (%)	₹ in lakhs	As a % of total expenses (%)	₹ in lakhs	As a % of total expenses (%)
Materials purchased	1,30,416.95	82.77%	1,21,821.33	84.71%	93,784.97	86.67%

Any disruption to the timely and adequate supply of materials, or volatility in the prices of materials may adversely impact our business, results of operations and financial condition.

4. **Risk relating to demand and pricing of our products:** Prices of our products such as TMT Bars, MS Billets and Sponge Iron as well as steel prices generally fluctuate based on a number of factors beyond our control, such as, the availability and cost of raw material inputs, fluctuations in domestic and international demand and supply of our products, domestic production and capacity, transportation costs, protective trade measures and various social and political factors, in the economies in which the producers of similar products sell their products and are sensitive to the cyclical trends of particular industries, such as, the construction industries.
- When downturns occur in these economies or sectors, we may experience decreased demand for our products, which may lead to decrease in prices. Decrease in raw material prices may also lead to decrease in prices of our products. A decrease in TMT Bar prices may have a material adverse effect on our business, results of operations, prospects and financial condition
5. **Project execution risk:** We intend to utilise the Net Proceeds for funding our capital expenditure requirements which aggregates to ₹22,633.05 lakhs and we are yet to place orders for certain of our capital expenditure requirements. In case, at the time of placing the order, our Company is not be able to acquire such plant and machinery at the expected price, we are subject to risks on account of inflation in the price of machineries. In case of increase in price of such plant and machinery our Company shall require arranging such additional funds for completion of the project. If we are not able to arrange such additional funds in due time which may result in delay in implementation of our project and which may adversely affect the profitability and financial results of the Company. There is no assurance that we would be able to source such capital expenditure requirements in a timely manner or at commercially acceptable prices
6. **Competitive risk:** As we operate in Gujarat, we face competitions from companies operating in Gujarat, as

well as other national steel companies. The names of our top competitors are Beekay Steel Industries Limited, Gallant Ispat Limited, Kamdhenu Limited, MSP Steel & Power Limited and VMS TMT Limited. We face pricing pressures from companies, principally large national steel companies and Indian TMT Bar companies, that are able to produce TMT Bars at competitive costs and consequently, may supply their products at cheaper prices. We are unable to assure you that we shall be able to meet the pricing pressures exerted by such competitors which would adversely affect our business, results of operations and financial condition.

7. **Geographical concentration risk:** Our Manufacturing Facilities are located in Gujarat. Over 97.74%, 99.77% and 98.59% of our sales in the Fiscal 2026, Fiscal 2025 and Fiscal 2024 respectively, are made to customers located in Gujarat. Due to the geographic concentration of our Manufacturing Facilities, our operations are susceptible to local and regional factors, such as economic and weather conditions, natural disasters, political, demographic and population changes, adverse regulatory developments civil unrest and other unforeseen events and circumstances. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in shipments of our products and/or otherwise materially and adversely affect our business, financial condition and results of operations.
8. **Risk relating to indebtedness:** As at August 31, 2026, we had aggregate outstanding borrowings (including current maturities of long term borrowings) of ₹34,413.35 lakhs, of which ₹ 31,162.01 lakhs were secured borrowings and ₹3,251.34 lakhs were unsecured borrowings. In the event we fail to service our debt obligations, the lenders have the right to enforce the security in respect of our secured borrowings and dispose of our assets to recover the amounts due from us which in turn may compel us to shut down our Manufacturing Facilities, resulting in material and adverse effect on our business operations and financial conditions.
9. **Attrition risk:** Our success largely depends upon the knowledge and experience of our Promoters, Directors, Key Managerial Personnel and Senior Management as well as our ability to attract and retain personnel with technical expertise. Any loss of our Promoters, Directors, Key Managerial Personnel and Senior Management or our inability to attract and retain them and other skilled personnel could adversely affect our business, results of operations and financial condition.
10. **Weighted Average Return on Net Worth for last three full financial years i.e. 2026, 2025 and 2024 is 20.17%.**
11. **The price to earnings ratio based on diluted EPS for fiscal 2026 for our company at the upper end of the price band is 9.32 times. The average industry price-to-earnings ratio is 35.25.**
12. **The average cost of acquisition per Equity Share acquired by our Selling Shareholders, as on the date of the Prospectus are as follows:**

Name	Category	Number of Equity Shares held	Average cost of acquisition per Equity Share (in ₹)*
Inamulhaq Shamsulhaq Iraki	Promoter Selling Shareholder	2,22,89,244	15.28
Abdulhaq Shamsulhaq Iraki	Promoter Selling Shareholder	2,14,77,756	5.00

*As certified jointly by Talati and Talati LLP, Chartered Accountants and S A M A S & Associates, Chartered Accountants- our Joint Statutory Auditors, by way of their certificate dated September 29, 2026.

13. **Weighted average cost of acquisition of all Equity Shares transacted in the last three years, 18 months and one year preceding the date of the Prospectus:**

Period	Weighted average cost of acquisition per Equity Share (in ₹)^	Cap Price is 'x' times the weighted average cost of acquisition	Range of acquisition price per Equity Share: lowest price – highest price (in ₹)^
Last one year preceding the date of the Prospectus	270.00	0.51	0-270
Last 18 months preceding the date of the Prospectus	251.74	0.55	0-270
Last three years preceding the date of the Prospectus	16.72	8.31	0-1,019

^ As certified jointly by Talati and Talati LLP, Chartered Accountants and S A M A S & Associates, Chartered Accountants- our Joint Statutory Auditors, by way of their certificate dated September 29, 2026.

14. **The Three BRLMs associated with the Offer have handled 22 public issues in the past three years, out of which 9 issues closed below the offer price on listing date:**

Name of the BRLMs	Total Public Issues^	Issues closed below Offer Price on listing date
Systematix Corporate Services Limited*	4	3
Emkay Global Financial Services Limited*	4	3
Pantomath Capital Advisors Private Limited*	11	2
Common Issues of above BRLMs	3	1
Total	22	9

*Issues handled where there were no common BRLMs.

^ Total public issues handled by BRLMs till the date of price band advertisement dated September 21, 2026

ANCHOR INVESTOR OFFER PRICE: ₹ 110 PER EQUITY SHARE. THE OFFER PRICE IS 11.00 TIMES OF THE FACE VALUE

BID/ OFFER CLOSED ON: TUESDAY, SEPTEMBER 29, 2026

Summary description of key risk factors based on materiality

- We are dependent on certain key customers for a substantial portion of our revenues. Loss of relationship with any of these customers may have an adverse effect on our profitability and results of operations.
- We are dependent on a few vendors/ suppliers who are our OEM partners and we typically do not enter into long-term contracts or arrangements with them. Any loss of such suppliers or any increase in the price will have an adverse impact on our business and our revenue.
- Significant proportion of our orders are from government related entities which award the contract through the process of tender. Tenders, typically, are awarded to the lower bidder once all other eligibility criteria are met. Our performance could be adversely affected if we are not able to successfully bid for these contracts or required to lower our bid value.
- We generate a significant percentage of our revenue from operations from customers in Bihar, Odisha and West Bengal in India. If our operations in these states are negatively affected, our financial results and future prospects would be adversely impacted.
- Our working capital requirements have fluctuated in the past and may continue to fluctuate in the future. Any inability to efficiently manage our working capital requirements, including timely realization of trade receivables, may adversely affect our business, financial condition, cash flows and results of operations.
- Our financial condition could be materially and adversely affected if we fail to secure new government and PSU projects.
- Any increase in the cost of, or a shortfall in the supply of IT Equipment's, may adversely affect the pricing and supply of our products and have an adverse effect on our business, results of operations and financial condition.
- Our success depends largely upon the knowledge and experience of our Promoters. Any loss of our Promoters and key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.
- A significant portion of our assets comprises trade receivables. Any delay in realization, inability to recover outstanding dues, or deterioration in the creditworthiness of our customers may adversely affect our liquidity, cash flows, financial condition and results of operations.
- Our competitive position and future growth depend on our ability to adapt to evolving technologies and customer requirements in a highly competitive IT infrastructure and solutions market.

