Risk to Investors

For details, refer to section titled *"Risk Factors"* on page 28 of the Red Herring Prospectus dated October 19, 2026, read with Addendum.

1. **Risk in relation to dependency on technology:** Our revenues and operations are dependent upon technology. Failure of these technologies, failure to upgrade or innovate these technologies or failure to identify and develop new technologies could have an adverse impact on our results of operations. Our products may be displaced by newer technology and any inability or failure to adapt to technological developments, the evolving competitive landscape or industry trends could harm our business and competitiveness and consequently, could have an adverse impact on our results of operations.
2. **Risk of Sector concentration and dependency on Government projects:** We derive a substantial portion of our revenues from the WWT and SWT segments which together accounted for 88.22%, 84.98%, 84.34% and 87.40% of our consolidated revenue from operations in the three months period ended June 30, 2026, Fiscals 2026, 2025 and 2024, respectively. We are significantly dependent on projects, contracts or works awarded or funded by government entities, either directly or through our private customers. Our revenue from operations directly or indirectly attributable to government entities or government tenders represented 91.97%, 92.35%, 92.40% and 95.72% of our consolidated revenue from the WWT segment for the three months period ended June 30, 2026, Fiscals 2026, 2025 and 2024, respectively and 100.00% in the three months period ended June 30, 2026 and 100.00% of our consolidated revenue from SWT segment for each of the Fiscals 2026, 2025 and 2024. Any reduction or termination in such projects or adverse change in government policies could adversely affect our business, results of operations and financial condition.
3. **Customer concentration risk:** We derive a significant part of our revenue from our top 10 customers, and we do not have long term contracts with most of these customers. If one or more of such customers choose not to source their requirements from us or to terminate our long-term contracts, our business, results of operations and financial condition may be adversely affected. The following table sets out our revenue from our top 10 customers for the three months ended June 30, 2026, and for Fiscal 2026, Fiscal 2025 and Fiscal 2024 and percentage of revenue from operations for the respective periods:

Particulars	Three months ended June 30, 2026		Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue (in ₹ millions)	% of revenue from operations	Revenue (in ₹ millions)	% of revenue from operations	Revenue (in ₹ millions)	% of revenue from operations	Revenue (in ₹ millions)	% of revenue from operations
Top 10 customers	1,060.87	79.20%	5,178.44	64.44%	4,282.85	61.37%	3,891.10	59.18%

4. **Risk in relation to trade Sanctions:** We may be subject to trade restrictions, including economic sanctions and export controls, imposed by government(s) around the world or international organisations with jurisdiction over our operations, which prohibit or restrict transactions involving certain designated persons and certain designated countries or territories. Any failure to comply with trade restrictions such as economic sanctions and export controls or with anti-bribery and anti-corruption frameworks instituted by government authorities or international organizations, such as multilateral development banks, may restrict our ability to participate in projects, and could negatively impact our reputation and results of operations.
5. **Negative cash flows from operating activities:** We have experienced negative cash flows from operations in the recent past. Our consolidated cash flows for the three months period ended June 30, 2026 and June 30, 2025 and for the Fiscals 2026, 2025 and 2024 are set forth in the table below:

(in ₹ million)

Particulars	Three months ended		Financial Year		
	June 30, 2026	June 30, 2025	2026	2025	2024
Net cash generated / (used in) from operating activities	(213.42)	320.70	(258.02)	655.09	(116.94)
Net cash generated/ (used in) investing activities	(4.93)	(180.44)	(664.73)	708.27	(771.52)
Net cash generated/ (used in) from financing activities	13.96	(200.48)	924.68	(1,065.25)	721.37
Net increase / (decrease) in cash and cash equivalents	(204.39)	(60.21)	1.93	298.12	(167.08)

6. **Risk in relation to business growth and expansion:** Our business has grown, including our revenue from operations that has grown at a CAGR of 10.56% from ₹6,574.95 million in Fiscal 2024 to ₹8,036.29 million in Fiscal 2026, and we may fail to manage our growth effectively. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. Our inability to manage our business and implement our growth strategy could have a material adverse effect on our business, financial condition and profitability.
7. **Risk in relation to corporate records and filings:** Certain of our corporate records and filings are not traceable or have certain discrepancies. We cannot assure you that regulatory proceedings or actions will not be initiated against us in the future and we will not be subject to any penalty imposed by the competent regulatory authority in this regard.
8. **Risk in relation to outstanding litigations:** Our Company, Promoters, Directors, Subsidiaries and Key Managerial Personnel are currently involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and tribunals or other governmental authorities. Further, our Subsidiaries, SFC Umwelttechnik GmbH, Hindustan Waste Treatment Private Limited and Vasudha Waste Treatment Private Limited have been, and continue to be, involved in material legal proceedings or have received show cause notices from statutory or regulatory authorities. Any adverse outcome in such proceedings may render us liable to liabilities/ penalties and may adversely affect our business, results of operations, financial condition and cash flows. For further details, please see *"Outstanding Litigation and Other Material Developments"* on page 553 of the RHP.
9. **Risks in relation to recall of unsecured loans:** Our Subsidiaries, Hindustan Waste Treatment Private Limited, Vasudha Waste Treatment Private Limited, Fine Aeration Systems Private Limited, Pentagen Biofuels Private Limited, Sustainyx Smart Solution Private Limited (formerly Navitas Waste Treatment Private Limited) and SFC Umwelttechnik GmbH have availed unsecured loans from our Company, aggregating to ₹1,724.87 million as on June 30, 2026 that are repayable on demand by our Company. Any such unexpected demand for repayment may have a material adverse effect on our business, cash flows and financial condition.
10. **High working capital requirement:** We have high working capital requirements, and may require additional financing to meet those requirements, which could have a material adverse effect on our results of operations, cash flows and financial condition. The working capital as a percentage of total revenue from operations was 561.06%, 65.19%, 63.51% and 39.94% for the three months period ended June 30, 2026 and Fiscals 2026, 2025 and 2024, respectively. Also, we have experienced an increase in our cash conversion cycle and may experience longer cash conversion cycles in the future. The table below provides our working capital details (on standalone basis):

Particulars	As of June 30, 2026*	As of March 31,		
		2026	2025	2024
Inventory (in ₹ million)	949.11	777.98	637.21	568.34
Trade Receivables (in ₹ million)	3,119.43	4,312.34	3,404.60	2,812.78
Trade Payables (in ₹ million)	447.78	1,128.78	660.81	973.39
Inventory days[1][4]	239	106	106	78
Trade receivable days[2][3][4]*	443	282	262	197
Trade payable days[3][4]	113	153	109	134
Cash conversion cycle (in days)[4]	569	235	259	141

(1) Inventory days is calculated as inventory at the period end multiplied by 365 divided by Cost of Goods sold during the period.
(2) Trade receivables days is derived as trade receivables at the period end multiplied by 365 divided by revenue from operations.
(3) Trade payable days is derived as trade payable at the period end multiplied by 365 divided by Cost of Goods sold during the period.
(4) Three months period ended is annualised and calculated as 365/4.
** For trade receivables outstanding for more than six months, the Company undertakes periodic follow-ups, reconciliations, and internal escalations as part of its standard receivables management process.*
 # The higher number of days for the three-month period is primarily attributable to the seasonality and cyclicality of our business and the lower first-quarter revenue base, and may not be indicative of the underlying annual cash conversion cycle.

11. **Industry related risk:** The SWT industry is capital-intensive in nature. Our business model involves undertaking SWT projects which may require significant upfront capital expenditure, and which may lead to us relying on bank financing or project-based lending. Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows and our capacity to service debt in a rising interest rate environment.
12. **Risk in relation to materialisation of contingent liability:** We have certain contingent liabilities which, if materialized, may adversely affect our financial condition. As of June 30, 2026, our contingent liabilities amounted to ₹0.21 million.
13. **Risks in relation raw materials:** We depend on a few suppliers for the supply of majority of our raw materials and we do not have continuing and exclusive supply agreements with all of them. Any interruptions in the supply of raw materials, fluctuations in raw material prices or any failure by our suppliers to make timely delivery of raw materials could adversely affect our business, results of operations and financial conditions. The table below provides details in relation to our top one, top five and top 10 suppliers:

Supplier Concentration	Three months period ended June 30, 2026		Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Purchase of stock in trade and raw material (in ₹ million)	% of stock in trade and raw material	Purchase of stock in trade and raw material (in ₹ million)	% of stock in trade and raw material	Purchase of stock in trade and raw material (in ₹ million)	% of stock in trade and raw material	Purchase of stock in trade and raw material (in ₹ million)	% of stock in trade and raw material
Top 1	138.58	20.41%	602.49	17.18%	312.81	10.34%	544.30	15.83%
Top 5	271.85	40.04%	1,434.37	40.89%	961.40	31.79%	1,667.77	48.52%

14. **Health and Environmental Risk:** The assets we operate, and the handling and treatment of waste expose us to safety, operational and other risks, including the risk of personal injury to our employees or third parties. Failure to limit our exposure to such risks may subject us to significant disruptions in our business, legal and regulatory actions, costs, and liabilities and could have an adverse impact on our results of operations.
15. **Our Company will not receive any proceeds from the Offer for Sale portion of the Offer by our Selling Shareholders:** The Offer comprises of Fresh Issue and Offer for Sale. The Selling Shareholders shall be entitled to proceeds from the Offer for Sale.
16. The Price/ Earnings ratio based on diluted EPS for Fiscal 2026 for our Company at the upper end of the price band is as high as 19.98 as compared to the average industry peer group Price/ Earnings ratio of 101.38.
17. Lowest weighted average cost of acquisition of Equity Shares for the Selling Shareholders in the Offer is ₹36.72 and Offer Price at the upper end of the price band is ₹330.
18. The weighted average Return on Net Worth for our Company on a consolidated basis for Fiscal 2026, 2025 and 2024 is 23.82% and for three months period ended June 30, 2026 is 0.19% (not annualized).
19. The table below provides details of our EPS, NAV, price/ earnings, return on equity, return of capital employed, enterprise value/ operating EBITDA and market capitalization to revenue from operations for the Fiscal 2026 are as hereunder:

Notes:
(i) All the financial information for listed industry peers mentioned above is on a consolidated basis (unless otherwise available only on standalone basis) and is sourced from the annual reports as available of the respective company for the relevant year ended March 31, 2026.
(ii) Net asset value per share = Net worth (excluding Non-Controlling Interest) / weighted average number of equity shares outstanding at the end of the year adjusted for the subdivision of the equity shares and issue of bonus shares, if any, in accordance with principles of Ind AS 33.
(iii) P/E Ratio has been computed based on the closing market price of equity shares on BSE on October 16, 2026, divided by the Diluted EPS for the Fiscal 2026.
(iv) ROE is calculated as total profit after tax for the period / year divided by average total equity.
(v) ROCE is calculated as a percentage of earnings before interest and taxes(EBIT) / total equity plus total borrowings plus deferred tax liabilities minus deferred tax assets as per the restated / audited consolidated financial information. EBIT is calculated as profit before tax and share of profit of joint ventures / associate plus finance costs.
(vi) Enterprise Value / Operating EBITDA has been computed as the Enterprise Value divided by the Operating EBITDA for the Fiscal 2026. Enterprise Value has been calculated as the market capitalization, computed based on the closing market price of equity shares on BSE on October 16, 2026, adjusted for net debt as of March 31, 2026.
(vii) Market Capitalization to Revenue from Operations has been computed as the market capitalization, computed based on the closing market price of equity shares on BSE on October 16, 2026, divided by the Revenue from Operations for the Fiscal 2026.

THE EQUITY SHARES OF OUR COMPANY WILL GET LISTED ON THE MAIN BOARD PLATFORMS OF THE STOCK EXCHANGES.

In case of any revision in the Price Band, the Bid / Offer Period will be extended by at least three additional Working Days after such revision in the Price Band, subject to the Bid / Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company may, in consultation with the BRLMs, for reasons to be recorded in writing, extend the Bid / Offer Period for a minimum of one Working Day, subject to the Bid / Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a public notice and also by indicating the change on the respective websites of the BRLMs and at the terminals of the Syndicate Members and by intimation to Self-Certified Syndicate Banks ("**SCSBs**"), Designated Intermediaries and the Sponsor Bank(s), as applicable.

This Offer is being made through the Book Building Process, in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations and in compliance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers ("**QIBs**" and such portion, the "**QIB Portion**"), provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations ("**Anchor Investor Portion**"). 40% of the Anchor Investor Portion shall be reserved as under: (i) 33.33% for the domestic Mutual Funds; and (ii) 6.67% for Life Insurance Companies and Pension Funds, subject to valid Bids being received from the domestic Mutual Funds, Life Insurance Companies and Pension Funds at or above the price at which allocation will be made to Anchor Investors ("**Anchor Investor Allocation Price**") in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (other than the Anchor Investor Portion) (the "**Net QIB Portion**"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from the Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation will be added to the remaining QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders (out of which one-third of the portion available to Non-Institutional Bidders shall be reserved for Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million, and two-third shall be reserved for Bidders with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to Bidders in the other sub-category) and not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer Price. All Bidders, other than Anchor Investors, are required to participate in the Offer by mandatorily utilising the Application Supported by Blocked Amount ("**ASBA**") process by providing details of their respective ASBA Account (as defined hereinafter) and UPI ID in case of UPI Bidders (as defined hereinafter), as applicable, pursuant to which their corresponding Bid Amounts will be blocked by the Self Certified Syndicate Banks ("**SCSBs**") or by the Sponsor Bank(s) under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. Anchor Investors are not permitted to participate in the Offer through the ASBA process. For further details, see *"Offer Procedure"* on page 594 of the RHP.

Bidders/Applicants should ensure that DP ID, PAN and the Client ID and UPI ID (for UPI Bidders bidding through UPI Mechanism) are correctly filled in the Bid cum Application Form. The DP ID, PAN, UPI ID and Client ID provided in the Bid cum Application Form should match with the DP ID, PAN, Client ID and UPI ID available (for UPI Bidders bidding through the UPI Mechanism) in the Depository database, otherwise, the Bid cum Application Form is liable to be rejected. Bidders/ Applicants should ensure that the beneficiary account provided in the Bid cum Application Form is active. Bidders/Applicants should note that on the basis of the PAN, DP ID, Client ID and UPI ID (for UPI Bidders bidding through the UPI mechanism) as provided in the Bid cum Application Form, the Bidder/Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Offer, any requested Demographic Details of the Bidder/Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for giving Allotment Advice or unblocking of ASBA Account or for other correspondence(s) related to the Offer. Bidders/Applicants are advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Bidders/Applicants' sole risk.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification issued by Central Board of Direct Taxes notification dated February 13, 2020 and read with press releases dated June 25, 2021, September 17, 2021 and March 28, 2023 and any subsequent press releases in this regard.

For **SFC ENVIRONMENTAL TECHNOLOGIES LIMITED**
On behalf of the Board of Directors
Sd/-
Shweta Deshpande
Company Secretary and Compliance Officer

Place: Navi Mumbai, Thane, Maharashtra
Date: October 27, 2026

SFC ENVIRONMENTAL TECHNOLOGIES LIMITED is proposing, subject to receipt of requisite approvals, market conditions and other considerations, to make an initial public offer of its Equity Shares and has filed a RHP dated October 19, 2026 with the RoC and thereafter with SEBI and the Stock Exchanges. The RHP along with Addendum is made available on the website of the SEBI at www.sebi.gov.in as well as on the website of the BRLMs i.e., IIFL Capital Services Limited *(formerly known as IIFL Securities Limited)* at www.iiflcapital.com; JM Financial Limited at www.jmfl.com and Nuvama Wealth Management Limited at www.nuvama.com, the website of the BSE at www.bseindia.com and the website of the NSE at www.nseindia.com and the website of the Company at www.sfcenvironment.com. Any potential investor should note that investment in equity shares involves a high degree of risk and for details relating to such risks, please see the section *"Risk Factors"* beginning on page 28 of the RHP. Potential investors should not rely on the DRHP for making any investment decision and must rely on their own examination of our Company and the Offer.

The Equity Shares offered in the Offer have not been and will not be registered under the United States Securities Act of 1933, as amended (the **"U.S. Securities Act"**), or any state securities laws in the United States, and unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and in accordance with any applicable U.S. state securities laws. A STELLAR SEVEN-MEMBER JURY LED BY KUMAR MANGALAM BIRLA HONOURS INDIA INC'S CAPTAINS WHO PAIR BOLD VISION WITH DISCIPLINED EXECUTION, UPHOLD THE HIGHEST STANDARDS OF GOVERNANCE AND BUILD FOR INDIA'S FUTURE

LEADERS WHO DARED, AND DELIVERED

AARADHYA INFRASTRUCTURE Presents
FINANCIAL EXPRESS Leadership AWARDS
Co-presented by Groww

FE BUREAU
Mumbai, October 27

WHAT SETS A great leader apart? For the distinguished jury that met in Mumbai recently to choose the inaugural *FE* Leadership Award winners, the answer came down to a rare combination: the courage to place big bets, the discipline to see them through, and the conviction to build for India and beyond.

"What struck me most during the jury process was how quickly the conversation moved beyond balance sheets and valuations," said jury chair Kumar Mangalam Birla, chairman of the Aditya Birla Group. Corporate governance, he said, was central to the assessment, alongside innovation, appetite for growth, the ability to confront competition and resilience. "We looked for companies that could balance ambition with discipline, speed with sound judgment, and opportunity with responsibility."

That spirit was best embodied by the winner of the awards' marquee honour. Mahindra & Mahindra's Anish Shah was named CEO of the Year for turning the company into a winning machine: dominant in SUVs, setting the pace in electric vehicles and a magnet for talent across a diversified group. Jurors pointed to the sharp rise in M&M's market value since he took charge in 2021, and to a quiet style that lets results do the talking.

"Transformation is never just about numbers; it's about bringing people along, making difficult decisions and believing in a better tomorrow," said Arundhati Bhattacharya. "That is what makes Anish's leadership so inspiring."

Besides Birla and Bhattacharya, president and CEO, Salesforce South Asia, the seven-member jury comprised Cyril Shroff, managing partner, Cyril Amarchand Mangaldas; Sanjay Nayar, founder, Sorin Investments; Amit Chandra, chairman, Bain Capital; Rajiv Memani, chairman and CEO, EY India; and Manish Kejriwal, founder and managing partner, Kedaara Capital. Memani, who was in Delhi, and Nayar and Shroff, who were in London, joined via video conference.

Japan weighs ₹8-10 L cr investments in India

● Seeks faster clearances for projects & tax predictability

PRASANTA SAHU
New Delhi, October 27

A 32-MEMBER JAPANESE industry delegation led by the Japan Chamber of Commerce and Industry (JCCI) and Mitsubishi corporate adviser Ken Kobayashi met top policymakers here, pitching investments to the tune of ₹8-10 lakh crore in India's infrastructure and manufacturing sectors over the next few years.

The commitment comes at a time India scouts for durable capital and seeks to stem capital outflows. The Japanese group's visit also coincides with the Asian country emerging as India's top source of foreign direct investment (FDI) in Q1FY27, pipping conventional source countries like Singapore, Mauritius and the US.

During the interactions, the delegates sought faster clearances for projects, tax predictability and a larger pool of skilled manpower, official sources said. The proposed investments span several sectors, including automobiles, manufacturing and new high-speed rail networks, among others.

Besides prominent Japanese businessman Kobayashi, the delegation comprised representatives from various sectors, including Seiji Kuraishi of Honda Motor, Tatsufumi Sakai of Mizuho Financial Group, Shinichiro Shimizu of Japan Airlines, Isao Iguchi of Corno Macaroni Co. (food manufacturing), Sei Kosaka of Komatsu Store Co. (retail) and Masaki Seki of Sekisho Corporation (trading), among others.

LNG import bill zooms 23% to $8.5 billion in first half

SAURAV ANAND
New Delhi, October 27

INDIA PAID AN additional $1.6 billion or 23% more for importing natural gas in the first half of FY27 despite purchasing just 4.4% more of the hydrocarbon shipped in liquid form as the West Asia conflict pushed up prices and disrupted supplies.

India's LNG import bill rose to $8.5 billion during April-September from $6.9 billion a year earlier, according to Petroleum Planning and Analysis Cell (PPAC) data. The increase comes at a time when domestic gas production is falling and more than half of the country's consumption is being met through imports.

According to energy consultancy Rystad Energy, South Asia's LNG import costs are projected to reach $23.1 billion this year, against $17.3 billion estimated before the conflict. The increase is considerably higher than the projected 18% rise in global LNG spending.

The pressure is already visible in India's import figures. LNG purchases increased to 18,189 million standard cubic metres (MMSCM) during April-September from 17,414 MMSCM a year ago. In September alone, the country spent around $1.2 billion despite import volumes falling 8.5% to 2,957 MMSCM.

Meanwhile, domestic gas production declined 4.4% to 16,804 MMSCM in the first half, pushing import dependence to 52.3% from 50.1%. Overall consumption remained almost unchanged at 34,769 MMSCM.

Rystad estimates that global LNG importers will spend at least $39 billion more in 2026 despite purchasing 60.7 million tonne less gas. The combined import bill could reach $256.3 billion, compared with $217.8 billion before the conflict.

CUSTOMER BASE OF OVER 530 MILLION TO CUT ACQUISITION COSTS

Jio dials up finance as its next big bet

KSHIPRA PETKAR & URVI MALVANIA
Mumbai, October 27

HAVING UPENDED INDIA'S telecom market with cheap data, the Jio brand is now turning that playbook on financial services. Jio Financial Services (JFSL) is building a single digital platform spanning lending, payments, mutual funds, wealth management and insurance, betting that Jio's base of more than 533 million telecom subscribers can become its next growth engine.

Nearly a decade after Mukesh Ambani called data the 'new oil', the group is looking to monetise that reach. The pricing already carries a familiar stamp: last year, JFSL launched tax filing at ₹24 for do-it-yourself users and ₹999 with expert help, a move reminiscent of the free 1 GB a day that shook up telecom.

This time, Jio has global heavyweights in its corner. Bank of America plans to buy up to 49.9% of lending arm Jio Credit, BlackRock is its partner in asset and wealth management, and Allianz in insurance.

In JFSL's latest annual report, Chairman K V Kamath argued that the future would belong not to banks or non-banks, but to platforms that connect people with what they need.

Legacy players weighed down by complex IT systems, he warned, would struggle to keep pace as savers turn into investors.

The platform is scaling fast. JioFinance had over 32 million unique users in September, up from 25 million in June, around 8 million of them active monthly.

Jefferies estimates it facilitated about 36,000 sales of financial products a day in the September quarter.

India-made JLR SUV gets a ₹34L price cut

AKBAR MERCHANT
Mumbai, October 27

JAGUAR LAND ROVER (JLR) has cut prices of its popular Defender 110 SUV by up to ₹34 lakh by starting local assembly at its Pune facility as the British luxury carmaker looks to tap growing demand in India and strengthen its position in one of its top 10 global markets. Prices of the India-assembled SUV start at ₹99 lakh and go up to ₹1.18 crore (ex-showroom).

The move makes India only the second country globally to manufacture the Defender and the first outside Europe. Until now, the SUV was imported as a completely built-up (CBU) unit from JLR's facility in Nitra, Slovakia.

Local assembly is expected to improve the model's price competitiveness, while the company is retaining its equipment levels and making several features that were earlier optional standard across variants.