Details of suitable ratios of the company for the latest full financial year

1. Price Earning (P/E) Ratio in relation to the Price Band of ₹ 104 to ₹ 110 per Equity Share of Face Value of ₹ 10/- each fully paid up

Particulars	(P/E) Ratio at the Floor Price (number of times)	(P/E) Ratio at the Cap Price (number of times)
Based on basic EPS for the financial year ended March 31, 2026	11.06	11.70
Based on diluted EPS for the financial year ended March 31, 2026	11.06	11.70

2. Net Asset Value (NAV) per Equity Share

Financial Year	NAV* (in ₹)
As on March 31, 2026	24.42
As on March 31, 2025	15.02
As on March 31, 2024	9.66
Net Asset Value per Equity Share after the Offer	44.81
Offer price per equity shares	110

Note:

a) NAV (book value per share) = Networth divided by number of shares outstanding at the end of the year.

b) The figures disclosed above are based on the Restated Financial Statements of the company.

c) Net worth is computed as the sum of the aggregate of paid-up equity share capital, all reserves created out of the profits, securities premium account received in respect of equity shares and debit or credit balance of profit and loss account

d) Offer Price per Equity Share has been determined by our Company in consultation with the BRLM

3. Comparison of Accounting Ratios with Industry Peers

The following peer group has been determined on the basis of companies listed on Indian stock exchanges, whose business profile is comparable to our businesses:

Name of the Company	CMP* (₹)	Basic EPS (₹)	Diluted EPS (₹)	Face Value (₹)	P/E Ratio*	RoNW (%)	NAV Per Share (₹)	Total Income (₹ in Lakhs)
Dynacons Systems & Solutions Ltd	276.09	66.64	66.64	10.00	26.55	26.90%	24.75	1,43,000.86
Xtranet Technologies Limited	237.05	10.40	10.40	10.00	50.87	30.01%	34.66	36,601.19
Esconet Technologies Limited	1,043.80	4.66	4.66	10.00	15.66	7.68%	60.77	35,784.11
Our Company**	110.00	9.40	9.40	10.00	11.70	38.48%	24.42	6,399.21

*Source: All the financial information for listed industry peers mentioned above is sourced from the Annual Reports of the aforesaid companies for the year ended March 31, 2026 and stock exchange data dated September 15, 2026. P/E figures for the peers are based on closing market prices of equity shares on NSE and BSE on September 15, 2026 divided by the Diluted EPS as at March 31, 2026. **CMP for our Company is the Offer Price of ₹ 110.00 per Equity Share; P/E is computed on the Offer Price and the diluted EPS for the financial year ended March 31, 2026.

4. Weighted Average Cost of Acquisition (WACA), Floor Price and Cap Price

(a) The Price per share of our Company based on the primary/ new issue of shares (equity / convertible securities).

There has been no issuance of Equity Shares during the 18 months preceding the date of the Prospectus (Except Bonus Issue of Shares), where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-issue capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of 30 days.

Date of Allotment	No. of Equity shares Allotted	No. of Equity Shares allotted after giving effect of bonus issue	Issue Price	Issue price after giving effect of bonus issue	Nature of consideration	Total consideration (₹ in lakhs)
			NA			

(b) The price per share of our Company based on the secondary sale / acquisition of shares (equity / convertible securities).

There has been no secondary sale / acquisition of whether equity shares or convertible securities, where the promoter, members of the promoter group, selling shareholders, or shareholder(s) having the right to nominate director(s) in the board of directors of the Company are a party to the transaction (excluding gifts), during the 18 months preceding the date of the Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid up share capital of the Company (calculated based on the pre-issue capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days, is not applicable.

Date of Transfer	Name of Transferor	Name of Transferee	Number of Shares Transferred	Transfer Price
		NA		

c) Price per share based on the last five primary or secondary transactions.

Since there are no transactions to report to under (a) and (b) above, therefore, information based on last 5 primary or secondary transactions (secondary transactions where Promoters / Promoter Group entities or Selling Shareholder or shareholder(s) having the right to nominate director(s) in the Board of our Company, are a party to the transaction) not older than 3 years prior to the date of the Prospectus irrespective of the size of transactions, is as follows

Date of Transfer	Name of Transferor	Name of Transferee	Number of Shares Transferred	Transfer Price	Total Consideration
					(in ₹)
01-06-2026	Vineet Kumar Gupta	Jitendra Kumar Shaw	20	100	2,000
01-06-2026	Vineet Kumar Gupta	Rajat Prasad	20	100	2,000
01-06-2026	Vineet Kumar Gupta	Raju Mondal	20	100	2,000
01-06-2026	Vineet Kumar Gupta	Subha Nandi	20	100	2,000
01-06-2026	Vineet Kumar Gupta	Rohit Midha	20	100	2,000
Total			100		10,000
WACA				100.00	

4. Weighted average cost of acquisition, floor price and cap price.

Type of transaction	Weighted average cost of Acquisition (₹ per equity share)	Floor Price	Cap Price
Weighted average cost of acquisition for last 18 months for primary / new issue of shares (equity / convertible securities), excluding shares issued under an employee stock option plan/employee stock option scheme and issuance of bonus shares, during the 18 months preceding the date of filing of the Prospectus, where such issuance is equal to or more than five per cent of the fully diluted paid-up share capital of our Company (calculated based on the pre-issue capital before such transaction/s and excluding employee stock options), in a single transaction or multiple transactions combined together over a span of rolling 30 days.	N.A.	N.A.	N.A.
Weighted average cost of acquisition for last 18 months for secondary sale / acquisition of shares equity / convertible securities), where promoter / promoter group entities or Selling Shareholder or shareholder(s) having the right to nominate director(s) in our Board are a party to the transaction (excluding gifts), during the 18 months preceding the date of filing of the Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid-up share capital of our Company (calculated based on the pre-issue capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.	N.A.	N.A.	N.A.
Since there were no primary or secondary transactions of equity shares of our Company during the 18 months to report under (a) and (b), information based on last 5 primary or secondary transactions (secondary transactions where Promoters / Promoter Group entities or Selling Shareholder or shareholder(s) having the right to nominate director(s) in the Board of our Company, are a party to the transaction) not older than 3 years prior to the date of the Prospectus irrespective of the size of the transactions.	100.00	1.04 times	1.10 times

5. The Offer Price is 11.00 times of the Face Value of the Equity Shares.

The Offer Price of ₹ 110 per share for the Public Offer is justified in view of the above parameters. The investors may also want to peruse the Risk Factors and Financials of the Company including important profitability and return ratios, as set out in the Financial Statements included in the Prospectus to have more informed view about the investment proposition. The Face Value of the Equity Shares is ₹ 10 per share and the Offer Price is 11.00 times of the face value i.e. ₹ 10 per share.

PROPOSED LISTING: MONDAY, OCTOBER 05, 2026*

This offer is being made through the Book Building Process, in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the "SCRR") read with Regulation 229(2) of the SEBI ICDR Regulations and in compliance with Regulation 253 (1) and 253 (2) of the SEBI ICDR Regulations read with SEBI ICDR (Amendment) Regulations, 2025, wherein not more than 50.00% of the Net Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("QIBs") (the "QIB Portion"), provided that our Company and the Promoter Selling Shareholder in consultation with the BRLM may allocate up to 60.00% of the QIB Portion to Anchor Investors on a discretionary basis ("Anchor Investor Portion"). 40% of the Anchor Investor Portion shall be reserved for domestic mutual funds and life insurance companies and pension funds, out of which 33.33% shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5.00% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, other than Anchor Investors, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5.00% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, the SEBI ICDR Regulations read with SEBI ICDR (Amendment) Regulations, 2025, states that not less than 35% of the Net Offer shall be available for allocation to Individual Investors who applies for minimum application size. Not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than two lots and up to such lots as equivalent to not more than ₹ 10.00 Lakhs and two-thirds of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹ 10.00 Lakhs and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion. Subject to the availability of shares in non-institutional investors' category, the allotment to each Non-Institutional Investors shall not be less than the minimum application size in Non-Institutional Category and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI (ICDR) (Amendment) Regulations, 2025. All Potential Bidders, other than Anchor Investors, are required to participate in the Offer by

Continued from previous page...

mandatorily utilising the Application Supported by Blocked Amount ("ASBA") process by providing details of their respective ASBA Account (as defined hereinafter) in which the corresponding Bid Amounts will be blocked by the Self-Certified Syndicate Banks ("SCSBs") or under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. Anchor Investors are not permitted to participate in the Offer through the ASBA process. For details, please refer to the chapter titled "Offer Procedure" on page 262 of the Prospectus. The investors are advised to refer to the Prospectus for the full text of the Disclaimer clause pertaining to NSE. For the purpose of this Offer, the designated Stock Exchange will be the National Stock Exchange of India Limited. The trading is proposed to be commenced on or before October 05, 2026*

*Subject to the receipt of listing and trading approval from the Emerge Platform of NSE ("NSE EMERGE").