INDIA MUST EMBRACE TECH OF FUTURE: PM

INDIA IS MOVING forward with a new mindset and newfound self-confidence in the field of science and technology, Prime Minister Narendra Modi said on Tuesday at the Emerging Science, Technology and Innovation Conclave (ESTIC)-2026. He also said the country's goal is to create new technology and shape its direction - for India, for the world, for today, and for tomorrow. "India must embrace technology of the future, innovate boldly, and lead the world in creating them," Modi said. The prime minister highlighted that the country needs to attain self-reliance and build strength in critical technology.

BORDER RELAXATION

- Hunt for senior country officer is being handled by search firm Heidrick & Struggles
- Press Note 2 of 2026 permits automatic-route investments with beneficial ownership up to 10%
- India received **₹4,895.65 crore** in investments under relaxed provisions through August 29

- Seven neighbouring countries, including China and Pakistan, remain covered under land-border restrictions
- Investments span AI, IT, data centres, pharmaceuticals, manufacturing and transport services

THE GOVERNMENT IS considering easing paperwork requirements for investment funds with less than 10% ownership by investors from countries sharing a land border with India (LBCs), a senior official said on Tuesday.

The proposed changes would involve modifying forms to remove disclosure requirements for information that is not necessary, the official said.

In March, the government amended Press Note 3 of 2020 through Press Note 2 of 2026, allowing investments from entities and funds with beneficial ownership of 10% or less by investors from LBCs to come through the automatic route, provided there is no management control or ultimate effective control by such investors.

The countries covered by the restrictions are China, Pakistan, Bangladesh, Myanmar, Nepal, Bhutan and Afghanistan.

Between March and August 29, investment proposals worth ₹4,895.65 crore came into India under the relaxed provisions. The investments span high-growth sectors such as artificial intelligence, information technology, data centres, pharmaceuticals, manufacturing and transport services. They originated from investment hubs, including the US, Singapore, Mauritius, South Korea, Japan, Luxembourg and the Cayman Islands.

Press Note 2 of 2026 also introduced a 60-day approval timeline for investments from LBCs in specified manufacturing segments, including capital goods, electronic capital goods, electronic components, polysilicon and ingot wafers, advanced battery components, rare earth permanent magnets and rare earth processing.

For investments under this provision, majority shareholding and control of the investee company must remain with resident Indian citizens or Indian entities owned and controlled by resident Indian citizens at all times.

Push to manufacture import-dependent goods

Separately, the government has completed an exercise to identify 100 intermediate goods for which India is heavily dependent on imports, with a view to encouraging domestic manufacturing, the official said. The exercise was completed after consultations among various ministries, and the government will now decide on the support needed to make domestic production of these goods viable.

₹270 crore allocated under Startup FoF 2.0

On the ₹10,000-crore Startup Funds of Funds 2.0, launched in April, the official said around ₹270 crore of the ₹900-crore allocation in the current financial year had already been allocated to the Small Industries Development Bank of India (SIDBI), which is implementing the scheme.

SIDBI has shortlisted 15 alternative investment funds (AIFs) for support. The government will part-fund these funds, which will invest in startups operating in capital-intensive and high-risk sectors that require longer gestation periods and patient capital.

India and Mexico finalise terms of trade agreement

- Goyal hints at early harvest

Commerce Secretary Rajesh Agrawal (right) with Director General for Asia-Pacific at Mexicos Secretaría de Relaciones Exteriores, Fernando González Saiffe, in Mexico PTI

INDIA AND MEXICO will formally launch negotiations for a preferential trade agreement (PTA) with the signing of the Terms of Reference (ToR) during Commerce Secretary Rajesh Agrawal's two-day visit to Mexico City which began on October 26.

Commerce and Industry Minister Piyush Goyal said Mexico is keen on an early-harvest arrangement to liberalise trade in selected goods faster.

"Mexico is very keen to have an early harvest," Goyal said in The Hague. Early harvest is an interim agreement that could allow the two countries to reduce or eliminate duties on goods where neither side has major sensitivities faster, without waiting for a comprehensive deal.

The proposed PTA will focus on liberalising trade in identified goods between the two countries. The ToR will provide the framework for negotiations, which are expected to identify products on which tariff concessions can be offered.

Goyal also updated on India's broader trade negotiations, saying a deal with Chile was "quite ripe for conclusion" and talks with Canada were making "very good progress". The sixth round of talks with Canada on Comprehensive Economic Partnership Agreement (CEPA) is expected in early November with both sides aiming to conclude negotiations by the end of this year.

Business engagements

Agrawal arrived in Mexico City on October 26 for meetings with the Mexican government and business community to advance bilateral trade and investment ties.

Ahead of the ToR signing, the Indian Embassy in Mexico, in partnership with the Indmex Council, brought together Indian and Mexican business leaders to explore opportunities, address challenges and strengthen commercial linkages.

Agrawal highlighted the complementarities between the two economies, India's growth of around 7% and the untapped potential for trade, investment and business partnerships. He also emphasised the importance of policy stability, predictability and a rules-based trading environment.

Financial sector must expand coverage: Das

FE BUREAU
New Delhi, October 27

THE FINANCIAL SECTOR must expand credit access, deepen corporate and municipal bond markets, and extend insurance and pension coverage to support the country's Viksit Bharat 2047 ambition, said Shaktikanta Das, Principal Secretary-2 to the Prime Minister, on Tuesday.

Das said India remains among the world's fastest-growing major economies despite geopolitical tensions and global trade disruptions, with growth projected at 7% in FY27.

Speaking at a *Business Standard* event in Mumbai, Das said the country's financial system had emerged stronger from successive global crises, backed by healthier bank balance sheets, improved asset quality and robust credit growth. He said the banking sector had moved beyond the stress of high non-performing assets and weak capital adequacy that had weighed on it in the past.

"The Indian banking sector has shaken off the hangover of high NPAs and low capital adequacy, and has evolved into a well capitalised system with healthy balance sheets, high profitability and surge in credit growth," Das said.

He highlighted the importance of strengthening the financial sector as India seeks to transition from a lower-middle-income economy to a high-income nation by 2047. Banks and financial institutions, he said, would need to play a larger role in financing infrastructure, advanced manufacturing, renewable energy and emerging technologies, while widening access to credit for small businesses and farmers.

Das also called for a deeper corporate bond market and stronger municipal bond financing to help meet the country's growing investment needs. Greater participation by retail and institutional investors in public bond issues, he said, could diversify funding sources beyond bank lending and provide households with extra investment opportunities.

RABI SOWING BEGINS AT A SLOW PACE

SOWING OF RABI or winter crops — wheat, pulses, oilseeds and coarse cereals – has commenced sluggishly. The area covered until October 23, 2026, was 1.8 million hectares (Mha), a 36% year-on-year decline. The total winter crop sown area is 64.76 Mha, according to the agriculture ministry. Sowing would pick up pace by the middle of next month as day temperatures are likely to cool down with improvement in the soil moisture levels. Harvesting of Kharif crops should be completed in the next two to three weeks, officials said. The ministry stated that sowing of wheat has just commenced in a few states. Wheat, a major rabi crop, is usually sown by farmers in October 15 - November 30 and harvested at the end of March and April. Wheat was sown in 33.6 Mha in the 2025-26 crop year (July-June).

JLR gets over half of quota under trade pact with UK

FE BUREAU
New Delhi, October 27

JAGUAR LAND ROVER (JLR) India has been allocated a quota to import 325 cars at concessional duties under the India-UK Comprehensive Economic and Trade Agreement (CETA), accounting for more than half of the 642 units approved by the government in the first round of allocations.

The government has approved six applications out of eight received against a quota of 4,200 cars made available for imports at preferential duties in 2026, the first year of the trade pact's implementation. The agreement came into force on July 15, leaving less than six months in the calendar year.

BMW India and Skoda Auto Volkswagen India have been allocated quotas of 75 cars each. Among dealerships, Select Cars has secured approval for 77 units, K U N Motor Company for 60 and Infinity Cars for 30.

Under CETA, India has committed to allowing imports of 20,000 cars in the first year at preferential duties. However, given the pact's mid-year implementation, the government has limited the quota available for the remainder of 2026 to 4,200 units.

India-EU investment protection deal under discussion: Goyal

RAJESH RAI
Hague, October 27

NEGOTIATIONS FOR AN Investment Protection Agreement (IPA) between India and the European Union are underway, Commerce and Industry Minister Piyush Goyal has said.

He also said some legal changes are required for an agreement on Geographical Indications (GIs) with the EU, which the ministry is going to introduce in Parliament.

"Discussions are underway on a bilateral investment agreement or the IPA, and for the GI pact, we need to make some legal changes," he told reporters here.

India and the 27-nation European Union announced the conclusion of negotiations for a free trade agreement on January 27, which is touted as "mother of all deals".

The EU is already a leading investor in India. About 6,000 European firms are present in India.

A GI is primarily an agricultural, natural or manufactured product (handicrafts and industrial goods) originating from a definite geographical territory.

An IPA provides a framework to protect investments made by companies and investors in another country.

IN PROGRESS

- The EU is already a leading investor in India. About 6,000 European firms are present in India
- With preferential access to economies accounting for 76% of global GDP, India's trade opportunities would increase significantly

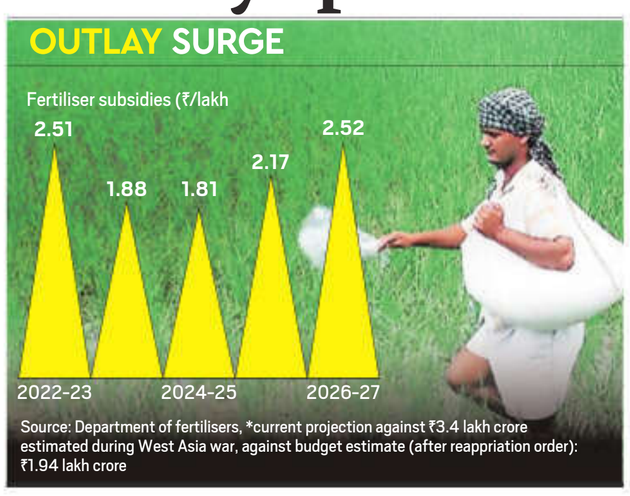
It aims to ensure fair and non-discriminatory treatment, protect investors against unlawful expropriation and provide mechanisms for resolving investment-related disputes.

Such agreements help boost investor confidence, reduce policy-related risks and encourage cross-border investment by offering greater certainty and transparency in the host country's regulatory framework. It would safeguard products such as Darjeeling tea, Basmati rice and Indian handicrafts, while protecting European products such as Feta cheese. **—PTI**

Four-fifths of budgeted fertiliser subsidy spent

- Annual outgo likely to exceed ₹2.5 lakh crore

SANDIP DAS
New Delhi, October 27



Source: Department of fertilisers, *current projection against ₹3.4 lakh crore estimated during West Asia war, against budget estimate (after reappriation order): ₹1.94 lakh crore

ELEVATED GLOBAL PRICES of finished products and LNG, the major feedstock for domestic urea production, resulted in the government spending over ₹1.32 lakh crore on fertiliser subsidies so far this fiscal year.

That's 77% of the budgeted fertiliser subsidy of ₹1.71 lakh crore for the year.

The fertiliser ministry's estimate of the subsidy requirement of the year after re-appropriation order currently stands at ₹1.94 lakh crore.

This estimate is likely to be revised further upwards.

Sources said that while urea prices fell from their peak in May, the overall subsidy outlay for soil nutrients is likely to exceed the previous record of ₹2.52 lakh crore in FY23.

According to sources, of the expenditure incurred, ₹92,251 crore has gone toward imports and domestic production of urea, the country's most consumed soil nutrient so far this fiscal year.

Oil purchases driven by price, not pressure: Puri

SAURAV ANAND
New Delhi, October 27

PETROLEUM MINISTER HARDEEP Singh Puri on Tuesday said he had never felt any pressure from the United States over India's oil procurement decisions, asserting that refiners would continue buying crude from suppliers offering the most competitive prices.

His remarks come as Indian refiners reassess Russian oil purchases amid rising freight costs, narrowing discounts and increasingly competitive Middle Eastern supplies.

"I never felt anything," Puri said when asked whether Washington had pressured New Delhi to reduce Russian crude imports, during a media interaction at the 29th Energy Technology and Innovation Meet in Goa.

"This is a government committed to the welfare of its people and energy supplies," he told reporters.

The minister said crude purchases would depend on the prices and terms offered by suppliers, with India's energy security remaining the priority.

"At the point of negotiation, whoever is supplying a particular grade, we will buy from them. Prices come down sometimes," he said.

Puri noted that Russian crude accounted for just 0.2% of India's oil imports before the Ukraine war, with purchases rising sharply thereafter as discounted supplies became available. He also pointed to increasing oil supplies from West Asia.

The changing market conditions are reflected in refiners' purchases. Bharat Petroleum Corporation (BPCL), which sourced 37% of its crude from Russia during July-September, expects Russian purchases to decline significantly in November as Middle Eastern grades become commercially more attractive.

Russian crude premiums have narrowed sharply to $1-2 per barrel for December cargoes from $12-13 in October. However, elevated freight costs continue to affect the competitiveness of Russian supplies.

For November, freight on Russian crude shipments from Baltic and Black Sea ports to India's west coast ranges between $27 and $32 per barrel, depending on the vessel and route. In comparison, shipping crude from Oman and Fujairah costs $6-7 per barrel, while cargoes passing through the Strait of Hormuz cost around $16, excluding war-risk insurance.

Rage over E20 fuel was a 'paid campaign': Gadkari

UNION ROAD TRANSPORT Minister Nitin Gadkari on Tuesday said the rage over blending 20% ethanol in petrol fuel was a "paid campaign".

The remark came a day after the government notified changes to the Central Motor Vehicles Rules 1989, allowing flex-fuel vehicles that can run on up to E100 (nearly pure ethanol).

Addressing an event organised by industry body CII, Gadkari further said India can save precious foreign exchange by reducing imports of fossil fuels.

"Three months ago, huge noise (*khub halla*) was made against the E20 (20% ethanol-blended petrol) fuel; now rage against E20 fuel is over...It was a paid campaign," he said. **—PTI**

GST SYSTEM ALIGNED WITH FEMA, RBI-ANCHORED SETTLEMENT

Material evidence must to invoke GST fraud: CBIC

SHUBHAM RANA
New Delhi, October 27

THE CENTRAL BOARD of Indirect Taxes and Customs (CBIC) has issued a series of clarifications on recent Goods and Services Tax (GST) process reforms, covering tax investigations, registration, exports, input tax credit (ITC) and dispute resolution.

In a circular, the CBIC said GST officials would need to establish "material evidence" during an investigation before invoking provisions relating to fraud, wilful misstatement or suppression of facts with an intent to evade tax.

Sections 74(1) and 74A(5)(ii) of the CGST Act cannot be invoked merely on the ground of non-payment of GST without specific evidence of fraud, wilful misstatement or suppression of facts with intent to evade tax, the CBIC said. Under these provisions, officers can impose penalties ranging from 15% to 100% of the tax amount, depending on the timing of payment in relation to the show-cause notice (SCN).

The CBIC also emphasised clearly articulated allegations, meaningful consideration of taxpayers' submissions, year-wise delineation of demands in multi-year SCNs, and separate grounds and quantification for fraudulent and non-fraudulent demands under Sections 73 and 74. These clarifications are expected to improve the quality and discipline of GST adjudication, tax experts said.

"Significantly, while prescribing year-wise clarity, the contentious question of whether consolidated multi-year notices are legally sustainable is still left unresolved," said Manoj Mishra, partner and tax controversy management leader, Grant Thornton Bharat.

The clarifications follow the GST Council's 57th meeting earlier this month, where it recommended several measures to simplify processes under the indirect tax regime and reduce prosecution. The Council also recommended decriminalising the GST law by scrapping the arrest powers of tax officers and raising the prosecution threshold to ₹5 crore from ₹1 crore earlier.

In another circular, the CBIC aligned GST provisions more closely with the Foreign Exchange Management Act (FEMA) and settlement mechanisms recognised by the Reserve Bank of India (RBI), providing greater clarity on cross-border transactions.

The CBIC said receipts through repatriable rupee accounts, such as Special Non-Resident Rupee (SNRR) accounts or Nostro accounts, would be considered for determining the consideration for the supply of services.

Where export receivables are set off against import payables in accordance with RBI directions, the prescribed realisation condition for qualifying as an export of services under the Integrated GST (IGST) Act would be considered fulfilled, the CBIC said.

For goods exporters, refund recovery has also been aligned with RBI-prescribed realisation timelines and permitted write-offs. Where export proceeds are legitimately realised or settled under FEMA, GST benefits should not be denied merely because the consideration is received through an alternative RBI-permitted settlement mechanism, the CBIC said.

The CBIC also issued guidelines for processing GST registration applications, aimed at addressing procedural bottlenecks and bringing greater certainty and transparency to the registration process.

To reduce discretionary objections, the CBIC has introduced standardised documentary requirements and placed restrictions on unwarranted queries, along with prescribed procedures for seeking clarifications.

The board has also recognised evolving business models, including co-working spaces, consent-based premises, ATMs and telecom towers. "Together with defined documentation requirements for different forms of businesses, this should help reduce differing interpretations and make the registration process more predictable for genuine taxpayers," said Saurabh Agarwal, tax partner, EY India.

TAX GUARDRAILS

- Non-payment alone cannot trigger Sections 74/74A
- Year-wise demands required in multi-year show-cause notices
- Separate qualification for fraudulent, non-fraudulent demands
- Set-offs against import payables qualify for export realisation

- Alternative RBI-approved settlement routes protected

Domestic air traffic in Sept falls 6.5% as SpiceJet loses ground

NITIN KUMAR
New Delhi, October 27

DOMESTIC AIR PASSENGER traffic fell 6.49% year-on-year to 11.82 million in September from 12.64 million in the same month last year, according to data released by the Directorate General of Civil Aviation (DGCA). Traffic also declined 2.56% month-on-month from 12.13 million in August, extending the slowdown in the aviation market.

Passenger volumes remained below year-ago levels through the first nine months of 2026, with domestic airlines carrying 122.35 million passengers during January-September, compared with 123.37 million in the corresponding period last year — a contraction of 0.82%.

The decline also reshaped the competitive landscape. IndiGo strengthened its market dominance, with its share rising to 65.4% in September from 65% in August. The Air India Group's share edged up to 26.8% from 26.7%, while SpiceJet continued to lose ground, with its market share falling to 0.6% from 1.2%.

IndiGo carried 7.73 million passengers in September, down from 7.89 million in August. The Air India Group, comprising Air India and Air India Express, carried 3.17 million passengers, compared with 3.23 million in the previous month.

Together, the two airline groups accounted for 92.2% of domestic passenger traffic in September, up from 91.7% in August, highlighting the increasing concentration in the market. Akasa Air retained a relatively stable position, with its market share rising marginally to 5.6% from 5.5%. SpiceJet carried just 73,000 passengers in September, nearly half the 140,000 passengers it flew in August.

The September decline comes amid weakening passenger demand, with airlines continuing to calibrate capacity and network deployment in response to changing market conditions.

IndiGo recorded an on-time performance of 91.1% in September across 10 major airports, followed by Akasa Air at 90.8%. The Air India Group reported on-time performance of 81.7%, while Alliance Air recorded 75%.

Govt notifies GST changes from Nov 1

SHUBHAM RANA
New Delhi, October 27

THE GOVERNMENT HAS notified changes to Goods and Services Tax (GST) provisions governing post-supply discounts, effective November 1. It has also introduced measures to speed up provisional refunds under the inverted duty structure and removed the ₹1,000 minimum refund threshold for exports of goods made with payment of tax.

The finance ministry notified Sections 153 to 155 of the Finance Act, 2026. The notification removes the requirement to establish post-supply discounts through a pact entered into at or before the time of supply. Post-supply discounts can now qualify for exclusion from the value of supply where the supplier issues a credit note and the recipient reverses the attributable input tax credit in accordance with Section 34 of the CGST Act, 2017.

HIGHER INPUT COSTS SQUEEZE MARGINS DESPITE SALES GROWTH

Maruti profit shrinks 27%, more price hikes planned

- Revenue rises 26% in Q2, but misses estimates

NITIN KUMAR
New Delhi, October 27

MARUTI SUZUKI INDIA is considering another round of vehicle price increases over the next six months to protect margins after its standalone net profit fell 26.9% year-on-year (YoY) to ₹2,415 crore in the September quarter, missing *Bloomberg* consensus estimate of ₹2,929 crore. Higher input costs, adverse foreign exchange movements and lower non-operating income weighed on profitability despite strong sales growth.

Revenue from operations rose 26% YoY to ₹53,340 crore, below *Bloomberg's* estimate of ₹53,944 crore. Earnings before interest, tax, depreciation and amortisation (Ebitda) fell 6.3% to ₹4,763 crore, compared with the estimate of ₹4,687 crore. Ebitda margin contracted to 8.9% from 12% a year earlier, while net profit margin fell to 4.5% from 7.8%. Total expenses rose 30% YoY to around ₹50,600 crore, with raw material costs increasing sharply.

"We are doing everything possible to mitigate the impact of the cost increase," Managing Director and CEO Hisashi Takeuchi said during the post-results call. The company plans to consider further price increases at appropriate times over the next six months to improve profitability. It has already raised prices twice during the September quarter, following sustained increases in input costs, and is pursuing cost-reduction measures and tighter control over discretionary and marketing expenditure to cushion the impact.

Sales momentum remained strong, supported by domestic demand and the festive season. Domestic sales increased 33.6% YoY to 588,535 units, while exports declined 2.1% to 108,119 units. Sales of mini, compact and mid-size cars rose 31.9% to 281,308 units, while utility vehicle sales climbed 52.3% to 236,807 units. The company expects demand to remain healthy in the near term, although the high base created by last year's goods and services tax (GST) reforms could make comparisons more challenging in the second half.

Maruti Suzuki expects sales to grow in the second half of FY27, potentially at a double-digit rate, subject to capacity expansion planned from January 2027. It is also counting on compressed natural gas (CNG) vehicles, having sold around 450,000 units in the first half, up nearly 44% YoY. The company aims to sell more than 900,000 CNG vehicles in FY27. Rural markets accounted for nearly 52% of sales in the first half, with penetration increasing 2.2 percentage points, although deficient rainfall in some states could weigh on agricultural incomes and demand in the coming months. The automaker is also working to diversify exports across its markets amid geopolitical disruptions in West Asia and does not expect export growth this year to match FY26 levels.

L&T profit surges 33%, order inflows hit record

PRESS TRUST OF INDIA
New Delhi, October 27

ENGINEERING MAJOR LARSEN & Toubro (L&T) on Tuesday reported a 32.5% year-on-year rise in consolidated net profit to ₹5,202.10 crore for the quarter ended September 2026, driven by higher revenue.

The company had posted a consolidated net profit of ₹3,926.09 crore in the year-ago period.

Revenue rose 16% year-on-year to ₹78,750 crore in the reporting quarter, driven by accelerated progress across businesses, the company said in a statement.

L&T secured orders worth ₹1.48 lakh crore during the quarter, marking a 28% year-on-year increase. Significant order wins came across businesses, including offshore and onshore hydrocarbons, carbonLite solutions, public spaces and airports, and power transmission and distribution.

International orders stood at ₹92,375 crore, accounting for 63% of total order inflows. The group's consolidated order book stood at ₹8.54 lakh crore as of September 30.

"The company has delivered a strong quarter in an ever-changing geopolitical landscape. This performance reflects continued customer confidence and our ability to secure large and complex orders across sectors and geographies. We achieved yet another record quarterly order inflow," Chairman and Managing director SN Subrahmanyan said.

"Focused execution across our projects, products and manufacturing businesses supported higher revenue growth. The highest-ever order book at ₹8.5 lakh crore provides multi-year revenue visibility," he added.