SUBSCRIPTION DETAILS

The bidding for Anchor Investors opened and closed on Thursday, September 24, 2026. The Company received a total of 6 Anchor Investor Application Forms from 6 Anchor Investors for 14,13,600 Equity Shares and the aggregate amount collected from applications made by such Anchor Investors was Rs. 15,54,96,000/-. Out of the total 6 Anchor Investor Application Forms, No Anchor Investor Application Forms were received from Domestic Mutual Funds. A total of 10,96,800 Equity Shares were allocated under the Anchor Investor Portion at Rs 110 per Equity Share (including a share premium of Rs 100.00 per Equity Share) aggregating to Rs. 12,06,48,000/-.

The Offer (excluding Anchor Investors Portion) received 63,182 Applications for 26,62,24,800 Equity Shares (before technical rejections) resulting in 96.42 times subscription (including reserved portion of market maker). RISK TO INVESTORS

For further details please see "Risk Factors" beginning on page 23 of the Prospectus.

1. **Restated Losses in past:** We have recorded losses in the past. The table below sets forth details of losses based on our Restated Consolidated Financial Information: (in ₹ millions)

Particulars	For the Financial Year ended		
	March 31, 2026	March 31, 2025	March 31, 2024
Revenue from operations	5,103.81	3,950.19	3,797.61
Total income	5,376.65	4,067.70	3,847.40
Total expense	5,752.20	4,537.53	4,276.67
Restated loss before exceptional items and tax	(375.55)	(469.83)	(429.27)
Restated loss for the year	(455.06)	(1,263.06)	(512.97)

2. **Negative cash flow:** We have had net cash used in operating and financing activities in the recent past. The table below sets forth details of our cash flows as per our Restated Consolidated Financial Information: (in ₹ millions)

Particulars	For the Financial Year ended		
	March 31, 2026	March 31, 2025	March 31, 2024
Net cash flows used in operating activities	(17.97)	(273.47)	(548.45)
Net cash flows from / (used in) investing activities	176.02	(1,030.35)	(326.78)
Net cash flows from/ (used in) financing activities	(60.39)	1,269.27	693.04
Net increase/(decrease) in cash and cash equivalents	97.66	(34.55)	(182.19)

3. **Dependence on Snapdeal:** A significant portion of our revenue is generated through Snapdeal, our marketplace business. The contribution of Revenue from operations – Marketplace to our total revenue from operations is set out below: (₹ in million, unless otherwise stated)

Particulars	For the Financial Year ended		
	March 31, 2026	March 31, 2025	March 31, 2024
Revenue from operations – Marketplace* (A)	2,936.75	2,498.67	2,528.87
Revenue from operations (B)	5,103.81	3,950.19	3,797.61
Revenue from operations – Marketplace* as a percentage of Revenue from operations (%) (C=A/B)	57.54%	63.25%	66.59%

*As per Ind AS 108 – Operating Segments; Revenue from operations – Marketplace represent gross values and does not account for inter segment eliminations

4. **Competition Risk:** Our market is highly competitive and characterised by rapid changes in technology and consumer sentiment. Buyers who purchase goods and services through us have other alternatives, and sellers have other channels to reach users. We also compete with various e-commerce platforms on which sellers can list their products, as well as physical stores operating in the same segment as ours, and the unorganised sector. Our inability to adequately address competitive pressures may have an adverse effect on our business, financial condition, results of operations and cash flows.
5. **Growth Risk:** Our business depends on the growth of the e-commerce industry in India and our ability to effectively respond to changing user behaviour on digital platforms. In the event the growth of our businesses is not in tandem with the growth of the e-commerce industry or if we are unable to manage our growth or execute our strategies effectively, our results of operations, financial condition, cash flows and prospects could be adversely affected.
6. **Loss of control over Unicommerce:** We currently hold 26.13% of the issued and paid-up equity share capital of Unicommerce eSolutions Limited, our material subsidiary. Despite the current level of shareholding in Unicommerce, we control Unicommerce in accordance with the requirements of Ind AS 110– "Consolidated Financial Statements" and do a line by line consolidation as a subsidiary in our consolidated financial statements. If we lose the right to appoint a majority of its directors or otherwise lose effective control over its management, we may no longer be able to consolidate Unicommerce's financial results which could materially and adversely affect our business, financial condition, cash flows and results of operations.
7. **Risk related to security breaches and cyber-attacks:** Our technology infrastructure and the technology infrastructure of our third-party providers (including our cloud infrastructure service providers) may experience disruptions, failures or breaches of our platform and also face risks inherent in handling large volumes of data and in protecting the security of such data. Any such events could have an adverse effect on our results of operations, cash flows and business.
8. Our marketplace segment NMV grew by 37.30% in Financial Year ended March 31, 2025 compared to March 31, 2024 and further grew by 25.71% in the Financial Year ended March 31, 2026. If the online commerce industry in India and in particular the online market for the products listed on our platform does not develop and grow, our business will not grow and our results of operations, financial condition, cash flows and prospects could be adversely affected.
9. Our business depends on our ability to maintain and scale our technology. Any interruptions or delays in service on our websites or mobile application or any undetected errors or design faults could result

in limited capacity, reduced demand, processing delays, and loss of users, suppliers or sellers.

10. Our use of "open source" software could adversely affect our ability to offer our products and services and subject us to possible litigation.
11. Our Statutory Auditors have reported a modification for certain matter specified in the Report on Other Legal and Regulatory Requirements in the audit report for Financial Year 2026. Further, there are certain emphasis of matter in the auditors' reports for Financial Year 2025. Further, there are modifications reported for certain matters specified in the Report on Other Legal and Regulatory Requirements relating to daily backup of books of account and audit trail for Financial Years 2026, 2025 and 2024. For details, please refer "Restated Consolidated Financial Information" on page 295 of the Prospectus.
12. Any adverse decision in pending litigations against our Company, Subsidiaries, and certain of our Promoters, Directors, Key Managerial Personnel and members of our Senior Management may adversely affect our business, results of operations, cash flows and reputation. For further details, see "Outstanding Litigation and Material Developments" on page 471 of the Prospectus.
13. We have issued Equity Shares in the last 12 months at ₹ 1 under our employee stock option plan schemes and at ₹ 36 in the Pre-Ipo Placement. The Offer Price at the upper end of the price band is ₹32.
14. The Offer also consists of Offer for Sale of 41,562,500 Equity Shares. Our Company will not receive proceeds of Offer for Sale. The Selling Shareholders shall be entitled to proceeds from the Offer for Sale.
15. Since Company has incurred loss in Fiscal 2026 based on Restated Consolidated Financial Information, the basic and diluted EPS is negative, and hence, the Price to Earnings ratio is not ascertainable.
16. Our market capitalization to revenue from operations as of March 31, 2026 is 3.41 times at the upper end of the Price Band and 3.23 times at the lower end of the Price Band. Since our Company has negative EBITDA in Fiscal 2026 based on Restated Consolidated Financial Information, the enterprise value to EBITDA is negative and hence, the enterprise value to EBITDA is not ascertainable.
- #Market capitalisation has been computed at floor price or cap price, as the case may be, by the total number of Equity Shares outstanding as on the date of the Prospectus
17. Lowest average cost of acquisition of Equity Shares acquired by our Promoters and the Selling Shareholders in the Offer is ₹ 5.90, and Offer Price at the upper end of the price band is ₹32.
18. The weighted average return on net worth for our Company for FY 26, 25 and 24 is (59.54%), (110.24%) and NA, respectively. The weighted average return on net worth for last three fiscals is (79.82%).
19. Details of Weighted average cost of acquisition ("WACA") of all Equity Shares transacted in last three years, eighteen months and one year immediately preceding the date of the Prospectus.