L&T said the global economic environment remained one of guarded optimism, supported by demand for AI data centres in major economies and fresh investments in infrastructure, energy transition, technology and industrial capacity.

However, it flagged downside risks to global growth and investment activity from the West Asia region. The company said it would leverage its capabilities and flexibility to navigate the challenging environment.

Bajaj Auto Q2 profit rises 35%, beats expectations

AKBAR MERCHANT
Mumbai, October 27

BAJAJ AUTO ON Tuesday reported a 35.2% year-on-year (YoY) increase in standalone net profit to ₹3,353.76 crore in the July-September quarter, beating *Bloomberg* estimates of ₹3,152 crore, as strong export demand and growth in its electric vehicle portfolio supported performance. Revenue and earnings before interest, tax, depreciation and amortisation (Ebitda) also exceeded market expectations.

Revenue from operations rose 34.1% YoY to ₹20,003.43 crore, crossing the ₹20,000-crore mark for the first time, from ₹14,922.05 crore a year ago. It beat *Bloomberg* estimates of ₹18,918 crore. Ebitda increased 36.7% to ₹4,170.83 crore from ₹3,051.66 crore in the year-ago quarter, against estimates of ₹3,909 crore. Ebitda margin expanded to 20.85% from 20.45% a year ago.

Total expenses rose 33.1% YoY to ₹15,965.28 crore from ₹11,996.47 crore in the same quarter a year ago, with raw material and component costs increasing to ₹13,227.93 crore from ₹9,717.71 crore. The company said currency tailwinds, operating leverage and cost control helped offset the partial recovery of input cost inflation through pricing, supporting margins amid continued volatility and hyperinflation.

Total vehicle sales increased 19% YoY to 1.54 million units during the quarter. Two-wheeler sales rose 20% to 1.28 million units, and commercial vehicle volumes grew 17% to 265,000 units. Two-wheeler exports surged 43.2% to 677,000 units, whereas domestic two-wheeler sales grew 1.8% to 607,000 units. Total exports across two-wheelers and commercial vehicles increased 40% to 779,000 units.

Bajaj Auto said its Africa business billings nearly doubled from a year ago to a record, surpassing the previous quarterly peak recorded in FY21. Latin America also reported its best-ever sales. Domestic business revenue grew 30% YoY to a record, supported by two-wheelers and three-wheelers, with the electric portfolio leading expansion.

Sarvam inks 5-yr AI pact with defence ministry

FE BUREAU
Bengaluru, October 27

FULL-STACK SOVEREIGN ARTIFICIAL intelligence (AI) platform Sarvam has signed a five-year memorandum of understanding (MoU) with the Headquarters Integrated Defence Staff (HQ IDS) and the Ministry of Defence to develop and deploy AI applications across the armed forces.

The agreement covers operational applications, decision support, training and follow-on technical support for the projects, the Bengaluru-based company said in a statement on Tuesday.

The agreement sets up an umbrella framework for AI initiatives across the Indian Army, the Indian Navy, and the Indian Air Force. The framework also extends to joint, tri-service, and integrated organisations under HQ IDS.

The MoU advances the Ministry of Defence's push to develop AI capabilities for the military, with the armed forces building their own AI layer for decision support, target acquisition and data fusion across the sensor-to-shooter loop.

JSW Infra posts 11% decline in Q2 profit

JSW INFRASTRUCTURE ON Tuesday reported an 11% year-on-year decline in consolidated net profit to ₹328.23 crore for the September quarter, mainly due to unrealised foreign exchange losses arising from the rupee's depreciation.

The company had posted a net profit of ₹368.81 crore in the year-ago period, according to an exchange filing.

Total income rose to ₹1,669.47 crore from ₹1,372.31 crore a year earlier.

Total expenses increased to ₹1,238.34 crore from ₹909.02 crore in the corresponding quarter of the previous financial year.

JSW Infrastructure said cargo volumes at its Indian operations grew 8% year-on-year to 29.4 million tonne. **PTI**

AWL Agri Q2 net falls 2%; revenue up 26%

FE BUREAU
Mumbai, October 27

AWL AGRI BUSINESS, best known for its Fortune brand of edible oils, reported a 2% year-on-year (YoY) decline in consolidated net profit for the second quarter (Q2) of FY27, as higher costs outweighed revenue growth driven by demand for its food and FMCG products.

The company, formerly known as Adani Wilmar, posted a net profit of ₹239 crore for the quarter ended September 30, 2026, compared with ₹245 crore a year earlier.

Revenue from operations rose 26.1% YoY to ₹22,270 crore, but was outpaced by a 27.5% surge in expenses to ₹21,940 crore during the quarter.

Cost of materials consumed, which includes palm oil and chemicals, rose 25.8% YoY for the quarter. Earnings before interest, tax, depreciation and amortisation (Ebitda) fell 9.6% to ₹623 crore from ₹689 crore reported a year earlier. Ebitda margin narrowed to 2.8% in Q2 from 3.9% reported last year.

Companies globally have faced rising costs amid tensions in West Asia, which have pushed up crude oil prices and increased expenses for crude-linked products, including packaging, freight and raw materials.

AWL Agri said its food and consumer goods business, which includes basmati rice and sugar, recorded 32% sales growth to ₹2,216 crore in Q2, with an Ebitda margin of 3.2%, in line with its FY27 guidance.

SUNIL D'SOUZA, MD & CEO, TATA CONSUMER PRODUCTS

'More price hikes likely if crude rises above $115'

Despite inflationary pressures, volatile crude oil prices and a challenging demand environment in tea, Tata Consumer Products remains confident of delivering sustained double-digit revenue growth and expanding margins in the second half of FY27. **Sunil D'Souza,** *managing director and CEO of Tata Consumer, in an interview with* **Viveat Susan Pinto,** *discusses pricing, the company's health and wellness ambitions, and plans to accelerate Starbucks store openings. Excerpts:*

Demand has been challenging in tea, while salt and newer businesses have supported growth. How do you see the outlook?

Salt is doing very well. We took one price increase in May, and volumes are still up 9% in Q2. We have taken another price increase (in October), and volume is still going strong. On tea, we were catching up on pricing. We have taken price increases of roughly 6-8% in India between Q1 and Q2. As the season kicks in, we expect low-to-mid-single-digit volume growth to return, with value ahead of volume. We remain confident of delivering continued double-digit top-line growth and margin expansion in the second half of FY27.

Are you considering further price hikes as inflationary pressures continue to grow?

Rising commodity costs have been a challenge. The overall FMCG industry has been soft. However, our internal numbers show that demand is holding up despite our passing on price increases to consumers. If crude were not at $115 a barrel and the resulting energy shock had not affected packaging, freight and fuel costs, we would have delivered an Ebitda margin of 17-20% in our India food and beverage business, compared with the 14% consolidated Ebitda margin delivered in Q2.

That said, if crude remains at $110-115 a barrel, we should be okay. If it rises beyond that, further price increases are likely, as oil impacts packaging, freight, fuel and manufacturing costs. At a broader level, we remain committed to our target of a 17-20% Ebitda margin over the next three years. If oil-related pressures ease, Ebitda margins will expand rapidly.

"WE REMAIN CONFIDENT OF DELIVERING DOUBLE-DIGIT TOP-LINE GROWTH AND MARGIN EXPANSION IN H2 FY27"

You are entering functional foods and nutraceuticals. What can consumers expect?

Protein water has already been produced — in a 500 ml-pack, with 10 grams of protein and 64 calories. It will hit the market shortly. There is a whole range of other functional products, including foods with protein, fibre and probiotics, and supplements addressing sleep, health, gut and beauty. We are launching Tata Life for functional food and relaunching Tata GoFit for nutraceuticals. Health & wellness and nutrition were the two gaps in our food and beverage portfolio. We are addressing it now.

Will acquisitions play a role in building these new categories you are entering?

We have been looking at acquisitions in these two spaces. We keep our eyes and ears open for value-creating opportunities across our portfolio. The company has ₹1,800 crore of cash on its books, so fuel is not a barrier from an inorganic growth perspective.

Starbucks has reached 505 stores in Q2. What is the expansion plan for the future?

We slowed store openings about 18 months ago as we saw stress in the discretionary and quick-service restaurant space. We used that opportunity to recalibrate our business model.

We are now fairly confident about our product and innovation pipeline, as well as our capital and operating cost models. You will see an aggressive acceleration in store openings. This year, we expect net additions of around 40-50 stores. Going forward, we are looking at adding 100 stores a year.

7.23 MILLION TOTAL TELEPHONE USERS ADDED IN THE MONTH

Jio, Airtel add 2.7 million subscribers each in Sept

URVI MALVANIA
Mumbai, October 27

RELIANCE JIO AND Bharti Airtel were neck and neck in subscriber additions in September 2026, adding 2.7 million users each, according to data released by the Telecom Regulatory Authority of India (Trai).

Vodafone Idea continued to add subscribers, with its pace accelerating to 550,119 additions in September from 506,139 in August. However, much of the telco's subscriber growth continues to come from its machine-to-machine (M2M) or enterprise connections segment, which is a significantly lower average revenue per user (Arpu) business.

Excluding M2M connections, Airtel added 0.18 million users in September, trailing Jio's 1.86 million additions. Vodafone Idea, meanwhile, lost 0.31 million users.

India's overall telecom subscriber base rose to 1.368 billion at the end of September from 1.361 billion in August, with net additions accelerating to 7.23 million from 6.42 million in the previous month, according to Trai data. Both urban and rural markets registered net additions during the month.

The total wireless subscriber base, including mobile and fixed wireless access (FWA) users, increased to 1.319 billion from 1.312 billion in August, translating into monthly growth of 0.53%.

The wireline subscriber base also rose marginally to 48.74 million, with 0.29 million additions during the month, registering growth of 0.6%.

At the end of September, Jio's total subscriber base stood at 511.14 million, compared with 508.43 million at the end of August. Airtel's subscriber base rose to 494.3 million from 491.6 million, while Vodafone Idea's base increased to 200.12 million from 199.57 million. BSNL's subscriber base stood at 94.3 million, compared with 93.67 million in August.

Jio outpaced Airtel in 5G fixed wireless access (FWA) customer additions in September, adding 98,386 net new users against Airtel's 53,354. Both telcos, however, saw a month-on-month slowdown in additions.

Jio's 5G FWA base stood at 9.52 million at the end of September, up from 9.42 million in August, while Airtel's base rose to 4.09 million from 4.03 million. The total FWA subscriber base in the country stood at 13.6 million at the end of September, compared with 13.45 million in August.

Jio, which has also launched UBR FWA, added 215,469 new customers to the service, taking its total user base to 5.58 million at the end of September from 5.34 million in August.

Jio's wireless subscriber market share remained flat sequentially at 39.32%, while Airtel's share was unchanged at 38.02%. Despite the sustained increase in its total subscriber base, Vodafone Idea continued to cede market share, with its share falling to 15.39% from 15.43% in August. BSNL's share was also flat at 7.25%.

According to TRAI data, active subscribers accounted for 93.29% of the total wireless subscriber base, compared with 93.36% in August. The total active subscriber base rose to 1.212 billion from 1.208 billion in the previous month.

Akasa to shift Jeddah flights to Navi Mumbai airport from Dec

AKBAR MERCHANT
Mumbai, October 27

AKASA AIR WILL shift its Mumbai-Jeddah operations from Chhatrapati Shivaji Maharaj International Airport (CSMIA) to Navi Mumbai International Airport (NMIA) from December.

Akasa Air and Adani Airport Holdings (AAHL) on Tuesday announced a phased transition of the airline's Mumbai-Jeddah services to NMIA, supporting the development of a dual-airport system for the Mumbai Metropolitan Region. Bookings for the flights opened on October 26.

The move builds on Akasa Air's existing presence at NMIA and is expected to strengthen international connectivity from the new airport, which is being developed as an additional aviation gateway for the region.

On Sunday, IndiGo and Air India Express announced plans to expand their domestic and international operations from NMIA, including shifting some flights from CSMIA to the new airport.

Tata Motors' Iveco takeover offer clears 80% threshold

AKBAR MERCHANT
Mumbai, October 27

TATA MOTORS HAS crossed the minimum acceptance threshold for its proposed acquisition of Iveco Group, with provisional results showing shareholders tendered shares representing an 89.42% stake in the Italian commercial vehicle maker, excluding treasury shares.

Iveco shareholders tendered 238.16 million shares during the offer period, which closed on October 26, Tata Motors said in a stock exchange filing. At the revised offer price of €14.40 per share, the tendered shares are valued at around €3.43 billion.

The tendered shares represent 87.81% of Iveco's total ordinary share capital. The acceptance threshold was initially set at 95% but was lowered to 80% after shareholders approved a resolution at an extraordinary general meeting on October 16.

The offer is being made through TML CV Holdings, an indirect wholly owned subsidiary of Tata Motors. The company will announce the final results and the status of the remaining offer conditions by October 29, subject to confirmation of the provisional results.

Tata Motors raised its offer to €14.40 per share from €14.10 on October 9. Subject to the offer conditions, payment for shares tendered during the initial acceptance period and their transfer to Tata Motors' subsidiary are scheduled for October 30.

If the provisional results are confirmed and the remaining conditions are met, the offer will reopen from November 2 to November 6, giving shareholders who have not tendered their shares another opportunity. Payment for shares tendered during the reopened period is scheduled for November 13.

The acquisition would give Tata Motors a substantial foothold in Europe and expand its presence in South America, diversifying its business beyond its strong position in India.

The combined business is expected to become the world's fourth-largest truck manufacturer by volume in the above-six-tonne segment, bringing Tata Motors closer to its ambition of entering the global top three.

Iveco would add its truck and bus portfolio and FPT Industrial's powertrain business. The increased scale could help the two companies spread investments in new technologies across a broader product portfolio and customer base.

DEAL IN PROGRESS

- Shareholders tender 89.42% stake, excluding treasury shares
- 238.16 mn Iveco shares tendered during offer period
- Tendered shares valued at around €3.43 bn
- Offer price raised to €14.40 per share
- To reveal status of remaining offer conditions by October 29

Air India steps up integration to reduce costs

AKBAR MERCHANT
Mumbai, October 27

AIR INDIA IS stepping up efforts to cut costs by integrating select functions with Air India Express, moving beyond the consolidation of the two airlines' brands to eliminate duplication and improve resource utilisation. The airline's board has given in-principle approval for such measures and empowered the CEO to identify additional opportunities for savings.

The move comes as the group's financial losses widened sharply in FY26 amid high fuel prices, geopolitical disruptions and continued spending on fleet renewal and service improvements. Air India set up a dedicated, multidisciplinary cost savings team a few weeks ago to identify areas where expenditure can be reduced. The board backed the integration-led cost-cutting measures at its October 15 meeting.

The latest exercise marks a further step in the Tata group's restructuring of its airline business. AirAsia India was merged with Air India Express in October 2024, while Vistara was integrated into Air India the following month, reducing the group's four airline brands to two: full-service Air India and low-cost Air India Express. The two, however, continue to operate as separate companies, leaving scope for consolidation of selected back-end functions.

These could include administration, technology, procurement and engineering management, where separate teams and systems may lead to duplication. Sharing resources could also improve purchasing leverage and supplier negotiations, while better coordination of maintenance, training facilities and aircraft deployment could help lower operating costs. The extent of the proposed consolidation, however, is not yet clear.

The need to improve cost efficiency has become more pressing as the group's financial performance deteriorated. Its wider airline business, including Air India Express and other subsidiaries and joint ventures, reported a consolidated loss of ₹22,238 crore in FY26, compared with ₹10,859 crore in the previous financial year. Total income declined to around ₹71,870 crore, while expenses rose to ₹93,733 crore.

NEWS ANALYSIS

'Gen Z reshapes rural consumption mkt'

VIVEAT SUSAN PINTO
Mumbai, October 27

RURAL INDIA'S CONSUMPTION market is becoming more diverse, with younger consumers expanding their product baskets and women emerging as a fast-growing online-shopping segment. Influencers and artificial intelligence (AI) are also reshaping how households discover and evaluate brands, according to a report by WPP Media and Kantar.

Rural consumers aged 18-29, classified as Gen Z, now buy across an average of 19.1 product categories a month, up from 17 in February 2025, the Rural Barometer Report 2026 said.

Purchases across convenience-food categories rose 27% to 5.9, while health & wellness basket grew 36%

Gen Z accounts for 33% of rural mobile users, according to the study. Its expanding consumption basket is particularly evident in discretionary and wellness categories. Purchases across convenience-food categories rose 27% to 5.9, while the health and wellness basket grew 36%, compared with 21% among rural consumers overall. Personal grooming purchases among Gen Z increased 9%, even as the category remained flat across rural India.

"Rural India is not a single, uniform market, and the data increasingly reflects that reality," said Abhishek Singh, senior vice-president and head of rural, social and health, Media Solutions, WPP Media India.

THE MASTERS OF THE GAME

THE FE LEADERSHIP AWARDS HONOUR LEADERS WHO ARE SCRIPTING THE INDIA GROWTH STORY

CEO OF THE YEAR **ANISH SHAH**, Group CEO & MD, Mahindra Group

A command performance, pedal to metal

IF MAHINDRA & MAHINDRA (M&M) is taking the game away from its competitors, much of the credit belongs to Anish Shah. Over the past few years, the company's managing director and group CEO has led from the front, turning M&M into a winning machine.

Playing to its strengths in sports utility vehicles (SUVs), M&M overtook entrenched rival Hyundai in early 2025 to become India's second-largest automaker. The momentum carried into 2025-26, when volumes jumped 20% and the company made substantial gains in revenue share, no mean feat in a hyper-competitive market. Stylish models, smart pricing and a multi-tiered dealer network have together cemented its dominance in SUVs. Passenger vehicle sales are expected to cross 750,000 units by March 2028, nearly five times the 164,000 units sold in 2020-21.

M&M's quiet chief has turned SUVs, EVs and sharp execution into a winning formula

Admittedly, the surge in SUV demand was a tailwind. But riding a trend is never easy. SUVs may be in M&M's DNA, yet without classy models priced at levels customers are willing to pay, sales would never have taken off. Crucially, dealers have been kept well stocked with the right models, and inventory management has been exemplary. Insiders describe Shah as a nuts-and-bolts leader with a single-minded focus on execution. Streamlined production and shorter waiting periods, they say, reflect his knack for lifting productivity by clearing bottlenecks. M&M has also quadrupled capacity in quick time. Fixing what slows the line, rather than chasing grand pronouncements, has been the hallmark of his tenure.

The company is making a splash in electric vehicles (EVs) too. Its flagship electric SUV family, the XEV 9S, has outpaced rivals to become India's best-selling single EV model. If the pace holds, M&M could soon be the country's top electric passenger vehicle maker, and annual passenger vehicle sales could well cross 1 million units. Few had expected a company long associated with rugged diesel workhorses to set the pace in the electric race.

That would be another feather in Shah's cap, and proof that his plan is working. Since taking over the corner office in April 2021, he has reshaped M&M into a more focused organisation. He often stresses the need to allocate management bandwidth efficiently and deploy resources prudently, believing that profits and time spent go hand in hand. Today, virtually every business in the group has been rejuvenated. A people's person, Shah has motivated his team in his own quiet way, preferring to let results do the talking.

The stock market has taken note and rewarded the company handsomely. In 2025-26, consolidated revenues rose 25% to ₹1.99 lakh crore, net profit surged 32% to ₹17,099 crore, and return on equity touched 20%, its highest in many years. With earnings per share compounding at 57% a year between FY21 and FY26, M&M has been a standout performer on the bourses. And, of course, on India's roads.

YOUNG TURKS **PARTH JINDAL**, MD, JSW Cement & JSW Paints

A wise head on young shoulders

PARTH JINDAL'S AGE belies his maturity. At just 36, Sajjan Jindal's son has made it clear he is not here to play it safe, unlike many scions who take the easy way out. In the decade since returning from Harvard University, he has carved out his own niche, steering into consumer-facing businesses far from the JSW Group's commodity mainstay.

He insists he is less of a risk-taker than his father. Yet the third-generation entrepreneur, who spent six months at a New York hedge fund and had a short stint at JFE Steel, has placed some bold bets. From paints to automobiles, he is going where he believes the future lies, unafraid of entrenched competition.

Boldness, however, does not mean haste. The group's entry into automobiles in 2019, partnering China's SAIC Motor in MG Motor's Indian operations, was a quiet start. The alliance deepened in 2023 when JSW acquired a 35% stake in the joint venture. With technology access critical, teaming up with a strong Chinese partner rather than scouting for know-how is paying off. Parth's ambition goes beyond making vehicles: he is building an entire EV ecosystem, aiming to be a frontrunner.

Jindal is steering JSW into paints, EVs and consumer brands with calculated boldness

Another gutsy move was acquiring a controlling stake of up to 74.76% in Akzo Nobel India, in a deal valued at ₹13,000 crore. Clinched after tough negotiations that fended off a last-minute counter-offer, it vaults JSW Paints from an also-ran to the country's fourth-largest player. Akzo Nobel's top-class portfolio, led by the iconic Dulux brand, and its strong urban reach will bolster JSW Paints' offerings. The 2019 entry into paints, a fiercely competitive market with powerful incumbents, was itself audacious, but Parth has used the group's distribution muscle to gain share.

Parth relishes a challenge. Back from business school in 2016, he chose to run the group's loss-making cement unit and turned it around. He says he always wanted to prove himself and earn his colleagues' respect.

Hands-on yet pragmatic, he knows he might not be the best person for every venture. One cannot be passionate about every business, he reasons, so it is often better to bring in professionals, and sometimes wiser to step back and remain a shareholder. That is a level of realism few young leaders display. He values the complete freedom his father has given him, with no interference and no reviews, saying it has helped him grow and learn from his mistakes. He carries considerable responsibility on young shoulders, but will share the load if that helps him achieve his goals.

EMERGING ENTREPRENEURS **PRATYUSH KUMAR & VIVEK RAGHAVAN,** Co-founders, Sarvam AI

AI that speaks India's language

FOR VIVEK RAGHAVAN and Pratyush Kumar, the challenge was never just to build another artificial intelligence model, but one that could understand India's languages, documents and everyday contexts. When they founded Bengaluru-based Sarvam AI in 2023, the global AI race was already dominated by companies with deep pockets and vast computing resources. Their bet was that India needed its own AI capabilities rather than depending entirely on models built elsewhere.

Sarvam AI's founders bet India needs homegrown AI; a $1.5-billion valuation says investors agree

The founders brought complementary strengths. Raghavan had spent years building technology businesses before working on Aadhaar's technology infrastructure and improving AI for Indian languages. Kumar, a computer engineer with a PhD from ETH Zurich, had done AI research at IBM and Microsoft and was associated with AI4Bharat at IIT Madras, which develops language technologies for India.

Those backgrounds shaped Sarvam's founding idea: Foundational AI models that work across Indian languages and serve local needs in public services and businesses. It began with speech recognition, text-to-speech and document understanding, areas where linguistic diversity, mixed scripts and poor-quality records trip up general-purpose AI. Its models transcribe speech, generate natural-sounding voices and extract information from documents in Indian languages.

Sarvam has since grown into a broader AI platform spanning foundational models, computing infrastructure and applications for enterprises and government. The aim is to build the technology stack in India, from training to deployment, at a cost suited to a price-sensitive market.

That takes capital, computing power and specialist talent. In June 2026, Sarvam announced the first close of a $300 million Series B round, raising $234 million at a post-money valuation of $1.5 billion. HCLTech and Bessemer Venture Partners joined existing investors Khosla Ventures and Peak XV Partners. The money will support larger models, computing capacity, research and enterprise deployments. Sarvam is also moving into agentic AI, where systems carry out multi-step tasks, and coding models.