Period	Weighted Average Cost of Acquisition (in ₹)^#	Cap Price is 'X' times the Weighted Average Cost of Acquisition	Range of acquisition price: Lowest Price - Highest Price (in ₹)^#
Last one year	22.36	1.43	0.01-36.00
Last three years	3.00	10.67	0.01-36.00

^As certified by B.B. & Associates, Chartered Accountants, pursuant to their certificate dated September 29, 2026.

*The Equity Share allotted pursuant to the ESOP Schemes have been adjusted to reflect the impact of 159:1 bonus issue approved by the Board and Shareholders in November 2021, resulting in an effective acquisition cost of ₹ 0.01 per share.

20. **Weighted average cost of acquisition compared to Floor Price and Cap Price:**

Type of past transactions	WACA (in ₹)	Floor Price (i.e. ₹30)	Cap Price (i.e. ₹32)
WACA of primary issuances during 3 years prior to the Prospectus	36.00	0.83	0.89
WACA of secondary issuances during 3 years prior to the Prospectus	4.18	7.18	7.66

*As certified by B.B. & Associates, Chartered Accountants, pursuant to their certificate dated September 29, 2026.

21. **The three BRLMs associated with the Offer have handled 70 public issues in the past three years, out of which 22 issues closed below the offer price on listing date.**

Name of the BRLMs	Total issues	Issues closed below IPO price on listing date
IIFL Capital Services Limited*	59	17
CLSA India Private Limited*	1	1
Systematix Corporate Services Limited*	7	4
Common Issues of above BRLMs	3	0
Total	70	22

*Issues handled where there were no common BRLMs

ANCHOR INVESTOR BIDDING DATE OPENED AND CLOSED ON: THURSDAY, SEPTEMBER 24, 2026
BID/ISSUE OPENED ON: FRIDAY, SEPTEMBER 25, 2026
BID/ISSUE CLOSED ON: TUESDAY, SEPTEMBER 29, 2026

RISKS TO INVESTORS:

Summary description of key risk factors based on materiality:

- Our Company, Directors, Promoters and Group Companies are parties to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.
- Risk of Low-Capacity Utilization Levels and Potential Underutilization of Expanded Manufacturing Facilities, Which May Adversely Impact Our Operational Efficiency, Profitability, and Return on Investment.
- Potential Adverse Impact on Business Operations Due to Obsolescence of Existing Manufacturing Facility and Risks Associated with Relocation and Commissioning of New Manufacturing Unit with New Machinery.
- Adverse changes in government policies, industry standards, or regulatory requirements governing our products have impacted our past operations and may adversely affect our future business prospects and financial performance.
- Our Restated Financial Statements are Prepared and Signed by the Peer Review Chartered Accountant who is not Statutory Auditors of our Company.

- We have not taken any steps to order the machinery/equipment required for the Expansion and upgradation of the manufacturing facility. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the equipment/machinery in a timely manner, or at all, the same may result in time and cost overruns.
- Our Company is dependent on a few customers for sales. Loss of any of these large customers may affect our revenues and profitability.
- We highly depend on our major raw materials and a few key suppliers who help us procure the same. Our Company has not entered into long-term agreements with its suppliers for the supply of raw materials. In the event we are unable to procure adequate amounts of raw materials, at competitive prices our business, results of operations and financial condition may be adversely affected.
- The majority of our state- wise revenues from operations for the last 3 years are dependent mainly on Haryana. Any adverse developments affecting our operations in these states could have an adverse impact on our revenue and results of operations.
- Our business operations may face less sales in unfavourable solar weather conditions could have a material adverse effect on our business, financial condition and results of operations.

PROPOSED LISTING: MONDAY, OCTOBER 05, 2026*

The Issue is being made through the Book Building Process, in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (“SCRR”) read with Regulation 253 of the SEBI ICDR Regulations, as amended, wherein not more than 50% of the Net Issue shall be allocated on a proportionate basis to Qualified Institutional Buyers (“QIBs”, the “QIB Portion”). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders (1/3rd of the portion available to NIBs shall be reserved for applicants with an application size of more than 10 lakhs and 2/3rd of the portion available to NIBs shall be reserved for applicants with an application size of more than ₹10 lakhs and the unsubscribed portion in either of the sub-categories, could be allocated to applicants in the other sub-category of NIBs) and not less than 35% of the Net Issue shall be available for allocation to Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. All potential Bidders (except Anchor Investors) are required to mandatorily utilize the Application Supported by Blocked Amount (“ASBA”) process providing details of their respective ASBA accounts, and UPI ID in case of Individual Bidders using the UPI Mechanism, if applicable, in which the corresponding Bid Amounts will be blocked by the SCSBs or by the Sponsor Bank under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. Anchor Investors are not permitted to participate in the Issue through the ASBA process. For details, see “Issue Procedure” beginning on page 330 of the Prospectus.

The investors are advised to refer to the Prospectus for the full text of the Disclaimer clause pertaining to NSE. For the purpose of this Issue, the designated Stock Exchange will be the National Stock Exchange of India Limited.

The trading is proposed to be commenced on October 05, 2026

*Subject to the receipt of listing and trading approval from the National Stock Exchange of India Limited.

Apart from such existing interest, Acquirer-2 proposes to acquire 28,84,974 Equity Shares of the Target Company pursuant to the SPASSA and subscribe to 11,00,000 convertible warrants of the Target Company pursuant to the Proposed Preferential Issue, as detailed in this DPS.

7. Acquirer-2 hereby confirms and declares that she has not been categorized or declared as a 'willful defaulter' or 'Fraudulent Borrower' by any bank or financial institution or consortium thereof, in accordance with the applicable guidelines issued by the Reserve Bank of India and in terms of Regulation 6A of the SEBI (SAST) Regulations.

(B) JOINT UNDERTAKINGS / CONFIRMATION BY THE ACQUIRERS:

1. The Acquirers undertake that if they acquire any further Equity Shares of the Target Company during the Offer Period, they shall disclose such acquisition to the Stock Exchange where the Equity Shares of the Target Company are listed, the Target Company at its registered office and the Manager to the Offer within 24 hours of such acquisition, in accordance with Regulation 18(6) of the SEBI (SAST) Regulations. Further, they shall not acquire any Equity Shares of the Target Company during the period between three Working Days prior to the commencement of the Tendering Period and until the closure of the Tendering Period, in accordance with Regulation 18(6) of the SEBI (SAST) Regulations.

2. Acquirers have not been prohibited by SEBI from dealing in securities in terms of directions issued under section 11B of the SEBI Act, as amended or under any other regulations made under the SEBI Act.

3. The Acquirers have not been categorized as 'willful defaulters' by any bank or financial institution or consortium thereof, in accordance with the guidelines on willful defaulters issued by the Reserve Bank of India and are in compliance with Regulation 6A of the SEBI (SAST) Regulations.

4. Acquirers have not been categorized/declared as a fugitive economic offender under Section 12 of the Fugitive Economic Offenders Act, 2018 (17 of 2018), and are in compliance with Regulation 6B of the SEBI (SAST) Regulations.

5. Acquirers undertake that they will not sell the Equity Shares of the Target Company held by them during the Offer Period in terms of Regulation 25(4) of the Takeover Regulations.

6. The Equity Shares validly tendered and accepted pursuant to this Open Offer shall be acquired by Acquirer-2 only. Acquirer-1 shall not acquire any Equity Shares pursuant to the Open Offer.