Commercial traction is emerging in banking, insurance, government services and document processing. Sarvam says its conversational platform handles more than two million interactions a day and its document technology is digitising millions of pages. Such deployments offer a path to revenue beyond offering models to developers, but the company must prove its systems deliver reliable results at scale and compete on cost with global giants.

For Raghavan and Kumar, the next phase is turning the case for Indian-built AI into a sustainable business. That means sharper model performance, attracting specialised researchers and converting enterprise interest into repeatable deployments. Their larger goal is an AI ecosystem built and run in India that also serves needs beyond its borders.

CFO OF THE YEAR **ASHOK SONTHALIA**, CFO, Titan Company Ltd

The business of balance

CHANGE HAS BEEN A constant in Ashok Sonthalia's life. His father's transferable job in the sugar industry moved the family across remote parts of Uttar Pradesh and Bihar, and he has lived in 27 homes. The early lesson stuck. After a 35-year career spanning steel, chemicals, engineering, technology and consumer lifestyle, Titan's chief financial officer has turned it into a professional philosophy: keep moving.

How Titan's CFO marries financial discipline with ambition to turn bold bets into value

It serves him well at Titan, a lifestyle company where creativity, consumer focus and innovation must coexist with financial rigour. His approach is pragmatic. "Think four or five years ahead, review progress rigorously every month and recognise that businesses at different stages of maturity need different kinds of capital and attention," he says.

Some businesses must generate cash; others deserve disproportionate investment, even at the cost of early losses. The challenge is to chase long-term ambition without losing sight of discipline.

That balance has paid off. In two years, Titan's revenues have surged over 30% to more than Rs 87,000 crore, while profit rose about 50% last year. Sonthalia was part of the leadership team behind big bets such as taking CaratLane into full ownership and carrying Tanishq's craft to the Gulf through Damas. Juror Amit Chandra credited him with keeping Titan "bold on growth, disciplined on capital".

A chartered accountant, Sonthalia has worked at Tata Steel, Tata Chemicals, Greaves Cotton and Larsen & Toubro Infotech. An executive programme at XLRI Jamshedpur broadened his view of business, while a stint at CEDEP in France and four years as CFO of Tata Inc in the US gave him cross-cultural exposure.

Those experiences convinced him that finance professionals must look beyond numbers. "They need to understand markets, operations, people and brands, while becoming technologically savvy," he says. Just as important, he believes, is preserving governance and trust.

Mentors left their mark too. Jamshed J Irani, former managing director of Tata Steel, shaped his work ethic and pushed him to take on responsibilities beyond his training. Later, leaders including AM Naik, SN Subrahmanyan and R Shankar Raman at L&T, and CK Venkataraman at Titan taught him about decision-making in difficult situations.

His defining test came at Tata Chemicals, when a major US acquisition was followed by the 2008 global financial crisis. Leading Project Adapt to tackle the resulting financial stress, he learnt to influence people, align teams and drive execution beyond formal hierarchies.

His advice to young professionals follows from that. "Remain curious, build strong connections with the business and focus on impact," he says. Completing a task is not enough if the outcome never materialises on the ground.

The same thinking guides how Titan handles uncertainty. Geopolitical tensions, volatile gold prices and regulatory shifts are beyond its control. Understanding risks, preparing scenarios and sticking to the long-term plan are not.

For Sonthalia, discipline does not curb ambition. It gives ambition the rigour, resources and staying power to succeed.

STANDOUT INNOVATORS **NAGA BHARATH DAKA & PAWAN CHANDANA,** Co-founders, Skyroot Aerospace

From ignition to orbit

WHEN PAWAN KUMAR Chandana and Naga Bharath Daka left the Indian Space Research Organisation (Isro) in 2018, they gave up the security of government-backed research to build a private rocket company in a sector barely open to entrepreneurs. The two aerospace engineers believed India could create its own commercial launch industry, though turning that conviction into a business would demand more than rocket science.

Eight years on, their Hyderabad-based Skyroot Aerospace has developed an orbital launch vehicle, attracted global investors and set its sights on competing in the international space launch market.

The founders brought complementary experience in rocket engineering from Isro, but building a company required a different set of skills. They set out to build a family of rockets that could carry small satellites to space more affordably and frequently. As satellite operators worldwide sought flexible, dedicated launches and Indian policy began opening the sector, they bet on offering launch services rather than supplying components to established players.

Convincing investors was an early hurdle. Space technology needs patient capital, Chandana told *Financial Express*, because development cycles are long, risks high and revenues slow to arrive. When Skyroot started, no Indian investor had a dedicated space-tech thesis, and the founders had to raise money before the country's space policy was announced.

The founders quit Isro, built India's first space-tech unicorn, now aim for monthly launches

Building a workforce was another challenge: more than 90% of employees had never worked in the space sector, so the founders had to build capabilities and train talent from the ground up. The effort paid off. In May 2026, Skyroot raised $60 million at a $1.1 billion valuation, becoming India's first space-tech unicorn.

In November 2022, Vikram-S became the first rocket built by an Indian private company to reach space. On July 18, 2026, Vikram-1 reached low Earth orbit on its maiden flight, a landmark for India's private launch capability. Designed to carry satellites of up to 350 kg, it uses more than 90% domestically sourced components. Skyroot is scaling production and launch frequency while developing Vikram-2, a larger vehicle for a wider range of missions.

The next test is whether Skyroot can launch reliably and repeatedly. Reaching orbit is the hardest milestone, Daka has said, but consistent launches demand manufacturing quality and operational discipline. The company is targeting one mission a month while developing reusable launch vehicles, a longer-term goal. The task is to turn years of engineering and investor confidence into a sustainable business in a global market where reliability, cost and launch capacity will decide success.

COMPANY OF THE YEAR | SUN PHARMACEUTICAL

From ₹10,000 loan to global giant

IN 1983, DILIP SHANGHVI set up Sun Pharmaceutical Industries with five psychiatry medicines, a two-person team and a ₹10,000 loan from his father. Four decades later, he presides over India's largest drugmaker and one of the world's leading pharmaceutical companies. This year, Sun made its boldest move yet.

Its $11.75-billion acquisition of US-based Organon is the largest overseas buyout by an Indian pharmaceutical company and the biggest biopharma deal announced globally in 2026. Organon, a specialist in women's health and established medicines, earns about $6.2 billion a year, roughly as much as Sun itself. The combined entity, with annual revenue of around $12.4 billion, would rank among the world's top 25 drugmakers.

The deal would give Sun a leading position in women's health, lift it into the global top ten in biosimilars and extend its reach to 150 countries. More significantly, it marks a decisive shift from generics powerhouse to diversified global pharmaceutical company, with innovative medicines increasingly at its core.

DILIP SHANGHVI

That transformation has been decades in the making. Shanghvi, who grew up in Kolkata in a family of pharmaceutical distributors, chose not to fight in crowded markets. Instead, he focused on specialised therapies, starting with psychiatry before moving into cardiology, gastroenterology and other chronic conditions. The strategy built a strong domestic franchise. When Sun went public in 1994, its issue was oversubscribed 55 times, a striking vote of confidence in a young company. Overseas expansion began in 1997 with the purchase of Caraco in the US.

The turning point came in 2015 with the $4-billion takeover of Ranbaxy, which made Sun India's largest drugmaker and a major force in global generics. Ranbaxy came with serious regulatory and operational problems, and integrating it was anything but smooth. But Sun's appetite for difficult acquisitions, and its ability to fix and scale them, became the defining feature of its growth.

> *The $11.75-bn Organon deal is the boldest leap yet in Sun Pharma's four-decade climb*

More recently, the company has steered towards specialty and innovative medicines in dermatology, ophthalmology and oncology. Ilumya, for psoriasis, and Leqselvi, for severe alopecia areata, are the clearest markers of that shift. The acquisitions of Concert Pharmaceuticals in 2023 and Checkpoint Therapeutics in 2025 have deepened the innovation pipeline further.

Organon, therefore, is less a departure than a culmination. It brings Sun the global scale, commercial infrastructure and therapeutic breadth that would have taken years to build from scratch, and it does so at a moment when Indian drugmakers are seeking to move beyond low-margin generics.

The risks are real. Absorbing a business of Organon's size across dozens of markets will test management bandwidth, and the additional debt taken on to fund the deal will need careful handling. Yet Sun has faced such tests before, and its record suggests it knows how to turn a difficult acquisition into a lasting advantage.

For turning a small psychiatry venture into a global enterprise, and for having the conviction to bet big once again, Sun Pharma is a worthy Company of the Year. Shanghvi's journey from a ₹10,000 loan to a $12.4-billion global ambition is one of the most remarkable stories in Indian business.

STANDOUT UNICORN | FSN E-COMMERCE

Betting big on beauty and beyond

FOUNDED IN 2012, Nykaa helped reshape India's beauty retail market, using a digital-first platform to bring international brands, emerging labels and beauty discovery to consumers. Fourteen years on, FSN E-Commerce Ventures, which operates Nykaa, has grown well beyond an online beauty store into an omnichannel consumer business spanning beauty, fashion, owned brands and business-to-business distribution.

The scale of that transformation was clear in FY26, when revenue from operations crossed ₹10,000 crore for the first time. Revenue grew 26% year-on-year to ₹10,022 crore, and consolidated gross merchandise value (GMV) rose 28% to ₹19,963 crore. Profitability improved even more sharply: Net profit jumped 183% to ₹204 crore, while earnings before interest, tax, depreciation and amortisation (Ebitda) climbed 59% to ₹752 crore.

> *Nykaa's curated beauty bet is now a profitable, multi brand omni-channel platform*

Beauty remains the principal growth engine, with GMV of ₹14,954 crore in FY26, up 27%. Alongside its online platform, Nykaa has built a physical retail network of 313 stores across 99 cities by the end of the financial year. This blend of digital reach, physical presence and curated assortment has earned it deep consumer trust in a category where authenticity and discovery are paramount.

The company has also invested in its own brands, including Nykaa Cosmetics, Kay Beauty and Dot & Key, while expanding distribution through Superstore by Nykaa. That gives the company a firm presence across the beauty value chain, from retailing established global labels to building brands and supplying retailers. Fashion, meanwhile, is emerging as a second growth driver, with GMV rising 30% to ₹4,954 crore in FY26. The segment achieved Ebitda breakeven in the March quarter.

At the centre of Nykaa's journey is founder Falguni Nayar, who walked away from a senior investment banking career to build a business in a segment that was still nascent in Indian e-commerce. An alumna of the Indian Institute of Management Ahmedabad, Nayar spent 18 years at Kotak Mahindra Capital, rising to managing director, before founding Nykaa at 49. Few would have predicted that a first-time founder approaching 50 would build one of the country's best-known consumer brands.

Her bet was that beauty retail needed more than a digital storefront. By pairing curated products with tutorials, expert-led content and a firm emphasis on authenticity, Nykaa set out to ease consumer worries about buying beauty products online. Its later move into physical stores and proprietary brands carried that proposition well beyond e-commerce.

Nayar took the company public in 2021, making it one of the few prominent Indian consumer internet businesses to list on the bourses. The business she built is now entering a new phase: Sustaining growth while improving profitability across an expanding portfolio.

The next challenge is to translate leadership in beauty into durable growth across fashion, owned brands and distribution, without losing financial discipline. The FY26 performance suggests the investments made across these businesses are beginning to contribute more meaningfully. If that momentum holds, Nykaa's evolution from a single online beauty store into a diversified consumer platform will be complete.

SUSTAINABILITY | HINDUSTAN UNILEVER

Walking the green talk, from factory floor to farm

HINDUSTAN UNILEVER (HUL), is weaving sustainability into its business strategy through four pillars: Climate, Nature, Plastics and Livelihoods. Its FY2025-26 disclosures show progress in manufacturing efficiency, renewable energy, water conservation and community development, while underscoring the need to tackle environmental impact beyond its own factories.

> *Coal-free plants, water conservation and rural women entrepreneurs: HUL's record speaks for itself*

Against its 2008 baseline, HUL has cut operational greenhouse gas emissions per tonne of production by 99% and energy consumption intensity by 49%. It has eliminated coal from its operations, sources all its electricity from renewables, and says renewables meet 97% of energy needs, electrical and thermal, across its manufacturing sites.

These steps improve resource efficiency and reduce dependence on conventional energy. But operational decarbonisation is only part of the transition. Meeting HUL's 2039 net-zero ambition will require cutting Scope 3 emissions from agricultural ingredients, suppliers, packaging, logistics and other value-chain activities.

Water stewardship is central to HUL's agenda. Factory water-use intensity has fallen 58% against the 2008 baseline, and through the Hindustan Unilever Foundation (HUF) and its partners, the company has created cumulative water-conservation potential exceeding 4.5 trillion litres.

These efforts support watershed management, better irrigation and community water security. But conservation potential does not mean actual savings or reliable local supply, so measuring real outcomes in water-stressed regions will be critical.

HUL reports that 64.5% of its 12 key agricultural crops are sustainably sourced. Scaling up sustainable sourcing and regenerative agriculture should make its supply chain more resilient to climate change.

There's more to plastic sustainability than recyclable packaging. True circularity depends on collection, segregation, recycling infrastructure and viable markets for recovered material. Through packaging redesign, recycled-material initiatives and Project Circular Bharat, HUL is working to strengthen waste-management systems. It also reports collecting and responsibly managing more plastic waste than it puts in the market under its extended producer responsibility commitments.

HUL's social initiatives link sustainability with economic inclusion. Project Shakti supports over 200,000 rural women via micro-entrepreneurship and village distribution networks. Project Prabhat backs community development, while Suvidha centres offer affordable sanitation and hygiene services in underserved urban areas.

The next phase will depend on turning existing initiatives into scalable, long-term solutions. Deeper collaboration with suppliers, farmers, recyclers and communities will be vital to strengthen waste-management infrastructure. Investment in innovation, sustainable packaging and regenerative agriculture can embed environmental thinking into everyday decisions. Tracking measurable outcomes will matter equally. HUL's ability to pair growth with environmental stewardship and inclusive development will define its strategy's long-term impact.

MNC OF THE YEAR | ABB

High voltage growth, made in India

FROM THE POWER distribution systems on the Chenab rail bridge to the automation technology that monitors Indian Oil's 20,000-km pipeline network, ABB India's engineering increasingly underpins the country's critical infrastructure. Having completed 75 years of manufacturing in India, the company is stepping up investment in local production and research as demand surges from data centres, renewable energy, metro rail and advanced manufacturing. The move positions it to gain from the growing need for reliable power and deeper automation across industries.

The Indian arm of the Swiss-Swedish ABB Group has announced an additional investment of around $75 million in 2026, on top of more than $35 million spent in 2025. The funds will expand manufacturing and R&D capabilities in Bengaluru, Nashik, Vadodara and Hyderabad, focusing on electrical protection equipment, motors, drives and power systems, and are expected to create about 300 skilled jobs. Around 85% of what ABB sells in India is made locally, in line with its strategy of serving domestic demand through local production while building capabilities for regional markets.

SANJEEV SHARMA

With around 25 manufacturing, distribution and operating facilities and three major R&D centres, ABB India has built a formidable engineering base in the country. Exports to more than 30 countries underline its importance to the group's global supply chain.

The company is also moving well beyond its roots in conventional electrical equipment. Its electrification, motors, drives and automation systems serve 23 industry segments, including metals, cement, chemicals, pharmaceuticals, transport and infrastructure. Its solutions power airports, metro networks and railways, from electrification and drives at airports to power distribution equipment on the Chenab bridge.

> *ABB India has stepped up local manufacturing and R&D as infrastructure and data-centre demand soars*

In factories, its energy-efficient motors and variable-speed drives cut electricity consumption, while automation and digital monitoring improve reliability. A new automated line for variable-speed drives at its Peenya facility in Bengaluru has raised capacity by about 25%. That matters as industries increasingly seek lower operating costs through energy savings rather than simply adding capacity.

The numbers clearly reflect this demand. In 2025, orders rose 8% to a record Rs 14,115 crore and revenue grew 8% to Rs 13,203 crore, with an order backlog of Rs 10,471 crore at the end of December offering visibility for coming quarters. Momentum accelerated in April-June 2026: orders jumped 50% year-on-year to Rs 4,363 crore, revenue rose 21% to Rs 3,559 crore and the backlog climbed 22% to Rs 11,898 crore. Demand came from both established industries and emerging areas such as data centres, renewables and infrastructure. Profitability, however, bears watching given volatile commodity prices and exchange rates.

Sustainability is central to the growth strategy. ABB India's motors, drives and electrification systems help customers use energy more efficiently, while its own operations have focused on cutting emissions and waste. As investment in power infrastructure and industrial capacity accelerates, the company is betting that this mix of localisation, engineering depth and efficiency will keep it at the heart of India's build-out.

MSME OF THE YEAR | BELLA CASA

Cut from a new cloth, built for scale

JAIPUR-BASED BELLA CASA Fashion & Retail is sharpening its focus on apparel, moving away from its traditional mix of clothing and home furnishings to build a scale-driven manufacturing business. Under CEO Saurav Gupta, the company is using its original design manufacturing (ODM) capabilities to deepen ties with organised retailers and widen its domestic and international reach.

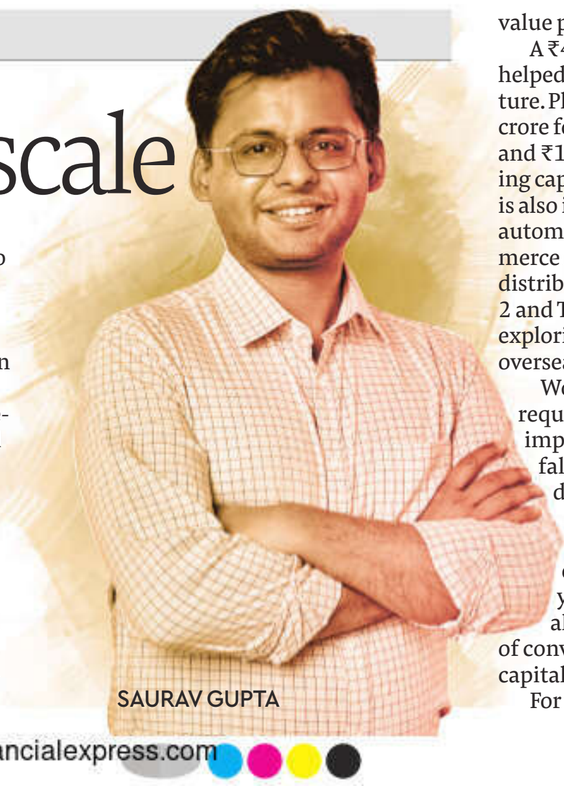
The shift is already visible in its business mix. Apparel, which contributed 70% of revenue in FY23, now accounts for more than 75%. Bella Casa designs and manufactures collections for over 50 apparel customers including Reliance Retail, Lifestyle, D-Mart, Trent, Amazon and Flipkart. With the planned downsizing of home furnishings complete, it is channelling resources into apparel categories, client acquisition and new markets.

In FY26, Bella Casa's revenue rose 19.5% year-on-year to ₹416.40 crore. Net profit grew 27.3% to ₹20.12 crore from ₹15.80 crore in FY25, and EBITDA increased to ₹36.78 crore from ₹29.56 crore.

Top-line momentum carried into Q1 FY27, with revenue climbing 33.4% to ₹120 crore on the back of 22% volume growth and a 9.5% improvement in average realisation. Profitability, however, took a hit. EBITDA margin narrowed to 4.9% from 8.2% a year earlier, and net profit fell about 46% to ₹2.54 crore.

The company blamed the squeeze on higher raw-material costs and supply-chain disruptions linked to the Iran war. Management expects relief as newly priced orders begin to reflect elevated input costs, with festive demand in Q2 and Q3 FY27 likely to prove crucial to the margin recovery.

Bella Casa has doubled its annual production capacity to 20 million pieces and is de-bottlenecking existing facilities for a further increase of about 15%. Investments in advanced embroidery machinery and waterless digital fabric printing should lift efficiency over time and support higher-value products.



SAURAV GUPTA

A ₹49 crore rights issue in FY25 helped fund expansion and infrastructure. Planned allocations include ₹30 crore for long-term capital expenditure and ₹15 crore for working capital. The company is also investing in automation, e-commerce marketing and distribution across Tier-2 and Tier-3 cities, while exploring opportunities overseas.

> *Bella Casa is betting on apparel and design to widen its domestic and global reach*

Working-capital requirements have improved sharply, falling from 89.8 days to 56.4 days. Even so, inventory and receivables bear watching as expansion demands more funding. A three-year return on equity of 12.9% also underlines the importance of converting growth into stronger capital returns.

For FY27, Bella Casa's priority is turning rising demand into sustainable earnings growth. Expanded capacity, a growing order book and technology investments give it room to scale, but margin recovery will hinge on pricing discipline and its ability to pass on higher costs.

"Our strong manufacturing base, well-oiled execution engine, expanding market opportunity, and sound financial footing form a resilient platform for Bella Casa's next phase of growth," Gupta said, adding that short-term fluctuations would not alter the company's commitment to consistent and profitable growth.

The next phase will focus on new apparel categories, customer on-boarding and expansion into new markets and channels. The challenge for Bella Casa is no longer simply to grow, but to make that growth more profitable.

IN THE NEWS

YIELD DECLINES MOST IN THREE MONTHS ON VALUE BUYING

GOVT BONDS ROSE in volatile trade on Tuesday, with the benchmark 10-year yield logging its biggest single-day decline in three months after a failure to breach a key upside level triggered value buying. The yield on the benchmark 6.94% 2036 bond briefly tested 7.50% before falling nearly 5 basis points to 7.4360%, easing for the first time in nearly a week and the most since July 27. After the sharp sell-off in recent days, current levels look attractive, said Gopal Tripathi, head of treasury and capital markets at Jana Small Finance Bank. Focus now shifts to global central-bank decisions, led by the Federal Reserve's policy verdict on Wednesday.

SBI Life Q2 net profit grows 11% to ₹549 crore

SBI LIFE INSURANCE on Tuesday reported an 11% rise in its net profit to ₹549 crore for the quarter ended September 30. Net premium income grew 8.17% to ₹26,877 crore, the insurer said in a regulatory filing.

TVS Credit reports profit of ₹243 crore

TVS CREDIT SERVICES, part of TVS VENU, reported a 19% year-on-year increase in net profit at ₹243 crore for the second quarter of the current fiscal. Total income rose 14% to ₹2,029 crore. Its asset under management stood at ₹33,818 crore as of September 2026, registering a 22% growth from last year. TVS Credit disbursed loans to over 1.4 million new customers in the quarter, bringing its total customer base to over 27 million.

Max Financial posts ₹100-cr profit in Q2

MAX FINANCIAL SERVICES on Tuesday reported a profit of ₹100 crore for the quarter ended September 30, up from ₹5.87 crore in the year-ago period. Total income rose to ₹11,605 crore from ₹9,799 crore in the same quarter last year.

NBFCs' gold-loan rush faces stress challenge

NARAYANAN V
Chennai, October 27

AFTER EXPANDING AT a fast clip, the gold loan segment, considered a relatively-safe bet because of its collateral-backed nature, is seeing early signs of stress, with several non-banking financial companies (NBFCs) flagging repayment delays even as they step up exposures.

Shriram Finance has joined its NBFC peers in reporting pressure in the segment. Its gross Stage 3 assets — loans overdue by more than 90 days — rose to 3.12% of its gold loan portfolio in the second quarter of this fiscal, from 2.57% in the previous quarter and 2.28% a year earlier. Gross Stage 2 assets, comprising loans overdue by 31-89 days, rose to 9.88% from 9.71% in the year-ago quarter.