7. There are no other persons/individuals/entities acting in concert with the Acquirers for the purpose of this Open Offer.

(C) DETAILS OF SELLING SHAREHOLDERS (THE SELLERS):

Not Applicable. The Open Offer is being made pursuant to the Proposed Preferential Issue and there are no selling shareholders in relation to the Open Offer.

(E) DETAILS OF THE OFFER:

- The Acquirers have made the Offer in accordance with the Regulation 3(1) and 3(2) read with Regulation 15(1) and Regulation 13(2)(g) of the Takeover Regulations to all the Public Shareholders of the Target Company for the acquisition of 37,83,000 (Thirty-Seven Lakhs Eighty- Three Thousand) Equity Shares ("Open Offer Shares") of the face value of Rs. 10/- each representing 26.00% of the Expanded Equity & Voting Capital of the Target Company at the "Offer Price" of Rs. 20.00/- (Rupees Twenty only) per Equity Share payable in "Cash" and subject to the terms and conditions set out in the DPS and the Letter of Offer ("LOF").
- The Offer is being made to all the Public Shareholders of the Target Company except the Acquirers / Promoters, Selling Company. The Equity Shares of the Target Company under the Offer will be acquired by Acquirers as fully paid-up, free from any lien, charges and encumbrances and together with the rights attached thereto, including all rights to dividend, bonus and rights offer declared thereof.
- The Offer is neither conditional upon any minimum level of acceptance in terms of Regulation 19(1) of the Takeover Regulations nor it is a competing offer in terms of Regulation 20 of the Takeover Regulations. This Offer is not pursuant to any global acquisition resulting in an indirect acquisition of equity shares of the Target Company. Also, there is no differential pricing in this Offer as all the Equity Shares of the Target Company are fully paid-up.
- The Offer (assuming full acceptance to the Offer Size) will result in the minimum public shareholding (MPS) to fall below 25% of Expanded Equity & Voting Share Capital of the Target Company in terms of Regulation 38 of the Listing Regulations read with Rule 19A (1) of the Securities Contracts (Regulations) Rules, 1957 ("SCRR"). If the MPS falls below 25% of the Expanded Equity & Voting Share Capital, the Acquirers will comply with the provisions of Regulation 7(4) of the Takeover Regulations to maintain the MPS in accordance with the SCRR and the Listing Regulations.
- The Offer is subject to the receipt of the statutory and other approvals as mentioned in Section VI of this DPS. In terms of Regulation 23(1)(a) of the Takeover Regulations, if the statutory approvals are not received, the Offer will stand withdrawn.
- To the extent required and with a view to optimizing value for all shareholders, the Acquirers may, subject to applicable laws and requisite shareholders' and/or regulatory approvals, as

may be applicable, consider or undertake any compromise or arrangement, reconstruction, restructuring, merger, amalgamation, rationalization and/or streamlining of the operations, assets, liabilities, investments or businesses of the Target Company, or any other measures as may be considered appropriate in the interest of the Target Company. The Board of Directors of the Target Company shall take appropriate decisions in respect of such matters in accordance with applicable laws, the requirements of the business and opportunities available from time to time. The Acquirers, who are presently Promoters of the Target Company and are associated with the management of the Target Company, may consider reconstitution of the Board of Directors of the Target Company, subject to applicable laws and requisite approvals, if any, following completion of the Offer. However, as on the date of this Detailed Public Statement, no firm decision has been made by the Acquirers in this regard.

- In terms of Regulation 25(2) of the SEBI (SAST) Regulations, the Acquirers do not currently have any intention to alienate, restructure, dispose of or otherwise encumber any material assets of the Target Company during the period of two years from the completion of the Offer, except in the ordinary course of business and/or as already agreed, disclosed and/or publicly announced by the Target Company. Notwithstanding anything contained herein, the Acquirers undertake that they shall not undertake or cause the Target Company to undertake any sale, lease, disposal or other form of encumbrance of any material assets of the Target Company, except in the ordinary course of business and/or as already agreed, disclosed and/or publicly announced by the Target Company, without obtaining the prior approval of the shareholders of the Target Company by way of a special resolution passed through postal ballot, in accordance with applicable laws.
- The Manager to the Offer, Navigant Corporate Advisors Limited, does not hold any equity shares in the Target Company as on the date of DPS. The Manager to the Offer further declares and undertakes that they will not deal on their own account in the equity shares of the Target Company during the Offer Period.

II. BACKGROUND TO THE OFFER:

- This Offer is a "Mandatory Offer" under the Regulation 3(1) and 3(2) read with Regulation 15(1) and Regulation 13(2)(g) of the Takeover Regulation being made by the Acquirers to the public shareholders of the Target Company for substantial acquisition of Equity Shares and Voting Rights of the Target Company.
- The Board of Directors of the Target Company at its meeting held on Friday, 25th September, 2026, has approved, subject to the approval of the members of the Target Company and such other statutory and regulatory approvals as may be applicable, a preferential issue of 58,56,570 fully paid-up Equity Shares of face value of Rs. 10/- each. Out of the aforesaid proposed preferential issue, 29,09,299 Equity Shares are proposed to be issued and allotted to the Acquirers (24,325 equity shares to Acquirer-1 and 28,84,974 equity shares to Acquirer-2) as consideration for acquisition by the Target Company from the Acquirers of an aggregate of 5,98,000 equity shares of Tusaldah Ventures Private Limited ("TVPL" / "Selling Company") and 29,47,271 equity shares to public category investors at an issue price of Rs. 20/- per equity share, also 40,00,000 warrants convertible into equity shares to Acquirers (29,00,000 warrants convertible into equity shares to Acquirer-1 and 11,00,000 warrants convertible into equity shares to Acquirer-2) at an issue price of Rs. 20/- per convertible warrant and also 23,50,000 warrants convertible into equity shares to public category investors at an issue price of Rs. 20/- per convertible warrant. The consent of the members of the Target Company for the proposed preferential issue is being sought through the notice of the Extraordinary General Meeting ("EGM") proposed to be held on October 27, 2026.
- This Open Offer is being made under Regulation 3(1) and 3(2) of the SEBI (SAST) Regulations, 2011. Pursuant to the Underlying Transaction, the Acquirers jointly will hold 45.03% of the Emerging Equity and Voting Share Capital of the Target Company and 52.87% of the Expanded Equity and Voting Share Capital assuming full conversion of the Convertible Warrants.
- Consequent upon acquiring the shares pursuant to the preferential allotment, the post preferential shareholding of the Acquirers will be 76.92,463 equity shares constituting 52.87% of the Expanded Equity and Voting Share Capital. Pursuant to proposed preferential allotment, the Acquirers will be holding substantial stake. Accordingly, this offer is being made in terms of Regulation 3(1) and Regulation 3(2) read with Regulation 13(2A) (i) and other applicable provisions of the Takeover Regulations.
- The Acquirers propose to continue the existing business of the Target Company and may, from time to time, consider diversification or expansion of the business activities of the Target Company, subject to applicable laws and requisite approvals of the shareholders and/or regulatory authorities, as may be applicable. The primary purpose of the acquisition is to consolidate and strengthen the existing shareholding and management control of the Acquirers in the Target Company and to support the continued growth and development of the Target Company. The Acquirers are already classified as Promoters of the Target Company and intend to continue in such capacity, subject to applicable laws and regulatory requirements.

*Identified Date is only for the purpose of determining the names of the shareholders as on such date to whom the Letter of Offer would be sent. All owners (registered or unregistered) of equity shares of the Target Company (except the Acquirers / Promoters of Target Company and Selling Company) are eligible to participate in the Offer any time before the closure of the Offer.

VIII. PROCEDURE FOR TENDERING THE SHARES IN CASE OF NON RECEIPT OF LETTER OF OFFER:

1. All owners of Equity Shares (except the Acquirers / Promoters of Target Company and Selling Company) whether holding Equity Shares in dematerialized form or physical form, registered or unregistered, are eligible to participate in the Offer any time before closure of the tendering period.