Umesh Revankar, executive vice-chairman of Shriram Finance, attributed the rise in delinquencies to changes in the repayment structure. "We had introduced EMI and interest servicing gold loans. People are habituated to servicing only bullet repayment. We are trying to introduce the new structure because they can get a little more loan if they opt for EMI and interest," Revankar said during the second-quarter earnings call.

Despite the increase in delinquencies, Shriram Finance plans to more than double its gold loan portfolio to ₹20,000 crore over the next two-three years and double its share of gold loans to 5% of total assets. "We don't really see any challenge, and we feel that opportunity in gold loan is very high," Revankar said.

His optimism is in stark contrast with concerns raised by other lenders. Bajaj Finance and Piramal Finance last week flagged repayment delays and the growing practice of extending gold loans to borrowers who are already more than 90 days overdue on loans from other financial institutions.

Jairam Sridharan, MD and CEO of Piramal Finance, said 15-23% of gross gold loan disbursements over the past year had gone to customers who were more than 90 days past due on at least one of their existing loans. In 2025-26, the industry had disbursed gold loans worth ₹4.7 lakh crore to customers who are in deep delinquency, i.e., more than 90 days past due, he said.

Bajaj Finance reported an increase in Stage 2 assets in the July-September quarter. The company attributed ₹1,047 crore of the increase to short-tenure schemes introduced after the Reserve Bank of India's revised gold loan guidelines came into effect.

The emerging stress comes as a growing number of NBFCs diversify lending portfolios by introducing or expanding gold loans, attracted by rising prices, the security offered by the underlying collateral and the formalisation of the market. More than half a dozen NBFCs, including Tata Capital, Aditya Birla Capital, Shriram Finance, L&T Finance, Godrej Finance and Chola Finance, have announced forays or plans for rapid expansion in the segment over the past two years.

India's organised gold loan market has nearly quadrupled over the past five years to ₹18.6 lakh crore as of March 2026, making it the second-largest asset class in retail lending.

IIFL Finance, which has more than half of its ₹1.24-lakh-crore loan book in gold loans, has also reported a rise in early delinquencies. Its Stage 1 gold loan assets, comprising loans overdue by up to 30 days, rose to 7.1% from 4.5% in the previous quarter, while loans overdue by more than 90 days edged up to 0.9% from 0.6%. Managing Director Nirmal Jain attributed the rise in non-performing assets to gold price corrections in the current quarter being lower than in the previous quarter.

"These are actually small customers and some of them are not able to pay on time. Historically, we have seen these kinds of variations happening, but losses will be minimal because we have the collateral," he said.

South Indian Bank, which has a gold loan portfolio of more than ₹26,000 crore, expects demand to remain robust ahead of the festive season and sees no major asset quality concerns. "Even if prices are coming down, people will not allow gold to get out of their books. I think the gold loan growth is consistent and it will continue," said Mahesh Pai, managing director and chief executive of South Indian Bank.

Silver hits 10-month low, slips below ₹2 lakh/kg

PRESS TRUST OF INDIA
New Delhi, October 27

SILVER PRICES TUMBLED below the ₹2-lakh-per-kg mark for the first time in over 10 months on Tuesday while gold dropped by ₹500, as weakness in global bullion markets and a stronger dollar weighed on investor sentiment.

The white metal plunged by ₹4,000 to ₹1.98 lakh per kg, its lowest level in 10 months, according to the All India Sarafa Association. Gold of 99.9% purity depreciated by ₹500 to ₹1,45,800 per 10 gram.

"Gold traded weak in the domestic markets as dollar strength and continued weakness in international precious metal prices kept it under pressure," said Jateen Trivedi, VP research analyst - commodity and currency, LKP Securities. On the outlook, Trivedi said domestic gold prices are expected to remain volatile, with a range of ₹1.40-1.44 lakh per 10 gram in the near term.

In global markets, spot gold edged lower marginally to $4,011.44 per ounce, and silver fell over 1% to $53.41 per ounce.

"Gold is consolidating near $4,000 per ounce in overseas trade after hitting a three-month low of $3,975, as easing oil prices offer some relief," said Akshat Siddhant, lead quant analyst at investment platform Mudrex.

Gaurav Garg, head of research at brokerage platform Lemonn, said silver is underperforming gold and reflects stronger selling pressure below the $54-per-ounce level.

"Investors remained cautious ahead of the US Federal Reserve's October 28 policy meeting, with the rate decision and forward guidance by Chair Kevin Warsh likely to determine the next directional move," said Saumil Gandhi, senior analyst - commodities at HDFC Securities.

'Fresh stressed loans formation may rise in H2'

- Private banks likely to face higher pressure, says ICRA

FF BUREAU
Mumbai, October 27

THE BEST OF times may be over for banks and finance companies as an adverse impact of the West Asia conflict and deficit monsoon conditions begin to weigh on their asset quality. The formation of fresh stressed loans may rise in the second half of the current financial year, rating agency ICRA said on Tuesday.

Slippages may grow for both, but will remain under control. MSMEs, due to potential oil shocks, supply chain disruptions and inflationary pressures, remain vulnerable, the agency said in a report. Loans to MSMEs and unsecured personal credit accounted for around 17% of the overall non-food bank credit of ₹223 lakh crore as of August 2026.

Ashish Modani, senior vice president and group head - financial sector, ICRA, said the effects are likely to be seen in the third and fourth quarters. The emerging asset quality challenges in the retail and MSME sectors could increase credit costs and impact profitability.

With higher share of unsecured retail and MSME loans, private sector banks saw relatively higher slippages in the last two years, ICRA said, adding that the trend is likely to continue in H2FY27.

The annualised fresh bad loan generation rate for private banks stood at 1.4% in Q1. This is expected to rise marginally to 1.6% by March 2027. The trend for public sector banks (PSBs) is expected to be similar, but of less intense. The fresh NPA generation rate may inch up to 0.8% for FY27 from 0.7% in Q1FY27.

The fresh bad loan formation has been on a consistent decline after hitting its peak in FY22, touching 3.5% for private lenders. It fell to 1.4% in Q1FY27. PSBs followed a similar pattern, with a peak of 2.8% in FY22 and moderating to 0.7% in the April-June quarter.

The credit provisions as percentage of advances may inch up for private banks to 0.8% for FY27 from 0.6% in Q1. PSBs may see the rise from 0.3% in June 2026 to 0.4% by March 2027. "Credit costs will remain favourable and much lower than historical levels.", the agency said.

Credit costs for private banks declined from a peak of 1.4% in FY22 to 0.6% in Q1FY27 and these provisions fell from 1.2% to 0.3%.

ICRA said it does not forecast higher interest rates or inflation to translate immediately into a broad-based deterioration in headline asset quality, particularly as long as credit flows from banks to NBFCs, and onward to underlying borrowers, remain healthy.

Tata Capital's profit surges 51%, AUM tops ₹3 lakh cr

FF BUREAU
Mumbai, October 27

TATA CAPITAL'S CONSOLIDATED net profit jumped 51% year-on-year to ₹1,660 crore for the September quarter, driven by stronger asset growth.

The non-bank lender's net total income rose 24% to ₹4,676 crore. Assets under management grew 26% to ₹3.08 lakh crore, while AUM excluding motor finance grew 32%. Retail and SME loans accounted for 85.4% of net AUM.

The NBFC said it has raised its prime lending rates on the floating rate portfolio by 20-25 bps, following the RBI's recent rate hike. This repricing is expected to support an improving free trajectory portfolio.

"When this benchmark (repo rate) increases, our cost of fund also goes up. Our floating rate liabilities are 48% of our total liabilities and floating rate assets are around 66% of our total assets. So, structurally, we are very well positioned. In case there is any increase in interest rates, we will be able to look at its impact on our cost of funds, change the PLR and pass on the impact. So, it will not be a drag on our costs in any situation," said Managing Director and CEO Rajiv Sabharwal.

The lender's asset quality improved during the quarter. Its annualised credit cost declined to 0.9% in Q2FY27 from 1.3% a year earlier. The gross non-performing asset ratio eased to 1.9% from 2.2%, while the net NPA ratio fell to 0.8% from 1.1% in the year-ago period.

On the proposed insurance norms on commissions, Tata Capital said it is premature to quantify the impact.

RIL TOPS Q2 CHART OF RETAIL SHAREHOLDER ADDITION

RELIANCE INDUSTRIES (RIL) added the highest number of retail shareholders in Q2, with the base rising from 4.47 million in June to 4.87 million, according to data sourced from Capitaline. HDFC Bank, PC Jeweller, Cupid and BSE were among the other companies that witnessed a significant rise in retail shareholder numbers. On the other hand, Bajaj Auto, Eternal, IDFC First Bank, Wipro and Hindustan Aeronautics recorded a decline in retail shareholder base.

Bagchi takes charge as HDFC Bank MD & CEO

HDFC BANK ON Tuesday said that Anup Bagchi has taken charge as its managing director and chief executive.

His predecessor, Sashidhar Jagdishan, vacated office on Monday after the completion of his term, the bank informed exchanges.

Bagchi, an ICICI Group veteran, is the first outsider to head HDFC Bank in its over-three-decade history. His previous assignment was as the MD and CEO of ICICI Prudential Life Insurance.

He joins HDFC Bank at a time when the lender is battling a slew of challenges, including ones on core income growth and margins, which have made investors wary. —PTI

Brokerages hail Paytm's business model

- MDR to provide incremental revenue upside

PRESS TRUST OF INDIA
New Delhi, October 27

PAYTM'S EXISTING BUSINESS model is already generating profits, with the proposed UPI merchant discount rate (MDR) framework expected to provide incremental revenue and earnings upside, rather than serve as the foundation of its profitability, according to the company's Q2 FY27 earnings commentary and assessments by global brokerages.

In its earnings commentary, Paytm positioned the potential introduction of UPI-MDR as an additional opportunity for its payments business, while expressing confidence in continued profitability improvements driven by existing operations.

JP Morgan, in its report titled 'First Take: All-round beat', highlighted that Paytm's focus on its merchant franchise and sharp cost control had helped the company achieve EBIT breakeven, proving the resilience of its merchant-led model.

Goldman Sachs noted that Paytm expects EBITDA to continue improving even excluding any UPI merchant discount rate (MDR) upside, despite higher upfront costs associated with its lending distribution business.

Bernstein's financial estimates provide further support to this distinction. The brokerage forecasts approximately ₹1,288 crore in FY27 EBITDA while explicitly excluding UPI-MDR from its projections.

Paytm's September-quarter results also demonstrate the profitability of its existing operations. Revenue increased 28% year-on-year to ₹2,648 crore, while EBITDA rose to ₹270 crore, with margins expanding to over 10%.

Bernstein highlighted improving payments monetisation, with net payment revenue rising 7% sequentially despite unchanged payment GMV. Financial services revenue increased 49% year-on-year, demonstrating the growing contribution of another established business vertical.

The brokerage commentary reinforces the distinction between Paytm's existing earnings performance and potential incremental benefits from UPI-MDR. While the proposed framework could strengthen future payments economics, Paytm's merchant-led platform, financial services distribution and operating efficiencies are already contributing to its profitability.

IOB eyes wealth management foray

NARAYANAN V
Chennai, October 27

INDIAN OVERSEAS BANK (IOB) is planning to launch a separate wealth management vertical as early as the next financial year, joining a growing number of public and private sector lenders seeking to expand their product offerings and boost fee income.

"We are working on it. Maybe at the beginning of the next financial year we will be launching it," MD and CEO Ajay Kumar Srivastava told *FE*, when asked about the lender's plan for wealth management.

The lender is exploring both inorganic opportunities and joint ventures, he said, declining to share further details. "We are at a very advanced stage of discussion. Maybe by next quarter, we will be able to tell you some more details," Srivastava said.

Several public and private sector banks recently announced plans to enter the wealth management business. Private sector lender Federal Bank launched a wealth management platform earlier this year. RBL Bank, backed by Emirates NBD, is reportedly evaluating an entry into the broking and asset management businesses. Punjab National Bank, the country's third-largest public sector lender, also plans to launch wealth management services by December to increase its non-interest income.

Ajay Kumar Srivastava, MD & CEO

IOB's cross-city peer Indian Bank has announced plans to enter the life insurance and wealth management businesses through separate joint venture subsidiaries.

IOB, however, does not plan have any plan to float any insurance entity, Srivastava said. "It's wealth management only. For insurance, it will only be onboarding of new partners and not more than that," he said.

IOB's total business, comprising advances and deposits, grew 22% to ₹7.53 lakh crore as of September. Srivastava said the lender expects its total business to cross ₹10 lakh crore over the next two years.

On expected provisions under the expected credit loss (ECL) framework, Srivastava said IOB would require ₹3,200-3,300 crore by the end of March. "And as on today's calculation, requirement is around ₹2,600 crore," he said.

The bank is also creating an additional provision of ₹500-600 crore to cushion potential mark-to-market losses on its held-to-maturity investments under RBI guidelines.

META INCREASES EQUITY OFFERING TARGET TO $98 BN

META PLATFORMS BOOSTED a planned share sale to almost $98 billion, marking one of the largest equity offerings in history. The company, which is seeking funds to invest in AI infrastructure and personal superintelligence, sold $25 billion of common stock, more than initially planned, according to a statement on Monday. It also raised $12.5 billion from an offering of preferred shares. Meta is now adding to that sum with plans to raise $60 billion via an at-the-market share sale programme, which allows companies to periodically sell shares in the open market.

Intel set to acquire quantum startup Classiq for $2.3 bn

INTEL HAS AGREED to buy Israeli start-up Classiq Technologies as part of a push to capitalise on quantum computing, a still-nascent field that is seeking commercial applications. The chipmaker will pay $2.3 bn for Classiq, according to people familiar with matter who asked not to be identified as the information is private.

Israelis break turnout records to decide Netanyahu's fate

- Opinion polls show a close race, with neither leader facing easy path to power

ISRAELIS SURGED TO the polls on Tuesday at a pace that shattered records, to pass wartime judgment on Prime Minister Benjamin Netanyahu in what voters described as the most consequential election in the nation's history. Long lines formed outside polling stations for the first election since the October 7, 2023, Hamas-led attacks.

The Central Elections Committee reported that turnout reached 55.7% in the first nine hours of voting, the fastest pace on record.

Policies of Netanyahu's right-wing coalition have been divisive at home and have deepened Israel's international isolation, while he has defended his record, calling himself the only leader with the mettle to face down Israel's foes.

Netanyahu, Israel's longest-serving leader with 19 years in office, is an unmatched political survivor, and his nationalist politics are entrenched.

Israel's fragmented system makes it difficult for an array of opponents to force out his coalition of right-wing and ultra-Orthodox parties.

His main rival Gadi Eisenkot, a military ex-chief of staff and security hawk, aims to unseat him with the support of parties on the right and centre, as well as the rump of an increasingly marginalised left.

Opinion polls show a close race, with neither leader facing an easy path to power.

PM warns of surge in Arab voters

Netanyahu and his far-right coalition partners made a last-ditch push to get their supporters to the polls, warning of surging Arab voter turnout, a tactic Arab politicians denounced as racist and inflammatory.

In a series of posts, Netanyahu highlighted long queues at polling stations in Arab communities and published an image that he said showed Arabs, including women in niqabs, waiting to vote.

Brazil markets sink after Lula's upset poll victory

KELSEY BUTLER, HENG XIE & BHASKAR DUTTA
October 27

BRAZIL'S SURPRISE ELECTION result dominated emerging-market trading Monday as the country's stocks, currencies and debt plunged following Luiz Inácio Lula da Silva victory.

The real sank 8%, on track for its biggest one-day drop since the 1990s, and its weakest level since January. The Ibovespa Index fell 13.9% for the worst day since early 2020. And the country's dollar bonds across maturities were among the worst performing in the developing world.

Brazil's B3 widened trading limits for several key markets on Monday, allowing for larger-than-usual moves in the currency, interest rates and stock-index futures.

"Positioning is a big part of today's outsized moves in Brazil assets and I assume we are seeing some overshoot," said Win Thin, chief economist at Bank of Nassau 1982. "That said, Lula made all sorts of spending promises in an effort to win the second round and so the fundamental outlook has worsened."

Looking ahead, investors will be watching for "a clear and credible commitment to fiscal discipline," according to a UBS team led by Alejo Czerwonko, chief investment officer for emerging markets.

"The burden of proof is now on the administration," they wrote. "Investors could likely remain skeptical and prefer to wait for new evidence from the appointed finance minister before repricing Brazilian assets based on a potential course correction of the budget deficit."

Trump says poll looked 'rigged'

US PRESIDENT DONALD Trump said that leftist incumbent Luiz Inacio Lula da Silva's surprise win in Brazil's presidential vote "looked like another rigged election." Defeated right-winger Flavio Bolsonaro has refused to concede defeat, saying he would seek the annulment of Lula's victory after the Supreme Court extended voting by two hours. Later, however, Bolsonaro's Liberal Party said it acknowledged the runoff result in a statement signed by the party's head Valdemar Costa Neto.

Boeing CEO says 737 still stabilising as commercial-division loss widens

WILL GUISBOND
October 27

BOEING REPORTED A wider-than-expected loss at its main commercial airplane business as deliveries stagnated in the third quarter and the company ramped up spending to support future production increases.

The commercial airplane division, Boeing's biggest by revenue, posted a $697 million loss in the period, compared with the $360.8 million deficit expected by analysts surveyed by Bloomberg. Still, the figure was a fraction of the loss reported a year earlier, when Boeing booked a $4.9 billion charge on its delayed 777-9 widebody jet program.

Earnings rose at the defense and space arm, partly assisted by the sale of a research laboratory that Boeing had co-owned for more than two decades, in addition to a surge in global defense spending that fueled higher volume.

The diverging earnings at Boeing's commercial and defense units highlight the complex challenges that Chief Executive Officer Kelly Ortberg and his team face in turning around the US aerospace giant, whose financial health was beset by a series of quality and safety crises over the last decade, including several fatal crashes.

The share fell 1.4% in premarket trading on Tuesday. Boeing has declined 13% this year, putting the company on track for its second-worst annual return in five years.

Mbappé sorry for 'ill-judged' Mao remark

FRANCE SOCCER CAPTAIN Kylian Mbappe apologised on Tuesday after Chinese brands cut ties with him over comments referring to the late Chinese leader Mao Zedong, underscoring how swiftly international celebrities can come unstuck in a crucial market.

In a video Mbappe is heard saying that the funniest meme he had seen of himself was one where his face had been photoshopped on to that of "some guy — I think he's a Chinese dictator". His comments appeared to be a reference to a meme of Mbappe superimposed on an image of Mao. "During a recent interview, I reacted to an image of myself," Mbappe, 27, posted on social media platform X. "My comment was ill-judged, and I now understand that it hurt many people in China and in Chinese communities around the world."

THE DISCUSSIONS, BIRLA said, were "candid, rigorous and, at times, contested, as the best jury discussions should be."

EY, the knowledge partner, oversaw the evaluation, analysing data on nominees and drawing up shortlists using parameters such as revenue and profit growth, three-year shareholder returns, market capitalisation and, where relevant, ESG ratings. Each category had eligibility filters: MSME nominees, for instance, had to be listed and have revenues below ₹500 crore. The jury then whittled each field down to two contenders before settling on a winner.

Sun Pharmaceutical Industries was named Company of the Year in a keenly contested category. "Sun Pharma was a compelling choice because it combines the qualities of a well-run business with the ambition of a genuinely global pharmaceutical company," said Birla. Its growth has been steady and disciplined, backed by a strong balance sheet and robust operating cash flows, but what set it apart, he said, was its willingness to use that strength to redefine the scale of its opportunity. The proposed $11.75-billion, all-cash acquisition of Organon, he noted, ranks among the boldest overseas transactions attempted by India Inc. "That combination of consistent execution and audacious ambition made Sun Pharma stand out."

JSW Group's Parth Jindal won the Young Turks award for building well beyond an inherited legacy, from paints to electric vehicles. "Parth represents something special: the courage of a new generation," said Bhattacharya. "He reminds us it's never too early to dream big."

Titan's Ashok Sonthalia was chosen CFO of the Year for his key role in big bets such as the full takeover of CaratLane and the Gulf push through Damas. "Good CFOs report numbers accurately. Great CFOs help companies shape the future," said Chandra.

Nayar described the Emerging Entrepreneur and Standout Innovator winners as "real examples of Indian science, Indian research and Indian first." Sarvam AI's Vivek Raghavan and Pratyush Kumar have built foundational AI models for Indian languages, while Skyroot Aerospace founders Pawan Kumar Chandana and Naga Bharath Daka, two former Isro scientists, put Vikram-1 into orbit with largely home-grown technology, making the company what Nayar called "a symbol of India's space entrepreneurship revolution."

Resilience defined the Standout Unicorn award for Falguni Nayar's FSN E-Commerce (Nykaa). When sentiment towards new-age companies cooled after its listing, Memani noted, she rebuilt Nykaa into a multi-engine business, investing in its own brands and opening a new store almost every week.

"MSMEs are the backbone of India, and Bella Casa Fashion & Retail truly exemplifies that," said Memani of the MSME of the Year. Under Saurav Gupta, the Jaipur company has grown from a family-run business into a design-led manufacturer supplying around 50 leading brands.

Hindustan Unilever won the Sustainability award for coal-free plants, sharp cuts in water use and its work with rural women entrepreneurs. ABB India, MNC of the Year, was hailed for localising fast, with over 80% local value addition. The jury also had suggestions for future editions: a tighter age cut-off for startups, since some long-established firms bristle at the label, and a new category for mid-sized companies that have outgrown it but are not yet giants.

Caveats filed; Mallika camp for amicable resolution

COURT RECORDS SHOW that eight caveats were filed on October 12 and 13, with four each in the City Civil Court and the Commercial Court in Chennai.

In the City Civil Court, Venu Srinivasan and VS Trust, represented by him as trustee, filed caveats on October 12 naming Lakshmi Venu and Mallika Srinivasan. Mallika Srinivasan also filed a caveat naming Venu Srinivasan, Sudarshan Venu and VS Trust. On October 13, Lakshmi Venu filed a caveat naming Venu Srinivasan, while Sudarshan Venu filed one naming Lakshmi Venu. In the Commercial Court, all four family members filed caveats on October 12. The caveats filed by Venu Srinivasan and Sudarshan Venu name Lakshmi Venu, while those filed by Mallika Srinivasan and Lakshmi Venu name Venu Srinivasan.

A caveat is a precautionary filing under Section 148A of the Code of Civil Procedure, filed by a party that expects an application to be made against it. It requires the court to give the caveator an opportunity to be heard before passing an order on such an application. A caveat remains valid for 90 days. So far, there is no public record of a suit having been filed by either side.

The dispute centres on the economic ownership and succession arrangements within the family, with Mallika Srinivasan and Lakshmi Venu contesting claims that the division of businesses and assets has been fair. In 2024, Venu Srinivasan, Mallika Srinivasan, Lakshmi Venu and Sudarshan Venu executed a MoU outlining the division of business interests. Under this, Venu Srinivasan and Sudarshan control automobile biz, including TVS Motor, financial services firm TVS Credit and real estate and drone biz under TVS Holdings. Venu Srinivasan and Lakshmi Venu control Sundaram-Clayton, while Mallika Srinivasan and Lakshmi Venu manage TAFE, which is not part of TVS Group.

Venu Srinivasan and Sudarshan have maintained that 2024 MoU constitutes a family settlement. Mallika Srinivasan and Lakshmi Venu, however, contend that the agreement covers trademark rights, brand usage and non-compete arrangements, rather than economic division of the family's assets.