2. There shall be no discrimination in the acceptance of locked-in and non-locked-in shares in the Offer. The residual lock-in period shall continue in the hands of the Acquirers. The shares to be acquired under the Offer must be free from all liens, charges and encumbrances and will be acquired together with the rights attached thereto.

3. Persons who have acquired the Equity Shares of the Target Company but whose names do not appear in the register of members of the Target Company on the Identified Date or unregistered owners or those who have acquired the Equity Shares of the Target Company after the Identified Date or those who have not received the Letter of Offer, may also participate in this Offer.

4. The Open offer will be implemented by the Acquirer through the Stock Exchange Mechanism made available by the Stock Exchange in the form of a separate window ("Acquisition Window") as provided under the SEBI (SAST) Regulations and SEBI Circular CIR/CFD/ POLICYCELL/1/2015 dated April 13, 2015 issued by SEBI and as amended by SEBI Circular CFD/DCR/2/CIR/P/2016/131 dated December 09, 2016 and as per further amendment vide SEBI Circular SEBI/HO/CFD/DCR-III/ CIR/P/2021/615 dated August 13, 2021 and SEBI's Master Circular dated February 16, 2023, bearing reference number SEBI/HO/CFD/PoD1/P/ CIR/2023/31 ("Master Circular").

5. BSE Limited shall be the designated Stock Exchange for the purpose of tendering shares in the Open Offer.

6. The Acquirers have appointed Allwin Securities Limited, Stock Broker for the open offer through whom the purchases and settlement of the Offer Shares tendered under the Open Offer shall be made. The contact details of the buying broker are as mentioned below:

Allwin Securities Limited
B-205/206 Ramji House, 30 Jambhulwadi,
Kalbadevi Road, Mumbai- 400002
Tel: +91-22-43446444
E-mail: allwinsec@gmail.com
Website: www.allwinsecurities.com
SEBI Registration No.: INZ000239635

7. All the shareholders who desire to tender their equity shares under the Open Offer will have to intimate their respective stock brokers ("Selling Brokers") within the normal trading hours of the Secondary Market, during the Tendering period.

8. A separate Acquisition Window will be provided by the stock exchange to facilitate placing of sell orders. All the shareholders who desire to tender their equity shares under the Open Offer will have to intimate their respective stock brokers ("Selling Brokers") within the normal trading hours of the Secondary Market, during the Tendering period. The Selling broker can enter orders for dematerialized as well as physical Equity shares.

9. The Letter of Offer along with a form of acceptance cum acknowledgement would also be available at the SEBI website www.sebi.gov.in, and shareholders can also apply by downloading such forms from the said website.

10. No indemnity is needed from unregistered shareholders.

IX. THE DETAILED PROCEDURE FOR TENDERING THE SHARES IN THE OFFER WILL BE AVAILABLE IN THE LETTER OF OFFER

X. OTHER INFORMATION:

1. The Acquirers and the Target Company have not been prohibited by SEBI from dealing in the securities under directions issued pursuant to Section 11B or under any other regulations made under the SEBI Act.

2. The Acquirers have appointed Navigant Corporate Advisors Limited as Manager to the Offer pursuant to regulation 12 of the SEBI (SAST) Regulations.

3. The Acquirer have appointed Beetal Financial & Computer Services Pvt. Ltd. as Registrar to the Offer having office at Beetal House, 3rd Floor, 99 Madangir, Behind LSC, New Delhi - 110062. Tel No.: +91-11-29961281, +91-11-26051061, +91-11-26051064; E-mail Id: beetal@beetalfinancial.com; beetalra@gmail.com; Website: www.beetalfinancial.com; Contact Person: Punit Kumar Mittal, SEBI Registration No.: INR 000000262.

4. This Detailed Public Statement would also be available at SEBI's website www.sebi.gov.in

5. This Detailed Public Statement is being issued on behalf of the Acquirers by the Manager to the Offer i.e., M/s. Navigant Corporate Advisors Limited.

6. The Acquirers accepts the full responsibility for the information contained in PA and DPS and also for the obligations of the Acquirers as laid down in the SEBI (SAST) Regulations, 2011 and subsequent amendments made thereof.

RISKS TO INVESTORS

- Our Company, Directors, Promoters and Group Companies are parties to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.
- We do not have long term agreements for supply of our raw materials. If we are unable to procure raw materials of the required quality and quantity, at competitive prices, our business, results of operations and financial condition may be adversely affected. Majority of our raw materials are sourced from few key suppliers. Discontinuation of operations of such suppliers may adversely affect our ability to source raw materials at a competitive price
- Substantial portion of our revenues has been dependent upon few customers. The loss of any one or more of our would have a material effect on our business operations and profitability.
- Our business is subject to seasonal and other fluctuations that may affect our cash flows and business operations.
- Our lenders have charge over our movable properties, book debts, stocks in respect of finance availed by us.
- Our supply arrangement with a Quick-Commerce Company operates on a sell-or-return and sales-linked settlement model, exposing us to risks relating to unsold inventory, rejections and timing of payments.
- We have no physical retail store, resulting in dependence on online channels for customer acquisition and sales.
- Inaccuracies or discrepancies in certain statutory filings may attract regulatory scrutiny, and there can be no assurance of a favourable outcome if any adverse notice is issued.
- There are certain instances of delays in the past with ROC/Statutory Authorities.
- The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution and are based on management estimates.

For further details, please refer chapter titled "Risk Factors" on page 22 of the Prospectus

1. Average cost of acquisition of equity shares held by the Promoters:

Sl. No.	Name of the Promoter	No. of Equity Shares Held	Avg. Cost of Acquisition (IN ₹ per Equity Share)
1	Akshay Dudani	48,59,955	3.06
2	Charu Dudani	18,90,000	4.92

The average cost of acquisition of Equity Shares by our Promoters has been calculated by taking into account the amount paid by them to acquire, by way of fresh issuance or transfer or gift or bonus issue etc. less the amount received by them for the sale of Equity Shares through transfer, if any and the net cost of acquisition has been divided by total number of shares held as on date of the prospectus.

2. Comparison with other Listed Companies/Industry peers:

Considering the nature and product manufactured by our company, turnover and size of business of our Company, the peer companies mentioned below are not strictly comparable. However, the below mentioned listed company have been taken into consideration as peer comparative listed companies and has been included for broad comparison only.

Name of Company	CMP *** (IN ₹)	Face Value (IN ₹)	EPS Basic	NAV per Equity Share	P/E Ratio	RONW (%)	Revenue from Operation (₹ in Lakhs)
Peer Group*							
Nandani Creation Limited (Consolidated)	24.65	10.00	1.04	34.64	23.70	3.35%	11,264.16
Purple United Sales Limited	422.45	10.00	15.81	78.80	26.72	22.30%	17,063.21
Mish Designs Limited	36.50	10.00	(3.24)	52.62	(11.27)	(6.00%)	836.52
Issuer Company							
Dudani Retail Limited	29.00	10.00	2.82	15.26	10.30	18.46%	2,458.75

*Considering the nature and size of business of the Company, the peers may not be exactly comparable. Hence a strict comparison is not possible. However, the above companies have been included for broader comparison

*Based on full completed financial year ended on March 31, 2026 on Restated basis

*Source for Peer Companies: Annual Reports as available at Stock Exchange/Company Website (figures as on March 31, 2026)

**CMP as on 09/09/2026 for Peer Group and IPO price for Issuer Company

(For detailed information please refer chapter titled "Basis for Issue Price" beginning on page no. 80 of the Prospectus)

3. Weighted average return on net worth for the last 3 FYs as per the Company's Restated Financial Information

Particulars	RONW in %	Weight
Year ended March 31, 2024	15.02%	1
Year ended March 31, 2025	21.19%	2
Year ended March 31, 2026	18.46%	3
Weighted Average		18.80%

Weighted average: Aggregate of year-wise weighted Return on Net Worth divided by the aggregate of weights i.e. [(Return on Net Worth x Weight) for each year] / [Total of weights]

Note: Net worth has been computed by aggregating share capital and reserves and surplus as per the audited restated financial information. Revaluation reserve or miscellaneous expenditure (to the extent not written off) is not considered for calculating Reserve & Surplus.