JLR SUV gets a ₹34L price cut

THE LOCALLY ASSEMBLED Defender 110 will be available in the X-Dynamic HSE trim, with three engine options: a 2.0-litre petrol, a 3.0-litre petrol and a 3.0-litre diesel. Other versions, including the three-door Defender 90, the larger Defender 130 and the high-performance Defender Octa will continue to be manufactured in Slovakia and imported into India.

JLR India Managing Director Rajan Amba said the company would scale up production in line with demand. The Pune facility has an expandable capacity of 10,000 units annually, with scope for further expansion. The company's Chennai plant is currently assembling the Range Rover Evoque.

The Defender has helped India enter JLR's top 10 markets globally and the company expects its position to strengthen as local production ramps up. However, the extent to which localisation will ease supply constraints remains to be seen, with both Defender and Range Rover customers continuing to face waiting periods.

Amba said the company had initially faced challenges in meeting demand for the Defender and that stabilising production would take time. Production would be aligned with the order book and supply conditions across JLR models. The first India-assembled units are expected to reach customers shortly, with deliveries anticipated within about 10 days.

Alongside local manufacturing, JLR is expanding its after-sales infrastructure to support potential growth in sales. The company has upgraded existing facilities, with its Delhi centre expanded to three times its earlier capacity, and is strengthening its retail and service network.

JLR has also confirmed that four electric models, the Range Rover EV, Range Rover Sport EV, Range Rover GT EV and Jaguar Type 01 electric sedan, will go on sale in India next year, signalling a broader push to expand its luxury vehicle portfolio in the country.

LNG import bill...

THE PROJECTIONS ASSUME that LNG supplies from Qatar and the UAE remain unavailable from March through December 2026 because of disruptions through the Strait of Hormuz.

South Asian buyers are responding mainly by reducing imports, with Pakistan cutting purchases more sharply than India, the consultancy said.

Europe faces the largest increase in absolute spending. Its LNG bill is projected to rise $12 billion to $79 billion, despite demand falling by 24 million tonne. The region could lose 20.6 million tonne of the 24.7 million tonne of Qatari LNG originally scheduled for delivery this year. East Asia, however, is relatively better placed, with import costs projected to increase just 9.7% to $104.6 billion from $95.3 billion. The difference lies largely in how gas is purchased. Europe buys around 65% of its LNG on the spot market, where prices fluctuate with supply and demand. In East Asia, spot purchases account for only 14.5% of imports. Moreover, 82% of East Asia's long-term LNG contracts are linked to oil prices. These contracts have become around 28% costlier, compared with a 72% increase for contracts linked to gas trading hubs and spot prices. Europe's average LNG price has risen 47%. Elsewhere, Southeast Asia's import costs are projected to rise to $22.3 billion from $17.9 billion.

Jobs, the missing link

Quality employment and rising real wages vital to sustaining growth momentum

INDIA'S ECONOMIC MOMENTUM looks increasingly fragile as employment indicators weaken amid mounting external headwinds. As the government acknowledged last year, employment drives consumption and sustained growth. But jobs must pay adequately, with wages rising faster than inflation. The Periodic Labour Force Survey (PLFS) places overall unemployment near 5%, broadly unchanged over several quarters. The Centre for Monitoring Indian Economy (CMIE), which uses a different methodology, has generally reported rates 2-3 percentage points higher. More troubling than this divergence is the movement beneath CMIE's headline numbers. Its unemployment rate fell from 7.3% in January to 3.99% in September, even as the labour force, employment, and participation declined. This suggests discouraged workers may be withdrawing from the job market. The PLFS puts unemployment among 15-29-year-olds at 15-16%, substantially above the overall rate. Marginal gains in participation and worker-population ratios provide little reassurance. October's flash Purchasing Managers' Index (PMI) showed hiring slowing to its weakest pace of 2026, with services employment stagnating after nine months of expansion. Firms apparently saw little need to add staff, suggesting business resilience is not translating into jobs across sectors and regions.

Official employment statistics also conceal considerable distress employment: subsistence self-employment, casual work, and disguised agricultural labour. Millions may be finding work, but the aspirations of the 7-8 million people entering the labour market annually remain largely unmet. Some simply stop searching, distorting the headline unemployment rate. Greater capital intensity, stagnant real wages, and reverse migration to villages underscore concerns about jobless growth. Urban labour markets face particularly acute structural pressures. The informal sector still accounts for over 85% of employment, generally without meaningful social protection. Better-paid opportunities are concentrated in information technology and finance, while much of the growth elsewhere in services involves delivery, retail assistance, and local transport. Services employ roughly 190 million people, compared with just 27 million in organised manufacturing.

Contract employment offers industry necessary flexibility, but contract workers now make up 42% of organised manufacturing employment. The rapidly expanding gig workforce, projected to grow from 10 million in 2024-25 to 23.5 million by 2029-30, offers earning opportunities without necessarily providing stable, skilled careers. Meanwhile, the mismatch between workers' capabilities and employers' requirements is widening. Artificial intelligence (AI), digital technologies, and green industries are transforming demand for skills, yet training has not kept pace. The government has introduced the PM Internship Scheme, Employment Linked Incentive Scheme, National Apprenticeship Promotion Scheme, and upgrades to industrial training institutes. Results, however, have been modest, reflecting resource constraints, design weaknesses, and limited industry participation. Coordination between employers and training providers is essential for results. These programmes need stronger employer partnerships, measurable placement outcomes, and sustained follow-through.

The coming Union Budget should prioritise the creation of millions of adequately paid jobs while preserving incentives for investment and entrepreneurship. An economy with India's low per capita income cannot depend on a narrow pool of high-paying positions in AI, product design, and finance. It needs technology-enabled blue-collar work alongside productive employment in traditional manufacturing and services. Policy must encourage labour-intensive investment, improve vocational training, and help smaller enterprises expand without excessive compliance burdens. Finance Minister Nirmala Sitharaman's observation that the next phase of consumption growth depends heavily on wage growth is timely. Stronger real wages would support household spending, reinforce business confidence, and make expansion more durable. Without broad-based gains in job quality and earnings, headline growth risks losing its momentum.

Hollywood female execs easy targets in a crisis

MONDAY OFFICIALLY MARKED the end of Bela Bajaria's 10-year run at Netflix, where the content boss spearheaded some of the streaming giant's biggest hits. Her ouster came just ahead of Netflix reporting its slowest sales increase in three years and forecasting a fourth consecutive quarter of slowing growth. Users aren't watching the streaming platform as much as they once did.

These issues are clearly linked to Bajaria's purview. But the nearly 42% slide in the share price over the last 12 months likely has more to do with Netflix's failed bid for Warner Bros. Discovery's studio and streaming divisions than it does with anything else. Wall Street read Netflix's advances as a red flag for a company whose leaders long crowed that they were "builders, not buyers".

The acquisition strategy that's led to a depressed share price is not a Bajaria problem; it's the problem of co-CEOs Ted Sarandos and Greg Peters. But someone had to pay the price, and the two guys at the top wouldn't pick themselves to take the fall.

Bajaria's departure, however, matters far beyond Netflix. She's just the latest among the small handful of women who have made it to the very top in Hollywood, only to be unceremoniously swept out in the entertainment world's great reshuffling.

BETH KOWITT

Bloomberg

The industry is consolidating as companies look for scale to survive the cutthroat streaming wars. YouTube and TikTok are now a competitive threat for share of eyeballs. Tech behemoths, which have different agendas than traditional studios and deeper pockets, are also becoming entertainment giants. Who survives and ends up in charge has implications outside corporate org charts.

Performance, of course, is part of the story. Jennifer Salke, former Amazon's head of film and television who exited last March, had some expensive flops and fumbled the stewardship of the James Bond franchise. But performance alone doesn't explain who is losing their jobs. Salke was also locked in a power struggle with a (male) executive, who had been brought in above her. Last month, streaming chief Cindy Holland was out at Skydance, a victim of consolidation in which a (male) executive won out to run the company's streaming business as it combined with Warner Bros. Discovery. Pamela Abdy, who co-ran Warner Bros. film division, also didn't survive the Skydance merger. (In this case, her male co-head also got the axe.)

This problem isn't unique to Hollywood. Research has found that when companies are in cutting mode, women and people of colour are more likely than their male counterparts to take the hit. A business and political climate that's become openly hostile to women has further given companies permission to treat female executives as expendable. Even what seems like good news for female executives has come with an asterisk. Channing Dungey, head of Warner Bros. television group, has a place in the combined company with Skydance but reportedly will no longer report to the CEO. And Walt Disney's Dana Walden got promoted to president and chief creative officer, but only after losing out on the CEO job.

Up and down the reporting structures in Hollywood, the numbers are already grim. Women held only nine, or 8.1%, of the 111 director roles attached to the top 100 US box office films last year, down from 13.4% in 2024, according to a study by the Annenberg Inclusion Initiative at the University of Southern California. That trickles down to the kinds of content that gets made; the percentage of top-grossing films with female protagonists dropped from 42% in 2024 to 29% in 2025.

LISTING CHOICE

BETWEEN COMPANY PREFERENCES LIES THE STORY OF HOW INDIA RAISES CAPITAL AND HOW FAR IT CAN GO

Light for some, heavy for others

CKG NAIR
V SHUNMUGAM

Respectively Former Director, National Institute of Securities Markets, and Partner, MCQube

THE POTENTIAL LISTING of Tata Sons has filled many columns this season. The RBI has asked the group's holding company to list under its rules for large non-banking financial companies. Its principal shareholders, Tata Trusts, would prefer it to remain private. Many experts have weighed in on the debate, but it is worth taking a broader view: Tata Sons is just one corner of a much larger picture.

Listing is the exception everywhere. India has more than 21 lakh active companies, but fewer than 6,000 are listed. The US, the world's largest market, has about 4,350 listed firms, down from 8,090 in 1996. Indian entrepreneurs are also opting for lighter legal structures. New limited liability partnership registrations rose 40% to 86,476 in 2025-26, while one-person firms continue to grow steadily.

Those who list find a deep pool. In 2025, 373 IPOs raised a record ₹1.95 lakh crore: 103 on the main board and 270 on small and medium enterprise (SME) platforms. So far in 2026, 84 main-board issues have raised about ₹1.10 lakh crore, with another ₹3.86 lakh crore in the pipeline. In the US, 117 IPOs have raised $148 billion this year.

The longer-term trend tells the same story. In 2000, listed companies in India were worth about 48% of GDP. The ratio reached nearly 150% in December 2007, fell to about 55% by March 2009, and has climbed steadily since. It now stands at around 136%. The SME platform has grown even faster, rising from 0.04% of GDP in 2019-20 to about 0.7% today. Each increase reflects household savings flowing into businesses. Markets allow a family in a small town to own a stake in a factory, bank, or software firm. They also enable a young company to raise growth capital without relying on a single large patron. In this way, markets make it easier to raise capital and foster innovation and growth.

Why, then, do some stay away while others rush in? Because listing feels light to some and heavy to others. The four quadrants capture the range.

Private by choice: Some profitable firms simply don't need public money. Zoho, the software maker, has never raised outside capital. It earned a net profit of about ₹3,191 crore in 2024-25 and shows no sign of seeking a listing. Germany's Bosch group is private too: its charitable foundation owns 94% of the capital, while a separate trust company holds 93% of the votes. For such firms, privacy brings freedom, and the reward is a long-term focus.

Private at the top, listed below: Some groups keep the parent private while drawing public money through listed arms. Tata Sons is the leading example: it sits atop 26 listed companies. Seven of those companies, in turn, own about 12% of Tata Sons, while the Trusts own about 66%. The Bosch group follows a similar pattern in India: its private German parent holds about 70% of listed Bosch Limited. The public funds the subsidiaries, while the parent keeps its own counsel. A listing at the top would give every shareholder down the chain a clear price. India's rules now make that route gentler. Since March 2026, the largest companies can list with a small initial float and build public holdings to 25% over about a decade.

List when ready: Others wait until they achieve scale and profitability. The National Stock Exchange listed last month, following years of steady earnings. Its ₹22,562-crore issue was subscribed 5.71 times. Tata Capital listed in October 2025 with a ₹15,512-crore issue, under the RBI rule that now applies to its parent. Hyundai Motor India raised ₹27,870 crore in 2024. Jio Platforms hits the market with its ₹33,000-crore issue on October 21, at a reported valuation above ₹12 lakh crore. Investors here buy companies with known earnings, and valuations remain measured. A sign of a maturing market.

List to grow: The fourth group lists early, often before turning a profit. Swiggy listed in November 2024, a year after reporting a net loss of ₹2,350 crore. In recent years, the average SME issue has raised about ₹24 crore, often for early-stage firms. Abroad, SpaceX listed in June at about $1.77 trillion after recording a $4.94 billion loss in 2025. Anthropic's prospectus devotes about 80 of its 261 pages to risk factors, including "catastrophic or existential risks to humanity". Investors still show keen interest. Here, the market funds tomorrow's possibilities.

Public sector enterprises (PSEs) have travelled the farthest across these quadrants. For decades, they kept away from the market. Over the last two decades, they have become eager to list, from Coal India (2010) to LIC (2022). Many, though, list on terms of their own. Several have been pulled by the exchanges over board composition. LIC has until 2032 to reach 25% public shareholding. The proposed Securities Markets Code goes further, allowing the Central government to exempt any listed public sector company from key issuer requirements. A narrower, time-bound window would let PSEs carry the weight of listing as fully as their private peers.

So the weight of listing varies by quadrant. For an early lister, it is light: capital flows in, and disclosure is a fair price to pay. For an asset-rich company, listing can feel heavy. Quarterly results, broader scrutiny, and a daily market price all come with it. Yet that weight brings rewards of its own. Listing gives every shareholder a price, a voice, and a way to exit.

Three ideas can help bring more of India's wealth into the light. First, making listing easier for asset-rich firms. The March float norms point the way. A route that allows charitable trusts to retain control while listing, as foundations in Denmark and Sweden do via voting structures, could take this further. Second, let's keep the bridges between quadrants open. SME platforms already help growing firms move to the main board. Third, rules shall apply a consistent yardstick: promise and profit both deserve fair weight in valuation.

Over a generation, India's market has grown from about half of GDP to well above it. Bringing more large private enterprises to market is the logical next step. When the heavyweights choose to list, the market becomes broader and deeper for all.

Polymer promises ecosystem prospects

RAMEESH KAILASAM

Founder, Rameesh Kailasam Advisory

India's policy shouldn't be framed around procuring notes from global suppliers, but focus on spotting partners willing to co-develop local infra & transfer foundational technology

THE DEBATE SURROUNDING India's currency technology infrastructure has shifted from whether synthetic substrates are technically viable to whether they make strategic and economic sense for a country defined by high cash velocity and intense physical note handling. With the government approving field trials for one billion 10-rupee and 20-rupee polymer banknotes through the RBI, the conversation has reached a critical juncture. The core inquiry is no longer merely about testing the longevity of plastic notes in tropical conditions. Rather, it is about whether India possesses the industrial depth to build and sustain a fully domestic polymer currency ecosystem at scale.

To appreciate the imperative behind this transition, one must recognise that polymer notes are no longer an experimental luxury. Since Australia pioneered the technology in 1988, over 60 nations have integrated polymer into their currency systems either partially or fully. Engineered primarily from biaxially oriented polypropylene (BOPP), polymer substrates present structural and operational benefits that traditional cotton-pulp paper cannot match. Their non-porous composition renders them resilient against tearing, moisture, soil, and the abrasive wear typical of small-denomination notes in heavy circulation. Furthermore, because these notes last significantly longer, the overall life cycle costs and carbon footprint associated with frequent reprinting and distribution drop considerably. At the end of their operational life, polymer notes can be recycled into commercial plastic goods, creating a circular model that aligns with broader environmental sustainability goals.

Beyond durability and ecology, transitioning to polymer introduces a fundamentally superior security architecture. Traditional paper relies predominantly on surface-level security features added during the printing process. Polymer, by virtue of its transparent substrate, allows advanced optical and machine-readable security mechanisms to be embedded directly into the base material. Features like intricate transparent windows, diffractive optical elements, and complex opacification layers make high-fidelity counterfeiting exponentially harder and far more capital-intensive for illicit operators. For a cash-intensive economy like India where low-denomination notes pass millions of hands daily, integrating these intrinsic security features offers a crucial line of defence.

> There is a scope to bring together complementary capabilities in advanced films and anti-counterfeiting technologies

However, the true challenge and opportunity lie in the manufacturing value chain. Moving beyond pilot projects begs the question whether India must rely permanently on foreign suppliers or if it can establish a self-reliant domestic ecosystem. A polymer banknote is far more complex than a standard sheet of printed plastic; it represents a sophisticated convergence of polymer chemistry, specialised resin formulations, precise opacification coatings, security inks, anti-counterfeiting technologies, precision gravure printing, and high-integrity converting processes. Every single layer must interact seamlessly with the next to ensure exact optical clarity, structural adhesion, and tactile consistency under extreme environmental conditions.

Fortunately, India does not need to construct this industrial matrix entirely from scratch. Its domestic chemical, materials, and flexible packaging industries already possess deep technical expertise in BOPP film production, advanced specialty coatings, and anti-counterfeiting technologies. Moreover, Indian manufacturers have long provided security-sensitive products, such as tax stamps, high-security documents, identity cards, and specialised authentication applications to both public and private institutions. This means domestic entities already operate under strict protocol environments, possess expertise in anti-counterfeiting technologies, and understand the rigorous quality assurances demanded by sovereign institutions.

There is also an opportunity to bring together complementary capabilities in advanced films and anti-counterfeiting technologies, creating a more integrated platform rather than treating the substrate and authentication layers as separate technologies. Such integration could help India develop greater control over the underlying technology stack, while also reducing dependence on fragmented external supply chains.

The emerging field of bidders reflects this mix of domestic capability and global expertise. Cosmo First-De La Rue, CCL Secure, Q&T Hi-Tech Polymer, and UFlex-Spectra Systems are the firms/consortia reported to have bid for the project.

The strategic synthesis of these existing capabilities is next. Instead of importing completed polymer substrates from overseas suppliers and assembling them locally through fragmented vendor networks, India has the capacity to foster domestic industrial consortia. By uniting local experts in polymer science, film manufacturing, specialty chemicals, and anti-counterfeiting technologies, it can construct an integrated, end-to-end platform for polymer banknote production. Where highly guarded proprietary or patented technologies are necessary, they can be incorporated through strategic licensing agreements or technology transfers without compromising the sovereignty of the broader manufacturing backbone.

International banknote specialists undoubtedly bring decades of valuable expertise from mature markets, and their technical insights will remain useful during initial stages. But India's policy approach should not be framed around merely procuring notes from global suppliers who have dominated the market. Instead, the focus must be on identifying partners willing to co-develop local infrastructure and transfer foundational technology. By leveraging its vast domestic market, industrial scale, and chemical manufacturing strengths, India can transform a routine currency modernisation programme into a springboard for advanced materials manufacturing, ensuring long-term sovereign control over its monetary infrastructure.

Fair taxation

Apropos of "India needs a tiered capital gains tax" (*FE*, October 27), tax policy should encourage patient investment without unfairly favouring wealth accumulated through financial assets. A tiered capital gains structure, with lower rates for longer holding periods, could reward investors who support businesses over time rather than chase quick market gains. Yet the rules must distinguish genuine long-term investment from transactions designed to obtain tax benefits. Frequent changes would unsettle markets and complicate compliance for ordinary savers. The government should publish clear holding-period thresholds, avoid retrospective changes, and review the system. A predictable, carefully designed tax regime can aid capital formation while treating investors fairly. Such stability also helps households plan savings confidently.

Searching for flavour in a new market

RELIANCE CONSUMER PRODUCTS' JOYLAND FACES STIFF COMPETITION FROM LARGE DAIRY PRODUCT MANUFACTURERS & ENTRENCHED REGIONAL PLAYERS

CHRISTINA MONIZ

RELIANCE CONSUMER PRODUCTS' entry into the ₹8,000-crore ready-to-drink (RTD) dairy beverage market via Tamil Nadu is interesting for at least two reasons.

Together, Tamil Nadu and Karnataka account for nearly a quarter of India's national market for milk-based RTD beverages. The state already has a strong dairy ecosystem, including regional players such as Cavin's and national ones such as ITC with Sunfeast Wonderz Milk. Entering this market puts Reliance's Joyland in direct confrontation with established brands, and before consumers who are familiar with the category and would have developed clear preferences already. Which essentially means Joyland — currently available in strawberry, vanilla, and pistachio flavours in a single-serve format — must work that much harder to earn both shelf space and consumer trust.

On the other hand, by going to market with a processed dairy-based offering rather than staple milk, Reliance Consumer Products has actively sidestepped regional sensitivities regarding milk-shed procurement and local co-operative systems like that of Aavin.

But that doesn't make the job any easier for Joyland

India's RTD dairy market is highly competitive. Because Joyland entered the segment at an aggressive price point of ₹20 per pack, it directly challenges powerhouse regional players such as Cavin's and Milky Mist, besides national players like Amul, Mother Dairy and ITC. That apart, the market is moving rapidly toward functional value-added products with brands like Epigamia, Country Delight and Sid's Farm focusing on high-protein, organic or lactose-free alternatives and following aggressive expansion plans.

To say Joyland has its task cut out would be an underestimation, says an expert. To start with, "the company will need to understand regional taste preferences, build relationships with local retailers, maintain consistent product quality and ensure that the product is available where target consumers shop", says strategy consultant Karthik Srinivasan. "The key test is whether trial converts into repeat purchase. The ₹20 price point could induce a lot of trials but Joyland needs to offer something more than price to make the product a habit," he adds.

What's in store

While Reliance Consumer Products' Campa was able to give global giants like PepsiCo and Coca-Cola a run for their money on the back of its disruptive ₹10 pricing, experts believe the same playbook will not work for the RTD dairy market. High margins allowed Reliance to deeply undercut competitors (for instance, ₹10 for Campa versus ₹20 for 250 ml for others). But national players in the dairy-based drinks market like Amul Kool and Parle Agro's Smoodh already retail around the ₹20-25 price band.

Nisha Sampath, managing partner, Bright Angles Consulting, says while Joyland could become a meaningful player in the dairy beverage market, especially if positioned as a kids' treat, it will have a slower, harder-earned growth graph compared with Campa. "It is pertinent to note that Campa already had residual brand awareness, and the added edge of an Indian brand fighting big multinationals. In the case of Joyland, there is no nostalgia, and it is taking on swadeshi co-operatives like Amul and Aavin, which enjoy strong familiarity, trust and perception of value," she points out.

Reliance is far more likely to succeed in leveraging its distribution muscle and high trade margins, the formula that helped Campa quickly get on to the shelves and keep trade partners interested.

That said, regional and national players in the category have an advantage that Reliance cannot build overnight — decades of consumer trust, brand value and established dairy supply chains. "Amul, Nandini and Aavin already deliver milk to neighbourhood stores every morning, giving them a powerful distribution advantage they can extend to flavoured milk," says Shekhar Suman, co-founder, Brandshark. He says regional players would do well to not outspend Joyland but outperform in areas like taste, innovation and local flavours.

He adds that new players in a category like dairy need to focus on building consumer trust since it is a category that sells nutrition and health benefits, quite unlike a cola brand. "Reliance has deep pockets and a distribution network that can help it scale quickly, but unlike Campa, Joyland will have to earn loyalty first rather than simply out-manoeuvre competition," sums up Suman.