4. Disclosure as per clause (9)(K)(4) of Part A to Schedule VI, as applicable:

(a) The price per share of our Company based on the primary/ new issue of shares (equity / convertible securities)

There have been no issuance of Equity Shares or convertible securities, excluding shares issued under ESOP/ESOS and issuance of bonus shares, during the 18 months preceding the date of the Prospectus, where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-issue capital before such transaction(s)), in a single transaction or multiple transactions combined together over a span of 30 days.

(b) The price per share of our Company based on the secondary sale / acquisition of shares (equity / convertible securities)

There have been no secondary sale/ acquisitions of Equity Shares, where the Promoters, members of the promoter group or shareholder(s) having the right to nominate director(s) in the board of directors of the Company are a party to the transaction (excluding gifts of shares), during the 18 months preceding the date of this certificate, where either acquisition or sale is equal to or more than 5% of the fully diluted paid up share capital of the Company (calculated based on the pre-issue capital before such transaction/s and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

(c) The price per share of issuer Company based on the Primary or secondary sale / acquisition of shares (equity / convertible securities)

CORRIGENDUM TO THE PROSPECTUS DATED SEPTEMBER 21, 2026

This corrigendum ("Corrigendum") is being issued in relation to the Prospectus dated September 21, 2026 ("Prospectus") filed by **Dudani Retail Limited** ("Company") with BSE Limited in connection with its Initial Public Offering ("Issue").
The Issue size disclosed in the Prospectus was **36,36,000 Equity Shares of face value of ₹10/- each at an Issue Price of ₹29/- per Equity Share, aggregating to ₹10,54,44,000/- (Rupees Ten Crore Fifty Four Lakh Forty Four Thousand and 000/-)**.
In order to appropriately account for the **odd-lot adjustment arising in the proposed allotment** and to ensure that the final number of Equity Shares offered and allotted is appropriately rounded off, the Issue size is proposed to be increased by **4,000 Equity Shares** (One lot).
Accordingly, the Issue size shall stand revised as follows:

Particulars	21-09-2026	30-09-2026
	As per Prospectus	As per Basis
Authorised Capital (No. of Shares)	1,10,00,000	1,10,00,000
Pre-Issue Paid-up Capital (No. of Shares)	67,50,000	67,50,000
Face Value	10.00	10.00
Issue Price per Equity (in ₹)	29.00	29.00
Lot Size of Equity Shares (In Nos.)	4,000	4,000
Fresh Issue (No. of Shares)	36,36,000	36,40,000
Fresh Issue (in ₹)	10,54,44,000	10,55,60,000
Total Equity Shares in IPO (in Nos.)	36,36,000	36,40,000
Total Issue Size (in ₹)	10,54,44,000	10,55,60,000
Reserved for Market Maker Portion		
Market Maker Equity Shares (in Nos.)	1,84,000	1,84,000
Market Maker Amount (in ₹)	53,36,000	53,36,000
Market Maker allocation (in % of Issue)	5.06%	5.05%
Net Issue to Public		
Net Equity Shares to Public (in Nos.)	34,52,000	34,56,000
Net Issue Amount (in ₹)	10,01,08,000	10,02,24,000
Individual Investors Portion		
Individual Investors Equity Shares (in Nos.)	17,28,000	25,52,000
Individual Investors Amount (in ₹)	5,01,12,000	7,40,08,000
Other Investors Portion		
Other Investors Equity Shares (in Nos.)	17,24,000	9,04,000
Other Investors Amount (in ₹)	4,99,96,000	2,62,16,000
Post-Issue Paid-up Capital (No. of Shares)	1,03,86,000	1,03,90,000
Total Dilution of Equity		
Dilution - Gross	35.01%	35.03%
Dilution - Net after market maker	33.24%	33.26%
Promoters Margin Required	20,77,200	20,78,000

The aforesaid increase in the Issue size is being undertaken, inter alia, to appropriately account for the odd-lot adjustment arising in the proposed allotment and to ensure that the final number of Equity Shares offered and allotted is appropriately rounded off in accordance with Regulation 26(2) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time ("SEBI ICDR Regulations"), and other applicable provisions thereof.

REVISION IN UTILISATION OF ISSUE PROCEEDS

Consequent to the aforesaid increase in the Issue size, the utilisation of the Issue proceeds disclosed under the section titled "**Objects of the Issue**" in the Prospectus shall stand revised as follows:

Particulars	As per Prospectus	As per Basis	% Change
	21-09-2026	30-09-2026	
OFS	-	-	-
Capex	79.20	79.20	-
Loan Repayment	300.00	300.00	-
Working Capital Requirements	396.70	396.70	0.00%
General Corporate Expenses	150.00	151.16	0.77%
Issue related expenses	128.54	128.54	0.00%
Total Issue Proceeds	1,054.44	1,055.60	0.77%

Accordingly, the amount proposed to be utilised towards General Corporate Purpose shall be revised from ₹150.00 lakhs to ₹151.16 lakhs, while the amounts proposed to be utilised towards Capital Expenditure, Repayment of Outstanding Borrowings, Working Capital Requirements and Issue Related Expenses shall remain unchanged.

Accordingly, all references in the Prospectus to the utilisation of Issue proceeds and the amount proposed to be utilised towards General Corporate Purpose shall be read and construed accordingly.

The aforesaid changes shall be read in conjunction with the relevant disclosures contained under the sections titled "**Summary of Prospectus**", "**The Issue**", "**Capital Structure**", "**Objects of the Issue**", "**Issue Structure**" and "**Issue Procedure**" of the Prospectus, wherever applicable.

Save and except for the changes stated hereinabove, all other terms, conditions, disclosures and information contained in the Prospectus dated September 21, 2026 shall remain unchanged.

ANEES HUSSAIN

AMIT GUPTA HAD planned to stop working at 40. By then, he had co-founded InMobi and helped build it into India's first venture-funded new-age unicorn, valued at just over \$1 billion in 2011. He had little reason to start over. Yet an increasingly frustrating commute in Bengaluru changed that plan.

InMobi's office on the Outer Ring Road was about 3 km from Gupta's home. What initially took less than 10 minutes began taking half an hour and eventually an hour as traffic worsened. "I thought this menace of traffic will only get worse," he says. The problem was simple: how do you move people over short distances in a city where the roads were becoming the bottleneck?

"I knew I wanted to solve this problem and give it a shot before I turn 50 or 60 and regret that I didn't try," Gupta says.

The idea was not built alone. Gupta called his IIT Kanpur classmate Naveen Dachuri, who was then working on data systems for the US aviation regulator. Dachuri returned to Bengaluru. The third co-founder was RK Misra, an IIT Kanpur alumnus who had founded the Tenet group of technology companies and Traveljini.com, one of India's early travel portals. Misra had left business at 40 to work in public policy, advising central and state governments.

Their answer was Yulu, launched in early 2018 with a relatively simple proposition: rent a bicycle for short urban commutes. Users could scan a QR code, pick up a cycle and drop it at another location. But within six months, the founders realised the idea was not going to scale. "People were using those pedal cycles more for fitness and leisure, rather than the daily commute," Gupta says.

By mid-2018, Yulu changed direction. It shifted to low-speed electric bikes capped at 25 km/h. The vehicles were slow enough to be treated as bicycles under the rules then in force, avoiding the need for a driving licence

The traffic problem

HOW A SIMPLE ANSWER TO THE PROBLEM OF MOVING PEOPLE THROUGH CONGESTED CITIES EVOLVED INTO AN ELECTRIC MOBILITY BUSINESS

THE COMPANY PLANS TO DOUBLE ITS FLEET IN A YEAR AND QUADRUPLE IT IN TWO. IT WILL LAUNCH A FASTER 45-50 KM/H VERSION

(From left) Naveen Dachuri, CTO, Anuj Tewari, CFO, R K Misra, president - ecosystem partnerships, and Amit Gupta, CEO, Yulu

or registration. More importantly, they found a use case that pedal cycles had not.