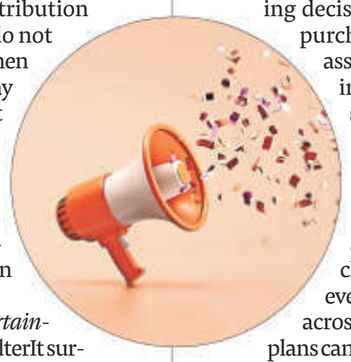
The festive ad spend spillage

AKSHAY CHATURVEDI

A CAMPAIGN CAN deliver every impression it promised and still fail. That is the uncomfortable arithmetic of festive advertising. When brands concentrate spending into a few high-stakes weeks, the pressure to maximise reach often eclipses a more fundamental question: how much of that reach is relevant?

India's digital advertising market grew 26% in 2025, accounting for nearly two-thirds of total advertising revenues. As more budgets move online, the ability to measure delivery is improving. The ability to distinguish effective delivery from wasted exposure remains a challenge.

An impression delivered is an impression counted. Yet an advertisement reaching consumers outside a brand's distribution footprint, in a language they do not engage with or at a moment when the message lacks relevance may satisfy a media plan without advancing its objective.



This gap has a name: spillage. It is advertising expenditure that generates exposure without a proportionate opportunity to influence consideration or purchase.

The FICCI-EY Media & Entertainment Report 2026, citing an mFilterIt survey of more than 20 CMOs, found that 57% identified wasted media spend as a business impact of unmanaged digital media leakage. The scale of the challenge becomes clearer when the quality of digital traffic is examined. We have observed that traffic which initially appears valid does not always withstand deeper scrutiny. Industry findings also suggest that 40-45% of programmatic traffic initially classified as valid can fail further validation checks. While this is not a measure of overall media wastage, it points to a larger question for advertisers: are they measuring impressions delivered or the quality of the opportunities those impressions represent?

On the other hand, agencies work with compressed timelines and briefs that reward reach. Marketers receive reports that establish whether an ad ran but offer limited insight into where it mattered.

Spillage persists because planning prioritises scale, buying prioritises speed and measurement often comes after the money has been spent. Post-campaign audits can explain what went wrong, but they cannot recover the expenditure.

The opportunity lies in bringing audience relevance, content and inventory quality into buying decisions before an impression is purchased. AI-led approaches can assess these signals at scale, helping planners exercise greater scrutiny without sacrificing the speed.

India's festive season is not a single, uniform consumption event. The significance of a festival, the timing of purchases, preferred languages and even product availability can vary across markets. Yet national media plans can often flatten these differences into broad audience segments and geographic targets, making scale easier to achieve than relevance.

A campaign that reaches fewer people but the right ones, will be a better investment.

Until marketers question the impressions they buy as they scrutinise the results, spillage will remain an accepted cost of doing business.

Message in the medium

THE WORLD MENTAL Health Day 2026 concluded on October 10 and UAE-based gym and fitness chain GymNation chose an interesting way to celebrate it.

Instead of putting up a message on a billboard or a social media post, the brand made the equipment do the taking. Usually, the weight plate tell you how much you're lifting. But GymNation's weight plates carried worries such as 'Imposter Syndrome', 'The Future', 'My Inbox' and 'Doom Scrolling', turning everyday mental pressure into a physical part of the workout.

The 20kg plates carry 'The Future' and 'Imposter Syndrome'. The 15kg plates feature 'My To-Do List', 'Comparing Myself to Others' and 'Never Enough'. At 10kg, the worries include 'Starting Over', 'Loneliness' and 'Losing My Job'. The 5kg plates carry 'Rent', 'My Inbox' and 'Doom Scrolling'.

■ **Campaign:** The World Mental Health Day
■ **Brand:** GymNation

According to a survey by the gym chain brand, people ranked worries about the future the highest with 21%, imposter syndrome followed at 17%, while unhealthy comparisons accounted for 11% and doom scrolling for 4%.

How IPO shares reach the small investor

Jio Platforms' shares are set to debut on the stock exchanges today. Retail investors bid for 231 million shares against the 85 million shares reserved for them, resulting in a subscription rate of 2.72 times. ***V Shunmugam*** and ***Nikhil Dohale*** explain how retail investors are allocated shares when demand exceeds supply

JIO PLATFORMS' IPO ATTRACTED 13.9 MN APPLICATIONS

WHEN THE RETAIL PORTION IS OVERSUBSCRIBED, SEBI RULES PROVIDE FOR THE ALLOTMENT OF ONE MINIMUM LOT TO AS MANY APPLICANTS AS POSSIBLE

What are the different categories of investors?

THE SECURITIES AND Exchange Board of India (Sebi) defines investor categories under its Issue of Capital and Disclosure Requirements (ICDR) Regulations, 2018. An individual who bids up to ₹2 lakh is classified as a retail individual investor. Issuers may also reserve shares for employees and shareholders of a parent company. In Jio's case, it reserved up to ₹2,500 crore worth of shares for Reliance Industries shareholders. The initial public offering (IPO) is India's largest to date, attracting a record 13.9 million applications.

INVESTOR CATEGORY

Qualified institutional buyers (mutual funds, banks, insurers, foreign investors)

Bid size	Share of issue*
Any size	Up to 50%

Small non-institutional investors

Bid size	Share of issue*
₹2 lakh to ₹10 lakh	5%

Big non-institutional investors

Bid size	Share of issue*
Above ₹10 lakh	10%

Retail individual investors

Bid size	Share of issue*
Up to ₹2 lakh	At least 35%

*For book-built IPOs under Regulation 6(1) of SEBI's ICDR Regulations.

How much is reserved for individual investors?

SEBI SETS ALLOCATIONS under the ICDR Regulations. Under Regulation 6(1), at least 35% of the net offer must go to retail investors. Under Regulation 6(2), retail allocation is capped at 10%, while qualified institutional buyers must receive at least 75%. Institutions receive the largest share because their bids help set the price; up to 60% may be allocated to anchor investors before the issue opens. Retail investors receive the second-largest share, divided among hundreds of thousands of investors.

What is the process of allotment?

WHEN THE RETAIL portion is oversubscribed, Sebi regulations provide for the allotment of one minimum lot to as many applicants as possible. A computerised draw determines the successful applicants, making the process a lottery rather than a queue. Jio's retail allocation comprised around 7.09 million lots of 12 shares each. Around 10 out of every 14 retail applicants received one lot. For heavily oversubscribed smaller issues, where demand may exceed the available shares by hundreds of times, the odds are significantly lower.

Some bids do not proceed to the draw. They are rejected due to an unapproved Unified Payments Interface mandate, mismatched Permanent Account Number (PAN) details, or a bid price below the final price.

Can applying for more lots help?

NO. APPLYING FOR more lots does not up the chances for a retail investor to get more shares. A winner gets one lot. Jio retail investors got 12 shares, whatever they bid.

Bidding at a higher price also does not help. Bidding at the cut-off price only keeps the bid valid. Jio priced at the top of its band, ₹1,119.

Several applications under one PAN are also liable to be rejected. A spouse or adult child applying from their own PAN and demat account is a separate applicant. There is a separate shareholder category. Shareholders of the parent company could bid in both the shareholder and retail categories to double their chances. Since April 2022, non-institutional investors are also allotted by draw.

Who runs the allotment & is it fair?

THE REGISTRAR TO the issue runs the allotment. For Jio, this was KFin Technologies. The designated stock exchange approves the basis of allotment, and this basis, with allotment ratios for each category, is made public. Grievances go first to the registrar, and then to Sebi's Complaints Redressal System (SCORES), if unresolved.

How do I check my allotment?

YOU CAN CHECK your allotment on the registrar's, NSE's or BSE's website with your PAN or application number. Under Application Supported by Blocked Amount (ASBA), your bank blocks the bid amount but does not debit it. Individuals bidding up to ₹5 lakh can use a UPI mandate.

Under the T+3 timeline, shares list three working days after the issue closes. For example, Jio closed on October 23, released funds on October 27 and gets listed on October 28. Till then, the money stays in your account and keeps earning savings interest. The exchange, the registrar and the company get none of it. If release is delayed, the bank pays ₹100 a day or 15% a year on the amount, whichever is higher.

RETAILERS REPORT 30-40% DECLINE IN VOLUMES

iPhone sales slide as festive discounts dip

ASHUTOSH MISHRA
New Delhi, October 27

IPHONE SALES HAVE declined 30-40% year-on-year across key markets this festive season as higher prices and thinner discounts make even older models less affordable, forcing buyers to wait for better deals or turn to refurbished devices. While demand for Apple's latest premium models remains strong, limited supplies and the absence of aggressive offers are hurting sales via retail stores.

The slowdown marks a setback after a strong 2025, when Apple shipped a record 14.3 million iPhones in India. Shipments are now expected to decline by a mid-single-digit percentage in 2026, said Upasana Joshi, senior research manager, devices research, IDC Asia-Pacific. "iPhone demand hasn't disappeared, but buyers are waiting longer and spending more carefully," she said, citing softer sell-through reported by retailers and e-commerce platforms.

The All India Mobile Retailers Association (AIMRA) said retailers were struggling to move inventory across the iPhone 15, 16 and 17 series because of elevated prices and a lack of affordability schemes on older stock. Substantial inventory remains in the market without aggressive cashback offers or consumer promotions, it said. This is significant because older models typically help Apple reach buyers unwilling to pay for its latest launches.

Memory chip inflation is adding to the pressure by pushing up handset prices and leaving manufacturers with less room to offer discounts. The average smartphone selling price rose 14.4% year-on-year to a record ₹27,100 in the April-June quarter, according to IDC. Last year, aggressive festive promotions helped convert consumer interest into purchases. This season, fewer deals are making buyers more cautious about upgrading. The latest launches have not been spared. Although demand for the iPhone 18 Pro and Pro Max remains robust, acute supply shortages are constraining sales through authorised mainline retailers, AIMRA said. Distributors are also bundling older, slower-moving models with limited supplies of newer devices, tying up retailers' working capital and making inventory management more difficult.

Consumers are increasingly relying on no-cost equated monthly instalments (EMI) and exchange offers to reduce the upfront cost. Those unable to secure financing are looking at certified pre-owned and refurbished devices instead. "When a new iPhone moves out of reach, buyers aren't dropping the iPhone. They're choosing a model a generation or two older, in the renewed category," Yug Bhatia, founder and CEO of refurbished platform ControlZ, said. He added that demand for premium renewed iPhones had picked up this festive season, particularly among first-time buyers and consumers in smaller towns. The pressure on Apple comes amid a broader slowdown in the smartphone market. Shipments fell 11.1% year-on-year to 33.2 million units during April-June, taking first-half shipments to 64.2 million, the lowest in five years, IDC data showed. IDC expects shipments to fall by more than 15% in the second half of 2026.

IN THE SUPREME COURT

Media body says privacy law can shut newsrooms

ANANTHAKRISHNAN G
New Delhi, October 27

UNDERLINING THE NEED to balance citizens' privacy rights with press freedom, the Supreme Court issued notice to the Centre on Tuesday on a petition by the Digital News Publishers Association challenging data protection provisions for failing to exempt journalistic activities.

A three-judge bench, comprising Chief Justice of India Surya Kant, Justice Joymalya Bagchi and Justice V Mohana, also issued notice on an application seeking a stay on the challenged provisions of the Digital Personal Data Protection Act, 2023 and Digital Personal Data Protection Rules, 2025.

The bench listed the matter for hearing on November 17.

The petition, filed through Advocate Anuj Tiwari, said the Act and the Rules, by not granting any exemption for journalistic purposes, are "in complete contravention" of the 2017 law laid down by the Supreme Court in K S Puttaswamy vs Union of India (I) and "impermissibly restrict the fundamental right to information and freedom of speech and expression protected under Article 19(1) (a) of the Constitution of India".

The bench listed the matter for hearing on November 17

Appearing for the Association, Senior Advocate Madhavi Divan told the bench that the impugned provisions "will shut down the newsroom". "This is perhaps the first comprehensive petition by institutional, what we call 'legacy media'... We are the traditional, conventional legacy media... It's changing the whole concept of what is news. If I am left at the mercy of the data principal on whether he or she will give consent, the concept of news... News has to be new. It will shut down the newsroom. What's the point if I have to ask for permission and consent?" she said. The CJI said, "You are the domain experts because you are in this field. You are the best persons to suggest (to) the Union as well as (to) us how you will ensure there's no misuse." the CJI said. Divan said, "We went and made a representation even after the filing of the petition." The CJI said a balance must be struck between the rights of citizens and those of the media.

"It's between the rights of innocent citizens and your rights. So, a balance has to be struck... You are the best persons to guide and suggest how you are going to ensure that... Rights are not misused," he said.

SIR & Form 6: EC reply sought on fresh plea

THE SUPREME COURT on Tuesday sought response of the Election Commission on a fresh plea by TMC's Rajya Sabha MP Dola Sen alleging that changes were made to Form 6 during the Special Intensive Revision (SIR) of electoral rolls in Bihar without the top court's approval.

The apex court also granted 10 days to petitioners to file a reply to the Election Commission's affidavit defending the SIR of electoral rolls and maintaining that the exercise was authorised by law and the relevant orders were approved unanimously by all three members of the poll body.

SC granted 10 days to petitioners to file a reply to the Election Commission's affidavit defending SIR of electoral rolls

While hearing a batch of petitions, a bench comprising Chief Justice Surya Kant and Justices Joymalya Bagchi and V Mohana took note of submissions of senior advocate and MP Maneka Guruswamy, appearing for Sen, that the EC wrongly claimed that the changes in Form 6 were approved by the top court.

In her petition, Sen, who is from the Mamata Banerjee faction, raised concerns over alleged changes to the online version of Form 6 and the Election Commission's subsequent press note suggesting that the Supreme Court had authorised or upheld the changes during the Bihar SIR proceedings.

While issuing the notice on Sen's plea, the CJI said that all the issues would be examined and asked senior advocate Vikas Singh, who represented the first petitioner, Rakesh Kumar Singh, to file a rejoinder in 10 days to the poll authority's reply affidavit filed late Monday evening. —PTI

Pak invited to SCO meet in Delhi, first since Op Sindoor

SHUBHAJIT ROY
New Delhi, October 27

INDIA HAS INVITED Pakistan's National Heritage and Culture Minister Aurangzeb Khan Khichi for the Shanghai Cooperation Organisation (SCO)'s Civilisational Dialogue Forum in New Delhi on November 20-21, sources said on Tuesday. This is the first such invitation by India to a senior minister of Pakistan ever since the military hostilities between the two countries in the wake of Operation Sindoor in May 2025 following the Pahalgam terror attack.

The last time India hosted a senior minister of Pakistan was in May 2023 when Bilawal Bhutto, who was then the Foreign Minister of his country, travelled to Goa for a meeting of the SCO Foreign Ministers.

The invitation to Pakistan's minister is part of Delhi's obligation to invite representatives from all SCO member countries since it had proposed to host the SCO civilisational dialogue forum. Pakistan is scheduled to host the summit of SCO leaders next year. For Delhi, the diplomatic task is cut out. While it has kept bilateral ties frozen for a decade now after the Pathankot and Uri attacks in 2016, it has to engage with Pakistan at the multilateral level.

The civilisational dialogue, expected to be held in one of Delhi's iconic monuments in November, was first proposed by Prime Minister Narendra Modi during the SCO Council of Heads of State summit in Tianjin in September 2025. Defence Minister Rajnath Singh formally announced that India would host the event while addressing the 25th SCO Council of Heads of Government meeting in Dushanbe, Tajikistan, on October 20, 2026.

The key goals are to strengthen people-to-people ties and cultural engagement across Eurasian member states, and showcase the shared heritage, art, literature and traditions of ancient civilisations.

The engagement between India and Pakistan under the rubric of SCO began last month when a senior Indian official visited Islamabad and flagged the issues of "connectivity, regional connectivity, transit and trade". Alok Dimri, India's national coordinator for the grouping, told Pakistan's public broadcaster PTV the SCO had come to the neighbourhood after traversing East Asia and Central Asia.

Andhra, Odisha brace for Cyclone Arnab

A man walks past docked boats amid rain and gusty winds as Cyclone Arnab approaches, in Visakhapatnam on Tuesday. The cyclonic storm is expected to make landfall near Visakhapatnam by Wednesday forenoon, according to the IMD REUTERS

- Emergency forces on standby; nearly 4,000 shelters built

PRESS TRUST OF INDIA
Bhubaneswar/Amaravati, October 27

ANDHRA PRADESH AND Odisha have set up nearly 4,000 cyclone shelters, moved thousands of people to safer locations, and put disaster management personnel on standby as the "very severe" Cyclone Arnab hurtled towards the coast and is expected to make landfall near Visakhapatnam on Wednesday.

The Indian Railways cancelled at least 50 trains in the region as a precaution, while traffic restrictions were imposed on many coastal roads in the region. Two IndiGo flights connecting Vijayawada with Chennai and Bengaluru were also cancelled during the day.

According to the India Meteorological Department (IMD), the storm was about 140 km southeast of Kakinada in Andhra Pradesh and 170 km south of Visakhapatnam at 2.30 pm. It was moving at 18 kmph and likely to cross the coast between Bapatla and Visakhapatnam, close to Yanam, by Wednesday forenoon, they said.

The Andhra Pradesh government has set up 2,131 cyclone shelters across the state's 20 districts, kept 1,087 medical teams on standby in areas likely to be affected by the storm, and readied 8,281 emergency beds and 1,274 ambulances, officials said. Besides moving people out of vulnerable areas, the state has shifted 1,351 pregnant women to hospitals, they said.

Odisha, where heavy rains have already started, is moving 48,000 people to safer locations. The state's Special Relief Commissioner (SRC) Rajesh P Patil said around 11,000 people each would be shifted to safer locations in Gajapati and Nabarangpur districts.

Japan weighs ₹8-10L cr investments in India

BESIDES MEETING PMO officials, the delegation also met the top brass of Niti Aayog and is scheduled to meet other government and business leaders over the next few days.

"The Japanese delegation expressed interest in making fresh investments across several sectors, particularly in the automobile sector and mega infrastructure projects, including proposed new high-speed rail corridors," an official familiar with the deliberations told *FE*.

The delegates also sought tax predictability rather than tax concessions and called for strengthening Indian startups. "The Japanese delegation offered collaboration between Japanese MSMEs and startups and their Indian counterparts in this regard," another official said. Mitsubishi Corporation is understood to have shown interest in the proposed Delhi-Varanasi and Varanasi-Siliguri high-speed rail corridors (bullet train projects). Currently, India is implementing the ₹2 lakh crore Mumbai-Ahmedabad high-speed rail project in collaboration with Japanese investors.

Mitsubishi acts primarily as a major industrial contractor, commercial administrator and system supplier for high-speed rail and mega-transportation projects globally. The Japanese delegation sought faster clearances and necessary project approvals. It also called for infrastructure projects to be constructed in phases so that commercial operations could begin earlier, making large projects financially sustainable, rather than waiting for their full completion before commencing operations, sources said. The delegates flagged a shortage of skilled manpower in India's high-tech industries and infrastructure projects. In this context, it was agreed that the Action Plan for India-Japan Human Resource Exchange and Cooperation, which aims to facilitate the two-way movement of more than 500,000 personnel over five years, could be used to train workers in India or Japan.

Honda also expressed interest in setting up new plants in different parts of the country. Honda Motorcycle & Scooter India (HMSI) operates four manufacturing facilities in Manesar (Haryana), Tapukara (Rajasthan), Vithalpur (Gujarat) and Narsapura (Karnataka). On Monday, it scrapped plans to invest ₹600 crore in a dedicated electric two-wheeler factory in Karnataka, which would have had an annual capacity of one million units. Driven by financial-sector transactions and manufacturing acquisitions, Japan emerged as India's top source of foreign direct investment (FDI) in Q1 FY27, contributing a record $5.71 billion during April-June. This accounted for nearly 29% of the country's total equity inflows of $19.81 billion, largely propelled by Mitsubishi UFJ Financial Group's $4.4 billion deal involving Shriram Finance.

Jio dials up finance as its next big bet

LENDING IS LEADING the charge. Jio Credit's assets under management surged 154% year-on-year to ₹37,320 crore at September-end, while quarterly disbursements nearly doubled to ₹13,135 crore. Bank of America's stake would bring capital along with expertise in risk management, governance and technology. Other businesses are gathering pace too. JioBlackRock Asset Management managed ₹22,746 crore for over 1.2 million investors at September-end, with about 40% of retail assets coming from beyond the top 30 cities. The partnership now offers investment advice from ₹350 a year and a zero-brokerage broking plan.

Jio Payments Bank had four million savings and current account customers and ₹643 crore in deposits, while its business correspondent network more than tripled to over 633,000 in a year. Jio Payment Solutions processed ₹14,700 crore of transactions in the quarter. In insurance, the reinsurance venture with Allianz underwrote about ₹240 crore in premiums during the quarter. A general and health insurance joint venture awaits regulatory approval, and the partners are exploring life insurance. Jio Insurance Broking facilitated ₹350 crore in premiums.

The logic is the same as in telecom: use a vast customer base to cut acquisition costs and cross-sell multiple products on one platform. Motilal Oswal says the company's strategic playbook is taking shape. But finance is far more tightly regulated than telecom, and JFSL is moving cautiously. Jefferies calls its approach calibrated and 'largely non-disruptive' for now, adding that the pace of expansion will be closely watched.

Whether Jio can repeat its telecom success is uncertain. But with deep-pocketed partners, an enormous customer base and businesses gaining scale, its next growth engine is beginning to take shape.

Feel Free To Explore The Czech Republic

Nestled in the heart of Europe, the Czech Republic offers far more than postcard-perfect cities. It is a dynamic, innovation-driven economy and an immersive destination that resonates strongly with Indian travellers seeking value, authenticity, and memorable experiences. For Indian entrepreneurs and tourists alike, the Czech Republic represents both a strategic business gateway to Central Europe and an enchanting, tranquil and magical place with a rich, diverse cultural heritage and breathtaking natural scenery.

The Czech Republic has long been recognised as one of Central Europe's most advanced economies. With a strong manufacturing base and a modern, export-oriented outlook, the country consistently ranks among the most industrialised in the European Union. The automotive industry is a cornerstone, with global brands such as Škoda Auto forming part of an ecosystem that includes hundreds of suppliers and advanced R&D centres. Other high-value sectors such as rail technologies, machinery, electronics, precision engineering, aerospace, nanotechnologies, and clean technologies are powered by a skilled workforce and close ties between industry and academia.

Prague and Brno host vibrant startup ecosystems in AI, cybersecurity, fintech, and space technologies, reinforcing Czechia's reputation as a future-ready economy. For Indian enterprises, the country offers a stable business environment, EU market access, and a central location that makes it an ideal logistics and investment hub.

The Czech Republic remains committed to strengthening its ties with India across multiple sectors. From advanced manufacturing and the space industry to healthcare, mobility, and sustainability, the potential for further collaboration is vast. Both nations can benefit greatly from the exchange of knowledge, technology, and expertise, with Czech companies eager to contribute to India's vision of becoming a global manufacturing hub and an economic powerhouse.

The business relations between the Czech Republic (former Czechoslovakia) and India have a rich history, with a first modern milestone being 1931, when Czech shoemaking company Bata entered the Indian market and then built up an industrial manufacturing city called Batanagar in West Bengal in 1934. This partnership set the stage for decades of cooperation.

Throughout the mid-20th century, Czechoslovakia played a key role in India's industrial development. Czech technicians were instrumental in building over 60 large and medium-sized industrial units across India, training hundreds of Indian engineers in the process. These activities laid the foundation for long-standing cooperation in various industries such as heavy machinery, chemistry, mining, metallurgy, and energy and transportation.

To name a few brands that have established themselves during the 20th century in a highly competitive Indian market, one can mention Zetor tractors, Jawa motorcycles or Tatra trucks, renowned for their heavy-duty performance, that continue to serve India as one of their largest global clients.

Fast forward to the 21st century, Czech manufacturers continue to make significant contributions to India's industrial landscape. For example, Škoda Auto has established a solid foothold in India, aligning with India's "Make in India" initiative by producing cars locally.

Other Czech companies are also exploring new opportunities in the mobility sector, particularly in city and inter-city transportation. Czech investors have already been setting up factories for manufacturing wheelsets, brake systems and associated components for rolling stock used across India's expanding rail network.

In the healthcare domain, the Czech Republic brings a wealth of experience in manufacturing and supplying medical devices, healthcare services, medical technologies, and pharmaceuticals. Great potential in partnering with India lies in emerging fields such as telemedicine, microelectronics, and optics. Given India's growing healthcare needs, this sector presents a significant opportunity for further collaboration.

India's ambitious space program has made remarkable strides in recent years, positioning the country as a global leader in space exploration and satellite technology. The Czech Republic, being home to the European Union Agency for the Space Programme (EUSPA), is well-positioned to complement India's space ambitions. In Prague and Brno, two centres of the Czech space industry, many startups are pioneering innovative upstream and downstream solutions, including satellite manufacturing, data analytics, and space-based applications. These advancements offer unique opportunities for collaboration with India in satellite technology, space data services, and joint research initiatives.

Czech businesses increasingly view India as a long-term partner rather than only a large export market. India's sustained economic growth, expanding consumer base, and strong industrial development solutions create significant opportunities. At the same time, Czech companies recognise India's strong engineering workforce and expanding research ecosystem, which also make it attractive for joint R&D.

Additional potential lies in railway modernisation, metro systems, and broader urban infrastructure projects, where Czech engineering strengths can complement India's large-scale infrastructure expansion. Energy cooperation also offers significant prospects, particularly in renewable energy technologies, energy efficiency solutions, grid modernisation, and industrial decarbonisation.

Over the next five years, the expected implementation of the EU–India Free Trade Agreement can become a decisive enabler for transforming economic cooperation between India and the Czech Republic into a genuine strategic, innovation-driven partnership. Crucially, the agreement should be seen as a two-way opportunity: it will not only improve access for Czech companies to one of the world's fastest-growing markets but equally allow Indian companies to expand their presence within the European Union through Czechia.

Anchored in the EU–India FTA framework, India and Czechia can have the opportunity to develop a balanced partnership based on reciprocity — where companies from both sides jointly innovate, invest, and compete in future-ready global industries.

India Meets Czechia – Let's Talk Business

The fifth edition of 'India Meets Czechia – Let's Talk Business' was held in Prague on October 20, 2026, with a primary focus on strengthening defence and security cooperation.

For the uninitiated, 'India Meets Czechia – Let's Talk Business' is a flagship platform that was launched to promote sector-specific economic engagement between the two countries, with the first edition in May 2025. Since its launch, the platform has successfully facilitated dialogue across strategic sectors such as Aerospace, Defence Industry Cooperation, Smart Transport & Smart Cities, Clean Environment & Green Energy, and Artificial Intelligence.

This initiative is envisaged as a series of structured bilateral engagements between relevant stakeholders from India and the Czech Republic. It aims to facilitate interaction and dissemination of information on investment and business opportunities in priority sectors endorsed in the partnership statement.

"There is a growing importance of defence cooperation between the two countries. Three of the five editions of India Meets Czechia have focused on defence, reflecting the significant potential of the sector. The next phase of cooperation should go beyond conventional buyer-seller relationships. Indian companies were encouraged to identify Czech partners with complementary technologies, explore joint production and consider establishing a presence in Czechia as a gateway to the wider European market. Similarly, Czech companies were encouraged to view India not merely as a market but as a long-term industrial and manufacturing partner."

– Raveesh Kumar, Ambassador of India to Czechia

Key Highlights from the Fifth Edition

- **Organisers:** Organised by the Society of Indian Defence Manufacturers (SIDM) and the Indian Embassy in Prague.
- **Core Focus:** Three of the five editions of the series have centred on defence cooperation, moving past traditional buyer-seller dynamics into joint production and tech partnerships.
- **Strategic Vision:** Indian companies were encouraged to use Czechia as a gateway to the broader European market, while Czech firms were urged to view India as a long-term industrial and manufacturing partner.

Key Areas of Bilateral Trade & Cooperation

- **Defence & Aerospace:** Joint manufacturing, aerospace tech, and alignment with India's Make in India and 'Atmanirbhar Bharat' initiatives. Recent high-level talks also took place in October 2026 between Indian defence and transport leaders and Czech First Deputy Prime Minister and Minister of Industry and Trade Karel Havlíček.
- **Advanced Manufacturing & Engineering:** Combining Czech precision engineering and automation with India's industrial scale.
- **Mobility & Transport:** Collaborations spanning railways, urban transit, and electric vehicles (such as engagements involving the Confederation of Indian Industry - CII and Czech forums in Mumbai and New Delhi).
- **Clean Energy & IT:** Green technology, coal/energy transition, and software-hardware integration.

It's Time To Party!

Czech Independence Day holds great significance for the Czech Republic. It marks a moment of pride and unity, celebrating the nation's freedom and identity.

The Czech Republic's National Day is celebrated annually on October 28, known as the Day of the Establishment of the Independent Czechoslovak State. It marks the declaration of independence from the Austro-Hungarian Empire in 1918, following World War I, and marks the beginning of Czechoslovakia – a pivotal chapter in Czech history. Despite a storied hundred years that featured occupation by Nazi Germany and the Soviet Union, and the separation of the Czech Republic and Slovakia in 1993, the date is still one of the most significant in both Czech and Slovak calendars.

This day reflects the Czech Republic's enduring pursuit of sovereignty, resilience, and national pride. Rooted in the establishment of an independent state following the disintegration of the Austro-Hungarian Empire after World War I, this holiday celebrates the shared vision and collaboration of the Czechs and Slovaks in pursuit of freedom. Today, National Day in the Czech Republic, or Czechia, symbolises both the nation's rich cultural heritage and its historic achievements.

Every October 28th, the Czech Republic celebrates its Independence Day with plenty of gusto. The country president's speech is televised and is followed by the awarding of medals to Czechs who have done great deeds. On the day, a few thousand of the Czech Republic's leading citizens are invited to the Independence Day ceremony at Prague Castle. The great halls of the castle are opened to the guests who partake in food, drink, and schmoozing. Countrywide celebrations took place to mark that day in 1918, when Czech emerged from the shadows of the Austro-Hungarian Empire to become a republic.

From an Indian standpoint, Czechoslovakia was among the first countries with which India established its diplomatic relations after gaining its own independence in 1947. Interestingly, India's ties with Czechoslovakia predate India's independence. Few old-timers are actually aware that the company that made the ubiquitous Bata shoes was based in a little town called Zlín in the Czech Republic. Bata Works had 120 Czechoslovak nationals employed in Calcutta even in the 1930s.

Restoration of The Czech Independence Day

Over the years since independence, Czechoslovakia was a major economic partner, establishing a number of major industrial projects in India in fields of energy, metallurgy, machine tools and defence. In 1966, India and the Czech Republic signed the Agreement on the use of nuclear energy for peaceful purposes; in 1973, the Agreement on Scientific, Technical and Industrial Cooperation was signed. India was one of the first countries that recognised the establishment of the independent Czech Republic in 1993.

In recent times, Czech companies have made approximately a hundred capital equipment deliveries to India which, in many cases, have led to the emergence of new Indian industries, such as the manufacture of tractors, steam turbines, industrial boilers and motorcycles, and the establishment of engineering metallurgy plants. Traditionally, Czech companies have also supplied India with diesel generators, machine-tools, textile machinery, printing machinery, and food-processing technology.

Back in India, the Czech Republic is largely associated with the traditional Škoda brand. In the past, this brand was mainly linked to the heavy engineering industry, but in recent times Škoda cars have become very popular in the Indian market. Besides Škoda, a number of Czech companies and experts have worked with Heavy Engineering Corporation. Škoda Power has been a technology licensor to BHEL. Jawa established itself strongly in the Indian market with its popular Yezdi model. Other Czech brands that have made a mark in India include Tatra, Bonatrans, Vítkovice, Zetor, and (of course) Bata.

Conversely, Indian companies from sectors like IT, textile, pharmaceutical and auto-components have set up shop in the Czech Republic. Infosys was the first to establish its presence in Brno. Other Indian companies that have a presence in the Czech Republic include Glenmark Pharmaceuticals, Alok Industries, Ashok Leyland, Lloyd Group, Spentex Industries, Shriram, Arcelor Mittal and Tata Tea.

As a proud nation rises to commemorate a historic occasion, India would do well to join in the celebrations of a country that has been its solid, strategic partner.

MORAVIA & SILESIA

Wine, Mountains & Traditional Villages

Moravia and Silesia are two historic regions that make up the eastern portion of the Czech Republic, with Silesia also extending deep into modern-day Poland. Four UNESCO monuments rank among the most attractive locations: the chateau and gardens in Kroměříž, the Baroque plague column in Olomouc, the Functionalist Villa Tugendhat in Brno and the Lednice-Valtice Complex, the most extensive landscaped countryside in the world. The Moravian Karst, with more than a thousand caves and Macocha Abyss, is also worth investigating. You will find two regions with unique folklore traditions in Moravia, Moravian Slovakia and Moravian Wallachia. It is also worth visiting the technical monuments in Ostrava and the former empire of the shoemaking company Bata, the city of Zlín.

BOHEMIA

CENTRAL BOHEMIA

Beautiful Countryside

In sight of Prague, a varied region spreads out, in which rivers wind through deep valleys, bordered by deep forests, where splendid castles and chateaux, mining museums, silver mines and an enchanting countryside await you. Two of the most popular destinations are the castle of Emperor Charles IV Karlštejnand Kutná Hora, a town that is listed as a UNESCO monument. Get acquainted with the last of the Habsburgs at Konopiště Chateau and wander through several types of mazes and labyrinths in the park around Loučeň Chateau. Even the furthest corners of Central Bohemia are a mere hour's journey from Prague.

NORTH BOHEMIA

Romantic Rocks & Mountains

The main tourist attractions in Bohemian Switzerland include the Pravčice Gate or boat trips through the gorges of the Kamenice River. You will also find lookout towers here, attractive lookout points on the rocks and mazes or famous pilgrimage sites. You can take a cable car up to the modern television transmitter on Ještědor, set out for Sněžka (1,602 m), the highest mountain in the Krkonoše Mountains and in the Czech Republic. You can also set out on a trip to the source of the Elbe and to visit some of the waterfalls in the Krkonoše Mountains.

SOUTH BOHEMIA

Land Of Lakes & Castles

South Bohemia is a dream paradise for holidays whether you decide to spend time sightseeing or relaxing. The countryside here offers endless possibilities for visiting places of natural beauty, but also has lots of historical monuments and great conditions for cycling and water sports. Include some charming historical cities in your programme, the most charming of which are Český Krumlov and the village of Holašovice. Both places have been listed as UNESCO monuments. And the Hluboká Chateau, founded in the 13th century as a royal Gothic guardian castle by Bohemian kings, is well worth a visit.

WEST BOHEMIA

Beer, Spas & Sheer Indulgence

Anybody who likes beer will fall in love with Plzeň (Pilsen), the European capital of culture for 2015. If you visit the city, you must especially make sure to visit the Brewery Museum and the Pilsner Urquell Brewery. West Bohemia has also been famous for centuries thanks to its spa towns. You can get into shape in Karlovy Vary, Mariánské Lázně and Františkovy Lázně, thanks to their therapeutic and wellness programmes. Indulge yourself in a walk along the colonnades, drinking and bathing in the thermal waters, and in any other pleasure which comes to mind!

4) Electricity generation is the principal activity of the Corporation.

5) The Corporation has power stations located within the region and therefore geographical segments are inapplicable.

6) Sale of energy is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be notified/approved by the CERC, sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition as per the principles enunciated in the CERC (Terms & Conditions of Tariff) Regulations 2019. For the projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries.

7) Total income for the six months includes 'Other Income' amounting to **₹1,105.33 lakhs** (previous comparative six months: **₹2,091.82 lakhs**).

8) **Formula used for computation of Ratio :**
   a. **"Debt Service Coverage Ratio" (DSCR) = [Profit before interest, Depreciation and Tax] / (Principal repayment + Interest)**
   b. **"Interest Service Coverage Ratio" (ISCR) = [Profit before interest, Depreciation and Tax]/ Interest**

Amount of Interest considered pertains to loans taken for Operational Power Stations only.

RISK TO INVESTORS

For further details please see "Risk Factors" beginning on page 21 of the Prospectus.

1. **Losses in the recent past:** Our Company has incurred losses during the three months period ended June 30, 2025 and Fiscals 2025 and 2024 of ₹(10.24) million, ₹(579.83) million and ₹(153.31) million, respectively, on a consolidated basis. While we were profitable in the three months period ended June 30, 2026 and Fiscal 2026, we cannot assure you that we will continue to remain profitable in the future. Further, in each of the three months period ended June 30, 2026 and June 30, 2025 and Fiscals 2025 and 2024, our Company had the lowest RoCE and RoE and the highest debt to equity ratio in comparison to our peers listed in India.
2. **Losses incurred by our Subsidiaries:** Our Subsidiaries, Paras Healthcare (Ranchi) Private Limited and Plus Medicare Hospitals Private Limited have collectively incurred a loss of ₹(203.82) million, ₹(520.89) million, ₹(822.38) million and ₹(872.69) million during the three months period ended June 30, 2025 and in Fiscals 2026, 2025 and 2024, respectively. We cannot assure you that these Subsidiaries will turn profitable in the future.
3. **High dependence on employees**: We are highly dependent on doctors, nurses, other healthcare professionals and housekeeping and support staff for our operations. As of June 30, 2026, we had a team of 5,315 medical professionals and support staff, comprising 1,084 doctors (of which 940 doctors are resident medical officers and consultants and 144 doctors are visiting doctors), 1,937 nurses and 2,294 other personnel (including other healthcare professionals and housekeeping and support staff). We have experienced high attrition rates of 12.01%, 16.09%, 60.38%, 66.74% and 65.27% in the three months period ended June 30, 2026 and June 30, 2025 and in Fiscals 2026, 2025 and 2024, respectively. If we are unable to reduce or manage the attrition rates of these professionals, our business, results of operations and financial condition may be adversely affected.
4. **Concentration in North India:** Five of our eight hospitals are located in North India, which include our hospitals in Gurugram and Panchkula in Haryana, Udaipur in Rajasthan, Srinagar in Jammu and Kashmir, and Kanpur in Uttar Pradesh. Any disruption, loss of business or adverse developments affecting one or more of our hospitals located in North India, or the regions in which they are located, could have an adverse effect on our business, results of operations and financial condition. The table below sets forth details of the revenue from operations generated from each of our hospitals in North India for the periods / years indicated:

Hospitals	Revenue from operations									
	Three months period ended June 30, 2026		Three months period ended June 30, 2025		Fiscal 2026		Fiscal 2025		Fiscal 2024	
	(₹ million)	%	(₹ million)	%	(₹ million)	%	(₹ million)	%	(₹ million)	%
Our hospitals in North India (A)	3,200.95	68.07%	2,464.02	66.89%	10,609.74	66.07%	8,851.95	68.40%	7,601.32	67.33%
Our hospitals outside North India (B)	1,501.83	31.93%	1,219.85	33.11%	5,449.78	33.93%	4,088.68	31.60%	3,689.07	32.67%
Total (A+B)	**4,702.78**	**100.00%**	**3,683.87**	**100.00%**	**16,059.52**	**100.00%**	**12,940.63**	**100.00%**	**11,290.39**	**100.00%**

5. **Wilful Defaulter**: The name of one of the members of our Promoter Group, Harbaksh Singh Khangura appears in the CIBIL wilful defaulter database in relation to defaults reported in 2014 against a company where he served as a director until November 30, 2013. While our Promoter Group member has confirmed that he has not been associated with the affairs of such company since November 30, 2013, had no involvement in its affairs thereafter, has not received any communication declaring him a defaulter or a wilful defaulter and has formally written to CIBIL Transunion and the lenders requesting removal of his name from the defaulter database, we cannot assure you that his name will be removed from the CIBIL defaulter database or that he will not be subject to any adverse proceedings or rulings in the future.
6. **Dependence on cardiac sciences, oncology sciences, neuro sciences, gastro sciences, orthopedics and sports injury and renal sciences (collectively, "CONGOR") specialties:** We generate a significant portion of our revenue from the provision of CONGOR specialties at our hospitals, which contributed 74.35%, 75.30%, 74.70%, 71.92% and 72.34% of our revenue from operations in the three months period ended June 30, 2026 and June 30, 2025 and Fiscals 2026, 2025 and 2024, respectively. Any adverse developments in the demand for such services could adversely affect our business, results of operations and financial condition.
7. **High Costs**: The provision of healthcare services involves high costs such as employee benefit expenses, retainers and consultants fee and purchases of stock-in-trade, which together accounted for 66.13%, 64.40%, 65.08%, 63.69% and 66.95% of our total expenses in the three months period ended June 30, 2026 and June 30, 2025 and in Fiscals 2026, 2025 and 2024, respectively. In the past, we have been unable to pass on the increase in our costs to our patients, which has impacted our revenue from operations and profitability. If our costs increase in the future and we are unable to pass them on to our patients, or if we are unable to grow our revenue in line with our costs, our business, results of operations and financial condition may be adversely affected.
8. **6 out of our 8 hospitals are located on leased premises**: We operate 6 of our 8 hospitals on leased premises and these six hospitals collectively contributed to 61.32%, 58.41%, 60.53%, 55.75% and 55.11% of our revenue from operations in the three months period ended June 30, 2026 and June 30, 2025, and in Fiscals 2026, 2025 and 2024, respectively. In addition, except for our Registered and Corporate Office, our Gurugram Hospital and our Udaipur Hospital (which is owned by our wholly-owned Subsidiary, PMHPL and leased to our Company), all of our hospitals are located on land that we have leased from third parties. Accordingly, our ability to continue to operate a substantial portion of our hospital network is dependent on the continuation and renewal of our arrangements with lessors and other counterparties.
9. **High contingent liabilities:** The table below summarises our contingent liabilities, along with as a percentage of our net worth, as at the dates indicated:

Particulars	Contingent Liabilities									
	As at June 30, 2026		As at June 30, 2025		As at March 31, 2026		As at March 31, 2025		As at March 31, 2024	
	Amount (₹ million)	% of Net Worth	Amount (₹ million)	% of Net Worth	Amount (₹ million)	% of Net Worth	Amount (₹ million)	% of Net Worth	Amount (₹ million)	% of Net Worth
Total Contingent Liabilities	3,984.42	89.55%	3,403.15	97.60%	3,905.01	98.88%	3,795.90	135.33%	2,886.23	85.26%

A significant portion of contingent liabilities (₹2,986.17 million as of June 30, 2026), as set out above, pertained to the corporate guarantee issued by our Subsidiary, PMHPL, which is in the nature of secondary collateral security in respect of certain credit facilities availed by our Company from HDFC Bank Limited, comprising term loan and cash credit facilities. The corporate guarantee is available to the lender only as an additional secondary security and is enforceable only after the lender has recourse to the primary security package created in respect of the relevant credit facilities. Subsequent to June 30, 2026 and pursuant to the revised sanction letters issued by HDFC Bank Limited dated July 25, 2026 and August 7, 2026 in respect of PMHPL and our Company, respectively, the corporate guarantees provided by our Company on behalf of PMHPL aggregating to ₹319.37 million, and the guarantee issued by PMHPL on behalf of our Company aggregating to ₹2,986.17 million as on June 30, 2026, have been waived by HDFC Bank Limited in accordance with the revised sanction terms.

10. **Outstanding litigations**: There are certain outstanding legal proceedings involving us that are pending at different levels of adjudication before various courts, tribunals and other authorities. Such proceedings could divert our management's time and attention and consume financial resources in their defence or prosecution. Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, business, financial condition and results of operations.
11. **The details of Price/Earnings, Earnings per share, Return on Net Worth, Net Asset Value Per Equity Share, Enterprise Value (EV)/ EBITDA Ratio for our Company and peer group for Fiscal 2026 are as below:**

BID/OFFER PERIOD

ANCHOR INVESTOR BIDDING DATE OPENED AND CLOSED ON MONDAY, 19 OCTOBER, 2026

BID/OFFER OPENED ON WEDNESDAY, 21 OCTOBER, 2026

BID/OFFER CLOSED ON FRIDAY, 23 OCTOBER, 2026

The Offer was made in terms of Rule 19(2)(b) of the SCRR, read with Regulation 31 of the SEBI ICDR Regulations. The Offer was made through the Book Building Process in compliance with Regulation 6(2) of the SEBI ICDR Regulations, wherein at least 75% of the Offer was made available for allocation on a proportionate basis to Qualified Institutional Buyers ("**QIBs**" and such portion, the "**QIB Portion**"), provided that our Company in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with SEBI ICDR Regulations (the "**Anchor Investor Portion**"), out of which 40% of the Anchor Investor Portion was reserved in the following manner: (i) 33.33% was reserved for domestic Mutual Funds; and (ii) 6.67% was reserved for Life Insurance Companies and Pension Funds, subject to valid Bids having been received from the domestic Mutual Funds and Life Insurance Companies and Pension Funds at or above the price at which allocation was made to Anchor Investors ("**Anchor Investor Allocation Price**"), in accordance with the SEBI ICDR Regulations. Any under-subscription of the Anchor Investor Portion reserved for Life Insurance Companies and Pension Funds could have been allocated to domestic Mutual Funds. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares could have been added to the remaining QIB Portion (the "**Net QIB Portion**"). Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. Further, not more than 15% of the Offer was made available for allocation to Non-Institutional Bidders ("**NIBs**") in accordance with the SEBI ICDR Regulations of which (a) one-third portion was reserved for applicants with application size of more than ₹200,000 and up to ₹1,000,000; and (b) two-thirds portion was reserved for applicants with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of such sub-categories could have been allocated to applicants in the other sub-category of Non-Institutional Bidders, subject to valid Bids having been received at or above the Offer Price and not more than 10% of the Offer was made available for allocation to Retail Individual Bidders ("**RIBs**") in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received from them at or above the Offer Price. All Bidders (except Anchor Investors) were mandatorily required to utilise the Application Supported by Blocked Amount ("**ASBA**") process by providing details of their respective ASBA accounts and UPI ID (defined hereinafter) in case of UPI Bidders (defined hereinafter) using the UPI Mechanism, in which case the corresponding Bid Amounts were blocked by the SCSBs or by the Sponsor Banks, as applicable under the UPI Mechanism, to participate in the Offer. Anchor Investors were not permitted to participate in the Offer through the ASBA process. For details, see "***Offer Procedure***" on page 539 of the Prospectus.
The Offer received 1,56,877 applications for 3,68,89,776 Equity Shares (including applications from Anchor Investors and prior to rejections considering only valid bids) resulting in 1.7631 times subscription. 2 The Government of India has consolidated multiple existing labour legislations into a unified framework comprising of four Labour Codes, collectively referred to as the 'New Labour Codes' and notified with effect from 21st November 2025. Based on the analysis of the information available so far and actuarial valuation, the Company has recognised an impact of Rs. 414 Million for the year ended 31st March 2026 as past service cost on post-employment defined benefits for its employees. Considering that this impact is driven by a regulatory change and is non-recurring in nature, it is classified under exceptional items in these financial results.
3 The above results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on 27th October 2026.