Then came Covid. Offices shut, commuters disappeared and Yulu's

revenue fell to zero. But another market was emerging at the same time: food delivery and quick commerce. The company had vehicles sitting idle and a growing pool of delivery workers look-

ing for affordable mobility.

"We thought why don't we offer our bikes to these riders on a fixed rental. Anyway our assets were sitting idle," Gupta says.

The pivot changed Yulu's economics. Gig workers took to the vehicles, investors followed and the company began building a business around electric mobility for commercial riders as much as commuters. In June 2020, Rocketship led a \$3.9 million funding round. That year, Anuj Tewari, Gupta's schoolmate from Kanpur, joined as chief financial officer. He was elevated to co-founder by late 2023. Bajaj invested in 2021, while Magna International led an \$83 million Series B in September 2022 that valued Yulu at \$181 million. Magna and Bajaj invested another \$19.25 million in February 2024.

In August, Yulu raised \$93 million, comprising \$63 million in equity led by GEF Capital Partners and \$30 million in debt. Overall, the company has raised about \$198 million in equity and \$49 million in debt, according to Tracxn. Its revenue doubled to ₹241.9 crore in FY25 from ₹122.8 crore in FY24, while its loss narrowed to ₹126 crore from ₹142.8 crore.

Bajaj now manufactures Yulu's vehicles, which are in their third generation. The fleet is around 50,000, comprising the Miracle for commuters, the DeX for delivery riders and the Yulu Express, a two-seater. About 2,500 are Miracles and 700-800 are Express vehicles, with the rest being DeX.

The commuter business, however, had taken a back seat. Yulu plans to put 7,000-8,000 Miracles back on Bengaluru's roads over the next two to three quarters.

The company aims to double its fleet in a year and quadruple it in two. It will launch a faster 45-50 km/h version of the Express for parcels and bike taxis, which Bajaj will not manufacture. It is also targeting bike-taxi aggregators such as Rapido and Uber.

The larger challenge may be regulatory. A draft from the Ministry of Road Transport and Highways proposes raising the power limit for low-speed vehicles from 250 watts to 600 watts and removing the 60-kg weight cap.

The concern is that heavier, faster scooters could begin passing as bicycles, undermining the category on which Yulu has built its model. At the same time, violations by delivery riders and the unresolved legal status of bike taxis add uncertainty.

Going beyond advocacy to resolve Ukraine war: EAM

SHUBHAJIT ROY
New Delhi, October 4

DISCLOSING THAT INDIA has gone "beyond advocacy" to be a "little more involved" in the efforts to end the Russia-Ukraine war raging since February 2022, External Affairs Minister S Jaishankar said on Sunday that Delhi has been in conversations with both Moscow and Kyiv, trying to be "helpful" on the safety of shipping in the Black Sea, grain and energy exports and on "non-attack possibilities".

His remarks, at the Munich Leaders' Meeting in New Delhi, came days after Ukraine's Foreign Minister Andrii Sybiha said India had put forward a "comprehensive" and "broad" proposal to end the war for the first time.

Jaishankar said, "We are seeing today an unfortunate conflict. Our position on that conflict has been very clear, which is that we would like to see an end to this conflict, and we believe that this will require dialogue and diplomacy. There has to be negotiations in this regard. We have been advocating it for many years, and in recent months, we have got a little bit more involved beyond advocacy. So we have conversations with both Russia and Ukraine in this regard." "We are trying to be helpful, starting with the Black Sea safety of shipping issue, but going beyond that to cover some immediate concerns which both of them have on grain exports, on energy exports, on non-attack possibilities. So those are ongoing conversations right now."

He said India and Russia have historically had very good relations, particularly since the 1950s, and that history is not forgotten.

"For us, Russia and the Soviet Union before that was a country that stood by us in

External Affairs Minister S Jaishankar meets US Indo-Pacific Command Commander Admiral Samuel J Paparo (right) and US Ambassador to India Sergio Gorr, in New Delhi

many ways when our security, when our territorial integrity was under threat. And at a time when, you know, much of the world preferred backing a military regime next to us, Russia was a country with which our relations were very good, and... we are obviously shaped in many ways by that legacy. Today, the relationship has widened beyond that. You know, it is again, the world has changed. We have changed. Our own relationships are not what they were in the '70s and '80s. Neither is the case with Russia's," he said.

"So, like any relationship, it is refreshed. It undergoes a change. New issues come. Old issues sometimes get rebalanced. So it is very much more today an economic relationship as well. So there is a military component. There's a nuclear component. There are space issues, but there is a significant amount of trade and investment between the two countries, and of course, energy and resources as well. So, any country would, when you view another country, you judge it

from our experiences..."

"I can't expect Europe, for example, to look at the world and say, okay, what does India think? And my view should be based on India's experience. Europe will base its judgement on Europe's experience. India will base its judgment on India's experience. So India's experience has been, frankly, quite positive and consistently positive," he said.

On October 1, Russian President Vladimir Putin said Prime Minister Narendra Modi "constantly raises the question about putting an end to the conflict" and has "very good ideas".

Later that day, speaking to reporters in Kyiv, Ukraine's Foreign Minister Sybiha said, "We have four proposals. The most comprehensive is India's proposal. For the first time, India has signalled its willingness to play a role."

He said Ukraine is prepared to agree to an energy and agricultural truce in the Black Sea, and is also considering an unconditional ceasefire along the line of contact.

SC to hear pleas for CEC's suspension today

THE SUPREME COURT is scheduled to hear on Monday a batch of pleas seeking suspension of Chief Election Commissioner Gyanesh Kumar and challenging the manner in which the poll panel led by him took decisions, allegedly without the approval of two election commissioners.

A bench of Chief Justice Surya Kant and Justices Joydip Bagchi and V Mohana is scheduled to hear the pleas filed by Rakesh Kumar Singh and advocate Shailendra Mani Tripathi, who have also challenged the decisions, guidelines and software changes allegedly made by Kumar without the

concurrence of his two colleagues. The PIL, filed by Patna resident Rakesh Kumar Singh, has urged the top court to determine whether Kumar has been individually exercising powers that legally belong to the Election Commission (EC) as a whole, and, if so, to declare those actions unauthorised and take appropriate legal action.

"Direct that respondent No.3 (CEC) shall not exercise the functions of Chief Election Commissioner of India pending final hearing of the present petition; direct that during such period, the business of the Commission be transacted by the unanimous decision of respondent Nos. 4 (Sukhbir Singh Sandhu) and 5 (Vivek Joshi); and direct that any appointment to the resulting vacancy be made upon the recommendation of a Committee, including the Hon'ble Chief Justice of India," the plea reads.

It demanded suspension of Kumar pending the final hearing of the petition to preserve

the "multi-member character of the Election Commission." The plea comes against the backdrop of an *Indian Express* report that claimed that election commissioners Sandhu and Joshi objected on record at least 14 times over the past 10 months to decisions and orders on Special Intensive Revision (SIR) of electoral rolls that they said were issued without their knowledge or recommendation under fire.

The EC said differing views and observations are a normal part of deliberations in any institution and all its orders carry full legal sanction and follow established statutory procedures.

Modi hails India's show at Asiad

PRESS TRUST OF INDIA
New Delhi, October 4

PRIME MINISTER NARENDRA Modi on Sunday congratulated the Indian contingent for its performance at the Aichi-Nagoya Asian Games, praising the athletes for representing the country with determination, passion and sporting spirit.

India finished at the fourth place on the medal table with 85 medals (21 gold, 27 silver, 37 bronze), 21 less than the last edition in Hangzhou, China.

"As the Asian Games 2026 draw to a close, my compliments to every member of the Indian contingent for representing our nation with determination, passion and remarkable sporting spirit," Modi said in a post on X.

He congratulated all the Indian medal winners, saying their performances had brought "immense joy to the nation."

"May these Games inspire even greater achievements in the years ahead. May they contribute to strengthening sports at the grassroots too," the prime minister added.

After more than two weeks of intense competition, which had produced more than 350 records, including at least 50 world
